CBO site provides services aimed at reducing transmission of infectious diseases to persons who use injection drugs

Does your CBO provide referral information for clients interested in testing or treatment for Hepatitis C and HIV?	Drop-down: <ul style="list-style-type: none">• Yes, via warm handoff• Yes, via providing information• No, we provide these services onsite• No, we do not refer for another reason
--	---

Potential Follow-Up Questions

The Independent Assessor (IA) and/or the Independent External Evaluator (IEE) may use these questions in follow-up conversations with partnering provider sites (practice/clinic, community-based organization) and ACHs. ACHs may elect to use them for their own follow-up activities with partnering provider sites.

- If CBO site does not provide referral information for clients interested in testing or treatment for Hepatitis C and HIV and they do not provide these services onsite, then why is the CBO not providing referral information?
