# **Hearing Hardware for Clients 20 Years of Age and Younger Provider Guide**

February 1, 2015

Washington State  
Health Care Authority

## About this guide\*

This publication takes effect February 1, 2015, and supersedes earlier guides to this program.

Washington Apple Health means the public health insurance programs for eligible Washington residents. Washington Apple Health is the name used in Washington State for Medicaid, the children's health insurance program (CHIP), and state-only funded health care programs. Washington Apple Health is administered by the Washington State Health Care Authority.

## What has changed?

Subject	Change	Reason for Change
<a href="#">Cochlear implant - replacement parts</a>	Added bilateral cochlear implants as a covered benefit for clients 20 years of age and younger.	Health Technology Assessment decision – Revised rules under WAC 182-547-0800
<a href="#">Are clients enrolled in managed care eligible?</a>	Effective for dates of service on and after January 1, 2015, hearing aids are now covered under the agency's contracted managed care organizations.	Policy change
<a href="#">Coverage Table</a>	Add HCPCS code L8693 Auditory osseointegrated device abutment, replacement only	Code missing from the coverage table

## How can I get agency provider documents?

To download and print agency provider notices and provider guides, go to the agency's [Provider Publications](#) website.

# Definitions

---

This section defines terms and abbreviations, including acronyms, used in this guide. Please refer to the Medicaid agency's online [Medical Assistance Glossary](#) for a more complete list of definitions.

**Bone-anchored hearing aid (Baha)** – A type of hearing aid based on bone conduction. It is primarily suited to people who have conductive hearing losses, unilateral hearing loss, and people with mixed hearing losses who cannot otherwise wear ‘in the ear’ or ‘behind the ear’ hearing aids.

**Cochlear implants** - A cochlear implant is a small, complex electronic device that can help to provide a sense of sound to a person who is profoundly deaf or severely hard-of-hearing. The implant consists of an external portion that sits behind the ear and a second portion that is surgically placed under the skin.

**Digital hearing aids** – Hearing aids that use a digital circuit to analyze and process sound. ([WAC 182-547-0200](#))

**Hearing aids** - Wearable sound-amplifying devices that are intended to compensate for hearing loss. Hearing aids are described by where they are worn in the ear as in-the-ear (ITE), behind-the-ear (BTE), etc. Hearing aids can also be described by how they process the amplified signal. This would include analog conventional, analog programmable, digital conventional, and digital programmable. ([WAC 182-547-0200](#))

**Hearing health care professional** – An audiologist or hearing aid fitter/dispenser licensed under [Chapter 18.35 RCW](#), or an otorhinolaryngologist or otologist licensed under [Chapter 18.71 RCW](#). ([WAC 182-547-0200](#))

**Maximum allowable fee** - The maximum dollar amount that the agency will pay a provider for specific services, supplies, and equipment. ([WAC 182-547-0200](#))

**Prior authorization** – A form of authorization used by the provider to obtain approval for a specific hearing aid and service(s). The approval is based on medical necessity and must be received before service(s) are provided to clients as a precondition for payment. ([WAC 182-547-0200](#))

**Programmable hearing aids** – Hearing aids that can be “programmed” digitally by a computer. *All digital hearing aids are programmable, but not all programmable hearing aids are digital.*

**Usual & customary fee** - The rate that may be billed to the agency for a certain service or equipment. This rate may not exceed either of the following:

- 1) The usual and customary charge that you bill the general public for the same services
- 2) If the general public is not served, the rate normally offered to other contractors for the same services

# About the Program

---

## When does the agency pay for hearing aids?

([WAC 182-547-0100](#))

The agency pays for hearing aids when they are:

- Covered.
- Within the scope of an eligible client's [Benefit Package](#).
- Medically necessary.
- Authorized as required within these billing instructions and [Chapters 182-501](#) and [182-502 WAC](#).
- Billed according to these billing instructions and Chapters [182-501](#) and [182-502 WAC](#).
- Provided to an eligible client. (See [Who is eligible?](#))

# Client Eligibility

---

## How can I verify a patient's eligibility?

([WAC 182-547-0700\(1\)](#))

Providers must verify that a patient has Washington Apple Health coverage for the date of service, and that the client's benefit package covers the applicable service. This helps prevent delivering a service the agency will not pay for.

Verifying eligibility is a two-step process:

**Step 1. Verify the patient's eligibility for Washington Apple Health.** For detailed instructions on verifying a patient's eligibility for Washington Apple Health, see the *Client Eligibility, Benefit Packages, and Coverage Limits* section in the agency's current [ProviderOne Billing and Resource Guide](#).

If the patient is eligible for Washington Apple Health, proceed to **Step 2**. If the patient is **not** eligible, see the note box below.

**Step 2. Verify service coverage under the Washington Apple Health client's benefit package.** To determine if the requested service is a covered benefit under the Washington Apple Health client's benefit package, see the agency's [Health Care Coverage—Program Benefit Packages and Scope of Service Categories](#) web page.

**Note:** Patients who are not Washington Apple Health clients may submit an application for health care coverage in one of the following ways:

1. By visiting the Washington Healthplanfinder's website at:  
[www.wahealthplanfinder.org](http://www.wahealthplanfinder.org)
2. By calling the Customer Support Center toll-free at: 855-WAFINDER (855-923-4633) or 855-627-9604 (TTY)
3. By mailing the application to:  
Washington Healthplanfinder  
PO Box 946  
Olympia, WA 98507

In-person application assistance is also available. To get information about in-person application assistance available in their area, people may visit [www.wahealthplanfinder.org](http://www.wahealthplanfinder.org) or call the Customer Support Center.

## Hearing Hardware for Clients 20 Years of Age and Younger

Clients 20 years of age and younger who are receiving services under a Benefit Package:

- Are eligible for the covered hearing aids and services listed in these billing instructions and for the audiology services listed in the agency's [Physician-Related Services/Health Care Professional Services](#) Medicaid Provider Guide.
- Must have a complete hearing evaluation, including an audiogram and/or developmentally appropriate diagnostic physiologic test results performed by a hearing healthcare professional.
- Must be referred by a licensed audiologist, otorhinolaryngologist, or otologist for a hearing aid.

### Are clients enrolled in managed care eligible?

[\(WAC 182-547-0700\(2\)\)](#)

**Effective for dates of service on and after January 1, 2015, hearing aids are covered under agency-contracted managed care organizations (MCO).** Clients who are enrolled in an agency-contracted MCO are eligible for covered hearing aids. Bill the MCO directly for these services. Additionally, clients enrolled in an agency-contracted MCO must obtain replacement parts for cochlear implants and bone anchored hearing aids (Baha®), including batteries, through their MCO.

# Coverage

---

## What is covered?

([WAC 182-547-0800](#))

### Monaural or binaural hearing aids

The agency covers new, nonrefurbished, monaural or binaural hearing aid(s), which includes the ear mold and batteries, for eligible clients 20 years of age and younger. In order for the provider to receive payment, the hearing aid must meet the client's specific hearing needs and be under warranty for a minimum of one year.

See the [Coverage Table](#) for specific procedure codes.

### Replacement

The agency pays for the following replacements as long as the need for replacements is not due to the client's carelessness, negligence, recklessness, or misuse in accordance with [WAC 182-501-0050\(8\)](#):

- Hearing aid(s), which includes the ear mold, when all warranties are expired and the hearing aid(s) are one of the following:
  - ✓ Lost
  - ✓ Beyond repair
  - ✓ Not sufficient for the client's hearing loss
- Ear mold(s) when the client's existing ear mold is damaged or no longer fits the client's ear.
- Batteries with a valid prescription from an audiologist.

### Repair

The agency pays for a maximum of two repairs, per hearing aid, per year, when the repair is less than 50% of the cost of a new hearing aid. To receive payment, all of the following must be met:

- All warranties are expired.
- The repair is under warranty for a minimum of 90 days.

## **Rental**

The agency pays for a rental hearing aid(s) for up to two months while the client's own hearing aid is being repaired. In the case of a rental hearing aid(s), the agency pays separately for an ear mold(s).

## **Cochlear implant – replacement parts**

([WAC 182-547-0800](#) (3))

The agency covers:

- Cochlear implant external speech processors, including maintenance, repair, and batteries.
- Baha® speech processors, including maintenance, repair, and batteries.

See the [Coverage Table](#) for specific procedure codes.

The agency pays for cochlear implant and Baha® replacement parts when:

- The manufacturer's warranty has expired.
- The part is for immediate use, not a back-up part.
- The part needs to be replaced due to normal wear and tear and is not related to misuse or abuse of the item (see [WAC 182-502-0160](#)).

The client must pay for repairs to additional speech processors and parts.

When reimbursing for battery packs, the agency covers the least costly, equally effective product.

**Note:** The agency does not pay providers for repairs or replacements that are covered under the manufacturer's warranty.

The agency will reimburse only those vendors with a current [Core Provider Agreement](#). If the cochlear implant device is provided by a vendor without a current Core Provider Agreement, replacement parts, accessories, and repairs for these devices may or may not be covered. See [WAC 182-502-1101](#).

## **Replacement parts - EPA criteria**

The following expedited prior authorization (EPA) criteria must be met:

- The cochlear implant or bone conduction (Baha®) is unilateral (bilateral requires PA).
- The manufacturer's warranty has expired.
- The part is for immediate use (not a back-up part).

**Note:** If the client does not meet the EPA criteria, then PA is required.

Use **EPA 870000001** with **HCPCS codes L8615-L8618, L8621-L8624** when billing for cochlear implant and bone conduction (Baha®) replacement parts. See [What is expedited prior authorization \(EPA\)?](#)

## **What is not covered?**

([WAC 182-547-0900](#))

The agency does not cover the following hearing and hearing aid-related items and services for clients 20 years of age and younger:

- Tinnitus maskers
- Group screenings for hearing loss, except as provided under the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) program (refer to the agency's [Early and Periodic Screening, Diagnosis and Treatment \(EPSDT\) Program Billing Instructions](#))
- FM systems, including the computer-aided hearing devices for FM systems

When EPSDT applies, the agency evaluates a noncovered service, equipment, or supply according to the process in [WAC 182-501-0165](#) to determine if it is medically necessary, safe, effective, and not experimental. See [WAC 182-534-0100](#) for EPSDT rules.

### **Exception to Rule (ETR)**

The agency evaluates a request for medical services, equipment, and/or supplies that are listed as noncovered under the provisions of [WAC 182-501-0160](#) that relates to noncovered services. The request for a noncovered medical service, equipment, or supply is called a "request for an exception to rule." See [WAC 182-501-0160](#) for information about exception to rule.

To request an ETR, see [What documentation is required when requesting a PA or ETR?](#)

# Coverage Table

	<b>Procedure Code</b>	<b>Modifier</b>	<b>Short Description</b>	<b>Policy Comments</b>
<b>Monaural</b>	V5246	LT, RT, RA	Hearing aid, prog, mon, ite	Includes a prefitting evaluation, an ear mold and at least 3 follow-up appointments.

**Legend**

**EPA:** Expedited Prior Authorization

**PA:** Prior Authorization required

# Authorization

---

## What is prior authorization (PA)?

PA is agency approval for certain medical services, equipment, or supplies, before the services are provided to clients, as a precondition for provider payment.

## Does the agency require prior authorization for hearing hardware?

([WAC 182-547-1000](#))

**No.** Except for certain services specified in the Coverage table, PA is **not** required for clients 20 years of age and younger for hearing aids and services. Providers should send claims for clients 20 years of age and younger-directly to the agency. **Providers do not need to obtain authorization from the local Children with Special Health Care Needs (CSHCN) Coordinator.**

**Note:** The agency evaluates requests for covered services that are subject to limitations or other restrictions and approves such services beyond those limitations or restrictions as described in [WAC 182-501-0169](#).  
([WAC 182-547-1000](#) (2))

## What is expedited prior authorization (EPA)?

The EPA process is designed to eliminate the need for written authorization. The agency establishes authorization criteria and identifies these criteria with specific codes, enabling providers to create an EPA number using those codes.

The agency denies claims submitted without the appropriate diagnosis, procedure code, or service as indicated by the last three digits of the EPA number. The billing provider must document in the client's file how the EPA criteria were met and make this information available to the agency upon request.

**Note:** When billing using a paper claim form, enter the EPA number in *field 23*, or when billing electronically enter the EPA number in the *Authorization* or *Comments* field.

## What documentation is required when requesting PA or ETR?

For all requests for prior authorization, the following documentation is **required**:

- A completed, TYPED General Information for Authorization form, [HCA 13-835](#). This request form **MUST** be the initial page when you submit your request.
- A completed Hearing Aid Authorization Request form, [13-772](#), and all the documentation listed on this form and any other medical justification.

Fax your request to: **(866) 668-1214**.

# Payment

---

## What is included in the agency's payment for hearing aids?

([WAC 182-547-1100](#) (1)-(3))

The agency's payment for purchased hearing aids includes all of the following:

- A prefitting evaluation
- An ear mold
- A minimum of three post-fitting consultations

The agency denies payment for hearing aids and/or services when claims are submitted without the prior authorization number, when required, or the appropriate diagnosis or procedure code(s).

The agency does not pay for hearing aid charges paid by insurance or other payer source.

**Note:** To receive payment, the provider must keep documentation in the client's medical file to support the medical necessity for the specific make and model of the hearing aid ordered for the client. This documentation must include the record of the audiology testing providing evidence that the client's hearing loss meets the eligibility criteria for a hearing aid. ([WAC 182-547-1100](#) (4))

## Where can I view the fee schedule?

View the agency's fee schedule online: [Hearing Hardware Fee Schedule](#).

# Billing and Claim Forms

---

## What are the general billing requirements?

Providers must follow the agency's [ProviderOne Billing and Resource Guide](#). These billing requirements include:

- What time limits exist for submitting and resubmitting claims and adjustments.
- When providers may bill a client.
- How to bill for services provided to primary care case management (PCCM) clients.
- How to bill for clients eligible for both Medicare and Medicaid.
- How to handle third-party liability claims.
- What standards to use for record keeping.

## What records must be kept in the client's file?

In addition to the documentation listed in [What is included in the agency's payment for hearing aids](#), providers must keep documentation of all hearing tests and results in the complete client's chart and record.

This includes, but is not limited to, the following tests:

- Audiogram results/graphs/tracings (including air conduction and bone conduction comparisons)
- Basic or simple hearing tests or screening, such as is done in many schools
- Tympanogram
- Auditory brainstem response (ABR)
- Electronystagmogram (ENG) (not a hearing test but a special test of inner ear balance)

A valid prescription from an audiologist for replacement batteries must be kept in the client's chart.

## How do I complete the CMS-1500 claim form?

**Note:** Refer to the agency's [ProviderOne Billing and Resource Guide](#) at for general instructions on completing the CMS-1500 claim form.

The following CMS-1500 claim form instructions relate to the Hearing Hardware program.

Field No.	Name	Field Required	Entry
19.	Reserved for Local Use	When applicable	Enter: <ul style="list-style-type: none"><li>• “SCI=B” (Baby on parent’s ProviderOne Client ID); or</li><li>• Claim notes.</li></ul>
23.	Prior Authorization Number	When applicable	Use the prior authorization number assigned to you if/when services have been denied and you are requesting an exception to rule.
24D.	Procedures, Services or Supplies CPT/HCPCS	Yes	Enter the appropriate Current Procedural Terminology (CPT) or Common Procedure Coding System (HCPCS) procedure code for the services being billed.  Modifier: When appropriate enter a modifier.
