

**86 million
are at risk,
are you?**

Attend the screening event and learn your risk for developing type 2 diabetes.

One out of three Americans is at risk for type 2 diabetes.¹ We're excited to offer you an easy way to help lose weight and reduce risk of developing type 2 diabetes. And best of all, you can participate at NO COST to you as part of your health plan.*

Fasting glucose test:

1. Take all medications as prescribed.
2. No food or drink (except water) for 8-10 hours before screening.

You will receive:

- ▶ 16 weekly health coaching sessions.
- ▶ Support to track your progress, learn healthy eating habits, and reduce stress.
- ▶ Physical activity guidelines.
- ▶ Motivational techniques.

What's your score? If you score 9 or higher, call today!

Y	N	QUESTION
1	0	Are you a woman who had a baby weighing more than 9 pounds at birth?
1	0	Do you have a sister or brother with diabetes?
1	0	Do you have a parent with diabetes?
5	0	Find your height on the chart to the right. Do you weigh more than the weight listed for your height? (see chart to the right)
5	0	Are you younger than 65 years of age and get little or no exercise in a typical day?
5	0	Are you between 45 and 65 years of age?
9	0	Are you 65 years of age or older?

About Your Score

9 or more points: High risk for prediabetes. Prediabetes means your blood glucose (sugar) is higher than normal, but not yet diabetes. Type 2 diabetes can be delayed or prevented through effective lifestyle change programs, like the Diabetes Prevention Program.

3 to 8 points: Lower risk for having prediabetes today, but keep your risk low by maintaining a healthy weight.

You qualify if you have a risk quiz score 9 or higher and have a body mass index (BMI) of 25 or higher (22 or higher for Asian ethnicity). You qualify if you weigh more than the weight listed in the above chart. You can also qualify if your blood value is in the prediabetes range. Call for more information.
