# Data and Reporting Breakout Session

- Kathy Pickens-Rucker, HCA
  - Overview of changes in data and reporting and the work underway to support those changes
- Katie Weaver-Randall, DSHS
  - Historic data in TARGET and the current mental health reporting system (CIS)
  - Status of the new DSHS Behavioral Health Data System
- Trinidad Medina, SWBH (current RSN)
  - Historic RSN data, including what has/will be shared with the MCOs and Beacon to help with transition
- Q&A

Current Flow of Mental Health Data

RSN Data Systems → **DSHS CIS**

- RSNs need and use the data
- RSNs submit transactions on behalf of Mental Health providers
- CIS data is used to fulfill federal reporting requirements, measure performance, and other processes

Current Flow of Substance Use Disorder (SUD) Data

DSHS TARGET

- SUD providers, including Tribal providers, submit transactions directly into TARGET
- SUD providers also submit claims directly to TARGET to get paid
- Data is used to fulfill reporting requirements, measure performance, and other processes

New Flow of BH Data

- MCOs, ASO, and BHOs submit data to the new DSHS system and submit encounters to ProviderOne

- Some processes for collecting required data from providers are still being designed and may differ between payers
