SURSAC Community Roundtable

November 2, 2026

Washington State Health Care Authority

Community Roundtable Guidelines

- Consider your area of representation within SURSAC
  - E.g., “SUD treatment provider,” “Recovery housing provider,” “Expert in anti-racism,” “Outreach services provider,” etc.
- Respond to the questions while representing your own views/experiences as well as the views/experiences of others from within your professional or personal communities
  - It’s okay to “pass” if you have no response
- After SURSAC members have responded, other meeting attendees will have time to respond

SURS Plan Development & Facilitation

Thinking back over the last five years, especially the process of developing recommendations for the SURS Plan and coordination of the committee…

- What worked well regarding plan development and committee meeting planning, on an administrative/facilitation/logistics level?
- What would you want to do/try differently?
- Were there areas of representation missing from the committee?
- Do you feel that the process supported your area of expertise/experience to be well-considered in the final SURS Plan?
