DATA SOURCE: Administrative data (ProviderOne).

NOTES: WiSe services include WiSe service encounters recorded in P1 data system, including all behavioral health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using January 2019 Behavioral Health Organization (BHO) and IMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WiSe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WiSe "U8" service encounters during the month. No lag factors applied. Median lifetable length of stay shown for episodes of WiSe services starting in time period specified. ¹Because SUD data is not available prior to April 2016, SUD services are underreported. *Table omits encounters from SFY 2020 forward (July 2019-) for North Central youth whose WiSe provider was Grant Integrated Services. This provider is currently in the process of resubmitting encounter data for this period with known issues.

DATA SOURCE: Administrative data (ProviderOne).

NOTES: WISe services include WISe service encounters recorded in P1 data system, including all behavioral health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using January 2019 Behavioral Health Organization (BHO) and IMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. No lag factors applied. Median lifetable length of stay shown for episodes of WISe services starting in time period specified. *Because SUD data is not available prior to April 2016, SUD services are underreported. *Table omits encounters from SFY 2020 forward (July 2019-) for North Central youth whose WISe provider was Grant Integrated Services. This provider is currently in the process of resubmitting encounter data for this period with known issues.
