

Washington Apple Health (Medicaid)

Dental-Related Services Program Billing Guide

April 1, 2020

Every effort has been made to ensure this guide's accuracy. If an actual or apparent conflict between this document and an agency rule arises, the agency rules apply.

About this guide*

This publication takes effect April 1, 2020, and supersedes earlier billing guides to this program.

The Health Care Authority (agency) is committed to providing equal access to our services. If you need an accommodation or require documents in another format, call 1-800-562-3022. People who have hearing or speech disabilities, call 711 for relay services.

You must bill services, equipment, or both, related to any of the programs listed below using the agency's Washington Apple Health program-specific billing guides:

- [Access to baby and child dentistry \(ABCD\)](#)
- [Orthodontic services](#)
- [Oral Health Connection](#)

Washington Apple Health means the public health insurance programs for eligible Washington residents. Washington Apple Health is the name used in Washington State for Medicaid, the children's health insurance program (CHIP), and state-only funded health care programs. Washington Apple Health is administered by the Washington State Health Care Authority.

Refer also to the agency's [ProviderOne billing and resource guide](#) for valuable information to help you conduct business with the agency.

* This publication is a billing instruction.

What has changed?

Subject	Change	Reason for Change
COVID-19	For the most current information regarding policy during the COVID-19 pandemic, please go to the COVID-19 webpage .	Ease of finding information regarding dental changes related to COVID-19.
Entire document	General housekeeping, including formatting changes, hyperlink fixes, and corrected typographical errors.	To improve usability of document
<u>Extractions</u>	Added note box for emergency dental procedures. For dates of service March 30, 2020, through April 30, 2020, HCA has temporarily increased the rate for the following CDT® codes: D7140, D7210, D7220, D7230, and D7240.	<p>COVID-19 billing update for emergency dental procedures.</p> <p>Updated April 15, 2020, HCA is extending the end date for these policies on a “to be determined” basis. The agency will continue to reevaluate and give sufficient notice when these policies do expire.</p>
<u>Anesthesia</u>	Added note box for temporary change to prior authorization (PA) requirements for general anesthesia and intravenous sedation relating to dental emergencies.	<p>COVID-19 response to keep dental emergencies out of hospital emergency rooms.</p> <p>Updated April 15, 2020, HCA is extending the end date for these policies on a “to be determined” basis. The agency will continue to reevaluate and give sufficient notice when these policies do expire.</p>
<u>Intravenous conscious sedation</u>	Changed from “bill one unit” to “bill one or more units” of code D9243 for each additional 15-minute increment.	Clarification.
<u>Professional visits and consultations</u>	Added blue box note for temporary CDT® code D9992 for phone triage.	In response to COVID-19 to allow dentists to triage a client for emergency services over the phone.

Subject	Change	Reason for Change
		<p>Updated April 15, 2020, HCA is extending the end date for these policies on a “to be determined” basis. The agency will continue to reevaluate and give sufficient notice when these policies do expire.</p>
<p><u>Is teledentistry covered</u></p>	<p>Removed “fee-for-service.”</p>	<p>Redundant language. The Apple Health Dental Program is only fee-for-service at this time.</p>
<p><u>How do I submit a PA request</u></p>	<p>Added note box indicating the agency does not accept any documentation on CDs, thumb drives or any device that requires downloading on state equipment.</p>	<p>Security issues; to prevent computer viruses.</p>
<p><u>What is expedited prior authorization (EPA)</u></p>	<p>Added phone and online information for contacting the customer service center regarding claim inquiries and service limitations.</p>	<p>Clarification on appropriate use of PA or EPA; ease of use for providers.</p>

How can I get agency provider documents?

To access provider alerts, go to the agency’s [provider alerts](#) webpage.

To access provider documents, go to the agency’s [provider billing guides and fee schedules](#) webpage.

Where can I download agency forms?

To download an agency provider form, go to the agency’s [Forms & publications](#) webpage. Type the agency form number into the **Search box** as shown below (Example: 13-835).

Definitions

This section defines terms and abbreviations, including acronyms, used in this billing guide. Refer to [Chapter 182-500 WAC](#) for a complete list of definitions for Washington Apple Health. The agency also used dental definitions found in the current American Dental Association's Current Dental Terminology (CDT®) and the current American Medical Association's Physician's Current Procedural Terminology (CPT®). **Where there is any discrepancy between this section and the current CDT or CPT, this section prevails.**

Adjunctive – A secondary treatment in addition to the primary therapy.

Alternate Living Facility (ALF) – Refer to [WAC 182-513-1100](#).

Ambulatory Surgery Center (ASC) – Any distinct entity certified by Medicare as an ASC that operates exclusively for the purpose of providing surgical services to patients not requiring hospitalization.

American Dental Association (ADA) – The ADA is a national organization for dental professionals and dental societies. ([WAC 182-535-1050](#))

Anterior – The maxillary and mandibular incisors and canines and tissue in the front of the mouth:

- Permanent maxillary anterior teeth include teeth 6, 7, 8, 9, 10, and 11
- Permanent mandibular anterior teeth include teeth 22, 23, 24, 25, 26, and 27
- Primary maxillary anterior teeth include teeth C, D, E, F, G, and H
- Primary mandibular anterior teeth include teeth M, N, O, P, Q, and R ([WAC 182-535-1050](#))

Asynchronous – Two or more events *not* happening at the same time.

Base metal – Dental alloy containing little or no precious metals.

Behavior management – Using one additional professional staff, who is employed by the dental provider or clinic and who is not delivering dental treatment to the client, to manage the client's behavior to facilitate the dental treatment delivery. ([WAC 182-535-1050](#))

Border areas – See [WAC 182-501-0175](#).

By-report – A method of reimbursement in where agency determines the amount it will pay for a service when the rate for that service is not included in the agency's published fee schedules. Upon request the provider must submit a "report" that describes the nature, extent, time, effort and/or equipment necessary to deliver the service. ([WAC 182-535-1050](#))

Caries – Carious lesions or tooth decay through the enamel or decay on the root surface. ([WAC 182-535-1050](#))

- **Incipient caries** - The beginning stages of caries or decay, or subsurface demineralization.

- **Rampant caries** - A sudden onset of widespread caries that affects most of the teeth and penetrates quickly to the dental pulp.

Comprehensive oral evaluation – A thorough evaluation and documentation of a client’s dental and medical history to include: extra-oral and intra-oral hard and soft tissues, dental caries, missing or unerupted teeth, restorations, occlusal relationships, periodontal conditions (including periodontal charting), hard and soft tissue anomalies, and oral cancer screening. ([WAC 182-535-1050](#))

Conscious sedation – A drug-induced depression of consciousness during which a client responds purposefully to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain a patent airway, spontaneous ventilation is adequate, and cardiovascular function is maintained. (WAC 182-535-1050)

Core build-up– Refers to building up of clinical crowns, including pins. (WAC 182-535-1050)

Coronal – The portion of a tooth that is covered by enamel. (WAC 182-535-1050)

Crown – A restoration covering or replacing part or the whole clinical crown of a tooth. (WAC 182-535-1050)

Current Dental Terminology (CDT®) – A systematic listing of descriptive terms and identifying codes for reporting dental services and procedures performed by dental practitioners. CDT is by the Council on Dental Benefit Programs of the American Dental Association (ADA). (WAC 182-535-1050)

Current procedural terminology (CPT) – A systematic listing of descriptive terms and identifying codes for reporting medical services, procedures, and interventions performed by physicians and other practitioners who provide physician-related services. CPT is copyrighted and published annually by the American Medical Association (AMA). ([WAC 182-535-1050](#))

Decay – A term for carious lesions in a tooth and means decomposition of the tooth structure. (WAC 182-535-1050)

Deep sedation – A drug-induced depression of consciousness during which a client cannot be easily aroused, ventilatory function may be impaired, but the client responds to repeated or painful stimulation. (WAC 182-535-1050)

Dentures – An artificial replacement for natural teeth and adjacent tissues, and includes complete dentures, overdentures, and partial dentures. (WAC 182-535-1050)

Denturist – A person licensed under Chapter [18.30 RCW](#) to make, construct, alter, reproduce, or repair a denture. (WAC 182-535-1050)

Developmental Disabilities Administration (DDA) – The administration within the Department of Social and Health Services responsible for administering and overseeing services and programs for clients with developmental disabilities. Formerly known as the Division of Developmental Disabilities.

Distant site (location of dentist) – The physical location of the dentist or authorized dental provider providing the dental service to an eligible Medicaid client through teledentistry. (WAC 182-531-1730)

Endodontic – The etiology, diagnosis, prevention, and treatment of diseases and injuries of the pulp and associated periradicular conditions. (WAC 182-535-1050)

Edentulous – Lacking teeth. (WAC 182-535-1050)

EPSDT – The agency’s early and periodic screening, diagnostic, and treatment program for clients age twenty and younger as described in chapter 182-534 WAC. ([WAC 182-535-1050](#))

Extraction – See “simple extraction” and “surgical extraction.”

Flowable composite – A diluted low-viscosity-filled resin-based composite dental restorative material that is used in cervical restorations and small, low stress bearing occlusal restorations. ([WAC 182-535-1050](#))

Fluoride varnish, rinse, foam, or gel – A substance containing dental fluoride which is applied to teeth, not including silver diamine fluoride. (WAC 182-535-1050)

General anesthesia – A drug-induced loss of consciousness during which a client is not arousable even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. Clients may require assistance in maintaining a patent airway, and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function. Cardiovascular function may be impaired. (WAC 182-535-1050)

High noble metal – A dental alloy containing at least 60% pure gold.

Immediate denture – A prosthesis constructed for placement immediately after removal of remaining natural teeth on the day of extractions.

Limited oral evaluation – An evaluation limited to a specific oral health condition or problem. Typically a client receiving this type of evaluation has a dental emergency, such as trauma or acute infection. (WAC 182-535-1050)

Limited visual oral assessment – An assessment by a dentist or dental hygienist provided in settings other than dental offices or dental clinics to identify signs of disease and the potential need for referral for diagnosis. (WAC 182-535-1050)

Mobile anesthesiologist – An anesthesiologist, dental anesthesiologist, or a qualified professional permitted under WAC 246-817 to provide conscious sedation with parenteral or multiple oral agents, deep sedation, or general anesthesia in an office setting other than their own. This provider may only deliver anesthesia services at the time of treatment, while a separate provider renders dental services.

Noble metal – A dental alloy containing at least 25% but less than 60% pure gold.

Nursing facility – An institution that furnishes (in single or multiple facilities) food, shelter, and some treatment or services to four or more persons unrelated to the proprietor.

Oral hygiene instruction – Instruction for home oral hygiene care, such as tooth brushing techniques or flossing. (WAC 182-535-1050)

Originating site (location of client) – The physical location of the eligible Medicaid client. ([WAC 182-531-1730](#))

Overdenture – Type of denture that goes over teeth or dental implants and attached by specialized dental attachments secured in the roots or implants.

Partials or partial dentures – A removable prosthetic appliance that replaces missing teeth on either arch. (WAC 182-535-1050)

Periodic oral evaluation – An evaluation performed on a patient of record to determine any changes in the client's dental or medical status since a previous comprehensive or periodic evaluation. (WAC 182-535-1050)

Periodontal maintenance – A procedure performed for clients who have previously received treated for periodontal disease with surgical or nonsurgical treatment. It includes the removal of supragingival and subgingival micro-organisms, calculus, and deposits with hand and mechanical instrumentation, an evaluation of periodontal conditions, and a complete periodontal charting as appropriate. (WAC 182-535-1050)

Permanent – The permanent or adult teeth in the dental arch.

Posterior – The teeth (maxillary and mandibular premolars and molars) and tissue towards the back of the mouth:

- Permanent maxillary posterior teeth include teeth 1, 2, 3, 4, 5, 12, 13, 14, 15, and 16
- Permanent mandibular posterior teeth include teeth 17, 18, 19, 20, 21, 28, 29, 30, 31, and 32

- Primary maxillary posterior teeth include teeth A, B, I, and J
- Primary mandibular posterior teeth include teeth K, L, S, and T ([WAC 182-535-1050](#))

Primary – The first set of teeth.

Prophylaxis – The dental procedure of scaling and polishing that includes removal of calculus, plaque, and stains from teeth. (WAC 182-535-1050)

Proximal – The surface of the tooth near or next to the adjacent tooth.

Radiograph (x-ray) – An image or picture produced on a radiation sensitive film emulsion or digital sensor by exposure to ionizing radiation. (WAC 182-535-1050)

Reline – To resurface the tissue side of a denture with new base material or soft tissue conditioner in order to achieve a more accurate fit. (WAC 182-535-1050)

Root canal – The chamber within the root of the tooth that contains the pulp.

Root canal therapy – The treatment of the pulp and associated periradicular conditions.

Root planing – A procedure to remove plaque, calculus, micro-organisms, rough cementum, and dentin from tooth surfaces. This includes use of hand and mechanical instrumentation. (WAC 182-535-1050)

Scaling – A procedure to remove plaque, calculus, and stain deposits from tooth surfaces. (WAC 182-535-1050)

Sealant – A dental material applied to teeth to prevent dental caries. (WAC 182-535-1050)

Silver Diamine Fluoride – An odorless liquid that contains silver particles and fluoride, applied to teeth to arrest caries. ([WAC 182-535-1082](#))

Simple extraction – The extraction of an erupted or exposed tooth to include the removal of tooth structure, minor smoothing of socket bone, and closure, as necessary. (WAC 182-535-1050)

Standard of care – What reasonable and prudent practitioners would do in the same or similar circumstances. (WAC 182-535-1050)

Supernumerary teeth – Extra erupted or unerupted teeth that resemble teeth of normal shape designated by the number series 51 through 82 and AS through TS.

Surgical extraction – The extraction of an erupted or impacted tooth requiring the removal of bone and/or sectioning of tooth, and including elevation of mucoperiosteal flap if indicated. This includes related cutting of gingiva and bone, removal of tooth structure, minor smoothing of socket bone, and closure. (WAC 182-535-1050)

Synchronous – Existing or occurring at the same time.

Teledentistry – The variety of technologies and tactics used to deliver HIPAA-compliant, interactive, real-time audio and video telecommunications (including web-based applications) or store-and-forward technology to deliver covered services within dental care provider's scope of practice to a client at a site other than the site where the provider is located. ([WAC 182-535-1050](#))

Temporomandibular joint dysfunction (TMJ/TMD) – An abnormal functioning of the temporomandibular joint or other areas secondary to the dysfunction. ([WAC 182-535-1050](#))

Therapeutic pulpotomy – The surgical removal of a portion of the pulp (inner soft tissue of a tooth), to retain the healthy remaining pulp. (WAC 182-535-1050)

About the Program

What is the purpose of the Dental-Related Services program?

The purpose of the Dental-Related Services program is to provide quality dental and dental-related services to eligible Washington Apple Health clients, subject to the limitations, restrictions, and age requirements identified in this billing guide.

Who is eligible to become an agency-contracted provider?

[\(WAC 182-535-1070\)](#)

The following providers are eligible to enroll with the agency to furnish and bill for dental-related services provided to eligible clients:

- Persons currently licensed by the state of Washington to:
 - ✓ Practice dentistry or specialties of dentistry.
 - ✓ Practice medicine and osteopathy for either of the following:
 - Oral surgery procedures.
 - Providing fluoride varnish under the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program.
 - ✓ Practice as a dental hygienist.
 - ✓ Practice as a denturist.
 - ✓ Practice anesthesia by any of the following:

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- Providing conscious sedation with parenteral or multiple oral agents, deep sedation, or general anesthesia as an anesthesiologist, dental anesthesiologist, or qualified professional under Chapter [246-817](#) WAC.
 - Providing conscious sedation with parenteral or multiple oral agents as a dentist with a conscious sedation permit issued by the Department of Health (DOH) that is current at the time the billed service is provided.
 - Providing deep sedation or general anesthesia as a dentist with a general anesthesia permit issued by DOH that is current at the time the billed service is provided.
 - Providing anesthesia services in a mobile setting as an anesthesiologist, dental anesthesiologist, or qualified professional who holds a current mobile anesthesia contract with the agency.
- Facilities that are one of the following:
 - ✓ Hospitals currently licensed by DOH
 - ✓ Federally-qualified health centers (FQHCs)
 - ✓ Medicare-certified ambulatory surgery centers (ASCs)
 - ✓ Medicare-certified rural health clinics (RHCs)
 - ✓ Community health centers (CHC)
 - Participating local health jurisdictions.
 - Border area providers of dental-related services who are qualified in their states to provide these services.

Note: The agency pays licensed providers participating in the agency's Dental-Related Services program for only those services that are within their scope of practice. ([WAC 182-535-1070\(2\)](#))

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Can substitute dentists (locum tenens) provide and bill for dental-related services?

[\(42 U.S.C. 1396a\(32\)\(C\)\)](#)

Yes. Dentists may bill under certain circumstances for services provided on a temporary basis (i.e., locum tenens) to their patients by another dentist.

The dentist's claim must identify the substituting dentist providing the temporary services. Complete the claim as follows:

- Enter the provider's National Provider Identifier (NPI) and taxonomy of the locum tenens dentist who performed the substitute services in the *Servicing Provider* section of the electronic claim.
- The locum tenens dentist must enroll as a Washington Apple Health provider in order to treat a Washington Apple Health client and submit claims. For enrollment information, go to the [Enroll as a provider](#) webpage.
- Enter the billing provider information in the usual manner.

An informal reciprocal arrangement, billing for temporary services is limited to a period of 14 continuous days, with at least one day elapsing between 14-day periods.

A locum tenens arrangement involving per diem or other fee-for-time compensation, billing for temporary services is limited to a period of 90 continuous days, with at least 30 days elapsing between 90-day periods.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Client Eligibility

How can I verify a patient's eligibility?

Providers must verify that a patient has Washington Apple Health coverage for the date of service, and that the client's benefit package covers the applicable service. This helps prevent delivering a service the agency will not pay for.

Verifying eligibility is a two-step process:

Step 1. Verify the patient's eligibility for Washington Apple Health. For detailed instructions on verifying a patient's eligibility for Washington Apple Health, see the *Client Eligibility, Benefit Packages, and Coverage Limits* section in the agency's [ProviderOne billing and resource guide](#).

If the patient is eligible for Washington Apple Health, proceed to **Step 2**. If the patient is **not** eligible, see the note box below.

Step 2. Verify service coverage under the Washington Apple Health client's benefit package. To determine if the requested service is a covered benefit under the Washington Apple Health client's benefit package, see the agency's [Program benefit packages and scope of services](#) webpage.

Note: Patients who are not Washington Apple Health clients may submit an application for health care coverage in one of the following ways:

1. By visiting the Washington Healthplanfinder's website at: www.wahealthplanfinder.org.
2. By calling the Customer Support Center toll-free at: 855-WAFINDER (855-923-4633) or 855-627-9604 (TTY).
3. By mailing the application to:
Washington Healthplanfinder
PO Box 946
Olympia, WA 98507

In-person application assistance is also available. To get information about in-person application assistance available in their area, people may visit www.wahealthplanfinder.org or call the Customer Support Center.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Are clients enrolled in an agency-contracted managed care organization (MCO) eligible?

(WAC [182-535-1060](#)(2))

Yes. Dental-related services, including surgical services with a dental-related diagnosis, for eligible clients enrolled in an agency-contracted managed care organization (MCO) are covered under Washington Apple Health fee-for-service. Bill the agency directly for all dental-related services provided to eligible MCO clients.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Coverage

When does the agency pay for covered dental-related services?

[\(WAC 182-535-1079 \(1\)\)](#)

Subject to coverage limitations and client-age requirements identified for a specific service, the agency pays for dental-related services and procedures when the services are all of the following:

- Part of the client's benefit package.
- Within the scope of an eligible client's Washington Apple Health program.
- Medically necessary.
- Meet the agency's authorization requirements, if any.
- Documented in the client's record per [Chapter 182-502 WAC](#) and meet the Department of Health's (DOH) requirements in [WAC 246-817-305](#) and [WAC 246-817-310](#).
- Within accepted dental or medical practice standards.
- Consistent with a diagnosis of dental disease or dental condition.
- Reasonable in amount and duration of care, treatment, or service.
- Listed as covered in this billing guide.

For orthodontic services, see [Chapter 182-535A WAC](#) and the agency's [Orthodontic services billing guide](#).

What services performed in a hospital or ambulatory surgery center (ASC) are covered?

Dental providers

- The agency covers evaluation and management (E/M) codes (formerly hospital visits and consults) when an oral surgeon is called to the hospital or receives a client from the hospital for an emergency condition (i.e., infection, fracture, or trauma).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

When billing for E/M codes in facility settings, oral surgeons must use CPT codes and follow CPT rules, including the use of modifiers. When billing for emergency hospital visits, oral surgeons must bill:

- ✓ On an electronic professional claim.
- ✓ Using the appropriate CPT code and modifiers, if appropriate.
- The agency requires prior authorization (PA) for CDT® dental services performed in a hospital or an ASC for clients age 9 and older (except for [clients of the Developmental Disabilities Administration \(DDA\)](#)).
- The place-of-service (POS) on the submitted claim form **must** match the setting where the service is performed. The agency may audit claims with an incorrect POS and payment may be recouped.

Place of Service	Setting
19	Outpatient hospital clinic – off campus
21	Inpatient hospital
22	Outpatient hospital clinic – on campus
24	Ambulatory surgery center

- The dentist providing the service must send in a request for authorization to perform the procedure in these settings. The request must:
 - ✓ Contain at least one procedure code.
 - ✓ List **all** applicable codes that require PA.

Note: Authorization for a client to be seen in a hospital or ASC setting does not automatically authorize any specific code that requires PA. If the specific code requires PA, also include the rationale for the code.

- ✓ Be submitted on the *General Information for Authorization* form, HCA 13-835. See [Where can I download agency forms?](#)
- ✓ Include a letter that clearly describes the medical necessity of performing the service in the requested setting.

Note: Any PA request submitted without the above information will be returned as incomplete.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- The agency requires providers to report dental services, including oral and maxillofacial surgeries, using CDT codes.

Exception: Oral surgeons may use CPT codes **listed in the agency's [Physician-related/professional services fee schedule](#)** only when the procedure performed is not listed as a covered CDT code in the agency's [Dental program fee schedule](#). CPT codes must be billed on an electronic professional claim.

- The agency pays dentists and oral surgeons for hospital visits using only the CPT codes listed in the oral surgery section of the [Physician-related services/health care professional services billing guide](#). In accordance with CPT guidelines, evaluation and management codes (visit codes) are not allowed on the same day as a surgery code (CPT® or CDT®) unless the decision to do the surgery was made that day and appropriate modifiers are used.
- The agency follows the [National Correct Coding Initiative \(NCCI\) policy](#). The Centers for Medicare and Medicaid Services (CMS) created this policy to promote national correct coding methods. NCCI assists the agency to control improper coding that may lead to inappropriate payment. For more information about the agency's policy to follow NCCI rules, see the *National correct coding initiative* section of the [Physician-related services/health care professional services billing guide](#).
- If requesting anesthesia time that is significantly greater than the normal anesthesia time for the procedure, include the medical justification for this in the documentation.

Facilities

- Hospitals and ASCs must use CDT codes for dental procedures. Hospitals and ASCs may bill with a CPT code **only** if there is no CDT code that covers the service performed.
- Coverage and payment is limited to those CDT and select CPT codes listed in the agency's [Dental program fee schedule](#).
- ASCs are paid only for the codes listed in the agency's [Ambulatory surgery centers billing guide](#).
- A mobile anesthesia facility fee may be billed only by mobile anesthesiologists who hold a mobile anesthesia contract with the agency.
- Professional anesthesia fees are billable by the anesthesia provider only, not by the facility.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Note: Effective on and after January 1, 2020, hospital and ASC facility fees for eligible clients enrolled in an agency-contracted managed care organization must be billed directly through the client's MCO.

Site-of-service prior authorization

([WAC 182-535-1079](#) (3), (4))

The agency requires site-of-service prior authorization in addition to prior authorization of the procedure, if applicable, for nonemergency dental-related services performed in a hospital or an ASC when all of the following are true:

- The client is not a [client of the DDA](#).
- The client is age 9 or older.
- The service is not listed as exempt from the site-of-service authorization requirement in this billing guide or the agency's [Dental-related services fee schedule](#).
- The service is not listed as exempt from the prior authorization requirement for deep sedation or general anesthesia (see [What adjunctive general services are covered?](#)).

To be eligible for payment, dental-related services performed in a hospital or an ASC must be listed in the agency's [Outpatient fee schedule](#) or [ASC fee schedule](#). The claim must be billed with the correct procedure code for the site-of-service.

EPSDT clients

([WAC 182-535-1079](#) (5))

Under the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) program, clients age 20 and younger may be eligible for medically necessary dental-related services listed as noncovered. The agency reviews requests for dental-related services for clients who are eligible for services under the EPSDT program when a referral for services is the result of an EPSDT exam, according to the provisions of [WAC 182-534-0100](#).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Are limitation extensions and exceptions to rule available?

[\(WAC 182-535-1079 \(5\)\)](#)

What is a limitation extension?

A limitation extension (LE) is an authorization of services beyond the designated benefit limit allowed in Washington Administration Code (WAC) and the agency's Washington Apple Health billing guides.

Note: A request for a limitation extension must be appropriate to the client's eligibility or program limitations. Not all eligibility groups cover all services.

The agency evaluates a request for dental-related services that are in excess of the Dental Program's limitations or restrictions, according to [WAC 182-501-0169](#).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

How do I request an LE?

The agency requires a dental provider who is requesting a limitation extension (LE) to submit sufficient, objective, clinical information to establish medical necessity.

Providers may submit a prior authorization request by direct data entry into ProviderOne or by submitting the request in writing (see the agency's [prior authorization webpage](#) for details).

The agency may request additional information as follows:

- Additional x-rays (radiographs) (the agency returns x-rays (radiographs) only for approved requests and only if accompanied by self-addressed stamped envelope).
- Study model, if requested.
- Photographs.
- Any other information requested by the agency.

Note: The agency may require second opinions and consultations before authorizing any procedure.

Removable Dental Prosthetics

For nursing facility clients, the LE request must also include a completed copy of the *Denture/Partial Appliance Request for Skilled Nursing Facility Client* form, HCA #13-788. See [Where can I download agency forms?](#)

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What is an exception to rule?

An Exception to Rule (ETR) is a request for payment by the agency for a noncovered service. The agency reviews these requests according to [WAC 182-501-0160](#).

How do I request a noncovered service?

Providers must request a noncovered service through an exception to rule (ETR).

To request an ETR, providers may submit their request by direct data entry into ProviderOne or by submitting the request in writing (see the agency's [prior authorization webpage](#) for details).

Indicate in the comments box that you are requesting an ETR.

Be sure to provide all of the evidence required by [WAC 182-501-0160](#).

What diagnostic services are covered?

[\(WAC 182-535-1080\)](#)

Subject to coverage limitations, restrictions, and client-age requirements identified for a specific service, the agency covers the following dental-related diagnostic services:

Oral health evaluations and assessments

The agency covers per client, per provider or clinic:

- **Periodic oral evaluations**, once every 6 months. Six months must elapse between the comprehensive oral evaluation and the first periodic oral evaluation. **Exception to limits**, see [Clients of the Developmental Disabilities Administration \(DDA\)](#), Preventive Services.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- **Limited oral evaluations**, only when the provider performing the limited oral evaluation is not providing routine scheduled dental services for the client on the same day. The limited oral evaluation:
 - ✓ Must evaluate the client for one of the following:
 - A specific dental problem or oral health complaint.
 - A dental emergency.
 - A referral for other treatment.
 - ✓ When performed by a dentist, is limited to the initial examination appointment. The agency does not cover any additional limited examination by a dentist for the same client until 3 months after the delivery of a removable dental prosthesis.
- **Comprehensive oral evaluations** as an initial examination includes:
 - ✓ A complete dental and medical history and general health assessment.
 - ✓ A thorough evaluation of extra-oral and intra-oral hard and soft tissue.
 - ✓ The evaluation and recording of dental caries, missing or unerupted teeth, restoration, occlusal relationships, periodontal conditions (including periodontal charting), hard and soft tissue anomalies, and oral cancer screening.

The agency covers comprehensive oral evaluation per provider/same clinic once every 5 years or sooner for established patients who have a significant health change. (See [EPA](#)).

Note: The agency does not pay separately for chart or record set-up. The fees for these services are included in the agency’s reimbursement for comprehensive oral evaluations.

CDT® Code	Description	PA?
D0120	periodic oral evaluation – established patient*	N
D0140	limited oral evaluation – problem focused*	N
D0150	comprehensive oral evaluation – new or established patient*	N*

*Oral surgeons may bill E/M codes (CPT 99201-99215) on an electronic professional claim to represent these services instead of CDT codes.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Limited visual oral assessment (pre-diagnostic services)

The agency covers limited visual oral assessments or screening, allowed two times per client, per provider in a 12-month period as follows:

- When not performed in conjunction with other clinical oral evaluation services.
- When performed by a licensed dentist or dental hygienist to determine the need for sealants, fluoride treatment, or when triage services are provided in **settings other than dental offices or dental clinics** (e.g., alternate living facilities, etc.).

CDT® Code	Description	PA?
D0190	screening of a patient	N
D0191	assessment of a patient	N

Alcohol and substance misuse counseling

The agency covers alcohol and substance misuse counseling through screening, brief interventions, and referral to treatment (SBIRT) services when provided by, or under the supervision of, a certified physician or other certified licensed health care professional, such as a dentist or a dental hygienist, within the scope of their practice. See the agency’s [Physician-Related Services/Health Care Professional Services Billing Guide](#).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

X-rays (radiographs)

The agency uses the prevailing standard of care to determine the need for dental x-rays (radiographs).

The agency covers:

- X-rays (radiographs), per client, per provider or clinic, that are of diagnostic quality, dated, and labeled with the client's name. The agency requires:
 - ✓ Retention of original x-rays (radiographs) in the client's dental record.
 - ✓ Submission of duplicate x-rays (radiographs) with prior authorization requests and when copies of dental records are requested by the agency.
- An intraoral complete series, once in a 3-year period for clients age 14 and older:
 - ✓ Only if the agency has not paid for a panoramic x-ray (radiograph) for the same client in the same 3-year period
 - ✓ The intraoral complete series includes at least 14 to 22 periapical and posterior bitewings (radiographs)
 - ✓ The agency limits reimbursement for all x-rays (radiographs) to a total payment of no more than the payment for a complete series.
- Medically necessary periapical x-rays (radiographs) that are not included in a complete series for diagnosis in conjunction with definitive treatment, such as root canal therapy. Documentation supporting medical necessity for the procedure must be included in the client's record.
- An occlusal intraoral x-ray (radiograph), per arch, once in a 2-year period, for clients age 20 and younger.
- A maximum of four bitewing x-rays (radiographs) once every 12 months.
- Panoramic x-rays (radiographs) (for dental only) in conjunction with four bitewings, once in a 3-year period:
 - ✓ Only if the agency has not paid for an intraoral complete series for the same client in the same 3-year period

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- ✓ Preoperative and postoperative panoramic x-rays (radiographs), one per surgery without prior authorization-
- ✓ For orthodontic services, see the [Orthodontic services billing guide](#).
- Cephalometric films - One preoperative and postoperative cephalometric film per surgery without prior authorization.
- Additional x-rays (radiographs) will be considered on a case-by-case basis with prior authorization
- X-rays (radiographs) not listed as covered, only on a case-by-case basis and when prior authorized.
- Oral and facial photographic images on a case-by-case basis and when requested by the agency.

CDT® Code	Description	PA?	Age Limitation
D0210	intraoral – complete series (including bitewings)	N	Clients age 14 and older
D0220	intraoral – periapical first film	N	
D0230	intraoral – periapical each additional film	N	
D0240	intraoral – occlusal film	N	Clients age 20 and younger only
D0270	bitewing – single film	N	
D0272	bitewings – two films	N	
D0273	bitewings – three films	N	
D0274	bitewings – four films	N	
D0330	panoramic film	N	
D0340	cephalometric film (oral surgeons only)	N	
D0350	2D oral/facial photographic images obtained intraorally or extraorally	Y	Clients age 20 and younger only

Note: The agency does not require PA for additional medically necessary panoramic x-rays (radiographs) ordered by oral surgeons and orthodontists.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Tests and examinations

The agency covers the following:

- One pulp vitality test per visit (not per tooth) for clients age 20 and younger when x-rays (radiographs) or documented symptoms, or both, justify the medical necessity for the pulp vitality test.
- Diagnostic casts other than those included in an orthodontic case study, on a case-by-case basis, and when requested by the agency.

CDT® Code	Description	PA?
D0460	pulp vitality tests	N
D0470	Diagnostic casts	Y

Note: The agency covers viral cultures, genetic testing, caries susceptibility, and adjunctive pre-diagnostic tests only on a case-by-case basis and when requested by the agency.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What preventive services are covered?

[\(WAC 182-535-1082\)](#)

Prophylaxis

The agency:

- Includes scaling and polishing procedures to remove coronal plaque, calculus, and stains when performed on a primary or permanent dentition as part of the prophylaxis service.
- Limits prophylaxis to once every:
 - ✓ Six months for a client age 18 and younger
 - ✓ Twelve months for a client age 19 and older
 - ✓ Six months for a client residing in an alternate living facility (ALF) or skilled nursing facility (SNF)
 - ✓ Four months for a client of the [Developmental Disabilities Administration \(DDA\)](#)
- Reimburses only when the prophylaxis is performed:
 - ✓ At least 6 months after periodontal scaling and root planing, or periodontal maintenance services, for clients age 13 to 18
 - ✓ At least 12 months after periodontal scaling and root planing, or periodontal maintenance services, for clients age 19 and older
 - ✓ At least 6 months after periodontal scaling and root planing, or periodontal maintenance services for clients who reside in an alternative living facility (ALF) or skilled nursing facility (SNF)
 - ✓ At least 4 months after periodontal scaling and root planing or periodontal maintenance services for clients of the Developmental Disabilities Administration (DDA).
- Does not reimburse for prophylaxis separately when it is performed on the same date of service as periodontal scaling and root planing, periodontal maintenance, scaling in the presence of generalized moderate or severe gingival inflammation, full mouth debridement, gingivectomy, or gingivoplasty.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

CDT® Code	Description	PA?	Age Limitation
D1110	prophylaxis – adult	N	Clients age 14 and older only
D1120	prophylaxis – child	N	Clients through age 13 only

Topical fluoride treatment

The agency covers fluoride rinse, foam or gel, or fluoride varnish, including disposable trays, per client, per provider or clinic as follows:

Clients who are...	Frequency
Age 6 and younger or all ages for clients of DDA	Three times within a 12-month period with a minimum of 110 days between applications
Age 7 through 18 or residing in ALFs or nursing facilities	Two times within a 12-month period with a minimum of 170 days between applications
Age 7 through 20 receiving orthodontic treatment	Three times within a 12-month period during orthodontic treatment with a minimum of 110 days between applications The provider must bill with the initial appliance placement date.
Age 19 and older	Once within a 12-month period

Note: Additional topical fluoride applications only on a case-by-case basis with PA

CDT® Code	Description	PA?
D1206	topical fluoride varnish	N
D1208	topical application of fluoride, excluding varnish and silver diamine fluoride	N

Note: CDT codes D1206 and D1208 are not allowed on the same day. The fluoride limit per provider, per client, for CDT codes D1206 and D1208 is the

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

combined total of two, not per code. The codes are equivalent, and a total of three or two fluorides are allowed, not three or two of each.

Oral hygiene instruction

The agency covers oral hygiene instruction only for clients who are age 8 and younger. Oral hygiene instruction includes individualized instruction for home care such as tooth brushing techniques, flossing, and use of oral hygiene aids.

The agency covers oral hygiene instruction as follows:

- Only two times per client, per provider, in a 12-months period
- Only when not performed on the same date of service as prophylaxis or within 6 months from a prophylaxis by the same provider or clinic

Note: The agency covers oral hygiene instruction provided by a licensed dentist or a licensed dental hygienist when the instruction is in a **setting other than a dental office or clinic.**

CDT® Code	Description	PA?	Age Limitation
D1330	oral hygiene instructions	N	Clients age 8 and younger only

Note: For clients age 9 and older, oral hygiene instruction is included as part of the global fee for prophylaxis.

Tobacco cessation counseling

The agency covers tobacco cessation counseling for pregnant clients of any age for the control and prevention of oral disease. Refer to the [Physician related services/health care professional services billing guide](#).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Sealants

The agency covers sealants as follows:

- For clients age 20 and younger and people of any age who are clients of the Developmental Disabilities Administration (DDA)
- Only when used on a mechanically and/or chemically prepared enamel surface
- Once per tooth:
 - ✓ In a 3-year period for clients age 20 and younger
 - ✓ In a 2-year period for people of any age who are [clients of DDA](#)

Additional sealants are allowed on a case-by-case basis and when prior authorized

- Only when used on the occlusal surfaces of:
 - ✓ Permanent teeth 2, 3, 14, 15, 18, 19, 30, and 31
 - ✓ Primary teeth A, B, I, J, K, L, S, and T
- On noncarious teeth or teeth with incipient caries
- Only when placed on a tooth with no pre-existing occlusal restoration, or any occlusal restoration placed on the same day

Note: Glass ionomer cement can be used as a sealant.

CDT® Code	Description	PA?	Requirements	Age Limitation
D1351	sealant – per tooth	N	Tooth designation	Clients age 20 and younger; DDA clients of any age

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Silver Diamine Fluoride

The agency covers silver diamine fluoride (SDF) per application as follows:

- When used for stopping the progression of caries or as a topical preventive agent
- Two times per client, per tooth, in a 12-month period

The dental provider or office must have a signed informed consent form. The form must include the following:

- Benefits and risks of silver diamine fluoride application.
- Alternatives to silver diamine fluoride application.
- Color photograph example that demonstrates the post-procedure blackening of a tooth with silver diamine fluoride application.

Note: For more information, see the [SDF fact sheet](#) on the [Center for Evidence Based Policy](#) website. The Center for Evidence Based Policy allows for the reprinting and distribution of the fact sheet.

CDT® Code	Description	PA?	Requirements	Age Limitation
D1354	silver diamine fluoride	N	Tooth number	All ages

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Space maintenance

The agency covers:

- One fixed unilateral space maintainer per quadrant or one fixed bilateral space maintainer per arch, for missing primary molars A, B, I, J, K, L, S, and T, subject to the following:
 - ✓ Evidence of pending permanent tooth eruption exists.
 - ✓ Initial space maintainers do not require PA.
 - ✓ Replacement space maintainers covered on a case-by-case basis with PA.
 - ✓ Space maintainer removal is included in the initial payment to the original provider who placed the space-maintainer.

- The removal of fixed space maintainers when removed by a different provider. Space maintainer removal allowed once per appliance.

CDT® Code	Description	PA?	Requirements
D1510	space maintainer – fixed – unilateral	N*	Quadrant designation required. *Replacement requires PA.
D1516	space maintainer – fixed – bilateral, maxillary	N*	No PA for initial placement. *Replacement requires PA.
D1517	space maintainer – fixed – bilateral, mandibular	N*	No PA for initial placement. *Replacement requires PA.
D1551	recement bilateral space maintainer-maxillary	N	No PA required
D1552	recement bilateral space maintainer-mandibular	N	No PA required
D1553	recement unilateral space maintainer per quadrant	N	No PA required
D1556	removal of unilateral space maintainer per quadrant	N	Only allowed once by a different provider
D1557	removal of bilateral space maintainer-maxillary	N	Only allowed once by a different provider
D1558	removal of bilateral space maintainer-mandibular	N	Only allowed once by a different provider
D1575	Distal shoe space maintainer – fixed - unilateral	N	Quadrant designation required

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Note: The agency does not pay for space maintainers (D1510, D1516, D1517, D1575) for clients during approved orthodontic treatment.

What restorative services are covered?

[\(WAC 182-535-1084\)](#)

Amalgam and resin restorations for primary and permanent teeth

The agency considers:

- Tooth preparation, acid etching, all adhesives (including bonding agents), liners and bases, polishing, indirect and direct pulp capping, and curing as part of the restoration.
- Occlusal adjustment of either the restored tooth or the opposing tooth or teeth as part of the restoration.
- Restorations placed within 6 months of a crown preparation by the same provider or clinic to be included in the payment for the crown.

Limitations for all restorations

The agency:

- Considers multiple restorative resins, flowable composite resins, or resin-based composites for the occlusal, buccal, lingual, mesial, and distal fissures and grooves on the same tooth as a one-surface restoration.
- Considers multiple restorations of fissures and grooves of the occlusal surface of the same tooth as a one-surface restoration.
- Considers resin-based composite restorations of teeth where the decay does not penetrate the dentinoenamel junction (DEJ) to be sealants. (See [Sealants](#).)
- Reimburses proximal restorations that do not involve the incisal angle on anterior teeth as a two-surface restoration.
- Covers only one buccal and one lingual surface per tooth. The agency reimburses buccal or lingual restorations, regardless of size or extension, as a one-surface restoration.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

- Does not cover preventive restorative resin or flowable composite resin on the interproximal surfaces (mesial or distal) when performed on posterior teeth or the incisal surface of anterior teeth.
- Does not pay for replacement restorations within a 2-year period unless the restoration is cracked or broken or has an additional adjoining carious surface. The agency pays for the replacement restoration as one multisurface restoration.

Additional limitations for restorations on primary teeth

The agency covers:

- A maximum of two surfaces for a primary first molar. (See [Other restorative services](#) for a primary first molar that requires a restoration with three or more surfaces.) The agency does not pay for additional restorations on the same tooth.
- A maximum of three surfaces for a primary second molar. (See [Other restorative services](#) for a primary posterior tooth that requires a restoration with four or more surfaces.) The agency does not pay for additional restorations on the same tooth.
- A maximum of three surfaces for a primary anterior tooth. (See [Other restorative services](#) for a primary anterior tooth that requires a restoration with four or more surfaces.) The agency does not pay for additional restorations on the same tooth after three surfaces.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Additional limitations for restorations on permanent teeth

The agency covers:

- Two occlusal restorations for the upper molars on teeth 1, 2, 3, 14, 15, and 16, only if the restorations are anatomically separated by sound tooth structure.
- A maximum of five surfaces per tooth for permanent posterior teeth, except for upper molars. The agency allows a maximum of six surfaces per tooth for teeth 1, 2, 3, 14, 15, and 16.
- A maximum of six surfaces per tooth for resin-based composite restorations for permanent anterior teeth.

CDT® Code	Description	PA?	Requirements
D2140	amalgam – one surface, primary or permanent	N	Tooth and surface designations required
D2150	amalgam – two surfaces, primary or permanent	N	Tooth and surface designations required
D2160	amalgam – three surfaces, primary or permanent	N	Tooth and surface designations required. If billed on a primary first molar, the agency will reimburse at the rate for a two-surface restoration
D2161	amalgam – four or more surfaces, primary or permanent	N	Tooth and surface designations required. If billed on a primary first molar, the agency will reimburse at the rate for a two-surface restoration. If billed on a primary second molar, the agency will reimburse at the rate for a three-surface restoration.
D2330	resin-based composite – one surface, anterior	N	Tooth and surface designations required
D2331	resin-based composite – two surfaces, anterior	N	Tooth and surface designations required
D2332	resin-based composite – three surfaces, anterior	N	Tooth and surface designations required

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

CDT® Code	Description	PA?	Requirements
D2335	resin-based composite – four or more surfaces or involving incisal angle (anterior)	N*	Tooth and surface designations required. Not allowed on primary teeth. *See EPA #870001307 .
D2390	resin-based composite crown, anterior (includes strip crowns)	Y*	Tooth designation required. Clients age 20 and younger only. *Clients 12 and younger may meet EPA criteria. See EPA #870001348 .
D2391	resin-based composite – one surface, posterior	N	Tooth and surface designations required
D2392	resin-based composite – two surfaces, posterior	N	Tooth and surface designations required
D2393	resin-based composite – three surfaces, posterior	N	Tooth and surface designations required. If billed on a primary first molar, the agency will reimburse at the rate for a two-surface restoration. If billed on a primary second molar, the agency will reimburse at the rate for a three-surface restoration.
D2394	resin-based composite – four or more surfaces, posterior	N	Tooth and surface designations required. If billed on a primary first molar, the agency will reimburse at the rate for a two-surface restoration. If billed on a primary second molar, the agency will reimburse at the rate for a three-surface restoration.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Crowns – single restorations only

The agency covers:

- The following indirect crowns, per tooth, once every 5 years for **permanent anterior teeth** for clients age 15 through 20 when the crowns meet prior authorization (PA) criteria in [Prior Authorization](#) and the provider follows the PA requirements on the following page:
 - ✓ Porcelain/ceramic crowns to include all porcelains, glasses, glass-ceramic, and porcelain fused to metal crowns.
 - ✓ Resin crowns and resin metal crowns to include any resin-based composite, fiber, or ceramic reinforced polymer compound.

Note: The agency does not cover permanent anterior crowns for clients under age 15 or age 21 and older.

Payment

The agency considers the following to be included in the payment for a crown:

- Tooth and soft tissue preparation.
- Amalgam and resin-based composite restoration, or any other restorative material placed within 6 months of the crown preparation.

Exception: The agency covers a one-surface restoration on an endodontically treated tooth, or a core buildup or cast post and core.

- Temporaries, including but not limited to, temporary restoration, temporary crown, provisional crown, temporary prefabricated stainless steel crown, ion crown, or acrylic crown.
- Packing cord placement and removal.
- Diagnostic or final impressions.
- Crown seating (placement), including cementing and insulating bases.
- Occlusal adjustment of crown or opposing tooth or teeth.
- Local anesthesia.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Billing

The agency requires a provider to bill for a crown only after delivery and seating of the crown, not at the impression date.

Prior authorization

The agency requires the provider to submit the following with each PA request for crowns:

- Current (within the past 12 months) x-rays (radiographs) to assess all remaining teeth.
- Documentation and identification of all missing teeth.
- Caries diagnosis and treatment plan for all remaining teeth, including a caries control plan for clients with rampant caries.
- Pre- and post-endodontic treatment x-rays (radiographs) for requests on endodontically treated teeth.
- Documentation supporting a 5-year prognosis that the client will retain the tooth or crown if the tooth is crowned.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

CDT® Code	Description	PA?	Requirements	Age Limitation
D2710	crown – resin-based composite (indirect)	Y	Tooth designation required	Clients age 15 to 20 only
D2720	crown – resin with high noble metal	Y	Tooth designation required	Clients age 15 to 20 only
D2721	crown – resin with predominantly base metal	Y	Tooth designation required	Clients age 15 to 20 only
D2722	crown – resin with noble metal	Y	Tooth designation required	Clients age 15 to 20 only
D2740	crown – porcelain/ceramic substrate	Y	Tooth designation required	Clients age 15 to 20 only
D2750	crown – porcelain fused to high noble metal	Y	Tooth designation required	Clients age 15 to 20 only
D2751	crown – porcelain fused to predominantly base metal	Y	Tooth designation required	Clients age 15 to 20 only
D2752	crown – porcelain fused to noble metal	Y	Tooth designation required	Clients age 15 to 20 only

Note: The agency does not pay for procedure codes D2710 through D2752 when billed for posterior teeth.

Other restorative services

The agency covers:

- All re-cementations of permanent indirect crowns.
- Prefabricated stainless steel crowns, including stainless steel crowns with resin window, prefabricated porcelain/ceramic crowns, resin-based composite crowns (direct), prefabricated esthetic coated stainless steel crowns, and prefabricated resin crowns for primary **anterior** and **posterior** teeth once every 3 years for clients age 0 through 20 with PA. Or, when EPA criteria is met, for clients ages 0 through 12 (See [EPA](#) code list). X-ray (radiograph) justification is required.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- Prefabricated stainless steel crowns, including stainless steel crowns with resin window, and prefabricated resin crowns for permanent posterior teeth excluding 1, 16, 17, and 32 once every 3 years, for clients age 20 and younger, without PA. X-ray (radiograph) justification is required.
- Prefabricated stainless steel crowns for [clients of the Developmental Disabilities Administration \(DDA\)](#) without PA. X-ray (radiograph) justification is required.
- Core buildup, including pins, only on permanent teeth and only when all of the following apply:
 - ✓ For clients age 20 and younger
 - ✓ Allowed in conjunction with crowns
 - ✓ When prior authorized

Note: Providers must submit pre- and post-endodontic treatment radiographs to the agency with the authorization request for endodontically treated teeth.

- Cast post and core or prefabricated post and core, only on permanent teeth and only when all of the following apply:
 - ✓ For clients age 20 and younger
 - ✓ When in conjunction with a crown
 - ✓ When prior authorized

CDT codes	Clients who are...	PA?	Requirements
D2390 D2929	Age 0 – 20	Y	Tooth designation and x-ray (radiograph) justification are required
D2930 D2932 D2933 D2934	12 and Younger	Y*	*May use EPA if criteria is met For anterior teeth see EPA #870001348 For posterior teeth see EPA #870001347

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What endodontic services are covered?

(WAC 182-535-1086)

Pulp capping

The agency considers pulp capping included in the payment for the restoration.

Pulpotomy/pulpal debridement

The agency covers:

- Therapeutic pulpotomy on primary teeth only for clients age 20 and younger.
- Pulpal debridement on permanent teeth only, excluding teeth 1, 16, 17, and 32.

The agency does not pay for pulpal debridement when performed with palliative treatment for dental pain or when performed on the same day as endodontic treatment.

CDT® Code	Description	PA?	Requirements	Limitations
D3220	therapeutic pulpotomy (excluding final restoration) – removal of pulp coronal to the dentinocemental junction and application of medicament	N	Tooth designation required	Clients age 20 and younger, primary teeth only
D3221	pulpal debridement, permanent teeth	N	Tooth designation required	All ages, permanent teeth only

Endodontic treatment on primary teeth

The agency covers endodontic treatment with resorbable material for primary teeth if the entire root is present at treatment.

CDT® Code	Description	PA?	Requirements
D3230	pulpal therapy (resorbable filling)- anterior, primary	N	Tooth designation required
D3240	pulpal therapy (resorbable filling) – posterior, primary tooth (excluding final restorations)	N	Tooth designation required

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Endodontic treatment on permanent teeth

The agency:

- Covers endodontic treatment for permanent anterior teeth for all clients.
- Covers endodontic treatment for permanent bicuspid and molar teeth, excluding teeth 1, 16, 17, and 32 for clients age 20 and younger.
- Considers the following included in endodontic treatment:
 - ✓ Pulpectomy when part of root canal therapy.
 - ✓ All procedures necessary to complete treatment.
 - ✓ All intra-operative and final evaluation x-rays (radiographs) for the endodontic procedure.
- Pays separately for the following services that are related to the endodontic treatment:
 - ✓ Initial diagnostic evaluation.
 - ✓ Initial diagnostic radiographs.
 - ✓ Post treatment evaluation radiographs if taken at least 3 months after treatment.

CDT® Code	Description	PA?	Requirements	Age Limitation
D3310	endodontic therapy, anterior tooth (excluding final restoration)	N	Tooth designation required	All ages
D3320	endodontic therapy, premolar tooth (excluding final restoration)	N	Tooth designation required	Client age 20 and younger
D3330	endodontic therapy, molar tooth (excluding final restoration)	N	Tooth designation required	Clients age 20 and younger

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Endodontic retreatment on permanent teeth

The agency:

- Covers endodontic retreatment for a client age 20 and younger when prior authorized.
- Covers endodontic retreatment of permanent anterior teeth for a client age 21 and older when prior authorized.
- Considers endodontic retreatment to include:
 - ✓ The removal of post(s), pin(s), old root canal filling material, and all procedures necessary to prepare the canals.
 - ✓ Placement of new filling material.
 - ✓ Retreatment for permanent anterior, bicuspid, and molar teeth, excluding teeth 1, 16, 17, and 32.
- Pays separately for the following services that are related to the endodontic retreatment:
 - ✓ Initial diagnostic evaluation.
 - ✓ Initial diagnostic x-rays (radiographs).
 - ✓ Post treatment evaluation x-rays (radiographs) if taken at least 3 months after treatment.
- Does not pay for endodontic retreatment when provided by the original treating provider or clinic unless prior authorized by the agency.

CDT® Code	Description	PA?	Requirements	Age Limitation
D3346	retreatment of previous root canal therapy – anterior	Y	Tooth designation required	All ages
D3347	retreatment of previous root canal therapy –premolar	Y	Tooth designation required	Clients age 20 and younger
D3348	retreatment of previous root canal therapy – molar	Y	Tooth designation required	Clients age 20 and younger

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Apexification/apicoectomy

The agency covers:

- Apexification for apical closures of **anterior permanent teeth for clients age 20 and younger**. Apexification is limited to the initial visit and three interim treatment visits per tooth.
- Apicoectomy and a retrograde filling for **anterior teeth only** for clients age 20 and younger.

CDT® Code	Description	PA?	Requirements	Age Limitation
D3351	apexification/ recalcification – initial visit (apical closure/calcific repair of perforations, root resorption, etc.)	N	Tooth designation required	Clients age 20 and younger. Anterior permanent teeth only.
D3352	apexification/recalcification – interim medication replacement (apical closure/calcific repair of perforations, root resorption, etc.)	N	Tooth designation required	Clients age 20 and younger. Anterior permanent teeth only.
D3410	apicoectomy anterior	N	Tooth designation required	Clients age 20 and younger
D3430	retrograde filling – per root	N	Tooth designation required	Clients age 20 and younger

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What periodontic services are covered?

[\(WAC 182-535-1088\)](#)

Surgical periodontal services

The agency covers gingivectomy/gingivoplasty (does not include distal wedge procedures on erupting molars), including all postoperative care for:

- Clients age 20 and younger only, on a case-by-case basis, and when prior authorized.
- [Clients of the Developmental Disabilities Administration \(DDA\).](#)

CDT® Code	Description	PA?	Requirements	Age Limitation
D4210	gingivectomy or gingivoplasty – four or more contiguous teeth or bounded teeth spaces per quadrant	Y	Quadrant designation required	Clients age 20 and younger
D4211	gingivectomy or gingivoplasty – one to three contiguous teeth or bounded teeth spaces per quadrant	Y	Quadrant designation required	Clients age 20 and younger

Nonsurgical periodontal services

The agency:

- Covers periodontal scaling and root planing for the number of teeth scaled that are periodontically involved once per quadrant, for clients age 13 through 18, per client in a 2-year period on a case-by-case basis, when prior authorized, and only when:
 - ✓ The client has x-rays (radiographs) evidence of periodontal disease and subgingival calculus.
 - ✓ The client's record includes supporting documentation for the medical necessity of the service, including complete periodontal charting done within 12 months with location of the gingival margin and clinical attachment loss and a definitive diagnosis of periodontal disease prior to the date of the prior authorization request.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- ✓ The client's clinical condition meets current periodontal guidelines.
- ✓ Performed at least 2 years from the date of completion of periodontal scaling and root planing or surgical periodontal treatment, or at least 12 months from the completion of periodontal maintenance.
- Covers periodontal scaling and root planing once per quadrant, per client, in a 2-year period for clients age 19 and older and only when:
 - ✓ The client has x-rays (radiographs) evidence of periodontal disease and subgingival calculus.
 - ✓ The client's record includes supporting documentation for the medical necessity, including complete periodontal charting and a definitive diagnosis of periodontal disease.
 - ✓ The client's clinical condition meets current periodontal guidelines.
 - ✓ Performed at least 2 years from the date of completion of periodontal scaling and root planing or surgical periodontal treatment, or at least 12 months from the completion of periodontal maintenance.
- Considers ultrasonic scaling, gross scaling, or gross debridement to be included in the procedure and not a substitution for periodontal scaling and root planing.
- Covers periodontal scaling and root planing only when the services are not performed on the same date of service as prophylaxis, periodontal maintenance, scaling in the presence of generalized moderate or severe gingival inflammation, gingivectomy, or gingivoplasty.
- Covers periodontal scaling and root planing, one time per quadrant in a 12-month period for [clients of DDA](#).
- Covers periodontal scaling and root planing, one time per quadrant in a 12-month period for clients residing in an ALF or nursing facility.
- Covers full mouth scaling in the presence of generalized moderate or severe gingival inflammation (CDT code D4346) for clients age 13 and older, once in a 12-month period after an oral evaluation only when:
 - ✓ The client's record includes written documentation describing gingival condition, generalized suprabony pockets, and moderate to severe bleeding on probing.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

- ✓ The service is not billed on the same date of service as periodontal scaling and root planing, periodontal maintenance, prophylaxis, full mouth debridement, gingivectomy, or gingivoplasty.

CDT® Code	Description	PA?	Requirements	Age Limitations
D4341	periodontal scaling and root planing – four or more teeth per quadrant	Y	Quadrant designation required	Clients age 13 through 18 only
D4341	periodontal scaling and root planing – four or more teeth per quadrant	N	Quadrant designation required	Clients age 19 and older only
D4342	periodontal scaling and root planing – one to three teeth per quadrant	Y	Quadrant designation required	Clients age 13 through 18 only
D4342	periodontal scaling and root planing – one to three teeth per quadrant	N	Quadrant designation required	Clients age 19 and older only
D4346	scaling in the presence of generalized moderate or severe gingival inflammation – full mouth, after oral evaluation	N		Clients age 13 and older only
D4355	full mouth debridement to enable comprehensive evaluation and diagnosis	N	Covered only for clients of DDA	All ages

Note: CDT code D4346 must be used in place of CDT code D1110 and cannot be billed with CDT code D4341 or D4342. If all criteria are met, CDT code D4346 can be used once in a 12-month period in place of D1110 or D1120. D4346 cannot be billed with CDT code D4341, D4342, D4355, or D4910.

Periodontal maintenance

The agency covers periodontal maintenance:

- Only after the client has received periodontal scaling and root planing, gingivectomy, or gingivoplasty. The periodontal maintenance must be done at least 12 months after the periodontal scaling and root planing.
- For clients age 13 through 18, once per client in a 12-month period on a case-by-case basis, when prior authorized, and only when:

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- ✓ The client has x-ray (radiograph) evidence of periodontal disease.
- ✓ The client's record includes supporting documentation for the medical necessity, including complete periodontal charting with location of the gingival margin and clinical attachment loss and a definitive diagnosis of periodontal disease.
- ✓ The client's clinical condition meets current periodontal guidelines.
- Once per client in a 12-month period for clients age 19 and older only when:
 - ✓ The client has x-ray (radiograph) evidence of periodontal disease.
 - ✓ The client's record includes supporting documentation for the medical necessity, including complete periodontal charting and a definitive diagnosis of periodontal disease.
 - ✓ The client's clinical condition meets current periodontal guidelines.
- For [clients of DDA](#).
- For clients residing in an alternative living facility (ALF) or skilled nursing facility (SNF):
 - ✓ Periodontal maintenance (four quadrants) substitutes for an eligible periodontal scaling or root planing once every 6 months.
 - ✓ Periodontal maintenance is allowed 6 months after scaling or root planing.
- Only if the service is not billed on the same date of service as prophylaxis, periodontal scaling and root planing, scaling in the presence of generalized moderate or severe gingival inflammation, full mouth debridement, gingivectomy, or gingivoplasty.

CDT® Code	Description	PA?	Age Limitations
D4910	periodontal maintenance	Y N	Clients age 13 through 18 only Clients age 19 and older only

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What prosthodontic (removable) services are covered?

[\(WAC 182-535-1090\)](#)

For complete authorization criteria, see [Prior authorization for removable prosthodontic and prosthodontic-related procedures.](#)

Complete dentures

The agency:

- Covers complete dentures, including overdentures only as follows:
 - ✓ One initial maxillary complete denture and one initial mandibular complete denture per client, per the client’s lifetime with PA or with EPA if EPA criteria is met. See the [EPA code list](#).
 - ✓ Replacement of a partial denture with a complete denture only when the replacement occurs 3 or more years after the delivery (placement) date of the last resin partial denture, with PA.
 - ✓ One replacement maxillary complete denture and one replacement mandibular complete denture per client, per the client’s lifetime if the replacement occurs at least 5 years after the delivery (placement) date of the initial complete denture or overdenture. Must have documentation of medical necessity. Replacement dentures prior to 5 years require PA.
- Considers 3-month post-delivery care (e.g., adjustments, soft relines, and repairs) from the delivery (placement) date of the complete denture as part of the complete denture procedure and is not paid separately.

CDT® Code	Description	PA?
D5110	complete denture – maxillary	Y* *See EPA #870001414.
D5120	complete denture – mandibular	Y* *See EPA #870001415.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

The provider must obtain a completed, signed *Denture Agreement of Acceptance* form, HCA 13-809, from the client at the conclusion of the final denture try-in and at the time of delivery for an agency-authorized complete denture. See [Where can I download agency forms?](#)

If the client abandons the complete denture after signing the agreement of acceptance, the agency will deny subsequent requests for the same type of dental prosthesis if the request occurs before the time limitations specified in this section. A copy of the signed agreement must be kept in the provider's files and be available upon request by the agency. Failure to submit the completed, signed *Denture Agreement of Acceptance* form when requested may result in recoupment of the agency's payment.

Resin partial dentures

The agency covers resin partial dentures with prior authorization as follows:

- For anterior and posterior teeth **only** when the following criteria are met:
 - ✓ The remaining teeth in the arch must be free of periodontal disease and have a 3-year prognosis for retention.
 - ✓ The client has established caries control.
 - ✓ For a maxillary partial denture, the client has either of the following:
 - One or more missing anterior teeth.
 - Four or more missing posterior teeth (excluding teeth 1, 2, 15, and 16) on the upper arch.
 - ✓ For a mandibular partial denture, the client has either of the following:
 - One or more missing anterior teeth.
 - Four or more missing posterior teeth (excluding teeth 17, 18, 31, and 32) on the lower arch.
- Note:** Pontics on an existing fixed bridge do not count as missing teeth. The agency does not consider closed spaces of missing teeth to qualify as a missing tooth.
- ✓ There are a minimum of four functional, stable teeth remaining per arch (excluding 1, 16, 17, and 32).
- The agency considers 3-month post-delivery care (e.g., adjustments, soft relines, and repairs) from the delivery (placement) date of the partial denture as part of the resin partial denture procedure. This is not paid separately.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

- The agency covers replacement of a resin-based partial denture with a new resin partial denture or a complete denture if it occurs at least 3 years from the delivery (placement) date of the resin-based partial denture when medically necessary. The replacement denture must be prior authorized and meet the agency’s coverage criteria.

CDT® Code	Description	PA?	Limitations
D5211	maxillary partial denture – resin base (including retentive/clasping materials, rests and teeth)	Y	
D5212	mandibular partial denture – resin base (including retentive/clasping materials rests and teeth)	Y	

- The provider must obtain a completed, signed *Partial Denture Agreement of Acceptance* form, HCA 13-965, from the client at the conclusion of the final denture try-in and at the time of delivery for an agency-authorized partial denture. See [Where can I download agency forms?](#)
 - ✓ If the client abandons the partial denture after signing the agreement of acceptance, the agency will deny subsequent requests for the same type of dental prosthesis if the request occurs before the time limitations specified in this section.
 - ✓ A copy of the signed agreement must be kept in the provider’s files and be available upon request by the agency. Failure to submit the completed, signed *Partial Denture Agreement of Acceptance* form when requested may result in recoupment of the agency’s payment.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Other requirements/limitations

Providers must:

- Bill for removable partial or complete denture only after the delivery (placement) of the prosthesis, not at the impression date. The agency may pay for lab fees if the removable partial or complete denture is not delivered.
- Deliver services and procedures that are of acceptable quality to the agency. The agency may recoup payment for services that are determined to be below the standard of care or of an unacceptable product quality.

Adjustments to dentures

Adjustments to complete and partial dentures are included in the global fee for the denture for the first 90 days after the delivery (placement) date.

CDT® Code	Description	PA?
D5410	adjust complete denture – maxillary	N
D5411	adjust complete denture – mandibular	N
D5421	adjust partial denture – maxillary	N
D5422	adjust partial denture – mandibular	N

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Repairs to complete and partial dentures

The agency covers repairs to complete and partial dentures once in a 12-month period, per arch. The cost of repairs cannot exceed the cost of a replacement denture or a partial denture. The agency covers additional repairs on a case-by-case basis and when prior authorized.

CDT® Code	Description	PA?	Requirements
D5511	repair broken complete denture base, mandibular	N	
D5512	repair broken complete denture base, maxillary	N	
D5520	replace missing or broken teeth – complete denture (each tooth)	N	Tooth designation required
D5611	repair resin partial denture base, mandibular	N	
D5612	repair resin partial denture base, maxillary	N	
D5621	repair cast partial framework, mandibular	N	
D5622	repair cast partial framework, maxillary	N	
D5630	repair or replace broken retentive/clasping materials – per tooth	N	Tooth designation required
D5640	replace broken teeth – per tooth	N	Tooth designation required
D5650	add tooth to existing partial denture	N	Tooth designation required
D5660	add clasp to existing partial denture – per tooth	N	Tooth designation required

Denture rebase procedures

The agency covers a laboratory rebase to a complete or partial denture once in a 3-year period when performed at least 6 months after the delivery (placement) date. Rebase prior to 3 years may be covered for complete or partial dentures on a case-by-case basis when prior authorized.

CDT® Code	Description	PA?
D5710	rebase complete maxillary denture	N
D5711	rebase complete mandibular denture	N
D5720	rebase maxillary partial denture	N
D5721	rebase mandibular partial denture	N

Note: The agency does not allow a denture rebase and a relines in the same 3-year period. The agency covers rebases or relines only on partials and complete dentures (CDT codes D5110, D5120, D5211, D5212, D5213, and D5214).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Denture reline procedures

The agency covers a laboratory reline to a complete or partial denture once in a 3-year period when performed at least 6 months after the delivery (placement) date. Reline prior to 3 years may be covered for complete or partial dentures on a case-by-case basis when prior authorized.

CDT® Code	Description	PA?
D5750	reline complete maxillary denture (laboratory)	N
D5751	reline complete mandibular denture (laboratory)	N
D5760	reline maxillary partial denture (laboratory)	N
D5761	reline mandibular partial denture (laboratory)	N

Note: The agency does not allow a denture rebase and a reline in the same 3-year period. The agency covers rebases or relines only on partials and complete dentures (CDT codes D5110, D5120, D5211, D5212, D5213, and D5214). The agency does not cover chairside relines.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Other removable prosthetic services

The agency:

- Covers laboratory fees, subject to the following:
 - ✓ The agency does not pay separately for laboratory or professional fees for complete and partial dentures.
 - ✓ The agency may pay part of billed laboratory fees when the provider obtains PA, and the client:
 - Is not eligible at the time of delivery of the partial or complete denture.
 - Moves from the state.
 - Cannot be located.
 - Does not participate in completing the partial or complete dentures.
 - Dies.

Note: Use the impression date as the date of service in the above instance.

- Requires providers to submit copies of laboratory prescriptions and receipts or invoices for each claim when submitting for prior authorization of code D5899 for laboratory fees.

CDT® Code	Description	PA?	Requirements	Age Limitations
D5863	overdenture – complete maxillary	Y	Arch designation required	
D5865	overdenture – complete mandibular	Y	Arch designation required	
D5899	unspecified removable prosthodontic procedure, by report	Y	Arch designation required	
D6930	Re-cement or re-bond fixed partial denture	N	Arch or quadrant designation required	

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Prior authorization (PA) for removable prosthodontic and prosthodontic-related procedures

The agency requires PA for the removable prosthodontic and prosthodontic-related procedures listed in this section when noted. PA requests must meet the [prior authorization criteria](#). In addition, the agency requires the dental provider to submit current, within the last 12 months:

- Appropriate diagnostic x-rays (radiographs) of all remaining teeth, except for nursing facility clients when x-rays (radiographs) are unavailable. In this case, the provider must submit a completed Tooth Chart form (HCA 13-863). See [Where can I download agency forms?](#)
- A dental record which identifies:
 - ✓ All missing teeth for both arches.
 - ✓ Teeth that are to be extracted.
 - ✓ Dental and periodontal services completed on all remaining teeth.
- Completed *Tooth Chart* (HCA 13-863) form. The tooth chart must be completed as follows:
 - ✓ Missing teeth must be marked with an | |
 - ✓ Extracted teeth must be marked with an X.

A provider must:

- Obtain a signed *Denture Agreement of Acceptance* (HCA 13-809) form and/or *Partial Denture Agreement of Acceptance* (HCA 13-965) from the client at the final denture or partial denture try-in and at the time of delivery (placement) for an agency-authorized complete or partial denture described in this section. See [Where can I download agency forms?](#) If the client abandons the complete or partial denture after signing the agreement of acceptance, the agency will deny subsequent requests for the same type of dental prosthesis if the request occurs prior to the time limitations specified in this section ([WAC 182-535-1090\(2\)\(c\)](#)).
- Retain in the client's record the completed copy of the signed *Denture Agreement of Acceptance* (HCA #13-809) form and/or *Partial Denture Agreement of Acceptance* (HCA 13-965) form, which documents the client's acceptance of the dental prosthesis.

Note: If a client wants to change denture providers, the agency must receive a statement from the client requesting the provider change. The agency will confirm the original provider has not already rendered services before cancelling the original authorization request for services. The new provider must submit another authorization request for services.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Alternate living facilities or skilled nursing facilities **([Chapter 182-535 WAC](#))**

- The agency requires a provider to submit the following with a PA request for a removable partial or complete denture for a client residing in an alternative living facility (ALF) or in a skilled nursing facility (SNF), group home, or other facility:
 - ✓ The client's medical diagnosis or prognosis.
 - ✓ The attending physician's signature documenting medical necessity for the prosthetic service.
 - ✓ The attending dentist or denturist's signature documenting medical necessity for the prosthetic service.
 - ✓ A written and signed consent for treatment from the client's legal guardian when a guardian has been appointed.
 - ✓ A completed copy of the *Denture/Partial Appliance Request for Skilled Nursing Facility Client* form, HCA 13-788 (see [Where can I download agency forms?](#)).

Note: ALFs and group homes may use HCA 13-788 when requesting PA for a removable partial or complete denture for a client residing in their facility, even though the form states that it is for nursing facilities.

What maxillofacial prosthetic services are covered? **([WAC 182-535-1092](#))**

The agency covers maxillofacial prosthetics on a case-by-case basis and when prior authorized.

The agency must preapprove a provider qualified to furnish maxillofacial prosthetics.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What oral and maxillofacial surgery services are covered?

[\(WAC 182-535-1094\)](#)

General coverage

All coverage limitations and age requirements apply to clients of the [Developmental Disabilities Administration \(DDA\)](#) unless otherwise noted.

- Agency-enrolled dental providers who are not specialized to perform oral and maxillofacial surgery must use only the Current Dental Terminology (CDT®) codes to bill claims for services that are listed as covered.
- Agency-enrolled dental providers who are specialized to perform oral and maxillofacial surgery can bill using Current Procedural Terminology (CPT®) codes unless the procedure is specifically listed in this billing guide as a CDT covered code (e.g., extractions).

Note: For billing information on billing CPT codes for oral surgery, refer to the agency's [Physician-related services/health care professional billing guide](#). The agency pays oral surgeons for only those CPT codes listed in the [Dental fee schedule](#) under Dental CPT Codes.

- The agency covers nonemergency oral surgery performed in a hospital or ambulatory surgery center only for clients:
 - ✓ Age 8 and younger
 - ✓ Age 9 through 20 on a case-by-case basis and when the site-of-service is prior authorized by the agency
 - ✓ [Any age for clients of the DDA](#)
- The agency requires the dental provider to submit current records (within the last 12 months) all of the following for site-of-service and oral surgery CPT codes that require PA:
 - ✓ Documentation used to determine medical appropriateness
 - ✓ Cephalometric films
 - ✓ X-rays (radiographs)
 - ✓ Photographs
 - ✓ Written narrative/letter of medical necessity to include proposed billing codes

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Services exempt from site of service prior authorization

The agency does not require site-of-service authorization for any of the following surgeries:

Cleft palate surgeries (CPT® codes 42200, 42205, 42210, 42215, 42225, 42226, 42227, 42235, 42260, 42280, and 42281) with a diagnosis of cleft palate.

Documentation requirements

The agency requires the client's dental record to include supporting documentation for each type of extraction or any other surgical procedure billed to the agency. The documentation must include:

- Appropriate consent form signed by the client or the client's legal representative
- Appropriate radiographs
- Medical justification with diagnosis
- The client's blood pressure, when appropriate
- A surgical narrative and complete description of each service performed beyond surgical extraction or beyond code definition
- A copy of the post-operative instructions
- A copy of all pre- and post-operative prescriptions

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Note: Effective for claims with dates of service beginning March 30, 2020, the agency, in an effort to increase access to emergency oral surgery, has temporarily increased the rates for the following codes: CDT codes D7140, D7210, D7220, D7230, and D7240. Please see the [fee schedule](#) for corresponding rates.

This is in response to COVID-19. These codes are to be utilized for emergency dental procedures only when a client presents with pain, swelling, acute infection, or other emergency condition. It is NOT to be utilized during this time for asymptomatic teeth, including teeth in the same quadrant. When billing one or more of these codes, providers must include expedited prior authorization (EPA) number **870001608**.

HCA is extending the end date for these policies on a “to be determined” basis. The agency will continue to reevaluate and give sufficient notice when these policies do expire.

Extractions

The agency covers:

- Simple and surgical extractions
- Unusual, complicated surgical extractions
- Extraction of unerupted teeth
- Debridement of a granuloma or cyst that is five millimeters or greater in diameter. The agency includes debridement of a granuloma or cyst that is less than five millimeters as part of the global fee for the extraction.

Note: For surgical extractions, documentation supporting the medical necessity of the billed procedure code **MUST** be in the client’s record.

When making the client edentulous, current photographs or radiographs are required in the supporting documentation with a medical justification narrative demonstrating:

- Extensive caries/rampant decay. This is defined by the agency as widespread caries that affects 67% or greater of the teeth (per arch) and penetrates quickly to the dental pulp.
- There are less than four teeth per arch with a favorable 3-year prognosis
- Generalized periodontal disease (per arch)

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

- The structural or periodontal health of the remaining teeth (per arch) is insufficient to support a partial denture.
- The need to address oral disease for clients preparing for a medical procedure, such as organ transplant, joint replacement, heart surgery, or head and neck radiation

CDT® Code	Description	PA?	Requirements
D7111	extraction, coronal remnants – deciduous tooth	N	Tooth designation required
D7140	extraction, erupted tooth or exposed root (elevation and/or forceps removal)	N	Tooth designation required
D7210	extraction, erupted tooth requiring removal of bone and/or sectioning of tooth, and including elevation of mucoperiosteal flap if indicated	N	Tooth designation required
D7220	removal of impacted tooth – soft tissue	N	Tooth designation required
D7230	removal of impacted tooth – partially bony	N	Tooth designation required
D7240	removal of impacted tooth – completely bony	N	Tooth designation required
D7241	removal of impacted tooth – completely bony, with unusual surgical complications	Y	Tooth designation required
D7250	surgical removal of residual tooth roots (cutting procedure)	N	Tooth designation required The fee for this service is included in the initial extraction fee when performed by the original treating dentist or clinic and may not be billed to the client.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Other surgical procedures

The agency covers the following without prior authorization (PA):

- Biopsy of soft oral tissue
- Brush biopsy
- Surgical excision of soft tissue lesions
- Tooth reimplantation/stabilization of accidentally avulsed or displaced teeth

Providers must keep all biopsy reports or finding in the client's dental record.

CDT® Code	Description	PA?	Requirements	Age Limitations
D7270	tooth reimplantation and/or stabilization of accidentally avulsed or displaced tooth	N	Tooth designation required for permanent teeth only	
D7280	surgical access of an unerupted permanent tooth	Y*	Tooth designation required. *See EPA #870001366 .	Clients age 20 and younger only
D7283	placement of device to facilitate eruption of impacted permanent tooth	Y*	Covered in conjunction with D7280 and when medically necessary; tooth designation required. *See EPA #870001366 .	Clients age 20 and younger only
D7285	incisional biopsy of oral tissue-hard (bone, tooth)	N		
D7286	incisional biopsy of oral tissue – soft	N		
D7288	brush biopsy – transepithelial sample collection	N		

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Alveoloplasty – surgical preparation of ridge for dentures

The agency covers alveoloplasty only in conjunction with the preparation of dentures or partials. Documentation supporting the medical necessity for the procedure must be maintained in the client’s record. Supporting documentation must include current photographs or x-rays (radiographs) and medical justification narrative.

CDT® Code	Description	PA?	Requirements
D7310	alveoloplasty in conjunction with extractions – four or more teeth or tooth spaces, per quadrant	N	Quadrant designation required
D7311	alveoloplasty in conjunction with extractions – one to three teeth or tooth spaces, per quadrant	N	Quadrant designation required
D7320	alveoloplasty not in conjunction with extractions – four or more teeth, per quadrant	N	Quadrant designation required
D7321	alveoloplasty not in conjunction with extractions – one to three teeth or tooth spaces, per quadrant	N	Quadrant designation required

Surgical excision of soft tissue lesions

The agency covers surgical excision of soft tissue. Documentation supporting the medical necessity of the procedure must be maintained in the client’s record. All biopsy reports and/or findings must be documented in the client’s dental record.

CDT® Code	Description	PA?	Requirements
D7410	excision of benign lesion up to 1.25 cm	N	

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Excision of bone tissue

The agency covers only the following excisions of bone tissue in conjunction with placement of complete or partial dentures:

- Removal of lateral exostosis.
- Removal of mandibular or palatal tori.
- Surgical reduction of osseous tuberosity.

Documentation supporting the medical necessity for the procedure must be maintained in the client’s record. Supporting documentation must include current photographs or x-rays (radiographs) and medical justification narrative.

CDT® Code	Description	PA?	Requirements	Age Limitations
D7471	removal of lateral exostosis (maxilla or mandible)	N	Arch designation required	
D7472	removal of torus palatinus	N		
D7473	removal of torus mandibularis	N	Quadrant designation required	
D7485	surgical reduction of osseous tuberosity	N	Quadrant designation required	
D7970	excision of hyperplastic tissue – per arch	Y	Arch designation required	
D7971	excision of pericoronal gingiva	Y*	*See EPA #870001310 .	Clients age 20 and younger only
D7972	surgical reduction of fibrous tuberosity	Y		

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Surgical incision

The agency covers:

- Uncomplicated dental-related intraoral and extraoral soft tissue incision and drainage of abscess. The agency does not cover this service when combined with an extraction or root canal treatment.

Note: Providers must not bill drainage of abscess (D7510 or D7520) in conjunction with palliative treatment (D9110).

- Removal of foreign body from mucosa, skin, or subcutaneous alveolar tissue.
- Frenuloplasty/frenulectomy
 - ✓ for clients age 6 and younger, without prior authorization.
 - ✓ for clients age 7 to 12 only on a case-by-case basis and when prior authorized. Photos must be submitted to the agency with the prior authorization request.
- Documentation supporting the medical necessity of procedures must be maintained in the client’s record.

CDT® Code	Description	PA?	Requirements	Age Limitations
D7510	incision and drainage of abscess – intraoral soft tissue	N		
D7520	incision and drainage of abscess – extraoral soft tissue	N		
D7530	removal of foreign body from mucosa, skin, or subcutaneous alveolar tissue	N		
D7960	frenulectomy (frenectomy or frenotomy) – separate procedure	Y	Arch designation required	Clients age 7 to 12 only
D7960	Frenulectomy (frenectomy or frenotomy) – separate procedure	N	Arch designation required	Clients age 6 and younger only
D7963	Frenuloplasty	Y	Arch designation required	Clients age 7 to 12 only
D7963	Frenuloplasty	N	Arch designation required	Clients age 6 and younger only

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Occlusal orthotic devices

The agency covers occlusal orthotic devices:

- For clients from age 12 through 20 only on a case-by-case basis and when prior authorized.
- Only as a laboratory processed full arch appliance.

Note: Refer to [What adjunctive general services are covered](#) for occlusal guard coverage and limitations on coverage.

CDT® Code	Description	PA?	Age Limitations
D7880	occlusal orthotic device	Y	Clients age 12 through 20 only

What orthodontic services are covered?

[\(WAC 182-535-1096\)](#)

The agency covers orthodontic services, subject to the coverage limitations listed, for clients age 20 and younger according to the agency’s [Orthodontic services billing guide](#).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What adjunctive general services are covered?

[\(WAC 182-535-1098\)](#)

Palliative treatment

The agency covers palliative (emergency) treatment, not to include pulpal debridement (D3221), for treatment of dental pain, limited to once per day, per client, as follows:

- The treatment must occur during limited evaluation appointments.
- A comprehensive description of the diagnosis and services provided must be documented in the client's record.
- Appropriate radiographs must be in the client's record supporting the medical necessity of the treatment.

Palliative treatment is not allowed on same day as definitive treatment.

CDT® Code	Description	PA?	Requirement
D9110	palliative (emergency) treatment of dental pain – minor procedure	N	Tooth designation required

Anesthesia

The agency:

- Covers local anesthesia and regional blocks as part of the global fee for any procedure provided to clients.
- Requires the provider's current Department of Health (DOH) anesthesia permit to be on file with the agency.
- Covers office-based oral or parenteral conscious sedation, deep sedation, or general anesthesia.
- Covers administration of nitrous oxide once per day, per client, per provider.

To review maximum allowable fees, see the agency's [Fee Schedule](#).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Note: Effective for claims with dates of service beginning March 18, 2020, the agency is temporarily suspending prior authorization requirements for general anesthesia and intravenous sedation (D9222, D9223, D9239, and D9243) when the client is in an emergency condition.

When billing for general anesthesia or intravenous sedation related to a dental emergency, providers must include expedited prior authorization (EPA) number **870001607** to their claim form.

Prior authorization continues to be required for all nonemergency oral surgery.

HCA is extending the end date for these policies on a “to be determined” basis. The agency will continue to reevaluate and give sufficient notice when these policies do expire.

ANESTHESIA PRIOR AUTHORIZATION			
CDT® Code	Description	Ages	PA?
D9222	deep sedation/general anesthesia – first 15 minutes	Age 8 and younger, age 9 through 20 with diagnosis of cleft palate, or any age clients of DDA	N
		Age 9 through 20 without diagnosis of cleft palate and age 21 and older. See EPA #870001387	Y*
D9223	deep sedation/general anesthesia – additional 15 – minute increments	Age 8 and younger, age 9 through 20 with diagnosis of cleft palate, or any age clients of DDA	N
		Age 9 through 20 without diagnosis of cleft palate and age 21 and older. See EPA #870001387	Y*
D9230	Analgesia, anxiolysis, inhalation of nitrous oxide	All ages	N
D9248	non-intravenous conscious sedation (this includes non-IV minimal and moderate sedation)	Age 20 and younger Any age clients of DDA	N
		Age 21 and older	Y
D9239		Age 20 and younger Any age clients of DDA	N

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

	intravenous moderate (conscious) sedation/analgesia – first 15 minutes	Age 21 and older	Y
D9243	intravenous moderate (conscious) sedation/analgesia – additional 15-minute increments	Age 20 and younger Any age clients of DDA	N
		Age 21 and older	Y

Note: Letters of medical necessity for anesthesia must clearly describe the medical need for anesthesia and what has been tried and failed. Dental phobia and fear of needles is not specific enough information.

- Requires providers of oral or parenteral conscious sedation, deep sedation, or general anesthesia to meet:
 - ✓ The prevailing standard of care
 - ✓ The provider's professional organizational guidelines
 - ✓ The requirements in [Chapter 246-817 WAC](#)
 - ✓ Relevant DOH medical, dental, or nursing anesthesia regulations

Note: For clients age 21 and older, prior authorization will be considered only for those clients with medical conditions including, but not limited to:

- Tremors.
- Seizures.
- Asthma.
- Behavioral health conditions when the client’s records contain documentation of tried and failed treatment under local anesthesia or other less costly sedation alternatives.

Pays for anesthesia services according to [WAC 182-535-1400](#) (5).

Mobile anesthesia

To receive payment for a facility fee for mobile anesthesia services, the mobile anesthesiologist must have a core provider agreement and a mobile anesthesia contract with the agency. See the agency’s [Eligible provider types and requirements](#) webpage for more information.

Note: Mobile anesthesiologist must be a separate provider than the provider delivering treatment.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Billing for anesthesia

- Billing time for anesthesia begins when the anesthesiologist or certified registered nurse anesthetist (CRNA) starts to physically prepare the patient for the induction of anesthesia in the operating room area (or its equivalent) and ends when the anesthesiologist or CRNA is no longer in constant attendance (e.g., when the patient can be safely placed under post-operative supervision).
- **Bill for general anesthesia as follows:**
 - ✓ Bill one unit of CDT code D9222 for first 15-minute increment.
 - ✓ Bill one or more units of CDT code D9223 for each additional 15-minute increment.

Note: Maximum number of units (21 total – 1 unit for D9222 and up to 20 units for D9223)

- **Bill for intravenous conscious sedation/analgesia as follows:**
 - ✓ Bill one unit of CDT code D9239 for first 15-minute increment.
 - ✓ Bill one or more units of CDT code D9243 for each additional 15-minute increment.

Example: You are billing for 60 minutes of deep sedation (D9222/D2223), complete the claim as follows:

- Claim line one – D9222 one unit (first 15 minutes)
- Claim line two – D9223 three units (additional 45 minutes)

In ProviderOne, there is a box in which the provider submits how many *units* of anesthesia were delivered for that visit. You must put *units* in this box even though the direction (in parenthesis) next to the box says to enter in minutes. The direction on the screen in parenthesis is wrong. Please enter *units* in the box.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Professional visits and consultations

- The agency covers:
 - ✓ An agency referral for professional consultation or diagnostic services provided by a dentist or a physician other than the practitioner providing treatment.
 - ✓ Up to two house/extended care facility calls (visits) per facility, per provider. The agency limits payment to two facilities per day, per provider.
 - ✓ One hospital call (visit), including emergency care, per day, per provider, per client, and not in combination with a surgical code unless the decision for surgery is a result of the visit.
 - ✓ Emergency office visits after regularly scheduled hours. The agency limits payment to one emergency visit per day, per client, per provider.

Note: Effective for dates of service beginning March 30, 2020, phone triage, D9992, is a temporary code in response to COVID-19, which allows a dentist to triage a client for emergency services over the phone. It is not a teledentistry code and should not be billed with teledentistry.

*This code is NOT to be used for day-to-day operations, such as scheduling appointments.

HCA is extending the end date for these policies on a “to be determined” basis. The agency will continue to reevaluate and give sufficient notice when these policies do expire.

CDT® Code	Description	PA?
D9310	professional consultation or diagnostic service provided by a practitioner other than the original practitioner	Y
D9410	house/extended care facility call	N
D9420	hospital call	N
D9440	office visit – after regularly scheduled hours	N
D9992	Phone triage	N

- When billing for evaluation and management (E/M) codes, all of the following must be true:
 - ✓ Services must be billed on an electronic professional claim.
 - ✓ Services must be billed using one of the following CPT procedure codes and modifiers must be used if appropriate.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

- ✓ E/M codes may not be billed for the same client, on the same day as surgery unless the E/M visit resulted in the decision for surgery.

CPT® Code	Description *Refer to CPT manual for long descriptions.	PA?
99201	Office/outpatient visit, new*	N
99211	Office/outpatient visit, est*	N
99231	Subsequent hospital care*	N
99241	Office Consultation*	N
99251	Inpatient Consultation*	N

Drugs and medicaments (pharmaceuticals)

- The agency covers oral sedation medications only when prescribed and the prescription is filled at a pharmacy. The agency does not cover oral sedation medications that are dispensed in the provider’s office for home use.
- The agency covers therapeutic parenteral drugs as follows:
 - ✓ Includes antibiotic, steroids, anti-inflammatory drugs, or other therapeutic medications
 - ✓ Only one single-drug injection or one multiple-drug injection per date of service
- For clients age 20 and younger, the agency covers other drugs and medicaments dispensed in the provider’s office for home use. This includes, but is not limited to, oral antibiotics and oral analgesics. The agency does not cover the time spent writing prescriptions.
- Coverage for therapeutic parenteral drugs does not include sedative, anesthetic, or reversal agents.

CDT® Code	Description	PA?	Age Limitations
D9610	therapeutic parenteral drug, single administration	N	
D9612	therapeutic parenteral drugs, two or more administrations, different medications	N	
D9630	other drugs and/or medicaments, by report	N	Clients age 20 and younger only

Note: Effective on and after January 1, 2020, prescription fees for eligible clients enrolled in an agency-contracted managed care organization (MCO) must be billed directly to the client’s MCO.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Behavior management

The agency covers behavior management under the following conditions: At least **one additional professional staff (six-handed dentistry)**, employed by the dental provider or clinic, is needed to protect the client and staff from injury while treatment is rendered for clients:

- Age 8 and younger.
- Age 9 through 20, only on a case-by-case basis and when prior authorized.
- Any age of the Developmental Disabilities Administration (DDA).
- Residents who reside in an ALF or nursing facility.
- Diagnosed with autism.

The agency does not pay a separate fee for behavior management when the assistance is provided by a parent (legal guardian) or family member, or a provider or staff member (four-handed dentistry) already delivering the client’s dental treatment.

Note: Documentation supporting the medical necessity for the procedure must be maintained in the client’s record. It must include a description of the behavior to be managed, the behavior management technique used, and identification of the additional professional staff to manage the behavior to assist the delivery of dental treatment.

CDT Code	Description	PA?	Age Limitations
D9920	behavior management	N	<ul style="list-style-type: none"> • Clients age 8 and younger; or • DDA clients; or • Clients residing in an ALF or nursing facility; or • Clients diagnosed with autism
D9920	behavior management	Y	<ul style="list-style-type: none"> • Clients age 9 through 20 and not a DDA client

Note: Do not bill behavior management in conjunction with CDT codes D9222, D9223, D9239, or D9243 in any setting.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

The agency pays for behavior management when performed in the following settings only:

- Clinics (including independent clinics, tribal health clinics, federally qualified health centers, rural health clinics, and public health clinics).
- Offices.
- Homes (including private homes and group homes).
- Facilities (including alternate living facilities and nursing facilities).

Postsurgical complications

The agency covers treatment of post-surgical complications (e.g., dry socket). This treatment can be billed only one time per visit and used only for an unusual circumstance, not for a routine postoperative visit. Documentation supporting the medical necessity for the procedure must be maintained in the client’s record.

CDT® Code	Description	PA?	Requirement
D9930	treatment of complications (post-surgical) – unusual circumstances	N	Tooth designation required

Occlusal guards

The agency covers occlusal guards when medically necessary and prior authorized. (See [What oral and maxillofacial surgery services are covered?](#) for occlusal orthotic device coverage and coverage limitations.) The agency covers an occlusal guard only:

- For clients age 12 through 20 when the client has permanent dentition.
- As a laboratory processed full arch appliance.

CDT® Code	Description	PA?	Age Limitations
D9944	occlusal guard, hard appliance, full arch	Y	Clients age 12 through 20 only
D9945	occlusal guard, soft appliance, full arch	Y	Clients age 12 through 20 only

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Is teledentistry covered?

([WAC 182-531-1730](#), [RCW 18.32](#), [RCW 18.29](#))

Yes. Washington Apple Health clients are eligible for medically necessary covered dental services delivered through teledentistry. The dental provider is responsible for determining and documenting that teledentistry is medically necessary and within the [DOH's teledentistry guidelines](#).

What is teledentistry?

Teledentistry is not a specific procedure, but a broad variety of technologies and tactics used to deliver dental services. Health care practitioners use HIPAA-compliant, interactive, real-time audio and video telecommunications (including web-based applications) or store-and-forward technology to deliver covered services that are within their scope of practice, to a client at a site other than the site where the provider is located.

A dentist or authorized dental provider may delegate allowable tasks to Washington State Registered Dental Hygienists (RDHs) and Expanded Function Dental Assistants (EFDAs) through teledentistry. Delegation of tasks to dental hygienists and EFDA's through teledentistry must be under the general supervision described in [WAC 246-817-525](#) and [WAC 246-817-550](#). Teledentistry does not meet the definition of close supervision.

There are two ways to use teledentistry:

- **Synchronous** meaning the dental provider and the client are in separate locations virtually interacting in real time through real-time audio and video.
- **Asynchronous** meaning store-and-forward technology where the client and the dental provider do not interact in real time. Asynchronous is when a dentist reviews client health information and records previously gathered by another professional at a different time and location than where the records were initially obtained.

The authorized dental provider uses teledentistry, when it is medically necessary and performed within the Department of Health Dental (DOH) Quality Assurance Commission's, [Appropriate Use of Teledentistry Guideline](#).

This mode of care enables the dental provider and the client to interact either synchronously or asynchronously. Teledentistry allows clients, particularly those in medically underserved areas of the state, to have improved access to essential dental services that may not otherwise be available without traveling long distances. The agency does not cover email, audio only telephone, and facsimile transmissions as teledentistry services.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

When does the agency cover teledentistry?

The agency covers teledentistry as a substitute for an in-person, face-to-face, hands-on encounter only for services that are medically necessary, within the scope of practice of the performing agency-contracted providers, and DOH teledentistry guidelines.

For synchronous (real-time encounter) teledentistry, the client is present at the originating site and participates in the visit with the dentist or authorized dental provider at the distant site.

For asynchronous (a not in real-time encounter) teledentistry, the client’s dental clinical information is gathered at the originating site the information is sent via store-and-forward technology to a dentist or authorized dental provider (distant site) for review and subsequent intervention at a later point in time.

Documentation

The client’s record must include supporting documentation for the medical necessity of the service including the following:

- Service provided via teledentistry.
- Location of the client.
- Location of the provider.
- Names and credentials (MD, DDS, RDH, EFDA) of all persons involved in the teledentistry visit and their role in the encounter at both the originating and the distant sites.

CDT® Code	Description	PA?
D9995	Teledentistry – synchronous; real-time encounter	N
D9996	Teledentistry – asynchronous; information stored and forwarded to dentist for subsequent review	N

Note: The facility fee mentioned in WAC 182-531-1730(5) is included in D9995/9996. There is no separate facility fee for teledentistry.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

What dental-related services are not covered?

[\(WAC 182-535-1100\)](#)

General – All ages

The agency does not cover:

- The dental-related services listed under [By category – for clients age 21 and older](#) unless the services include those medically necessary services and other measures provided to correct or ameliorate conditions discovered during a screening performed under the early periodic screening, diagnosis and treatment (EPSDT) program. When EPSDT applies, the agency evaluates a noncovered service, equipment, or supply according to the process in [WAC 182-501-0165](#) to determine if it is medically necessary, safe, effective, and not experimental.
- Any service specifically excluded by statute.
- More costly services when less costly, equally effective services as determined by the agency are available.
- Services, procedures, treatments, devices, drugs, or application of associated services:
 - ✓ That the agency or the Centers for Medicare and Medicaid Services (CMS) considers investigative or experimental on the date the services were provided.
 - ✓ That are not listed as covered in one or both of the following:
 - Washington Administrative Code (WAC).
 - Agency’s current documents.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

By category – For all ages

The agency does not cover the following dental-related services under the dental program for any age:

Diagnostic services

- Detailed and extensive oral evaluations or reevaluations
- Posterior-anterior or lateral skull and facial bone survey films
- Any temporomandibular joint films
- Tomographic surveys/3-D imaging
- Viral cultures, genetic testing, caries susceptibility tests, or adjunctive prediagnostic tests
- Comprehensive periodontal evaluations

Preventive services

- Nutritional counseling for control of dental disease
- Removable space maintainers of any type
- Sealants placed on a tooth with the same-day occlusal restoration, preexisting occlusal restoration, or a tooth with occlusal decay
- Custom fluoride trays of any type
- Bleaching trays

Restorative services

- Restorations for wear on any surface of any tooth without evidence of decay through the dentinoenamel junction (DEJ) or on the root surface
- Preventive restorations
- Labial veneer resin or porcelain laminate restorations
- Sedative fillings
- Crowns and crown related services
 - ✓ Gold foil restorations
 - ✓ Metallic, resin-based composite, or porcelain/ceramic inlay/onlay restorations
 - ✓ Crowns for cosmetic purposes (e.g., peg laterals and tetracycline staining)
 - ✓ Permanent indirect crowns for posterior teeth
 - ✓ Permanent indirect crowns on permanent anterior teeth for clients age 14 and younger
 - ✓ Temporary or provisional crowns (including ion crowns)
 - ✓ Any type of coping
 - ✓ Crown repairs
 - ✓ Crowns on teeth 1, 16, 17, and 32

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

- Polishing or recontouring restorations or overhang removal for any type of restoration
- Any services other than extraction on supernumerary teeth

Endodontic services

- Indirect or direct pulp caps
- Any endodontic treatment on primary teeth, except endodontic treatment with resorbable material for primary maxillary incisor teeth D, E, F, and G, if the entire root is present at treatment

Periodontic services

- Surgical periodontal services including, but not limited to:
 - ✓ Gingival flap procedures
 - ✓ Clinical crown lengthening
 - ✓ Osseous surgery
 - ✓ Bone or soft tissue grafts
 - ✓ Biological material to aid in soft and osseous tissue regeneration
 - ✓ Guided tissue regeneration
 - ✓ Pedicle, free soft tissue, apical positioning, subepithelial connective tissue, soft tissue allograft, combined connective tissue and double pedicle, or any other soft tissue or osseous grafts
 - ✓ Distal or proximal wedge procedures
- Other periodontal services including, but not limited to:
 - ✓ Intracoronal or extracoronal provisional splinting
 - ✓ Full mouth or quadrant debridement (except for [clients of the Developmental Disabilities Administration \(DDA\)](#))
 - ✓ Localized delivery of chemotherapeutic agents
 - ✓ Any other type of surgical periodontal service

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Removable prosthodontics

- Removable unilateral partial dentures
- Any interim complete or partial dentures
- Flexible base partial dentures
- Any type of permanent soft reline (e.g., molloplast)
- Precision attachments
- Replacement of replaceable parts for semi-precision or precision attachments
- Replacement of second or third molars for any removable prosthesis
- Immediate dentures
- Cast-metal framework partial dentures

Note: The agency does not cover replacement of agency-purchased removable prosthodontics that have been lost, broken, stolen, sold, or destroyed as a result of the client's carelessness, negligence, recklessness, deliberate intent, or misuse. See WAC [182-501-0050](#).

Implant services

- Any type of implant procedures, including, but not limited to, any tooth implant abutment (e.g., periosteal implants, epostal implants, and transosteal implants), abutments or implant supported crowns, abutment supported retainers, and implant supported retainers
- Any maintenance or repairs to the above implant procedures
- The removal of any implant as described above

Fixed prosthodontics

- Fixed partial denture pontic
- Fixed partial denture retainer
- Precision attachment, stress breaker, connector bar, coping, cast post, or any other type of fixed attachment or prosthesis

Oral maxillofacial prosthetic services

Any type of oral or facial prosthesis other than those listed in [What maxillofacial prosthetic services are covered?](#)

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Oral and maxillofacial surgery

- Any oral surgery service not listed in [What oral and maxillofacial surgery services are covered?](#)
- Any oral surgery service that is not listed in WAC [182-535-1094](#)
- Vestibuloplasty

Adjunctive general services

- Anesthesia, including, but not limited to:
 - ✓ Local anesthesia as a separate procedure
 - ✓ Regional block anesthesia as a separate procedure
 - ✓ Trigeminal division block anesthesia as a separate procedure
 - ✓ Medication for oral sedation, or therapeutic intramuscular (IM) drug injections, including antibiotic and injection of sedative
 - ✓ Application of any type of desensitizing medicament or resin
- Other general services including, but not limited to:
 - ✓ Fabrication of an athletic mouthguard
 - ✓ Sleep apnea devices or splints
 - ✓ Occlusion analysis
 - ✓ Occlusal adjustment, tooth or restoration adjustment or smoothing, or odontoplasties
 - ✓ Enamel microabrasion
 - ✓ Dental supplies such as toothbrushes, toothpaste, floss, and other take home items
 - ✓ Dentist's or dental hygienist's time writing or calling in prescriptions
 - ✓ Dentist's or dental hygienist's time consulting with clients on the phone
 - ✓ Educational supplies
 - ✓ Nonmedical equipment or supplies
 - ✓ Personal comfort items or services
 - ✓ Provider mileage or travel costs
 - ✓ Fees for no-show, canceled, or late arrival appointments
 - ✓ Service charges of any type, including fees to create or copy charts
 - ✓ Office supplies used in conjunction with an office visit
 - ✓ Teeth whitening services or bleaching, or materials used in whitening or bleaching
 - ✓ Botox or dermal fillers

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

By category – for clients age 21 and older

The agency does not cover the dental-related services listed under the following categories of service for clients age 21 and older:

Diagnostic services

- Occlusal intraoral radiographs
- Diagnostic casts
- Pulp vitality tests

Preventive services

- Sealants (except for [clients of DDA](#))

Restorative services

- Prefabricated resin crowns
- Any type of core buildup, cast post and core, or prefabricated post and core

Endodontic services

- Endodontic treatment on permanent bicuspid or molar teeth
- Any apexification/recalcification procedures
- Any apicoectomy/perioradicular surgical endodontic procedures including, but not limited to, retrograde fillings (except for anterior teeth), root amputation, reimplantation, and hemisections

Adjunctive general services

- Occlusal guards, occlusal orthotic splints or devices, bruxing or grinding splints or devices, or temporomandibular joint splints or devices
- Analgesia or anxiolysis as a separate procedure except for administration of nitrous oxide

The agency evaluates a request for dental-related services that are listed as noncovered under the provisions in [WAC 182-501-0160](#).

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Clients of the Developmental Disabilities Administration

Are clients of the Developmental Disabilities Administration eligible for enhanced services?

Yes. Clients identified in ProviderOne as clients of the DDA, regardless of age, are eligible for increased frequency of some services. Clients not identified as such are not eligible for the additional services. If you believe that a patient may qualify for these services, refer the patient or the patient’s guardian to the nearest DDA Field Office. You may find current contact information for DDA on the [DDA](#) website.

What additional dental-related services are covered for clients of DDA?

[\(WAC 182-535-1099\)](#)

Subject to coverage limitations, restrictions, and client age requirements identified for a specific service, the agency pays for the following dental-related services under the following categories of services that are provided to clients of DDA. This billing guide also applies to clients of DDA, **regardless of age**, unless otherwise stated in this section.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Preventative Services

CDT® Code	Description	PA?	Requirements	Age Limitation	Frequency
D0120	periodic oral evaluation – established patient	N		All ages	Once every 4 months
D1110	prophylaxis – adult	N		Clients age 14 and older only	Once every 4 months. See limitations on periodontal scaling and root planning.
D1120	prophylaxis – child	N		Clients age 13 and under only	Once every 4 months. See limitations on periodontal scaling and root planning.
D1206	topical fluoride varnish	N	CDT codes D1206 and D1208 are not allowed on the same day	All ages	Once every 4 months
D1208	topical application of fluoride, excluding varnish	N	CDT codes D1206 and D1208 are not allowed on the same day	All ages	Once every 4 months
D1351	sealant – per tooth	N	Tooth designation required	All ages	Once per tooth in a 2-year period on the occlusal surfaces of: Primary teeth A, B, I, J, K, L, S, and T Permanent teeth 2, 3, 4, 5, 12, 13, 14, 15, 18, 19, 20, 21, 28, 29, 30, and 31

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Other Restorative Services

CDT® Code	Description	PA?	Requirements	Age Limitation	Frequency
D2910	Re-cement or re-bond inlay, onlay, veneer or partial coverage restoration	N	Tooth designation required	All ages	
D2915	Re-cement or re-bond indirectly fabricated or prefabricated post and core	N	Tooth designation required	All ages	
D2920	Re-cement or re-bond crown	N	Tooth designation required	All ages	
D2929	prefabricated porcelain/ceramic crown – primary tooth	Y*	Tooth designation required. *See EPA #870001347 and #870001348 .	Clients age 20 and younger only	Once every 2 years for primary anterior teeth. Once every 2 years for primary posterior teeth if criteria Other Restorative Services is met.
D2930	prefabricated stainless steel crown – primary tooth	Y*	Tooth designation required. *See EPA #870001347 and #870001348 .	Clients age 20 and younger only	Once every 2 years for primary anterior teeth. Once every 2 years for primary posterior teeth if criteria Other Restorative Services is met.
D2931	prefabricated stainless steel crown – permanent tooth	N	Tooth designation required	All ages	Once every 2 years for permanent posterior teeth, excluding 1, 16, 17 and 32.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Periodontic Services

CDT® Code	Description	PA?	Requirements	Age Limitation	Frequency
D4210	gingivectomy or gingivoplasty – four or more contiguous teeth or bounded teeth spaces per quadrant	N	Quadrant designation required	All ages	Once every 3 years
D4211	gingivectomy or gingivoplasty – one to three contiguous teeth or bounded teeth spaces per quadrant	N	Quadrant designation required	All ages	Once every 3 years
D4341	periodontal scaling and root planing – four or more teeth per quadrant	N	Quadrant designation required	Clients age 13 and older	One time per quadrant in a 12-month period
D4342	periodontal scaling and root planing – one to three teeth per quadrant	N	Quadrant designation required	Clients age 13 and older	One time per quadrant in a 12-month period
D4346	scaling in the presence of generalized moderate or severe gingival inflammation – full mouth after oral evaluation	N		Clients age 13 and older	Once in a 12-month period
D4355	Full mouth debridement to enable comprehensive evaluation and diagnosis	N		All ages	Once in a 12-month period
D4910	periodontal maintenance	N		Clients age 13 and older	Twice in a 12-month period *must be 6 months after last root planing

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Adjunctive General Services/Miscellaneous

CDT® Code	Description	PA?	Requirements	Age Limitation	Frequency
D9222	deep sedation/general anesthesia- first 15 minutes	N		All ages	
D9223	deep sedation/general anesthesia– additional 15-minute increments	N		All ages	
D9239	intravenous moderate (conscious) sedation/analgesia – first 15 minutes	N		All ages	
D9243	intravenous moderate (conscious) sedation/analgesia – additional 15-minute increments	N		All ages	
D9248	non-intravenous moderate (conscious) sedation	N		All ages	
D9920	behavior management	N		All ages	
Note: Do not bill behavior management in conjunction with CDT codes D9222, D9223, D9239, or D9243 in any setting.					

Other restorative services

- Prefabricated stainless steel crowns, including stainless steel crowns with resin window, resin-based composite crowns (direct), prefabricated esthetic coated stainless crowns, and prefabricated resin crowns for **primary posterior teeth** once every 2 years only for clients age 20 and younger without prior authorization if one of the following applies:
 - ✓ Decay involves three or more surfaces for a primary first molar.
 - ✓ Decay involves four or more surfaces for a primary second molar.
 - ✓ The tooth had a pulpotomy.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Periodontic services

Surgical periodontal services

The agency covers gingivectomy/gingivoplasty (does not include distal wedge procedures on erupting molars):

- Once every 3 years. Documentation supporting the medical necessity of the service must be in the client's record (e.g., drug induced gingival hyperplasia).
- With periodontal scaling and root planing or periodontal maintenance when the services are performed:
 - ✓ In a hospital or ambulatory surgical center.
 - ✓ For clients under conscious sedation, deep sedation, or general anesthesia.

Nonsurgical periodontal services

The agency covers:

- Periodontal scaling and root planing, one time per quadrant in a 12-month period.
- Periodontal maintenance (four quadrants) substitutes for an eligible periodontal scaling or root planing, twice in a 12-month period.
- Periodontal maintenance allowed 6 months after scaling or root planing.
- Full-mouth or quadrant debridement allowed once in a 12-month period.
- Scaling in the presence of generalized moderate or severe gingival inflammation allowed once in a 12-month period.

Gingivectomy is not a covered service in conjunction with the above listed procedures.

Note: A maximum of two procedures of any combination of prophylaxis, periodontal scaling and root planing, or periodontal maintenance are allowed in a 12-month period.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Nonemergency dental services

The agency covers nonemergency dental services performed in a hospital or an ambulatory surgery center for services listed as covered in the following sections in this billing guide:

- [What preventative services are covered?](#)
- [What restorative services are covered?](#)
- [What endodontic services are covered?](#)
- [What periodontic services are covered?](#)
- [What oral and maxillofacial surgery services are covered?](#)

Documentation supporting the medical necessity of the service must be included in the client's record.

Miscellaneous services-behavior management

The agency covers behavior management provided by a dental provider or clinic. Documentation supporting the medical necessity of the service must be included in the client's record. See [behavior management](#).

Note: Documentation supporting the medical necessity of the billed procedure code must be in the client's record. It must include a description of the behavior managed, the behavior management technique used, and identification of the additional professional staff employed by the dental provider or clinic to manage the behavior to assist the delivery of dental treatment. The agency does not pay a separate fee for behavior management when assistance is provided by a parent (legal guardian) or family member, provider, or staff member already delivering the client's dental treatment.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Authorization

Prior authorization (PA) and expedited prior authorization (EPA) numbers do not override the client's eligibility or program limitations. Not all categories of eligibility receive all services.

General information about authorization

([WAC 182-535-1220](#) (1) and (5))

- For dental-related services that require PA, the agency uses the payment determination process described in WAC [182-501-0165](#).
- Authorization of a dental-related service indicates only that the specific service is medically necessary. Authorization does not guarantee payment.
- The authorization is valid for 6 to 12 months as indicated in the agency's authorization letter and only if the client is eligible for covered services on the date of service.

When do I need to get prior authorization?

Authorization must take place **before** the service is provided.

In an acute emergency, the agency **may** authorize the service after it is provided when the agency receives justification of medical necessity. This justification must be received by the agency within seven business days of the emergency service.

When does the agency deny a prior authorization request?

([WAC 182-535-1220](#) (6))

The agency denies a PA request for a dental-related service when the requested service:

- Is covered by another state agency program.
- Is covered by an entity outside the agency.
- Fails to meet the program criteria, limitations, or restrictions in this billing guide.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

How do I obtain prior authorization?

[\(WAC 182-535-1220 \(2\)-\(4\)\)](#)

Providers may submit a prior authorization request by direct data entry into ProviderOne or by submitting the request in writing (see the agency’s [prior authorization](#) webpage for details).

The agency may request additional information as follows:

- Additional x-rays (radiographs) (the agency returns x-rays (radiographs) only for approved requests and if accompanied by self-addressed stamped envelope)
- Study model
- Photographs
- Second opinions and/or consultations
- Arch/quadrant designation:

Code	Area
00	Entire oral cavity
01	Maxillary arch
02	Mandibular arch
10	Upper right quadrant
20	Upper left quadrant
30	Lower left quadrant
40	Lower right quadrant

- Any other information requested by the agency

Note: The agency requires a dental provider who is requesting prior authorization to submit sufficient, current (within the past 12 months), objective, clinical information to establish medical necessity.

Note: All images must include both of the following:

- The date the images were taken.
- The client’s name and date of birth or their ProviderOne Client ID number.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Removable dental prosthetics: For nursing facility clients, the PA request must also include a completed copy of the *Denture/Partial Appliance Request for Skilled Nursing Facility Client* form, HCA #13-788. See [Where can I download agency forms?](#)

Note: For information on obtaining agency forms, see the agency's [Forms & Publications](#) webpage.

How do I submit a PA request?

For information on submitting prior authorization requests to the agency, see *Requesting Prior Authorization* in the agency's [ProviderOne billing and resource guide](#) or the [agency's prior authorization webpage](#).

How to submit a PA request, without x-rays (radiographs) or photos: For procedures that do not require x-rays (radiographs) or photos, submit by direct data entry (DDE) in the ProviderOne portal or fax the PA request to the agency at: (866) 668-1214.

How to submit a PA request, with x-rays (radiographs) or photos: Pick **one** of following options for submitting x-rays (radiographs) or photos to the agency:

- Submit request through ProviderONE by direct data entry and attach **x-rays (radiographs) or photos** to the PA request.
- Use the FastLook™ and FastAttach™ services provided by National Electronic Attachment, Inc. (NEA). You may register with NEA by visiting www.nea-fast.com and entering "FastWDSHS" in the blue promotion code box. Contact NEA at 1-800-782-5150, ext. 2, with any questions.

When choosing this option, you can fax your request to the agency and indicate the NEA# in the NEA field on the PA Request Form or in the comments if submitting request through Direct Data Entry. *There is a cost associated which will be explained by the NEA services.*

- Mail your requests to:
Authorization Services Office
PO Box 45535
Olympia, WA 98504-5535

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

If you choose to mail your requests, the agency requires you to:

1. Place x-rays (radiographs) or photographs in a large envelope.
2. Attach the PA request form and any other additional pages to the envelope (i.e. tooth chart, perio charting etc.) **Do not staple.**
3. Put the client's name, ProviderOne ID#, and section the request is for on the envelope.

Note: For orthodontics, write "orthodontics" on the envelope.

4. Place in a larger envelope for mailing. Multiple sets of requests can be mailed together.
5. Mail to the agency.

Note: The agency does not accept any documentation on CDs, thumb drives, or any device that requires downloading on state equipment.

What is expedited prior authorization (EPA)?

Expedited Prior Authorization (EPA) eliminates the need for prior authorization for selected dental procedure codes.

To use an EPA:

- Enter the EPA number on the claim form when billing the agency.
- When requested, provide documentation showing the client's condition meets **all** the EPA criteria.

Prior authorization is required when a situation does not meet **all** the EPA criteria for selected dental procedure codes. See the agency's [Prior Authorization webpage](#) for details.

It is the provider's responsibility to determine if a client has already received the service allowed with the EPA criteria. If the client already received the service, a PA request is required to provide the service again or to provide additional services. For claim inquiries, or to check for service limitations, contact the Medical Assistance Customer Service Center (MACSC):

- Phone: 1-800-562-3022
- Online: <https://fortress.wa.gov/hca/pl/contactus/>

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Note: By entering an EPA number on your claim, you attest that **all** the EPA criteria are met and can be verified by documentation in the client's record. These services are subject to post payment review and audit by the agency or its designee.

The agency may recoup any payment made to a provider if the provider did not follow the required EPA process and if not all of the specified criteria were met.

EPA code list

EPA #	CDT Code*	Description	Criteria
870001307	D2335	resin-based composite - four or more surfaces or involving incisal angle (anterior)	Allowed for primary anterior teeth (CDEFGHMNOPQR) when determined medically necessary by a dental practitioner and a more appropriate alternative to a crown. *The agency does not pay for a crown on the same tooth if a restoration has been done within the past 6 months. Note - In addition to the EPA # on your claim, you must enter a claim note "Pay per authorization - see EPA information"
870001310	D7971	excision of pericoronal gingiva	Allowed when determined to be medically necessary by a dental practitioner for treatment of a newly erupting tooth.
870001327	D0150	comprehensive oral evaluation – new or established patient	Allowed for established patients who have a documented significant change in health conditions.
870001347	D2929	prefabricated porcelain/ceramic crown – primary tooth	Allowed for a client age 12 and younger for a primary posterior tooth when determined to be medically necessary by a dental practitioner and one of the following conditions are met: <ul style="list-style-type: none"> • Evidence of extensive caries • Evidence of Class II caries with rampant decay • Treatment of decay requires sedation or general anesthesia. • First molar requires a three or more surface restoration • Second molar requires a four or more surface restoration • Tooth has a pulpotomy
	D2930	prefabricated stainless steel crown – primary tooth	
	D2932	Prefabricated resin crown	
	D2933	prefabricated stainless steel crown with resin window	

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) (“CDT”). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

Dental-Related Services

EPA #	CDT Code*	Description	Criteria
870001347	D2934	prefabricated esthetic coated stainless steel crown – primary tooth	Allowed once every 3 years; allowed once every 2 years for clients of DDA. Medical justification (including preoperative x-rays (radiographs) or clinical documentation of findings when unable to take x-rays (radiographs) due to young age) must be present in the client record.
870001348	D2390	resin-based composite crown, anterior (includes strip crowns)	Allowed for a client age 12 and younger for a primary anterior tooth when determined to be medically necessary by a dental practitioner and one of the following conditions are met: <ul style="list-style-type: none"> • Evidence of extensive caries • Evidence of rampant decay • Treatment of decay requires sedation or general anesthesia • Requires a four or more surface restoration Allowed once every 3 years; allowed once every 2 years for clients of DDA. Medical justification (including preoperative x-rays (radiographs)) must be present in the client record.
	D2929	prefabricated porcelain/ceramic crown – primary tooth	
	D2930	prefabricated stainless steel crown – primary tooth	
	D2932	prefabricated resin crown	
	D2933	prefabricated stainless steel crown with resin window	
	D2934	prefabricated esthetic coated stainless steel crown – primary tooth

Dental-Related Services

EPA #	CDT Code*	Description	Criteria
870001366	D7280	surgical access of an unerupted permanent tooth	Allowed when client is in active orthodontic treatment. Allowed one time per client, per tooth.
	D7283	placement of device to facilitate eruption of impacted permanent tooth	Allowed when client is in active orthodontic treatment. Allowed one time per client, per tooth.
870001387	D9222	deep sedation/general anesthesia– first 15-minute increments	Allowed for clients age 9 through 20 receiving oral surgery services listed in WAC 182-535-1094 (1)(f-l) and clients with cleft palate diagnoses. Only anesthesiology providers who have a core provider agreement with the agency can bill this code.
	D9223	deep sedation/general anesthesia– additional 15-minute increments	Allowed for clients age 9 through 20 receiving oral surgery services listed in WAC 182-535-1094 (1)(f-l) and clients with cleft palate diagnoses. Only anesthesiology providers who have a core provider agreement with the agency can bill this code.
870001414	D5110	maxillary complete denture	Allowed for initial complete maxillary denture. The provider is responsible for confirming this is the initial denture. If the provider uses the EPA on anything other than the initial denture, the payment is subject to recoupment. Additional denture requests require PA. For clients residing in an alternate living facility (ALF) or in a nursing facility, group home, or other facility, EPA does not apply. See Alternate living facilities or nursing facilities for requesting PA. Limitations apply. EPA does not override limitations requirements for replacement of a partial denture with a complete denture. See Complete Dentures .

Billing

All claims must be submitted electronically to the agency, except under limited circumstances. For more information about this policy change, see [Paperless billing at HCA](#). For providers approved to bill paper claims, see the agency's [Paper claim billing resource](#).

What are the general billing requirements?

Providers must follow the agency's [ProviderOne billing and resource guide](#). These billing requirements include:

- What time limits exist for submitting and resubmitting claims and adjustments.
- When providers may bill a client.
- How to bill for services provided to primary care case management (PCCM) clients.
- How to bill for clients eligible for both Medicare and Medicaid.
- How to handle third-party liability claims.
- What standards to use for record keeping.

Note: If an ICD diagnosis code is entered on the dental billing and it is an invalid diagnosis code, the claim will be denied.

How do I bill claims electronically?

Instructions on how to bill Direct Data Entry (DDE) claims can be found on the agency's [Billers, providers, and partners](#) webpage under [Webinars](#).

For information about billing Health Insurance Portability and Accountability Act (HIPAA) Electronic Data Interchange (EDI) claims, see the ProviderOne 5010 companion guides on the [HIPAA electronic data interchange \(EDI\)](#) webpage.

* The CDT Code and Nomenclature above have been obtained from *Current Dental Terminology* (including procedure codes, nomenclatures, descriptors and other data contained therein) ("CDT"). CDT is copyright © 2020 American Dental Association. All rights reserved. Applicable FARS/DFARS apply.

How do facilities bill?

Ambulatory Surgical Centers (ASC) and hospitals must bill for surgical services according to their billing guides. See the [ASC Billing Guide](#), [Inpatient Hospital Services Billing Guide](#) and [the Outpatient Hospital Services Billing Guide](#) for how to bill for surgical services.

The agency pays the hospital or ASC professional fees. The agency-contracted managed care organization (MCO) pays the facility fees for covered dental-related services.

Note: If a client is not enrolled in an agency-contracted managed care organization (MCO), bill the agency for services.

How do I bill for clients eligible for both Medicare and Medicaid?

Medicare currently does not cover **dental procedures**. **Surgical** CPT procedure codes 10000-69999 must be billed to Medicare first. After receiving Medicare's determination, submit a claim to the agency. Attach a copy of the Medicare determination.

What are the advance directives requirements?

All Medicare-Medicaid certified hospitals, nursing facilities, home health agencies, personal care service agencies, hospices, and managed health care organizations are federally mandated to give **all adult clients** written information about their rights, under state law, to make their own health care decisions.

Clients have the right to:

- Accept or refuse medical treatment.
- Make decisions concerning their own medical care.
- Formulate an advance directive, such as a living will or durable power of attorney, for their health care.

Fee Schedules

Where can I find dental fee schedules?

- For CDT®/dental codes – see the agency’s [Dental fee schedule](#).
- For dental oral surgery codes, see the agency’s [Physician-related/professional services fee schedule](#).

Note: Bill the agency your usual and customary charge.
