PRD Report – run daily

Each morning, the previous days PRD changes must be pulled and the updates entered into SharePoint

- 1. Open the "PRD UPDATES" excel document on the shared drive W:\Health Care Services\Healthcare Finance Unit\ACA\Reports
 - Create a new tab and name it the previous day's date
 - If more than one date is in the past, (i.e. on Monday you would pull Friday's date, but there were also notification made on Saturday and/or Sunday) make a separate tab for each date
- 2. Open the Work Release SP and the Releasing SP http://wadoc/sites/healthsvcs/mdu/Lists/Release%20Medicaid%20%20Work%20List/AllItems.a <u>spx</u>

http://wadoc/sites/healthsvcs/mdu/Lists/WR%20Medicaid%20Applications/AllItems.aspx

- 3. Open mailbox in OMNI:
 - Click on "Assignments" tab
 - Click on the "View Mailbox Notifications" link on the right side •

- Delete the last two columns in Excel, "System Generated" and "date"
- Also, delete "Information Only" and "Normal" columns
- If the offender is not in the SharePoint
 - it is okay unless it is for the currently month or within a few (then bring it to the supervisor's attention)
 - \circ Transfers where the location is a Violator Facility will not show that is ok
- Save
- 4. Sort the Excel spreadsheet by last name to put in order.
- 5. Look each DOC offender up in OMNI and see where they are located. If they are at a Violator facility, or CPA, no need to update.

- 6. If they are in a DOC facility, or Work Release, compare the ERD/PRD date to the SharePoint. Update as needed and update the "PRD" box if offender now has PRD.
- 7. Email the Unit after the report is updated.
- 8. Delete the **prior** day's notifications from OMNI by clicking each box (no more than 50 at a time) and click "delete" the "OK" in the next pop-up window AFTER it has been saved in Excel.

<u>*****Make sure you do not delete any notifications</u> for the current day!****
