

Washington State Health Care Authority

Medicaid Provider Guide

Physician-Related Services/Health Care Professional Services
[Refer to Chapter 182-531 WAC]

Washington State
Health Care Authority

A Billing Instruction

About This Guide

This guide published by Health Care Authority (the Agency), supersedes all previous Agency *Physician-Related Services/Health Care Professional Medicaid Provider Guides* published by the Agency.

Note: The Agency now reissues the entire billing manual when making updates, rather than just a page or section. The effective date and revision history are now at the front of the manual. This makes it easier to find the effective date and version history of the manual.

What Has Changed?

Reason for Change	Effective Date	Section/Page No.	Subject	Change
Provider Notice 12-88	11/1/2012	All Pages	Housekeeping	Changed healthcare to two words (health care) where appropriate.
	11/1/2012	1	Definitions	Add definitions for Centers of Excellence (COE) and federally approved hemophilia treatment center
	11/1/2012	F.11-F.13	Miscellaneous	Add new section on Von Willebrand- and Hemophilia-Related Products – For Administration in the Home Only

Definitions & Abbreviations

This section defines terms and abbreviations, including acronyms, used in these billing instructions. Please refer to the Agency *Glossary* at: http://hrsa.dshs.wa.gov/download/medical_assistance_glossary.htm for a more complete list of definitions.

Acquisition cost (AC) – The cost of an item excluding shipping, handling, and any applicable taxes.

Acute care – Care provided for clients who are not medically stable or have not attained a satisfactory level of rehabilitation. These clients require frequent monitoring by a health care professional in order to maintain their health status.

Add-on procedure(s) – Secondary procedure(s) performed in addition to another procedure.

Admitting diagnosis – The medical condition responsible for a hospital admission, as defined by ICD-9-CM diagnostic code. [WAC 182-531-0050]

Assignment – A process in which a doctor or supplier agrees to accept the Medicare program's payment as payment in full, except for specific deductible and coinsurance amounts required of the patient.

Base anesthesia units (BAU) – A number of anesthesia units assigned to an anesthesia procedure that includes the usual preoperative, intra-operative, and postoperative visits. This includes the administration of fluids and/or blood incident to the anesthesia care, and interpretation of noninvasive monitoring by the anesthesiologist.

Bundled services – Services integral to the major procedures that are included in the fee for the major procedure. Bundled services are not reimbursed separately.

Center of Excellence (COE) – A hospital, medical center, or other health care provider that meets or exceeds standards set by the Agency for specific treatments or specialty care. [WAC 182-531-0050]

Code of federal regulations (CFR) – A codification of the general and permanent rules published in the federal register by the executive departments and agencies of the federal government.

Community services office (CSO) – An office of the department that administers social and health services at the community level.

Covered service – A service that is within the scope of the eligible client's medical care program, subject to the limitations in Chapter 182-531 WAC and other published WAC.

EPSDT provider – (1) A physician, advanced registered nurse practitioner (ARNP), or public health nurse certified as an EPSDT provider; *or* (2) a dentist, dental hygienist, audiologist, or optometrist who is an enrolled Medical Assistance provider and performs all or one component of the EPSDT screening.

Physician-Related Services/Health Care Professional Services

Federally approved hemophilia treatment center - A hemophilia treatment center (HTC) which:

- (1) Receives funding from the U.S. Department of Health and Human Services, Maternal and Child Health Bureau National Hemophilia Program;
- (2) Is qualified to participate in 340B discount purchasing as an HTC;
- (3) Has a U.S. Center for Disease Control (CDC) and prevention surveillance site identification number and is listed in the HTC directory on the CDC web site;
- (4) Is recognized by the Federal Regional Hemophilia Network that includes Washington state; and
- (5) Is a direct care provider offering comprehensive hemophilia care consistent with treatment recommendations set by the Medical and Scientific Advisory Council (MASAC) of the National Hemophilia Foundation in their standards and criteria for the care of persons with congenital bleeding disorders. [WAC 182-531-0050]

HCPCS- See **Health Care Common Procedure Coding System**.

Healthcare Common Procedure Coding System (HCPCS) - Standardized coding system that is used primarily to identify products, supplies, and services not included in the CPT codes, such as ambulance services and durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) when used outside a physician's office.

Informed consent – Where an individual consents to a procedure after the provider who obtained a properly completed consent form has done all of the following:

- (1) Disclosed and discussed the client's diagnosis; and
- (2) Offered the client an opportunity to ask questions about the procedure and to request information in writing; and
- (3) Given the client a copy of the consent form; and
- (4) Communicated effectively using any language interpretation or special communication device necessary per 42 C.F.R. Chapter IV 441.257; and
- (5) Given the client oral information about all of the following:
 - (a) The client's right to not obtain the procedure, including potential risks, benefits, and the consequences of not obtaining the procedure; and
 - (b) Alternatives to the procedure including potential risks, benefits, and consequences; and
 - (c) The procedure itself, including potential risks, benefits, and consequences.

Inpatient hospital admission – An admission to a hospital that is limited to medically necessary care based on an evaluation of the client using objective clinical indicators, assessment, monitoring, and therapeutic service required to best manage the client's illness or injury, and that is documented in the client's medical record.

Physician-Related Services/Health Care Professional Services

Medical consultant – Physicians employed by the Agency who are authorities on the medical aspects of the Medical Assistance program. As part of their responsibilities, Agency medical consultants:

- Serve as advisors in communicating to the medical community the scope, limit, and purpose of the program.
- Assist in the development of Agency medical policy, procedures, guidelines, and protocols.
- Evaluate the appropriateness and medical necessity of proposed or requested medical treatments in accordance with federal and state law, applicable regulations, Agency policy, and community standards of medical care.
- Serve as advisors to Agency staff, helping them to relate medical practice realities to activities such as claims processing, legislative requests, cost containment, and utilization management.
- Serve as liaisons between Agency and various professional provider groups, health care systems (such as HMOs), and other State agencies.
- Serve as expert medical and program policy witnesses for Agency at fair hearings.

Newborn or neonate or neonatal - A person younger than 29 days old.

Noncovered service or charge – A service or charge not reimbursed by the Agency.

Pound indicator (#) – A symbol (#) indicating a procedure code listed in Agency's fee schedules that is not covered.

Professional component – The part of a procedure or service that relies on the provider's professional skill or training, or the part of that reimbursement that recognizes the provider's cognitive skill.

Relative value unit (RVU) – A unit that is based on the resources required to perform an individual service. RBRVS RVUs are comprised of three components – physician work, practice expense, and malpractice expense.

Remittance and status report (RA) – A report produced by Agency's claims processing system (known as the Medicaid Management Information System or MMIS) that provides detailed information concerning submitted claims and other financial transactions.

Resource based relative value scale (RBRVS) – A scale that measures the relative value of a medical service or intervention, based on the amount of physician resources involved.

RBRVS maximum allowable amount – The Medicare Fee Schedule relative value unit, multiplied by the statewide geographic practice cost index, times the applicable conversion factor.

Revised code of Washington (RCW) – Washington State laws.

Technical component – The part of a procedure or service that relates to the equipment set-up and technician's time, or the part of the procedure and service reimbursement that recognizes the equipment cost and technician time.

Physician-Related Services/Health Care Professional Services

Usual and customary fee – The rate that may be billed to the Agency for certain services, supplies, or equipment. This rate may not exceed:

- 1) The usual and customary charge billed to the general public for the same services; or
- 2) If the general public is not served, the rate normally offered to other contractors for the same services.

Unless otherwise noted, billing should reflect the usual and customary fee and not the Agency's maximum allowable fee. Reimbursement is either the usual and customary fee or the Agency's maximum allowable fee, whichever is less.

Introduction

Procedure Codes

The Health Care Authority (the Agency) uses the following types of procedure codes within this *Physician-Related Services/Health Care Professional Services Medicaid Provider Guide*:

- Current Procedure Terminology (CPT®); and
- Level II Healthcare Common Procedure Coding System (HCPCS).

Procedures performed must match the description and guidelines from the most current CPT or HCPCS manual for all Agency-covered services. **Due to copyright restrictions, the Agency publishes only the official brief CPT descriptions. To view the full CPT description, please refer to your current CPT manual.**

Evaluation and Management (E/M) Documentation and Billing

The E/M service is based on key components listed in the CPT manual. Providers must use either the 1995 or 1997 guidelines to determine the appropriate level of service. The *1995 Documentation Guideline for Evaluation & Management Services* and *The 1997 Documentation Guideline for Evaluation & Management Services* are available online at: <http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNEdWebGuide/EMDOC.html>

Once the licensed practitioner chooses either the 1995 or 1997 guidelines, the licensed practitioner must use the same guidelines for the entire visit. Chart notes must contain documentation that justifies the level of service billed.

Diagnosis Codes

The Agency requires valid and complete ICD-9-CM diagnosis codes. When billing the Agency, use the highest level of specificity (4th or 5th digits when applicable) or the services will be denied.

The Agency does not cover the following diagnosis codes when billed as the primary diagnosis:

- E codes (Supplementary Classification);
- M codes (Morphology of Neoplasms); and
- Most V codes.

The Agency reimburses providers for only those covered procedure codes and diagnosis codes that are within their scope of practice.

Discontinued Codes

The Agency follows Medicare and does not allow providers a 90-day grace period to use discontinued CPT, HCPCS codes. Use of discontinued codes to bill services provided after the date that the codes are discontinued will cause claims to be denied.

Scope of Coverage for Physician-Related and Health Care Professional Services [WAC 182-531-0100]

The Agency covers health care services, equipment, and supplies listed in these billing instructions, according to Agency rules and subject to the limitations and requirements in these billing instructions, when they are:

- Within the scope of an eligible client's medical assistance program. Refer to WAC 182-501-0060 and 182-501-0065; and
- Medically necessary as defined in WAC 182-500-0005.

The Agency evaluates a request for a service that is in a covered category under the provisions of WAC 182-501-0165.

The Agency evaluates requests for covered services that are subject to limitations or other restrictions and approves such services beyond those limitations or restrictions as described in WAC 182-501-0169.

Physician-Related Services/Health Care Professional Services

The Agency covers the following physician-related services and health care professional services, subject to the conditions listed in this section:

- Allergen immunotherapy services;
- Anesthesia services;
- Dialysis and end stage renal disease services (refer to the current *Kidney Center Services Billing Instructions*);
- Emergency physician services;
- ENT (ear, nose, and throat) related services;
- Early and periodic screening, diagnosis, and treatment (EPSDT) services (refer to the current *Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Medicaid Provider Guide*);
- Reproductive health services (refer to the current *Agency-Approved Family Planning Provider Medicaid Provider Guide*);
- Hospital inpatient services (refer to the current *Inpatient Hospital Medicaid Provider Guide*);
- Maternity care, delivery, and newborn care services (refer to the current *Maternity Support Services/Infant Case Management Medicaid Provider Guide*);
- Office visits;
- Vision-related services (see also the current *Vision Hardware for Clients 20 Years of Age and Younger Medicaid Provider Guide*);
- Osteopathic treatment services;
- Pathology and laboratory services;
- Physiatry and other rehabilitation services);
- Foot care and podiatry services;
- Primary care services;
- Psychiatric services, provided by a psychiatrist;
- Psychotherapy services for children;

CPT® codes and descriptions only are copyright 2011 American Medical Association.

Physician-Related Services/Health Care Professional Services

- Pulmonary and respiratory services;
- Radiology services;
- Surgical services;
- Cosmetic, reconstructive, or plastic surgery, and related services and supplies to correct physiological defects from birth, illness, or physical trauma, or for mastectomy reconstruction for post cancer treatment;
- Oral health care services for emergency conditions for clients 21 years of age and older, except for clients of the Division of Developmental Disabilities (refer to Section B of these billing instructions); and
- Other outpatient physician services.

The Agency covers physical examinations for medical assistance clients only when the physical examination is one or more of the following:

- A screening exam covered by the EPSDT program;
- An annual exam for clients of the Division of Developmental Disabilities; or
- A screening pap smear, mammogram, or prostate exam.

By providing covered services to a client eligible for a medical assistance program, a provider who has signed an agreement with the Agency accepts the Agency's rules and fees as outlined in the agreement, which includes federal and state law and regulations, billing instructions, and Agency issuances.

Noncovered Services-General [WAC 182-501-0070]

Procedures that are noncovered are noted with a pound (#) indicator in the Nonfacility Setting (NFS) and Facility Setting (FS) columns in the fee schedule.

The Agency reviews requests for noncovered health care services according to WAC 182-501-0160 as an Exception to Rule. To request a noncovered service, send a completed "Fax/Written Request Basic Information" form, 13-756, to the Agency (see *Important Contacts* section).

Refer to the current *Agency ProviderOne Billing and Resource Guide* for information regarding noncovered services and billing an Agency client who is on a fee-for-service program.

Physician-Related Services/Health Care Professional Services

The following are examples of administrative costs and/or services not covered separately by the Agency:

- Missed or canceled appointments;
- Mileage;
- Take-home drugs;
- Educational supplies or services;
- Copying expenses, reports, client charts, insurance forms;
- Service charges/delinquent payment fees;
- Telephoning for prescription refills;
- Other areas as specified in this fee schedule;
- After-hours charges for services during regularly scheduled work hours; and
- Preventive medicine services (except EPSDT exams for clients 20 years of age and younger and those clients with developmental disabilities).

Noncovered Physician-Related and Health Care Professional Services [WAC 182-531-0150]

The Agency does not cover the following:

- Acupuncture, massage, or massage therapy;
- Any service specifically excluded by statute;
- Care, testing, or treatment of infertility, frigidity, or impotency. This includes procedures for donor ovum, sperm, womb, and reversal of vasectomy or tubal ligation;
- Cosmetic treatment or surgery, except for medically necessary reconstructive surgery to correct defects attributable to trauma, birth defect, or illness;
- Experimental or investigational services, procedures, treatments, devices, drugs, or application of associated services, except when the individual factors of an individual client's condition justify a determination of medical necessity under WAC 182-501-0165;
- Hair transplantation;
- Marital counseling or sex therapy;
- More costly services when the Agency determines that less costly, equally effective services are available;

Physician-Related Services/Health Care Professional Services

- Vision-related services as follows:
 - ✓ Services for cosmetic purposes only;
 - ✓ Group vision screening for eyeglasses;
 - ✓ Refractive surgery of any type that changes the eye's refractive error. The intent of the refractive surgery procedure is to reduce or eliminate the need for eyeglass or contact lens correction. This does not include intraocular lens implantation following cataract surgery.
- Payment for body parts, including organs, tissues, bones and blood, except as allowed in these billing instructions;
- Physician-supplied medication, except those drugs administered by the physician in the physician's office;
- Physical examinations or routine checkups, except as provided in these billing instructions;
- Foot care to treat chronic acquired conditions of the foot such as, but not limited to:
 - ✓ Treatment of mycotic disease tinea pedis;
 - ✓ Removal of warts, corns, or calluses;
 - ✓ Trimming of nails and other regular hygiene care; ((or))
 - ✓ Treatment of flat feet;
 - ✓ Treatment of high arches (cavus foot);
 - ✓ Onychomycosis;
 - ✓ Bunions and tailor's bunion (hallux valgus);
 - ✓ Hallux malleus;
 - ✓ Equinus deformity of foot, acquired;
 - ✓ Cavovarus deformity, acquired;
 - ✓ Adult acquired flatfoot (metatarsus adductus or pes planus; and
 - ✓ Hallux limitus.
- Except as provided in these billing instructions, weight reduction and control services, procedures, treatments, devices, drugs, products, gym memberships, equipment for the purpose of weight reduction, or the application of associated services.
- Nonmedical equipment;
- Nonemergency admissions and associated services to out-of-state hospitals or noncontracted hospitals in contract areas;
- Bilateral cochlear implantation; and

Physician-Related Services/Health Care Professional Services

- Routine or nonemergency medical and surgical dental services provided by a doctor of dental medicine or dental surgery for clients twenty one years of age and older, except for clients of the Division of Developmental Disabilities.

Note: The Agency covers excluded services listed in this section if those services are mandated under and provided to a client who is eligible for one of the following:

- The EPSDT program;
- A Medicaid program for qualified Medicare beneficiaries (QMBs); or
- A waiver program.

Who Can Provide and Bill for Physician-Related Services [WAC 182-531-0250 (1)]

The following enrolled providers are eligible to provide and bill for physician-related and health care professional services which they provide to eligible clients:

- Advanced Registered Nurse Practitioners (ARNPs);
- Federally Qualified Health Centers (FQHCs);
- Health Departments;
- Hospitals currently licensed by the Department of Health (DOH);
- Independent (outside) laboratories CLIA-certified to perform tests. See WAC [182-531-0800](#);
- Licensed marriage and family therapists, only as provided in WAC [182-531-1400](#);
- Licensed mental health counselors, only as provided in WAC [182-531-1400](#);
- Licensed radiology facilities;
- Licensed social workers, only as provided in WAC [182-531-1400](#) and [182-531-1600](#);
- Medicare-certified Ambulatory Surgery Centers (ASCs);
- Medicare-certified Rural Health Clinics (RHCs);
- Providers who have a signed agreement with the Agency to provide screening services to eligible persons in the Early and Periodic, Screening, Diagnosis, and Treatment (EPSDT) program;
- Registered Nurse First Assistants (RNFAs); and
- Persons currently licensed by the State of Washington DOH to practice any of the following:
 - ✓ Dentistry;
 - ✓ Medicine and osteopathy;
 - ✓ Nursing;
 - ✓ Optometry; or
 - ✓ Podiatry.

Noncovered Practitioners [WAC 182-531-0250 (2)]

The Agency does not pay for services performed by any of the following practitioners:

- Acupuncturists;
- Christian Science practitioners or theological healers;
- Counselors (i.e., M.A. and M.S.N.), except as provided in WAC 182-531-1400;
- Herbalists;
- Homeopaths;
- Massage therapists as licensed by the Washington State Department of Health (DOH);
- Naturopaths;
- Sanipractors;
- Social workers, except those who have a master's degree in social work (MSW) and:
 - ✓ Are employed by an FQHC;
 - ✓ Who have received prior authorization from the Agency to evaluate a client for bariatric surgery; or
 - ✓ As provided in WAC 182-531-1400.
- Any other licensed or unlicensed practitioners not otherwise specifically provided for in WAC 182-502-0010;
- Any other licensed practitioners providing services that the practitioner is not:
 - ✓ Licensed to provide; and
 - ✓ Trained to provide.

The Agency pays practitioners listed above for physician-related and health care professional services if those services are mandated by, and provided to, clients who are eligible for one of the following:

- The EPSDT program;
- A Medicaid program for qualified Medicare beneficiaries (QMB); or
- A waiver program. [WAC 182-531-0250 (3)]

Clients Enrolled in the Agency's Managed Care Organizations

Many Agency clients are enrolled in one of the Agency's managed care organizations (MCO). These clients are identified in ProviderOne as being enrolled in an MCO. They also receive an ID card from the MCO in which they are enrolled. Clients enrolled in one of the Agency's MCOs must obtain services through their MCO.

Note: A client's enrollment can change monthly. Providers who are not contracted with the plan must receive approval from *both* the plan and the client's primary care provider (PCP) prior to serving a managed care client.

Send claims to the client's MCO for payment. Call the client's HMO to discuss payment prior to providing the service. Providers may bill clients only in very limited situations as described in WAC 182-502-0160.

By Report (BR)

Services with a **BR** indicator in the fee schedule (Section J) with billed charges of \$1,100.00 or greater require a detailed report in order to be paid. Attach the report to the claim. **DO NOT** attach a report to the claim for services with a BR indicator in the fee schedule with billed charges under \$1,100.00 unless requested by the Agency.

Codes for Unlisted Procedures (CPT codes XXX99)

Providers must bill using the appropriate procedure code. The Agency does not pay for procedures when they are judged to be less-than-effective (i.e., an experimental procedure), as reported in peer-reviewed literature (see WAC 182-501-0165). If providers bill for a procedure using a code for an unlisted procedure, it is the provider's responsibility to know whether the procedure is effective, safe, and evidence-based. The Agency requires this for all its programs, as outlined in WAC 182-501-0050. If a provider does not verify the Agency's coverage policy before performing a procedure, the Agency may not pay for the procedure.

Acquisition Cost (AC)

Drugs with an AC indicator in the fee schedule (Appendix) with billed charges of \$1,100.00 or greater, or supplies with billed charges of \$50.00 or greater, require a manufacturer’s invoice in order to be paid. Attach the invoice to the claim, and if necessary, note the quantity given to the client in the *Comments* section of the claim form. **DO NOT** attach an invoice to the claim for procedure codes with an AC indicator in the fee schedule for drugs with billed charges under \$1,100.00, or supplies with billed charges under \$50.00, unless requested by the Agency.

Note: Bill the Agency for one unit of service only when billing for drugs with an AC indicator.

Conversion Factors

	1/1/08	7/1/08	7/1/09	7/1/10	7/1/11
Adult Primary Health Care	24.58	25.12	22.03	21.96	19.11
Anesthesia	21.20	21.20	21.20	21.20	21.20
Children’s Primary Health Care	47.10	47.64	36.48	36.22	30.82
Clinical Lab Multiplication Factor	.830	0.820	0.76	0.76	0.79
Maternity	42.35	44.20	43.54	43.50	37.40
All Other Procedure Codes	22.03	22.23	22.31	22.23	20.13

These conversion factors are multiplied by the relative value units (RVUs) to establish the rates the Agency Physician-Related Services Fee Schedule.

National Correct Coding Initiative

The Agency continues to follow the National Correct Coding Initiative (NCCI) policy. The Centers for Medicare and Medicaid Services (CMS) created this policy to promote national correct coding methods. NCCI assists the Agency to control improper coding that may lead to inappropriate payment. The Agency bases coding policies on:

- The American Medical Association’s (AMA) Current Procedural Terminology (CPT®) manual;
- National and local policies and edits;
- Coding guidelines developed by national professional societies;
- The analysis and review of standard medical and surgical practices; and
- Review of current coding practices.

The Agency may perform a post-pay review on any claim to ensure compliance with NCCI. NCCI rules will be enforced by the new ProviderOne payment system immediately upon implementation. Visit the NCCI on the web at: <http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html>.

Services by Substitute Physician-How to Bill

The Omnibus Budget Reconciliation Act (OBRA) of 1990 permits physicians to bill under certain circumstances for services provided on a temporary basis (i.e., locum tenens) to their patients by another physician.

The physician's claim must identify the substituting physician providing the temporary services. Complete the claim as follows:

- Enter the regular physician's NPI for whom the substitute services were furnished on the HIPAA transaction (field 24J on the CMS-1500 Claim Form).
- Enter the locum tenens NPI and name in the claim notes field of the HIPAA transaction (field 19 of CMS-1500 claim form).
- Enter the billing provider information in the usual manner.
- Use modifier Q6 when billing.

Documentation in the patient's record must show that in the case of:

- An informal reciprocal arrangement, billing for temporary services was limited to a period of 14 continuous days, with at least one day elapsing between 14-day periods.
- A locum tenens arrangement involving per diem or other fee-for-time compensation, billing for temporary services was limited to a period of 90 continuous days, with at least 30 days elapsing between 90-day periods.

Programs (Guidelines/Limitations)

Office and Other Outpatient Services [Refer to WAC 182-531-0950]

In addition to the limitations on services indicated in the fee schedule, the following limitations apply:

The Health Care Authority (the Agency) covers:

- One office or other outpatient visit per non-institutionalized client, per day for an individual provider (except for call-backs to the emergency room, see WAC 182-531-0500).
- ✓ Certain procedures are included in the office call and cannot be billed separately.

Example: The Agency does not pay separately for ventilation management (CPT®) codes 94002-94004, 94660, and 94662) when billed in addition to an Evaluation and Management (E&M) service, even if the E&M service is billed with modifier 25.

- Two physician visits per month for a client residing in a nursing facility or an intermediate care facility. Nursing facility discharges (CPT code 99315 and 99316) are not included in the two-visit limitation. The Agency pays for one nursing facility discharge per client, per day.
- One pre-operative evaluation and management (E&M) visit by a physician for a client prior to performing a dental service under anesthesia. Bill using dental diagnosis codes 520.1-525.9 as the primary diagnosis along with the appropriate pre-op diagnosis codes V72.81 – V72.84 as the secondary diagnosis.
- For clients assigned to an Agency managed care organization, bill the Agency directly for E&Ms for dental surgery (not oral surgery).

Office and Other Outpatient Services (cont.)

- One physical examination per client, per 12 months for clients with developmental disabilities as identified in ProviderOne. Use HCPCS procedure code T1023 with modifier HI and an ICD-9-CM diagnosis code from the range V79.3-V79.9 to bill for an examination.
- The Agency pays one new patient visit, per client, per provider or group practice in a three-year period.

Note: A new patient is one who has not received any professional services from the physician, or another physician of the same specialty who belongs to the same group practice, within the past three years.

An established patient has received professional services from the physician or another physician in the same group and the same specialty within the prior three years.

- Preventative screening services for certain conditions are covered in other sections of these billing instructions.
- The Agency pays for an office visit related to Acomprosate (Campral®), Naltrexone (ReVia®), Naltrexone (Vivitrol®) or Buprenorphine and Naloxone (Suboxone®). For billing, please see EPA information in Prior Authorization Section H.

Children's Primary Health Care (CPT codes 99201-99215)

- The Agency pays a higher payment rate for primary health care performed in the office setting (CPT codes 99201-99215) for children 20 years of age and younger. These are the only services that are paid at the higher rate.
- If a child who is younger than 60 days of age and **has not been issued** an individual ProviderOne Client ID, use the mother's ProviderOne Client ID, and put "SCI=B" in the claim notes field. Put the child's name, gender, and birth date in the client information fields. If the mother is enrolled in an Agency managed care plan, newborns will be enrolled in the same managed care plan as their mother.

After-Hours

After-hours office codes are payable in addition to other services only when the provider's office is not regularly open during the time the service is provided. An after-hours procedure billed for a client treated in a 24-hour facility (e.g., emergency room) is payable only in situations where a provider who is not already on-call is called to the facility to treat a client. These codes are not payable when billed by emergency room physicians, anesthesiologists/anesthetists, radiologists, laboratory clinical staff, or other providers who are scheduled to be on call at the time of service. The client's file must document the medical necessity and urgency of the service. Only one code for after-hours services will be paid per patient, per day, and a second "day" may not be billed for a single episode of care that carries over from one calendar day.

For example: If a clinic closes at 5pm and takes a break for dinner, and then opens back up from 6pm-10pm, these services are not eligible for after-hours service codes.

Note: This policy does not include radiologists, pathologists, emergency room physicians, or anesthesiologists. The Agency does not pay these providers for afterhours service codes.

Hospital Inpatient and Observation Care Services

(CPT codes 99217-99239) [Refer to WAC 182-531-0750]

Inpatient admissions must meet intensity of service/severity of illness criteria for an acute inpatient level of care. Admission status changes must be noted in the client's chart.

What is admission status?

Admission status is a client's level of care at the time of admission. Some examples of typical types of admission status are: inpatient, outpatient observation, medical observation, outpatient surgery or short-stay surgery, or outpatient (e.g., emergency room).

Admission status is determined by the admitting physician or practitioner. Continuous monitoring, such as telemetry, can be provided in an observation or inpatient status; consider overall severity of illness and intensity of service in determining admission status rather than any single or specific intervention. Specialty inpatient areas (including ICU or CCU) can be used to provide observation services. Level of care, not physical location of the bed, dictates admission status.

When is a change in admission status required?

A change in admission status is required when a client's symptoms/condition and/or treatment does not meet medical necessity criteria for the level of care the client is initially admitted to. The documentation in the client's medical record must support the admission status and the services billed. The Agency does not pay for:

- Services that do not meet the medical necessity of the admission status ordered;
- Services that are not documented in the hospital medical record; and
- Services greater than what is ordered by the physician or practitioner responsible for the client's hospital care.

Inpatient to Outpatient Observation Admission Status Change

The attending physician or practitioner may make an admission status change from inpatient to outpatient observation when:

- The attending physician/practitioner and/or the hospital's utilization review staff determine that an inpatient client's symptoms/condition and treatment do not meet medical necessity criteria for an acute inpatient level of care and do meet medical necessity criteria for an observation level of care;
- The admission status change is made prior to, or on the next business day following, discharge; and
- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the document must:
 - ✓ Be dated with the date of the change; and
 - ✓ Contain the reason the change was not made prior to discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Outpatient Observation to Inpatient Admission Status Change

The attending physician or practitioner may make an admission status change from outpatient observation to inpatient when:

- The attending physician/practitioner and/or the hospital's utilization review staff determine that an outpatient observation client's symptoms/condition and treatment meet medical necessity criteria for an acute inpatient level of care;
- The admission status change is made prior to, or on the next business day following, discharge; and
- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the documentation must:
 - ✓ Be dated with the date of the change; and
 - ✓ Contain the reason the change was not made prior to discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Inpatient or Outpatient Observation to Outpatient Admission Status Change

The attending physician or practitioner may make an admission status change from inpatient or outpatient observation to outpatient when:

- The attending physician/practitioner and/or the hospital's utilization review staff determine that an outpatient observation or inpatient client's symptoms/condition and treatment **do not** meet medical necessity criteria for observation or acute inpatient level of care;
- The admission status change is made prior to, or on the next business day following, discharge; and
- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the documentation must:
 - ✓ Be dated with the date of the change; and
 - ✓ Contain the reason the change was not made prior to discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Outpatient Surgery/Procedure to Outpatient Observation or Inpatient Admission Status Change

The attending physician or practitioner may make an admission status change from outpatient surgery/procedure to outpatient observation or inpatient when:

- The attending physician/practitioner and/or the hospital's utilization review staff determine that the client's symptoms/condition and/or treatment require an extended recovery time beyond the normal recovery time for the surgery/procedure and medical necessity for outpatient observation or inpatient level of care is met;
- The admission status change is made prior to, or on the next business day following, discharge; and
- The admission status change is documented in the client's medical record by the attending physician or practitioner. If the admission status change is made following discharge, the documentation must:
 - ✓ Be dated with the date of the change; and
 - ✓ Contain the reason the change was not made prior to discharge (e.g., due to the discharge occurring on the weekend or a holiday).

Note: During post-payment retrospective utilization review, the Agency may determine the admission status ordered is not supported by documentation in the medical record. The Agency may consider payment made in this circumstance an overpayment and payment may be recouped or adjusted.

The Agency covers:

- One inpatient hospital call per client, per day for the same or related diagnoses. The Agency does not pay separately for the hospital call if it is included in the global surgery payment. (See the Surgical Services Section for information on global surgery policy.)
- Professional inpatient services (CPT codes 99221-99223) during the global surgery follow-up period only if they are performed on an emergency basis and are unrelated to the original surgery. Use modifier 24 to indicate that the service is unrelated to the original surgery.

Note: The Agency pays providers for CPT codes 99221-99223 for scheduled hospital admissions during the follow-up period only when billed with a modifier 24.

Physician-Related Services/Health care Professional Services

The Agency does not cover:

- A hospital admission (CPT codes 99221-99223) and a planned surgery billed in combination. The hospital admission is included in the global fee for the surgery.
- Inpatient or observation care services [including admission and discharge services (CPT codes 99234-99236)] for stays of less than 8 hours on the same calendar date.

Other Guidelines:

- When a hospital admission (CPT codes 99221-99223) and an emergency surgery is billed in combination, the Agency will pay when there is a decision to do surgery, the provider has not seen the client for this condition, and modifier 57 is used. This only applies to surgical procedures with a 90-day global period.
- When a client is admitted for observation care for less than 8 hours and is discharged on the same calendar date, providers must bill using CPT codes 99218-99220. The Agency does not pay providers separately for discharge services.
- When a client is admitted for observation care and is discharged on a different calendar date, providers must bill using CPT codes 99218-99220 **and** observation discharge CPT code 99217.
- When a client qualifies for an inpatient hospital admission and is discharged on a different calendar date, providers must bill using CPT codes 99221-99233 **and** hospital discharge day management CPT code 99238 or 99239.
- When a client qualifies for an inpatient hospital admission and is discharged on the same calendar date, providers must bill using CPT codes 99234-99236. The Agency does not pay providers separately for hospital discharge day management services.
- Providers must satisfy the documentation requirements for both admission to and discharge from, inpatient or observation care in order to bill CPT codes 99234-99236. The length of time for observation care or treatment status must also be documented.
- When clients are fee-for-service (FFS) when admitted to a hospital and then enroll in an Agency managed care organization during the hospital stay, the entire stay for physician services is paid FFS until the client is discharged. Enter the following on the claim:
 - ✓ The admission date to the hospital; and
 - ✓ “Continuous hospital care” (in the *claim notes* field).

Utilization Review

Utilization Review (UR) is a concurrent, prospective, and/or retrospective (including post-pay and pre-pay) formal evaluation of a client's documented medical care to assure that the health care services provided are proper and necessary and are of good quality. The review considers the appropriateness of the place of care, level of care, and the duration, frequency, or quantity of health care services provided in relation to the condition(s) being treated. The Agency uses InterQual ISDR Level of Care criteria as a guideline in the utilization review process.

- Concurrent UR is performed during a client's course of care.
- Prospective UR is performed prior to the provision of health care services.
- Retrospective UR is performed following the provision of health care services and includes both post-payment and pre-payment review.
- Post-payment retro UR is performed after health care services are provided and paid.
- Pre-payment retro UR is performed after health care services are provided but prior to payment.

Detoxification Services

The Agency or Agency-Designee covers detoxification services for clients receiving alcohol and/or drug detoxification services in a Division of Behavioral Health and Recovery (DBHR)-enrolled hospital-based detoxification center or in an acute care hospital when the following conditions are met:

- The stay meets the intensity of service and severity of illness standards necessary to qualify for an inpatient hospital stay;
- The care is provided in a medical unit;
- The client is not participating in the Agency's Chemical-Using Pregnant (CUP) Women program;
- Inpatient psychiatric care is not medically necessary and an approval from the Regional Support Network (RSN) is not appropriate; and
- Nonhospital-based detoxification is not medically appropriate.

Note: Physicians must indicate the hospital's NPI in field 32 on the CMS-1500 Claim Form or in the *Comments* field when billed electronically. If the hospital's NPI is not indicated on the claim, the claim will be denied.

Physician-Related Services/Health care Professional Services

When the conditions on the previous page are met, providers must bill as follows:

Procedure Code	Modifier	Brief Description	Limitations
H0009		Alcohol and/or drug services <i>[bill for the initial admission]</i>	Limited to one per hospitalization. Restricted to ICD-9-CM diagnosis codes 292.0-292.9, 303.00-305.03, 305.20-305.93, and 790.3
H0009	TS	Alcohol and/or drug services with follow-up service modifier <i>[bill for any follow-up days]</i>	

Note: Managed Care Clients who are receiving detoxification services in a detox hospital that has a detoxification-specific taxonomy can be billed directly to the Agency.

Smoking Cessation

Smoking Cessation, which can include free counseling and prescription drugs, represents a major advancement in public health for Washington State. Below is a brief overview of the way the benefit works and the services available for clients in the Agency fee-for-service program. For clients enrolled in managed care, contact the client's health plan for information regarding the smoking cessation benefit.

What services are available?

Refer clients to the toll-free Washington State Tobacco Quit Line for one or more of the following free services:

- Telephone counseling and follow-up support calls through the quit line;
- Nicotine patches or gum through the quit line, if appropriate; and
- Prescription medications recommended by the quit line. The client will then be referred back to their provider for a prescription, if appropriate.

The Washington State Tobacco Quit Line is:

1-800-QUIT-NOW (1-800-784-8669)	English
1-877-2NO-FUME (1-877-266-3863)	Spanish

Who is eligible to receive these services?

- All medical assistance clients 18 years of age and older and all pregnant women regardless of age are eligible for smoking cessation services through the Tobacco Quit Line.
- Clients eligible for the Alien Emergency Medical (AEM) program or enrolled in the Family Planning Only or TAKE CHARGE programs are eligible for some of the above mentioned services; however, these clients **are not eligible** for prescription drugs and smoking cessation services provided by their primary care provider.

When a client is receiving counseling from the Tobacco Quit Line, the Tobacco Quit Line may recommend a smoking cessation prescription, if appropriate. The client will return to the provider's office with a form for you to review. Complete the form and fax it with a prescription to the Agency (see the *Important Contacts* section).

When will the Agency pay for a smoking cessation referral?

The Agency will pay physicians and ARNP's for a smoking cessation referral (**T1016**) when:

- The client is pregnant or 18 years of age and older;
- The client presents a Services Card and is covered by a Benefit Services Package.

Note: Refer to the *Scope of Health Care Services Table* web page at: <http://hrsa.dshs.wa.gov/Download/ScopeofHealthcareSvcsTable.html> for an up-to-date listing of Benefit Service Packages.

- The client is **not** eligible for the **AEM** program or enrolled in the **Family Planning Only** or **TAKE CHARGE** program;
- The referral is billed with ICD-9-CM diagnosis 305.1, 649.03, or 649.04;
- The client is evaluated, in person, for the sole purpose of counseling the client to encourage them to call and enroll in this smoking cessation program; **and**
- The referral is not billed in combination with an evaluation and management office visit.

When will the Agency pay for a smoking cessation referral for an evaluation for a smoking cessation prescription?

The Agency will pay physicians and ARNP's for a smoking cessation referral (**T1016**) for an evaluation for a smoking cessation prescription when:

- The client is pregnant or 18 years of age or older;
- The client is enrolled in this smoking cessation program;
- The client presents a Services Card and is covered by a Benefit Services Package.

Note: Refer to the *Scope of Healthcare Services Table* web page at: <http://hrsa.dshs.wa.gov/Download/ScopeofHealthcareSvcsTable.html> for an up-to-date listing of Benefit Service Packages.

- The client is **not** eligible for the **AEM** program or enrolled in the **Family Planning Only** or **TAKE CHARGE** program;
- The referral is billed with ICD-9-CM diagnosis 305.1, 649.03, or 649.04;
- Evaluate the client for a smoking cessation prescription, with or without the client present, complete the form, and fax it to the Agency Pharmacy Authorization Section, Drug Use and Review; **and**
- The referral is not billed in combination with an evaluation and management office visit.

Additional information:

- For more information about the smoking cessation benefit, call the Agency at 1-800-562-3022.
- For more information about the Tobacco Quit Line, visit www.Quitline.com.
- For additional information, go to <http://www.smokefreewashington.com/resources/>.

Emergency Physician-Related Services (CPT codes 99281-99285)
[Refer to WAC 182-531-0500]

- For services performed by the physician assigned to, or on call to, the emergency department, bill the Agency using CPT codes 99281-99285.

Note: For multiple emergency room (ER) visits on the same day with related diagnoses, the time(s) of the additional visit(s) must be noted in the *Comments* section of the claim form.

- The Agency does not pay emergency room physicians for hospital admissions (e.g., CPT codes 99221-99223) or after-hours services (e.g., CPT codes 99050 and 99053).
- Physicians who perform emergency room services **must not** bill modifier 54 when billing the Agency for surgical procedures.
- Physicians who provide only the follow-up services for minor procedures performed in emergency departments must bill the appropriate level of office visit code without modifier 55.
- The Agency follows Medicare’s policy to not pay emergency room providers for the following procedure codes: CPT codes 96360-96361 or 96365-96368.

End-Stage Renal Disease (ESRD)

Inpatient Visits for Hemodialysis or Outpatient Non-ESRD Dialysis Services (CPT codes 90935 and 90937)

Procedure Codes Billed	Instructions
90935 and 90937	<p>Bill these codes for the hemodialysis procedure with all E&M services related to the client’s renal disease on the day of the hemodialysis procedure. Bill these codes for the following clients:</p> <ul style="list-style-type: none"> • Clients in an inpatient setting with ESRD; or • Clients receiving hemodialysis in an outpatient or inpatient setting who do not have ESRD. <p>Bill using ICD-9-CM diagnosis code 585.6 or the appropriate diagnosis code (584.5-586) for clients requiring dialysis but who do not have ESRD.</p>

Physician-Related Services/Health care Professional Services

Procedure Codes Billed	Instructions
90935	Bill using procedure code 90935 if only one evaluation is required related to the hemodialysis procedure.
90937	Bill using procedure code 90937 if a re-evaluation(s) is required during a hemodialysis procedure on the same day.

Inpatient Visits for Dialysis Procedures Other Than Hemodialysis (e.g., peritoneal dialysis, hemofiltration, or continuous renal replacement therapies) (CPT codes 90945, 90947)

Procedure Codes Billed	Instructions
90945 and 90947	Bill these codes for E&M services related to the client’s renal disease on the day of the procedure that includes peritoneal dialysis, hemofiltration, or continuous renal replacement. Bill using ICD-9-CM diagnosis code 585.6 or the appropriate diagnosis code (584.5-586) for clients requiring dialysis but who do not have ESRD.
90945	Bill using procedure code 90945 if only one evaluation is required related to the procedure.
90947	Bill using procedure code 90947 if a re-evaluation(s) is required during a procedure on the same day.

If a separately identifiable service is performed on the same day as a dialysis service, you may bill any of the following E&M procedures codes with modifier 25:

- 99201-99205 Office or Other Outpatient Visit: New Patient;
- 99211-99215 Office or Other Outpatient Visit: Established Patient;
- 99221-99223 Initial Hospital Care: New or Established Patient;
- 99238-99239 Hospital Discharge Day Management Services;
- 99241-99245 Office or Other Outpatient Consultations: New or Established Patient; and
- 99291-99292 Critical Care Services.

Critical Care (CPT codes 99291-99292) [Refer to WAC 182-531-0450]

Note: For neonatal or pediatric critical care services, see page B.19.

What is critical care?

Critical care is the direct delivery and constant attention by a provider(s) for a critically ill or critically injured patient. A critical illness or injury acutely impairs one or more vital organ systems such that there is a high probability of imminent or life threatening deterioration in the patient's condition.

Critical care involves high complexity decision making to assess, manipulate, and support vital system function(s); to treat single or multiple vital organ system failure; and/or to prevent further life threatening deterioration of the patient's condition.

Providing medical care to a critically ill, injured, or postoperative patient qualifies as a critical care service only if both the illness or injury and the treatment being provided meet the above requirements. Critical care is usually, but not always, given in a critical care area, such as the coronary care unit, intensive care unit, pediatric intensive care unit, respiratory care unit, or the emergency care facility. Services for a patient who is not critically ill but happens to be in a critical care unit are reported using other appropriate E&M codes.

Billing for Critical Care

When billing for critical care, providers must bill using CPT codes 99291-99292:

- For the provider's attendance during the transport of critically ill or critically injured clients 25 months of age or older to or from a facility or hospital.
- To report critical care services provided in an outpatient setting (e.g., Emergency department or office), for neonates and pediatric clients up through 24 months.
- To report the total duration of time spent by a physician providing critical care services to a critically ill or critically injured client, even if the time spent by the physician on that date is not continuous. For any given period of time spent providing critical care services, the physician must devote his or her full attention to the client and cannot provide services to any other patient during the same period of time.

Note: Surgery, stand-by, or lengthy consultation on a **stable** client does not qualify as critical care.

Where is critical care performed?

Critical care is usually performed in a critical care area of a hospital, such as a(n):

- Coronary care unit;
- Intensive care unit;
- Respiratory care unit; or
- Emergency care facility.

The Agency covers:

- A maximum of three hours of critical care per client, per day.
- Critical care provided by the attending physician who assume(s) responsibility for the care of a client during a life-threatening episode.
- Critical care services provided by more than one physician if the services involve multiple organ systems (unrelated diagnosis). However, in the emergency room, payment for critical care services is limited to one physician.

The following services (with their corresponding CPT codes) are included in critical care. Do not bill these separately:

- Vascular access procedures (36000, 36410, 36415, 36591, and 36600);
- Gastric intubation (43752 and 43753);
- Chest x-rays (71010, 71015, and 71020);
- Temporary transcutaneous pacing (92953);
- The interpretation of cardiac output measurements (93561-93562);
- Ventilator management (94002-94004, 94660, and 94662);
- Pulse oximetry (94760 and 94762); or
- Blood gases, and information data stored in computers (e.g., ECGs, blood pressures, hematologic data) (99090).

Note: Procedure code 43752 may be billed separately when it is the only procedure code billed.

Physician Standby Services (CPT code 99360)

[Refer to WAC 182-531-1250]

The Agency covers physician standby services when those services are requested by another physician and involve prolonged physician attendance without direct (face-to-face) client contact.

Note: The standby physician cannot provide care or services to other clients during the standby period.

Limitations

- Standby services of less than 30 minutes are not covered.
- After the first 30 minutes, subsequent periods of standby services are covered only when a full 30 minutes of standby is provided for each unit billed.

The Agency does not cover physician standby services when:

- The provider performs a surgery that is subject to the "global surgery policy" (refer to Section F);
- Billed in addition to any other procedure code, with the exception of CPT codes 99460 and 99465; or
- When the service results in an admission to a neonatal intensive care unit (CPT 99468) on the same day.

Prolonged Services (CPT codes 99354-99357) [Refer to WAC 182-531-1350]

The Agency covers prolonged services:

- Up to three hours per client, per diagnosis, per day.

Note: The time counted toward payment for prolonged E&M services includes only direct face-to-face contact between the provider and the client, whether or not the services were continuous.

- Only when the provider performs one of the services listed below for the client on the same day:

Prolonged CPT Code	Other CPT Code(s)
99354	99201-99215, 99241-99245, 99324-99337, 99341-99350, 90809, 90815
99355	99354 and one of the E&M codes required for 99354
99356	99218-99220, 99221-99233, 99251-99255, 99304-99310, 90822, 90829
99357	99356 and one of the E&M codes required for 99356

Note: Both the prolonged services CPT code *and* any of the “Other CPT Code(s)” listed above **must** be billed on the **same** claim.

Osteopathic Manipulative Therapy (CPT codes 98925-98929)

[Refer to WAC 182-531-1050]

The Agency covers:

- Ten (10) osteopathic manipulations per client, per calendar year.
- Osteopathic Manipulative Therapy (OMT) services only when provided by an osteopathic physician licensed under chapter 18.71 RCW.
- OMT services by body regions. Body regions are defined as:
 - ✓ abdomen and viscera
 - ✓ cervical
 - ✓ head
 - ✓ lower extremities
 - ✓ lumbar
 - ✓ pelvic
 - ✓ rib cage
 - ✓ sacral
 - ✓ thoracic
 - ✓ upper extremities
- One OMT procedure code in the range 98925-98929 per client, per day. Bill using the CPT code that describes the number of body regions involved. For example, if three body regions are manipulated, bill one unit of CPT code 98926.
- An E&M service (billed with modifier 25) in addition to the OMT, under one of the following circumstances:
 - ✓ When a provider diagnoses the condition requiring OMT and provides the therapy during the same visit;
 - ✓ When the existing condition fails to respond to OMT or significantly changes, requiring E&M services beyond those considered included in the manipulation codes; or
 - ✓ When the provider treats the client for a condition unrelated to the OMT during the same encounter.

Justification for the E&M and OMT services must be documented and retained in the client's record for review.

Note: The Agency **does not cover** physical therapy services performed by osteopathic physicians unless they are also physiatrists.

Newborn Care

To assist providers in billing CPT codes with "newborn" in the description, the Agency defines a newborn as 28 days old or younger.

The Agency covers:

- One newborn evaluation per newborn when they are not discharged on the same day using either CPT code 99460 for hospital or birthing center or 99461 for home births.
- Subsequent hospital care (other than initial evaluation or discharge) using CPT code 99462.
- One newborn evaluation and discharge per newborn performed in the hospital or birthing center on the same day using CPT code 99463.

Note: The Agency covers circumcisions (CPT codes 54150, 54160, and 54161) *only* with medical ICD-9-CM diagnosis codes 605 (Phimosis), 607.1 (Balanoposthitis), or 607.81 (Balanitis Xerotica).

**Neonatal Intensive Care Unit (NICU)/
Pediatric Intensive Care Unit (PICU) (CPT codes 99468-99480)**
[Refer to WAC 182-531-0900]

NICU/PICU care includes management, monitoring, and treatment of the neonate/infant including respiratory, pharmacological control of the circulatory system, enteral and parenteral nutrition, metabolic and hematological maintenance, parent/family counseling, case management services, and personal direct supervision of the health care team's activities.

The Agency covers:

- One NICU/PICU service per client, per day.
- Intensive observation, frequent interventions, and other intensive services for neonates. Use CPT code 99477 for initial hospital care, per day, when a neonate requires intensive observation, frequent interventions and other intensive services. You may report 99460 and 99477 when two distinct services are provided on the same day, but you must use modifier 25 with 99460. Bill 99460 with modifier 25 when you see a normal newborn after an uneventful delivery and then later the infant develops complications and is transferred to an intensive setting for observation, frequent interventions, and other intensive services.
- NICU/PICU services when directing the care of a neonate/infant in a NICU/PICU. These codes represent care beginning with the date of admission to the NICU/PICU.

Note: Once the infant is no longer considered critically ill, hospital care CPT codes 99231-99233 (>2500 grams) or 99478-99480 (<2500 grams) must be used.

- Newborn resuscitation (CPT code 99464, 99465) in addition to NICU/PICU services.
- The provider's attendance during the transport of critically ill or critically injured pediatric clients 24 months of age or younger to or from a facility or hospital (CPT code 99466 or 99467).
- Codes 99291-99292 for critical care services provided in an outpatient setting when the client is 24 months of age or younger.

Physician-Related Services/Health care Professional Services

The following services and the subsequent intensive, noncritical services (with their corresponding CPT codes) are included in neonatal or pediatric critical care. Do not bill these separately. Providers must follow the national CCI edits as this list is not exhaustive:

- Bladder catheterization (51701- 51702);
- Central (36555) or peripheral vessel catheterization (36000);
- Continuous positive airway pressure (CPAP) (94660);
- Endotracheal intubation (31500);
- Initiation and management of mechanical ventilation (94002-94004);
- Invasive or noninvasive electronic monitoring of vital signs, bedside pulmonary function testing (94375), and/or monitoring or interpretation of blood gases or oxygen saturation (94760-94762);
- Lumbar puncture (62270);
- Oral or nasogastric tube placement (43752);
- Other arterial catheters (36140 and 36620);
- Umbilical arterial catheterization (36660);
- Umbilical venous catheterization (36510);
- Suprapubic bladder aspiration (51100);
- Surfactant administration, intravascular fluid administration (96360, 96361, 90780, and 90781);
- Transfusion of blood components (36430 and 36440);
- Vascular punctures (36420 and 36600); or
- Vascular access procedures (36400, 36405, and 36406).

Note: Procedure code 43752 may be billed separately when it is the only procedure code billed.

Intensive (Noncritical) Low Birth Weight Services (99478-99480)

- Bill the appropriate procedure codes only once per day, per client.
- These codes represent care that begins subsequent to the admission date.

Physician Care Plan Oversight (CPT codes 99375, 99378, and 99380) [Refer to WAC 182-531-1150]

The Agency covers:

- Physician care plan oversight services once per client, per month.
 - ✓ A plan of care must be established by the home health agency, hospice, or nursing facility.
 - ✓ The provider must perform 30 or more minutes of oversight services for the client each calendar month.

The Agency does not cover:

- Physician care plan oversight services of less than 30 minutes per calendar month (CPT codes 99374, 99377, and 99379).
- Physician care plan oversight services provided by more than one provider during the global surgery payment period, unless the care plan oversight is unrelated to the surgery.

Physicians Providing Service to Hospice Clients

The Agency pays for hospice care for eligible clients. To be eligible, clients must be certified by a physician as terminally ill with a life expectancy of six months or less. Contact your local hospice agency and they will evaluate the client. Hospice will cover all services required for treatment of the terminal illness. These services must be provided by or through the hospice agency.

The Agency pays providers who are attending physicians and not employed by the hospice agency:

- For direct physician care services provided to a hospice client;
- When the provided services are not related to the terminal illness; and
- When the client's provider, including the hospice provider, coordinates the health care provided.

Concurrent Care for Children Who Are on Hospice

[Refer to WAC 182-551-1860]

Hospice Care and Curative Services

In response to the Patient Protection and Affordable Care Act, clients 20 years of age and younger who are on Hospice service are also allowed to have access to curative services.

Note: The legal authority for these clients' hospice *palliative* services is Section 2302 of the Patient Protection and Affordable Care Act of 2010 and Section 1814(a)(7) of the Social Security Act; and for client's *curative* services is Title XIX Medicaid and Title XXI Children's Health Insurance Program (CHIP) for treatment of the terminal condition.

Concurrent/Curative Treatment

Unless otherwise specified within these billing instructions, curative treatment, related services, or related medications requested for clients 20 years of age and younger are subject to the Medicaid Agency's specific program rules governing those services or medications.

Services Included under the Medicaid Agency's Concurrent/Curative Care Benefit

The following services aimed at achieving a disease-free state are included under the curative care benefit paid for by the Medicaid Agency:

- Radiation
- Chemotherapy
- Diagnostics, including laboratory and imaging
- Licensed health care professional services
- Inpatient and outpatient hospital care
- Surgery
- Medication
- Equipment and related supplies
- Ancillary services, such as medical transportation

All of the above services require Prior Authorization by procedure code to obtain payment. To determine other prior authorization requirements on specific services, please refer to the online Medicaid Agency's Fee Schedule at: <http://hrsa.dshs.wa.gov/RBRVS/Index.html>.

Authorization for Concurrent/Curative Services

The Agency requires authorization for all concurrent/curative care. Community providers will need to request authorization for these services, including treatment planning, actual treatment, and related medications. The Authorization will span the timeframe anticipated for the episode

Physician-Related Services/Health care Professional Services

of care. Prior authorization requests for concurrent/curative treatment and medications are subject to medical necessity review under [WAC 182-501-0165](#).

Note: To learn what documentation to send for prior authorization, see Section H, Prior Authorization within these billing instructions.

Providers need to submit a comprehensive treatment plan including any treatment protocols, the estimated timeframe for treatment, and any ancillary services.

Once the treatment plan is reviewed by the Agency and approved, please follow the guidelines on the next page *if*:

- Additional services are needed; and/or
- There are additional providers who will be administering care related to the approved concurrent treatment plan.

To request authorization for other treatments or services to an approved plan of concurrent care treatment authorization:

- Call the Agency at 1-800-562-3022, ext. 15471 from 8:00 a.m. to 11:30 a.m.;
or
- Submit additional information to a request by using instructions that follow.
 - ✓ Go to <http://hrsa.dshs.wa.gov/>
 - ✓ Click Medicaid Provider Guides and Provider Notices (under Provider Services on the left hand side of page).
 - ✓ Click Document Submission Cover Sheets.
 - ✓ Click on 7. PA (Prior Authorization) Pend Forms.
 - ✓ In the box, put the Reference (authorization) number from HCA and press enter. This generates the barcode.
Your ProviderOne Reference (authorization) number for this request can be found using the ProviderOne authorization inquiry feature and the number is listed above the client's ID number on the PA Utilization screen.
 - ✓ Print and attach only the additional information behind the barcode sheet and fax to the number on the bottom of the page.

Do **NOT** submit with an office coversheet. **The Barcode form *must* be the first page of your fax.**

Physician-Related Services/Health care Professional Services

The Medicaid Agency will notify the hospice agency when there is an approval or denial for hospice curative treatment. It is the hospice agency's responsibility to continue to coordinate care.

- If the concurrent/curative treatment, related services, or related medications are not covered by the Medicaid Agency, the provider must request an exception to rule (ETR) under [WAC 182-501-0160](#). Requests for exception to rule are subject to a medical necessity review under [WAC 182-501-0165](#).
- If the Medicaid Agency denies a request for a covered service, refer to [WAC 182-502-0160](#) that specifies when a provider or a client may be responsible to pay for a covered service.

Billing

When billing for services **unrelated to the terminal illness**, providers must bill the Agency directly.

The claim must include the following:

- The provider must put their NPI in the referring provider field of the HIPAA transaction (field 17 and 17a of the CMS-1500); and
- If not related to hospice care, when billing electronically, enter “Not related to hospice care” in the claim notes field of the HIPAA transaction or field 19 of the CMS 1500 Claim Form.

When billing services **for concurrent/curative care**, providers must bill the Agency directly with the prior authorization number on the claim.

Domiciliary, Rest Home, or Custodial Care Services

CPT codes 99304-99318 are *not* appropriate E&M codes for use in place of service 13 (Assisted Living) or 14 (Group Home). Providers must use CPT codes 99324-99328 or 99334-99337 for E&M services provided to clients in these settings.

Home Evaluation and Management

The Agency pays for Home Evaluation and Management (CPT codes 99341-99350) only when services are provided in place of service 12 (home).

Telehealth

What is telehealth?

Telehealth is when a health care practitioner uses interactive real-time audio and video telecommunications to deliver covered services that are within his or her scope of practice to a client at a site other than the site where the provider is located.

Using telehealth when it is medically necessary enables the health care practitioner and the client to interact in real-time communication as if they were having a face-to-face session. Telehealth allows Agency clients, particularly those in medically underserved areas of the state, improved access to essential health care services that may not otherwise be available without traveling long distances.

The following services are *not* covered as telehealth:

- Email, telephone, and facsimile transmissions;
- Installation or maintenance of any telecommunication devices or systems;
- Home health monitoring; or
- “Store and forward” telecommunication based services. (Store and forward is the asynchronous transmission of medical information to be reviewed at a later time by the physician or practitioner at the distant site).

Who is eligible for telehealth?

Fee-for-service clients are eligible for medically necessary covered health care services delivered via telehealth. The referring provider is responsible for determining and documenting that telehealth is medically necessary. As a condition of payment, the client must be present and participating in the telehealth visit.

The Agency will not pay separately for telehealth services for clients enrolled in a managed care plan. Clients enrolled in an Agency managed care plan are identified as such in ProviderOne. Managed care enrollees must have all services arranged and provided by their primary care providers (PCP). Contact the managed care plan regarding whether or not the plan will authorize telehealth coverage. It is not mandatory that the plan pay for telehealth.

When does the Agency cover telehealth?

The Agency covers telehealth through the fee-for-service program when it is used to substitute for a face-to-face, “hands on” encounter for only those services specifically listed in this section.

Originating Site (Location of Client)

What is an “originating site”?

An originating site is the physical location of the eligible Agency client at the time the professional service is provided by a physician or practitioner through telehealth. Approved originating sites are:

- The office of a physician or practitioner;
- A hospital;
- A critical access hospital;
- A rural health clinic (RHC); and
- A federally qualified health center (FQHC).

Is the originating site paid for telehealth?

Yes. The originating site is paid a facility fee per completed transmission.

How does the originating site bill the Agency for the facility fee?

- *Hospital Outpatient:* When the originating site is a hospital outpatient Agency, payment for the originating site facility fee will be paid according to the maximum allowable fee schedule. To receive payment for the facility fee, outpatient hospital providers must bill revenue code 0780 on the same line as HCPCS code Q3014.
- *Hospital Inpatient:* When the originating site is an inpatient hospital, there is no payment to the originating site for the facility fee.
- *Critical Access Hospitals:* When the originating site is a critical access hospital outpatient Agency, payment is separate from the cost-based payment methodology. To receive payment for the facility fee, critical access hospitals must bill revenue code 0789 on the same line as HCPCS code Q3014.
- *FQHCs and RHCs:* When the originating site is an FQHC or RHC, bill for the facility fee using HCPCS code Q3014. This is not considered an FQHC or RHC service and is not paid as an encounter.

Physician-Related Services/Health care Professional Services

- **Physicians' Offices:** When the originating site is a physician's office, bill for the facility fee using HCPCS code Q3014.

If a provider from the originating site performs a separately identifiable service for the client on the same day as telehealth, documentation for both services must be clearly and separately identified in the client's medical record.

Distant Site (Location of Consultant)

What is a "distant site"?

A distant site is the physical location of the physician or practitioner providing the professional service to an eligible Agency client through telehealth.

Who is eligible to be paid for telehealth services at a distant site?

The Agency pays the following provider types for telehealth services provided within their scope of practice to eligible Agency clients:

- Physicians (including Psychiatrists); and
- Advanced Registered Nurse Practitioners (ARNPs).

What services are covered using telehealth?

Only the following services are covered using telehealth:

- Consultations (CPT codes 99241–99245 and 99251-99255);
- Office or other outpatient visits (CPT 99201-99215);
- Psychiatric intake and assessment (CPT code 90801);
- Individual psychotherapy (CPT codes 90804-90809); and
- Pharmacologic management (CPT codes 90862).

Note: Refer to other sections of these billing instructions for specific policies and limitation on these CPT codes.

How does the distant site bill the Agency for the services delivered through telehealth?

The payment amount for the professional service provided through telehealth by the provider at the distant site is equal to the current fee schedule amount for the service provided.

Use the appropriate CPT codes **with modifier GT** (via interactive audio and video telecommunications system) when submitting claims to the Agency for payment.

Audiology

[Refer to WAC 182-531-0375]

The Agency may pay for speech/audiology program services for conditions that are the result of medically recognized diseases and defects.

Who Is Eligible To Provide Audiology Services?

[WAC 182-545-0700 (1)(c)]

Audiologists who are appropriately licensed or registered to provide speech/audiology services within their state of residence to Agency clients.

What Type of Equipment Must be Used?

Audiologists must use yearly calibrated electronic equipment, according to RCW 18.35.020.

- For caloric vestibular testing (CPT procedure code 92543), bill one unit per irrigation. If necessary, you may bill up to four units for each ear.
- For sinusoidal vertical axis rotational testing (CPT procedure code 92546), bill 1 unit per velocity/per direction. If necessary, you may bill up to 3 units for each direction.

The Agency covers, with prior authorization, the implantation of a unilateral cochlear device for clients 20 of age and younger with the following limitations:

- The client meets one of the following:
 - ✓ Has a diagnosis of profound to severe bilateral, sensorineural hearing loss;
 - ✓ Has stimulable auditory nerves but has limited benefit from appropriately fitted hearing aids (e.g., fail to meet age appropriate auditory milestones in the best aided condition for young children, or score of <10 or equal to 40% correct in the best aided condition on recorded open-set sentence recognition tests);
 - ✓ Has the cognitive ability to use auditory clues;
 - ✓ Is willing to undergo an extensive rehabilitation program;

Physician-Related Services/Health care Professional Services

- ✓ Has an accessible cochlear lumen that is structurally suitable for cochlear implantation;
 - ✓ Does not have lesions in the auditory nerve and/or acoustic areas of the central nervous system; or
 - ✓ Has no other contraindications to surgery; and
- The procedure is performed in an inpatient hospital setting or outpatient hospital setting.

The Agency covers osseointegrated bone anchored hearing aids (BAHA) for clients 20 years of age and younger with prior authorization.

The Agency covers replacement parts for BAHA and cochlear devices for clients 20 years of age and younger only. See the current [Hearing Hardware for Clients 20 Years of Age and Younger Billing Instructions](#) for more information.

The Agency considers requests for removal or repair of previously implanted bone anchored hearing aids (BAHA) and cochlear devices for clients 21 years of age and older only when medically necessary. Prior authorization from the Agency is required.

Audiology Billing

The outpatient rehabilitation benefit limits ***do not apply*** to therapy services provided and billed by audiologists. Audiologists must use ***AF modifier*** when billing.

Audiology Coverage Table

Note: Due to its licensing agreement with the American Medical Association, the Agency publishes only the official, brief CPT® code descriptions. To view the full descriptions, please refer to your current CPT book.

Services Performed by a Dentist and/or Physician Specializing in Oral Maxillofacial Surgery

[WAC 182-535-1094, WAC 182-531-1025]

The Agency covers the following services when:

- The procedure is medically necessary;
- Provided by a dentist and/or a physician that specializes in oral maxillofacial surgery; and
- The Agency is billed using the following:
 - ✓ The procedure is specifically listed as a covered current dental terminology (CDT) code in the Agency’s current published Medicaid Provider Guides or fee schedules; or
 - ✓ The procedure code is listed in the following table:

Note: Dentists who specialize in oral maxillofacial surgery may also bill for performing the procedures listed in the “Services Performed by a Dentist” later in this section.

Procedure Code	PA?	Description
11000	N	Debride infected skin
11044	N	Debride tissue/muscle/bone
11100	N	Biopsy, skin lesion
11101	N	Biopsy, skin add-on
11440	N	Exc face-mm b9+marg 0.5 < cm
11441	N	Exc face-mm b9+marg 0.6-1 cm
11442	N	Exc face-mm b9+marg 1.1-2 cm
11443	N	Exc face-mm b9+marg 2.1-3 cm
11444	N	Exc face-mm b9+marg 3.1-4 cm
11446	N	Exc face-mm b9+marg > 4 cm
11640	N	Exc face-mm malig+marg 0.5 <
11641	N	Exc face-mm malig+marg 0.6-1
11642	N	Exc face-mm malig+marg 1.1-2
11643	N	Exc face-mm malig+marg 2.1-3

Dental Services Billable by Primary Care Medical Providers

The Agency pays primary care medical providers for delivering periodic oral evaluations, topical application of fluoride, and family oral health education as follows:

Payment CDT/HCPCS Code	ICD-9-CM Diagnosis Code	Description	Maximum Allowable Fee	Limitations
D0120	V20.2	Periodic oral evaluation	\$29.46	**One periodic oral evaluation is allowed every six months through age 5 per provider, per client
D1203	V20.2	Topical application of fluoride	\$13.25	Up to 3 times in a 12-month period through age 5, per provider, per client; 2 times in a 12-month period for ages 6-18, per provider, per client
D9999	V20.2	Family oral health education	\$27.58	**One visit per day per family, per provider. Up to 2 visits in a 12-month period through age 5 per provider, per client.

** The Agency pays only certified providers for these services. See below for more information on how to become certified.

Training and Certification

To become trained and certified to provide these services, primary care medical providers must complete a class offered by Washington Dental Service Foundation (WDSF). The 1 ½ hour continuing medical education (CME) class is given in-office or in community settings and teaches providers to deliver the following preventive services:

- Links between oral health and total health;
- Oral health screening and risk assessment;
- Providing oral health education and anticipatory guidance to clients and families;
- Application of topical fluoride;

Physician-Related Services/Health care Professional Services

- Billing; and
- Referrals for dental care.

Please contact WDSF at mcaplow@deltadentalwa.com or 206.473-9542 if you have questions about whether you are already certified or would like to schedule certification training.

Dental Disease Prevention Services

The Agency pays enhanced fees to *certified* participating primary care medical providers for delivering the following services:

- **Periodic oral evaluations;**
- **Topical application of fluoride** (fluoride varnish);
- **Family oral health education.** An oral health education visit must include all of the following, when appropriate:
 - **"Lift Lip" training:** Show the parent(s)/guardian(s) how to examine the child using the lap position. Ask if the parent(s)/guardian(s) feel comfortable doing this once per month;
 - **Oral hygiene training:** Demonstrate how to position the child to clean the teeth. Record that this was demonstrated;
 - **Risk assessment for early childhood caries:** Assess the risk of dental disease for the child. Obtain a history of previous dental disease activity for this child and any siblings from the parent(s)/guardian(s). Also note the dental health of the parent(s)/guardian(s);
 - **Dietary counseling:** Talk with the parent(s)/guardian(s) about the need to use a cup, rather than a bottle, when giving the child anything sweet to drink. Note that dietary counseling delivered;
 - **Discussion of fluoride supplements:** Discuss fluoride supplements with the parent(s)/guardian(s). Let the parent/guardian know fluoride supplements are covered under the Agency's Prescription Drug program. Fluoride prescriptions written by the primary care medical provider may be filled at any Medicaid-participating pharmacy. Ensure that the child is not already receiving fluoride supplements;
 - **Documentation:** in the client's file or the client's designated adult member's (family member or other responsible adult) file to record the activities provided.

Access to Baby and Child Dentistry (ABCD) Program

Physician-Related Services/Health care Professional Services

The purpose of the Access to Baby and Child Dentistry (ABCD) program is to increase access to preventive dental services for Medicaid-eligible infants, toddlers, and preschoolers five years of age and younger. To find out if your area has an ABCD program, visit www.abcd-dental.org.

Emergency Oral Health Services

[Refer to WAC 182-531-1025]

Client Eligibility

Clients age 21 and older are eligible for the oral health care services listed in this section, subject to coverage limitations.

Payment

The Agency pays for oral health care services provided by a dentist for clients age 21 years of age and older when the services provided are:

- Within the scope of the eligible client's medical care program;
- Medically necessary as defined in WAC 182-500-0005;
- Meet the coverage criteria for the emergency oral health benefit listed in the "Emergency Oral Health Benefit" later in this section;
- Documented in the client's record in accordance with Chapter 182-502 WAC;
- Prior authorized, if required;
- Within prevailing standard of care accepted practice standards;
- Consistent with a diagnosis of teeth, mouth and jaw disease or condition;
- Reasonable in amount and duration of care, treatment, or service;
- Are billed using only the allowed procedure codes listed in these billing instructions and the Physician-Related Services/Health Care Professionals Fee Schedule; and
- Are documented in the client record with a comprehensive description of the presenting symptoms, diagnosis and services provided and including the following, as applicable:
 - ✓ Client's blood pressure, when appropriate;
 - ✓ A surgical narrative;
 - ✓ A copy of the post-operative instructions; and
 - ✓ A copy of all pre- and post-operative prescriptions.

CPT® codes and descriptions only are copyright 2011 American Medical Association.

Provider Requirements

- An appropriate consent form, if required, signed and dated by the client or the client's legal representative must be in the client's record.
- An anesthesiologist providing oral health care under this section must have a current provider's permit on file with the Agency.
- A health care provider providing oral or parenteral conscious sedation, or general anesthesia, must meet:
 - ✓ The provider's professional organization guidelines;
 - ✓ The department of health (DOH) requirements in chapter 246-817 WAC; and
 - ✓ Any applicable DOH medical, dental, and nursing anesthesia regulations.
- Agency-enrolled dental providers who are not specialized to perform oral and maxillofacial surgery (see WAC 182-535-1070(3)) must use only the current dental terminology (CDT) codes to bill claims for services that are listed in this section.
- Oral health care services must be provided in a clinic setting with the exception of trauma related services.

Emergency Oral Health Benefit

Medical and surgical services provided by a doctor of dental medicine or dental surgery, which, if provided by a physician, are considered a physician service, are included in the emergency oral health benefit when the services are provided as an emergency service. All services are subject to prior authorization when indicated.

The Agency covers medical and surgical oral health services provided by a dentist, for clients 21 years of age and older, only when:

- Provided for the emergency treatment of pain, infection or trauma of the mouth, jaw, or teeth, including treatment of post-surgical complications, such as dry socket; or
- Part of a cancer treatment regimen or part of a pretransplant protocol.

Services Performed by a Dentist

The following set of services are covered under the emergency oral health benefit when provided by a dentist to assess and treat conditions of the mouth, jaw, or teeth:

- Pain.
- Infection.
- Trauma.

These services are covered to treat:

- Post-surgical complications, such as dry socket; or
- Conditions of the mouth, jaw, or teeth that occurred as a result of cancer treatment (Example: radiation therapy of the head or neck); or
- Conditions of the mouth, jaw, or teeth required as part of a transplant protocol (example: infected tooth that requires treatment before the transplant procedure).
- **Emergency examination (CDT: D0140)**, one per presenting problem, performed as a limited oral evaluation to:
 - ✓ Evaluate the client's symptom of pain;
 - ✓ Make a diagnosis; and
 - ✓ Develop or implement a treatment plan, including a referral to another health care professional, such as an oral surgeon; or
 - ✓ A second evaluation if the treatment initiated is conservative, such as prescribed antibiotics, and a subsequent visit is necessary for definitive treatment, such as tooth extraction. Documentation of the treatment plan must be in the client's record.

Physician-Related Services/Health care Professional Services

- **Diagnostic radiographs (x-rays) (CDT: D0220, D0230, D0330).**
 - ✓ Radiographs include:
 - Periapical; and
 - Panoramic films, limited to one every three years.
 - ✓ Radiographs must be:
 - Required to make the diagnosis;
 - Medically necessary;
 - Of diagnostic quality;
 - Dated and labeled with the client's name;
 - The original radiograph, retained by the provider as part of the client's record.

Note: Prior authorization requests must include duplicate radiographs or submitted when the Agency requests a copy of the client's dental record.

- **Pulpal debridement (CDT: D3221)**, limited to: one (1) gross pulpal debridement, per client, per tooth, within a twelve-month period.
- **Extractions and surgical extractions for symptomatic teeth (CDT: D7140, D7210, D7220, D7230, D7240, D7241, D7250)**, limited to:
 - ✓ Extraction of a nearly erupted or fully erupted tooth or exposed root;
 - ✓ Surgical removal of an erupted tooth only;
 - ✓ Surgical removal of residual tooth roots; and
 - ✓ Extraction of an impacted wisdom tooth when the tooth is not erupted.
- **Palliative (emergency) treatment (CDT: D9110)** for the treatment of dental pain, during a limited oral evaluation appointment, limited to one per client, per six-month period.
- **Local anesthesia and regional blocks** as part of the global fee for any procedure provided to an eligible client.
- **Inhalation of nitrous oxide (CDT: D9230)**, once per day.

CPT® codes and descriptions only are copyright 2011 American Medical Association.

Physician-Related Services/Health care Professional Services

- **House or extended care facility visits (CDT: D9410)**, for emergency care as defined in this section.
- **Emergency office visits after regularly scheduled hours (CDT: D9440)**. The Agency limits coverage to one emergency visit per day, per provider.
- **Therapeutic drug injections (CDT: D9610)** including drugs and/or medicaments (pharmaceuticals) only when used with general anesthesia.
- **Treatment of post-surgical complications, such as dry socket (CDT: D9930)**.

Physician-Related Services/Health care Professional Services

The Agency covers the procedure codes in the following table when performed by a dentist to treat an acute oral health emergency.

CDT Code	PA?	Description
D0140	N	Limit oral eval problm focus
D0220	N	Intraoral - periapical first film
D0230	N	Intraoral - periapical each additional film
D0330	N	Panoramic film
D3221	N	Gross pulpal debridement
D7140	N	Extraction, erupted tooth or exposed root (elevation and/or forceps removal)
D7210	N	Surgical removal of erupted tooth requiring elevation of mucoperiosteal flap and removal of bone and/or section of tooth
D7220	N	Removal of impacted tooth - soft tissue
D7230	N	Removal of impacted tooth - partially bony
D7240	N	Removal of impacted tooth - completely bony
D7241	Y	Removal of impacted tooth - completely bony, with unusual surgical complications
D7250	N	Surgical removal of residual tooth roots (cutting procedure)
D9110	N	Palliative (emergency) treatment of dental pain-minor procedure
D9230	N	Analgesia, anxiolysis, inhalation of nitrous oxide
D9410	N	House/extended care facility call
D9440	N	Office visit - after regularly scheduled hours
D9610	N	Therapeutic drug injection, by report
D9930	N	Treatment of complications (post - surgical) - unusual circumstances, by report

- Note:** Use one of the following expedited prior authorization (EPA) numbers:
- 870000002 - For the emergency treatment of pain, infection or trauma of the mouth, jaw, or teeth, including treatment of post-surgical complications, such as dry socket; or
 - 870000003 - For part of a cancer treatment regimen or part of a pretransplant protocol to indicate to the Agency how the client's condition has met the emergency oral health criteria.

Authorization requirements have not changed for the procedure code or the site of service.

Billing for Services that Qualify for Emergency Oral Health Benefit Package

The Agency requires providers to use Expedited Prior Authorization (EPA) numbers at the header level of the claim to certify to the Agency that the services provided meet the qualifications of the emergency oral health benefit. Failure to bill with an EPA number will result in claim denial.

The use of EPA numbers does not override the need for site-of-service authorization. If you are providing service in other than an office setting, prior authorization is still required.

- To bill for services that are for pain, infection, or trauma use EPA number **870000002** at the header level.
- To bill for services that are part of a cancer treatment regimen or part of a pre-transplant protocol use EPA number **870000003** at the header level

Note: Failure to bill with the appropriate EPA number at the header level will result in claim denial.

Evaluation and Management Codes (formerly hospital visits and consults)

In addition to using the EPA numbers above, dentists specialized in oral surgery must use CPT codes and follow CPT rules when billing for evaluation and management of clients. The Agency covers these services when a dentist specializing in oral surgery is called to the hospital, or is sent a client from the hospital for an emergency condition (i.e., infection, fracture, or trauma).

When billing for these services, the following must be true:

- Services must be billed on an 837P HIPAA compliant claim form;
- Diagnosis code(s) must show evidence of a condition that requires emergency services; and
- Services must be billed using one of the CPT procedure codes above and modifiers must be used if appropriate.

Billing the Client for Oral Health Care Services

- A waiver is not required when the client chooses to pay for a service that Medicaid excludes from the client's benefit package. Refer to [WAC 182-502-0160](#), Billing a Client, for details about billing for excluded services.

Example: A dental client comes in and wants a crown. Medicaid has excluded crowns from the dental benefit for clients 21 years of age and older, so the provider is free to bill the client. No waiver is needed.

- A waiver is required when the client chooses to not have a treatment Medicaid covers, but prefers to pay for an excluded or noncovered treatment. Refer to [WAC 182-502-0160](#), Billing a Client, for details.

Example: A client comes in with an infection of the gum, which qualifies for emergency oral health treatment and a procedure in the set of covered dental emergency services is appropriate, but the client wants a root canal (an excluded service) instead of an extraction (an included service). The provider and the client must complete a waiver before this client can be billed.

Billing for All Dental-Related Services for Clients Served by the Division of Developmental Disabilities

For dates of service on and after January 1, 2011, the Agency requires provider to use EPA number **870000004** at header level to indicate to the Agency that the client is a client of the Division of Developmental Disabilities. Refer to the *Dental-Related Services Medicaid Provider Guide*, which the Agency will publish the last week of December 2011.

Prior Authorization

The Agency uses the determination process described in WAC 182-501-0165 for covered oral health care services for clients age 21 and older for a condition resulting in emergency care that requires prior authorization (PA).

The Agency requires a dental provider who is requesting PA to submit sufficient objective clinical information to establish medical necessity. Submission of an authorization request must be in writing on the General Information for Authorization form, 13-835, available online at <http://hrsa.dshs.wa.gov/mpforms.shtml>.

Physician-Related Services/Health care Professional Services

The Agency may request additional information as follows:

- Additional radiographs (X rays);
- Study models;
- Photographs; and
- Any other information as determined by the Agency.

The Agency may also require second opinions and/or consultations before authorizing any procedure.

When the Agency authorizes an oral health care service for a client, only for a specific service that is: medically necessary; and an emergency. Agency authorization is not a guarantee of payment.

Note: The authorization is valid for six months for eligible clients and services covered in the client's health care benefit package on the date of service.

The Agency denies a request for an emergency oral health care service when the requested service:

- Is not covered in the client's health care benefit package;
- Is covered by another Agency program;
- Is covered by an agency or other entity outside the Agency; or
- The service fails to meet the clinical criteria, limitations, or restrictions as described in this section.

Services Excluded from the Emergency Health Benefit

- Excluded services that are essential to the completion of previously authorized services are covered. (e.g., non-emergency extractions of teeth provided in 2011 prior to delivery of dentures authorized by the Agency in 2010).
- Excluded services that are not essential to the completion of previously authorized services are not covered.
- Extractions done in preparation for authorized dentures will be covered by the Agency. Please put "Related to Dentures" in the claim comment field to certify that dentures are approved by the Agency.

Note: Excluded services are not subject to Exception to the Rule (ETR).

Vision Care Services

(Includes Ophthalmological Services)

[Refer to WAC 182-531-1000]

Eye Examinations and Refraction Services

The Agency covers, without prior authorization (PA), eye examinations and refraction and fitting services with the following limitations:

- Once every 24 months for asymptomatic clients 21 years of age or older;
- Once every 12 months for asymptomatic clients 20 years of age or younger; or
- Once every 12 months, regardless of age, for asymptomatic clients of the Division of Developmental Disabilities.

Coverage for Additional Examinations and Refraction Services

The Agency covers additional examinations and refraction services outside the limitation described above when:

- The provider is diagnosing or treating the client for a medical condition that has symptoms of vision problems or disease;
- The client is on medication that affects vision; or
- The service is necessary due to lost or broken eyeglasses/contacts. In this case:
 - ✓ No type of authorization is required for clients 20 years of age or younger or for clients of the Division of Developmental Disabilities, regardless of age.
 - ✓ Providers must follow the Agency's expedited prior authorization (EPA) process to receive payment for clients 21 years of age or older. See **EPA # 610** in Section H – *Authorization*. Providers must also document the following in the client's file:
 - The eyeglasses or contacts are lost or broken; and
 - The last examination was at least 18 months ago.

Visual Field Exams

The Agency covers visual field exams for the diagnosis and treatment of abnormal signs, symptoms, or injuries. Providers must document all of the following in the client's record:

- The extent of the testing;
- Why the testing was reasonable and necessary for the client; and
- The medical basis for the frequency of testing.

Vision Therapy

The Agency covers orthoptics and vision therapy which involves a range of treatment modalities including:

- Lenses;
- Prisms;
- Filters;
- Occlusion or patching; and
- Eye exercises/vision training/orthoptics/pleoptics, which are used for eye movement and fixation training.

The Agency requires PA for eye exercises/vision training/orthoptics/pleoptics.

Ocular Prosthetics

The Agency covers ocular prosthetics when provided by any of the following:

- An ophthalmologist;
- An ocularist; or
- An optometrist who specializes in prosthetics.

Please refer to the current Agency *Prosthetic and Orthotic Devices Billing Instructions* for more information on coverage for ocular prosthetics.

Eye Surgery

Cataract Surgery

The Agency covers cataract surgery, without PA, when the following clinical criteria are met:

- Correctable visual acuity in the affected eye at 20/50 or worse, as measured on the Snellen test chart; or
- One or more of the following conditions:
 - ✓ Dislocated or subluxated lens;
 - ✓ Intraocular foreign body;
 - ✓ Ocular trauma;
 - ✓ Phacogenic glaucoma;
 - ✓ Phacogenic uveitis;
 - ✓ Phacoanaphylactic endophthalmitis; or
 - ✓ Increased ocular pressure in a person who is blind and is experiencing ocular pain.

The Agency does not cover the following procedure codes:

Procedure Code	Brief Description	Policy/Comments
C1840	Telescopic intraocular lens	NC
C9732	Insert ocular telescope pros	NC

Strabismus Surgery [WAC 182-531-1000]

The Agency covers strabismus surgery as follows:

Clients	Policy
17 years of age or younger	The provider must clearly document the need in the client's record. The Agency does not require authorization.
18 years of age or older	<p>Covered when the clinical criteria are met. To receive payment, providers must follow the expedited prior authorization (EPA) process. The clinical criteria are:</p> <ul style="list-style-type: none"> • The client has double vision; and • The surgery is not being performed for cosmetic reasons. <p>To receive payment for clients 18 years of age or older, providers must use the Agency's EPA process (refer to Section H).</p>

Blepharoplasty or Blepharoptosis Surgery

The Agency covers blepharoplasty or blepharoptosis surgery when all of the clinical criteria are met. To receive payment, providers must follow the Agency's EPA process. The clinical criteria are:

- The client's excess upper eyelid skin is blocking the superior visual field; and
- The blocked vision is within 10 degrees of central fixation using a central visual field test.

Implantable Miniature Telescope

The implantable miniature telescope, code 66999, is used in clients with untreated, end stage, age related macular degeneration. It is a visual aid for clients with low vision, and like the other adult low vision aids, is considered vision hardware. Like all vision hardware, this is not included in the clients' benefit package for clients 21 years of age and older.

Vision Coverage Table

Due to its licensing agreement with the American Medical Association, the Agency publishes only the official, brief CPT® procedure code descriptions. To view the entire description, please refer to your current CPT book.

Procedure Code	Modifier	Brief Description	PA?	Policy/ Comments	Maximum Allowable Fee
Contact Lens Services					
92071		Contact lens fitting for tx		For ages 21 - 99; 2 fittings every 24 months – For ages 0-20; 2 fittings every 12 months – Retroactive to 1/1/12.	On-line Fee Schedules
92072		Fit contac lens for managmnt		For ages 21 - 99; 2 fittings every 24 months . For ages 0-20; 2 fittings every 12 months limited to diagnosis range 371.60 to 371.62	On-line Fee Schedules

Immunizations

DOH supplies free vaccines for children 0-18 years only. This section applies to clients 19 years of age and older. For clients 18 years of age and younger, refer to the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Billing Instructions at:

http://hrsa.dshs.wa.gov/download/Billing_Instructions_Webpages/EPSDT.html

- Bill the Agency for the cost of the vaccine by reporting the procedure code for the vaccine given.
- Bill for the administration of the vaccine using CPT codes 90471 (one vaccine) and 90472 (each additional vaccine). Reimbursement is limited to one unit of 90471 and one unit of 90472 (maximum of two vaccines).
- Providers are reimbursed for the vaccine using the Agency's maximum allowable fee schedule.
- Providers **must** bill 90471 and 90472 on the **same** claim as the procedure code for the vaccine.

If an immunization is the only service provided, bill only for the administration of the vaccine and the vaccine itself (if appropriate). Do not bill an E&M code unless a significant and separately identifiable condition exists and is reflected by the diagnosis. In this case, bill the E&M code with modifier 25. If you bill the E&M code without modifier 25 on the same date of service as a vaccine administration, the Agency will deny the E&M code.

Exception: If an immunization is the only service provided (e.g., an immunization only clinic) a brief history of the client must be obtained prior to the administration of the vaccine, you may bill 99211 with modifier 25. The brief history must be documented in the client record.

Note: Meningococcal vaccines (CPT procedure codes 90733 and 90734) require EPA, please see Section H.

Code	Description	Comments
Q2035	Afluria vacc, 3 yrs & >, im	Clients 19 years of age and older only
Q2036	Flulaval vacc, 3 yrs & >, im	Clients 19 years of age and older only
Q2037	Fluvirin vacc, 3 yrs & >, im	Clients 19 years of age and older only
Q2038	Fluzone vacc, 3 yrs & >, im	Clients 19 years of age and older only
Q2039	NOS flu vacc, 3 yrs & >, im	Clients 19 years of age and older only

Note: Refer to the EPSDT Billing Instructions for clients 18 years of age and younger.

CPT® codes and descriptions only are copyright 2011 American Medical Association.

Billing for Infants Not Yet Assigned a ProviderOne Client ID

Use the mother's ProviderOne Client ID for a newborn if the infant has not yet been issued a ProviderOne Client ID. Enter indicator **SCI=B** in the *Comments* section of the claim to indicate that the mom's ProviderOne Client ID is being used for the infant. Put the child's name, gender, and birthdate in the client information fields. When using a mom's ProviderOne Client ID for twins or triplets, etc., identify each infant separately (i.e., twin A, twin B), using a *separate claim form* for each. **Note: For a mother enrolled in an Agency managed care plan, the plan is responsible for providing medical coverage for the newborn(s).**

Injectables

- **Hepatitis B** (CPT code 90371) - Reimbursement is based on the number of 1.0 ml syringes used. Bill each 1.0 ml syringe used as 1 unit.
- **Rabies Immune Globulin (RIG)** (CPT codes 90375-90376)
 - ✓ RIG is given based on .06 ml per pound of body weight. The dose is rounded to the nearest tenth of a milliliter (ml). Below are the recommended dosages up to 300 pounds of body weight:

Pounds	Dose
0-17	1 ml
18-34	2 ml
35-50	3 ml
51-67	4 ml
68-84	5 ml
85-100	6 ml
101-117	7 ml
118-134	8 ml
135-150	9 ml

Pounds	Dose
151-167	10 ml
168-184	11 ml
185-200	12 ml
201-217	13 ml
218-234	14 ml
235-250	15 ml
251-267	16 ml
268-284	17 ml
285-300	18 ml

- ✓ RIG is sold in either 2 ml or 10 ml vials.
- ✓ One dose is allowed per episode.
- ✓ Bill one unit for each 2 ml vial used per episode.

Physician-Related Services/Health Care Professional Services

Examples:

- ✓ If a client weighs 83 pounds, three 2 ml vials would be used. The number of units billed would be three; or
 - ✓ If a client weighs 240 pounds, both one 10 ml vial and three 2 ml vials or eight 2 ml vials could be used. The number of units billed would be eight.
- **Correct Coding for Various Immune Globulins** – Bill the Agency for immune globulins using the HCPCS procedure codes listed below. The Agency does not reimburse for the CPT codes listed in the Noncovered CPT Code column below.

Noncovered CPT Code	Covered HCPCS Code
90281	J1460-J1560
90283	J1566
90284	J1562
90291	J0850
90384	J2790
90385	J2790
90386	J2792
90389	J1670
	Q4087, Q4088, Q4091, and Q4092

- The Agency pays for injectable (see fee schedule) and nasal flu vaccines (CPT 90660).

Note: CPT 90660 is covered by the Agency for clients 19-49 years of age.

Therapeutic or Diagnostic Injections/Infusions (CPT codes 96360-96379) [Refer to WAC 182-531-0950]

- If no other service is performed on the same day, you may bill a subcutaneous or intramuscular injection code (CPT code 96372) in addition to an injectable drug code.
- The Agency does not pay separately for intravenous infusion (CPT codes 96372-96379) if they are provided in conjunction with IV infusion therapy services (CPT codes 96360-96361 or 96365-96368).
- The Agency pays for only one “initial” intravenous infusion code (CPT codes 96360, 96365, or 96374) per encounter unless:
 - Protocol requires you to use two separate IV sites; or
 - The client comes back for a separately identifiable service on the same day. In this case, bill the second “initial” service code with modifier 59.

CPT® codes and descriptions only are copyright 2011 American Medical Association.

Physician-Related Services/Health Care Professional Services

- The Agency does not pay for CPT code 99211 on the same date of service as drug administration CPT codes 96360-96361, 96365-96368, or 96372-96379. If billed in combination, the Agency denies the E&M code 99211. However, you may bill other E&M codes on the same date of service using modifier 25 to indicate that a significant and separately identifiable service was provided. If you do not use modifier 25, the Agency will deny the E&M code.
- **Concurrent Infusion:** The Agency pays for concurrent infusion (CPT code 96368) only once per day.

Hyalgan/Synvisc/Euflexxa/Orthovisc/Gel-One

- The Agency reimburses only orthopedic surgeons, rheumatologists, and physiatrists for Hyalgan, Synvisc, Euflexxa, Orthovisc, or Gel-One*.
- *The Agency requires prior authorization for Gel-One, use the Basic Information form, 13-756.
- The Agency allows a maximum of 5 Hyalgan, 3 Euflexxa, 3 Orthovisc, or 1 Gel-One intra-articular injection **per knee** for the treatment of pain in osteoarthritis of the knee. Identify the left knee or the right knee by adding the modifier LT or RT to your claim.
 - This series of injections may be repeated at 12-week intervals.

The injectable drug must be billed after all injections are completed.

- Providers must bill for Hyalgan, Synvisc, Euflexxa, and Orthovisc using the following HCPCS codes:

HCPCS Code	Description	Limitations
J7321	Hyalgan/supartz inj per dose	Maximum of 5 injections Maximum of 5 units
J7323	Euflexxa inj per dose	Maximum of 3 injections Maximum of 3 units
J7324	Orthovisc inj per dose	Maximum of 3 injections Maximum of 3 units
J7325	Synvisc inj per dose	One unit equals one mg. One injection covers a full course of treatment per knee. Limited to one injection per knee in a six-month period. Maximum of 48 units per knee, per course of treatment.
J7326	Gel-One inj per dose	Maximum of 1 injection per year, requires PA Effective 1/1/2012

Physician-Related Services/Health Care Professional Services

- Hyalgan, Synvisc, Euflexxa, and Orthovisc injections are covered only with the following ICD-9-CM diagnosis codes:

Diagnosis Code	Description
715.16	Osteoarthritis, localized, primary lower leg.
715.26	Osteoarthritis, localized, secondary, lower leg.
715.36	Osteoarthritis, localized, not specified whether primary or secondary, lower leg.
715.96	Osteoarthritis, unspecified whether generalized or localized, lower leg.

- The injectable drugs must be billed after all injections are completed.
- Bill CPT injection code 20610 each time an injection is given, up to a maximum of: 5 Hyalgan injections, 3 Euflexxa injections, 3 Orthovisc injections, and 1 or 3 Synvisc injections (depending on formula).
- You must bill both the injection CPT code and HCPCS drug code on the same claim form.

Prolia/Xgeva

The Agency covers denosumab injection (Prolia® and Xgeva®) as follows:

- Prior authorization is required; and
- Providers bill the Agency using HCPCS code J0897.

The Agency no longer accepts HCPCS codes J3490, J3590, or C9272 for payment of Prolia® or Xgeva®. When submitting HCA form 13-835 to request PA, field 15 must contain the brand name (Prolia® or Xgeva®) of the requested product. The Agency will reject requests for J0897 without this information. Providers must complete all other required fields.

Clarification of Coverage Policy for Certain Injectable Drugs

In certain circumstances, the Agency limits coverage for some procedures and/or injectable drugs given in a physician's office to specific diagnoses or provider types only. This policy is outlined in previous memoranda. Although specific memoranda have been superseded, the policy regarding limited coverage for some procedures and/or injectable drugs remains in effect.

Coverage of Hydroxyprogesterone (17P)

The Agency will cover the use of Alpha Hydroxyprogesterone (17P) as one strategy to reduce the incidence of premature births. The American College of Obstetricians and Gynecologists (ACOG) has indicated that 17P may be of benefit to pregnant women:

- With a singleton gestation; and
- A history of prior spontaneous preterm delivery (between 20 weeks gestation and 36 weeks, 6 days gestation) and was:
 - ✓ Due to preterm labor; or
 - ✓ Spontaneous delivery due to unknown etiology.

The Agency will reimburse providers (with the exception of hospitals) without prior authorization for 17P and its administration as follows:

- 17P must be purchased by the provider from a sterile compounding pharmacy;
- The compound is individually produced on a client by client basis; and
- One dose per week is covered during week 16 through week 36 of pregnancy,

Reimbursement for the commercially marketed form of 17P (Makena®) with HCPCS code J1725 is not available to administering providers. Makena® is only available to dispensing pharmacies and requires prior authorization. Authorization for reimbursement to a dispensing pharmacy for Makena® requires documented medical justification of the reason an individually compounded form of 17P is not appropriate for the client.

Reimbursement for 17P

The Agency will reimburse providers for 17P with the following documentation:

- On the claim, enter the NDC for the main ingredient in the compound on the line level;
- Insert the word “compound” in the notes field;
- Use procedure code J3490; and
- Attach the invoice from the pharmacy showing all of the products with NDCs and quantities used in the compound. The claim will be paid manually according to the information on the attached invoice.

Physician-Related Services/Health Care Professional Services

Limitations on coverage for certain injectable drugs are listed below, all other diagnoses are noncovered without prior authorization:

Procedure Code	Brief Description	Limitation Restricted to ICD-9-CM
J0637	Caspofungin acetate	112.84 (candiadal esophagitis); 117.3 (aspergillosis)
J0725	Chorionic gonadotropin/1000u	752.51 (Undescended testis)
J1055	Medroxyprogester acetate inj (depo provera)	Females-only diagnoses V25.02, V25.40, V25.49, V25.9. (contraceptive mgmt) allowed once every 67 days Males-diagnosis must be related to cancer
J1212	Dimethyl sulfoxide 50% 50 ML	595.1 (chronic intestinal cystitis)
J1595	Injection glatiramer acetate	340 (multiple sclerosis)
J1756	Iron sucrose injection	585.1-585.9 (chronic renal failure)
J2323	Natalizumab injection	340 (multiple sclerosis). 555.0, 555.1, 555.2, 555.9 (crohn's disease). Requires PA. See <i>Important Contacts</i> section for information on where to obtain the authorization form.
J2325	Nesiritide	No diagnosis restriction. Restricted use only to cardiologists
J2501	Paricalcitol	585.6 (chronic renal failure)
J2916	Na ferric gluconate complex	585.6 (chronic renal failure)
J3285	Treprostnil, 1 mg	416.0-416.9 (chronic pulmonary heart disease)
J3420	Vitamin B12 injection	123.4, 151.0-154.8, 157.0-157.9, 197.4-197.5, 266.2, 281.0-281.3, 281.9, 284.0, 284.8-284.9, 555.9, 579.0-579.9, 648.20-648.24
J3465	Injection, voriconazole	117.3 (aspergillosis)
J3487	Zoledronic acid (Zometa®), 1 mg	198.5, 203.00, 203.01, 275.42 (hypercalcemia)
J3488	Zoledronic acid (Reclast®), 1 mg	731.0, 733.01
J9041	Bortezomib injection	200.40 – 200.48 (mantle cell lymphoma) or 203.00-203.01 (multiple myeloma and immunoproliferative neoplasms)
Q3025	IM inj interferon beta 1-a	340 (multiple sclerosis)
Q3026	Subc inj interferon beta-1a	340 (multiple sclerosis)

Clarification of Coverage Policy for Miscellaneous Procedures

- Limitations on coverage for certain miscellaneous procedures are listed below:

Procedure Code	Brief Description	Limitation Restricted to ICD-9-CM
11980	Implant hormone pellet(s)	257.2, 174.0-174.9
S0139	Minoxidil, 10 mg	401.0-401.9 (essential hypertension)
S0189	Testosterone pellet 75 mg	257.2, 174.0-174.9 and only when used with CPT code 11980

Verteporfin Injection (HCPCS code J3396)

Verteporfin injections are limited to ICD-9-CM diagnosis code 362.52 (exudative senile macular degeneration).

Clozaril Case Management

- Providers must bill for Clozaril case management using CPT code 90862 (pharmacologic management).
- Put Clozaril Case Management in the comments field on the claim.
- The Agency reimburses only physicians, psychiatrists, ARNPs, and pharmacists for Clozaril case management.
- The Agency reimburses providers for one unit of Clozaril case management per week.
 - ✓ The Agency reimburses providers for Clozaril case management when billed with ICD-9-CM diagnosis codes 295.00 – 295.95 only.
 - ✓ Routine venipuncture (CPT code 36415) and a blood count (CBC) may be billed in combination when providing Clozaril case management.
- The Agency does not pay for Clozaril case management when billed on the same day as any other psychiatric-related procedures.

Botulism Injections (HCPCS code J0585, J0586, J0587, J0588, J0775)

The Agency requires PA for HCPCS codes J0585, J0586, J0587, J0588, and J0775 **regardless of the diagnosis**. The Agency requires PA for CPT codes:

- 95874 when needle electromyography for guidance is used.
- 20527 and 26341 when requested with J0775.

The Agency approves Botulism injections with PA:

- For the treatment of:
 - ✓ Cervical dystonia;
 - ✓ Blepharospasm, associated with dystonia; and
 - ✓ Lower limb spasticity associated with cerebral palsy in children; and
 - ✓ Nonsurgical treatment for Dupuytren's contracture (J0775 only)
 - ✓ Headache, Prophylaxis – Migraine
 - ✓ Hyperhidrosis of axilla (severe), in cases of primary disease inadequately managed by topical agents
 - ✓ Upper limb spasticity
- As an alternative to surgery in patients with infantile esotropia or concomitant strabismus when:
 - ✓ Interference with normal visual system development is likely to occur; and
 - ✓ Spontaneous recovery is unlikely.

Vivitrol (J2315)

The Agency requires prior authorization for Vivitrol. It is also available when prior authorized through the pharmacy Point-of Sale (POS) system.

Allergen Immunotherapy [Refer to WAC 182-531-0950(10)]

Payment for antigen/antigen preparation (CPT codes 95145-95149, 95165, and 95170) is per dose.

Service Provided	What should I bill?
Injection and antigen/antigen preparation for allergen immunotherapy	<ul style="list-style-type: none"> ✓ One injection (CPT code 95115 or 95117); <i>and</i> ✓ One antigen/antigen preparation (CPT codes 95145-95149, 95165 or 95170).
Antigen/antigen preparation for stinging/biting insects	<ul style="list-style-type: none"> ✓ CPT codes 95145-95149 and 95170
All other antigen/antigen preparation services (e.g., dust, pollens)	<ul style="list-style-type: none"> ✓ CPT code 95144 for single dose vials; <i>or</i> ✓ CPT code 95165 for multiple dose vials.
Allergist prepared the extract to be injected by another physician	<ul style="list-style-type: none"> ✓ CPT code 95144
Allergists who billed the complete services (CPT codes 95120-95134) and used treatment boards	<ul style="list-style-type: none"> ✓ One antigen/antigen preparation (CPT 95145-95149, 95165, and 95170); and ✓ One injection (CPT code 95115 or 95117).
Physician injects one dose of a multiple dose vial	<ul style="list-style-type: none"> ✓ Bill for the total number of doses in the vial and an injection code
Physician or another physician injects the remaining doses at subsequent times	<ul style="list-style-type: none"> ✓ Bill only the injection service

For an allergist billing both an injection and either CPT code 95144 or 95165, payment is the injection fee plus the fee of CPT code 95165, regardless of whether CPT code 95144 or 95165 is billed. The allergist may bill an Evaluation and Management (E&M) procedure code for conditions not related to allergen immunotherapy.

National Drug Code Format

All providers are required to use the 11-digit National Drug Code (NDC) when billing the Agency for drugs administered in the provider's office.

- **National Drug Code (NDC)** – The 11-digit number the manufacturer or labeler assigns to a pharmaceutical product and attaches to the product container at the time of packaging. The 11-digit NDC is composed of a 5-4-2 grouping. The first 5 digits comprise the labeler code assigned to the manufacturer by the Federal Drug Administration (FDA). The second grouping of 4 digits is assigned by the manufacturer to describe the ingredients, dose form, and strength. The last grouping of 2 digits describes the package size. **[WAC 182-530-1050]**
- The NDC *must* contain 11-digits in order to be recognized as a valid NDC. It is not uncommon for the label attached to a drug's vial to be missing "leading zeros."

For example: The label may list the NDC as 123456789 when, in fact, the correct NDC is 01234056789. Make sure that the NDC is listed as an 11-digit number, inserting any leading zeros missing from the 5-4-2 groupings, as necessary. ***The Agency will deny claims for drugs billed without a valid 11-digit NDC.***

Electronic 837-P Claim Form Billing Requirements

Providers must continue to identify the drug given by reporting the drug's CPT or HCPCS code in the **PROFESSIONAL SERVICE Loop 2400, SV101-1 and the corresponding 11-digit NDC in DRUG IDENTIFICATION Loop 2410, LIN02 and LIN03**. In addition, the units reported in the "units" field in PROFESSIONAL SERVICE Loop 2400, SV103 and SV104 must continue to correspond to the description of the CPT or HCPCS code.

CMS-1500 Claim Form Billing Requirements

When billing using a **paper CMS-1500 Claim Form for two or fewer drugs on one claim form**, you must list the 11-digit NDC in **field 19** of the claim form must be listed **exactly** as follows (*not all required fields are represented in the example*):

19. 54569549100 Line 2 / 00009737602 Line 3

Line	Date of Service	Procedure Code	Charges	Units
1	07/01/07	99211	50.00	1
2	07/01/07	90378	1500.00	2
3	07/01/07	J3420	60.00	1

Physician-Related Services/Health Care Professional Services

DO NOT attempt to list more than two NDCs in field 19 on the paper CMS-1500 Claim Form. When billing for more than 2 drugs, you must list the additional drugs must be listed on additional claim forms. **Do not bill more than 2 drugs per claim form.**

If the 11-digit NDC is missing, incomplete, or invalid, the claim line for the drug or supply will be denied.

Physicians Billing for Compound Drugs

To bill for compounding of drugs enter J3490 as the procedure code. Enter the NDC for the main ingredient in the compound on the line level. Put compound in the notes field. Attach an invoice showing all of the products with NDCs and quantities used in the compound. Claims are manually priced per the invoice.

Foot Care Services for Clients 21 years of Age and Older

[Refer to WAC 182-531-1300]

What Is Covered?

The Agency covers foot care services as listed in this section when those services are provided by any of the following health care providers and billed to the Agency using procedure codes and diagnosis codes that are within their scope of practice:

Note: Care of the lower extremity is defined as foot and ankle care.

- Physicians and Surgeons or physician's assistants-certified (PA-C);
- Osteopathic physicians and surgeons, or physician's assistant-certified (PA-C);
- Podiatric physicians and surgeons; or
- Advanced registered nurse practitioners (ARNP).

The Agency covers evaluation and management visits to assess and diagnose conditions of the lower extremities. Once diagnosis is made, the Agency covers treatment if the criteria in 182-531-1300 (4)(a) are met.

What Does the Agency Pay For?

Note: Treatment of the lower extremities only when there is an acute condition, an exacerbation of a chronic condition, or presence of a systemic condition such as metabolic, neurologic, or peripheral vascular disease and evidence that the treatment will prevent, cure or alleviate a condition in the client that causes pain resulting in inability to perform activities of daily living, acute disability, or threatens to cause the loss of life or limb, unless otherwise specified. **WAC 182-531-1300 (4)(a)**

The Agency pays for:

- Acute inflammatory processes such as, but not limited to tendonitis;
 - ✓ Circulatory compromise such as, but are not limited to:
 - Lymphedema;
 - Raynaud's disease;
 - Thromboangiitis obliterans; and
 - Phlebitis.
 - ✓ Injuries, fractures, sprains, and dislocations;
 - ✓ Gout;
 - ✓ Lacerations, ulcerations, wounds, blisters;

Physician-Related Services/Health Care Professional Services

- ✓ Neuropathies, e.g., reflex sympathetic dystrophy secondary to diabetes;
 - ✓ Charcot Arthropathy;
 - ✓ Osteomyelitis;
 - ✓ Post operative complications.
- Warts, corns, or calluses in the presence of an acute condition such as infection and pain effecting the client's ability to ambulate as a result of the warts, corns or calluses and meets criteria in the table entitled "Acute Conditions of the Lower Extremities by Diagnosis" and meets criteria per WAC 182-531-1300 (4)(a).
 - ✓ Soft tissue conditions, such as, but are not limited to:
 - Rashes;
 - Infections (fungal, bacterial);
 - Gangrene;
 - Cellulitis of lower extremities;
 - Soft tissue tumors; and.
 - Neuroma.
 - ✓ Nail bed Infections (paronychia); and
 - ✓ Tarsal tunnel syndrome.
 - Trimming and/or debridement of nails to treat as applicable condition from the conditions in the table entitled "Acute Conditions of the Lower Extremities by Diagnosis" and meets criteria per WAC 182-531-1300 (4)(a).

The Agency pays for one treatment in a 60 day period. The Agency covers additional treatments in this period if documented in the client's medical record as being medically necessary;

- A surgical procedure to treat one of the conditions in the table entitled "Acute Conditions of the Lower Extremities by Diagnosis" and meets criteria per WAC 182-531-1300 (4)(a).
- Impression casting to treat one of the conditions in the table entitled "Acute Conditions of the Lower Extremities by Diagnosis" and meets criteria per WAC 182-531-1300 (4)(a).
- The Agency includes 90 day follow-up care in the reimbursement.

Physician-Related Services/Health Care Professional Services

- Custom fitted and/or custom molded orthotic devices to treat one of the conditions in the table entitled “Acute Conditions of the Lower Extremities by Diagnosis” and meets criteria per WAC 182-531-1300 (4)(a).
 - ✓ The Agency's fee for the orthotic device includes reimbursement for a biomechanical evaluation (an evaluation of the foot that includes various measurements and manipulations necessary for the fitting of an orthotic device); and
 - ✓ The Agency includes an evaluation and management (E&M) fee reimbursement in addition to an orthotic fee reimbursement if the E&M services are justified and well documented in the client's medical record.

The Agency does not pay for the following radiology services:

- Bilateral X-rays for a unilateral condition; or
- X-rays in excess of three views; or
- X-rays that are ordered before the client is examined.

The Agency does not pay podiatric physicians or surgeons for X-rays for any part of the body other than the foot or ankle.

Note: The Agency does not pay for treatment of chronic acquired conditions of the lower extremities. The Agency will pay for prescriptions per the [Prescription Drug Program Billing Instructions](#).

Physician-Related Services/Health Care Professional Services

Acute Conditions of the Lower Extremities by Diagnosis

CODE	CONDITION	CODE	CONDITION
239.2	Soft Tissue Tumor	730.27	Unspecified Osteomyelitis, Ankle and Foot
249.60-249.61	Secondary Diabetes Mellitus with Neurological Manifestations	730.96	Unspecified Infection of Bone, Lower Leg
250.60 – 250.73	Diabetes with Neurological Manifestations & Peripheral Circulatory Disorders	730.97	Unspecified Infection of Bone, Ankle and Foot
274.0	Gouty Arthropathy	732.5	Juvenile Osteochondritis of Foot
337.22	Reflex Sympathetic Dystrophy of Lower Extremity	733.4	Aseptic Necrosis of Bone
337.29	Reflex Sympathetic Dystrophy of Other Specified Site	733.44	Aseptic Necrosis of Talus
338.3	Neoplasm Related Pain	733.81	Non-union Fracture
338.4	Chronic Pain Syndrome	733.94	Stress fracture of Metatarsals
355.5	Tarsal Tunnel Syndrome	733.95	Stress fracture of other bone in ankle or foot
355.6	Lesion of plantar nerve	755.67	Anomalies of Foot; Tarsal Coalition
355.71	Causalgia of Lower Limb	785.4	Gangrene (Necrosis)
355.9	Mononeuritis of Lower Limb	824.0 - 827.1	Fractures of Foot & Ankle Diagnoses Codes
356.8	Peripheral Neuropathy	838.00 – 838.19	Dislocation/Subluxation of Foot Diagnoses Codes
357.2	Diabetic Neuropathy	845.0	Sprain or Strain of Ankle
440.23	Arteriosclerosis of the Extremities with Ulceration	845.00	Sprain or Strain unspecified site
440.24	Arteriosclerosis of the extremities with Gangrene	845.01	Sprain or Strain of Deltoid Ligament (Ankle)
443.0	Raynaud’s Disease	845.02	Sprain or Strain of Calcaneofibular Ligament Ankle
443.1	Thromboangiitis Obliterans (Buerger's Disease)	845.03	Sprain or Strain of Tibiofibular Ligament (Distal)
443.9	Peripheral Vascular Disease	845.09	Tendon Rupture Ankle Traumatic
451.2	Phlebitis, Lower Extremities	845.10	Sprain or Strain of Foot
453.40-453.42	Deep Vein Thrombosis of Lower Extremity	845.10	Tendon Rupture Foot Traumatic
454.0	Varicose veins or Stasis Dermatitis of Lower Extremities with Ulceration	845.11	Sprain or Strain of Tarsometatarsal Ligament
454.2	Varicose Vein or Stasis Dermatitis with Inflammation and Ulceration	845.12	Sprain or Strain of Metatarsaophalangeal
457.1	Lymphedema	845.13	Sprain or Strain of Interphalangeal, Toe
681.1	Cellulitis/Abscess Toe	845.19	Sprain or Strain Other
681.11	Paronychia of Toe	891.00	Open Wound Ankle - Without Complication
681.9	Cellulitis and Abscess of Unspecified Digit	891.1	Open Wound Ankle - With Tendon Involvement
682.6	Cellulitis, Abscess of Ankle/Leg	891.2	Open Wound Ankle - Complicated
682.7	Cellulitis, Abscess of Foot or Heel, except Toes	892.0	Open Wound Foot, Except Toes-Without Complication
703.0	Ingrowing Nail with Infection	892.1	Open Wound Foot, Except Toes-Complicated

CPT® codes and descriptions only are copyright 2011 American Medical Association.

Physician-Related Services/Health Care Professional Services

CODE	CONDITION	CODE	CONDITION
707.07	Pressure Ulcer or Decubitus of Heel	892.2	Open Wound Foot, Except Toes - with Tendon Involvement
707.13	Ulcer of Ankle, Except Pressure Ulcer	893.0	Open Wound Toes
707.14	Ulcer Heel/Midfoot, Except Pressure Ulcer	893.1	Open Wound Toes-Complicated,
707.15	Ulcer Other Part of Foot/Toe, Except Pressure Ulcer	893.2	Open Wound Toes - with Tendon Involvement

726.71	Tendonitis Achilles	895.1	Traumatic Amputation of Toes (Complete) (Partial) - Complication
726.72	Tibial Tendonitis	896.0	Traumatic Amputation of Foot, Unilateral (Complete) (Partial) - Without Complication
726.79	Tendonitis Peroneal	896.1	Traumatic Amputation of Foot, Unilateral (Complete) (Partial) - With Complication
726.9	Capsulitis	896.2	Traumatic Amputation of Foot, Bilateral (Complete) (Partial) - Without Complication
726.91	Exostosis (Bone spur)	896.3	Traumatic Amputation of Foot, Bilateral (Complete) (Partial) - With Complication
727.06	Tenosynovitis of Foot and Ankle	916.3	Blister ankle, infected
727.67	Achilles Tendon Rupture, Non-traumatic	917.2	Blister Foot, No Infection
727.68	Ruptur of Other Foot and Ankle Tendons, Non-traumatic	917.3	Blister foot with infection
728.71	Plantar Fascial Fibromatosis	924.2	Hematoma of Ankle or Foot, Excluding Toe
728.86	Necrotizing Fasciitis	924.3	Subungual (Toenail) Hematoma
729.1	Myalgia and Myositis	958.92	Traumatic Compartment Syndrome of Lower Extremity
729.6	Foreign Body in Soft Tissue	959.7	Injury Foot, Ankle or Leg
729.72	Non-Traumatic Compartment Syndrome of the Lower Extremity	991.5	Chilblains
730.06	Infection of Bone Lower Leg, Acute	996.6	Complication of Post-operative Implant
730.07	Infection of Bone Foot or Ankle, Acute	998.32	Dehiscence of External Operation (Surgical) Wound
730.16	Osteomyelitis of Lower Leg, Chronic	998.59	Post operative Abscess/Infection
730.17	Osteomyelitis of Foot or Ankle, Chronic	998.83	Non-healing Surgical Wound
730.26	Unspecified Osteomyelitis, Lower Leg		

What Does the Agency Not Pay For?

The Agency does not pay for treatment of or follow-up office visits for chronic acquired conditions of the lower extremities. The Agency will pay for prescriptions using the criteria found in the [Prescription Drug Program Billing Instructions](#).

Foot care, unless the client meets criteria and conditions outlined in WAC 182-531-1300 as follows:

- Routine foot care, such as but not limited to:
 - ✓ Treatment of tinea pedis;
 - ✓ Cutting or removing warts, corns and calluses; and
 - ✓ Trimming, cutting, clipping, or debriding of nails.

- Nonroutine foot care, such as, but not limited to treatment of:
 - ✓ Flat feet;
 - ✓ High arches (cavus foot);
 - ✓ Onychomycosis;
 - ✓ Bunions and tailor's bunion (hallux valgus);
 - ✓ Hallux malleus;
 - ✓ Equinus deformity of foot, acquired;
 - ✓ Cavovarus deformity, acquired;
 - ✓ Adult acquired flatfoot (metatarsus adductus or pes planus);
 - ✓ Hallux limitus.

Any other service performed in the absence of localized illness, injury, or symptoms involving the foot

The Agency does not reimburse providers for any of the following radiology services:

- Bilateral x-rays for unilateral condition;
- X-rays in excess of three views;
- X-rays that are ordered before the client is examined;

The Agency does not reimburse podiatrists for x-rays for any part of the body other than the foot or ankle.

Note: Clients may request an Exception to Rule for treatment of those conditions not listed above. See WAC 182-501-0160

Billing the Client for Noncovered Services

A waiver is required when clients choose to pay for a foot care service to treat a condition not listed in Figure 1. Requesting an ETR is optional for the client. See [WAC 182-502-0160](#) Billing the Client for details.

How to Bill for Foot Care Services

The Agency will only pay for treatment of an acute condition when the condition is the primary reason for the service. This must be documented in the client's record. When billing, the diagnosis code for the acute condition (from Table 1) must be on the service line for the foot care service being billed.

If the description of the orthotic code indicates the code is for a single orthotic or impression casting of one foot, either modifier RT or LT must be included on the claim. Providers must use an appropriate procedure code with the word "pair" in the description when billing for fabrications, casting, or impressions of both feet.

The Agency pays for an Evaluation and Management (E&M) code and an orthotic on the same day if the E&M service performed has a separately identifiable diagnosis and the provider bills using modifier 25 to indicate a significant and separately identifiable condition exists and is reflected by the diagnosis.

If Medicare does not cover orthotics and casting, providers may bill the Agency directly for those services without submitting a Medicare denial, unless the client's eligibility check indicates QMB - Medicare only, in which case the orthotics and casting is not covered by the Agency. If Medicare does cover the service, bill Medicare first.

Prior Authorization Requirements for Advanced Imaging

[Refer to WAC 182-531-1450]

Changes in Prior Authorization Requirements for Certain Procedures

Effective for dates of service on and after October 1, 2011, the Agency will require providers to obtain authorization on the advanced imaging procedures listed below:

Magnetic Resonance Imaging (MRI)			
Head	70551	70552	70553
C - Spine	72141	72142	72156
L- Spine	72148	72149	72158
Upper Extremity	73221	73222	73223
Breast	77058	77059	C8903*
	C8904*	C8905*	C8906*
	C8907*	C8908*	
Lower Extremity	73721	73722	73723

*Required for outpatient hospital claims

Reminder for outpatient hospitals: When requesting PA for breast MRI through QUALIS, you must use the 7xxxx CPT code, but when billing Medicaid you must use the "C" HCPCS code.

Computed Tomography (CT)			
Head	70450	70460	70470
Abdomen	74150	74160	74170
Pelvis	72192	72193	72194
Abdomen& Pelvis	74176	74177	74178

Cardiac Imaging	
Ht muscle image spect sing	78451
Ht muscle image spect mult	78452
Ht muscle image planar sing	78453
Ht musc image planar mult	78454

PET Scans	
Brain	78608
Limited Area	78811
Skull base to mid thigh	78812
Full Body	78813

PET-CT Scans	
Limited Area (Chest, head, neck)	78814
Skull base to mid thigh	78815
Whole body	78816

Changes in the Process for Obtaining Prior Authorization

The Agency and Qualis Health have contracted to provide web-based access for utilization review and prior authorization (PA) for outpatient advanced imaging services. OneHealthPort will provide secure access and logon. OneHealthPort is an online portal that provides a single secure access to a number of health plans.

Note: This process through Qualis Health is for Medicaid clients enrolled in fee-for-service *only*. Authorization requests for managed care clients will *not* be authorized.

Qualis Health's outpatient advanced imaging webpage is available to register for secure access. For more information about this process, see the Health Care Professionals section online at: <http://www.qualishealth.org>. Qualis Health will add more information as it becomes available. A user name and password is needed for WA Medicaid even though you may already be a registered provider with WA Labor and Industries

About Qualis Health

Qualis Health (Qualis) is dedicated to improving the quality of health care delivery and health outcomes for individuals and populations across the nation. Headquartered in Seattle, Washington, Qualis is a nonprofit health care, quality improvement, and consulting organization that strives to achieve performance excellence for our clients. Qualis focuses on best practices and provide a range of services that lead to better quality care, higher patient and provider satisfaction, and greater efficiency. Qualis provides care management, quality assessment and improvement, and health information technology consulting services that directly influence the care delivered to over 10 million people.

Note: The prescribing provider, performing provider, or radiology company can request authorization. Billing entities such as clearinghouses *do not* request authorization through Qualis.

What Is Needed To Request Prior Authorization for Advanced Imaging?

In order to receive authorization for advanced imaging providers must:

- Register as a provider with OneHealthPort;
- Become familiar with the criteria that will be applied to your requests; and
- Use iEXCHANGE® upon completion of the registration process and receipt of logon and password information.

To register on the OneHealthPort, go to the registration page at:

<http://www.onehealthport.com/services/Qualis.php>

For more information about the web-based utilization review, go to iExchange® online at:

<http://www.qualishealth.org/healthcare-professionals/iexchange>.

Qualis offers on-line training. Please go to:

<http://www.qualishealth.org/healthcare-professionals/washington-medicaid>.

Qualis offers a manual that can be printed to assist providers is available online at:

http://www.qualishealth.org/sites/default/files/WAMedicaid_iEXTrainingManual_0911.pdf

Checklists for radiology services can be printed out for provider convenience.

If you have questions, please contact Qualis at 1-800-949-7536 ext. 2800.

When Do Online Authorizations Start?

If covered procedures are needed for eligible Medicaid clients for dates of service on and after October 1, 2011, then authorization must be requested online.

If procedures are needed for:	Authorization must be requested:
Dates of service <i>before</i> October 1, 2011	Through the Agency
Dates of service on and after October 1, 2011	Online through Qualis Health, available September 15, 2011

Note: The PA requirement is only applicable to diagnostics provided as urgent and scheduled. The Agency will allow 5 business days to complete authorization for **urgent** or “ordered-the-same-day” procedures when the authorization cannot be completed before the procedure is performed. This authorization requirement does not apply to diagnostics done in association with an emergency room visit, an inpatient hospital setting, or when another payer, including Medicare, is the primary payer.

Some radiology codes continue to require PA from the Agency, but not from Qualis Health

Please check the fee schedule online at: <http://hrsa.dshs.wa.gov/RBRVS/Index.html>.

Retroactive Authorization

Retroactive authorizations have no time limit and the Agency considers retroactive authorization when the following applies:

- Client’s eligibility is verifiably approved after the date of service, but retroactive to a date(s) that includes the date that the procedure was performed; or
- Primary payer does not pay for the service and payment from Medicaid is being identified as the primary payer.

Note: Retroactive authorizations must be completed within 5 business days when outpatient advanced imaging is ordered and performed on the same day because it is “urgent”.

When requesting retroactive authorization for a required procedure, providers must check authorization requirements for the “date of service” that the procedure was performed.

Retroactive requests for authorization with dates of service:	Authorization will be reviewed by:
Prior to October 1, 2011.	The Agency.
On and after October 1, 2011.	Qualis Health using the OneHealthPort decision making tool.

Qualis Health Reference Numbers

Upon successful completion of the checklist questionnaire, you will receive a nine-digit case number starting with the prefix 913 (e.g. 913-xxx-xxx). **This number is not a billable authorization number from the agency.** Do not perform or bill for an outpatient advanced imaging procedures until you receive a written approval from the Agency giving you an Agency-issued ProviderOne authorization reference number.

If you have any questions regarding the status of an authorization, need to update an authorization, or have general questions regarding an authorization, please contact the agency at 1- 800-562-3022 extension 52018.

If an authorization record requires updating after the Agency has already approved authorization, please submit a PA Pend Form as described in Section “G” of the [ProviderOne Billing and Resource Guide](#).

Physician-Related Services/Health Care Professional Services

Fax or Phone Option Through Qualis Health

Fax and phone requests are **only** available to providers who do not have access to a computer.

Providers can submit a completed checklist via fax or phone contact to Qualis Health. Qualis Health staff will enter the information, respond to the provider with a Qualis reference number, and a determination from the completed questionnaire. Qualis Health will receive telephone and fax requests during normal business hours. Faxed requests can be sent in at any time, but will be processed during normal business hours.

Qualis can be reached at the following toll-free numbers:

- WA Medicaid Imaging (phone) 888-213-7513
- WA Medicaid Imaging (fax) 888-213-7516

How Does the Agency's Hierarchy of Evidence Protocol Apply?

The criteria in the online Qualis Health questionnaires represent "B" level of evidence under WAC 182-501-0165. In other words, this represents the clinical/treatment guideline* the agency has adopted to establish medical necessity and make authorization decisions for these advanced imaging procedures.

Hierarchy of Evidence

"B" level evidence: Shows the requested service or equipment has some proven benefit supported by:

- Multiple Type II or III evidence or combinations of Type II, III or IV evidence with generally consistent findings of effectiveness and safety (A "B" rating cannot be based on Type IV evidence alone); or
- Singular Type II, III, or IV evidence in combination with Agency-recognized:
 - ✓ Clinical guidelines*; or
 - ✓ Treatment pathways*; or
 - ✓ Other guidelines that use the hierarchy of evidence in establishing the rationale for existing standards.

If the criteria in the questionnaire are not met, the request will be denied.

Note: In most circumstances, the agency's program uses the same criteria and questionnaires as Labor and Industries for MRIs and CT scans.

Physician Billing Requirements

Advanced imaging services do **NOT** require PA when billed with place of service:

- (POS) 21 (Inpatient Hospital); or
- (POS) 23 (Emergency Room).

If you are billing for a professional component performed in a POS other than POS 21 or 23 such as a Radiologists office, but the image was performed on a client who was in the ER, or an inpatient setting, enter “ER Ordered Service” or “client inpatient” as follows:

Paper Billers	Electronic billers
<i>Box 19</i> on the CMS-1500 Form	In the <i>Comments</i> section

A radiologist who performed a professional interpretation, referred to as a “read- only”, on an outpatient advanced image must be added to the Agency’s authorization record to receive payment. Please contact the Agency at 1-800-562-3022, extension 52018, to add the reading radiologist’s NPI to the record.

Note: Professionals who do “read-only” when another facility ordered and performed the advanced imaging, *but did not obtain prior authorization*, must add: “Professional read only for image not done by my facility” in the comments field of the claim.

Radiology Services [Refer to WAC 182-531-1450]

General Limitations on Radiology Services

The following services are not usually considered medically necessary and may be subject to post-pay review:

- X-rays for soft tissue diagnosis;
- Bilateral x-rays for a unilateral condition; and
- X-rays in excess of two views.

Note: The Agency does not pay for radiology services with diagnosis code V72.5. Providers must bill the appropriate medical ICD-9-CM code.

Other Limitations

- PET Scans and MRI/MRAs are limited to one per day.
- Multiple CT Scans are allowed only if done at different times of the day or if modifiers LT or RT are attached.
- The Agency does not pay radiologists for after-hours service codes.
- Claims must have the referring provider's national provider identifier (NPI) in the appropriate field on the claim form.

Contrast Material

Contrast material is not paid separately, except in the case of low-osmolar contrast media (LOCM) used in intrathecal, intravenous, and intra-arterial injections for clients with one or more of the following conditions:

- A history of previous adverse reaction to contrast material, with the exception of a sensation of heat, flushing, or a single episode of nausea or vomiting.
- A history of asthma or allergy.
- Significant cardiac dysfunction including recent or imminent cardiac decompensation, severe arrhythmia, unstable angina pectoris, recent myocardial infarction, and pulmonary hypertension.
- Generalized severe debilitation.
- Sickle cell disease.

To bill for LOCM, use the appropriate HCPCS procedure codes: Q9951, Q9965, Q9966 or Q9967. The brand name of the LOCM and the dosage must be documented in the client's record.

Radiopharmaceutical Diagnostic Imaging Agents

- When performing nuclear medicine procedures, separate payment is allowed for radiopharmaceutical diagnostic imaging agents (Q9945-Q9951).
- The Agency allows the following CPT codes for radiopharmaceutical therapy without PA: CPT codes 79101, 79445, and 79005.

Ultrasound Screening for Abdominal Aortic Aneurysm (HCPCS procedure code G0389)

The Agency covers ultrasound screening for abdominal aortic aneurysm only when:

- Billed with diagnosis code V81.2 (special screening for other and unspecified cardiovascular conditions); and
- A client meets at least one of the following conditions:
 - ✓ Has a family history of an abdominal aortic aneurysm; or
 - ✓ Is a male who is between 65 and 75 years old and has smoked at least 100 cigarettes in his lifetime.

Outpatient PET Scans

The Agency no longer offers Expedited Prior Authorization (EPA) for PET Scans. All covered PET Scans require written or faxed PA through Qualis. See information on Advance Imaging in this section.

Mammograms

The Agency has adopted the National Cancer Institute (NCI) recommendations regarding screening mammograms (CPT codes 77052, 77057, and G0202). For clients age 40 and over, one annual screening mammogram is allowed per calendar year. Screening mammograms for clients 39 years of age and younger requires PA.

Radiology Modifiers for Bilateral Procedures

- Bill the procedure on two separate lines using modifier 50 on one line only.
- Bill **modifier LT or RT** on separate lines when a radiological procedure is performed on the right and/or left side or extremity.
- Do not use modifier 50, LT, or RT if the procedure is defined as bilateral.

Anesthesia for Radiological Procedures [Refer to WAC 182-531-0300 (2) and (7)]

General anesthesia is allowed for radiological procedures for children and/or non-cooperative clients when the medically necessary procedure cannot be performed unless the client is anesthetized.

Providers **must** use the anesthesia CPT code 01922 when providing general anesthesia for non-invasive imaging or radiation therapy. **Do not** bill the radiological procedure code (e.g., CPT code 71010) with an anesthesia modifier to bill for the anesthesia procedure. When using CPT code 01922 for non-invasive imaging or radiation therapy:

- The client must be 17 years of age or younger; or
- A statement of the client-specific reasons why the procedure cannot be performed without anesthesia services must be kept in the client's medical record and made available to the Agency on request.

Magnetic Resonance Imaging (MRI)

- Please check the fee schedule for authorization requirements for MRIs.
- The Agency is implementing the Washington State Health Technology Clinical Committee (HTCC's) decision that uMRI (upright MRI) is **experimental and investigational**; therefore, pursuant to WAC 182-501-0165, uMRI is a "D" level evidence that is not supported by any evidence regarding its safety and efficacy. Medicaid will not reimburse unless one of the following criteria is met:
 - ✓ The client must have a humanitarian device exemption; or
 - ✓ There must be a local Institutional Review Board protocol in place.

Nuclear Medicine

When billing the Agency for nuclear medicine, the multiple surgery rules are applied when the coding combinations listed below are billed:

- For the same client, on the same day, by the same physician or by more than one physician of the same specialty in the same group practice; or
- With other codes that are subject to the multiple surgery rules, not just when billed in the combinations specified below:
 - ✓ CPT code 78306 (bone imaging; whole body) and CPT code 78320 (bone imaging; SPECT);
 - ✓ CPT code 78802 (radionuclide localization of tumor; whole body), CPT code 78803 (tumor localization; SPECT), and CPT code 78804 (radiopharmaceutical localization of tumor requiring 2 or more days); or
 - ✓ CPT code 78806 (radionuclide localization of abscess; whole body) and 78807 (radionuclide localization of abscess; SPECT).

Consultation on X-Ray Examination

When billing a consultation, the consulting physician must bill the specific x-ray code with modifier 26 (professional component).

For example: The primary physician would bill with the global chest x-ray (CPT code 71020), or the professional component (CPT code 71020-26), and the consulting physician would bill only for the professional component of the chest x-ray (e.g., CPT code 71020-26).

Portable X-Rays

- Portable x-ray services furnished in a client’s home or nursing facility and payable by the Agency are limited to the following:
 - ✓ Skeletal films involving extremities, pelvis, vertebral column, or skull;
 - ✓ Chest or abdominal films that do not involve the use of contrast media; or
 - ✓ Diagnostic mammograms.

- Bill for transportation of x-ray equipment as follows:
 - ✓ R0070 - If there is only one patient bill one unit;
 - ✓ R0075 - If there are multiple patients, **bill one unit** per individual client’s claim with one of the following modifiers, as appropriate. ***You must bill using a separate claim form for each Agency client seen.*** The Agency pays the fee for procedure code R0075 divided by the number of clients, as outlined by the modifiers in the following table:

Procedure Code	Brief Description
R0070	Transport portable x-ray
R0075-UN	Transport port x-ray multipl-2 clients seen
R0075-UP	Transport port x-ray multipl-3 clients seen
R0075-UQ	Transport port x-ray multipl-4 clients seen
R0075-UR	Transport port x-ray multipl-5 clients seen
R0075-US	Transport port x-ray multipl-6 or more clients seen

Note: The Agency’s payment for procedure codes R0070 and R0075 includes setup. The fee for HCPCS code R0075 is divided among the clients served, as outlined by the modifiers indicated above. If no modifiers are used for HCPCS code R0075, the code will be denied. Do not bill HCPCS code R0070 in combination with HCPCS code R0075.

Heart Catheterizations

When a physician performs cardiac catheterization in a setting where the physician does not own the equipment (e.g., a hospital or ASC), the Agency pays providers for the appropriate **procedure code with modifier 26 (professional component) only.**

Use cardiac catheterization and angiography to report services individually. It is not appropriate to bill with modifier 51 (multiple procedures) with any of these codes.

Pathology and Laboratory

[Refer to WAC 182-531-0800 and WAC 182-531-0850]

Certification

Independent laboratories must be certified according to Title XVII of the Social Security Act (Medicare) to receive payment from Medicaid. The Agency pays laboratories for Medicare-approved tests only.

CLIA Certification

All reference (outside) labs and facilities performing laboratory testing must have a Clinical Laboratory Improvement Amendment (CLIA) certificate and identification number on file with the Agency in order to receive payment from the Agency.

To obtain a CLIA certificate and number, or to resolve questions concerning your CLIA certification, call 1-206-361-2805 or write to:

DOH - Office of Laboratory Quality Assurance
1610 NE 150th Street
Shoreline, WA 98155
1-206-361-2805 (phone); 1-206-361-2813 (fax)

Clinical Laboratory Codes

Some clinical laboratory codes have both a professional component and a technical component. If performing only the technical component, bill with modifier TC. If performing only the professional component bill with modifier 26. Laboratories performing both the professional and the technical components must bill the code without a modifier. Refer to the table below for those codes with both a technical and professional component.

Laboratory Physician Interpretation Codes

The following codes are clinical laboratory codes for which separate payment for interpretations by laboratory physicians may be made. The actual performance of the tests is paid for under the laboratory fee schedule. Modifier TC must not be used with these codes. The total RVUs for laboratory physician interpretation codes include values for physician work, practice expense, and malpractice expense.

83020	84181	86255	86327	87207
83912	84182	86256	86334	88371
84165	85390	86320	86335	88372
84166	85576	86325	87164	89060

Laboratory Codes Requiring Modifier and PA Clarification

Laboratory claims must include an appropriate medical diagnosis code, modifier, and PA, if applicable. The ordering provider must give the appropriate medical diagnosis code, modifier, and PA number, if applicable, to the performing laboratory at the time the tests are ordered. The Agency does not pay for laboratory procedures billed using ICD-9-CM diagnosis codes V72.6, V72.62, V72.63, or V72.69. For lab services, use the appropriate diagnosis for the service(s) that was provided.

Cancer Screens (HCPCS codes G0101, G0103-G0105, 82270)

The Agency covers the following cancer screenings:

- Cervical or vaginal;
- Prostate;
- Colorectal;
- Pelvic/breast exams;
- Screening sigmoidoscopies;
- Colonoscopies; and
- PSA testing.

HCPCS Code	Brief Description	Limitations	Payable Only With Diagnosis Code(s)
G0101	CA screen; pelvic/breast exam	Females only One every 12 months <i>[Use for Pap smear professional services]</i>	V25.40-V25.49, V72.31, V76.2, or V76.47
G0103	PSA screening	Once every 12 months when ordered	Any valid ICD-9-CM code other than high risk (e.g., V76.44)
G0104	CA screen; flexi sigmoidoscope	Clients age 50 and older who are not at high risk Once every 48 months	Any valid ICD-9-CM code other than high risk (e.g., V76.51)
G0105*	Colorectal scrn; hi risk ind	Clients at high risk for colorectal cancer One every 24 months	High risk 555.1, 555.0, 555.2, 555.9, 556.0-556.6, 556.8, 556.9, 558.2, 558.9, V10.05, V10.06, V12.72, V84.09, V16.0, or V18.51
82270	Occult blood, feces	N/A	Any valid ICD-9-CM code (e.g., V76.51)
G0121*	Colon CA scrn; not high risk ind	Clients age 50 and older Once every 10 years	Any valid ICD-9-CM code other than high risk (e.g., V76.51)
G0122	Colon CA scrn; barium enema	Clients age 50 and older Once every 5 years	Any valid ICD-9-CM code other than high risk (e.g., V76.51)

***Note:** Per Medicare guidelines, the Agency's payment is reduced when billed with modifier 53 (discontinued procedure).

Physician-Related Services/Health Care Professional Services

Coding and Payment Policies

- Pathology and laboratory services must be provided either by a pathologist or by technologists who are under the supervision of a physician.
- The Agency expects independent laboratories to bill hospitals for the technical component of anatomic pathology services furnished to hospital inpatients and outpatients. To prevent duplicate payment, the Agency will not pay independent laboratories if they bill Medicaid for these services.
- An independent laboratory and/or hospital laboratory must bill using its NPI for any services performed in its facility.
- Physicians must bill using their NPI for laboratory services provided by their technicians under their supervision.
- The Agency pays for one blood draw fee (CPT codes 36415-36416 or 36591) per day.
- The Agency pays for one catheterization for collection of a urine specimen (HCPCS code P9612) per day.
- Complete blood count (CPT code 85025) includes the following CPT codes: 85004, 85007, 85008, 85009, 85013, 85014, 85018, 85027, 85032, 85041, 85048, 85049, and G0306. Complete blood count (CPT code 85027) includes the following CPT codes: 85004, 85008, 85013, 85014, 85018, 85032, 85041, 85048, 85049, and G0307.
- CPT codes 81001-81003 and 81015 are not allowed in combination with urinalysis procedure 81000.
- CPT codes 86812-86822 are limited to a maximum of 15 tests total for human leukocyte antigens (HLA) typing per client, per lifetime. Prior authorization is required for more than 15 tests.
- Do not bill with modifier 26 if the description in CPT indicates professional services only.
- Payment for lab tests includes handling, packaging and mailing fee. Separate payment is not allowed.
- Laboratories must obtain PA from the ordering physician, or Agency-approved genetic counselor to be paid for certain genetic testing requiring PA. All genetic testing must be billed with the appropriate genetic testing modifier.
- CPT code 83037 [hemoglobin glycosylated (A1C)] does not require PA when performed in a physician's office; however, it can be billed only once every three months.

Note: Laboratory claims must include an appropriate medical diagnosis code and PA if applicable. The ordering provider must give the appropriate medical diagnosis code, prior authorization number, and modifier, if applicable, to the performing laboratory at the time the tests are ordered. **The Agency does not pay a laboratory for procedures billed using ICD-9-CM diagnosis codes V72.6, V72.62, V72.63, or V72.69 as a primary diagnosis. For lab services use the appropriate diagnosis for the service(s) provided.**

Physician-Related Services/Health Care Professional Services

- CPT code 87999 can be used for billing the monogram Trofile test for AIDS patients when physicians are prescribing the drug Selzentry®. CPT code 87999 is paid By Report.

Drug Screens

The Agency pays for drug screens when:

- Medically necessary and ordered by a physician as part of a medical evaluation; and
- The drug and/or alcohol screens are required to assess suitability for medical tests or treatment being provided by the physician.
- Please refer to the Agency's Fee Schedule for covered drug screening codes.

The Agency has adopted the drug screening guidelines outlined in the Agency Medical Directors' Interagency Guidelines. For more information, please go online at:

- <http://www.agencymeddirectors.wa.gov/>
- <http://www.agencymeddirectors.wa.gov/Files/OpioidGdline.pdf>
- <http://www.agencymeddirectors.wa.gov/activity/start.asp>

Risk Category	Recommended Urine Drug Testing Frequency
Low Risk by Opiate Risk Tool (ORT)	Periodic (e.g., up to one time per year)
Moderate Risk by ORT	Regular (e.g., up to two times per year)
High Risk by ORT or opioid doses >120 MED/d	Frequent (e.g., up to three times per year)
Aberrant Behavior (lost prescriptions, multiple requests for early refill, opioids from multiple providers, unauthorized dose escalation, apparent intoxication)	At the time of visit (Address aberrant behavior in person, not by telephone)

The Agency does not pay for:

- Routine drug screening panels;
- Monitoring for program compliance in either a residential or outpatient drug or alcohol treatment program.

Note: Labs must offer single drug testing. Drug screening must be medically indicated and the reason for the specific drug screening must be documented in the client record. Lab slips must be signed by the prescribing provider.

Physician-Related Services/Health Care Professional Services

When monitoring a client for drug/alcohol use, please refer the client to a DBHR-approved program for evaluation and treatment. Clients served by these programs may receive drug/alcohol screening according to an established treatment plan determined by their treating provider.

For clients in the DBHR-contracted methadone treatment programs and pregnant women in DBHR-contracted treatment programs, drug screens are paid through a contract issued to one specific laboratory by DBHR, not through the Agency.

Suboxone Drug Screening Policy

Urine drug screens for benzodiazepines, amphetamine/methamphetamine, cocaine, methadone, opiates, and barbiturates must be done before each prescription is dispensed during the first month of therapy.

The prescriber must fax the pharmacy with confirmation that the drug screen has been completed to release the next 14-day supply. The fax must be retained in the pharmacy for audit purposes. After the first month of therapy, urine drug screens are to be done at time intervals determined to be appropriate by the prescriber.

The provider is certified and approved to prescribe Buprenorphine-Suboxone (see # Memo 03-58 MAA). The provider must have a CLIA waiver.

Enter the following information on the 837P, DDE professional, or CMS-1500 Claim Form:

- ICD-9-CM diagnosis codes 304.00-304.03;
- CPT codes G0431 QW – limited to one per day and 80102 are covered only for ICD-9-CM diagnoses 304.00-304.03; and
- “Certified bupren provider” in the comments field on the:
 - ✓ 837P claim,
 - ✓ Claim notes field of the DDE, or
 - ✓ Field 19 of the CMS-1500 paper claim.

Bill with EPA number 870000050. See Prior Authorization, Section H, within these Billing Instructions for additional information.

Laboratory Services Referred by Community Mental Health Center (CMHC) or DBHR-Contracted Providers

When CMHC or DBHR-contracted providers refer clients enrolled in an Agency managed care plan for laboratory services, the laboratory **must bill the Agency directly**. The following conditions apply:

- The laboratory service is medically necessary;
- The laboratory service is **directly** related to the client's mental health or alcohol and substance abuse;
- The laboratory service is referred by a CMHC or DBHR-contracted provider who has a core provider agreement with the Agency;
- The laboratory must bill with a mental health, substance abuse, or alcohol abuse diagnosis; and
- The screen must meet the criteria above in “Drug Screens.”

To bill for laboratory services, laboratories **must** put the CMHC or DBHR-contracted referring provider National Provider Identifier (NPI) number in the “referring provider” field of the claim form. CMHC and DBHR-contracted services are excluded from the Agency’s managed care contracts.

Disease Organ Panels--Automated Multi-Channel Tests

The Agency pays for CPT lab panel codes 80047, 80048, 80050, 80051, 80053, 80061, 80069, and 80076. The individual automated multi-channel tests are:

Procedure Code	Brief Description
82040	Albumin; serum
82247	Bilirubin; total
82248	Bilirubin; direct
82310	Calcium; total
82330	Calcium, ionized
82374	Carbon dioxide (bicarbonate)
82435	Chloride; blood
82465	Cholesterol, serum, total
82550	Creatine kinase (CK)
82565	Creatine; blood
82947	Glucose; quantitative
82977	Glutamyltransferase, gamma (GGT)

Physician-Related Services/Health Care Professional Services

Procedure Code	Brief Description
83615	Lactate dehydrogenase (LD) (LDH)
84075	Phosphatase, alkaline
84100	Phosphorous inorganic (phosphate)
84132	Potassium; serum
84155	Protein; total, except refractometry
84295	Sodium; serum
84450	Transferase; aspartate amino (AST)(SGOT)
84460	Transferase; alanine amino (AST)(SGPT)
84478	Tryglycerides
84520	Urea nitrogen; quantitative
84550	Uric acid; blood
85004	Automated diff wbc count
85007	B1 smear w/diff wbc count
85009	Manual diff wbc count b-coat
85027	Complete cbc, automated

- Providers may bill a combination of panels and individual tests not included in the panel. Duplicate tests will be denied. Providers may not bill for the tests in the panel separately per the National Correct Coding Initiative.
- Each test and/or panel must be billed on a separate line.
- All automated/non-automated tests ***must be billed on the same claim form when performed for a client by the same provider*** on the same day. For laboratory services that exceed the lines allowed per claim, see next page.

Billing for laboratory services that exceed the lines allowed

- Providers who bill on hardcopy CMS-1500 Claim Forms are allowed up to 6 lines per claim. Direct entry, claim batch or electronic submitters are allowed 50 lines per claim. **Use additional claim forms if the services exceed the lines allowed.** Enter the statement: “Additional services” in field 19 when billing on a hardcopy CMS-1500 Claim Form or in the *Comments* section when billing electronically. Total each claim separately.
- If the Agency pays a claim with one or more automated/non-automated lab tests, providers must bill any additional automated/non-automated lab tests for the same date of service as an adjusted claim. Refer to Key Step 6 of the “Submit Fee for Service Claims to Medical Assistance” in the [ProviderOne Billing and Resource Guide](#) which addresses adjusting paid claims. Currently providers may adjust claims electronically in ProviderOne (preferred) or send in a paper claim adjustment. Make sure you adjust the claim with the paid automated/non-automated lab tests using the comment "**additional services.**"

Payment for Automated Multi-Channel Tests

For individual automated multi-channel tests, providers are paid on the basis of the total number of individual automated multi-channel tests performed for the same client, on the same day, by the same laboratory.

- When all the tests in a panel are not performed, each test must be billed as a separate line item on the claim form.
- When there are additional automated multi-channel tests not included in a panel, each additional test must be billed as a separate line item on the claim form.
- Bill any other individual tests as a separate line item on the claim form.

Payment calculation for individual automated laboratory tests is based on the total number of automated multichannel tests performed per day, per patient. Payment for each test is based on Medicare’s fees multiplied by the Agency’s fiscal year laboratory conversion factor.

For example:

- If five individual automated tests are billed, the payment is equal to the internal code’s maximum allowable fee.
- If five individual automated tests **and** a panel are billed, the Agency pays providers separately for the panel at the panel’s maximum allowable. Payment for the individual automated tests, less any duplicates, is equal to the internal code’s maximum allowable fee.

Physician-Related Services/Health Care Professional Services

If one automated multi-channel test is billed, payment is at the individual procedure code or internal code's maximum allowable fee, whichever is lower. The same applies if the same automated multi-channel test is performed with modifier 91.

Disease Organ Panel--Non-automated Multi-Channel

Organ and disease panels (CPT codes 80055 and 80074) do not include automated multi-channel tests. If all individual tests in the panel are not performed, payment is the individual procedure code maximum allowable fee or billed charge, whichever is lower.

The non-automated multi-channel tests are:

CPT Code	Brief Description
83718	Assay of lipoprotein
84443	Assay thyroid stim hormone
85025	Automated hemogram
85651	Rbc sed rate, nonautomated
86255	Fluorescent antibody, screen
86430	Rheumatoid factor test
86592	Blood serology, qualitative
86644	CMV antibody
86694	Herpes simplex test
86705	Hep b core antibody, test
86709	Hep a antibody, igm
86762	Rubella antibody
86777	Toxoplasma antibody
86803	Hep c ab test, confirm
86850	RBC antibody screen
86900	Blood typing, ABO
86901	Blood typing, Rh(D)
87340	Hepatitis b surface ag, eia

Laboratory Modifiers

Modifier QP

Modifier QP indicates documentation is on file showing that the lab test(s) was ordered individually or ordered as a CPT®-recognized panel. The Agency recognizes this modifier as *informational only*. **This modifier is not appropriate to use for billing repeat tests or to indicate the test was not done as a panel.**

Physician-Related Services/Health Care Professional Services

Modifier 90

Reference (Outside) Laboratory: When a laboratory sends a specimen to a reference (outside) laboratory, the referring laboratory may bill for the reference laboratory (pass-through billing) by adding modifier 90 to the laboratory procedure code. *The reference laboratory NPI must be entered in the performing number field on the claim form.*

Modifier 91

Repeat Clinical Laboratory Diagnostic Test

When it is necessary to repeat the same lab test on the same day for the same client to obtain subsequent (multiple) test results, use modifier 91. Otherwise, the claim will be denied as a duplicate.

Do not use this modifier when tests are rerun:

- To confirm initial results;
- Due to testing problems with specimens or equipment;
- For any reason when a normal, one-time, reportable result is all that is required; or
- When there are standard procedure codes available that describe the series of results (e.g., glucose tolerance test, evocative/suppression testing, etc.).

Pap Smears

For professional services related to Pap smears, refer to the Cancer Screens Section (page D.13).

- Use CPT codes 88147-88154, 88164-88167, and P3000-P3001 for conventional Pap smears.
- The Agency pays for thin layer preparation CPT codes 88142-88143 and 88174-88175. The Agency does not pay providers for HCPCS codes G0123-G0124 and G0141-G0148. The Agency pays for thin layer Paps at Medicare's payment levels. Thin layer preparation and conventional preparation CPT codes cannot be billed in combination.
- Use CPT codes 88141 and 88155 in conjunction with codes 88142-88143 and 88164-88167.
- Use the appropriate medical diagnosis if a condition is found.
- The Agency pays providers for one routine Pap smear per client, per calendar year only. The Agency considers routine Pap smears to be those billed with an ICD-9-CM diagnosis of V76.2, V72.31, V76.47, or V25.40-V25.49. For clients on the TAKE CHARGE or Family Planning Only programs, use diagnosis codes from the V25 series diagnosis codes, excluding V25.3.
- The Agency does not pay providers for CPT code 88112 with diagnosis V72.3 or V76.2.

Physician-Related Services/Health Care Professional Services

HIV Testing

The Agency pays providers for HIV testing (CPT codes 86701-86703) for ICD-9-CM diagnosis codes 042, 079.53, V01.79, V08, V22.0, V22.1, V22.2 or V28.89 only.

Blood Bank Services

Please refer to the Injectable Drug fee schedule online at:
<http://hrsa.dshs.wa.gov/RBRVS/Index.html>

Physician-Related Services/Health Care Professional Services

STAT Lab Charges

When the laboratory tests listed on the following page are performed on a STAT basis, the provider may bill **HCPCS code S3600** (Stat laboratory request).

- Payment is limited to one STAT charge per episode (not once per test).
- Tests must be ordered STAT and payment is limited to only those that are needed to manage the client in a true emergency.
- The laboratory report must contain the name of the provider who requested the STAT.
- The medical record must reflect the medical necessity and urgency of the service.

Note: "STAT" must be clearly indicated by the provider and must be documented in the laboratory report and the client's record. Tests generated from the emergency room do not automatically justify a STAT order. Use **HCPCS code S3600** with the procedure codes on the following page.

The STAT charge is paid only with the tests listed below:

Procedure Code	Brief Description
G0306	CBC/diffwbc w/o platelet
G0307	CBC without platelet
80047	Metabolic panel ionized ca
80048	Basic metabolic panel
80051	Electrolyte panel
80069	Renal function panel
80076	Hepatic function panel
80100	Drug screen, qualitate/multi
80156	Assay, carbamazepine, total
80162	Assay of digoxin
80170	Assay of gentamicin
80164	Assay, dipropylacetic acid
80178	Assay of lithium
80184	Assay of phenobarbital
80185	Assay of phenytoin, total
80188	Assay primidone
80192	Assay of procainamide
80194	Assay of procainamide
80196	Assay of salicylate
80197	Assay of tacrolimus
80198	Assay of theophylline
81000	Urinalysis, nonauto w/scope
81001	Urinalysis, auto w/scope
81002	Urinalysis, nonauto w/o scope
81003	Urinalysis, auto, w/o scope
81005	Urinalysis

Physician-Related Services/Health Care Professional Services

Procedure Code	Brief Description
82003	Assay of acetaminophen
82009	Test for acetone/ketones
82040	Assay of serum albumin
82055	Assay of ethanol
82150	Assay of amylase
82247	Bilirubin; total
82248	Bilirubin; direct
82310	Assay of calcium
82330	Assay of calcium

89051	Body fluid cell count
86367	Stem cells, total count
86923	Compatibility test, electric
88720	Bilirubin, total, transcutaneous
88740	Transcutaneous carboxyhb
88741	Transcutaneous methb

Chemotherapy Services [Refer to WAC 182-531-0950(11)]

Bill the appropriate chemotherapy administration CPT® code for each drug administered. The Agency's chemotherapy administration policy is as follows:

- Providers may bill chemotherapy administration (CPT codes 96411 or 96417) and bill one administration for each drug given. The administration and drug must be billed on the same claim.
- The Agency pays for only one “initial” drug administration code (CPT code 96409 or 96413) per encounter unless:
 - ✓ Protocol requires the use of two separate IV sites; or
 - ✓ The client comes back for a separately identifiable service on the same day. In this case, bill the second “initial” service code with modifier -59.
- The Agency does not pay for Evaluation and Management (E&M) CPT code 99211 on the same date of service as the following drug administration codes: 96401-96549. If billed in combination with one of these drug administration codes, the Agency will deny the E&M code 99211. However, providers may bill other E&M codes on the same date of service using modifier 25 to indicate that a significant and separately identifiable E&M service was provided. If modifier 25 is not used, the Agency will deny the E&M code.
- **Items and Services Not Separately Payable with Drug Administration:**

Some items and services are included in the payment for the drug administration service, and the Agency does not pay separately for them. These services include, but are not limited to:

 - ✓ The use of local anesthesia;
 - ✓ IV start;
 - ✓ Access to indwelling IV (a subcutaneous catheter or port);
 - ✓ A flush at conclusion of an infusion;
 - ✓ Standard tubing; and
 - ✓ Syringes and supplies.
- **Infusion vs. Push:**

An intravenous or intra-arterial push is defined as:

 - ✓ An injection in which the health care professional who administers the substance or drug is continuously present to administer the injection and observe the patient; OR
 - ✓ An infusion of 15 minutes or less.

Note: You must bill drug, infusion, and injection codes on the same claim form.

Chemotherapy Drugs

The following payment guidelines apply to chemotherapy drugs (HCPCS codes J9000-J9999):

- The Agency's maximum allowable fee per unit is based on the HCPCS description of the chemotherapy drug.
- The Agency's maximum allowable fee is equal to Medicare's drug methodology of 106% of the average sales price. If a Medicare fee is unavailable for a particular drug, the Agency will continue to price the drug at 84% of average wholesale price (AWP).
- Preparation of the chemotherapy drug is included in the payment for the administration of the drug.

Note: Refer to Section K of these billing instructions for information on when it is necessary to bill the Agency for a chemotherapy drug using an unlisted drug code.

Billing for Single-Dose Vials

For single-dose vials, bill the total amount of the drug contained in the vial(s), including partial vials. Based on the unit definition for the HCPCS code, the Agency pays providers for the total number of units contained in the vial. **For example:**

If a total of 150 mg of Etoposide is required for the therapy, and two 100 mg single dose vials are used to obtain the total dosage, then the total of the two 100 mg vials is paid. In this case, the drug is billed using HCPCS code J9181 (Etoposide, 10 mg). If the Agency's maximum allowable fee is \$4.38 per 10 mg unit, the total allowable is \$87.60 (200 mg divided by 10 = 20 units x \$4.38).

Billing for Multi-Dose Vials

For multi-dose vials, bill **only** the amount of the drug administered to the client. Based on the unit definition (rounded up to the nearest whole unit) of the HCPCS code, the Agency pays providers for only the amount of drug administered to the client. **For example:**

If a total of 750 mg of Cytarabine is required for the therapy, and is taken from a 2,000 mg multi-dose vial, then only the 750 mg administered to the client is paid. In this case, the drug is billed using HCPCS code J9110 (Cytarabine, 500 mg). If the Agency's maximum allowable fee is \$23.75 per 500 mg unit, the total allowable is \$47.50 [750 mg divided by 500 = 2 (1.5 rounded) units x \$23.75].

Oral Anti-Emetic Drugs

In order to bill the Agency for oral anti-emetic drugs (HCPCS codes Q0163-Q0181), the drug must be:

- Part of a chemotherapy regimen;
- Administered or prescribed for use immediately before, during, or within 48 hours after administration of the chemotherapy drug;
- Billed using one of the ICD-9-CM diagnosis codes 140.0-208.90, 230.0-239.9, or V58.1; and
- Submitted on the same claim form with one of the chemotherapy drug codes (HCPCS codes J8530-J9999).

Hydration Therapy with Chemotherapy

Intravenous (IV) infusion of saline (CPT codes 96360-96371) is not paid separately when administered at the same time as chemotherapy infusion (CPT codes 96413- 96417). Separate payment is allowed for IV infusion when administered separately from the chemotherapy infusion. In this case, bill using the IV infusion code with modifier 59.

Surgical Services [Refer to WAC 182-531-1700]

Providers must check the Physician-Related Services Fee Schedule for those surgical services that require either PA or EPA.

Authorization Requirements for Surgical Procedures

Changes in Authorization Requirements for Selected Surgical Procedures

Effective for dates of service on and after April 15, 2012, the Agency is expanding its prior authorization requirements to include selected surgical procedures. The medical necessity review for these procedures will be conducted by the Agency or Qualis Health.

Physician-Related Services/Health Care Professional Services

The Agency and Qualis Health have contracted to provide web-based submittal for utilization review services to establish the medical necessity of selected surgical procedures in the following categories:

- Spinal, including facet injections;
- Major joints;
- Upper and lower extremities;
- Carpal tunnel release; and
- Thoracic outlet release.

Qualis Health conducts the review of the request to establish medical necessity for surgeries, but **does not** issue authorizations. Qualis Health forwards its recommendations to the Agency for final authorization determination.

Qualis Health will begin receiving requests for medical necessity reviews on April 1, 2012.

Surgical services require Agency authorization regardless of place of service or when performed as:

- Urgent;
- An emergency; or
- A scheduled surgery.

The Agency allows 5 business days for providers to submit retrospective authorization requests to Qualis Health for surgical procedures performed as **urgent** or **emergency** procedures.

Only the performing provider or facility (site of service) can request the medical necessity review be conducted by Qualis Health. If initiating the request for authorization, the physician must include the name and billing NPI of the facility where the procedure will be performed. If a facility is requesting the authorization, the request must include the name and billing NPI of the physician performing the procedure.

Note: Billing entities such as clearinghouses **do not** request authorization through Qualis Health or the Agency.

The list of new surgical procedure (CPT) codes that require review by Qualis Health can be found online at:

- Physician's Related Services Fee Schedule online at: <http://hrsa.dshs.wa.gov/RBRVS/Index.html> or
- Online at: <http://hrsa.dshs.wa.gov/authorization>

When Will Qualis Health Begin Receiving Requests?

Qualis Health will begin receiving requests April 1, 2012. For procedures performed on and after April 15, 2012, all requests for authorization must be submitted through Qualis Health. See the chart below

If procedures are needed for:	Authorization must be requested:
Dates of service <i>before</i> April 15, 2012	Through the Agency
Dates of service on and after April 15, 2012	Through Qualis Health. Available April 1, 2012

For retroactive requests which meet the requirements specified above, submit as follows:

Retroactive requests for authorization with dates of service:	Authorization will be reviewed by:
Prior to April 15, 2012.	The Agency.
On and after April 15, 2012.	Through Qualis Health

Medical Necessity Reviews to be Conducted by the Agency

To implement this prior authorization requirement for selected surgical procedures, the Agency will also conduct medical necessity reviews for some selected surgical procedures. The Agency will begin accepting requests for these medical necessity reviews April 1, 2012. For details about these procedures refer to:

- <http://hrsa.dshs.wa.gov/RBRVS/Index.html>; or
- http://hrsa.dshs.wa.gov/download/Billing_Instructions_Webpages/Physician-Related_Services.html

For more information about how to request prior or retroactive authorization from the Agency, refer to the ProviderOne Billing and Resource Guide online at:

http://hrsa.dshs.wa.gov/download/ProviderOne_Billing_and_Resource_Guide.html.

Age Exemption and Expedited Prior Authorization Requirements

If the client is younger than 21 years of age, prior authorization for the surgical procedure may not be required. Refer to the Physician -Related Services and related fee schedule online at:

<http://hrsa.dshs.wa.gov/RBRVS/Index.html> to determine if a procedure is exempt by client's age.

Physician-Related Services/Health Care Professional Services

Prior authorization for hysterectomies is required regardless of the client's age. Some hysterectomy procedures will require a medical necessity review by the Agency to establish medical necessity. However, the Agency will use **Expedited Prior Authorization (EPA)** criteria, instead of a medical necessity review, for the following clinical situations:

- Cancer
- Trauma

For more information, including the EPA numbers and specific criteria, refer to the Expedited Prior Authorization (EPA) section within these billing instructions.

Is Authorization Required for All Medicaid Clients?

The Agency does not require authorization if another insurance carrier is going to be financially responsible for the service.

IMPORTANT INFORMATION

Authorization through Qualis Health is required ONLY for Medicaid clients who are currently eligible and enrolled in fee-for-service *as the primary insurance*.

DO NOT submit a request for a client who has:

1. Medicaid Managed Care;
2. Another insurance as primary (Third Party Liability or TPL);
3. Medicare as the primary insurance;
4. No current eligibility;
5. Unmet spend-down;
6. Detoxification only coverage; or
7. Medicaid through the ERSO (Emergency Related Services Only-non-citizen program). Exception: submit surgical authorization requests for clients covered by ERSO when the client is:
 - Being treated for cancer or end stage renal disease (see WAC 388-438-0120); or
 - Living in a nursing home (see WAC 388-438-0125).

If one of the above applies, the Agency will reject the request for authorization regardless of Qualis Health's medical necessity determination.

For more information about how to request prior or retroactive authorization from the Agency, refer to the ProviderOne Billing and Resource Guide online at:

http://hrsa.dshs.wa.gov/download/ProviderOne_Billing_and_Resource_Guide.html.

Checking Client Eligibility

An Agency Medicaid eligibility ID card does not guarantee that a client is currently eligible. To save time, confirm eligibility through ProviderOne before submitting an authorization request. To learn more about confirming client eligibility in ProviderOne, go to the ProviderOne Billing & Resource Guide online at:

http://hrsa.dshs.wa.gov/download/ProviderOne_Billing_and_Resource_Guide/Client_Eligibility_BSP_Coverage.pdf.

Retroactive Authorization – Eligibility and TPL issues

Retroactive authorizations have no time limit. The Agency considers retroactive authorization when the following applies:

- A client’s eligibility is approved after the date of service, but it is retroactive to a date(s) that includes the date the procedure was performed; or
- A primary payer does not pay for the service and Medicaid is now requested to pay for the services as the primary payer.

When requesting retroactive authorization for a required procedure, providers must check authorization requirements for the “date of service” that the procedure was performed by consulting the fee schedule.

About Qualis Health

How to Register to Request Authorization for Surgical Procedures through Qualis Health

In order to receive authorization for surgical procedures, providers must:

- Register as a provider with OneHealthPort (see link below);
- Register with Qualis Health iEXCHANGE® as a WA Medicaid provider (if you have not yet done so for imaging);
- Become familiar with the criteria that will be applied to requests;
- Participate in on-line training or watch a training video for entering surgical review requests on the Qualis Health website at: <http://www.qualishealth.org/healthcare-professionals/washington-medicaid>; and
- Use iEXCHANGE® to request review for surgical procedures after completion of training.

Physician-Related Services/Health Care Professional Services

Providers registered with Qualis Health iEXCHANGE® as a WA Labor and Industries provider are also required to register with Qualis Health iEXCHANGE® as a Medicaid provider in order to submit medical necessity review requests for surgical procedures. If you are a registered provider with Qualis Health iEXCHANGE® for WA Medicaid Imaging, you will be able to submit review requests for surgical procedures.

Helpful Qualis Health Information and Links:

If you have questions about the iEXCHANGE® process, contact Qualis Health's iEXCHANGE® help line at 1-888-213-7513.

Qualis Health's surgical services webpage is available to register for secure access. For more information about this process, see the Health Care Professionals section online at:

<http://www.qualishealth.org>

To register on OneHealthPort, go to the registration page at:

<http://www.onehealthport.com/services/Qualis.php>.

For more information about the web-based utilization review, go to iEXCHANGE® online at:

<http://www.qualishealth.org/healthcare-professionals/iEXCHANGE>

Qualis Health offers on-line training. Please go to:

<http://www.qualishealth.org/sites/default/files/WA-Medicaid-Surgery-iEX-Training-Manual.pdf>

Qualis Health hosts webinars every Thursday from 10:30A.M to 11:30A.M (PST) starting March 15, 2012. Beginning in April, Qualis Health will add weekly sessions on Tuesday afternoons at 1pm.

Qualis Health offers a printable manual to assist providers. It is available online at:

<http://www.qualishealth.org/healthcare-professionals/washington-medicaid/provider-education>.

If you have questions, please contact Qualis Health at 1-888-213-7513.

Submission of Requests to Qualis Health

Requests may be submitted electronically, by fax, or via telephone call.

Instructions for submitting medical necessity review requests to Qualis Health, including how to use OneHealthPort, are available at:

<http://www.qualishealth.org/healthcare-professionals/washington-medicaid/provider-education>

Requests initiated electronically will require supporting documentation to be included with the electronic submission or faxed per the instructions found at the website above. A Qualis Health reference number is provided upon submission of the electronic request.

Physician-Related Services/Health Care Professional Services

Requests initiated by telephone or fax will require supporting documentation be faxed per the instructions found at the website above. Once supporting documentation is received, Qualis Health will open a case in their system by:

- Entering the information; and
- Responding to the provider with a Qualis Health reference number.

Once all necessary clinical information is received (either electronically or via fax), Qualis Health staff will:

- Conduct the medical necessity review; and
- Forward a recommendation to the Agency.

Qualis Health will process telephone and fax requests during normal business hours. Faxed requests can be sent at any time and Qualis Health will process them the following business day.

Qualis Health provides the following toll-free numbers:

- WA Medicaid (phone) 888-213-7513
- WA Medicaid (fax) 888-213-7516

Surgical Modifiers

Co-Surgeons, Assistants, Team Surgeries, and other surgical modifiers

When requesting an authorization for any surgical procedure requiring a medical necessity review by Qualis Health, please indicate if the authorization request also includes an assistant surgeon, a co-surgeon, or a surgical team. Please refer to CMS coding rules.

When submitting an authorization request for a surgical service that requires additional surgeons, please include the following on the request:

- The appropriate modifier(s);
- If available, each surgeon's billing NPI; and
- Clinical justification for an assistant surgeon, co-surgeon, or surgical team.

Enter the information above in the "Communication" box when:

- The case is loaded through Qualis Health iEXCHANGE®; or
- Submitted by fax, on the request for surgical authorization form.

Qualis Health Appeal Process for Providers

If the Agency denies authorization for surgery as a result of a recommendation from Qualis Health, Qualis Health offers providers an appeal process. Request an appeal as follows:

- Prepare a written request for appeal to Qualis Health indicating the Qualis Health reference number (starting with 913...) for which the appeal is requested; and
- Fax the request for appeal along with any clinical notes, laboratory, and imaging reports to be considered with the appeal to Qualis Health at (888) 213-7516.

NOTE: If the clinical information that is submitted is NEW (information obtained after the denial was issued), a new review will be initiated by Qualis Health and a new reference number will be assigned. An appeal will be conducted if the information submitted was available at the time of the initial review but not submitted.

Upon receipt of a request for appeal, Qualis Health staff will review the documentation to determine if the appeal meets the medical necessity criteria. If it is determined that the appeal request does not meet the medical necessity criteria, the case will be referred to a physician to make a final determination.

More information about Qualis Health's provider appeal process is available online at: <http://www.qualishealth.org/healthcare-professionals/washington-medicaid/provider-resources>.

If Qualis Health ultimately recommends the authorization be denied *and* Washington Medicaid agrees, the client has the right to appeal to the Administrative Hearings Office.

What Criteria Will Qualis Health Use to Establish Medical Necessity?

The Agency has instructed Qualis Health to use the following surgical procedure criteria to establish medical necessity:

- Health Technology Assessment (HTA) Program* - <http://www.hta.hca.wa.gov/>;
- Labor and Industries (LNI); or
- InterQual criteria.

Exceptions: * Medicaid does not require clients to participate in a structured, intensive, multi-disciplinary program (SIMP) as required in the HTA's decision for spinal fusion and artificial disc replacement surgery.

If there is an applicable HTA criteria, it will serve as the benchmark for the medical necessity review. If there is no HTA criteria available, applicable criteria from LNI will be applied. If LNI does not have available criteria, InterQual criteria will be applied.

How Does the Agency's Hierarchy of Evidence Protocol Apply?

Hierarchy of Evidence (See WAC 182-501-0165)

The Agency recognizes the criteria described as "B" level of evidence.
If the request meets medical necessity criteria, the request will be approved.

About Qualis Health Reference Numbers

Upon successful submission of a request through iEXCHANGE® or when a request has been faxed to Qualis Health, you will receive a nine-digit Qualis Health reference number starting with the prefix 913 (e.g. 913-xxx-xxx). The Qualis Health reference number provides verification that Qualis Health reviewed the request.

The Qualis Health reference number is not a billable authorization number.

Do not bill for or perform a surgical procedure(s) until you receive a written approval and an Agency-issued ProviderOne authorization number. The Agency approves or denies authorization requests based on recommendations from Qualis Health.

Note: The Agency has 15 calendar days from the time Qualis Health receives a request for authorization to provide a written determination.

The Agency's ProviderOne Authorization Records

Please contact the Agency at 1- 800-562-3022 extension 52018, Monday – Friday, 1pm to 4:30pm for:

- Questions regarding the status of an authorization;
- The need to update an authorization (e.g., add provider NPI or update or change date of service); or
- General questions regarding an authorization.

If an authorization record requires updating after the Agency has already approved authorization, please submit a PA Pend Form as described in Appendix "G" of the [ProviderOne Billing and Resource Guide](#)

Physician-Related Services/Health Care Professional Services

Global surgery payment includes all the following services:

- The surgical procedure;
- For major surgeries (90-day global period), preoperative visits (all sites of service) that occur the day before or the day of the surgery;
- For minor surgeries (less than 90-day global period), preoperative visits (all sites of service) that occur on the day of surgery;
- Services by the primary surgeon (all sites of service) during the postoperative period;
- Postoperative dressing changes, including:
 - ✓ Local incision care and removal of operative packs;
 - ✓ Removal of cutaneous sutures, staples, lines, wires, tubes, drains and splints;
 - ✓ Insertion, irrigation and removal of urinary catheters, routine peripheral IV lines, nasogastric and rectal tubes; and
 - ✓ Change and removal of tracheostomy tubes.
- Additional medical or surgical services required because of complications that do not require additional operating room procedures.

Note: Casting materials are not part of the global surgery policy and are paid separately.

Global Surgery Payment

- The global surgery payment period applies to any provider who participates in the surgical procedure. These providers include:
 - ✓ The surgeon;
 - ✓ The assistant surgeon (modifiers 80, 81, or 82);
 - ✓ Two surgeons (modifier 62);
 - ✓ Team surgeons (modifier 66); and
 - ✓ Anesthesiologists and CRNAs.

Physician-Related Services/Health Care Professional Services

- The following procedure codes are bundled within the payment for the surgical procedure during the global period. Do not bill these codes separately unless one of the conditions on the following page exists:

Procedure Code	Summary of Description
E&M Services	
99211-99223	Office visits, initial hospital observation care, and initial hospital inpatient care
99231-99239	Subsequent hospital care, observation or inpatient care services, and hospital discharge services
99241-99245	Office consultations
99291-99292	Critical care services.
99307-99310	Subsequent nursing facility care
99324-99337	Domiciliary, rest home, or custodial care services
99347-99350	Home services
Ophthalmological Services	
92012-92014	General ophthalmological services

The E&M codes listed above may be allowed if there is a separately identifiable reason for the additional E&M service unrelated to the surgery. In these cases, the E&M code must be billed with one of the following modifiers:

<u>Modifier</u>	<u>Description</u>
------------------------	---------------------------

- 24 Unrelated E&M service by the same physician during a postoperative period (reason for the E&M service must be unrelated to the procedure)
- 25 Significant, separately identifiable E&M service by the same physician on the same day of a procedure (reason for the E&M service must be unrelated to the procedure)
- 57 Decision for surgery (only applies to surgeries with a 90-day global period)
- 79 Unrelated procedure or service by the same physician during the postoperative period
- Professional inpatient services (CPT codes 99221-99223) are payable only during the global follow-up period if they are performed on an emergency basis (i.e. they are not payable for scheduled hospital admissions).
- Bundled procedure codes are not payable during the global surgery payment period.

Physician-Related Services/Health Care Professional Services

- A provider (other than the surgeon) who provides all postoperative care (including all inpatient postoperative care) before discharge, must bill subsequent hospital care codes (CPT codes 99231-99233) for the inpatient hospital care, and the surgical code with modifier 55 for the post-discharge care. The surgeon must bill the surgery code with modifier 54.
- Providers who perform only the follow-up services for minor procedures performed in emergency Agency's must bill the appropriate level E&M code. These services are not included in the global surgical payment.
- The provider who performs the emergency room service must bill for the surgical procedure without using modifier 54.
- Preoperative and postoperative critical care services provided during a global period for a seriously ill or injured client are not considered related to a surgical procedure and are paid separately when all of the following apply:
 - ✓ The client is critically ill or injured and requires the constant attendance of the provider;
 - ✓ The critical care is unrelated to the specific anatomic injury or general surgical procedure performed; and
 - ✓ The client is potentially unstable or has conditions that could pose a significant threat to life or risk of prolonged impairment.

Bill the appropriate critical care codes with either modifier 24 or 25.

- The Agency allows separate payment for:
 - ✓ The initial evaluation to determine need for surgery;
 - ✓ Preoperative visits that occur two or more days before the surgery. Use the specific medical diagnosis for the client. Do not use V72.83-V72.85;
 - ✓ Postoperative visits for problems unrelated to the surgery;
 - ✓ Postoperative visits for services that are not included in the normal course of treatment for the surgery; and

Physician-Related Services/Health Care Professional Services

- ✓ Services of other providers, except when more than one provider furnishes services that are included in a global package (see modifiers 54 and 55).

Agency-Approved Hospitals for Bariatric Surgery

See Section H for information on bariatric surgery.

Registered Nurse First Assistants (RNFA)

Registered Nurse First Assistants (RNFAs) are allowed to assist at surgeries within their scope of practice. Use modifier 80 to bill the Agency for these services.

**Provider Enrollment
PO Box 45562
Olympia, WA 98504-5562**

New RNFA providers must meet the following criteria:

- Licensed in Washington State as a Registered Nurse in good standing;
- Work under the direct supervision of the performing surgeon; and
- Hold current certification as a certified nurse operating room (CNOR).

Submit the following documentation to the Agency along with the core provider agreement:

- Proof of current certification as a CNOR from the Certification Board Perioperative Nursing;
- Proof of successful completion of an RNFA program that meets the "AORN standards for RN first assistant education programs" (See AORN Standards for RN First Assistant Education Programs in: *Perioperative Standards and Recommended Practices*, Denver, CO: AORN);
- Proof of Allied Health Personnel privileges in the hospital where the surgeries are performed; and
- Proof of liability insurance.

Multiple Surgeries

When multiple surgeries are performed on the same client, during the same operative session, The Agency pays providers as follows:

- 100% of the Agency's maximum allowable fee for the most expensive procedure; plus,
- 50% of the Agency's maximum allowable fee for each additional procedure.

To expedite payment of your claims, bill all surgeries performed during the same operative session on the same claim.

If a partial payment is made on a claim with multiple surgeries, providers must adjust the paid claim. Refer to Key Step 6 of the "Submit Fee for Service Claims to Medical Assistance" in the [ProviderOne Billing and Resource Guide](#) which addresses adjusting paid claims. Currently providers may adjust claims electronically in ProviderOne (preferred) or send in a paper claim adjustment.

Endoscopy Procedures

Endoscopy procedures are paid as follows:

- When multiple endoscopies from the same endoscopy group are performed on the same day, the procedure with the highest maximum allowable fee is paid the full amount. The second, third, etc., are paid at the maximum allowable amount minus the base endoscopy procedure's allowed amount.
- When multiple endoscopies from different endoscopy groups are billed, the multiple surgery rules detailed above apply.
- When payment for other procedures within an endoscopy group is less than the endoscopy base code, no payment is made.
- The Agency does not pay for an E&M visit on the same day as the diagnostic or surgical endoscopy procedure unless there is a separately identifiable service unrelated to the endoscopy procedure. If it is appropriate to bill the E&M code, use modifier 25.

Other Surgical Policies

- Use modifiers 80, 81, and/or 82 to bill for an assistant surgeon. An assist at major surgery is paid at 20% of the surgical procedure's maximum allowable fee. The multiple surgery rules apply for surgery assists.
- A properly completed consent form must be attached to all claims for sterilization and hysterectomy procedures (see Section H).
- Microsurgery *Add On Code 69990*
CPT indicates that code 69990 is not appropriate when using magnifying loupes or other corrected vision devices. Also, code 69990 is not payable with procedures where use of the operative microscope is an inclusive component of the procedure (i.e. the procedure description specifies that microsurgical techniques are used).

The Agency follows CCI guidelines regarding the use of the operating microscope. Do not bill code 69990 in addition to procedures where the use of the operating microscope is an inclusive component.

- The Agency pays for the following procedure codes which include breast removal and breast reconstruction for clients who have breast cancer or history of breast cancer, burns, open wound injuries, or congenital anomalies of the breast. The following list of diagnosis codes must be used; **otherwise the service requires prior authorization (PA)**.
- Removal of failed breast implants with ICD-9-CM diagnosis code 996.54 requires PA. The Agency will pay to remove implants (CPT codes 19328 and 19330) but will not replace them if they were placed for cosmetic reasons.
- The Agency requires EPA for reduction mammoplasties (CPT code 19318) and for mastectomy for gynecomastia for men (CPT code 19300). See section I for more information.

Physician-Related Services/Health Care Professional Services

CPT Code(s)	Brief Description	Limitations
11920-11921	Correct skin color defects (use V10.3) (Tattoo)	Limited to ICD-9-CM diagnoses: <ul style="list-style-type: none"> • V10.3 • 174.0-175.9 • 233.0 • 757.6 • 759.9 • 879.0-879.1 • 906.0 • 906.8 • 942.00-942.59
11960	Insertion of tissue expander(s)	
11970	Replace tissue expander	
11971	Remove tissue expander(s)	
19301	Removal of breast tissue	
19302	Remove breast tissue, nodes	
19303	Removal of breast	
19304	Removal of breast	
19316	Suspension of breast	
19340	Immediate breast prosthesis	
19342	Delayed breast prosthesis	
19350	Breast reconstruction	
19357	Breast reconstruction	
19361	Breast reconstruction	
19364	Breast reconstruction	
19366	Breast reconstruction	
19367	Breast reconstruction	
19368	Breast reconstruction	
19369	Breast reconstruction	
19370	Surgery of breast capsule	
19371	Removal of breast capsule	
19380	Revise breast reconstruction	
S2066	Breast reconstruction w/gap flap	
S2067	Breast reconstruction	

- Salpingostomies (CPT codes 58673 and 58770) are payable only for a tubal pregnancy (ICD-9-CM diagnosis code 633.10 and 633.11).
- Modifier 53 must be used when billing for incomplete colonoscopies (CPT code 45378, or HCPCS codes G0105 or G0121). Do not bill incomplete colonoscopies as sigmoidoscopies. Modifier 53 indicates that the physician elected to terminate a surgical procedure. Use of modifier 53 is allowed for all surgical procedures. Modifier 53 is a payment modifier when used with CPT code 45378 or HCPCS codes G0105 or G0121. It is "informational only" for all other surgical procedures.

Surgical Treatment for Sleep Apnea

The Agency requires PA for surgical treatment for obstructive sleep apnea (OSA) or upper airway resistance syndrome (UARS) (see procedures listed below) when billed with diagnosis code 327.23 (obstructive sleep apnea) or 780.57 (unspecified sleep apnea):

- 21199;
- 21685;
- 42120;
- 42140;
- 42145;
- 42160; or
- 42299.

Epiphyseal

Epiphyseal surgical procedures (CPT codes 25450, 25455, 27185, 27475, 27477-27485, 27742, and 27730-27740) are allowed only for clients age 17 and younger.

Closure of Enterostomy

Mobilization of splenic flexure (CPT code 44139) is not paid when billed with enterostomy procedures (CPT codes 44625 and 44626). CPT code 44139 must be used only in conjunction with partial colectomy (CPT codes 44140-44147).

Angioscopy

The Agency pays for one unit of angioscopy (CPT code 35400), per session.

Medical Policy Updates

In accordance with WAC 182-501-0055, the Agency has reviewed the recommendations of the health technology assessment clinical committee (HTACC) (RCW 70.14.080 through 70.14.140) and has made the decision to adopt recommendations for the following technologies:

- Artificial Disc Replacement
- Bone Growth Stimulators
- Computed Tomography Angiography (CTA)
- Continuous Glucose Monitors
- Drug Eluting Stents
- Hip Resurfacing
- Implantable Infusion Pumps
- Knee Arthroscopy
- Spinal Cord Stimulation for Chronic Neuropathic Pain
- Spinal Injections
- Transcutaneous Electrical Nerve Stimulation (TENS) device
- **Hip Surgery for Femoroacetabular Impingement Syndrome (FAI)**

For additional details and medical necessity criteria, go online at:

<http://www.hta.hca.wa.gov/assessments.html>

Continuous Glucose Monitors

The Agency covers the rental of continuous glucose monitors (CGM) for clients younger than 19 years of age.

For clinical criteria for CGM, please go to the Home Infusion Therapy/Parenteral Nutrition Program Billing Instructions online at:

http://hrsa.dshs.wa.gov/download/Billing_Instructions_Webpages/Home_Infusion.html

Knee Arthroscopy for Osteoarthritis

The Agency does not recognize lavage, debridement and/or shaving of the knee (CPT 29877) as medically necessary when these are the only procedure(s) performed during the arthroscopy. Under the above circumstances CPT Code 29877 is not reimbursable. The Agency will pay for arthroscopies done for other diagnostic and therapeutic purposes. This requires authorization through Qualis Health.

Physician-Related Services/Health Care Professional Services

Artificial Disc Replacement

The Agency pays for Cervical Disc Replacement when the technology criteria are met. These procedures require authorization reviews through Qualis Health. CPT codes 22856 and 22861.

The Agency pays for Lumbar Disc Replacement when the technology criteria are met. These procedures require authorization reviews through Qualis Health. CPT codes 22857, 22862, and 22865.

Transcutaneous Electrical Nerve Stimulation (TENS) device

The Agency does *not* cover TENS devices, related supplies and services for independent home-use.

Drug Eluting Stents

The Agency will pay for drug eluting stents when the technology criteria are met. This procedure requires EPA. See Section I for Expedited Prior Authorization (EPA) Criteria.

Bone Growth Stimulators

The Agency will pay for bone growth stimulators when the technology criteria are met. These procedures require prior authorization (PA) to establish medical necessity. CPT codes 20974, 20975, and 20979.

Computed Tomography Angiography (CTA)

The Agency will pay for CTA when the technology criteria are met. CPT code 75574 is restricted to POS 21, 22, 23.

The Agency **will** pay for CTA when

- Using computed tomography machines with 64-slice or better capability; **and**
- The following medical necessity criteria are met:
 - ✓ Patients with low to intermediate risk of coronary artery disease; and
 - ✓ Investigation of acute chest pain is conducted in an emergency department or hospital setting;

Physician-Related Services/Health Care Professional Services

The Agency *will not* pay for CTA when:

- Using a CT scanner that uses lower than 64-slice technology; *or*
- The procedure is not medically necessary as follows:
 - ✓ Patients who are asymptomatic or at high risk of coronary artery disease; and
 - ✓ Investigation of coronary artery disease conducted outside of the emergency department or hospital setting.

Implantable Infusion Pumps or Implantable Drug Delivery Systems (IDDS)

The Agency will pay for CPT codes 62318, 62319, 62350, 62351, 62360, 62361 when medically necessary and only for the indications below:

- Cancer pain; and
- Spasticity.

Note: Implantable drug delivery systems (Infusion Pump or IDDS) are not considered medically necessary for treatment of chronic pain not related to cancer.

Spinal Cord Stimulation for Chronic Neuropathic Pain

The Agency does not recognize Spinal Cord Stimulation for chronic neuropathic pain as medically necessary. The Agency will consider requests for other diagnoses. Procedure codes 64575, 64580, 64581, and 64585 require prior authorization (PA) through the Agency.

Hip Resurfacing

Total hip resurfacing arthroplasty is medically necessary as an alternative to total hip arthroplasty when all of the following conditions are met:

- Diagnosis of osteoarthritis or inflammatory arthritis;
- Individual has failed nonsurgical management and is a candidate for total hip arthroplasty; and
- The device is FDA-approved.

Hip Surgery for Femoroacetabular Impingement Syndrome (FAI)

There is no medical necessity established for hip surgery to treat Femoroacetabular Impingement Syndrome (FAI).

Apheresis

Therapeutic apheresis (CPT codes 36511-36516) includes payment for all medical management services provided to the client on the date of service. The Agency pays for only one unit of either CPT code per client, per day, per provider.

Separate payment is not allowed for the following procedures on the same date that therapeutic apheresis services are provided, unless they are billed with modifier 25:

- Established patient office and other outpatient visits (CPT codes 99211-99215); and
- Subsequent hospital care (CPT codes 99231-99233).

Do not bill apheresis management when billing for critical care time (CPT codes 99291-99292).

Bilateral Procedures

- If a procedure is done bilaterally and is not identified by its terminology as a bilateral procedure, bill the procedure with modifier 50. Bill as a single line item on the claim.
- If a procedure is done bilaterally and is identified by its terminology as bilateral (e.g. CPT codes 27395 or 52290), do not bill the procedure with modifier 50.
- Use modifiers LT and RT to indicate left and right for unilateral procedures.

Pre-/Intra-/Postoperative Payment Splits

Pre-, intra-, and postoperative payment splits are made when modifiers 54, 55, and 56 are used.

The Agency has adopted Medicare's payment splits, as listed below. If Medicare has not assigned a payment split to a procedure, the Agency uses a payment split of 10% / 80% / 10% if the above modifiers are used.

Code Range	Operative System	Pre-	Intra-	Postoperative
10000 - 19499	Integumentary	10%	71%	19%
20000 - 29909	Musculoskeletal	10%	69%	21%
30000 - 32999	Respiratory	10%	76%	14%
33010 - 37788	Cardiovascular	09%	84%	07%
37790 - 37799	Cardiovascular	08%	83%	09%
38100 - 38115	Hemic/Lymphatic	11%	73%	16%
38120 - 38300	Hemic/Lymphatic	09%	84%	07%
38305 - 38999	Hemic/Lymphatic	11%	73%	16%
39000 - 39599	Mediastinum/Diaphragm	09%	84%	07%
40490 - 43641	Digestive	09%	81%	10%
43651 - 43652	Digestive	11%	76%	13%
43653 - 49999	Digestive	09%	81%	10%
50010 - 53899	Urinary	08%	83%	09%
54000 - 55980	Male Genital	10%	80%	10%
56300 - 56399	Laparoscopy/Hysteroscopy	09%	81%	10%
56405 - 58999	Female Genital	12%	74%	14%
59000 - 59899	Maternity	17%	60%	23%
60000 - 60605	Endocrine	09%	82%	09%
60650 - 60699	Endocrine	09%	84%	07%
61000 - 64999	Nervous System	11%	76%	13%
65091 - 68899	Eye/Occular	10%	70%	20%
69000 - 69979	Auditory	07%	79%	14%

Urology

Circumcisions (CPT codes 54150, 54160, and 54161)

Circumcisions are covered when billed with one of the following diagnoses:

- Phimosis (ICD-9-CM 605);
- Balanoposthitis (ICD-9-CM 607.1); or
- Balnitis Xerotica (ICD-9-CM 607.81).

Urinary Tract Implants

Prior to inserting a urinary tract implant (CPT code 51715), the provider must:

- Have urology training in the use of a cystoscope and must have completed a urinary tract implant training program for the type of implant used.
- Document that the client has shown no incontinence improvement through other therapies for at least 12 months prior to collagen therapy.
- Administer and evaluate a skin test for collagen sensitivity (CPT code 95028) over a four-week period prior to collagen therapy. A negative sensitivity must be documented in the client's record.

Refer to Section “J” within these billing instructions for urinary tract implants covered by the Agency. **All services provided and implant codes must be billed on the same claim form.**

Urological Procedures with Sterilizations in the Description

These procedures may cause the claim to stop in the Agency's payment system and trigger a manual review as a result of the Agency's effort to remain in compliance with federal sterilization consent form requirements. If the surgery is not being done for the purpose of sterilization, or the sterilizing portion of the procedure is not being performed, a sterilization consent form is not required. However, you must note one of the following in the *Comments* section of your claim:

- Not sterilized; or
- Not done primarily for the purpose of sterilization.

Indwelling Catheter

- Separate payment is allowed for insertion of a temporary, indwelling catheter when it is used to treat a temporary obstruction and is performed in a physician's office.
- Bill for the insertion of the indwelling catheter using CPT code 51702 or 51703.
- The Agency pays providers for insertion of an indwelling catheter only when performed in an office setting.
- Insertion of an indwelling catheter is bundled when performed on the same day as a major surgery.
- Insertion of an indwelling catheter is bundled when performed during the post-operative period of a major surgery.

Osteotomy Reconstruction

Procedure Code	Brief Description	Does not require PA when billed with ICD-9-CM diagnoses
21198		170.1 or 802.20 – 802.35

Anesthesia [Refer to WAC 182-531-0300]

General Anesthesia

- The Agency requires providers to use anesthesia CPT codes 00100-01999 to bill for anesthesia services paid with base and time units. **Do not use** the surgical procedure code with an anesthesia modifier to bill for the anesthesia procedure.
- The Agency pays for CPT code 01922 for noninvasive imaging or radiation therapy when:
 - ✓ The client is 17 years of age or younger; or
 - ✓ There are client-specific reasons why the procedure cannot be performed without anesthesia services. Documentation must be kept in the client's medical record.
- The Agency pays providers for covered anesthesia services performed by one of the following:
 - ✓ Anesthesiologist;
 - ✓ Certified registered nurse anesthetist (CRNA); or
 - ✓ Other providers who have a contract with the Agency to provide anesthesia services.

Physician-Related Services/Health Care Professional Services

- For each client, the anesthesia provider must:
 - ✓ Perform a pre-anesthetic examination and evaluation;
 - ✓ Prescribe the anesthesia plan;
 - ✓ Personally participate in the most demanding aspects of the anesthesia plan, including, induction and emergence;
 - ✓ Ensure that any procedures in the anesthesia plan that he or she does not perform are done by a qualified individual as defined in program operating instructions;
 - ✓ Monitor the course of anesthesia administration at frequent intervals;
 - ✓ Remain physically present and available for immediate diagnosis and treatment of emergencies; and
 - ✓ Provide indicated post-anesthesia care.
- In addition, the anesthesia provider may direct no more than four anesthesia services concurrently. The anesthesia provider may not perform any other services while directing these services, other than attending to medical emergencies and other limited services as allowed by Medicare policy.
- The anesthesia provider must document in the client's medical record that the medical direction requirements were met. Providers do not need to submit documentation with each claim to substantiate these requirements.
- Anesthesia time begins when the anesthesia provider starts to physically prepare the client for the induction of anesthesia in the operating room area or its equivalent. When there is a break in continuous anesthesia care, blocks of time may be summed as long as there is continuous monitoring of the client within the blocks of time. An example of this includes, but is not limited to, the time a client spends in an anesthesia induction room or under the care of an operating room nurse during a surgical procedure. Anesthesia time ends when the anesthesia provider or surgeon is no longer in constant attendance (i.e. when the client can be safely placed under postoperative supervision).
- Do not bill CPT codes 01953 or 01996 with an anesthesia modifier or with the time in the "units" field. The Agency has assigned flat fees for these codes.
- The Agency does not adopt any ASA RVG codes that are not included in the CPT book. Bill all anesthesia codes according to the descriptions published in the current CPT book. When there are differences in code descriptions between the CPT book and the ASA RVG, the Agency follows CPT code descriptions.

Physician-Related Services/Health Care Professional Services

The Agency does not pay providers for anesthesia services when these services are billed using the CPT surgery, radiology, and/or medicine codes with anesthesia modifiers.

Continue to use the appropriate anesthesia modifier with anesthesia CPT codes.

Exception: Anesthesia providers may bill CPT Pain Management/Other Services procedure codes that are not paid with base and time units. These services are paid as a procedure using RBRVS methodology. Do not bill time in the unit field or use anesthesia modifiers.

- When billing anesthesia for surgical abortions (CPT code 01965 or 01966), you must indicate in the *Comments* section of the claim form "voluntary or induced abortion."
- When billing the following procedures, use only the codes indicated below:
 - ✓ Vasectomies: 00921 (not covered for clients on the TAKE CHARGE program);
 - ✓ Hysterectomies: 00846, 00944, 01962-01963, or 01969;
 - ✓ Sterilizations: 00851; and
 - ✓ Abortions: 01965 or 01966.
- When multiple surgical procedures are performed during the same period of anesthesia, bill the surgical procedure with the greatest base value, along with the total time in whole minutes.
- When more than one anesthesia provider is present, the Agency pays each provider 50% of the allowed amount. The Agency limits payment in this circumstance to 100% of the total allowed payment for the service.
- Providers must report the number of actual anesthesia minutes (calculated to the next whole minute) in the appropriate field of the claim form. The Agency calculates the base units.

Regional Anesthesia

- Bill the Agency the appropriate procedure code (e.g. epidural CPT code 62319) with no time units and no anesthesia modifier. The Agency determines payment by using the procedure's maximum allowable fee, not anesthesia base and time units.
- Local nerve block CPT code 64450 (other than digital and metacarpal) for subregional anatomic areas (such as the hand, wrist, ankle, foot and vagina) is included in the global surgical package and is not paid separately.

Physician-Related Services/Health Care Professional Services

Other

- The Agency does not pay separately for moderate sedation. The Agency considers moderate sedation as bundled with the procedure code.
- Patient acuity does not affect payment levels. Qualifying circumstances (CPT codes 99100, 99116, 99135, and 99140) are considered bundled and are not paid separately.
- The Agency follows Medicare's policy of not paying surgeons for anesthesia services. Claims for anesthesia services with modifier 47 will be denied. Under Medicare's payment policy, **separate payment** for local, regional, or digital block or general anesthesia administered by the surgeon is not allowed. These services are considered included in the RBRVS payments for the procedure.
- When billing for anesthesia services using CPT **unlisted anesthesia code 01999**, **providers must attach documentation** (operative report) **to their claim** indicating what surgical procedure was performed that required the anesthesia, in order to receive payment. The Agency will determine payment amount after review of the documentation.

Anesthesia for Maternity [Refer to WAC 182-531-0300(9)]

- The Agency pays a maximum of 6 hours (360 minutes) of anesthesia for labor and delivery time (CPT codes 01960, 01961, 01967 and 01968) per delivery, including multiple births and/or cesarean section delivery.

Exception: The following obstetrical anesthesia codes are not subject to the 6-hour (360 minute) limitation: CPT codes 01962-01966 or 01969.

- When billing more than one time-limited anesthesia code, the total time may not exceed 6 hours (360 minutes).
- Bill the applicable CPT anesthesia code with applicable modifier and time. To determine time for obstetric epidural anesthesia during normal labor and delivery and C-sections, time begins with insertion and ends with removal for a maximum of 6 hours per delivery.
- CPT codes 01968 and 01969 are anesthesia add-on codes to be used for cesarean delivery and cesarean hysterectomy following anesthesia given for a planned vaginal delivery. An additional base of 3 is allowed for 01968 and an additional base of 5 is allowed for 01969, in conjunction with the base of 5 for 01967. The time involved with each portion of the procedure should be reported with the appropriate CPT code.

Physician-Related Services/Health Care Professional Services

For Example: When a physician starts a planned vaginal delivery (CPT code 01967) and it results in a cesarean delivery (CPT code 01968), both of these procedures may be billed. However, if both an anesthesiologist and a certified registered nurse assistant (CRNA) are involved, each provider bills only for those services he/she performed. The sum of the payments for each procedure will not exceed the Agency's maximum allowable fee.

- Anesthesia time for sterilization is added to the time for the delivery when the two procedures are performed during the same operative session. If the sterilization and delivery are performed during different operative sessions, the time is calculated separately.

Anesthesia Payment Calculation for Services Paid with Base and Time Units

- The Agency's current anesthesia conversion factor is \$21.20.
- Anesthesia time is paid using **one minute per unit**.
- Total anesthesia payment is calculated by adding the base value for the anesthesia procedure with the actual time. Bill time in **total minutes** only, rounded to the next whole minute. Do not bill the procedure's base units.

The following table illustrates how to calculate the anesthesia payment:

Payment Calculation	
A.	Multiply base units by 15.
B.	Add total minutes to value from step A.
C.	Divide anesthesia conversion factor by 15, to obtain the rate per minute.
D.	Multiply total from Step B by the rate per minute in Step C.

Anesthesia conversion factor is based on 15-minute time units.

Anesthesia for Dental

General anesthesia is allowed when provided by an anesthesiology provider for dental admissions. To bill for dental anesthesia, providers must use CPT anesthesia **code 00170** with the appropriate anesthesia modifier.

Refer to the appropriate Agency dental billing instructions for information on billing for office-based anesthesia for dental procedures. Download any of the Agency's current dental billing instructions at: <http://hrsa.dshs.wa.gov/ProvRel/Dental/Dental.html>.

Physician-Related Services/Health Care Professional Services

Note: Bill the Agency directly for dental anesthesia for all clients, including those enrolled in an Agency managed care plan.

Teaching Anesthesiologists

The Agency pays teaching anesthesiologists for supervision of anesthesiology residents as follows:

- When supervising *one* resident only, the teaching anesthesiologist must bill the Agency the appropriate anesthesia procedure code with **modifier AA**. Payment to the teaching anesthesiologist will be 100% of the allowed amount.
- When supervising *two or more* residents concurrently, the teaching anesthesiologist must bill the Agency the appropriate anesthesia procedure codes with **modifier QK**. Payment to the teaching anesthesiologist will be 50% of the allowed amount for each case supervised.

Physician Fee Schedule Payment for Services of Teaching Physicians.

General Rule: If a resident physician participates in providing a service in a teaching setting, physician fee schedule payment is made only if a teaching physician is present during the key portion of any service or procedure for which payment is sought.

- **Surgical, high-risk, or other complex procedures:** the teaching physician must be present during all critical portions of the procedure and immediately available to furnish services during the entire service or procedure.
 - ✓ **Surgery**, the teaching physician's presence is not required during opening and closing of the surgical field.
 - ✓ **Procedures performed through an endoscope**, the teaching physician must be present during the entire viewing.
- **Evaluation and management services:** the teaching physician must be present during the portion of the service that determines the level of service billed. (However, in the case of evaluation and management services furnished in hospital outpatient departments and certain other ambulatory settings, the requirements of 42 C.F.R. §415.174 apply.)

Pain Management Services

- Pain Management services and selected surgical services that are commonly performed by anesthesiologists and CRNAs are not paid with anesthesia base and time units. These services are paid using the Agency's-assigned maximum allowable fee for the procedure code.

Physician-Related Services/Health Care Professional Services

- When billing for pain management and other services that are payable using the Agency's-assigned maximum allowable fee, do not use anesthesia modifiers. The Agency denies claims for these services billed with an anesthesia modifier.
- Two postoperative procedures for pain management are allowed during the same inpatient stay. Only one (1) unit may be billed per procedure. Do NOT bill time.

Pain Management Procedure Codes

The listings shown below are not guaranteed to be all-inclusive and are provided for convenience purposes only.

The codes listed in the following table with an asterisk (*) are limited to two (2) during the postoperative period while the client is admitted to the hospital. Do not bill modifier 59 with any of these procedure codes.

Procedure Code	Brief Description
11981*	Insert drug implant device
11982*	Remove drug implant device
11983*	Remove/insert drug implant
20526*	Ther injection, carpal tunnel
20550	Inject tendon/ligament/cyst
20551	Inject tendon origin/insert
20552	Inject trigger point, 1 or 2
20553	Inject trigger points, >3
20600	Drain/inject, joint/bursa
20605	Drain/inject, joint/bursa
20610	Drain/inject, joint/bursa
20612	Aspirate/inj ganglion cyst
27096	Inject sacroiliac joint
61790*	Treat trigeminal nerve
62264*	Epidural lysis on single day
62270	Spinal fluid tap, diagnostic
62272	Drain spinal fluid
62273*	Treat epidural spine lesion
62280*	Treat spinal cord lesion
62281*	Treat spinal cord lesion
62282*	Treat spinal canal lesion
62284	Injection for myelogram
62290	Inject for spine disk x-ray
62291	Inject for spine disk x-ray
62310*	Inject spine c/t
62311*	Inject spine l/s (cd)
62318*	Inject spine w/cath, c/t

Procedure Code	Brief Description
62319*	Inject spine w/cath l/s (cd)
62350*	Implant spinal canal cath
62351*	Implant spinal canal cath
62355*	Remove spinal canal cath
62360*	Insert spine infusion device
62361*	Implant spine infusion pump
62362*	Implant spine infusion pump
62365*	Remove spine infusion device
63650*	Implant neuroelectrodes
63655*	Implant neuroelectrodes
63685*	Implant neuroreceiver
63688*	Revise/remove neuroreceiver
64400*	Injection for nerve block
64402*	Injection for nerve block
64405*	Injection for nerve block
64408*	Injection for nerve block
64410*	Injection for nerve block
64412*	Injection for nerve block
64413*	Injection for nerve block
64415*	Injection for nerve block
64416*	Injection for nerve block
64417*	Injection for nerve block
64418*	Injection for nerve block
64420*	Injection for nerve block
64421*	Injection for nerve block
64425*	Injection for nerve block
64430*	Injection for nerve block

Physician-Related Services/Health Care Professional Services

Procedure Code	Brief Description
64435*	Injection for nerve block

76000	Fluoroscope examination
76496	Fluoroscopic procedure
77001	Fluoroguide for vein device
77002	Needle localization by xray
77003	Fluoroguide for spine inject
93503	Insert/place heart catheter
95970	Analyze neurostim, no prog
95990	Spin/brain pump refill & main

Physician-Related Services/Health Care Professional Services

These codes are paid as a procedure using the Agency's maximum allowable fee, not with base units and time.

*Due to copyright restrictions, the Agency publishes only official brief CPT descriptions
To view the full CPT description, please refer to your current CPT manual.*

Major Trauma Services

Increased Payments for Major Trauma Care

The legislature established the Trauma Care Fund (TCF) in 1997 to help offset the cost of operating and maintaining a statewide trauma care system. The Department of Health (DOH) and the Health Care Authority (the Agency) receive funding from the TCF to help support provider groups involved in the state's trauma care system.

The Agency uses its TCF funding to draw federal matching funds. The Agency makes supplemental payments to designated trauma centers and pays enhanced rates to physicians/clinical providers for trauma cases that meet specified criteria.

The enhanced rates are available for trauma care services provided to a fee-for-service Medical Assistance client with an Injury Severity Score (ISS) of:

- (a) 13 or greater for adults;
- (b) 9 or greater for pediatric patients (under 15 years of age); or
- (c) Less than (a) or (b) for a trauma patient **received** in transfer by a Level I, II, or III trauma center.

Beginning with dates of service on and after July 1, 2012, physicians/clinical providers will also receive enhanced rates for qualified trauma care services provided to managed care enrollees who meet trauma program eligibility criteria.

Client Eligibility Groups Included in TCF Payments to Physicians

Claims for trauma care services provided to the following client groups are eligible for enhanced rates:

- Medicaid (Title XIX)
- CHIP (Title XXI)
- Medical Care Services (Aged, Blind, and Disabled (ABD))
- Apple Health for Kids (Children's Health)

Client Eligibility Groups Excluded from TCF Payments to Physicians

Claims for trauma care services provided to the following client groups are **not** eligible for enhanced rates:

- Refugee Assistance.
- Alien Emergency Medical.
- Family Planning Only/TAKE CHARGE.
- Basic Health.
- Basic Health Plus.

Services Excluded from TCF Payments to Physicians

Claims for the following services are **not** eligible for enhanced rates:

- Laboratory and pathology services.
- Technical Component (TC)-only radiology services.
- Services unrelated to a client's traumatic injury (e.g., treatment for chronic diseases).
- Services provided after discharge from the initial hospital stay, except for inpatient rehabilitation services and/or planned follow-up surgery related to the traumatic injury and provided within six months of the date of the traumatic injury.

TCF Payments to Physicians

Enhanced Rates for Trauma Care

The Agency pays a physician an enhanced rate for a qualifying trauma care service, using the **lesser** of the Agency's maximum allowable fee or the provider's billed amount as the base rate to which an enhancement percentage is applied. The enhancement percentage is applied at the line-item level since not all services qualify for an enhanced rate.

The Agency has a fixed amount to spend on supplemental payments for trauma care. The Agency may adjust the enhancement percentage to ensure TCF expenditures do not exceed the amount appropriated to the Agency for the state fiscal year.

For an eligible trauma service, payment is currently calculated as follows:

$$\text{Trauma care payment} = \text{Base rate} \times 275\%$$

Physician-Related Services/Health Care Professional Services

Criteria for TCF Payments to Physicians

Physicians and clinical providers receive TCF payments from the Agency:

- 1) For “qualified” trauma care services. Qualified trauma care services are those that meet the ISS specified in subsection (3) below. Qualified trauma care services also include inpatient rehabilitation and surgical services provided to Medical Assistance clients within six months of the date of the qualifying injury when the following conditions are met:
 - (a) The follow-up surgical procedures are directly related to the qualifying traumatic injury;
 - (b) The follow-up surgical procedures were planned during the initial acute episode of care (inpatient stay); and
 - (c) The plan for the follow-up surgical procedure(s) is clearly documented in the medical record of the client’s initial hospitalization for the traumatic injury.
- 2) For hospital-based services only, except as specified in subsection (4).
- 3) Only for trauma cases that meet the ISS of:
 - (a) Thirteen or greater for an adult trauma patient (a client age fifteen or older); or
 - (b) Nine or greater for a pediatric trauma patient (a client younger than age fifteen); or
 - (c) Less than 13 for adults or 9 for pediatric patients for a trauma case **received** in transfer by a Level I, II, or III trauma service center.
- 4) On a claim-specific basis. Services must have been provided in a designated trauma service center, except that qualified follow-up surgical care within six months of the initial traumatic injury, as described in subsection (1) above, may be provided in other approved care settings, such as Medicare-certified ambulatory surgery centers.
- 5) At a rate determined by the Agency. The enhanced rates are subject to the following limitations:
 - (a) Laboratory and pathology charges are not eligible for enhanced payments from the TCF. Laboratory and pathology services are paid at the lesser of the Agency’s current FFS rate or the billed amount.

Physician-Related Services/Health Care Professional Services

- (b) Technical component only (TC) charges for radiology services are not eligible for enhanced rates when billed by physicians. (These are facility charges.)
- (c) The rate enhancement percentage is subject to periodic adjustments to ensure that total payments from the TCF for the state fiscal year will not exceed the legislative appropriation for that fiscal year. The Agency has the authority to take whatever actions are needed to ensure it stays within its TCF appropriation.

TCF Payments to Providers in Transferred Trauma Cases

When a trauma case is transferred from one hospital to another, the Agency makes TCF payments to providers as follows:

- If the transferred case meets or exceeds the appropriate ISS threshold (ISS of 13 or greater for adults, and 9 or greater for pediatric clients), **both** transferring and receiving hospitals and physicians/clinicians who furnished qualified trauma care services are eligible for increased payments from the TCF. The transfer must be to a higher level designated trauma service center, and the transferring hospital must be at least a level 3 hospital. Transfers from a higher level to a lower level designated trauma service center are not eligible for the increased payments.
- If the transferred case is below the ISS threshold, only the **receiving** hospital and the physicians/clinicians at the receiving facility who furnished qualified trauma care services are eligible for increased payments from the TCF. The transferring hospital and clinical team are paid the regular rates for the services they provided to the transferred client with an ISS below the applicable threshold.

Billing for Trauma Care Services

To bill for qualified trauma care services, physicians and clinical providers must add the trauma modifier **ST** to the appropriate procedure code line. Enter the required **ST modifier** into the modifier field of the claim to receive the enhanced payment.

Note: The ProviderOne system can accommodate up to 4 modifiers on a line, if multiple modifiers are necessary.

Physician-Related Services/Health Care Professional Services

Claims for trauma care services provided to a managed care enrollee must be submitted to the client's managed care plan. Claims for trauma care services provided to a fee-for-service client must be submitted to the Agency. The payment for a trauma care service provided to a managed care enrollee will be the same amount for the same service provided to a fee-for-service client.

Adjusting Trauma Claims

The Agency considers a provider's request to adjust a claim for the purpose of receiving TCF payment (e.g., adding the ST modifier to a previously billed service, or adding a new procedure with the ST modifier to the claim) only when the adjustment request is received **within one year** from the date of service on the initial claim. See WAC [182-502-0150\(11\)](#).

A claim which included a trauma service may be submitted for adjustment beyond 365 calendar days when the reason for the adjustment request is other than TCF payment (e.g., adding lab procedures, correcting units of service).

Note: The Agency takes back the original payment when processing an adjustment request. Electronic claims get a Julian date stamp on the date received, including weekends and holidays. Paper claims received outside of regular business hours get a Julian date stamp on the following business day. When a trauma care service that was billed timely and received the enhanced rate and is included in a claim submitted for adjustment after 365 days, the Agency will pay the provider the regular rate for the service when the adjustment is processed, and recoup the original enhanced payment.

All claims and claim adjustments are subject to federal and state audit and review requirements.

Injury Severity Score (ISS)

Note: The current ISS qualifying score is 13 or greater for adults, and 9 or greater for pediatric clients (through 14 years of age only).

The ISS is a summary severity score for anatomic injuries.

- It is based upon the Abbreviated Injury Scale (AIS) severity scores for six body regions:
 - ✓ Head and neck;
 - ✓ Face;
 - ✓ Chest;
 - ✓ Abdominal and pelvic contents;
 - ✓ Extremities and pelvic girdle; and
 - ✓ External.

Physician-Related Services/Health Care Professional Services

- The ISS values range from 1 to 75. Generally, a higher ISS indicates more serious injuries.

Physician/Clinical Provider List

Advanced Registered Nurse Practitioner
Anesthesiologist
Cardiologist
Certified Registered Nurse Anesthetist
Critical Care Physician
Emergency Physician
Family/General Practice Physician
Gastroenterologist
General Surgeon
Gynecologist
Hand Surgeon
Hematologist
Infectious Disease Specialist
Internal Medicine
Nephrologist
Neurologist
Neurosurgeon
Obstetrician
Ophthalmologist
Oral/Maxillofacial Surgeon
Orthopedic Surgeon
Pediatric Surgeon
Pediatrician
Physiatrist
Physician Assistant
Plastic Surgeon (**not** cosmetic surgery)
Pulmonologist
Radiologist
Thoracic Surgeon
Urologist
Vascular Surgeon

Note: Many procedures are not included in the enhanced payment program for major trauma services.

The services of some specialists listed above are eligible for enhanced rates only when provided in the context of major trauma care (e.g., stabilization services by a General Practitioner prior to client's transfer to a trauma care facility; C-section performed by obstetrician on pregnant accident victim when fetus is in danger).

Miscellaneous Services

Acute Physical Medicine and Rehabilitation (Acute PM&R)

Inpatient PM&R is limited to Agency-contracted facilities. Please see the Agency's [Acute PM&R Billing Instructions](#) for more details.

Cochlear Implant Services for Clients 20 Years of Age and Younger [Refer to WAC 182-531-0200(4) (c)]

The Agency does not cover bilateral cochlear implantation. Unilateral cochlear implantation (CPT code 69930) requires EPA (see section I). If a client does not meet the EPA criteria PA is required.

The Agency covers replacement parts for cochlear devices through the Agency Hearing Aids and Services Program *only*. The Agency pays only those vendors with a current core provider agreement that supply replacement parts for cochlear implants and bone-anchored hearing aids (BAHA).

Note: The Agency does not pay for new cochlear implantation for clients 21 years of age and older. The Agency considers requests for removal or repair of previously implanted cochlear implants for clients 21 years of age and older when medically necessary. Prior authorization is required.

CPT Codes	Description	Notes
69930	Cochlear device implantation, with or without mastoidectomy	There are no corresponding removal codes specific to cochlear devices.
69715	Implantation, osseointegrated implant, temporal bone, with percutaneous attachment to external speech processor/cochlear stimulator; with mastoidectomy	

Collagen Implants

The Agency pays for CPT code 51715 and HCPCS codes L8603, L8604 and/or L8606 only when the diagnosis code is 599.82 (Intrinsic sphincter deficiency). See Section "J" for limitations.

DDD Physical

The Agency covers one physical every 12 months for clients with disabilities. Use HCPCS code T1023 with modifier HI and an ICD-9-CM diagnosis code from the range V79.3-V79.9 to bill for an annual exam.

Diabetes Education (HCPCS Code G0108 and G0109) [WAC 182-550-6300]

Please refer to the current Agency Diabetes Education Billing Instructions at:
http://hrsa.dshs.wa.gov/download/Billing_Instructions_Webpages/Diabetes_Education_BI.html.

Genetic Counseling and Genetic Testing

The Agency covers genetic counseling for all FFS adults and children when performed by a physician.

To bill for genetic counseling, use diagnosis code V26.33 genetic counseling and the appropriate E&M code.

The Agency covers genetic counseling (CPT 96040) when performed by a health care professional appropriately credentialed by the DOH. For policy and billing information for genetic counselors, please see the Prenatal Diagnosis Genetic Counseling Medicaid Provider Guide online at:
http://www.medicaid.hca.wa.gov/billing/prenatal_genetic.html

The Agency requires prior authorization (PA) for the following codes. Please use General Information for Authorization form, 13-835 and Fax/Written Request Basic Information form, 13-756.

Procedure Code	Description	Comments
81206	Bcr/abl1 gene major bp	PA
81207	Bcr/abl1 gene minor bp	PA
81208	Bcr/abl1 gene other bp	PA
81209	Blm gene	PA
81210	Braf gene	PA
81211	Brcal&2 seq & com dup/del	PA
81212	Brcal&2 185&5385&6174 var	PA
81213	Brcal&2 uncom dup/del var	PA
81214	Brcal full seq & com dup/del	PA
81215	Brcal gene known fam variant	PA
81216	Brcal2 gene full sequence	PA
81217	Brcal2 gene known fam variant	PA
S3854	Oncotype DX	PA; requests must also include a signed Oncotype DX™ (S3854) Request Form, 13-908

(Genetic Testing continued on next page)

Certain genetic testing procedure codes need PA. Physicians must obtain PA if required for certain genetic tests and must give both the PA number and the appropriate genetic testing modifier to the laboratory or when the laboratory bills so they can bill correctly. Providers must check the Physician-Related Services Fee Schedule for services that require either PA or EPA.

Note: Department of Health (DOH) approved genetic counselors provide counseling for pregnant women (fee for service and healthy option clients) up to the end of the month containing the 60th day after the pregnancy ends. This service does not require authorization. To locate the nearest DOH-approved genetic counselor call DOH at 1-253-395-6742.

Group Clinical Visits for Clients with Diabetes or Asthma

Overview of the Program

The intent of the Diabetes and Asthma Group Clinical Visits program is to provide clinical services and educational counseling to Agency clients who have been diagnosed with diabetes or asthma. These visits are limited to groups of two or more clients and are payable only to physicians or advanced registered nurse practitioners (ARNPs). However, participation from other professional staff, including physician assistants, physical therapists, nurses, and nutritionists, is encouraged.

Program Requirements

- Prior to a group clinical visit, the provider must perform an assessment of individual client medical information and document the proposed treatment plan for each client.
- The group clinical visit must be led by a physician or ARNP, but may include other staff as well.
- The group clinical visit must last at least one hour and include:
 - ✓ A group discussion on clinical issues to promote long-term disease control and self-management. This discussion should include at least one of the following topics:
 - Prevention of exacerbation or complications;
 - Proper use of medications and other therapeutic techniques (spacers, peak flow meter use; glucose measurement, foot care, eye exams, etc.); or
 - Living with a chronic illness;
 - ✓ A question and answer period;

Physician-Related Services/Health Care Professional Services

- ✓ The collection of prevention-based care data needed to monitor chronic illness (e.g., weight and blood pressure); and
 - ✓ Short (approximately 5-10 minutes per client) one-on-one visits to gather needed data and establish an individual management plan with the client.
- The following must be documented in the medical record:
 - ✓ Individual management plan, including self-management capacity;
 - ✓ Data collected, including physical exam and lab findings;
 - ✓ Patient participation; and
 - ✓ Beginning and ending time of the visit.

Billing and Reimbursement

Providers must use the following CPT code when billing for diabetes or asthma group counseling visits, subject to the limitations in the chart below. Providers must bill visits in increments of one-hour units (one hour = one unit). Multiple units may be billed on the same day.

CPT Code	Restricted to Diagnoses	Visit Limitations
99078	Diabetes: 250.00-250.93 Asthma: 493.00-493.92	Limited to four (4) one-hour units per calendar year, per client, per condition

Note: The Agency pays only for the time that a client spends in the group clinical visit.

Other Limitations

The Agency does not reimburse a diabetes or asthma group clinical visit in conjunction with an office visit or other outpatient evaluation and management (E&M) codes for the same client, same provider, and same condition on the same day.

A diabetes group clinical visit may be billed on the same day as a Department of Health (DOH) - approved diabetes education core module as long as the times documented in the medical record indicate two separate sessions.

HIV/AIDS Counseling

The Agency covers two sessions of risk factor reduction counseling (CPT code 99401) counseling per client, each time tested. **[Refer to WAC 182-531-0600]** Use ICD-9-CM diagnosis code V65.44 when billing CPT code 99401 for HIV/AIDS counseling. The Agency does not pay for HIV/AIDS counseling when billed with an E&M service unless the client is being seen on the same day for a medical problem and the E&M service is billed with a separately identifiable diagnosis code and with modifier 25. Please see the Agency's [HIV/AIDS Case Management, Title XIX \(Medicaid\) Billing Instructions](#) for additional information on HIV/AIDS case management billing.

Hyperbaric Oxygen Therapy (CPT 99183)

Hyperbaric oxygen therapy requires EPA- See the EPA section within these Billing Instructions. If the client does not meet the EPA criteria, PA is required.

Irrigation of Venous Access Pump

CPT code 96523 may be billed as a stand-alone procedure. However, if billed by the same provider/clinic on the same day as an office visit, you must use modifier 25 to report a separately identifiable medical service. If you do not use modifier 25, the Agency will deny the E&M code.

Needle Electromyography (EMGs)

The Agency has adopted Medicare-established limits for billing needle EMGs (CPT codes 95860 – 95870) as follows:

CPT Code	Brief Description	Limits
95860	Needle EMG; one extremity with or without related paraspinal areas	<ul style="list-style-type: none"> Extremity muscles innervated by three nerves or four spinal levels must be evaluated with a minimum of five muscles studied.
95861	two extremities...	
95863	three extremities...	
95864	four extremities...	
95865	Muscle test, larynx	<ul style="list-style-type: none"> Limited to one unit per day.
95866	Muscle test, hemidiaphragm	<ul style="list-style-type: none"> Limited to one unit per day.
95869	Needle EMG; thoracic paraspinal muscles	<ul style="list-style-type: none"> Limited to one unit per day. For this to pay with extremity codes 95860-95864, test must be for T3-T11 areas only; T1 or T2 alone are not separately payable.
95870	Needle EMG; other than thoracic paraspinal, cranial nerve supplied muscles, or sphincters	<ul style="list-style-type: none"> Limited to one unit per extremity, and one unit for cervical or lumbar paraspinal muscle, regardless of number of levels tested (maximum of 5 units). Not payable with extremity codes (CPT codes 95860-95864).

Nerve Conduction Study (NCS)

CPT Code	Brief Description	Limits
95900, 95903, and 95904	Nerve Conduction Study	Each nerve constitutes one unit of service

Osseointegrated Implants (BAHA) for Clients 20 Years of Age and Younger

Insertion or replacement of osseointegrated implants (BAHA) (CPT codes 69714-69718; HCPCS L8693) requires prior authorization (PA) (refer to Section I - Prior Authorization).

The procedure can be performed in an inpatient hospital setting or outpatient hospital setting.

The Agency covers replacement parts for BAHA through the Agency's Hearing Hardware for Clients 20 Years of Age and Younger Program *only*. The Agency pays only those vendors with a current core provider agreement that supply replacement parts for cochlear implants and BAHA.

Note: The Agency does not pay for new BAHA for clients 21 years of age and older. The Agency considers requests for removal or repair of previously implanted BAHA for clients 21 years of age and older when medically necessary. PA is required.

CPT Codes	Description	Notes
69710	Implantation or replacement of electromagnetic bone conduction hearing device in temporal bone	Replacement procedure includes removal of the old device
69711	Removal or repair of electromagnetic bone conduction hearing device in temporal bone	
69714	Implantation, osseointegrated implant, temporal bone, with percutaneous attachment to external speech processor/cochlear stimulator; without mastoidectomy	
69715	Implantation, osseointegrated implant, temporal bone, with percutaneous attachment to external speech processor/cochlear stimulator; with mastoidectomy	
69717	Replacement (including removal of existing device), osseointegrated implant, temporal bone, with percutaneous attachment to external speech processor/cochlear stimulator; without mastoidectomy	

Out-of-State Hospital Admissions (does not include border hospitals)

The Agency pays for emergency care at an out-of-state hospital, not including hospitals in bordering cities, only for Medicaid and SCHIP clients on an eligible program. See WAC 182-501-0175 for recognized bordering cities.

The Agency requires PA for elective, non-emergency care and only approves these services when:

- The client is on an eligible program (e.g., the Categorically Needy Program); and
- The service is medically necessary and is unavailable in the State of Washington.

Providers requesting elective, out-of-state care must send a completed Out-of-State Medical Services Request Form, 13-787, with additional required documentation attached, to the Agency Medical Request Coordinator (See *Important Contacts*).

Providers must obtain prior authorization from the appropriate MHD designee for **out-of-state psychiatric hospital admissions** for all Medicaid clients. Neither the Agency nor the MHD designee pays for inpatient services for non-Medicaid clients if those services are provided outside of State of Washington. An exception is clients who are qualified for the General Assistance – Unemployable (GAU) program. For these clients, the Agency and the MHD designee pays for inpatient psychiatric services provided in bordering cities and critical border hospitals. All claims for admissions to **out-of-state hospitals** are paid as **voluntary** legal status as the Involuntary Treatment Act applies only within the borders of Washington State.

Outpatient Cardiac Rehabilitation

The Agency covers outpatient cardiac rehabilitation in a hospital outpatient Agency for eligible clients who:

- Are referred by a physician;
- Have coronary artery disease (CAD);
- Do not have specific contraindications to exercise training; and
- Have:
 - ✓ A recent documented history of acute myocardial infarction (MI) within the preceding 12 months;
 - ✓ Had coronary angioplasty (coronary artery bypass grafting [CABG];
 - ✓ Percutaneous transluminal coronary angioplasty [PTCA]); and/or
 - ✓ Stable angina.

Bill physician services with procedure code 93798 or G0422 that includes continuous ECG monitoring (per session) with one of the following diagnosis codes:

410.00-410.92 (Acute myocardial infarction)

413.0-413.9 (Angina pectoris)

V45.81 (Aortocoronary bypass status)

V45.82 (Percutaneous transluminal coronary angioplasty status)

Note: Cardiac rehabilitation does not require PA, and it is only approved for the above diagnoses.

The Agency **does not** cover procedure code 93797 or G0423.

The outpatient cardiac rehab program hospital facility must have all of the following:

- A physician on the premise at all times, and each client is under a physician's care;
- Cardiopulmonary emergency equipment and therapeutic life-saving equipment available for immediate use;
- An area set aside for the program's exclusive use while it is in session;
- Personnel who are:
 - ✓ Trained to conduct the program safely and effectively;
 - ✓ Qualified in both basic and advanced life-support techniques and exercise therapy for coronary disease; and

Physician-Related Services/Health Care Professional Services

- ✓ Under the direct supervision of a physician;
- Non-physician personnel that are employees of the hospital;
- Stress testing:
 - ✓ To evaluate a patient's suitability to participate in the program;
 - ✓ To evaluate chest pain;
 - ✓ To develop exercise prescriptions; and
 - ✓ For pre and postoperative evaluation of coronary artery bypass clients;
- Psychological testing or counseling provided if a client:
 - ✓ Exhibits symptoms such as excessive fear or anxiety associated with cardiac disease; or
 - ✓ Has a diagnosed mental, psychoneurotic, or personality disorder; and
- Continuous cardiac monitoring during exercise or ECG rhythm strip used to evaluate a client's exercise prescription.

The Agency covers up to 24 sessions (usually 3 sessions a week for 4-6 weeks) of cardiac rehab exercise sessions (phase II) per event. The clients must have continuous ECG monitoring. The Agency covers continued participation in cardiac rehab exercise programs beyond 24 sessions only on a case-by case basis with preauthorization.

Physical, Occupational, and Speech Therapy

Physicians, Podiatrists, Advanced Registered Nurse Practitioners (ARNP), Physician Assistants Certified (PA-C), and Wound Care Center Specialty Physicians - Billing

The outpatient rehabilitation benefit limits **do not apply** to therapy services provided and billed by physicians, podiatrists, ARNPs, PA-Cs, and wound care center specialty physicians.

Physicians, Podiatrists, ARNPs, and PA-Cs, and wound care center specialty physicians must use the following modifier when billing for PT/OT/ST services:

Modality	Modifiers
PT/OT/ST	AF

Note:

For additional information, refer to the [Outpatient Rehabilitation Billing Instructions](#).

TB Treatment Services

The E&M codes 99201-99215 are for office visits only, and must be billed for professional providers such as physicians (or nursing staff under a physician's supervision), Advanced Registered Nurse Practitioners (ARNPs), and Physician Assistants (PAs).

When billing for TB treatment services provided by professional providers in the client's home, Health Department's may also bill CPT codes 99341 and 99347.

TB Treatment Services Performed by Non-Professional Providers

Health Departments billing for TB treatment services provided by **non-professional providers** in either the client's home or in the office must bill using HCPCS code T1020 (personal care services). Do not bill the initial visit with a modifier. Follow-up visits must be billed using T1020 with modifier TS (follow-up services modifier). Use one of the following ICD-9-CM diagnosis codes:

Diagnosis Code	Description
010.00 – 018.96	Tuberculosis infections
795.5	Nonspecific reaction to tuberculin skin test
V01.1	Tuberculosis
V71.2	Observation for suspected tuberculosis
V74.1	Pulmonary tuberculosis

Ultraviolet Phototherapy

The Agency does not cover ultraviolet phototherapy (CPT code 96910) when billed with ICD-9-CM diagnosis code 709.01 (vitiligo). The Agency considers this a cosmetic procedure.

Ventilator Management

E&M services are not allowed in combination with CPT codes 94002 - 94004, 94660, and 94662 for Ventilator Management on the same day, by the same provider/clinic. However, E&M services may be billed for on the same date of service using modifier 25 to indicate that a significant and separately identifiable service was provided. If modifier 25 is not used, the Agency will deny the E&M code.

Vagus Nerve Stimulation (VNS) [Refer to WAC 182-531-0200(h)]

Vagus nerve stimulation (CPT codes 61885, 61886, and 61888) requires prior authorization (refer to Section H - Prior Authorization).

VNS procedures can be performed in an inpatient hospital or outpatient hospital setting.

Prior authorization is not required for VNS programming (CPT codes 95970, 95974, and 95975) performed by a neurologist.

The Agency does not pay for VNS and related procedures for a diagnosis of Depression (CPT 64553-64565, 64590-64595, 95970, 95974, and 95975).

Von Willebrand- and Hemophilia-Related Products – For Administration in the Home Only

To be paid by the Agency for hemophilia- and von Willebrand-related products for administration to fee-for-service clients in the home, the products **must** be provided through an approved hemophilia Center of Excellence (COE). Center of Excellence is defined in WAC 182-531-0050.

Note: The Agency does not require the use of an approved hemophilia COE to obtain hemophilia- and von Willebrand-related products when:

- ✓ The Agency is not the primary payer;
- ✓ The client receives the product in an outpatient hospital or clinic setting for non-routine or urgent care needs; or
- ✓ The product is provided in a hemophilia treatment center (HTC) for non-routine pediatric care and other urgent care needs.

Physician-Related Services/Health Care Professional Services

A hemophilia COE uses a comprehensive care model to provide care for persons with bleeding disorders. The comprehensive care model includes specialized prevention, diagnostic, and treatment programs designed to provide family-centered education, state-of-the-art treatment, research, and support services for individuals and families living with bleeding disorders.

Qualified Centers of Excellence (COE) For Hemophilia Treatment are:
Puget Sound Blood Center – Seattle
Hemophilia Center at Oregon Health Science University (OHSU) – Portland

What criteria must be met to qualify as a COE for hemophilia treatment?

To qualify as a hemophilia COE, a hemophilia treatment center must meet all of the following:

- Have a Core Provider Agreement with the Agency;
- Be a federally approved HTC as defined in WAC 182-531-0050;
- Meet or exceed all [Medical and Scientific Advisory Council](#) (MASAC) standards of care and delivery of services.
- Participate in the public health service 340B provider drug discount program and be listed in the [Medicaid Exclusion Files](#) maintained by the federal Health Resources and Services Administration (HRSA) Office of Pharmacy Affairs (OPA);
- Submit a written request to the Agency to be a qualified hemophilia COE and include proof of the following:
 - ✓ U.S. Center for Disease Control (CDC) and prevention surveillance site identification number; and
 - ✓ Listing in the [Hemophilia Treatment Center \(HTC\) directory](#).
- Submit your request to:

Hemophilia COE
Health Care Authority – Health Care Services
PO Box 45506
Olympia WA 98504-5506

- Receive written approval including conditions of payment and billing procedures from the Agency.

Physician-Related Services/Health Care Professional Services

What documentation must be submitted to the Agency annually to continue as a qualified COE for hemophilia treatment?

The HTC must annually submit to the Agency:

- Copies of grant documents and reports submitted to the Maternal and Child Health Bureau/Human Resources and Services Administration/Department of Health and Human Services or to their designated subcontractors; and
- Proof of continued federal funding by the National Hemophilia Program and listing with the Regional Hemophilia Network and the CDC.

Are managed care clients required to receive their hemophilia- or von Willebrand-related products from a qualified COE?

Clients enrolled in a managed care plan must contact their plans for information.

Billing

- Bill for clotting factor, antihemophilic agents and von Willebrand-related products at 340B acquisition cost under the appropriate Healthcare Common Procedure Coding System (HCPCS) J code.
- Enter the number of J code units dispensed and the product's 11-digit NDC.
- Bill 340B dispensing fee code S9430 for each J code claim. The Agency's payment for this procedure code includes all related professional services and supplies.
- Provide invoices showing acquisition cost upon request.

Reproductive Health Services

How Does the Agency Define Reproductive Health Services? [WAC 182-532-001]

The Agency defines reproductive health services as those services that:

- Assist clients to avoid illness, disease, and disability related to reproductive health;
- Provide related and appropriate, medically-necessary care when needed; and
- Assist clients to make informed decisions about using medically safe and effective methods of family planning.

Provider Requirements [Refer to WAC 182-532-110]

To be paid by the Agency for reproductive health services provided to eligible clients, physicians, and advanced registered nurse practitioners (ARNPs), and licensed midwives must:

- Meet the requirements in [Chapter 182-502 WAC Administration of Medical Programs - Providers](#);
- Provide only those services that are within the scope of their licenses;
- Educate clients on Food and Drug Administration (FDA)-approved prescription birth control methods and over-the-counter (OTC) birth control supplies and related medical services;
- Provide medical services related to FDA-approved prescription birth control methods and OTC birth control supplies upon request; and
- Prescribe FDA-approved prescription birth control methods and OTC birth control supplies upon request.

Note: Providers who are unable to meet all of the requirements above must refer the client to an appropriate provider.

See the *Agency-Approved Family Planning Providers Billing Instructions* for more information on how to become an Agency-approved family planning provider and more information on the Family Planning Only program.

Who Is Eligible? [Refer to WAC 182-532-100(1)]

The Agency covers limited, medically necessary reproductive health services for clients who are on a Benefit Service Package (BSP) that covers reproductive health services.

Note: Refer to the *Scope of Coverage Chart* web page at: <http://hrsa.dshs.wa.gov/Download/ScopeofHealthcareSvcsTable.html> for an up-to-date listing of Benefit Service Packages.

Please see the *Agency ProviderOne Billing and Resource Guide* at http://hrsa.dshs.wa.gov/download/ProviderOne_Billing_and_Resource_Guide.html for instructions on how to verify a client's eligibility.

Note: Family Planning Only clients are **only** eligible to receive services that are related to the prevention of unintended pregnancy and for sterilizations. They are **not** eligible for other reproductive health services that include maternity care and abortion.

Limited Coverage:

- The Agency covers reproductive health services under Emergency Medical Only programs **only** when the services are directly related to an emergency medical condition.
- The Agency pays only Medicare premium copays, coinsurance, and deductibles for Qualified Medicare Beneficiary clients.

What Services Are Covered? [Refer to WAC 182-532-120]

Services for Women

- **A routine gynecological examination (G0101) (cervical, vaginal, and breast screening examination)**, is allowed once per year as medically necessary when billed with one of the following diagnosis codes:
 - ✓ V72.31 routine gynecological exam with pap cervical smear;
 - ✓ V76.47 routine vaginal pap smear; or
 - ✓ V76.2 cervical pap smear without general gynecological exam.

If it is necessary to see the client on the same day for a medical problem, you may bill using the appropriate E&M code (99201 – 99215) with a separately identifiable diagnosis using modifier 25. **Note:** The Agency will not pay for two E&M visits on the same day.

Note: All services provided to Family Planning Only clients must have a primary focus and diagnosis of family planning (the ICD-9-CM V25 series diagnosis codes, excluding V25.3).

Note: The Agency does not pay for preventive health exams for clients 21 years of age and older.

- **FDA-approved prescription contraception method**
(see the *Agency Prescription Drug Program Billing Instructions*);
- **OTC contraceptives, drugs, and supplies**
(see the *Agency Prescription Drug Program Billing Instructions*);
- **Maternity-related services;**
- **Abortions;**
- **Sterilization procedures when:**
 - ✓ Requested by the client; and
 - ✓ Performed in an appropriate setting for the procedure.

Note: The surgeon's initial office visit for sterilization is covered when billed with ICD-9-CM diagnosis code V25.2. The federally mandated sterilization consent form must be filled out at least 30 days prior to the surgery.

Services for Women (continued)

- **Screening and treatment for STD-I**, including laboratory tests and procedures;

Note: For HIV testing use CPT® 86703. **The Agency does not cover HIV testing and counseling for Family Planning Only clients.**

- **Education** for FDA-approved contraceptives, natural family planning, and abstinence;
- **Screening mammograms (CPT 77057)** for clients 40 years of age and older, once per calendar year. Clients 39 years of age and younger require prior authorization (see section I).
- **Colposcopy** and related medically necessary follow-up services.
- **Emergency contraception (e.g., Plan B®)** – Providers may bill for emergency contraception medication under HCPCS J3490 with modifier FP. Please refer to the Agency [Approved Family Planning Providers Billing Instructions](#) for details.
- **Implanon (HCPCS code J7307)**

The Agency pays for the contraceptive implant system, Implanon.

To bill for Implanon, providers must:

- ✓ Bill with ICD-9 Diagnosis V25.5;
- ✓ Use CPT procedure code 11981 with ICD-9 diagnosis code V25.5 for the insertion of the device;
- ✓ Use CPT procedure code 11982 with ICD-9 diagnosis code V25.43 for the removal of the device;
- ✓ Use CPT procedure code 11983 with ICD-9 diagnosis code V25.43 to remove the device with reinsertion on the same day; and
- ✓ Enter the NDC in Box 19 on the CMS-1500 Claim Form or in the comments field on an electronic claim and send in an invoice with your billing.

Note: The Agency pays for Implanon only once every three years, per client.

Services for Men

The Agency covers the following reproductive health services for men:

- **Office visits** where the primary focus and diagnosis is contraceptive management (including vasectomy counseling) and/or where there is a medical concern;
- **OTC contraceptives, drugs, and supplies** (as described in the current Agency *Prescription Drug Program Billing Instructions*);
- **Sterilization procedures when:**
 - ✓ Requested by the client; and
 - ✓ Performed in an appropriate setting for the procedure.

Note: The physician's initial office visit for sterilization is covered when billed with ICD-9-CM diagnosis code V25.2. The federally mandated sterilization consent form must be filled out at least 30 days prior to the surgery.

- **Screening and treatment for STD-I**, including laboratory tests and procedures;

Note: For HIV testing use CPT 86703.

- **Education** for FDA-approved contraceptives, natural family planning, and abstinence; and
- **Prostate cancer screening** for men when ordered by a physician, physician assistant, or ARNP. See the *Billing and Claim Forms* section specifics.

Note: The Agency does not pay for preventive health exams for clients 21 years of age and older.

Physician Services Provided to Clients on the Family Planning Only Program

What Is the Purpose of the Family Planning Only Program? [Refer to WAC 182-532-500]

The purpose of the Family Planning Only program is to provide family planning services at the end of a pregnancy to women who received medical assistance benefits during their pregnancy.

The primary goal of the Family Planning Only program is to prevent an unintended subsequent pregnancy. Women receive this benefit automatically regardless of how or when the pregnancy ends. This 10-month benefit follows the 60-day post pregnancy coverage by the Agency. **Men are not eligible for the Family Planning Only program.**

When the pregnant woman applies for medical assistance, the Community Services Office (CSO) worker identifies the woman's expected date of delivery. At the end of the 60-day postpartum period, the woman automatically receives an informational flyer and a Services Card. If her pregnancy ends for any reason other than delivery, she **must** notify the CSO to receive the Services Card.

Provider Requirements [Refer to WAC 182-532-520]

To be paid by the Agency for services provided to clients eligible for the Family Planning Only program, physicians and advanced registered nurse practitioners (ARNPs) must:

- Meet the requirements in Chapter 182-502 WAC, *Administration of Medical Programs - Provider* rules;
- Provide only those services that are within the scope of their licenses;
- Educate clients on Food and Drug Administration (FDA)-approved prescription birth control methods and over-the-counter (OTC) birth control supplies and related medical services;
- Provide medical services related to FDA-approved prescription birth control methods and OTC birth control supplies upon request; and
- Prescribe FDA-approved prescription birth control methods and OTC birth control supplies upon request.

Physician-Related Services/Health Care Professional Services

Note: Providers who are unable to meet all of the provider requirements must refer the client to an appropriate provider.

Who Is Eligible? [WAC 182-532-510]

A woman is eligible for Family Planning Only services if:

- She received medical assistance benefits during her pregnancy; or
- She is determined eligible for a retroactive period (see the *Definitions & Abbreviations* section) covering the end of the pregnancy.

What Services Are Covered? [Refer to WAC 182-532-530]

Note: All services provided to Family Planning Only clients must have a primary focus and diagnosis of family planning (the ICD-9-CM V25 series, excluding V25.3).

The Agency covers the following services under the Family Planning Only program:

- **Cervical, vaginal, and breast cancer screening examination**, once per year as medically necessary. The examination must be:
 - ✓ Provided according to the current standard of care; and
 - ✓ Conducted at the time of an office visit with a primary focus and diagnosis of family planning (ICD-9-CM V25 series diagnosis codes, excluding v25.3).
- **FDA-approved prescription contraception methods**
(see the *Agency Prescription Drug Program Billing Instructions* for requirements)
- **OTC contraceptives, drugs, and supplies**
(see the *Agency Prescription Drug Program Billing Instructions*)
- **Sterilization** procedures that meet the requirements of the *Agency Physician-Related Services Billing Instructions*, if it is:
 - ✓ Requested by the client; and
 - ✓ Performed in an appropriate setting for the procedure.

Note: The surgeon's initial office visit for sterilization is covered when billed with ICD-9-CM diagnosis code V25.2. The federally mandated sterilization consent form must be filled out at least 30 days prior to the surgery.

Physician-Related Services/Health Care Professional Services

- **Screening and treatment for STD-I**, including laboratory tests and procedures only when the screening and treatment is:
 - ✓ Performed in conjunction with an office visit that has a primary focus and diagnosis of family planning (ICD-9-CM V25 series diagnosis codes, excluding v25.3); and
 - ✓ Medically necessary for the client to safely, effectively, and successfully use, or continue to use, her chosen contraceptive method.
- **Education** for FDA-approved contraceptives, natural family planning, and abstinence.
- **Implanon (CPT code J7307)**

The Agency pays for the contraceptive implant system, Implanon.

To bill for Implanon, providers must:

- ✓ Bill with ICD-9 Diagnosis V25.5;
- ✓ Use CPT procedure code 11981 with ICD-9 diagnosis code V25.5 for the insertion of the device;
- ✓ Use CPT procedure code 11982 with ICD-9 diagnosis code V25.43 for the removal of the device;
- ✓ Use CPT procedure code 11983 with ICD-9 diagnosis code V25.43 to remove the device with reinsertion on the same day; and
- ✓ Enter the NDC in Box 19 on the CMS-1500 Claim Form or in the comments field on an electronic claim and send in an invoice with your billing.

Note: The Agency pays for Implanon only once every three years, per client.

What Drugs and Supplies are Paid Under the Family Planning Only Program?

The Agency pays for the following family planning-related drugs and contraceptives prescribed by a physician:

Absorbable Sulfonamides	Nitrofurantoin Derivatives
Anaerobic antiprotozoal – antibacterial agents	Oral contraceptives
Antibiotics, misc. other	Quinolones
Antifungal Agents	Tetracyclines
Antifungal Antibiotics	Vaginal Antibiotics
Cephalosporins – 1st generation	Vaginal antifungals
Cephalosporins – 2nd generation	Vaginal lubricant preparations
Cephalosporins – 3rd generation	Vaginal Sulfonamides
Condoms	
Contraceptives, injectables	
Contraceptives, intravaginal	
Contraceptives, intravaginal, systemic	
Contraceptives, transdermal	
Diaphragms/cervical caps	
Intrauterine devices	
Macrolides	

Drugs for Sterilizations

Antianxiety Medication – Before Sterilization Procedure

- Diazepam
- Alprazolam

Pain Medication – After Sterilization Procedure

- Acetaminophen with Codeine #3
- Hydrocodone Bit/ Acetaminophen
- Oxycodone HCl/Acetaminophen 5/500
- Oxycodone HCl/ Acetaminophen

Over-the-counter, non-prescribed contraceptive supplies (e.g., condoms, spermicidal foam, cream, gel, sponge, etc.,) may also be obtained with a Medical ID Card in a 30-day supply through a pharmacy.

Contraceptive hormone prescriptions must be written for three or more months, with a maximum of 12 months, unless there is a clinical reason to write the prescription for less than three months.

Note: All services provided to Family Planning Only clients **must** have a primary focus and diagnosis of family planning (the ICD-9-CM V25 series diagnosis codes, excluding V25.3).

What Services Are *Not* Covered? [WAC 182-532-540]

Medical services are not covered under the Family Planning Only program unless those services are:

- Performed in relation to a primary focus and diagnosis of family planning (ICD-9-CM V25 series diagnosis codes, excluding V25.3); and
- Medically necessary for the client to safely, effectively, and successfully use, or continue to use, their chosen contraceptive method.

Abortions are **not** covered under the Family Planning Only program.

Note: If the client is only covered by the Family Planning Only program but she is pregnant, please refer the client to her local Community Services Office (CSO) to be evaluated for a possible change in her medical assistance program that would enable her to receive full scope of care.

Physician-Related Services/Health Care Professional Services

Inpatient Services: The Agency does not pay for inpatient services under the Family Planning Only program. However, inpatient costs may be incurred as a result of complications arising from covered family planning services. If this happens, providers of inpatient services must submit a complete report to the Agency of the circumstances and conditions that caused the need for the inpatient services in order for the Agency to consider payment under WAC 182-501-0160.

A complete report includes:

- A copy of the billing (UB-04 Claim Form, CMS-1500 Claim Form);
- Letter of explanation;
- Discharge summary; and
- Operative report (if applicable).

Fax the complete report to the Agency. See the *Important Contacts* section.

Payment [Refer to WAC 182-532-550, WAC 182-530-1425, and WAC 530-1700(4)]

Fee Schedule: The Agency limits payment under the Family Planning Only program to visits and services that:

- Have a primary focus and diagnosis of family planning as determined by a qualified, licensed medical practitioner (ICD-9-CM V25 series diagnosis codes, excluding V25.3); and
- Are medically necessary for the client to safely, effectively, and successfully use, or continue to use, their chosen contraceptive method.

Maternity Care and Delivery

Prenatal Assessments Are Not Covered

The Agency does not cover prenatal assessments. If a client is seen for reasons other than routine antepartum or postpartum care, providers must bill using the appropriate Evaluation and Management (E&M) procedure code with a medical diagnosis code. E&M codes billed with ICD-9-CM diagnosis codes V22.0-V22.2 will be denied.

Exception: Providers must bill E&M codes for antepartum care if *only* 1-3 antepartum visits are done, as discussed later in these billing instructions.

Confirmation of Pregnancy

If a client presents with signs or symptoms of pregnancy and the purpose of the client's visit is to confirm the pregnancy, bill this visit using the appropriate level E&M code, if the obstetrical (OB) record is not initiated. If the OB record is initiated at this visit, then the visit is considered part of the global OB package and must not be billed separately.

If some other source has confirmed the pregnancy and the provider wants to do his/her own confirmation, bill this visit using the appropriate level E&M code if the OB record is not initiated. If the OB record is initiated at this visit, the visit is considered part of the global OB package and must not be billed separately.

If the purpose of the client's visit is to confirm the pregnancy and the OB record is not initiated, bill using the diagnosis code(s) for the signs and/or symptoms the client is having [e.g. suppressed menstruation (ICD-9-CM diagnosis code 626.8)]. Do not bill using the pregnancy diagnosis codes (e.g. V22.0-V22.2) unless the OB record is initiated at this visit. If the OB record is initiated at this visit, the visit is considered part of the global package.

Global (Total) Obstetrical (OB) Care

Global OB care (CPT codes 59400, 59510, 59610, or 59618) includes all the following:

- Routine antepartum care in any trimester;
- Delivery; and
- Postpartum care.

If the provider furnishes all of the client's antepartum care, perform the delivery, and provide the postpartum care, the provider **must bill** using one of the global OB procedure codes.

Use HCPCS code 0500F along with the appropriate billing code on the first prenatal visit. The Agency is tracking the date a client begins receiving obstetrical care (date the OB record is initiated). Please note this date by entering HCPCS code 0500F with ICD-9-CM diagnosis codes V22.0-V22.2 on the claim.

Note: When billing global Obstetrical Services, the place of service code must correspond with the place where the child was born (for example: 25).

When more than one provider in the same clinic (same group NPI) sees the same client for global maternity care, the Agency pays only one provider for the global (total) obstetrical care.

Providers who are in the same clinic who **do not** have the same group NPI **must not** bill the Agency the global (total) obstetrical care procedure codes. In this case, the OB services must be “unbundle” and the antepartum, delivery, or postpartum care must be billed separately.

Note: Do not bill the Agency for maternity services until all care is completed.

Unbundling Obstetrical Care

In the situations described below, providers may not be able to bill the Agency for global OB care. In these cases, it may be necessary to “unbundle” the OB services and bill the antepartum, delivery, and postpartum care separately, as the Agency may have paid another provider for some of the client's OB care, or a provider may have been paid by another insurance carrier for some of the client's OB care.

When a client transfers to a practice late in the pregnancy...

- If the client has had antepartum care elsewhere, the subsequent provider must not bill the global OB package. Bill the antepartum care, delivery, and postpartum care separately. The provider that had been providing the antepartum care bills for the services that he/she performed. Therefore, if the subsequent provider bills the global OB package, that provider is billing for some antepartum care that another provider has claimed.

- OR -

Physician-Related Services/Health Care Professional Services

- If the client did not receive any antepartum care prior to coming to the provider's office, bill the global OB package.

In this case, the provider may actually perform all of the components of the global OB package in a short time. The Agency does not require this provider to perform a specific number of antepartum visits in order to bill for the global OB package.

If a client moves to another provider (not associated with the providers practice), moves out of the area prior to delivery, or loses the pregnancy...

When another physician has seen the client for part of the antepartum care and has transferred the client to you for care, and you are billing separately for the antepartum care you are delivering, enter "transfer of care" in the comments field on the 837P claim, the claim notes field of the DDE, or field 19 on the CMS-1500 paper claim.

Bill only those services you actually provided to these clients.

If a client changes insurance during her pregnancy...

Often, a client is fee-for-service at the beginning of her pregnancy and enrolled in an Agency managed care organization for the remainder of her pregnancy. The Agency is responsible for paying only those services provided to the client while she is on fee-for-service. The managed care organization pays for services provided after the client is enrolled with the plan.

The Agency encourages early prenatal care and is actively enrolling new clients into the Healthy Options program. If a client is on fee-for-service and is enrolling in a Healthy Options plan at the beginning of her pregnancy, consider billing the first visit as a secondary confirmation of pregnancy using ICD-9-CM diagnosis code 626.8 with the appropriate level of office visit as described under the "Confirmation of Pregnancy" section.

When a client changes from one plan to another, bill those services that were provided while she was enrolled with the original plan to the original carrier, and those services that were provided under the new coverage to the new plan. The provider must unbundle the services and bill the antepartum, delivery, and postpartum care separately.

Antepartum Care

Per CPT guidelines, the Agency considers routine antepartum care for a normal, uncomplicated pregnancy to consist of:

- Monthly visits up to 28 weeks gestation;
- Biweekly visits to 36 weeks gestation; and
- Weekly visits until delivery.

Antepartum care includes:

- Initial and subsequent history;
- Physical examination;
- Recording of weight and blood pressure;
- Recording of fetal heart tones;
- Routine chemical urinalysis; and
- Maternity counseling, such as risk factor assessment and referrals.

Necessary prenatal laboratory tests may be billed in addition to antepartum care, **except for dipstick tests** (CPT codes 81000, 81002, 81003, and 81007).

Coding for Antepartum Care Only

If it is necessary to unbundle the OB package and bill separately for antepartum care, bill as follows:

- If the client had a **total** of one to three antepartum visits, bill the appropriate level of **E&M service with modifier TH** for each visit, with the date of service the visit occurred and the appropriate diagnosis.

Modifier TH: Obstetrical treatment/service, prenatal or postpartum

- If the client had a **total** of four to six antepartum visits, bill using **CPT code 59425** with a "1" in the units box. Bill the Agency using the date of the last antepartum visit in the "to and from" fields.
- If the client had a **total** of seven or more visits, bill using **CPT code 59426** with a "1" in the units box. Bill the Agency using the date of the last antepartum visit in the "to and from" fields.

Do not bill antepartum care only codes in addition to any other procedure codes that include antepartum care (i.e. global OB codes).

Physician-Related Services/Health Care Professional Services

When billing for antepartum care, **do not bill** using CPT E&M codes for the first three visits, then CPT code 59425 for visits four through six, and then CPT code 59426 for visits seven and on. These CPT codes are used to bill only the **total** number of times you saw the client for all antepartum care during her pregnancy, and **may not** be billed in combination with each other during the entire pregnancy period.

Note: Do not bill the Agency until all antepartum services are complete. Hospital care for pregnant women can be billed concurrently.

Coding for Deliveries

If it is necessary to unbundle the OB package and bill for the delivery only, you must bill the Agency using one of the following CPT codes:

- 59409 (vaginal delivery only);
- 59514 (cesarean delivery only);
- 59612 [vaginal delivery only, after previous cesarean delivery (VBAC)]; or
- 59620 [cesarean delivery only, after attempted vaginal delivery after previous cesarean delivery (attempted VBAC)].

If a provider does not furnish antepartum care, but performs the delivery and provides postpartum care, bill the Agency one of the following CPT codes:

- 59410 (vaginal delivery, including postpartum care);
- 59515 (cesarean delivery, including postpartum care);
- 59614 (VBAC, including postpartum care); or
- 59622 (attempted VBAC, including postpartum care).

Coding for Postpartum Care Only

If it is necessary to unbundle the OB package and bill for postpartum care only, you must bill the Agency using CPT code 59430 (postpartum care only).

If a provider furnishes all of the antepartum and postpartum care, but does not perform the delivery, bill the Agency for the antepartum care using the antepartum care only codes, along with CPT code 59430 (postpartum care only).

Do not bill CPT code 59430 (postpartum care only) in addition to any procedure codes that include postpartum care.

Postpartum care includes office visits for the six week period after the delivery and includes family planning counseling and contraceptive management.

Additional Monitoring for High-Risk Conditions

When providing **additional monitoring** for high-risk conditions in excess of the CPT guidelines for normal antepartum visits, bill using E&M codes **99211-99215 with modifier UA**. The office visits may be billed in addition to the global fee **only after** exceeding the CPT guidelines for normal antepartum care. Providers must bill with a primary diagnosis that identifies that the high risk condition is pregnancy related; i.e. 640 – 674.9 or V23.0 – V23.9.

A condition that is classifiable as high-risk **alone** does not entitle the provider to additional payment. Per CPT guidelines, it must be medically necessary to see the client **more often** than what is considered routine antepartum care in order to qualify for additional payments. ***The additional payments are intended to cover additional costs incurred by the provider as a result of more frequent visits. For example:***

Client A is scheduled to see her provider for her antepartum visits on January 4, February 5, March 3, and April 7. The client attends her January and February visits, as scheduled. However, during her scheduled February visit, the provider discovers the client's blood pressure is slightly high and wants her to come in on February 12 to be checked again. At the February 12 visit, the provider discovers her blood pressure is still slightly high and asks to see her again on February 18. The February 12 and February 18 visits are outside of her regularly scheduled antepartum visits and outside of the CPT guidelines for routine antepartum care since she is being seen more often than once per month. The February 12 and February 18 visits may be billed separately from the global antepartum visits using the appropriate E&M codes with modifier UA, and the diagnosis must represent the medical necessity for billing additional visits. **A normal pregnancy diagnosis (i.e. V22.0 – V22.2) will be denied outside of the global antepartum care. It is not necessary to wait until all services included in the routine antepartum care are performed to bill the extra visits, as long as the extra visits are outside of the regularly scheduled visits.**

Labor Management

Providers may bill for labor management **only** when another provider (outside of the first provider's group practice) performs the delivery. If a provider performed all of the client's antepartum care, admitted the client to the hospital during labor, delivered the baby, and performed the postpartum care, **do not** bill the Agency for the hospital admission or for labor management. These services are included in the global OB package.

If, however, a provider performed all of the client's antepartum care and admitted the client to the hospital during labor, but another provider (outside of the first provider's group practice) takes over delivery, the global OB package must be unbundled and the providers must bill separately for antepartum care, the hospital admission, and the time spent managing the client's labor. The client must be in active labor and admitted to a hospital when the referral to the delivering provider is made.

Physician-Related Services/Health Care Professional Services

To bill for labor management in the situation described above, bill the Agency for one of the hospital admission CPT codes **99221-99223 with modifier TH**.

In addition to the hospital admission, the Agency pays providers for **up to three hours** of labor management using prolonged services CPT codes **99356-99357 with modifier TH**.

Payment for prolonged services is *limited to three hours per client, per pregnancy*, regardless of the number of calendar days a client is in labor, or the number of providers who provide labor management.

Labor management may not be billed by the delivering provider, or by any provider within the delivering provider's group practice.

Note:

1. The hospital admission code and the prolonged services code(s) **must** be billed on the same claim form.
2. The Agency pays for labor management only when the provider performs the above services on the same day.

High-Risk Deliveries

Delivery includes management of uncomplicated labor and vaginal delivery (with or without episiotomy, with or without forceps) or cesarean section. If a complication occurs during delivery resulting in an unusually complicated, high-risk delivery, the Agency pays providers an additional add-on fee. Bill the high-risk add-on fee by **adding modifier TG to the delivery code** (e.g. 59400 TG or 59409 TG).

Modifier TG: Complex/high level of care

The ICD-9-CM diagnosis code ***must clearly*** demonstrate the medical necessity for the high-risk delivery add-on (e.g. a diagnosis of fetal distress). A normal delivery diagnosis is not paid an additional high-risk add-on fee, even if the mother had a high-risk condition during the antepartum period.

Bill only ONE line of service (e.g. 59400 TG) to receive payment for BOTH the delivery and the high-risk add-on. DO NOT bill the delivery code (e.g. 59400) on one line of the claim form and the high-risk add-on (e.g. 59400 TG) on a second line of the claim form.

A physician who provides stand-by attendance for high-risk delivery can bill CPT code 99360 and resuscitation CPT code 99465, when appropriate.

Physician-Related Services/Health Care Professional Services

Note: The Agency **does not** pay an assistant surgeon, RNFA, or co-surgeon for a high-risk delivery add-on. Payment is limited to one per client, per pregnancy (even in the case of multiple births).

Consultations

If another provider refers a client during her pregnancy for a consultation, bill the Agency using consultation CPT codes 99241-99245. If an inpatient consultation is necessary, bill using CPT codes 99251 – 99255 or for a follow-up bill using CPT codes 99231-99233. The referring physician's name and NPI must be listed in the "Referring Physician" field on the claim form.

If the consultation results in the decision to perform surgery (i.e. a cesarean section), the Agency pays the consulting physician for the consultation as follows:

- If the consulting physician does not perform the cesarean section, bill the Agency the appropriate consultation code.
- If the consulting physician performs the cesarean section and does the consultation **two or more days prior to the date of surgery**, bill the Agency the appropriate **consultation code with modifier 57** (e.g. 99241-57).

The Agency does not pay the consulting physician if the following applies:

- If the consulting physician performs the cesarean section and does the consultation **the day before or the day of the cesarean section**, the consultation is bundled within payment for the surgery. **Do not bill** the Agency for the consultation in this situation.

Bill consultations with an appropriate ICD-9-CM medical diagnosis code. You must demonstrate the medical necessity (i.e. sign, symptom, or condition). The Agency does not pay providers for a consultation with a normal pregnancy diagnosis code (e.g. V22.0-V22.2).

The Agency pays consulting OB/GYN providers for an external cephalic version (CPT code 59412) and a consultation when performed on the same day.

General Obstetrical Payment Policies and Limitations

- The Agency pays a multiple vaginal delivery (for twins, triplets, etc.) at 100% for the first baby. When billing for the second or third baby, you must bill using the delivery-only code (CPT code 59409 or 59612) for each additional baby. Payment for each additional baby will be 50% of the delivery-only code's maximum allowance. Bill each baby's delivery on a separate line. Identify on the claim form as "twin A" or "twin B," etc.

Physician-Related Services/Health Care Professional Services

- The Agency pays for multiple births by cesarean delivery at 100% for the first baby. No additional payment will be made for additional babies.
- Physician assistants-certified (PA-C; PA) must bill for assisting during a C-section on their own claim form using modifier 80, 81, or 82 to the delivery-only code (e.g. 59514-80). The claim must be billed using the PA-C's NPI.
- RNFAs assisting at C-sections may **only** bill using CPT code 59514 or 59620 with modifier 80.
- To bill for anesthesia during delivery, see the Anesthesia section in Section F of these billing instructions.
- For deliveries in a birthing center, refer to the current Agency *Births in Birthing Centers Billing Instructions*. For deliveries in a home birth setting, refer to the current Agency *Planned Home Births Billing Instructions*.

Note: Maternity Support Services/Infant Case Management (MSS/ICM) is a program designed to help pregnant women and their newborns gain access to medical, social, educational and other services. This program provides a variety of services for both the woman and/or her child in the home or clinic throughout pregnancy and up to 60 days after delivery. For information on MSS/ICM, refer to the Agency *Maternity Support Services/Infant Case Management Billing Instructions*.

HIV/AIDS Counseling/Testing

The Agency covers one pre- and one post-HIV/AIDS counseling/testing session (CPT Code 99401) per client each time the client is tested for HIV/AIDS. [**Refer to WAC 182-531-0600**]

Use ICD-9-CM diagnosis code V65.44 when billing CPT code 99401 for HIV/AIDS counseling. The Agency does not pay for counseling visits when billed with an E&M service on the same day.

Exceptions:

- 1) The client is being seen for a medical problem and modifier 25 is billed; or
- 2) The client is being seen for an antepartum visit and modifier TH is used.

The Agency does not pay for a counseling visit if the client is being seen only to confirm pregnancy and an office visit is billed, because the counseling is considered part of the office visit.

The Agency covers HIV testing (86701-86703) for pregnant women when billed with the following diagnosis codes: V22.0, V22.1, V22.2, or V28.89.

Physician-Related Services/Health Care Professional Services

For your convenience, a table summarizing “Billing the Agency for Maternity Services” is included on the following pages.

**Billing the Agency for Maternity Services
In a Hospital Setting**

Global (Total) Obstetrical (OB) Care

Service	Procedure Code/Modifier	Summary of Description	Limitations
Confirmation of pregnancy	99201-99215	Office visits	Code the sign or symptom (e.g. suppressed menstruation)
Global OB care	59400	Total OB care, vaginal delivery	Includes all antepartum, delivery, and postpartum care; bill after all services are complete; limited to one per client, per pregnancy; additional vaginal deliveries for multiple bills must be billed with the appropriate delivery-only code.
	59510	Total OB care, c-section	
	59610	Total OB care, VBAC	
	59618	Total OB care, attempted VBAC	

Antepartum Care Only

Service	Procedure Code/Modifier	Summary of Description	Limitations
Antepartum care (bill <i>only one</i> of these codes to represent the total number of times you saw the client for antepartum care)	99201-99215 TH	Offices visits, antepartum care 1-3 visits only, with OB service modifier	Limited to 3 units when used for routine antepartum care. Modifier TH must be billed.
	59425	Antepartum care, 4-6 visits	Limited to one unit per client, per pregnancy, per provider
	59426	Antepartum care, 7+ visits	Limited to one unit per client, per pregnancy, per provider.

Deliveries

Service	Procedure Code/Modifier	Summary of Description	Limitations
Delivery only	59409	Vaginal delivery only	Must not be billed with any other codes that include deliveries; assist at c-section must be billed with delivery-only code with modifier 80.
	59514	C-Section delivery only	
	59612	VBAC delivery only	
	59620	Attempted VBAC delivery only	
Delivery with postpartum care	59410	Vaginal delivery including postpartum care	Must not be billed with any other codes that include deliveries; must not be billed with postpartum only code; limited to one per client, per pregnancy; additional vaginal deliveries for multiple births must be billed using the appropriate delivery-only code.
	59515	C-Section delivery with postpartum care	
	59614	VBAC including postpartum care	
	59622	Attempted VBAC including postpartum care	

**Billing the Agency for Maternity Services
In a Hospital Setting**

Postpartum Care Only

Service	Procedure Code/Modifier	Summary of Description	Limitations
Postpartum care only	59430	Postpartum care only	Must not be billed with any other codes that include postpartum care; limited to one per client, per pregnancy.

Additional Monitoring for High-Risk Conditions

Service	Procedure Code/Modifier	Summary of Description	Limitations
Additional visits for antepartum care due to high-risk conditions	99211-99215 UA	Office visits with OB service modifier	Must not be billed with a normal pregnancy diagnosis (V22.0-V22.2); diagnosis must detail need for additional visits; must be billed with modifier UA.

Labor Management

Service	Procedure Code/Modifier	Summary of Description	Limitations
Labor management (may only be billed when another provider takes over and delivers the infant)	99221-99223 TH	Hospital admit services with OB services modifier	Prolonged services are limited to 3 hours per client, per pregnancy; must be billed with modifier TH; must not be billed by delivering provider.
	+99356 Limited to 1 unit	Prolonged services, inpatient setting, 1 st hour	
	+99357 Limited to 4 units	Prolonged services, inpatient setting, each add'l 30 minutes	

High-Risk Deliveries

Service	Procedure Code/Modifier	Summary of Description	Limitations
High-risk delivery <i>[Not covered for assistant surgeons, co-surgeons, or RNFA]</i>	Add modifier TG to the delivery code (e.g. 59400 TG)	Complex/high level of care	Diagnosis must demonstrate medical necessity; not paid with normal delivery diagnosis; limited to one per client, per pregnancy. Bill only ONE line of service (e.g. 59400 TG) for BOTH the delivery and high-risk add-on.

Sterilization and Hysteroscopic Sterilization

You may view information on sterilization and the current sterilization form samples and instructions on the Agency website at: <http://hrsa.dshs.wa.gov/download/sterilization.pdf>.

Hysterectomies [Refer to WAC 182-531-1550(10)]

Prior authorization for hysterectomies is required regardless of the client's age. Some hysterectomy procedures will require a medical necessity review by the Agency to establish medical necessity. However, the Agency will use **Expedited Prior Authorization (EPA)** criteria, instead of a medical necessity review, for the following clinical situations:

- Cancer; or
- Trauma.

For more information, including the EPA numbers and specific criteria, refer to the Expedited Prior Authorization (EPA) section within these billing instructions.

- Hysterectomies are paid only for medical reasons *unrelated* to sterilization.
- Federal regulations prohibit payment for hysterectomy procedures until a properly completed consent form is received. To comply with this requirement, surgeons, anesthesiologists, and assistant surgeons must obtain a copy of a completed Agency-approved consent form to attach to their claim.
- **ALL** hysterectomy procedures require a properly completed Agency-approved consent form, regardless of the client's age or the ICD-9-CM diagnosis.
- Submit the claim and completed Agency-approved consent form (see *Important Contacts* section).

Download the Hysterectomy Consent Form, 13-365, at:

<http://hrsa.dshs.wa.gov/mpforms.shtml>

Abortion Services (Drug Induced)

- Methotrexate and misoprostol are two drugs approved by the Food and Drug Administration (FDA) for use in inducing abortions.
 - ✓ J9260 Methotrexate sodium, 50 mg
 - ✓ S0191 Misoprostol, oral, 200 mcg

Physician-Related Services/Health Care Professional Services

- When these drugs are used for abortion services, providers must bill using the appropriate ICD-9-CM abortion diagnosis code. Other medical services (laboratory, history/physical, ultrasound, etc.) performed at the time of the drug administration must be billed on the same claim as the abortion drugs.
- Rho(D) immune globulin must be billed using the appropriate HCPCS codes.
- Clients enrolled in an Agency managed care organization may self refer outside their plan for abortions.

RU-486 Abortion Drug

The Agency pays for RU-486 for medically induced abortions provided through physicians' offices using the codes in the following table. Office visits, laboratory tests, and diagnostic tests performed for the purpose of confirming pregnancy, gestational age, and successful termination must be billed on the same claim form as the abortion drugs.

Bill HCPCS Code	Description
S0190	Mifepristone, oral, 200 mg
S0191	Misoprostol, oral, 200 mcg

Abortion centers (non hospital-based) must be approved by the Agency to be able to bill for facility fee payments. To become an abortion center provider, fax a request to the program manager at 1-360-586-1471.

Abortion Center Contracts (Facility Fees)

For providers who currently have an abortion center contract with the Agency, facility fees are payable only for surgical abortions. Do not bill facility fee charges for drug-induced abortions not requiring surgical intervention. The Agency pays the contractor facility fees for surgical abortion services once per abortion, per eligible client. Clients on the Family Planning Only program are not eligible for abortions. Please refer them to their local Community Service Office to request a change in their eligibility since they are pregnant. Clients enrolled in an Agency managed care organization can self-refer for abortions.

Contracted facility fee payment includes all room charges, equipment, supplies, and drugs (including anti-anxiety, antibiotics, and pain medications, but excluding Rho(D) immune globulins). **Payment is limited to one special agreement facility fee per client, per abortion.** The facility fee is not payable per visit, even though a particular procedure or case may take several days or visits to complete. The facility fee does not include professional services, lab charges, or ultrasound and other x-rays, which can be billed separately.

Prior Authorization

[Refer to WAC 182-531-0200]

What Is Prior Authorization (PA)?

The prior authorization (PA) process applies to covered services and is subject to client eligibility and program limitations. Bariatric surgery is an example of a covered service that requires PA. PA does not guarantee payment. The Agency reviews requests for payment for noncovered health care services according to WAC 182-501-0160 as an Exception to Rule. For Community Inpatient Psychiatric Inpatient authorization, see Section F of the Agency [Inpatient Hospital Billing Instructions](#).

The Agency's PA requirements are met through the following authorization processes:

- Limitation extensions (LE);
- Written/fax; and
- Expedited prior authorization (EPA).

Note: In addition to receiving PA, the client must be on an eligible program. For example, a client on the Family Planning Only program would not be eligible for bariatric surgery.

For examples on how to complete a prior authorization, please go to:
<http://hrsa.dshs.wa.gov/authorization/>.

How Does the Agency Determine PA?

The Agency reviews PA requests in accordance with WAC 182-501-0165. The Agency utilizes evidence-based medicine to evaluate each request. The Agency considers and evaluates all available clinical information and credible evidence relevant to the client's condition. At the time of the request, the provider responsible for the client's diagnosis and/or treatment must submit credible evidence specifically related to the client's condition. Within 15 days of receiving the request from the client's provider, the Agency reviews all evidence submitted and will do one of the following:

- Approve the request;
- Deny the request if the requested service is not medically necessary; or

Physician-Related Services/Health Care Professional Services

- Request the provider to submit additional justifying information within 30 days. When the additional information is received, the Agency will approve or deny the request within 5 business days of the receipt of the additional information. If the additional information is not received within 30 days, the Agency will deny the requested service.

When the Agency denies all or part of a request for a covered service or equipment, the Agency sends the client and the provider written notice within 10 business days of the date the information is received that:

- Includes a statement of the action the Agency intends to take;
- Includes the specific factual basis for the intended action;
- Includes references to the specific WAC provision upon which the denial is based;
- Is in sufficient detail to enable the recipient to learn why the Agency's action was taken;
- Is in sufficient detail to determine what additional or different information might be provided to challenge the Agency's determination;
- Includes the client's administrative hearing rights;
- Includes an explanation of the circumstances under which the denied service is continued or reinstated if a hearing is requested; and
- Includes example(s) of lesser cost alternatives that permit the affected party to prepare an appropriate response.

Services Requiring Prior Authorization (PA)

[Refer to WAC 182-531-0200 (4)-(6)]

Prior authorization is required for the following:

- Abdominoplasty;
- All inpatient hospital stays for acute physical medicine and rehabilitation (PM&R);
- Bariatric surgery;
- Diagnosis and treatment of eating disorders for clients 21 years of age and older;
- Osteopathic manipulative therapy in excess of the Agency's published limits;
- Panniculectomy;
- Unilateral cochlear implants for clients 20 years of age and younger;
- Vagus nerve stimulator insertion, which also:
 - ✓ For coverage, must be performed in an inpatient or outpatient hospital facility; and
 - ✓ For reimbursement, must have the invoice attached to the claim.
- Osseointegrated/bone anchored hearing aids (BAHA) for clients 20 years of age and younger;
- Removal or repair of previously implanted BAHA or cochlear device for clients 21 years of age and older when medically necessary;
- The Agency may require a second opinion and/or consultation before authorizing any elective surgical procedure;
- When requesting surgery, please also indicate if you are requesting an assist or co-surgeon. Please refer to CMS coding rules;
- When requesting surgery, please also indicate if you are requesting an assist or co-surgeon. Please refer to CMS coding rules;
- Hysterectomies and other surgeries of the uterus – see fee schedule for codes requiring PA. This policy applies to all ages;
- BRA tests 81206 - 81217;
- Oncotype DX - S3854

Physician-Related Services/Health Care Professional Services

- **Intensity-Modulated Radiation Therapy (IMRT)**

When requesting IMRT, providers must submit an initial request for treatment planning (CPT 77301). Once a treatment plan is established, the number of treatment units needed must be submitted to the existing prior authorization number using the process below. The Agency expedites requests for treatment planning.

To submit additional information to a request, please use the following instructions:

- ✓ Go to http://hrsa.dshs.wa.gov/download/document_submission_cover_sheets.html
- ✓ Scroll down and click on number 7. PA (Prior Authorization) Pend Forms.
- ✓ When the form appears on the screen, insert the Authorization Reference number (ProviderOne authorization number) in the space provided and press enter to generate the barcode on the form.

TIP – The ProviderOne authorization number for this type of request can be found using the ProviderOne authorization inquiry feature. The ProviderOne authorization number is listed above the client's ID number on the PA Utilization screen.

- ✓ Print the Pend form and use it as the cover sheet to attach the additional information.
- ✓ Fax all pages to the Agency using the fax number on the bottom of the Pend form.

Note: The Pend form **MUST** be the first page of the fax.

Submit a new treatment request only when:

- ✓ 6 months has elapsed since the last request; or
 - ✓ The treatment plan has changed.
- The following surgical procedure codes require PA through the Agency:

Procedure Code	Short Description
24999	Upper arm/elbow surgery
22899	Spine surgery procedure
23929	Shoulder surgery procedure
27299	Pelvis/hip joint surgery
27599	Leg surgery procedure
29999	Arthroscopy of joint

Physician-Related Services/Health Care Professional Services

When requesting Prior Authorization for surgical services where co-surgeons are needed, please include the following:

1. Use General Information for Authorization form 13-835.
2. One authorization request per client.
3. Attach one Basic Information 13-756 for each surgeon.
4. Be sure to include appropriate modifier(s).
5. Indicate in box 30 this is for co-surgeon or assist; and
6. List each surgeon's billing NPI on the appropriate forms.

Note: Children six years of age and younger do not require authorization for hospitalization.

Documentation for Prior Authorization

Authorization Documentation	
<p>How do I obtain prior authorization or a limitation extension?</p>	<p>For all requests for prior authorization or limitation extensions, the following documentation is “required:”</p> <ul style="list-style-type: none"> A completed, TYPED General Information for Authorization form, 13-835. This request form MUST be the initial page when you submit your request. A completed Basic Information Form, 13-756, if there is not a form specific to the service you are requesting, and all the documentation listed on this form and any other medical justification. <p>Fax your request to: 1-866-668-1214. See the Agency <i>Resources Available</i> web page at: http://hrsa.dshs.wa.gov/Download/Resources_Available.html</p>

To download the forms above, go to: <http://hrsa.dshs.wa.gov/mpforms.shtml>

“Write or Fax” Prior Authorization (PA)

What is “write or fax” PA?

“Write or fax” PA is an authorization process available to providers when a procedure’s EPA criteria have not been met or the covered procedure requires PA. Procedures that require PA are listed in the fee schedule. Procedures that are marked with a # sign are noncovered. The Agency does not retrospectively authorize any health care services that require PA after they have been provided except when a client has delayed certification of eligibility.

When submitting an authorization request you must provide the following documentation:

- General Information for Authorization form, 13-835. This form must be page one of your mailed/faxed request, and must be typed. (Required)
- The program form. This form must be attached to your request. These forms are available at: <http://hrsa.dshs.wa.gov/mpforms.shtml>. (Required)
- Charts and justification to support your request for authorization.

This documentation should be submitted:

- **By Fax**
Fax prior authorization requests to 1-866-668-1214.
- **By Mail**
Mail prior authorization requests to:

Authorization Services Office
PO Box 45535
Olympia, WA 98504-5535

For a list of forms and where to send them, please refer to the **Forms Available to Submit Authorization Requests** section. Forms are available to download online at: <http://hrsa.dshs.wa.gov/mpforms.shtml>. Be sure to complete all information requested. The Agency returns incomplete requests to the provider.

Submitting Photos and X-Rays for Medical and DME Requests

For submitting photos and x-rays for medical and DME requests, use the FastLook™ and FastAttach™ services provided by Medical Electronic Attachment, Inc. (MEA).

You may register with MEA by:

- Going to www.mea-fast.com/.
- Selecting Provider Registration (on the menu bar below the banner).
- Entering “FastWDSHS” in the blue [promotion code box](#).

Contact MEA at 1-888-329-9988, ext. 2, with any questions.

When this option is chosen, you can fax your request to the Agency and indicate the MEA# in the NEA field (box 18) on the PA Request Form.

There is an associated cost, which will be explained by the MEA services.

Note: Please see the *Agency ProviderOne Billing and Resource Guide* at: http://hrsa.dshs.wa.gov/download/ProviderOne_Billing_and_Resource_Guide.html for more information on requesting authorization.

Limitation Extension (LE)

What is an LE?

LE is an authorization of services beyond the designated benefit limit allowed in Washington Administration Code (WAC) and Agency billing instructions.

Note: A request for a limitation extension must be appropriate to the client’s eligibility and/or program limitations. Not all eligibility groups cover all services.

How Do I request an LE authorization?

Some LE authorizations are obtained by using the EPA process. Refer to the EPA section pages H.6-H.11 for criteria. If the EPA process is not applicable, an LE must be requested in writing and receive Agency approval prior to providing the service.

The written request must state all of the following:

1. The name and ProviderOne Client ID of the client;
2. The provider's name, ProviderOne Client ID, and fax number;
3. Additional service(s) requested;
4. Copy of last prescription and date of last dispense;
5. The primary diagnosis code and CPT® code; and
6. Client-specific clinical justification for additional services.

For a list of forms and where to send them, please refer to the Important Contacts section.

Expedited Prior Authorization (EPA)

EPA is designed to eliminate the need for written authorization. The Agency establishes authorization criteria and identifies the criteria with specific codes, enabling providers to create an EPA number using those codes.

To bill the Agency for diagnostic conditions, procedures and services that meet the EPA criteria on the following pages, the provider must **create a 9-digit EPA number**. The first five or six digits of the EPA number must be **870000**. The last 3 or 4 digits must be the code assigned to the diagnostic condition, procedure, or service that meets the EPA criteria (see pages H.6-H.11 for codes). Enter the EPA number on the billing form in *the authorization number field*, or in the *Authorization or Comments* section when billing electronically.

Example: The 9-digit authorization number for a client with the following criteria would be **870000421**:

Client is 11 years of age through 55 years of age and is in one of the "at risk" groups because the client has one of the following:

- 1) Has terminal complement component deficiencies;
- 2) Has anatomic or functional asplenia;
- 3) Is a microbiologist who is routinely exposed to isolates of *Neisseria meningitidis*;
or
- 4) Is a freshman entering college who will live in a dormitory.

870000 = first six digits of all expedited prior authorization numbers. **421**= last three digits of an EPA number indicating that the above criteria is met.

Physician-Related Services/Health Care Professional Services

The Agency denies claims submitted without a required EPA number.

The Agency denies claims submitted without the appropriate diagnosis, procedure code, or service as indicated by the last three digits of the EPA number.

The billing provider must document in the client's file how the EPA criteria were met and make this information available to the Agency on request. If the Agency determines the documentation does not support the criteria being met, the claim will be denied.

Note: The Agency requires written/fax PA when there is no option to create an EPA number.

Expedited Prior Authorization Guidelines

Documentation

The provider must verify medical necessity for the EPA number submitted. The client's medical record documentation must support the medical necessity and be available upon the Agency's request. If the Agency determines the documentation does not support the EPA criteria requirements, the claim will be denied.

You must complete the Oral Enteral Nutrition Worksheet Expedited Prior Authorization Request form, 13-761, for clients who meet EPA criteria for oral enteral nutrition. The completed form must be kept in the client's chart and a copy sent to the pharmacy or medical vendor supplying the oral enteral nutrition product. This form is available at: <http://hrsa.dshs.wa.gov/mpforms.shtml>.

If the client does not meet the EPA criteria, the Oral Enteral Nutrition Worksheet Expedited Prior Authorization Request form, 13-761, must be completed and sent to a pharmacy or medical vendor supplying the oral enteral nutrition product.

Washington State Expedited Prior Authorization Criteria Coding List

EPA Code	Service Name	CPT/HCPCS/Dx Code	Criteria
047	Office visit related to prescribing Acomprosate (Campral®) for alcohol dependency.	CPT codes: 99201-99215 ICD-9-CM diagnosis codes: 303.0 to 303.3; 303.90 to 303.93; 305.00-305.03	Clients must be enrolled in DASA-certified treatment
048	Office visit related to prescribing Naltrexone (ReVia®) for alcohol or opiate dependency.	CPT codes: 99201-99215 ICD-9-CM diagnosis codes: 303.0 to 303.3; 303.90 to 303.93; 305.00-305.03 or 304.00-304.03;	Clients must be enrolled in DASA-certified treatment
049	Office visit related to administering Naltrexone (ReVia®) for alcohol or opiate dependency.	CPT codes: 99201-99215 ICD-9-CM diagnosis codes: 303.0 to 303.3; 303.90 to 303.93; 305.00-305.03 or 304.00-304.03	Clients must be enrolled in DASA-certified treatment

Agency-Approved Centers of Excellence (COE)

[Refer to WAC 182-531-0650]

The Agency pays for medically necessary transplant procedures only for eligible Agency clients who are not otherwise subject to a managed care organization (MCO) plan. Clients eligible under the Alien Emergency Medical (AEM) program are not eligible for transplant coverage.

The Agency covers the following transplant procedures when the transplant procedures are performed in a hospital designated by the Agency as a "center of excellence" for transplant procedures and meet that hospital's criteria for establishing appropriateness and the medical necessity of the procedures:

- Solid organs involving the heart, kidney, liver, lung, heart-lung, pancreas, kidney-pancreas and small bowel.
- Non-solid organs include bone marrow and peripheral stem cell transplants.

The Agency pays for skin grafts and corneal transplants to any qualified hospital when medically necessary.

The Agency pays for organ procurement fees and donor searches. For donor searches, CPT codes 86812-86822 are limited to a maximum of 15 tests total for human leukocyte antigens (HLA) typing per client, per lifetime. The Agency requires PA for more than 15 tests. Use the recipients ProviderOne Client ID when billing for these donor services. To bill for donor services, use the appropriate V59 series diagnosis code as the principal diagnosis code. For example, if billing a radiological exam on a potential donor for a kidney transplant, bill V59.4 for the kidney donor and use V70.8 as a secondary diagnosis-examination of a potential donor. Refer to WAC 182-531-1750, 182-550-1900, 182-550-2100, and 182-550-2200.

Note: Use of V70.8 as a principal diagnosis will cause the line to be denied.

The Agency does not pay for experimental transplant procedures. In addition, the Agency considers as experimental those services including, but not limited to, the following:

- Transplants of three or more different organs during the same hospital stay;
- Solid organ and bone marrow transplants from animals to humans; and
- Transplant procedures used in treating certain medical conditions for which use of the procedure has not been generally accepted by the medical community or for which its efficacy has not been documented in peer-reviewed medical publications.

The Agency pays for a solid organ transplant procedure only once per a client's lifetime, except in cases of organ rejection by the client's immune system during the original hospital stay.

Physician-Related Services/Health Care Professional Services

The following services must be performed in an Agency-approved Center of Excellence (COE) and **do not require prior authorization (PA)**. See the next page for a list of COEs.

Sleep studies (CPT codes 95805, 95807-95811). Refer to WAC 182-531-1500 and 182-550-6350.

Bariatric Surgery must be performed in an Agency-approved hospital and **requires PA**.

Providers must bill with their approved COE facility NPI using the following billing guidelines:

- Electronic billers (837p) must put the COE approved facility NPI in the Comments field of the electronic claim.
- Paper billers must put the COE approved facility NPI in field 32 on the CMS-1500 claim form.

Note: When private insurance or Medicare has paid as primary insurance and you are billing the Agency as secondary insurance, the Agency does not require PA or that the transplant, sleep study, or bariatric surgery be done in a Center of Excellence or Agency-approved hospital.

Services Performed in Agency-Approved Centers of Excellence (COE) [Refer to WAC 182-531-0650]

To view the Agency-Approved Centers of Excellence list for Hysteroscopic Sterilizations, Sleep Study, and Transplant Centers of Excellence visit the Agency on line at:

<http://hrsa.dshs.wa.gov/HospitalPymt/>

Hysteroscopic Sterilizations

The Agency pays only approved COEs for hysteroscopic sterilization procedures. Upon approval, the provider will receive an approval letter with the EPA number for billing hysteroscopic sterilization procedures and the provider's name is placed on the Agency-Approved COE list for hysteroscopic sterilizations.

For additional information about hysteroscopic sterilizations, see

<http://hrsa.dshs.wa.gov/download/Sterilization.pdf>.

Agency-Approved Sleep Study Centers

[Refer to WAC 182-531-1500 and 182-550-6350]

Providers must:

- Use CPT codes 95805 and 95807-95811 for sleep study services.
- Enter the approved Agency sleep center's NPI where the sleep study/polysomnogram or multiple sleep latency testing was performed. (Refer to previous page for appropriate location of Agency-approved sleep center.) Enter the COE NPI in box 32 on the CMS-1500 Claim Form. When billing electronically, note the COE NPI in the *Comments* section.
- Obtain an ENT consult for children younger than 10 years of age prior to study.
- Sleep studies are limited to rule out obstructive sleep apnea or narcolepsy.

The following is a list of approved diagnoses for sleep studies:

327.10	327.20	327.27	780.51
327.11	327.21	327.42	780.53
327.12	327.23	327.51	780.54
327.14	327.26	347.00-347.11	780.57

Note: When billing on a paper CMS-1500 claim form, note the COE NPI in field 32. When billing electronically, note the COE NPI in the *Comments* section.

Sleep Center Physician Consultations and Referral for Cognitive Behavioral Therapy (CBT)

The Agency requires a sleep consultation with a physician who is Board Certified in Sleep Medicine at an Agency-approved Sleep Center for any eligible client receiving more than six months of continuous nightly use of any of the following insomnia drugs:

- Generic Zolpidem, Ambien®, Ambien CR®
- Sonata®
- Lunesta®
- Rozerem®

Physician-Related Services/Health Care Professional Services

Continuous nightly use of the above insomnia drugs may be necessary for some clients, but it may not be appropriate for others. The Agency covers the following drugs without prior authorization within the following limits:

Drug	Limitations
Rozerem®	30 tablets/30 days for maximum of 90 days of continuous use
Generic Zolpidem, Ambien®, Ambien CR®, Sonata®, and Lunesta®	30 tablets/30 days for first fill, then 10 tablets/30 days

The Agency will send a letter to the prescribing provider and the client when a sleep consultation is required, and a referral for cognitive behavioral therapy (CBT) may be recommended.

Agency-Approved Bariatric Hospitals and Their Associated - Clinics [WAC 182-531-1600 and 182-550-2301]

Agency-Approved Bariatric Hospital and Associated Clinics	Location
Sacred Heart Medical Center, Rockwood Bariatric Specialists	Spokane, WA
University of Washington Medical Center, University of Washington Specialty Surgery Center	Seattle, WA
Oregon Health Science University, OHSU Surgery Center	Portland, OR

The Agency covers medically necessary bariatric surgery for clients ages 21 to 59 in an approved hospital with a bariatric surgery program in accordance with WAC 182-531-1600. Prior authorization is required. To begin the authorization process, providers should fax the Agency a completed “Bariatric Surgery Request” form, 13-785 (see Important Contacts).

The Agency covers medically necessary bariatric surgery for clients ages 18-20:

- For the laparoscopic gastric band procedure (CPT code 43770);
- When prior authorized;
- When performed in an approved hospital with a bariatric surgery program; and
- In accordance with WAC 182-531-1600.

Bariatric Case Management Fee

The Agency may authorize up to 34 units of a bariatric case management fee as part of the Stage II bariatric surgery approval. One unit of procedure code G9012 = 15 minutes of service. Prior authorization is required.

This fee is given to the primary care provider or bariatric surgeon performing the services required for Bariatric Surgery Stage II. This includes overseeing weight loss and coordinating and tracking all the necessary referrals, which consist of a psychological evaluation, nutritional counseling, and required medical consultations as requested by the Agency.

Clients enrolled in a managed care organization (MCO) are eligible for bariatric surgery under fee-for-service when prior authorized. Clients enrolled in an MCO who have had their surgery prior authorized by the Agency and who have complications following bariatric surgery are covered fee-for-service for these complications 90 days from the date of the Agency-approved bariatric surgery. The Agency requires authorization for these services. Claims without authorization will be denied.

Site-of-Service (SOS) Payment Differential

How are Fees Established for Professional Services Performed in Facility and Non-facility Settings?

Based on the Resource Based Relative Value Scale (RBRVS) methodology, the Agency's fee schedule amounts are established using three relative value unit (RVU) components: work, practice expense, and malpractice expense. The Agency uses two levels of practice expense components to determine the fee schedule amounts for reimbursing professional services. This may result in two RBRVS maximum allowable fees for a procedure code. These are:

- **Facility setting maximum allowable fees (FS Fee)** - Paid when the provider performs the services in a facility setting (e.g., a hospital or ambulatory surgery center) and the cost of the resources are the responsibility of the facility; or
- **Non-facility setting maximum allowable fees (NFS Fee)** - Paid when the provider performs the service in a non-facility setting (e.g., office or clinic) and typically bears the cost of resources, such as labor, medical supplies, and medical equipment associated with the service performed.

Some services, by nature of their description, are performed only in certain settings and have only one maximum allowable fee per code. Examples of these services include:

- Evaluation and management (E&M) codes which specify the site-of-service (SOS) within the description of the procedure codes (e.g., initial hospital care); and
- Major surgical procedures that are generally performed only in hospital settings.

How Does the SOS Payment Policy Affect Provider Payments?

Providers billing professional services are paid at one of two maximum allowable fees, depending on where the service is performed.

Does the Agency Pay Providers Differently for Services Performed in Facility and Non-facility Settings?

Yes. When a provider performs a professional service in a facility setting, the Agency makes two payments - one to the performing provider and another to the facility. The payment to the provider (FS Fee) includes the provider's professional services only. A separate payment is made directly to the facility where the service took place, which includes payment for necessary resources. The FS Fee excludes the allowance for resources that are included in the payment to the facility. Paying the lower FS Fee to the performing provider when the facility is also paid eliminates duplicate payment for resources.

When a provider performs a professional service in a non-facility setting, the Agency makes only one payment to the performing provider. The payment to the provider (NFS Fee) includes the provider's professional services and payment for necessary resources.

When Are Professional Services Paid at the Facility Setting Maximum Allowable Fee?

Providers are paid at the FS Fee when the Agency also makes a payment to a facility. In most cases, the Agency follows Medicare's determination for using the FS Fee. Professional services billed with the following place of service codes are paid at the FS Fee:

FACILITY SETTING

Place of Service Code	Place of Service Description
06	Indian Health Service – provider based
08	Tribal 638 – provider based
21	Inpatient Hospital
22	Outpatient Hospital
23	Emergency Room – Hospital
24	Ambulatory Surgery Center
25	Birthing Center
26	Military Treatment Facility
31	Skilled Nursing Facility

Physician-Related Services/Health Care Professional Services

FACILITY SETTING (cont.)

Place of Service Code	Place of Service Description
34	Hospice
51	Inpatient Psychiatric Facility
52	Psychiatric Facility Partial Hospitalization
53	Community Mental Health Center
56	Psychiatric Residential Treatment Center
61	Comprehensive Inpatient Rehabilitation Facility
62	Comprehensive Outpatient Rehabilitation Facility

Note: All claims submitted to the Agency must include the appropriate Medicare **two-digit place of service code**. The Agency will deny claims with single-digit place of service codes.

Due to Medicare's consolidated billing requirements, the Agency does not make a separate payment to providers who perform certain services in hospitals and skilled nursing facilities. The facilities are paid at the NFS Fee. Some therapies, such as physical therapy services (CPT codes 97001-97799), are always paid at the NFS Fee.

When Are Professional Services Paid at the Non-facility Setting Maximum Allowable Fee?

The NFS Fee is paid when the Agency does not make a separate payment to a facility, such as when services are performed in a provider's office or a client's home. In most cases, the Agency follows Medicare's determination for using the NFS Fee.

Professional services billed with the following place of service codes are paid at the NFS Fee:

NONFACILITY SETTING

Place of Service Code	Place of Service Description
04	Homeless Shelter
05	Indian Health – Free Standing
07	Tribal 638 – Free Standing
11	Office
12	Home
13	Assisted Living Facility
14	Group Home
15	Mobile Unit
20	Urgent Care Facility
32	Nursing Facility

Physician-Related Services/Health Care Professional Services

NONFACILITY SETTING (cont.)

Place of Service Code	Place of Service Description
33	Custodial Care Facility
49	Independent Clinic
50	Federally Qualified Health Center
54	Intermediate Care Facility
55	Residential Substance Abuse Treatment Facility
57	Non-Resident Substance Abuse Treatment Facility
60	Mass Immunization Center
65	End-Stage Renal Disease Treatment Facility
71	State or Local Public Health Clinic
72	Rural Health Clinic
81	Independent Laboratory
99	Other Place of Service

Note: All claims submitted to the Agency must include the appropriate Medicare **two-digit place of service code**. The Agency will deny claims with single-digit place of service codes.

Which Professional Services Have a SOS Payment Differential?

Most of the services with an SOS payment differential are from the surgery, medicine, and E&M ranges of CPT codes. However, some HCPCS, CPT radiology, pathology, and laboratory codes also have an SOS payment differential.

Fee Schedule Information

- Maximum allowable fees for all codes, including CPT codes and selected HCPCS codes, are listed in the fee schedule.
- In the fee schedule, the Agency identifies procedure codes that may require prior authorization. However, this list may not be all-inclusive. Prior authorization, limitations, or requirements detailed in Agency billing instructions and Washington Administrative Code (WAC) remain applicable.
- Section L contains rate setting methodology and unit rounding instructions for injectable drug codes.
- Many Agency fee schedules are available for download in Excel format online at: <http://hrsa.dshs.wa.gov/RBRVS/Index.html>.

CPT® codes and descriptions only are copyright 2011 American Medical Association.

Medical Supplies and Equipment

General Payment Policies

- The Agency pays providers for certain medical supplies and equipment (MSE) dispensed from their offices when these items are considered prosthetics and are used for a client's permanent condition (see the list beginning on page J.2).
- Most MSE used to treat a client's temporary or acute condition are considered incidental to a provider's professional services and are bundled in the office visit payment (see list beginning on page J.2). The Agency pays providers separately for only those MSE listed beginning on page J.5.
- The Agency does not pay providers separately for surgical trays, as these are bundled within the appropriate surgical procedure. The fees for these procedures include the cost of the surgical trays.
- Procedure codes for MSE that do not have a maximum allowable fee and cost less than \$50.00 are paid at acquisition cost. A manufacturer's invoice must be maintained in the client's records for MSE under \$50.00 and made available to the Agency upon request. **DO NOT send in an invoice with a claim** for MSE under \$50.00 unless requested by the Agency.
- Procedure codes for MSE that do not have a maximum allowable fee and cost \$50.00 or more are paid at acquisition cost. **A copy of the manufacturer's invoice must be attached** to the claim for MSE costing \$50.00 or more.

Note: Refer to the *Important Contacts* section for information on prior authorization.

Supplies Included in an Office Call (Bundled Supplies)

Items with an asterisk (*) in the following list are considered prosthetics when used for a client’s permanent condition. The Agency pays providers for these supplies when they are provided in the office for permanent conditions **only**. They are not considered prosthetics if the condition is acute or temporary. Providers must indicate “prosthetic for permanent condition” in the *Comments* section of the claim form.

For example, if a patient has an indwelling Foley catheter for permanent incontinence and a problem develops for which the physician is required to replace the catheter, it is considered a prosthetic and is paid separately. The Foley catheter used to obtain a urine specimen, used after surgery, or used to treat an acute obstruction is not paid separately because it is treating a temporary problem.

HCPCS Code	Brief Description
99070	Special supplies
A4206	Syringe with needle, sterile 1cc
A4207	Syringe with needle, sterile 2cc
A4208	Syringe with needle, sterile 3cc
A4209	Syringe with needle, sterile 5cc

A4270	Disposable endoscope sheath, each
A4300	Implantable access partial/catheter
A4301	Implantable access total system
A4305	Disposable drug delivery system, flow rate 50 ML or more per hour
A4306	Disposable drug delivery system, flow rate 5 ML or less per hour
A4310	Insertion tray w/o drainage bag
A4311	Insertion tray without drainage bag

Physician-Related Services/Health Care Professional Services

HCPCS Code	Brief Description
A4312	Insertion tray without drainage bag
A4313	Insertion tray without drainage bag
A4314	Insertion tray with drainage bag
A4315	Insertion tray with drainage bag
A4316	Insertion tray with drainage bag
A4320	Irrigation tray for bladder
A4330	Perianal fecal collection pouch
A4335*	Incontinence supply; miscellaneous
A4338*	Indwelling catheter; Foley type
A4340*	Indwelling catheter; Spec type
A4344*	Indwelling catheter; Foley type
A4346*	Indwelling catheter; Foley type
A4351	Intermittent urinary catheter
A4352	Intermittent urinary catheter
A4353	Catheter insert tray with cath/tube/bag
A4354	Insertion tray with drainage bag
A4355	Irrigation tubing set
A4356*	External urethral clamp device
A4357*	Bedside drainage bag, day or night
A4358*	Urinary leg bag; vinyl
A4361*	Ostomy faceplate
A4362*	Skin barrier; solid, 4 x 4
A4364*	Adhesive for ostomy or catheter
A4367*	Ostomy belt
A4368*	Ostomy filter, each
A4397	Irrigation supply; sleeve
A4398*	Irrigation supply; bags
A4399*	Irrigation supply; cone/catheter
A4400*	Ostomy irrigation set
A4402	Lubricant
A4404*	Ostomy rings
A4421*	Ostomy supply; miscellaneous
A4455	Adhesive remover or solvent
A4461	Surgical dressing holder, nonreusable, each
A4463	Surgical dressing holder, reusable, each
A4465	Non-elastic binder for extremity
A4470	Gravlee jet washer
A4480	Vabra aspirator
A4550	Surgical tray
A4556	Electrodes (e.g., apnea monitor)
A4557	Lead wires (e.g., apnea monitor)
A4558	Conductive paste or gel
A4649	Surgical supply; miscellaneous

Physician-Related Services/Health Care Professional Services

HCPCS Code	Brief Description
A5051*	Ostomy pouch, closed; with barrier
A5052*	Ostomy pouch, closed; without barrier
A5053*	Ostomy pouch, closed; use on faceplate
A5054*	Ostomy pouch, closed; use on barrier
A5055*	Stoma cap
A5061*	Ostomy pouch, drainable; with barrier
A5062*	Ostomy pouch, drainable; without barrier
A5063*	Ostomy pouch, drainable; use on barrier
A5071*	Pouch, urinary; with barrier
A5072*	Pouch, urinary; without barrier
A5073*	Pouch, urinary; use on barrier

A6022	Collagen drsg>6<=48 sq in
A6023	Collagen dressing >48 sq in
A6024	Collagen dsg wound filler
A6025	Silicone gel sheet, each
A6154	Wound pouch, each
A6231	Hydrogel dsg <=16 sq in
A6232	Hydrogel dsg>16<=48 sq in
A6233	Hydrogel dressing >48 sq in
A6413	Adhesive bandage first-aid

Supplies Paid Separately When Dispensed from a Provider's Office/Clinic

Miscellaneous Supplies

HCPCS Code	Brief Description
A4561	Pessary rubber, any type 1
A4562	Pessary, nonrubber, any type
A4565	Slings
A4570	Splint
L8695	External recharge sys extern, requires PA

Casting Materials

Bill the appropriate HCPCS code (Q4001-Q4051) for fiberglass and plaster casting materials. Do not bill for the use of a cast room. Use of a cast room is considered part of a provider's practice expense.

Metered Dose Inhalers and Accessories

HCPCS Code	Brief Description
A4614	Peak flow meter
A4627	Spacer bag, or reservoir, with/without mask (for use with metered dose inhaler)

Inhalation Solutions

Refer to the fee schedule for those specific codes for inhalation solutions that are paid separately.

Radiopharmaceutical Diagnostic Imaging Agents

Refer to the fee schedule for those specific codes for imaging agents that are paid separately.

Miscellaneous Prosthetics & Orthotics

HCPCS Code	Brief Description
L0120	Collar-philadelphia child
L0220	Thoracic, rib belt, custom fabricated
L1810	Knee brace hinged
L1820	Action neoprene brace, knee
L1830	Knee immobilizer 24" universal
L3650	Shoulder abduction pillow
L3807	WHFO, extension assist, with inflatable palmer air support, with or without thumb extension
L3908	Wrist comfort form all sizes
L8000	Post mastectomy implants bra
L8010	Breast binder
L8600	Breast implants

Note: See page K.7 for Misc. prosthetics and orthotics that only Podiatrists and Orthopedic Surgeons can bill for.

Urinary Tract Implants

See important policy limitations for urinary tract implants in Sections “E” and “F”.

HCPCS Code	Brief Description
L8603	Collagen implant, urinary tract, per 2.5 ml syringe
L8604	Dextranomer/hyaluronic acid
L8606	Synthetic implant, urinary tract, per 1 ml syringe

Note: L8603, L8604 and/or L8606 must be billed on the facility claim only if the implantation procedure is performed in place of service 21 and 22.

Podiatry and Orthopedic Surgeons

Note: Treatment of the lower extremities only when there is an:

- Acute condition;
- Exacerbation of a chronic condition; or

Presence of a systemic condition; such as a:

- Metabolic,
- Neurologic, or
- Peripheral vascular disease; and

Evidence that the treatment will:

- Prevent;
- Cure or

Alleviate a condition in the client that causes pain resulting in an:

- Inability to perform activities of daily living,
- Acute disability, or
- Threatens to cause the loss of life or limb, unless otherwise specified. **WAC 182-531-1300 (4)(a)**

Physician-Related Services/Health Care Professional Services

The following codes are payable only to podiatrists and orthopedic surgeons:

HCPCS Code	Brief Description	Policy Comments
A5500	Diab shoe for density insert	(Limit 1 per client, per year)
A5501	Diabetic custom molded shoe	(Limit 1 per client, per year)
A5503	Diabetic shoe w/roller/rocker	(Limit 1 per client, per year)
A5504	Diabetic shoe with wedge	(Limit 1 per client, per year)
A5505	Diab shoe w/metatarsal bar	(Limit 1 per client, per year)
A5506	Diabetic shoe w/offset heal	(Limit 1 per client, per year)
A5507	Modification diabetic shoe (requires PA)	
A5512	Multi den insert direct form	(Limit 1 per client, per year)
A5513	Multi den insert custom mold	(Limit 1 per client, per year)
L1902	Boot-walkabout med/large	
L1906	Canvas ankle brace	
L3000	Ft insert ucb berkeley shell.	EPA required.
L3030	Foot arch support remov prem.	EPA required.
L3140	Abduction rotation bar shoe	
L3150	Abduct rotation bar w/o shoe	
L3170	Foot plastic foot stabilizer.	PA required.
L3215	Orthopedic ftwear ladies oxf.	EPA required. Noncovered for clients age 21 years of age and older
L3219	Orthopedic mens shoes oxford	EPA required. Noncovered for clients age 21 years of age and older
L3310	Shoe lift elev heel/sole neo.	(Limit 1 per client, per year)
L3320	Shoe lift elev heel/sole cor.	(Limit 1 per client, per year)
L3334	Shoe lifts elevation heel /i.	(Limit 1 per client, per year)
L3340	Shoe wedge sach.	PA required.
L3350	Shoe heel wedge.	PA required.
L3360	Shoe sole wedge outside sole.	PA required.
L3400	Shoe metatarsal bar wedge ro.	PA required.
L3410	Shoe metatarsal bar between.	PA required.
L3420	Full sole/heel wedge between.	PA required.
L3430	Shoe heel count plast reinfor	(Limit 1 per client, per year)
L4350	Ankle control orthosi prefab	(Fractures only)
L4360	Pneumatie walking boot prefab	(Fractures only) PA required
L4380	Aircast infrapatellar band	
L4386	Diabetic walker.	PA required

For authorization requirements please follow the Medicaid Provider Guide for Prosthetic and Orthotic Devices at the following link:

http://hrsa.dshs.wa.gov/download/Billing_Instructions/Prosthetic_Orthotic/Prosthetic_and_Orthotic_Devices_BI.pdf

Injectable Drug Codes

What Drugs *Are* Covered? [Refer to WAC 182-530-2000 (1)]

The Agency covers outpatient drugs, including over-the-counter drugs listed on the Agency's Covered Over-the-Counter Drug list, as defined in WAC 182-530-1050, subject to the limitations and requirements in this section, when:

- The drug is approved by the Food and Drug Administration (FDA);
- The drug is for a medically accepted indication as defined in WAC 182-530-1050;
- The drug is not excluded from coverage (see —WAC 182-530-2000 Covered – Outpatient drugs, devices, and drug related supplies); and
- The manufacturer has a signed drug rebate agreement with the federal Department of Health and Human Services (DHHS). Exceptions to the drug rebate requirement are described in WAC 182-530-7500 which describes the drug rebate program.

For more information go to:

http://hrsa.dshs.wa.gov/download/Billing_Instructions/Prescription_Drug/Prescription_Drug_Program_BI.pdf

Note: The Agency requires prior authorization (PA) for all new drugs to market until reviewed by the Agency's Drug Evaluation Matrix Committee according to [WAC 182-530-3100](#). This applies to all products billed under miscellaneous codes or product specific procedure codes.

The Agency's fees for injectable drug codes are the maximum allowances used to pay covered drugs and biologicals administered in a provider's office only.

The Agency follows Medicare's drug pricing methodology of 106% of the Average Sales Price (ASP). If a Medicare fee is unavailable for a particular drug, the Agency prices the drug at a percentage of the Average Wholesale Price (AWP). The Agency updates the rates each time Medicare's rate is updated, up to once per quarter. Unlike Medicare, the Agency effective dates are based on dates of service, not the date the claim is received. For HCPCS codes where Medicare does not establish a rate, the Agency determines the maximum allowances for covered drugs using the following methodology:

1. For a single-source drug or biological, the AWP equals the AWP of the single product.

Physician-Related Services/Health Care Professional Services

2. For a multi-source drug or biological, the AWP is equal to the median AWP of all of the generic forms of the drug or biological, or the lowest brand-name product AWP, whichever is less. A “brand-name” product is defined as a product that is marketed under a labeled name that is other than the generic chemical name for the drug or biological.
3. After determining the AWP according to #1 and #2 above, the Agency multiplies the amount by 0.84 to arrive at the fee schedule maximum allowance.

When billing for injectable drugs and biologicals, providers must use the description of the procedure code to determine the units, and include the correct number of units on the claim form to be paid the appropriate amount. For drugs priced at “acquisition cost,” providers must:

- Include a copy of the manufacturer’s invoice for each line item in which **billed charges** exceed \$1,100.00; or
- Retain a copy of the manufacturer’s invoice in the client’s record for each line item in which **billed charges** are equal to or less than \$1,100.00.

Do not bill using unclassified or unspecified drug codes unless there is no specific code for the drug being administered. The National Drug Code (NDC) and dosage given to the client must be included with the unclassified or unspecified drug code for coverage and payment consideration.

HCPCS codes J8499 and J8999 for oral prescription drugs are not covered.

Injectable drugs can be injected subcutaneously, intramuscularly, or intravenously. You must indicate that the injectable drugs came from the provider's office supply. The name, strength, and dosage of the drug must be documented and retained in the client’s record.

Chemotherapy Drug (J9000-J9999)

- Bill number of units used based on the description of the drug code. For example, if 250 mg of Cisplatin (J9062) is given to the client, the correct number of units is five (5).
- The Agency follows Medicare’s drug pricing methodology of 106% of the Average Sales Price (ASP). If a Medicare fee is unavailable for a particular drug, the Agency continues to price the drug at 84% of the Average Wholesale Price (AWP).

Miscellaneous Drugs Requiring Prior Authorization

- Acetaminophen injection, J0131, use Basic Information form, 13-756
- Alglucosidase alfa (lumizyme) 10 mg, J0221, use Basic Information form 13-756
- Belimumab injection, J0490, use Basic Information form, 13-756
- Cimzia (Certolizumab pegol Inj.), J0718, use Request form, 13-885
- Ceftaroline fosamil injection, J0712, use Basic Information form, 13-756
- Ipilimumab injection, J9228, use Basic Information form, 13-756
- Mannitol for inhaler, J7665, use Basic Information form, 13-756
- Peginesatide, 0.1mg , Injectable, Q2047, use Omontys Request form, 13-906
- Pegloticase injection, J2507, use Basic Information form, 13-756
- Photofrin (Porfimer Sodium Inj.) 75mg, J9600, use the Basic Information form, 13-756
- Prolia (Denosumab Inj.), J0897, use the Basic Information form, 13-756
- Tysabri (Natalizumab Inj.) J2323, Request form, 13-832
- Xolair (Omalizumab Inj.) J2357, use the Basic Information form, 13-756

To download the forms above, go to: <http://hrsa.dshs.wa.gov/mpforms.shtml>

The Agency requires prior authorization for all new drugs to market until reviewed by the Agency's Drug Evaluation Matrix committee according to [WAC 182-530-3100](#). This applies to all products billed under miscellaneous codes or product specific procedure codes.

To view the list of drugs billed under miscellaneous HCPCS codes that require authorization, click the following link:

http://hrsa.dshs.wa.gov/pharmacy/documents/misc_hcpcs_drugs_requiring_authorization.pdf

Prior Authorization

Drugs requiring written/fax prior authorization are noted in the fee schedule with a “PA” next to them. For information on how to request prior authorization, refer to Authorization Section within these billing instructions.

All Other Drugs

- Bill number of units used based on the description of the drug code.
- Claims with HCPCS code J3490 must:
 - ✓ Include the NDC in the correct format depending on the claim media and the amount of the drug administered to the client in the claim notes field; and
 - ✓ Must be billed with one unit only.
- The Agency follows Medicare’s drug pricing methodology of 106% of the Average Sales Price (ASP). If a Medicare fee is unavailable for a particular drug, the Agency continues to price the drug at 84% of the Average Wholesale Price (AWP).

Rounding of Units

The following guidelines should be used to round the dosage given to the client to the appropriate number of units for billing purposes:

I. Single-Dose Vials:

For single-dose vials, bill the total amount of the drug contained in the vial(s), including partial vials. Based on the unit definition for the HCPCS code, the Agency pays providers for the total number of units contained in the vial. **For example:**

If a total of 150 mg of Etoposide is required for the therapy and two 100 mg single dose vials are used to obtain the total dosage, the total of the two 100 mg vials is paid. In this case, the drug is billed using HCPCS code J9181 (Etoposide, 10 mg). If the Agency’s maximum allowable fee is \$4.38 per 10 mg unit, the total allowable is \$87.60 (200 mg divided by 10 = 20 units x \$4.38).

II. Billing for Multi-Dose Vials:

For multi-dose vials, bill **only** the amount of the drug administered to the client. Based on the unit definition (rounded up to the nearest whole unit) of the HCPCS code, the Agency pays providers for only the amount of drug administered to the client. **For example:**

If a total of 750 mg of Cytarabine is required for the therapy and is taken from a 2,000 mg multi-dose vial, only the 750 mg administered to the client is paid. In this case, the drug is billed using HCPCS code J9110 (Cytarabine, 500 mg). If the Agency's maximum allowable fee is \$23.75 per 500 mg unit, the total allowable is \$47.50 [750 mg divided by 500 = 2 (1.5 rounded) units x \$23.75].

Synagis (CPT® code 90378)

See EPSDT Screening Components Section and the Client Eligibility Section in the [EPSDT Billing Instructions](#) for information on Synagis.

Unlisted Drugs (J3490 and J9999)

When it is necessary to bill the Agency for a drug using an unlisted drug code, providers must report the National Drug Code (NDC) of the drug administered to the client. The Agency uses the NDC when unlisted drug codes are billed to appropriately price the claim.

To be reimbursed:

- Claims *must* include:
 - ✓ The dosage (amount) of the drug administered to the client;
 - ✓ The 11-digit NDC of the office-administered drug; and
 - ✓ One unit of service;
- The drug must be approved by the Food and Drug Administration (FDA);
- The drug must be for a medically accepted indication as defined in WAC 182-530-1050 (see —WAC 182-530-2000 Covered – Outpatient drugs, devices, and drug related supplies); and
- The drug must not be excluded from coverage.
- For claims billed using a paper CMS-1500 Claim Form, list the required information in field 19 of the claim form.
- For claims billed using an electronic CMS-1500 Claim Form, list the required information in the *Comments* section of the claim form.

Physician-Related Services/Health Care Professional Services

- For claims billed using an electronic 837P claim form, list the required NDC information in DRUG IDENTIFICATION Loop 2410, LIN02, and LIN03. List the dosage given to the client in the *Comments* section of the claim form.

See Section C within these billing instructions for more detailed information on NDC billing.

Note: If there is an assigned HCPCS code for the administered drug, providers **must bill** the Agency using the appropriate HCPCS code. **DO NOT** bill using an unlisted drug code for a drug that has an assigned HCPCS code. The Agency will recoup payment for drugs paid using an unlisted drug code if an assigned HCPCS code exists for the administered drug.

The list of all injectable drug codes and maximum allowable fees are listed in the fee schedule. The fee schedule may be accessed on the Agency's web site at:

<http://hrsa.dshs.wa.gov/RBRVS/index.html>

Invoice Requirements

A copy of the manufacturer's invoice showing the **actual acquisition cost** of the drug must be attached to the claim **ONLY** when billed charges exceed \$1,100.00 per line item. If billed charges are less than \$1,100.00 per line item, **DO NOT** attach the invoice or any other paperwork to your claim. If needed, the Agency will request any other necessary documentation after receipt of the claim.

This requirement applies to **all drugs** administered in the provider's office, including those drugs with an assigned CPT or HCPCS code, and those drugs billed using either unlisted drug code J3490 or J9999.

A copy of any manufacturer's invoices for all drugs (regardless of billed charges) must be maintained in the client's record and made available to the Agency upon request.

CPT/HCPCS Modifiers

[Refer to WAC 182-531-1850(10) and (11)]

Italics indicate additional Agency language not found in CPT®.

- 22: **Unusual Procedural Services:** When the service(s) provided is greater than that usually required for the listed procedure, it may be identified by adding modifier 22 to the usual procedure code number. *This modifier is not to be used to report procedure(s) complicated by adhesion formation, scarring, and/or alteration of normal landmarks due to late effects of prior surgery, irradiation, infection, very low weight or trauma.*
- For informational purposes only; no extra allowance is allowed.*
- 23: **Unusual Anesthesia:** *For informational purposes only; no extra allowance is allowed.*
- 24: **Unrelated Evaluation and Management (E&M) by the Same Physician During a Postoperative Period:** The physician may need to indicate that an evaluation and management service was performed during a postoperative period for a reason(s) *unrelated* to the original procedure. This circumstance may be reported by adding the modifier 24 to the appropriate level of E&M service. *Payment for the E&M service during postoperative period is made when the reason for the E&M service is unrelated to original procedure.*
- 25: **Significant, Separately Identifiable Evaluation and Management Service by the Same Physician on the Day of a Procedure:** The physician may need to indicate that on the day a procedure or service identified by a CPT code was performed, the client's condition required a significant, separately identifiable E&M service above and beyond the usual preoperative and postoperative care associated with the procedure that was performed. This circumstance may be reported by adding the modifier 25 to the appropriate level of E&M service. *Payment for the E&M service is the billed charge or the Agency's maximum allowable, whichever is less.*
- 26: **Professional Component:** Certain procedures are a combination of professional and technical components. When only the professional component is reported, the service is identified by adding modifier 26 to the procedure code.
- TC: **Technical Component:** Certain procedures are a combination of professional and technical components. When only the technical component is reported, the service is identified by adding modifier TC to the procedure code. *In order to receive payment, a contract with the Agency is required if services are performed in a hospital setting.*

Physician-Related Services/Health Care Professional Services

- 32: **Mandated Services:** *For informational purposes only; no extra allowance is allowed.*
- 47: **Anesthesia by Surgeon:** *Not covered by the Agency.*
- 50: **Bilateral Procedure:** Unless otherwise identified in the listing, bilateral procedures that are performed at the same operative session should be identified by adding this modifier to the appropriate five-digit code describing the first procedure.
- For surgical procedures typically performed on both sides of the body, payment for the E&M service is the billed charge or the Agency's maximum allowable, whichever is less.*
- For surgical procedures that are typically performed on one side of the body, but performed bilaterally in a specific case, payment is 150% of the global surgery fee for the procedure.*
- 51: **Multiple Procedures:** *When multiple surgeries are performed at the same operative session, total payment is equal to the sum of the following: 100% of the highest value procedure; 50% of the global fee for each of the second through fifth procedures. More than five procedures require submission of documentation and individual review to determine the payment amount.*
- 52: **Reduced Services:** Under certain circumstances, a service or procedure is partially reduced at the physician's discretion. Under these circumstances, the service provided can be identified by its usual procedure number and the addition of the modifier 52, signifying that the service is reduced. This provides a means of reporting reduced services without disturbing the identification of the basic service. *Using this modifier does not reduce the allowance to the provider. Note: Modifier 52 may be used with computerized tomography procedure codes for a limited study or a follow-up study.*
- 53: **Discontinued Procedure:** Under certain circumstances, the physician may elect to terminate a surgical or diagnostic procedure. Due to extenuating circumstances, or those that threaten the well-being of the patient, it may be necessary to indicate that a surgical or diagnostic procedure was started but discontinued.
- Use of modifier 53 is allowed for all surgical procedures. Modifier 53 is a payment modifier when used with CPT code 45378 and HCPCS codes G0105 and G0121 only. It is "information only" for all other surgical procedures.*

Physician-Related Services/Health Care Professional Services

54, 55, 56 – Providers providing less than the global surgical package should use modifiers 54, 55, & 56. *These modifiers are designed to ensure that the sum of all allowances for all practitioners who furnished parts of the services included in a global surgery fee do not exceed the total amount of the payment that would have been paid to a single practitioner under the global fee for the procedure. The payment policy pays each physician directly for that portion of the global surgery services provided to the client. The breakdown is as follows:*

- 54: **Surgical Care Only:** When one physician performs a surgical procedure and another provides preoperative and/or postoperative management, surgical services may be identified by adding modifier 54 to the usual procedure number. *A specific percentage of the global surgical payment in the fee schedule is made for the surgical procedure only.*
- 55: **Postoperative Management Only:** When one physician performs the postoperative management and another physician has performed the surgical procedure, the postoperative component may be identified by adding the modifier 55 to the usual procedure number. *A specific percentage of the global surgical payment in the fee schedule is made for the surgical procedure only.*
- 56: **Preoperative Management Only:** When one physician performs the preoperative care and evaluation and another physician performs the surgical procedure, the preoperative component may be identified by adding the modifier 56 to the usual procedure number. *A specific percentage of the global surgical payment in the fee schedule is made for the surgical procedure only.*
- 57: **Decision for Surgery:** An evaluation and management service that resulted in the initial decision to perform the surgery may be identified by adding modifier 57 to the appropriate level of E/M service.
- 58: **Staged or Related Procedure or Service by the Same Physician During the Postoperative Period:** The physician may need to indicate that the performance of a procedure or service during the postoperative period was: a) planned prospectively at the time of the original procedure (staged); b) more extensive than the original procedure; or c) for therapy following a diagnostic surgical procedure. This circumstance may be reported by adding the modifier 58 to the staged or related procedure. **Note:** *This modifier is not used to report the treatment of a problem that requires a return to the operating room. See modifier 78.*
- 59: **Distinct Procedural Service:** The physician must indicate that a procedure or service was distinct or separate from other services performed on the same day. This may represent a different session or patient encounter, different procedure or surgery, different site, separate lesion, or separate injury (or area of surgery in extensive injuries).

Physician-Related Services/Health Care Professional Services

- 62: **Two Surgeons:** Under certain circumstances, the skills of two surgeons (usually with different skills) may be required in the management of a specific surgical procedure. Under such circumstances, separate services may be identified by adding modifier 62 to the procedure code used by each surgeon for reporting his/her services. *Payment for this modifier is 125% of the global surgical fee in the fee schedule. The payment is divided equally between the two surgeons. No payment is made for an assistant surgeon.*
- 66: **Team surgery:** *For informational purposes only; no extra allowance is allowed.*
- 76: **Repeat Procedure by Same Physician:** The physician may need to indicate that a procedure or service was repeated. This may be reported by adding the modifier 76 to the repeated service.
- 77: **Repeat Procedure by Another Physician:** *For informational purposes only; no extra allowance is allowed.*
- 78: **Return to the Operating Room for a Related Procedure During the Postoperative Period:** The physician may need to indicate that another procedure was performed during the postoperative period of the initial procedure. When this subsequent procedure is related to the first, and requires the use of the operating room, it may be reported by adding the modifier 78 to the related procedure. ***When multiple procedures are performed, use modifier 78 on EACH detail line.*** *Payment for these procedures is the percentage of the global package for the intra-operative services. Assistant surgeons and anesthesiologists must use modifier 99 to indicate an additional operating room procedure.*
- 79: **Unrelated Procedure or Service by the Same Physician During the Postoperative Period:** The physician may need to indicate that the performance of a procedure or service during the postoperative period was unrelated to the original procedure. This circumstance may be reported by using the modifier 79.
- 80: **Assistant Surgeon:** Surgical assistant and/or physician assistant services must be identified by adding modifier 80 to the usual procedure code(s).
- 81: **Minimum Assistant Surgeon:** Minimum surgical assistant services are identified by adding the modifier 81 to the usual procedure number. *Payment is 20% of the maximum allowance.*
- 82: **Assistant Surgeon (When Qualified Resident Surgeon Not Available):** The unavailability of a qualified resident surgeon is a prerequisite for use of modifier 82 appended to the usual procedure code number(s). *Payment is 20% of the maximum allowance.*
- 90: **Reference (Outside) Laboratory:** When laboratory procedures are performed by a lab other than the referring lab, the procedure must be identified by adding modifier 90 to the procedure code. *The reference lab NPI must be entered in the performing number field on the 1500 Claim Form or electronic claim record. The reference lab must be CLIA-certified.*

Physician-Related Services/Health Care Professional Services

- 91: **Repeat Clinical Diagnostic Laboratory Test** performed on the same day to obtain subsequent report test value(s). *Modifier 91 must be used when repeat tests are performed on the same day, by the same provider to obtain reportable test values with separate specimens taken at different times, only when it is necessary to obtain multiple results in the course of treatment. When billing for a repeat test, use modifier 91 with the appropriate procedure code.*
- 99: **Multiple Modifiers:** The ProviderOne system can read up to four modifiers on a professional transaction. Add Modifier 99 only if there are more than four modifiers to be added to the claim line. If there are four or fewer modifiers on a claim line, do not add modifier 99.
- AS: Physician assistant, nurse practitioner, or clinical nurse specialist services for assistant at surgery.
- FP Service provided as part of Family Planning Program.
- HA Child/Adolescent program
- LT **Left Side:** Used to identify procedures performed on the left side of the body. *The Agency requires this modifier with some procedure codes for proper payment.*
- QP **Documentation is on file showing that the lab test(s) was ordered individually or ordered as a CPT recognized panel other than automated profile codes.** *This modifier is now used FOR INFORMATION ONLY. Internal control payment methodology for automated multi-channel test is applied. This modifier is not appropriate to use when billing for repeat tests or to indicate not as a panel.*
- Q6 **Physician Services:** Services furnished by a locum tenens physician. *For informational purposes only; no extra allowance is allowed.*
- RT **Right Side:** Used to identify procedures performed on the right side of the body. *The Agency requires this modifier with some procedure codes for proper payment.*
- SL **State-supplied Vaccine:** *This modifier must be used with those immunization procedure codes indicated in section C to identify those immunization materials obtained from the Department of Health (DOH).*
- ST Related to Trauma or Injury
- TC: **Technical Component:** Certain procedures are a combination of professional and technical components. When only the technical component is reported, the service is identified by adding modifier TC to the procedure code. *In order to receive payment, a contract with the Agency is required if services are performed in a hospital setting.*
- TG **Complex/high level of care.**

Physician-Related Services/Health Care Professional Services

- TH **Obstetrical treatment/services, prenatal or postpartum:** *To be used only for those maternity services outlined in Section H [e.g. antepartum care requiring only 1-3 visits (CPT codes 99201-99215 TH) and labor management (CPT codes 99221-99223 TH)].*
- TJ **Child/Adolescent Program GP:** *To be used for enhancement payment for foster care children screening exams.*
- TS **Follow-up service:** *To be used only with HCPCS procedure code H0009.*
- UA **M/Caid Care Lev 10 State Def.**
- UN **Two patients served:** *To be used only with CPT code R0075.*
- UP **Three patients served:** *To be used only with CPT code R0075.*
- UQ **Four patients served:** *To be used only with CPT code R0075.*
- UR **Five patients served:** *To be used only with CPT code R0075.*
- US **Six or more patients served:** *To be used only with CPT code R0075.*

Anesthesia Modifiers

AA Anesthesia services personally furnished by an anesthesiologist. *This includes services provided by faculty anesthesiologists involving a physician-in-training (resident). Payment is 100% of the allowed amount. Modifier AA must not be billed in combination with QX.*

When supervising, the physician must use one of the modifiers below. Payment for these modifiers is 50% of the allowed amount. Modifier QX must be billed by the Certified Registered Nurse Anesthetist (CRNA).

AD Medical supervision by a physician for more than four concurrent anesthesia services.

QK Medical direction of two, three, or four concurrent anesthesia procedures involving qualified individuals.

QS Monitored anesthesia services.

To bill for monitored anesthesia care services, the following applies:

If the physician personally performs the case, modifier AA must be used and payment is 100% of the allowed amount.

If the physician directs four or fewer concurrent cases and monitored care represents two or more of the case modifiers, modifier QK must be used and payment is 50% of the allowed amount.

QS modifier must be used in the second modifier position in conjunction with a pricing anesthesia modifier in the first modifier position.

QX CRNA service with medical direction by a physician should be used when under the supervision of a physician. *Payment is 50% of the allowed amount. This modifier is payable in combination with Modifiers AD or QK, which is used by the supervising anesthesiologist. Modifier QX must not be billed in combination with AA.*

QY CRNA and anesthesiologist are involved in a single procedure and the physician is performing the medical direction. *The physician must use modifier QY and the medically directed CRNA must use modifier QX. The anesthesiologist and CRNA each receive 50% of the allowance that would have been paid had the service been provided by the anesthesiologist or CRNA alone.*

QZ CRNA service without medical direction by a physician. *Must be used when practicing independently. Payment is 100% of the allowed amount. This modifier must not be billed in combination with any other modifier.*

Billing and Claim Form

What Are the General Billing Requirements?

Providers must follow the Agency *ProviderOne Billing and Resource Guide* at: http://hrsa.dshs.wa.gov/download/ProviderOne_Billing_and_Resource_Guide.html. These billing requirements include, but are not limited to:

- Time limits for submitting and resubmitting claims and adjustments;
- What fee to bill the Agency for eligible clients;
- When providers may bill a client;
- How to bill for services provided to primary care case management (PCCM) clients;
- Billing for clients eligible for both Medicare and Medicaid;
- Third-party liability; and
- Record keeping requirements.

How Do I Bill for Multiple Services?

If multiples of the same procedure are performed on the same day, providers must bill with the appropriate modifier (if applicable) and must bill all the services on the same claim form to be considered for payment.

Completing the CMS-1500 Claim Form

Note: Refer to the Agency *ProviderOne Billing and Resource Guide* at http://hrsa.dshs.wa.gov/download/ProviderOne_Billing_and_Resource_Guide.html for general instructions on completing the CMS-1500 Claim Form.

The following CMS-1500 Claim Form instructions relate to Physician-Related Services:

Field Number	Instructions
24B	See Section J for correct place of service codes. These are the only appropriate place of service codes.
24D	Enter the appropriate procedure code for the services being billed. See the fee schedule. Modifier: When appropriate enter a modifier from the list found in Section L.
24H	When billing the Agency for one of the EPSDT screening procedure codes, enter an X in this field.

How Do I Submit Professional Services on a CMS-1500 Claim Form for Medicare Crossovers?

For services paid for, and/or applied to, the deductible by Medicare:

- Medicare should forward the claim to the Agency. If the claim is not received by the Agency, please resolve that issue prior to billing a paper claim to reduce the possibility of claim denial and the need to resubmit.
- Complete the claim form as if billing for a non-Medicare client.
- Always attach the Medicare Explanation of Medicare Benefits (EOMB).
- Do not indicate any payment made by Medicare in field 29. Enter only payments made by non-Medicare, third-party payers (e.g., Blue Cross) in field 29 and attach the Explanation of Benefits (EOB).

Note: If Medicare allowed/paid on some services and denied other services, the allowed/paid services must be billed on a different claim than the denied services.

Exception: When billing crossover claims for Indian Health Services, follow the instructions in the current Agency *Tribal Health Program Billing Instructions*.

What Does the Agency Require from the Provider-Generated EOMB to Process a Crossover Claim?

Header level information on the EOMB must include all the following:

- Medicare as the clearly identified payer;
- The Medicare claim paid or process date;
- The client's name (if not in the column level);
- Medicare Reason codes; and
- Text in font size 12 or greater.

Column level labels on the EOMB for the 1500 Claim Form must include all the following:

- The client's name;
- Date of service;
- Number of service units (whole number) (NOS);
- Procedure Code (PROC);
- Modifiers (MODS);
- Billed amount;
- Allowed amount;
- Deductible;
- Amount paid by Medicare (PROV PD);
- Medicare Adjustment Reason codes and Remark codes; and
- Text that is font size 12.
