About

In 2019, the Washington State Legislature passed a law (Chapter 43.71C RCW) which creates the Drug Price Transparency (DPT) program at Health Care Authority (HCA). The law requires issuers of health insurance, pharmacy benefit managers (PBMs), manufacturers, and pharmacy service administrative organizations (PSAOs), to submit data on drug costs and pricing to HCA, for the agency to create annual reports for the public and legislature synthesizing the data to demonstrate the overall impact that drug costs, rebates, and other discounts have on health care premiums.
HCA developed this submission guide with input from stakeholders. This included a process which allowed for stakeholder review and comment on drafts of data definitions. HCA has final approval authority over the data submission guides and all subsequent changes.

For recent updates about the Drug Price Transparency (DPT) program, please see the link below:

Definitions
"Authority" means the health care authority.

"Brand Drug" means a product whose national drug code number, depending on the applicable Drug Pricing Reference, (a) has a First Data Bank Generic Product Flag of “0”, “2”, or “3” on the date the claim was adjudicated; or (b) has a MediSpan Multi-Source Indicator of “M” (co-branded product), “O” (originator brand) or an “N” (single source brand) for the Covered Product on the date the claim was adjudicated; except where the claim is submitted with a DAW code of “5” in which case it shall be considered a Generic Drug.

"Calendar days" means the same as in WAC 182-526-0010.

"Calendar year" means the period from January 1 to December 31 of each year.

"Current year" means calendar year 2019, for plan year 2019 and means calendar year 2018, for plan year 2018.

"Data" means all data provided to the authority under RCW 43.71C.020 through 43.71C.080 and any analysis prepared by the authority.

"Data submission guide" means the document identifies the data required under RCW 43.71C, and provides instructions for submitting this data to the authority, including guidance on required format for reporting, for each reporting entity.

"Generic Drug" means product that based on the Drug Pricing Reference. Specifically, Generic Drug means a product a product whose national drug code number, depending on the applicable Drug Pricing Reference, has a First Data
Bank “Generic Product Flag of “1” on the date the claim was adjudicated, and the MediSpan Multi-Source Indicator for the Covered Drug is a “Y” on the date dispensed. A drug product that has a First Data Bank Generic Product Flag of “0”, “2”, or “3” on the date the claim was adjudicated; or (b) has a MediSpan Multi-Source Indicator of “M” (co-branded product), “O” (originator brand) or an “N” (single source brand) for the Covered Product on the date the claim was adjudicated shall be considered a Generic Drug.

"Health care provider," "health plan," "health carrier," and "carrier" mean the same as in RCW 48.43.005.

"Introduced to market" means marketed in Washington State.
"Pharmacy benefit manager" means the same as in RCW 19.340.010.

"Prescription drug" means a drug regulated under chapter 69.41 or 69.50 RCW, including generic, brand name, specialty drugs, and biological products that are prescribed for outpatient use and distributed in a retail setting.

“Premium” means the amount members pay to the carrier or health plan for their medical and prescription drug insurance.

“Prior Year” means calendar year 2018, for plan year 2019 and means calendar year 2017, for plan year 2018.

"Rebate" means negotiated price concessions, discounts, however characterized, that accrue directly or indirectly to a reporting entity in connection with utilization of prescription drugs by reporting entity members including, but not limited to, rebates, administrative fees, market share rebates, price protection rebates, performance-based price concessions, volume-related rebates, other credits, and any other negotiated price concessions or discounts that are reasonably anticipated to be passed through to a reporting entity during a coverage year, and any other form of price concession prearranged with a covered manufacturer, dispensing pharmacy, pharmacy benefit manager, rebate aggregator, group purchasing organization, or other party which are paid to a reporting entity and are directly attributable to the utilization of certain drugs by reporting entity members.

"Reporting entity" means carriers, covered manufacturers, health carriers, health plans, pharmacy benefit managers, and pharmacy services administrative organizations, which are required to or voluntarily submit data according to chapter 43.71C RCW.

"Wholesale acquisition cost" means, with respect to a prescription drug, the manufacturer’s list price for the drug to wholesalers or direct purchasers in the United States, excluding any discounts, rebates, or reductions in price, for the most recent month for which the information is available, as reported in wholesale acquisition cost guides or other publications of prescription drug pricing.
Submission Schedule

How to Register

In order to submit data to HCA, you must first complete the registration process and receive credentials to submit data through the Secure File Transfer (SFT) service offering hosted by Washington Technology Solutions (WATECH).

To register, you must complete and submit the registration form to HCA. You can access the form at the link below. Once you’ve completed the required information in the form, click the “Submit” button to generate an email. Registering thirty days in advance of a reporting due date for this program is strongly encouraged, in order to ensure ample time for you to be added to the system and given the ability to submit files by October 16, 2020.

The form must be filled out completely. Incomplete submissions can cause delays in the registration process. Please see the contact email for any questions or concerns about the form and the registration process.

Once your registration is processed, you will be contacted by IT staff from HCA to establish your credentials to submit data to HCA.
How to Submit

To submit files for the Drug Price Transparency program, you will need to use the Secure File Transfer (SFT) service offering hosted by Washington Technology Solutions (WATECH), using the credentials provided to you by HCA. This will provide you with access to a personalized folder for your organization, where you can upload your submissions.

For more details on the process of connecting to SFT, and the tools that can be used to do so, please see “Appendix A – ST Web Client User Guideline” and “Appendix B – SFT Client Options (Partial List)”.

There are checks in place to protect the SFT service which may result in the rejection of your submission, without notice. It is unlikely that you will ever trigger these protections, as the size and frequency of the submissions required for this program will never approach these limits. However, accidentally exceeding them could result in termination of your SFT credentials. These limits include (but are not limited to); any file uploaded above 30GB and an upload or download of 50,000 files or above in a 24-hour period. If you suspect that your SFT credentials are no longer working, please contact the DPT program staff.

Resubmissions

In the event that your submission is rejected, HCA will issue you a warning notice describing the reason your submission was rejected. Within 30 days after you receive the warning notice, you will need to resubmit the file after you have made the necessary corrections or request an extension of the due date. If you fail to comply with reporting requirements after receiving a warning notice, the authority may assess a fine.

To ensure that you receive credit for a resubmission, you should use the same YYYYMMDD value in the file name as you did in your first submission. For example, if you submitted the file ‘my_file_A12345_20201001.csv’, and received a rejection, after making corrections you should resubmit the file with the same name as it was originally submitted under, even if the date of resubmission is January 1, 2021.

Submission Specifications

Data Validation

Every submitted file is checked by automated and manual processes to ensure that the data meets the requirements of RCW 43.71C and is compatible with HCAs reporting software. The automated processes are applied shortly after submission and ensure that the data meet all of the technical rules described in the Table Specifications. These primarily cover checks of data types (number vs. string) and formats (2020-01-01 vs. 01/01/2020). The manual processes are performed by program staff after submission, and include more robust checks of the data for validity.

These validations may result in the rejection of your file submission. In the case of an automatic validation failure, the system will send an automated email to the email address registered for your organization. The automated email provides details on the reason for rejection. In the case of a manual validation failure, program staff will send an email explaining the reason for the rejection. In both cases, you will be required to resubmit your file after making the appropriate corrections.

If your submission passes the automated validation, you will receive an email confirming this at the registered email address for your organization. If you do not receive an automated notification of either success or failure within 72 hours, please contact DPT program staff at drugtransparency@hca.wa.gov for confirmation that your submission was received, and processed.

File Specifications

All files submitted must be text files with comma-separated values (CSV). The text should be encoded using the UTF-8 standard. Line endings in UNIX (“\n”) or Windows (“\r\n”) format are both acceptable. The header row must be included in every file. For detailed technical guidance, see the Library of Congress CSV Definition.
Appropriately formatted files can also be generated via Microsoft Excel by saving a spreadsheet in CSV format. This will remove many of the features included in Excel, such as formatting, formulas, and “sheets”, so you may want to save a copy in Excel format for your own reference in the future.

File names should follow the naming scheme specified for the specific data that you are submitting. See the Table Specifications section for more information.

Data Specifications

Null Values: if you do not have any data to provide for a field, leave the field “blank” (e.g. an empty string). Do not provide the value as “NULL”, or otherwise provide a special indicator of a null value.

All fields are required, unless otherwise indicated in the table specification. If a field is not required, that will be indicated with the word “Nullable” in the specification. In those cases, you can provide a blank value. In all other cases, providing a blank value will result in a rejection by the automated validation.

Date Formats: unless otherwise specified, all dates should be reported in ISO-8601 format with hyphens between years, months and days: “YYYY-MM-DD”. For example, Nov. 1st, 2020 would be recorded as “2020-11-01”.

Table Specifications

Cost Utilization

This report contains all of the data fields necessary to comply with reporting the cost and utilization to determine the top 25 drugs (defined by chemical names) by frequently prescribed, costliest, increase in WAC, and frequently prescribed with rebate as required in RCW 43.71C.020.

Files submitted for carrier cost utilization report should be named using the following schema, where ID is the manufacturer ID assigned to you by HCA during the registration process (Washington DPT Number), and YYYYMMDD is a placeholder for the submission date. In the case of a resubmission after file rejection, please use the same value for YYYYMMDD as the file that was rejected.

File naming schema: carrier_cost_utilization_{ID}_{YYYYMMDD}.csv

The first submission of this report is due on October 16, 2020, and should include data effective for 2018 and 2019. Follow up submissions are due on an annual basis by October 1st, and should cover the entire current year. Please see the Submission Schedule for more detail.

Drug Price Transparency Carrier Data Submission Guide version 1.2
<p>| Name: Utilization Rank | Rank of top 25 most frequently prescribed prescription drugs (aggregated by Chemical/Biochemical/Blood Product Name) as defined by the most day’s supplies for each health plan in the current year. If the NDC is not one of the top 25 most frequently prescribed prescription drugs by Chemical/Biochemical/Blood Product Name, then leave the field “blank” (e.g. an empty string). Highest amount of days’ supply reported in the current year would qualify as the top for utilization rank. This includes all paid claims in the current year regardless of provider network status. This should include all claim types, such as foreign claims, direct member reimbursement claims/paper claims, coordination of benefits, compounds, Veteran Affairs, 340b, etc. |
| Name: Costliest Rank | Rank of top 25 costliest prescription drugs (aggregated by Chemical/Biochemical/Blood Product Name) by total plan spending for each health plan, including dispensing fees, net of any rebates, and excluding penalties or incentives to the pharmacy, in the current year. If not one of the top 25 costliest prescription drugs by Chemical/Biochemical/Blood Product name for this rank, then leave the field “blank” (e.g. an empty string). This should include all claim types, such as foreign claims, direct member reimbursement claims/paper claims, coordination of benefits, compounds, Veteran Affairs, 340b, etc. |
| Name: WAC Increase Rank | Rank of top 25 prescription drugs (aggregated by Chemical/Biochemical/Blood Product Name) with the highest WAC increase from the prior year to the current year, excluding prescription drugs made available for the first time that plan year, for each health plan, expressed as a percentage. Defined as WAC on December 31st of the current year minus WAC on December 31st, of the prior year, divided by WAC on December 31st of the prior year. For example: (WAC December 31, 2019 – WAC December 31, 2018)/WAC December 31, 2018 If not one of the top 25 prescription drugs by Chemical/Biochemical/Blood Product name, with the highest year over year WAC increase, then leave the field “blank” (e.g. an empty string). |
| Name: Rebate Rank | Rank of top 25 prescription drugs (as defined by Chemical/Biochemical/Blood Product Name) most frequently prescribed drugs as defined by total rebates collected, for each health plan, in the current year. If not one of the top 25 prescription drugs by Chemical/Biochemical/Blood Product Name, for this rank, then leave the field “blank” (e.g. an empty string). |
| Name: NDC | A three-segment code maintained by the Federal Food and Drug Administration that includes a labeler code, a product code, and a package code for a drug product. |
| Name: Chemical/Biochemical/Blood Product Name | Ingredient name, including salt form, without any other modifying elements, to be used as a grouper. For example, “fluoxetine” and “fluoxetine HCL”, is acceptable. “Fluoxetine DR”, “fluoxetine 20 mg tablets” are unacceptable for this field. |</p>

**Premium Impact**

This report contains all of the data fields necessary to comply with reporting the impact of brand, generic, and specialty drugs on health plan premiums as required in RCW 43.71C.020(4), 43.71C.020(5), 43.71C.020(6).

Files submitted for carrier premium impact report should be named using the schema below, where ID is the manufacturer ID assigned to you by HCA during the registration process (Washington DPT Number), and YYYYMMDD is a placeholder for the submission date. In the case of a resubmission after file rejection, please use the same value for YYYYMMDD as the file that was rejected.
The first submission of this report is due on October 16, 2020, and should include data effective for 2018 and 2019. Follow up submissions are due on an annual basis by October 1st, and should cover the entire current year. Please see the Submission Schedule for more detail.

**Specialty Drug List**

This report contains all of the data fields necessary to comply with reporting the list of specialty drugs covered by a health plan as required in RCW 43.71C.020(7).

Files submitted for carrier specialty drug list report should be named using the following schema, where ID is the manufacturer ID assigned to you by HCA during the registration process (Washington DPT Number), and YYYYMMDD is a placeholder for the submission date. In the case of a resubmission after file rejection, please use the same value for YYYYMMDD as the file that was rejected.

**File naming schema:** carrier_specialty_drug_list_{ID}_{YYYYMMDD}.csv

The first submission of this report is due on October 16, 2020, and should include data effective for 2018 and 2019. Follow up submissions are due on an annual basis by October 1st, and should cover the entire current year. Please see the Submission Schedule for more detail.
