

Washington Apple Health (Medicaid)

Outpatient Hospital Services Billing Guide

April 1, 2021

Disclaimer

Every effort has been made to ensure this guide's accuracy. If an actual or apparent conflict between this document and an HCA rule arises, HCA rules apply.

Billing guides are updated on a regular basis. Due to the nature of content change on the internet, we do not fix broken links in past guides. If you find a broken link, please check the most recent version of the guide. If this is the most recent guide, please notify us at askmedicaid@hca.wa.gov.

About this guide¹

This publication takes effect **April 1, 2021**, and supersedes earlier guides to this program. Unless otherwise specified, the program(s) in this guide is governed by the rules found in Chapter **182-550** WAC.

The Health Care Authority is committed to providing equal access to our services. If you need an accommodation or require documents in another format, please call 1-800-562-3022. People who have hearing or speech disabilities, please call 711 for relay services.

Washington Apple Health means the public health insurance programs for eligible Washington residents. Washington Apple Health is the name used in Washington State for Medicaid, the children's health insurance program (CHIP), and state-only funded health care programs. Washington Apple Health is administered by the Washington State Health Care Authority.

Services, equipment, or both, related to any of the programs listed below must be billed using their specific billing guides:

- [Inpatient Hospital Services](#)
- [Physician-Related Services/Health Care Professional Services](#)

How can I get HCA provider documents?

To access provider alerts, go to HCA's [provider alerts](#) webpage.

To access provider documents, go to HCA's [provider billing guides and fee schedules](#) webpage.

¹ This publication is a billing instruction.

Where can I download HCA forms?

To download an HCA provider form, go to HCA's [Forms & publications](#) webpage. Type HCA's form number into the Search box as shown below (Example: 13-835).

What has changed?

Subject	Change	Reason for Change
Entire guide	Housekeeping changes	To improve clarity and usability
Major trauma services	Added section on major trauma services	To provide hyperlinks to HCA's Inpatient Hospital Services and Physician-Related Services/Health Care Professional Services billing guides for providers looking for information regarding increased payments for major trauma care
Office and Other Outpatient Services	<ul style="list-style-type: none"> Reorganized entire section, removing redundant references to HCA's Physician-Related Services/Health Care Professional Services Billing Guide and adding a Physician-related services/Health care professional services subsection Removed blue note box regarding Suboxone® 	To remove redundant information and streamline section

CPT® codes and descriptions only are copyright 2020 American Medical Association.

Subject	Change	Reason for Change
Stem cell therapy for musculoskeletal conditions	Added stem cell therapy for musculoskeletal conditions to the list of office and other outpatient services	Based upon review of evidence provided by the Health Technology Clinical Committee (HTCC) , HCA does not consider stem cell therapy for musculoskeletal conditions to be medically necessary.
Tinnitus	Added "Tinnitus: non-invasive non-pharmacologic treatments" to the list of office and other outpatient services	Based upon review of evidence provided by the HTCC , HCA considers cognitive behavioral therapy to be medically necessary for treatment of subjective tinnitus.
Vaccines	Created a new section for Vaccines and removed <i>Shingles vaccine when administered in outpatient hospitals</i> and <i>Herpes Zoster (Shingles) vaccine</i> sections	To consolidate vaccine information in the guide, improving clarity and reducing redundancy

Definitions

This section defines terms and abbreviations, including acronyms, used in this billing guide. Refer to [Chapter 182-500 WAC](#) and [WAC 182-550-1050](#) for a complete list of definitions for Washington Apple Health.

Authorization requirement – HCA’s requirement that a provider present proof of medical necessity evidenced either by obtaining a prior authorization number or by using the expedited prior authorization process to create an authorization number.

Budget target adjustor – A multiplier applied to the Outpatient Prospective Payment System (OPPS) payment to ensure aggregate payments do not exceed the established budget target.

Bundled services – Interventions integral to or related to the major procedure.

Discount factor – The percentage applied to additional significant procedures when a claim has multiple significant procedures or when the same procedure is performed multiple times on the same day. Not all significant procedures are subject to a discount factor.

Emergency services – Health care services required by and provided to a client after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity that the absence of immediate medical attention could reasonably be expected to result in placing the client’s health in serious jeopardy; serious impairment to bodily functions; or serious dysfunction of any bodily organ or part.

Alert: Inpatient maternity services are treated as emergency services when HCA pays a hospital for those services.

Enhanced ambulatory patient groupings (EAPG) – The payment system used by HCA to calculate reimbursement to hospitals for the facility component of outpatient services on and after October 1, 2014. This system uses 3M’s EAPGs as the primary basis for payment.

Hospital’s outpatient RCC – HCA calculates a hospital’s outpatient ratio of costs-to-charges (RCC) by multiplying the hospital’s inpatient RCC and the OPPS outpatient adjustment factor (OAF).

International classification of diseases (ICD) – The systematic listing of diseases, injuries, conditions, and procedures as numerical or alpha numerical designations (coding).

Modifier – A two-digit alphabetic and/or numeric identifier that is added to the procedure code to indicate the type of service performed. The modifier provides the means by which the reporting hospital can describe or indicate that a performed service or procedure has been altered by some specific circumstance, but not changed in its definition or code. The modifier can affect payment or be used for information only. Modifiers are listed in fee schedules.

Observation services – A well-defined set of clinically appropriate services furnished while determining whether a client will require formal inpatient admission or be discharged from the hospital. Services include ongoing short-term treatment, monitoring, assessment, and reassessment. Rarely do reasonable and necessary observation services exceed forty-eight hours. HCA or its designee may determine through the retrospective utilization review process that an inpatient hospital service should have been billed as an observation service.

OPPS – See Outpatient Prospective Payment System.

Outpatient care – See Outpatient hospital services.

Outpatient hospital – A hospital authorized by the Department of Health (DOH) to provide outpatient services.

Outpatient Prospective Payment System (OPPS) – The payment system used by HCA to calculate reimbursement to hospitals for the facility component of outpatient services. This system uses enhanced ambulatory patient groups (EAPGs) as the primary basis of payment.

Outpatient Prospective Payment System (OPPS) conversion factor – See Outpatient Prospective payment system (OPPS) rate.

Outpatient Prospective Payment System (OPPS) rate – A hospital-specific multiplier calculated by HCA that is one of the components of the EAPG payment calculation.

Outpatient RCC – See Hospital's outpatient RCC.

Pass-throughs – Certain drugs, devices, and biologicals, as identified by centers for Medicare and Medicaid Studies (CMS), for which providers are entitled to additional separate payment until the drugs, devices, or biologicals are paid per the OPPS fee schedule.

Principal diagnosis – The condition chiefly responsible for the admission of the patient to the hospital.

Policy adjustor – A payment factor that increases the reimbursement of EAPGs for clients age 17 and younger.

Revenue code – A nationally assigned coding system for billing inpatient and outpatient hospital services, home health services, and hospice services.

Significant procedure – A procedure, therapy, or service provided to a client that constitutes one of the primary reasons for the visit to the health care professional, and represents a substantial portion of the resources associated with the visit.

About the Program

What is the purpose of the outpatient hospital services program?

The purpose of the outpatient hospital services program is to provide outpatient services, emergency outpatient surgical care, and other emergency care administered to eligible clients and performed on an outpatient basis in a hospital.

How does medical necessity apply to outpatient hospital services?

(WAC 182-500-0070)

HCA pays only for covered services and items that are medically necessary.

What about outpatient hospital services provided within one calendar day of paid inpatient admission?

Providers must bill the following outpatient hospital services on the inpatient hospital claim when provided within one calendar day of a client's inpatient hospital stay:

- Preadmission
- Emergency room
- Observation services related to an inpatient hospital stay

Client Eligibility

Most Apple Health clients are enrolled in an HCA-contracted managed care organization (MCO). This means that Apple Health pays a monthly premium to an MCO for providing preventative, primary, specialty, and other health services to Apple Health clients. Clients in managed care must see only providers who are in their MCO's provider network, unless prior authorized or to treat urgent or emergent care. See HCA's [Apple Health managed care page](#) for further details.

Note: It is important to always check a client's eligibility prior to providing any services because it affects who will pay for the services.

How do I verify a client's eligibility?

Check the client's Services Card or follow the two-step process below to verify that a client has Apple Health coverage for the date of service and that the client's benefit package covers the applicable service. This helps prevent delivering a service HCA will not pay for.

Verifying eligibility is a two-step process:

- Step 1. Verify the patient's eligibility for Apple Health. For detailed instructions on verifying a patient's eligibility for Apple Health, see the Client Eligibility, Benefit Packages, and Coverage Limits section in HCA's [ProviderOne Billing and Resource Guide](#).

If the patient is eligible for Apple Health, proceed to Step 2. If the patient is not eligible, see the note box below.

- Step 2. Verify service coverage under the Apple Health client's benefit package. To determine if the requested service is a covered benefit under the Apple Health client's benefit package, see HCA's [Program benefit packages and scope of services](#) webpage.

Note: Patients who are not Apple Health clients may submit an application for health care coverage in one of the following ways:

- By visiting the [Washington Healthplanfinder's](#) website.
- By calling the Customer Support Center toll-free at: 855-WAFINDER (855-923-4633) or 855-627-9604 (TTY)
- By mailing the application to:
Washington Healthplanfinder
PO Box 946
Olympia, WA 98507

In-person application assistance is also available. To get information about in-person application assistance available in their area, people may visit the [Washington Healthplanfinder's](#) website or call the Customer Support Center.

Are clients enrolled in an HCA-contracted managed care organization (MCO) eligible?

Yes. Most Apple Health (Medicaid) clients are enrolled in one of HCA's contracted MCOs. For these clients, managed care enrollment is displayed on the client benefit inquiry screen in ProviderOne.

All medical services covered under an HCA-contracted MCO must be obtained through the MCO's contracted network. The MCO is responsible for payment of:

- Covered services
- Services referred by a provider participating with the plan to an outside provider
- Dental procedures when billed with a CDT or CPT procedure code with Operating Room Services revenue code 0360 or 0361.

Note: A client's enrollment can change monthly. Providers who are not contracted with the MCO must receive approval from **both** the MCO and the client's primary care provider (PCP) prior to serving a managed care client.

Send claims to the client's MCO for payment. Call the client's MCO to discuss payment prior to providing the service. Providers may bill clients only in very limited situations as described in WAC [182-502-0160](#).

Note: To prevent billing denials, check the client's eligibility **before** scheduling services and at the **time of the service**, and make sure proper authorization or referral is obtained from HCA-contracted MCO, if appropriate. Providers must receive authorization from the client's MCO primary care provider before providing services, **except for emergency services**. See HCA's [ProviderOne Billing and Resource Guide](#) for instructions on how to verify a client's eligibility.

Managed care enrollment

Most Apple Health (Medicaid) clients are enrolled in an HCA-contracted MCO the same month they are determined eligible for managed care as a new or renewing client. Some clients may still start their first month of eligibility in the FFS program because their qualification for MC enrollment is not established until the month following their Medicaid eligibility determination. Providers must check eligibility to determine enrollment for the month of service.

New clients are those initially applying for benefits or those with changes in their existing eligibility program that consequently make them eligible for Apple Health managed care.

Checking eligibility

- Providers must check eligibility and know when a client is enrolled and with which MCO. For help with enrolling, clients can refer to the Washington Healthplanfinder's [Get Help Enrolling](#) page.
- MCOs have retroactive authorization and notification policies in place. The provider must know the MCO's requirements and be compliant with the MCO's policies.

Clients options to change plans

Clients have a variety of options to change their plan:

- **Available to clients with a Washington Healthplanfinder account:**
- Go to [Washington Healthplanfinder website](#).
- **Available to all Apple Health clients:**
 - Visit the [ProviderOne Client Portal website](#).
 - Request a change online at [ProviderOne Contact Us](#) (this will generate an email to Apple Health Customer Service). Select the topic "Enroll/Change Health Plans."
 - Call Apple Health Customer Service at 1-800-562-3022. The automated system is available 24/7.

For online information, direct clients to HCA's [Apple Health Managed Care webpage](#).

Clients who are not enrolled in an HCA-contracted managed care plan for physical health services

Some Medicaid clients do not meet the qualifications for managed care enrollment. These clients are eligible for services under the FFS Medicaid program. In this situation, each IMC plan will have Behavioral Health Services Only (BHSO) plans available for Apple Health clients who are not in managed care. The BHSO covers only behavioral health treatment for those clients. Clients who are not enrolled in an HCA-contracted managed care plan are automatically enrolled in a BHSO, with the exception of American Indian/Alaska Native clients. Some examples of populations that may be exempt from enrolling into a managed care plan are Medicare dual-eligible, American Indian/Alaska Native, Adoption support and Foster Care alumni.

Integrated managed care (IMC)

Clients qualified for managed care enrollment will receive all physical health services, mental health services, and substance use disorder treatment through their HCA-contracted MCO.

American Indian/Alaska Native (AI/AN) clients have two options for Apple Health coverage:

- Apple Health Managed Care
- Apple Health coverage without a managed care plan (also referred to as fee-for-service [FFS])

If a client does not choose an MCO, they will be automatically enrolled into Apple Health FFS for all their health care services, including comprehensive behavioral health services. See HCA's [American Indian/Alaska Native webpage](#).

For more information about the behavioral health services available under the FFS program, see HCA's [Mental Health Services Billing Guide](#) and the [Substance Use Disorder Billing Guide](#).

For full details on integrated managed care, see HCA's [Apple Health managed care webpage](#) and scroll down to "Changes to Apple Health managed care."

Integrated Apple Health Foster Care (AHFC)

Children and young adults in the Foster Care, Adoption Support and Alumni programs who are enrolled in Coordinated Care of Washington's (CCW) Apple Health Foster Care program receive both medical and behavioral health services from CCW.

Clients under this program are:

- Under the age of 21 who are in foster care (out of home placement)
- Under the age of 21 who are receiving adoption support
- Age 18-21 years old in extended foster care
- Age 18 to 26 years old who aged out of foster care on or after their 18th birthday (alumni)

Note: These clients are identified in ProviderOne as **“Coordinated Care Healthy Options Foster Care.”**

The Apple Health Customer Services staff can answer general questions about this program. For specific questions about Adoption Support, Foster Care or Alumni clients, contact HCA's Foster Care Medical Team at 1-800-562-3022, Ext. 15480.

Fee-for-service Apple Health Foster Care

Children and young adults in the fee-for-service Apple Health Foster Care, Adoption Support and Alumni programs receive behavioral health services through the regional Behavioral Health Services Organization (BHSO). For details, see HCA's [Mental Health Services Billing Guide](#), under *How do providers identify the correct payer?*

Admissions

What are the criteria for an outpatient short stay?

HCA applies level-of-care and intensity-of-service criteria to determine if a hospital visit should be considered an inpatient stay or an outpatient stay. HCA determines if the level-of-care and intensity-of-service criteria are met.

A visit that does not meet level-of-care and intensity-of-service criteria as an inpatient claim will not be treated as or paid as an inpatient claim, even if the patient has been admitted as an inpatient. HCA may treat such a claim as an outpatient short stay, but only if level-of-care and intensity-of-service criteria as an outpatient claim are met.

A visit that does not meet level-of-care and intensity-of-service criteria as an outpatient claim will not be treated as or paid as an outpatient claim.

What is admission status?

Admission status is determined by the admitting physician or practitioner. Continuous monitoring, such as telemetry, can be provided in an observation or inpatient status. Consider overall severity of illness and intensity of service in determining admission status rather than any single or specific intervention. Specialty inpatient areas (including ICU or CCU) can be used to provide observation services. Level of care, not physical location of the bed, dictates admission status.

Some examples of typical types of admission status are:

- Inpatient
- Outpatient observation
- Medical observation
- Outpatient surgery or short stay surgery
- Outpatient (e.g., emergency room)

When to change admission status

A change in admission status is required when a client's symptoms/condition and treatment does not meet medical necessity criteria for the level of care the client is initially admitted under. The documentation in the client's medical record must support the admission status and the services billed. HCA does not pay for any of the following:

- Services not meeting the medical necessity of the admission status ordered
- Services not documented in the hospital medical record
- Services greater than what is ordered by the physician or practitioner responsible for the client's hospital care

Changing status from inpatient to outpatient observation

The attending physician or practitioner may make an admission status change from **inpatient** to outpatient observation when:

- The attending physician/practitioner or the hospital's utilization review staff, or both, determine that an inpatient client's symptoms/condition and treatment do not meet medical necessity criteria for an acute inpatient level of care and do meet medical necessity criteria for an observation level of care.
- The admission status change is made before, or on the next business day following, discharge.
- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the document must:
 - Be dated with the date of the change.
 - Contain the reason the change was not made before discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Changing status from outpatient observation to inpatient

The attending physician or practitioner may make an admission status change from **outpatient observation** to inpatient when:

- The attending physician/practitioner or the hospital's utilization review staff, or both, determine that an outpatient observation client's symptoms/condition and treatment meet medical necessity criteria for an acute inpatient level of care.
- The admission status change is made before, or on the next business day following, discharge.
- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the documentation must:
 - Be dated with the date of the change.
 - Contain the reason the change was not made before discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Changing status from inpatient or outpatient observation to outpatient

The attending physician or practitioner may make an admission status change from **inpatient or outpatient observation** to outpatient when:

- The attending physician/practitioner or the hospital's utilization review staff, or both, determine that an outpatient observation or inpatient client's symptoms/condition and treatment do not meet medical necessity criteria for observation or acute inpatient level of care.
- The admission status change is made before, or on the next business day following, discharge.

- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the documentation must:
 - Be dated with the date of the change.
 - Contain the reason the change was not made before discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Changing status from outpatient surgery/procedure to outpatient observation or inpatient

The attending physician or practitioner may make an admission status change from **outpatient surgery/procedure** to outpatient observation or inpatient when:

- The attending physician/practitioner or the hospital's utilization review staff, or both, determine that the client's symptoms/condition or treatment, or both, require an extended recovery time beyond the normal recovery time for the surgery/procedure and medical necessity for outpatient observation or inpatient level of care is met.
- The admission status change is made before, or on the next business day following, discharge.
- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the documentation must:
 - Be dated with the date of the change.
 - Contain the reason the change was not made before discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Note: During post-payment retrospective utilization review, HCA may determine the admission status ordered is not supported by documentation in the medical record. HCA may consider payment made in this circumstance an overpayment and payment may be recouped or adjusted.

Major Trauma Services

Increased payments for major trauma care

See the [Inpatient Hospital Services Billing Guide](#) or the [Physician-Related Services/Health Care Professional Services Billing Guide](#):

Surgery

Surgical and medical procedures and evaluations

For more information about HCA's surgical and medical procedures and evaluations, and for information regarding the following specific procedures and evaluations, see the [Physician-Related Services/Health Care Professional Services Billing Guide](#):

- Carotid artery stenting
- Cervical spinal fusion arthrodesis
- Drug eluting or bare metal cardiac stents
- Facet neurotomy, cervical and lumbar
- Hip resurfacing
- Hip surgery for femoroacetabular impingement syndrome
- Implantable ventricular assist devices
- Percutaneous kyphoplasty, vertebroplasty and sacroplasty
- Sacroiliac Joint Fusion
- Sterilization and hysterectomy (also see HCA's [Sterilization Supplemental Billing Guide](#))
- Transgender Surgery

Cochlear implants and bone conduction hearing devices

See the [Physician-Related Services/Health Care Professional Services Billing Guide](#) and the [Hearing Hardware Billing Guide](#).

Replacement parts or repairs for cochlear implants and bone conduction hearing devices

See HCA's [Hearing Hardware Billing Guide](#).

Corneal tissue

HCA pays for corneal tissue processing (HCPCS procedure code V2785) by acquisition cost (AC). To receive payment, providers must:

- Bill the amount paid to the eye bank for the processed eye tissue.
- Attach invoice to claim.

HCA will update the [Outpatient Prospective Payment System \(OPPS\)](#) and [Outpatient Hospitals Fee Schedule](#) to reflect this change.

Robotic assisted surgery (RAS)

Robotic assisted surgery (RAS) may be considered medically necessary. However, HCA does not pay separately for HCPCS code S2900 and reimburses only for the underlying procedure.

When billing for the underlying procedure, HCA requests billing providers to include RAS on the claim in order to track utilization and outcome. HCA monitors RAS through retrospective auditing of billing and the review of operative reports.

Skin substitutes

HCA pays for skin substitutes. See HCA's [Outpatient Hospital Fee Schedule](#).

Vagus nerve stimulator

See HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#).

Manufacturer's invoices are required for payment. Vagus nerve stimulators require prior authorization (PA) (see [Prior authorization](#)). Refer to the following table as a reference for applicable codes:

Procedure code	Short description	Comments
C1767	Generator, neuro non-recharg	Bill for a new device or complete replacement
C1778	Lead, Neurostimulator	Bill for a new device or complete replacement
C1767	Generator, neuro non-recharg	Bill for battery replacement
C1778	Lead, Neurostimulator	Bill for electrode replacement
CPT® 61885	Insrt/redo neurostim 1 array	Bill for battery replacement
CPT® 64568	Inc for vagus n elect impl	Bill for a new device or complete replacement
CPT® 64569	Revise/repl vagus n eltrd	Bill for electrode replacement

Note: To be considered for payment, the invoice for the devices must be attached to the claim.

Radiology

Radiology guidelines and procedures

For specific information regarding the following radiology procedures, see HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#):

- Functional neuroimaging for primary degenerative dementia or mild cognitive impairment
- Mammograms
- Osteopenia/osteoporosis screening and monitoring tests
- Proton beam radiation therapy
- Stereotactic body radiation therapy
- Stereotactic radiation surgery

Pathology and Laboratory

HCA bundles laboratory services as ancillary services under enhanced ambulatory patient groups (EAPG). See HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#) for information on the following services:

- Breast and/or ovarian genetic testing
- Gene expression profile testing
- Pathology and laboratory guidelines
- Pharmacogenetic testing guidelines
- Testosterone testing
- Whole exome sequencing

Office and Other Outpatient Services

When billing for the following services, follow the individual program guidelines as described in the program-specific [billing guides or fee schedules](#) listed in this section.

COVID-19

For updated information regarding COVID-19, visit HCA's [COVID-19 information webpage](#).

Diabetes education

See HCA's [Diabetes Education Billing Guide](#) for more information.

Drugs professionally administered

See the [Physician-Related Services/Health Care Professional Services Fee Schedule](#).

Kidney centers

Certified kidney centers:

- Are exempt from the Outpatient Prospective Payment System (OPPS) reimbursement methodology.
- Must bill using their NPI and kidney center taxonomy code.
- For information about kidney centers and billing, see HCA's [Kidney Center Services Billing Guide](#).

Medical nutrition therapy

HCA pays outpatient hospitals for medical nutrition therapy according to HCA's [Medical Nutrition Therapy Billing Guide](#).

National drug code format

All providers are required to use the 11-digit National Drug Code (NDC) when billing HCA for professionally administered drugs.

- **National Drug Code (NDC)** – The 11-digit number the manufacturer or labeler assigns to a pharmaceutical product and attaches to the product container at the time of packaging. The 11-digit NDC is composed of a 5-4-2 grouping. The first 5 digits comprise the labeler code assigned to the manufacturer by the Food and Drug Administration (FDA). The second grouping of 4 digits is assigned by the manufacturer to describe the ingredients, dose form, and strength. The last grouping of 2 digits describes the package size. (WAC 182-530-1050)

- The NDC **must** contain 11-digits in order to be recognized as a valid NDC. It is not uncommon for the label attached to a drug's vial to be missing leading zeros.

Neurodevelopmental providers

(WAC 182-545-900)

HCA pays certified neurodevelopmental centers according to HCA's [Neurodevelopmental Centers Billing Guide](#). A hospital must bill for neurodevelopmental services provided to outpatient clients using appropriate billing codes listed in HCA billing guides. HCA does not pay outpatient hospitals a facility fee for these services.

Do not bill more than one bill for a single client for the same services (same revenue code, procedure code, and medical provider).

Occupational therapy, physical therapy, or speech/audiology services

HCA pays for outpatient rehabilitation (which includes occupational therapy, physical therapy, and speech/audiology) provided to eligible clients as an outpatient hospital service according to WAC [182-545-200](#) and [182-550-6000](#).

When services for adults in the outpatient hospital setting are provided by physical therapists, occupational therapists, or speech therapists, benefit limits are per client, per calendar year regardless of setting (example: home health, free-standing clinic or outpatient hospital).

See HCA's [Outpatient Rehabilitation Billing Guide](#) for information about these therapies, and limitations for 19-20 year olds with Medical Care Services (MCS) or Alcohol and Drug Addiction Treatment Act (ADATSA) coverage.

A hospital must bill outpatient hospital occupational therapy, physical therapy, or speech/audiology using appropriate billing codes listed in HCA's billing guides. HCA does not pay outpatient hospitals a facility fee for such services.

Note: The maximum number of visits allowed is based on appropriate medical justification. HCA does not allow duplicate services for any specialized therapy for the same client when both providers are performing the same or similar procedure(s). If the client requires more than one therapist in the residence on the same day, HCA requires the therapist to document the therapeutic benefit of having more than one therapist for specialized therapy on the same day.

Physician-related services/Health care professional services

For the following services, see HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#):

- Drug screening for medication assisted treatment (MAT) and substance use disorders (SUD)*
- Fecal microbiota transplantation
- Foot care services
- Hyaluronic acid/viscosupplementation
- Imaging for rhinosinusitis
- Medical genetics and genetic counseling services
- Rabies immune globulin (RIG)
- Radiopharmaceutical diagnostic imaging agents
- Stem cell therapy for musculoskeletal conditions
- Telemedicine (see also HCA's [Physician-Related Services/Health Care Professional Services Fee Schedule](#).)
- Tinnitus: non-invasive, non-pharmacologic treatments
- Treatment of chronic migraine and chronic tension-type headache
- Varicose vein treatment
- Vision care services

Sleep medicine testing (sleep apnea)

(WAC 182-531-1500)

See HCA's [Sleep Centers Billing Guide](#).

Spinraza™

HCA requires prior authorization for Spinraza™. Providers must bill for Spinraza™ on a UB-04 claim form, listing the units used on each line of the claim. Bill using the actual acquisition cost and include the invoice with the claim.

Vaccines

- HCA pays for vaccines administered according to the current Centers for Disease Control (CDC) Advisory Committee on Immunization Practices (ACIP) immunization schedules for adults and children in the United States, including catch-up schedules.

Note: HCA pays for only those vaccines listed on the CDC immunization schedules.

- HCA does not pay for vaccines recommended or required for the sole purpose of international travel (e.g., yellow fever, typhoid, Japanese encephalitis, etc.). For detailed guidance on vaccines, refer to the [CDC's website](#).
- For more information on vaccines HCA pays for, refer to the sections on vaccines in the [Physician-Related Services/Health Care Professional Services Billing Guide](#) and the [Early and Periodic Screening, Diagnosis, and Treatment \(EPSDT\) Billing Guide](#).
- For a list of vaccines paid for by HCA according to CPT® code, refer to HCA's [Professional Administered Drugs Fee Schedule](#).

Centers of Excellence (COEs)

Where can I find HCA-approved COEs?

See HCA's approved centers of excellences (COEs) for sleep centers and organ transplants:

- [COEs for sleep study centers](#)
- [COEs for organ transplants](#)

What services must be performed in HCA-approved COEs?

The following services must be performed in HCA-approved centers of excellence (COEs). See HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#) for more information:

- Bariatric surgeries
- Hemophilia treatment
- Organ transplants
- Sleep studies

Medical Necessity Review by Comagine Health

What is a medical necessity review by Comagine Health?

HCA contracts with Comagine Health to provide web-based access for reviewing for medical necessity and surgical procedures for the following:

- Outpatient advanced imaging services
- Select surgical procedures
- Spinal injections, including diagnostic selective nerve root blocks
- Carpal tunnel release
- Major joints
- Spinal, including facet injections
- Thoracic outlet release
- Upper and lower extremities
- Facet neurotomy, cervical and lumbar

Comagine Health conducts the review of the request to establish medical necessity, but **does not** issue authorizations. Comagine Health forwards its recommendations to HCA for final authorization determination. The procedure codes that require review by Comagine Health can be found in HCA's [Physician-Related/Professional Health Care Services fee schedule](#).

For more information about the requirements for submitting medical necessity reviews for authorization, see Medical Necessity Review by Comagine Health in HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#).

Note: This process through Comagine Health is for Washington Apple Health (Medicaid) clients enrolled in fee-for-service **only**. Authorization requests for managed care clients will **not** be authorized.

Note: To prevent billing denials, check the client's eligibility **before** scheduling services and at the **time of the service** and make sure proper authorization or referral is obtained. Providers must receive authorization from the client's primary care provider before providing services, **except for emergency services**. See HCA's [ProviderOne Billing and Resource Guide](#) for instructions on how to verify a client's eligibility.

What imaging procedures require medical necessity review by Comagine Health?

HCA and Comagine Health have contracted to provide web-based submittal for utilization review services to establish the medical necessity of selected procedures. Comagine Health conducts the review of the request to establish medical necessity, but **does not** issue authorizations. Comagine Health forwards its recommendations to HCA for final authorization determination. For additional information see Medical Necessity Review by Comagine Health in HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#).

Authorization

(WAC 182-531-0200)

Authorization is HCA's approval for covered services, equipment, or supplies before the services are provided to clients, as a precondition for provider reimbursement. **Prior authorization (PA), expedited prior authorization (EPA), and limitation extensions (LE) are forms of authorization.**

Prior authorization (PA)

What is PA?

PA is the process HCA uses to authorize a service **before it is provided** to a client. The PA process applies to covered services and is subject to client eligibility and program limitations. Bariatric surgery is an example of a covered service that requires PA. PA does not guarantee payment.

For psychiatric inpatient authorizations, see HCA's current [Mental Health Services Billing Guide](#).

Note: In addition to receiving PA, the client must be on an eligible program. For example, a client on the Family Planning Only program would not be eligible for bariatric surgery.

For examples on how to complete a PA request, see HCA's [Billers, providers, and partners webpage](#).

Note: HCA reviews requests for payment for noncovered health care services according to WAC [182-501-0160](#) as an exception to rule (ETR).

How does HCA determine PA?

For information on how HCA determines PA, see HCA's current [the Physician-Related Services/Health Care Professional Services Billing Guide](#).

Services requiring PA

See HCA's current [Physician-Related Services/Health Care Professional Services Billing Guide](#).

How do I request PA?

When a procedure's EPA criteria has not been met or the covered procedure requires PA, providers must request prior authorization from HCA. Procedures that require PA are listed in the fee schedule. HCA does not retrospectively authorize any health care services that require PA after they have been provided except when a client has delayed certification of eligibility.

Online submission by direct data entry into ProviderOne

Providers may submit a prior authorization request by direct data entry into ProviderOne or by submitting the request in writing (see HCA's [Prior authorization webpage](#) for details).

Written or fax request

Providers who choose to submit a written or fax PA request must provide all of the following with the request:

- The General Information for Authorization form. This form must be page one of the mailed/faxed request and must be typed. See [Where can I download HCA forms?](#)
- The program form. This form must be attached to the request.
- Charts and justification to support the PA request.

Submit written or fax PA requests (with forms and documentation) to:

- By Fax: (866) 668-1214
- By Mail:
Authorization Services Office
PO Box 45535
Olympia, WA 98504-5535

For a list of forms and where to send them, see [Documentation requirements for PA or LE](#). Be sure to complete all information requested. HCA returns incomplete requests to the provider.

Submission of photos and X-rays for medical and DME requests

For submitting photos and X-rays for medical and DME requests, use the FastLook™ and FastAttach™ services provided by Vyne Medical. Register [online](#) with Vyne Medical. Contact Vyne Medical at 865-293-4111 with any questions.

When this option is chosen, fax the request to HCA and indicate the MEA# in the NEA field (box 18) on the *PA Request form*. **There is an associated cost, which will be explained by the MEA services.**

Note: See HCA's ProviderOne Billing and Resource Guide for more information on requesting authorization.

Limitation extension (LE)

What is an LE?

LE is an authorization of services beyond the designated benefit limit allowed in Washington Administration Code (WAC) and HCA billing guides.

How do I request an LE?

For information on how to request an LE, see [Documentation requirements for PA or LE](#) and HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#).

Documentation requirements for PA or LE

How do I obtain PA or LE?

To obtain PA or LE, providers must do either of the following:

- **Submit by direct data entry into ProviderOne.** See HCA's [Prior authorization webpage](#) for details.
- **Submit request in writing or by fax** along with the following documentation:
 - A completed, TYPED *General Information for Authorization* form. This request form MUST be the initial page of the request.
 - A completed *Fax/Written Request Basic Information* form, if there is not a form specific to the service being requested, and all the documentation is listed on this form with any other medical justification.

To obtain a copy, see [Where can I download HCA forms?](#) **Fax the request to:** (866) 668-1214.

Forms available to submit authorization requests

- *Application for Chest Wall Oscillator*
- *Bariatric Surgery Request* form
- *Fax/Written Request Basic Information* form
- *Oral Enteral Nutrition Worksheet*
- *Out of State Medical Services Request* form

Forms available to submit authorization requests for medication

See HCA's current [Physician-Related Services/Health Care Professional Services Billing Guide](#).

Outpatient prospective payment system (OPPS)

How does HCA pay for outpatient hospital services?

HCA pays for outpatient hospital services using several payment methods including, but not limited to, the following:

- Enhanced ambulatory patient group (EAPG)
- Maximum allowable fee schedule
- Ratio of costs-to-charges (RCC)

HCA's outpatient Prospective payment system (OPPS) uses an EAPG-based reimbursement method as its primary reimbursement method. HCA uses the EAPG software provided by 3MTM Health Information Systems to group OPPS claims based on services performed and resource intensity.

Note: Only hospitals paid by HCA using the Critical Access Hospital payment methodology are exempt from OPPS. See WAC [182-550-7000](#).

How does HCA determine the payment method for OPPS?

HCA's payment method for OPPS is generally determined by the procedure and revenue codes on the claim line(s). HCA pays OPPS hospitals using the following methods in the following order:

- The EAPG method is used to pay for covered services for which 3MTM Health Information Systems has established an EAPG weight.
- The fee schedule is used to pay for covered services for which there is no established EAPG weight and for services exempted from EAPG payment.
- The hospital's outpatient RCC, as described in WAC [182-550-4500](#), is used to pay for the covered services for which HCA has not established a maximum allowable fee.

What is the OPPS payment calculation?

HCA calculates the EAPG payment as follows:

EAPG payment =	$\begin{aligned} & \text{EAPG relative weight} \times \\ & \text{Hospital-specific conversion factor} \times \\ & \text{Discount factor (if applicable)} \times \\ & \text{Policy adjustor (if applicable)} \end{aligned}$
----------------	--

The total OPPS claim payment is the sum of the EAPG payments plus the sum of the allowed amounts for each non-EAPG service.

If a client's third-party liability insurance has made a payment on a service, HCA subtracts any such payments made from the Medicaid allowed amount.

OPPS payment enhancements

HCA has established policy adjustors for the following services effective July 1, 2014:

Adjustment	Service	Adjustor
Pediatric	EAPG services for clients under age 18 years	1.35
Chemotherapy and Combined Chemotherapy/ Pharmacotherapy	Services grouped as chemotherapy drugs or combined chemotherapy and pharmacotherapy drugs	1.1

When billing for chemotherapy and/or pharmacotherapy drugs, HCA may allow for billing more than one service line for the same date of service, revenue code, CPT/HCPCS code, and NDC.

Billing

Note: All claims must be submitted electronically to HCA, except under limited circumstances. For more information, see HCA's [ProviderOne Billing and Resource Guide webpage](#) and scroll down to Paperless billing at HCA. For providers approved to bill paper claims, visit the same webpage and scroll down to Paper Claim Billing Resource.

What are the general billing requirements?

Providers must follow HCA's [ProviderOne Billing and Resource Guide](#). These billing requirements include, but are not limited to, all of the following:

- What time limits exist for submitting and resubmitting claims and adjustments
- When providers may bill a client
- How to bill for services provided to primary care case management (PCCM) clients
- How to bill for clients eligible for both Medicare and Medicaid
- How to handle third-party liability claims
- What standards to use for record keeping

What additional outpatient hospital billing requirements are there?

National correct coding initiative (NCCI)

Providers are required to bill according to National Correct Coding Initiative (NCCI) standards. NCCI standards are based on coding conventions defined in the American Medical Association's Current Procedural Terminology (CPT®) manual, current standards of medical and surgical coding practices, input from specialty societies, and analysis of current coding practices. The Centers for Medicare and Medicaid Services (CMS) maintains NCCI policy.

Information on [NCCI](#) can be found online.

HCA payment systems require consistent input to operate correctly. Providers are required to comply with these standards for HCA to make accurate and timely payment.

Medically Unlikely Edits (MUEs) - Part of the NCCI policy are MUEs. MUEs are the maximum unit of service per HCPC or CPT code that can be reported by a provider under most circumstances for the same patient on the same date of service. Items billed above the established number of units are automatically denied as a "Medically Unlikely Edit." Not all HCPCS or CPT codes are assigned an MUE. HCA follows the CMS MUEs for all codes.

Note: HCA may have units of service edits that are more restrictive than MUEs. MUEs are based on CMS guidelines and do not guarantee Apple Health coverage. See the [fee schedule](#) for Apple Health coverage.

All hospitals must bill all claims in a completely OPPS-ready format, as outlined by CMS, and:

- Use CMS acceptable procedure codes where required.
- Use appropriate modifiers.
- Use appropriate units of service.
- Ensure all services provided on a single date of service are billed on the same claim form.

Hospitals are required to bill using applicable revenue codes, CPT® codes, HCPCS codes, and modifiers. All hospitals must use these codes and the line item date of service regardless of Outpatient Prospective Payment System (OPPS) participation. For a list of all procedures and their associated fees, see HCA's [Outpatient Prospective Payment System \(OPPS\) and Outpatient Hospitals Fee Schedule](#).

Outpatient short stay charges, emergency room facility charges, and labor room charges are covered in combination when time periods **do not** overlap.

Hospitals must report the line item service date, the admit hour, and the discharge hour on every outpatient claim.

Multiple visits on the same day must be unrelated in order to receive more than one payment.

Physicians' professional fees must be billed on a professional claim (see HCA's [Physician-Related Services/Health Care Professional Services Billing Guide and Fee Schedule](#)) and must be billed under the physician NPI.

Note: All services for the same episode of care or visit must be on the same claim.

How are outpatient hospital services prior to admission paid?

Related outpatient hospital services, including pre-admission, emergency room, and observation services related to an inpatient hospital stay and provided within one calendar day of a client hospital stay, must be billed on the inpatient hospital claim. See WAC [182-550-6000 \(3\)\(c\)](#). The "from" and "to" dates on the hospital claim should cover the entire span of billed services. The admit date is the actual date of admission.

How is billing different for outpatient hospital services in hospital-based clinics?

HCA requires clinics to bill for outpatient services in one of the following ways:

- If the Department of Health (DOH) has designated the clinic as a hospital-based entity, for HCA to reimburse the clinic and the associated hospital for services provided to Washington Apple Health clients, the hospital must submit to HCA an institutional claim with the facility fees in the Total Claim Charge field.
- If DOH has not designated the clinic as a hospital-based entity, the clinic must submit to HCA a professional claim containing both of the following:
 - The facility and the professional fees in the Submitted Charges field
 - The place of service (POS) 11 (office setting) in the Place of Service field

Medicare and Medicaid policy prohibit the hospital from billing a facility fee in this circumstance. HCA will reimburse the clinic the nonfacility-setting fee.

In both of the above circumstances, clinics must follow the current instructions in this billing guide related to billing for outpatient services in an office setting.

What are packaged (bundled) services?

Using the EAPG system, HCA packages (bundles) some ancillary services. This simply means these services are included in the EAPG payment rate for a significant procedure or medical visit, rather than being separately reimbursed.

For example: A chest X-ray may be packaged into the payment for a pneumonia visit. Although the detail of the packaged ancillary will show an allowed amount of \$0, the packaging of ancillary services does not imply that there is no payment associated with the packaged ancillary. The cost of the packaged ancillaries is included in the payment amount for the significant procedure or medical visit EAPG.

The ancillary services to be packaged are selected primarily on clinical grounds, as established by the EAPG system. So, only ancillaries clinically expected to be a routine part of the specific procedure or medical visit are packaged.

Note: HCA will deny ancillary services not separately reimbursable if the primary procedure is denied and there is no significant procedure or medical visit to which the ancillary service can be packaged.

Where can I find applicable procedure codes?

HCA's [Outpatient Prospective Payment System \(OPPS\) and Outpatient Hospitals Fee Schedule](#) is a systematic listing and coding of procedures and services provided in outpatient settings. This fee schedule is based on both CPT and Level II HCPCS books. Each procedure is identified by a five-character code to simplify reporting.

A legend outlining coverage indicators is located on the second tab of the fee schedule. The *Auth* column outlines potential limitations. See the parent program guidelines for additional information.

Professional components must be billed on a professional claim. See HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#).

What modifiers do I bill with?

HCA follows the NCCI guidelines for the use of modifiers, and accepts only the following CPT® approved modifiers on outpatient claims:

- 25
- 50
- 58
- 73
- 76
- 78
- 91

- 27
- 52
- 59
- 74
- 77
- 79
- CA
- XE
- XP
- XS
- XU
- G0

Inappropriate use of modifiers may result in claim line denials.

Note: Do not bill modifier 59 in combination with modifiers XE, XP, XS, or XU.

Modifier PO, department of a provider, and provider-based entities

Providers must bill with modifier PO for any outpatient hospital service furnished in an off-campus department of a provider, or by an off-campus provider-based entity. For these purposes, a “campus” includes both of the following:

- The physical area immediately adjacent to the provider’s buildings
- Any other area or structure that is not strictly contiguous to the main building, but is located within 250 yards of the main building

Note: For a definition of “department of a provider” or “provider-based entity,” see [42 CFR 413.65\(a\) \(2\)](#). Remote locations under [42 CFR 413.65\(a\) \(2\)](#) and satellite facilities under [42 CFR 412.22\(h\)](#) are exempt from the PO modifier billing requirement.

Where can I find the revenue code grids?

The revenue code grids are located on HCA’s [Hospital reimbursement website](#).

Use only the revenue and procedure codes that appear in the revenue code grids on the website above when billing for any outpatient hospital services. Use of any other codes will result in delay or denial of your claim.

How do I bill for services provided to CHAMPUS clients?

See HCA's [ProviderOne Billing and Resource Guide](#) to get information about billing for Civilian Health and Medical Programs of the Uniformed Service (CHAMPUS) clients.

How do I bill for noncovered services?

HCA requires all services to be listed on an institutional claim, whether they are covered or noncovered, per requirements by CMS and UB-04.

The following are examples of **other** noncovered items for hospitals. If one of these items has a revenue code, report the appropriate code and enter the charges in the Noncovered Line Charges field on the electronic institutional claim. Services not identified by a revenue code should be placed under the subcategory **General Classification**.

- Bed scales (if person is ambulatory)
- Cafeteria
- Circumcision tray (routine circumcisions)
- Crisis counseling
- Crutches (rental only is covered, no instruction)
- Experimental or investigational medical services and supplies
- Father's pack (not medically necessary)
- Food supplements (except for qualified providers)
- Home health services
- Lab handling charges
- Medical photographic electronic and video records
- Non-patient room rentals
- Operating room set-up (when not utilized)
- Oxygen equipment set-up (when not utilized)
- Personal care items (e.g., slippers, toothbrush, combs)
- Portable x-ray charges (portable charge fee is included in fee for procedures)
- Psychiatric day care
- Recreational therapy
- Routine tests and procedures (e.g., admission batteries, pre-anesthesia chest x rays, fetal monitoring, etc.) are only covered if medically necessary* and approved by physician.
- Standby equipment charges (for oxygen, anesthesia, and surgery when no actual service is performed)

- Take home drugs/supplies
- Telephone/telegraph/fax
- Transportation (provided during hospital stay)
- Travel time
- Whole blood (Administration of blood is covered. These charges must clearly indicate administration fees.)

How do I bill for single-dose vials?

For single-dose vials, bill for the total amount of the drug contained in the vial(s), including partial vials. Based on the unit definition for the HCPCS code, HCA pays providers for the total number of units contained in the vial.

For example: If a total of 150 mg of Etoposide is required for the therapy, and two 100 mg single dose vials are used to obtain the total dosage, then the total of the two 100 mg vials is paid. In this case, the drug is billed using HCPCS code J9181 (Etoposide, 10 mg). If HCA's maximum allowable fee is \$4.38 per 10 mg unit, the total allowable is \$87.60 (200 mg divided by 10 = 20 units x \$4.38).

For HCA requirements on splitting single dose vials, see *Billing for single-dose vials (SDV)* in HCA's [Prescription Drug Program Billing Guide](#).

How do I bill for multi-dose vials?

For multi-dose vials, bill **only** for the amount of the drug administered to the client. Based on the unit definition (rounded up to the nearest whole unit) of the HCPCS code, HCA pays providers for only the amount of drug administered to the client.

For example: If a total of 750 mg of Cytarabine is required for the therapy, and is taken from a 2,000 mg multi-dose vial, then only the 750 mg administered to the client is paid. In this case, the drug is billed using HCPCS code J9110 (Cytarabine, 500 mg). If HCA's maximum allowable fee is \$23.75 per 500 mg unit, the total allowable is \$47.50 [750 mg divided by 500 = 2 (1.5 rounded) units x \$23.75].

How do independent labs bill for pathology services?

HCA requires independent laboratories to bill hospitals for the technical component of anatomic pathology services provided to hospital inpatients and outpatients. To prevent duplicate payment, HCA will not pay independent laboratories if they bill HCA for these services.

Note: HCA replaced CMS policy for type of bill 141 with the EAPG payment system. See [How does HCA determine the payment method for OPPS?](#)

How does HCA pay for outpatient observation?

HCA follows the logic of the EAPG grouper for outpatient observation services.

Observation EAPG payment policy

Under the EAPG system, there are five different observation EAPGs.

EAPG 450

G0378 is present

- If there is also a Medical Visit Indicator (EAPG 491) the line receives full payment
- If G0378 is billed with less than 8 units, the line groups to EAPG 0999
- If G0378 is billed with a significant procedure, the line is packaged
- If there is also an Observation Indicator (EAPG 492) then the line will group to EAPG 500, 501, or 502
- If no Medical Visit Indicator, Observation Indicator, or no significant procedure, the line will group to EAPG 0999

EAPG 492

G0379 or an observation E/M is present

- If billed with a significant procedure, this line is packaged
- If billed with G0378, then the line will group to EAPG 500, 501, or 502
- If billed without a significant procedure or G0378, the line groups to EAPG 0999

EAPG 500

This EAPG is assigned and receives full payment if all of the following criteria are met:

- There is an Observation Indicator present
- G0378 is present
- The principal diagnosis is obstetrical

EAPG 501

This EAPG is assigned and receives full payment if both of the following criteria are met:

- There is an Observation Indicator present
- G0378 is present

EAPG 502

This EAPG is assigned and receives full payment if all of the following criteria are met:

- There is an Observation Indicator present,
- G0378 is present
- The principal diagnosis is behavioral health

Note: Observation E/M codes are noted as 99217-99220, 99224-99226, and 99234-99236². The procedure code must be covered to qualify.

EAPG 0999 cannot be grouped and lines returning this value are denied.

Observation is defined as an hourly code and has a maximum of 24 units per date of service. Units over this amount are not valid and may cause the line to deny.

How do I bill for neonates/newborns?

For services provided to a newborn who has not yet received a Services Card, bill HCA using the parent's ProviderOne Client ID in the appropriate fields on the claim. For more information on how to bill for neonates, including infants who will be placed in foster care, see the [Inpatient Hospital Services Billing Guide](#).

When billing electronically for multiple births using the mother's ProviderOne number, enter each infant's identifying information in the Billing Note section of the claim. Use the following claim indicators to identify which infant is being served: SCI=BA for the first infant, SCI=BB for the second infant, and SCI=BC for the third infant, in the case of triplets. The claim may be denied if there is no identifying information for the twin/triplet.

Note: Bill services for mothers on separate claims.

For information regarding family planning services, including long acting reversible contraceptives (LARC), see the [Family Planning Billing Guide](#).

How do I bill claims electronically?

Instructions on how to bill Direct Data Entry (DDE) claims can be found on HCA's [Billers, providers, and partners webpage](#), under [Webinars](#).

For information about billing Health Insurance Portability and Accountability Act (HIPAA) Electronic Data Interchange (EDI) claims, see the ProviderOne 5010 companion guides on the [HIPAA Electronic Data Interchange \(EDI\) webpage](#).

Note: When billing for clients, make sure to include patient status.

² CPT® codes and descriptions only are copyright 2020 American Medical Association.

How do I submit institutional services on a crossover claim?

- Mark “Yes” for the question, “Is this a Medicare Crossover Claim?” in the electronic claim. (If Medicare makes a payment or allows the services, Medicaid considers it a crossover.)
- See the [ProviderOne Billing and Resource Guide](#) and the [Fact Sheets webpage](#) to get more information about submitting Medicare payment information electronically and to find out when paper backup must be attached.
- Enter the third-party (e.g. Blue Cross) supplement plan name in the Other Insurance Information section of the electronic claim. See the [Submit an Institutional Claim with Primary Insurance other than Medicare webinar](#) for further assistance with submitting third-party insurance information.

What does HCA require from the provider-generated Explanation of Medicare Benefits (EOMB) to process a crossover claim?

Header level information on the EOMB must include all the following:

- Medicare as the clearly identified payer
- The Medicare claim paid or process date
- The client’s name (if not in the column level)
- Medicare Reason codes
- Text in font size 12 or larger

Column level labels on the EOMB for the UB-04 must include all the following:

- The client’s name
- From and through dates of service
- Billed amount
- Deductible
- Co-insurance
- Amount paid by Medicare (PROV PD)
- Medicare Reason codes
- Text that is font size 12
