Definitions

This list defines terms and abbreviations, including acronyms, used in this provider guide. See the agency's [Washington Apple Health Glossary](#) for a more complete list of definitions.

Agency - The Washington State Health Care Authority.

Alcohol abuse - (Use of this definition ends September 30, 2015.) Use of alcohol in amounts dangerous to individual health or safety.

Alcoholism - (Use of this definition ends September 30, 2015.) A disease characterized by all of the following:

- A dependence on alcoholic beverages or the consumption of alcoholic beverages
- Loss of control over the amount and circumstances of use
- Symptoms of tolerance
- Physiological or psychological withdrawal, or both, if use is reduced or discontinued
- Impairment of health or disruption of social or economic functioning

Alcoholism or alcohol abuse treatment (outpatient) - (Effective October 1, 2015, the new term will be Substance use disorder treatment - outpatient.) Medical and rehabilitative social services provided to an eligible enrollee designed to mitigate or reverse the adverse effects of alcoholism or alcohol abuse and to reduce or eliminate alcoholism or alcohol abuse behaviors and restore normal social, physical, and psychological functioning. Alcoholism or alcohol abuse treatment is characterized by a combination of alcohol education sessions, individual therapy, group therapy, and related activities provided to detoxified alcoholics and their families.

Approved treatment facility - A treatment facility, either public or private, for profit or nonprofit, approved by the agency according to WAC 388-877 and RCW [70.96A](#).

American Society of Addiction Medicine (ASAM) - An international organization of physicians dedicated to improving the treatment of persons with substance use disorders.

Assessment - The set of activities conducted on behalf of a new patient, for the purpose of determining eligibility, evaluating treatment needs, and making necessary referrals and completing forms. The assessment includes all practices listed in applicable sections of Chapter [388-810](#) WAC or its successor. For the purpose of determining eligibility for Chemical Dependency Disposition Alternative (CDDA), the set of activities will include completion of all of the following:

- The Adolescent Drug Abuse Diagnosis (ADAD)
- The *Kiddie* version of the Schedule of Affective Disorders and Schizophrenia (K-SADS)
- American Society of Addiction medicine (ASAM) questionnaire forms

Case management - Services provided by a Chemical Dependency Professional (CDP) or CDP Trainee to enrollees assessed as needing treatment and admitted into treatment. Services are provided to assist enrollees in gaining access to needed medical, social, educational, and other services. Services include case planning, case consultation and referral, and other support services for the purpose of

engaging and retaining or maintaining enrollees in treatment.

Chemical Dependency Disposition Alternative (CDDA) - A sentencing option of chemically dependent youth offenders which allows judges to order community-based treatment in lieu of confinement. (RCW 13.40.165)

Chemical Dependency Professional (CDP) - A person certified as a chemical dependency professional by the Washington State Department of Health under Chapter 18.205 RCW.

Chemical Dependency Professional Trainee (CDPT) - A person certified as a chemical dependency professional trainee by the Washington State Department of Health under Chapter 18.205 RCW.

Children’s Administration (CA) initial screen – An evaluation specifically for enrollees referred by the Children’s Administration, where the substance use disorder agency begins the assessment process, completes the initial short assessment (GAIN-SS) and urinalysis, but does not complete the expanded assessment due to the enrollee’s failure to return and complete the expanded assessment.

Courtesy dosing - Temporary dosing from another approved opiate substitution treatment facility when the enrollees are away from their home clinic.

Criminal justice funding sources - Several funding sources are available for use as the state match portion of Medicaid substance use disorder treatment services for offenders. These funding sources are:

- **Criminal Justice Treatment Account (CJTA)** - A fund authorized by the

state Legislature to provide community-based substance abuse treatment alternatives for offenders with an addiction or substance abuse problem against whom charges are filed by a prosecuting attorney in Washington State.

- **Repeat Driving Under the Influence (RDUI)** - A fund authorized by the state Legislature to provide court ordered community-based substance abuse treatment alternatives for offenders who have a current DUI offense and at least one DUI conviction within ten years of the current driving offense. The individual must also have a substance use disorder condition as assessed by a certified chemical dependency professional.
- **State Drug Court** - A fund authorized by the state Legislature to provide community-based substance abuse treatment alternatives for offenders with an addiction or substance abuse problem enrolled in a drug court located in Washington State. State Drug Court can only be provided by providers under contract with the following counties:
 - ✓ Clallam
 - ✓ Cowlitz
 - ✓ King
 - ✓ Kitsap
 - ✓ Pierce
 - ✓ Skagit
 - ✓ Spokane
 - ✓ Thurston

Division of Behavioral Health and Recovery (DBHR) - The Division of Behavioral Health and Recovery (DBHR), Department of Social and Health Services, provides support for men-

tal health, substance use disorder, and problem gambling services. The public mental health programs promote recovery and resiliency and reduces the stigma associated with mental illness. The substance abuse prevention and substance use disorder treatment programs promote strategies that support healthy lifestyles by preventing the misuse of alcohol, tobacco, and other drugs, and support recovery from the disease of substance use disorder. The problem gambling program mitigates the effects of problem gambling on the family and helps families remain economically self-sufficient without requiring assistance from other state programs. DBHR brings operational elements like medical assistance, substance use disorder and mental health into closer working relationships that serve enrollees more effectively and efficiently than before.

Drug abuse - The use of a drug in amounts dangerous to a person's health or safety.

Drug addiction - A disease characterized by all of the following:

- A dependency on psychoactive chemicals.
- Loss of control over the amount and circumstances of use
- Symptoms of tolerance, physiological or psychological withdrawal, or both, if use is reduced or discontinued
- Impairment of health or disruption of social or economic functioning

Drug addiction or drug abuse treatment - Medical and rehabilitative social services provided to an eligible enrollee designed to mitigate or reverse the effects of drug addiction or drug abuse and to reduce or eliminate drug addiction or drug abuse behaviors and restore normal physical and psychological functioning. Drug addiction or drug abuse treatment is characterized by a combination of drug and alcohol education sessions, individual therapy,

group therapy and related activities provided to detoxified addicts and their families.

Enrollee - A person receiving substance use disorder services from a DBHR-certified agency.

Group therapy - Planned therapeutic or counseling activity conducted by one or more certified CDPs or CDPTs to a group of three or more unrelated individuals and lasting at least 45 minutes. Acupuncture may be included as a group therapy activity if all of the following are met:

- A CDP or CDPT is present during the activity
- The provision of these services is written into the master treatment plan for the enrollee
- The services are documented in the enrollee case file in the progress notes

Individual therapy - A planned therapeutic or counseling activity provided to an eligible enrollee by a certified chemical dependency professional (CDP) or a CDP trainee under the supervision of a CDP. Individual therapy includes treatment provided to a family group consisting of a primary enrollee and one or more significant others, or treatment provided to a couple who are partnered. Individual therapy may be provided to a family group without the primary enrollee present or to an enrollee without the family present.

Intake processing- The set of activities conducted on behalf of a new patient. Intake processing includes all practices listed in applicable sections of Chapter 388-877 WAC or its successor. Intake processing includes obtaining a written recommendation for substance use disorder treatment services from a referring licensed health care practitioner.

Intensive youth case management - Services provided by a certified CDP or CDPT acting

as a case manager. These services are for youth who are both of the following:

- Under the CDDA program
- In need of substance use disorder treatment services

The purpose is to assist juvenile offenders in the Juvenile Justice Rehabilitation Administration (JJRA) system to obtain and efficiently utilize necessary medical, social, educational and other services to improve treatment outcomes. A provider must hold a contract with JJRA to provide this service. Minimum standards of performance are issued by JJRA.

Juvenile Justice Rehabilitation Administration (JJRA) - An administration within the Department of Social and Health Services responsible for providing a continuum of preventative, rehabilitation, residential, and supervisory programs for juvenile offenders and their families.

Maximum allowable - The maximum dollar amount for which a provider may be reimbursed by the agency for specific services, supplies, or equipment.

Opiate substitution treatment (OST) - Services provided to enrollees in accordance with Chapter 388-877 WAC or its successor. Services are consistent with all state and federal requirements and good treatment practices and bundled services must include, as a minimum, all of the following services:

- Physical evaluation upon admission
- Urinalysis testing*
- Medical examination within 14 days of admission and annually thereafter
- Initial treatment plan and treatment plan review one time per month for the first three months and quarterly thereafter

- Vocational rehabilitation services as needed (may be by referral)
- Dose preparation and dose dispensing (Methadone, Suboxone, or Buprenorphine) Detoxification if and when needed
- Patient case management;
- Individual and/or group counseling one time per week for the first three months and monthly thereafter
- One session of family planning; 30 minutes of counseling and education per month for pregnant enrollees
- HIV screening, counseling, and testing referral
- Courtesy dosing

*Urinalysis tests (UA) are part of the bundled service daily rate. A minimum of 8 tests per year are required by WAC 388-805-720. UA tests cannot be billed separately, even when they exceed the minimum number required. UA test costs are always included in the bundled service daily rate.

Note: No additional fee will be reimbursed for different types of medication used.

Pregnant and postpartum women (PPW) assessment - Assessment provided to an eligible woman who is pregnant or postpartum. The postpartum period covers the 60 days after delivery and any remainder of the month in which the 60th day falls.

Substance use disorder - An alcohol or drug addiction, or dependence on alcohol and one or more other psychoactive chemicals.

Temporary Assistance For Needy Families (TANF) - The federal welfare program established in 1996 that combined the Aid to Families with Dependent Children (AFDC) (cash aid) and the JOBS Opportunities and Basic Skills (welfare-to work) programs into one program funded by one federal block grant.

TANF enrollee - Enrollees eligible for TANF who are receiving assessment and treatment services.

Tuberculosis (TB) testing -Administration and reading of the Intradermal Skin Test, to screen for tuberculosis, by: licensed practitioners within the scope of their practice as defined by state law or by the Department of Health (DOH), WACs, or as provided by a tuberculosis community health worker approved by the DOH.

Urinalysis – Analysis of an enrollee’s urine sample for the presence of alcohol or controlled substances by a licensed laboratory or a provider who is exempted from licensure by the Department of Health.

Withdrawal management – Care and treatment of a person while the person recovers from the transitory effects of acute or chronic intoxication or withdrawal from alcohol or other drugs.

- **Acute withdrawal management** – A method of withdrawing an enrollee from alcohol or other drugs where nursing services and medications are routinely administered under physician supervision to facilitate the enrollee’s withdrawal. Services include medical screening of enrollees, medical detoxification of enrollees, counseling of enrollees regarding their illness, to stimulate motivation to obtain further treatment, and referral of detoxified enrollees to other appropriate treatment programs. Acute Detoxification services include all services in Chapter 246-337 WAC and Chapter 388-877 WAC or its successors.
- **Sub-acute withdrawal management** – A method of withdrawing an enrollee from alcohol or other drugs utilizing primarily

social interaction between patients and staff within a supportive environment designed to facilitate safety for patients during recovery from the effects of withdrawal from alcohol or other drugs. Withdrawal medications are ordered by a physician and self-administered by the enrollees, not staff. Services include screening of enrollees, non-medical detoxification of enrollees, counseling of enrollees regarding their illness to stimulate motivation to obtain further treatment, and referral of detoxified enrollees to other appropriate treatment programs. Sub-acute detoxification services include all services in Chapter 246-337 WAC and Chapter 388-877 WAC or their successors.

Substance Use Disorder Treatment

Who should use this provider guide?

- Outpatient substance use disorder treatment centers contracted through the Division of Behavioral Health and Recovery (DBHR), counties with DBHR funds, and the Juvenile Justice Rehabilitation Administration (JJRA)
- Withdrawal Management (Detoxification) centers contracted by the counties with DBHR funds

Use this provider guide and fees in conjunction with your county contract or Core Provider Agreement on file with the Health Care Authority or your contract with JJRA.

Contract stipulations always take precedence over provider guides.

Enrollee Eligibility

Who can receive substance use disorder treatment services?

Enrollees must have a Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM-V) diagnosis of substance use disorder, mild, moderate, or severe in order to receive services.

Enrollees must meet medical necessity criteria as stated in the American Society of Addiction Medicine (ASAM).

How can I verify an enrollee's eligibility?

Providers must verify that an enrollee has Washington Apple Health coverage for the date of service, and that the enrollee's benefit package covers the applicable service. This helps prevent delivering a service the agency will not pay for.

Verifying eligibility is a two-step process:

Step 1. Verify the enrollee's eligibility for Washington Apple Health. For detailed instructions on verifying an enrollee's eligibility for Washington Apple Health, see the *Client Eligibility, Benefit Packages, and Coverage Limits* section in the agency's current [ProviderOne Billing and Resource Guide](#).

If the patient is eligible for Washington Apple Health, proceed to **Step 2**. If the patient is **not** eligible, see the note box below.

Step 2. Verify service coverage under the Washington Apple Health enrollee's benefit package. To determine if the requested service is a covered benefit under the Washington Apple Health enrollee's benefit package, see the agency's [Health Care Coverage—Program Benefit Packages and Scope of Service Categories](#) web page.

Note: Patients who are not Washington Apple Health enrollees may submit an application for health care coverage in one of the following ways:

1. By visiting the Washington Healthplanfinder's website at:
www.wahealthplanfinder.org
2. By calling the Customer Support Center toll-free at: 855-WAFINDER (855-923-4633) or 855-627-9604 (TTY)
3. By mailing the application to:
Washington Healthplanfinder
PO Box 946
Olympia, WA 98507

In-person application assistance is also available. To get information about in-person application assistance available in their area, people may visit www.wahealthplanfinder.org or call the Customer Support Center.

What types of identification verify eligibility?

The following is a list of valid types of eligibility identification:

- A Services Card issued by the agency or agency's designee
- A printout of a medical identification screen from the enrollee's local Community Services Office (CSO), Home and Community Service (HCS) office, or the agency or agency designee
- An award letter from the CSO or HCS
- A medical eligibility verification (MEV) receipt provided by an authorized MEV vendor with an "as of" date within the same month as the date of service
- A printout of the client's eligibility inquiry screen from ProviderOne

Note: The agency recommends making a photocopy for the file when a client presents identification.

Check the identification for all of the following information:

- Beginning and ending eligibility dates. The enrollee's Medical Assistance identification document must show eligibility for the date(s) services are rendered
- The ProviderOne Client ID
- Other specific information (e.g. private insurance)
- Retroactive or delayed certification eligibility dates, if any

Are clients enrolled in an agency-contracted managed care organization eligible?

Yes. Clients enrolled in an agency managed care organization (MCO) are eligible for substance use disorder treatment services outside their plan. The agency reimburses substance use disorder treatment services through fee-for-service. **No referral is required from the managed care plan when services are provided by DBHR-funded providers.**

Note: See the Division of Behavioral Health and Recovery (DBHR) [Crosswalk](#) for ProviderOne (ACES) coverage group codes.

When verifying eligibility using ProviderOne, if the client is enrolled in an agency-contracted managed care plan, managed care enrollment will be displayed on the Client Benefit Inquiry screen.

Note: To prevent billing denials, check the client's eligibility **before** scheduling services and at the **time of the service** and make sure proper authorization or referral is obtained from the plan. See the agency's [ProviderOne Billing and Resource Guide](#) for instructions on how to verify a client's eligibility.

Billing and Claim Forms

What are the general billing requirements?

Providers must follow the agency's [ProviderOne Billing and Resource Guide](#). These billing requirements include:

- What time limits exist for submitting and resubmitting claims and adjustments.
- When providers may bill an enrollee.
- How to bill for services provided to primary care case management (PCCM) enrollees.
- How to bill for enrollees eligible for both Medicare and Medicaid.
- How to handle third-party liability claims.
- What standards to use for record keeping.

What are the record keeping requirements specific to substance use disorder treatment providers?

- A substance use disorder assessment and history of involvement with alcohol and other drugs
- Initial and updated individual treatment plans, including results of the initial assessment and periodic reviews
- Date, duration, and content of counseling and other treatment sessions
- Progress notes as events occur, and treatment plan reviews as specified under each treatment service or Chapter 388-877 WAC
- Release of information form signed by the enrollee to share information with the agency
- A copy of the continuing care plan signed and dated by the CDP and the enrollee
- The discharge summary

What if an enrollee has Medicare coverage?

Medicare does not pay for substance use disorder treatment services provided in freestanding outpatient treatment centers unless the services are actually **provided** by a physician (not just **overseen** by a physician). Do not bill Medicare prior to billing the agency or agency designee for substance use disorder treatment services.
