Program Overview

What do neurodevelopmental centers do?

Neurodevelopmental centers (NDCs) provide outpatient physical therapy, speech therapy, occupational therapy, and audiology services to children with neuromuscular or developmental disorders such as cerebral palsy, Down's syndrome, autism, and pervasive developmental delay. NDCs may serve clients 20 years of age and younger, although some NDCs further limit the age range they serve.

Who may provide services?

(WAC 182-545-200, WAC 182-531-0375)

After a client's primary care physician initiates NDC services by requesting an evaluation, the following healthcare professionals may provide services within their scope of practice to eligible clients in neurodevelopmental centers:

- Licensed occupational therapists
- Licensed occupational therapy assistants (OTA) supervised by a licensed occupational therapist
- Licensed physical therapists
- Physiatrists
- Physical therapist assistants supervised by a licensed physical therapist
- Speech-language pathologists who have been granted a certificate of clinical competence by the American Speech, Hearing and Language Association
- Speech-language pathologists who have completed the equivalent educational and work experience necessary for such a certificate
- Audiologists who are licensed or registered to perform audiology services

Client Eligibility

How can I verify a patient's eligibility?

Clients 20 years of age and younger may be eligible to receive services in a neurodevelopmental center, depending on their benefit package. Providers must verify that a patient has Washington Apple Health coverage for the date of service, and that the client's benefit package covers the applicable service. This helps prevent delivering a service the agency will not pay for.

Verifying eligibility is a two-step process:

Step 1. **Verify the patient's eligibility for Washington Apple Health.** For detailed instructions on verifying a patient's eligibility for Washington Apple Health, see the *Client Eligibility, Benefit Packages, and Coverage Limits* section in the agency's current ProviderOne Billing and Resource Guide.

If the patient is eligible for Washington Apple Health, proceed to **Step 2**. If the patient is **not** eligible, see the note box below.

Step 2. **Verify service coverage under the Washington Apple Health client's benefit package.** To determine if the requested service is a covered benefit under the Washington Apple Health client's benefit package, see the agency's Health Care Coverage—Program Benefit Packages and Scope of Service Categories web page.

Note: Patients who are not Washington Apple Health clients may submit an application for health care coverage in one of the following ways:

1. By visiting the Washington Healthplanfinder's website at: www.wahealthplanfinder.org
2. By calling the Customer Support Center toll-free at: 855-WAFINDER (855-923-4633) or 855-627-9604 (TTY)
3. By mailing the application to:
   Washington Healthplanfinder
   PO Box 946
   Olympia, WA 98507

In-person application assistance is also available. To get information about in-person application assistance available in their area, people may visit www.wahealthplanfinder.org or call the Customer Support Center.

Managed care clients

(WAC 182-538-063)

Clients enrolled with an agency-contracted managed care organization (MCO) are eligible for services in neurodevelopmental centers. When verifying eligibility using ProviderOne, if the client is enrolled in an agency-contracted managed care organization (MCO), managed care enrollment will be displayed on the Client Benefit Inquiry Screen. Services provided in an NDC will be covered under the agency's fee-for-service program.

Primary care case management (PCCM)

PCCM clients must obtain authorization from, or be referred by, a PCCM provider. The PCCM provider remains responsible for coordinating care.

Coverage Table

What services are covered?

(WAC 182-545-900)

The Health Care Authority (agency) covers unlimited services in a neurodevelopmental center for clients 20 years of age and younger, with the following exception: clients 19 through 20 years of age in Medical Care Services (MCS) are eligible for **limited** outpatient rehabilitation. For these clients, the short term outpatient rehabilitation benefit applies. See the Outpatient Rehabilitation Medicaid Provider Guide.

For information about the new Habilitative Services benefit available January 1, 2014, see What are habilitative services under this program?

Note: Due to its licensing agreement with the American Medical Association, the agency publishes only the official, short CPT® code descriptions. To view the full descriptions, refer to a current CPT book.

What are habilitative services under this program?

Habilitative services are those medically necessary services provided to help a client partially or fully attain or maintain developmental age-appropriate skills that were not fully acquired due to a congenital, genetic, or early-acquired health condition. Such services are required to maximize the client's ability to function in his or her environment.

Effective January 1, 2014, and applicable to those clients in the expanded population and covered by the Alternative Benefit Plan (ABP) only, the agency will cover outpatient physical, occupational, and speech therapy to treat one of the qualifying condition listed in the table below under the habilitative services benefit.

Note: The specific habilitation benefit is not available to clients enrolled in a classic Medicaid eligibility program (e.g., categorically needy (CN) and medically needy (MN)) or the medical care services (MCS) program. However, starting January 1, 2014, these services will be available to those clients eligible under expanded Medicaid (ABP).

756.0-756.9	Other congenital musculoskeletal anomalies
758.0-758.9	Chromosomal anomalies
759.0-759.9	Other and unspecified congenital anomalies

Billing for habilitative services

For information about how to bill, program requirements, and applicable procedure codes, refer to the agency's current *Habilitative Services Medicaid Provider Guide*.

Payment

To be reimbursed for the services listed in the coverage section, an NDC must:

- Contract with the Department of Health (DOH) as a neurodevelopmental center.
- Provide documentation of its DOH contract to the agency.
- Have an approved core-provider agreement with the agency.

To be reimbursed for the services listed in the coverage section, each service must be:

- Covered by the client's benefit package.
- Medically necessary, as defined in WAC 182-500-0070.
- Within the scope of the eligible client's medical care program.
- Ordered by a physician, physician assistant (PA), or an advanced registered nurse practitioner (ARNP).
- Begun within 30 days of the date ordered.
- Provided by an approved health professional.
- Billed according to this guide.
- Provided as part of an outpatient treatment program in a neurodevelopmental center, as described in WAC 182-545-900.

The agency does not pay for:

- Duplicate services for the same client when two or more providers are performing the same or similar intervention on the same date.
- Services included as part of the reimbursement for other treatment programs. This includes, but is not limited to, hospital inpatient and nursing facility services (see WAC 182-545-900).

Billing and Claim Forms

Providers must follow the billing requirements listed in the agency's ProviderOne Billing and Resource Guide. The guide explains how to complete the CMS-1500 Claim Form.

When completing the CMS-1500 Claim Form, you must enter the following information in the correct field in order to be paid:

In field:	Enter:
24B	11
24J, upper field	The servicing provider's national provider identifier
24J, lower field	The servicing provider's taxonomy code
33A	The billing provider's national provider identifier
33B	The billing provider's taxonomy code

See the fee schedule for the agency's current maximum allowable fees.
