**Washington State Health Care Authority**
**Medicaid**

**Provider Notice 12-90**

Dear Provider,

**Effective for dates of service on and after November 1, 2012,** the Medicaid Program of the Health Care Authority (Agency) is publishing a revised Maternity Support Services/Infant Case Management Medicaid Provider Guide. The guide's revisions were made to increase the Agency's data collection capabilities.

Specific changes to the guide include:

- Adding TF and TG modifiers for clients with risk factors at expanded or maximum levels for Maternity Support Services' procedure codes.

- Clarifying use of modifiers for American Indian/Alaska Native (AI/AN) and nonnative clients for both Maternity Support Services and Infant Case Management.

- Making housekeeping changes for accuracy.

For more details, see the "What Has Changed" table in the Maternity Support Services/Infant Case Management Medicaid Provider Guide. This guide is currently undergoing comprehensive changes and will be republished in the upcoming months.

(Note: The newly automated table of contents in this guide is now "clickable," meaning you can click on a page number to go directly to a section. As an Adobe [.pdf] document, the guide also is easily navigated by using bookmarks on the left side of the document.)

Thank you.
