

P&T Motion History Drugs to treat Alzheimer's

Drugs Reviewed	Motion	Date Reviewed	Scan Accepted as Adequate	Reiteration of Prior Motion	Decision
donepezil galantamine memantine • Namenda XR* memantine/donepezil* rivastigmine <i>tacrine *</i>	After considering the evidence of safety, efficacy and special populations for the treatment of Alzheimer's disease, I move that donepezil HCL, galantamine HBR, rivastigmine tartrate and memantine HCL are safe and efficacious. Donepezil and memantine must be included as preferred drugs on the Washington State Preferred Drug List. No drug in this class (donepezil HCL, galantamine HBR, rivastigmine tartrate, memantine HCL) can be subject to therapeutic interchange in the Washington preferred drug list for the treatment of Alzheimer's disease.	December 21, 2016	Yes Figuroa Johnson	Yes Klingel Harvey	Passed Unanimous

*Not eligible for inclusion on the PDL
