

Washington Apple Health (Medicaid)

Family Planning Billing Guide

Including:

**Reproductive Health Services, Family Planning
Only – Pregnancy Related program and Family
Planning Only program**

October 1, 2020

Disclaimer

Every effort has been made to ensure this guide's accuracy. If an actual or apparent conflict between this document and a Health Care Authority (HCA) rule arises, HCA rules apply.

Billing guides are updated on a regular basis. Due to the nature of content change on the internet, we do not fix broken links in past guides. If you find a broken link, please check the most recent version of the guide. If this is the most recent guide, please notify us at askmedicaid@hca.wa.gov.

About this guide¹

This publication takes effect **October 1, 2020**, and supersedes earlier billing guides to this program.

This billing guide includes billing information for the following programs:

- Reproductive Health Services
- Family Planning Only – Pregnancy Related
- Family Planning Only

HCA is committed to providing equal access to our services. If you need an accommodation or require documents in another format, please call 1-800-562-3022. People who have hearing or speech disabilities, please call 711 for relay services.

Washington Apple Health means the public health insurance programs for eligible Washington residents. Washington Apple Health is the name used in Washington State for Medicaid, the children's health insurance program (CHIP), and state-only funded health care programs. Washington Apple Health is administered by HCA.

Refer also to HCA's [ProviderOne Billing and Resource Guide](#) for valuable information to help you conduct business with HCA.

How can I get HCA Apple Health provider documents?

To access providers alerts, go to HCA's [provider alerts webpage](#).

To access provider documents, go to HCA's [provider billing guides and fee schedules webpage](#).

¹ This publication is a billing instruction.

CPT® codes and descriptions only are copyright 2019 American Medical Association.

Where can I download HCA forms?

To download an HCA form, see HCA's [Forms & Publications](#) webpage. Type only the form number into the Search box (Example: 13-835).

Definitions

This section defines terms and abbreviations, including acronyms, used in this billing guide. Refer to Chapter [182-500 WAC](#) for a complete list of definitions for Washington Apple Health.

340B dispensing fee – HCA’S established fee paid to a registered and Medicaid-participating 340B drug program provider under the public health service (PHS) act for expenses involved in acquiring, storing and dispensing prescription drugs or drug-containing devices (see [WAC 182-530-7900](#)). A dispensing fee is not paid for nondrug items, devices, or supplies (see [WAC 182-530-7050](#)).

Applicant – A person applying for Family Planning Only services.

Comprehensive preventive family planning visit – A comprehensive, preventive, contraceptive visit that includes evaluation and management of an individual, such as: age appropriate history, examination, counseling/anticipatory guidance, risk factor reduction interventions, and laboratory and diagnostic procedures that are covered under the client’s respective HCA program.

Contraception – Prevention of pregnancy through the use of contraceptive methods.

Contraceptive – Food and Drug Administration (FDA)-approved prescription and nonprescription methods, including devices, drugs, products, methods, or surgical interventions used to prevent pregnancy, as described in [WAC 182-530-2000](#).

Family planning clinic – A clinic that is designated by HCA to provide family planning services to eligible people as described in this guide. Other types of providers may offer family planning services within their scope of practice.

Family Planning Only program - The program that covers family planning only services for eligible clients for 12 months from the date HCA determines eligibility.

Family Planning Only – Pregnancy Related program – The program that covers family planning only services for eligible clients for 10 months following the 60-day post pregnancy period.

Family planning services – Medically safe and effective medical care, educational services, and contraceptives that enable individuals to plan and space the number of children they have and avoid unintended pregnancies.

Informed consent – When an individual consents to a procedure after the provider who obtained a properly completed consent form has done all of the following:

- Disclosed and discussed the client’s diagnosis
- Offered the client an opportunity to ask questions about the procedure and request information in writing
- Given the client a copy of the consent form
- Communicated effectively using any language interpretation or special communication device necessary per [42 CFR 441.257](#)

CPT® codes and descriptions only are copyright 2019 American Medical Association.

- Given the client oral information about all of the following:
 - The client’s right to not obtain the procedure, including potential risks, benefits, and the consequences of not obtaining the procedure
 - Alternatives to the procedure including potential risks, benefits, and consequences
 - The procedure itself, including potential risks, benefits, and consequences

(WAC [182-531-0050](#))

Natural family planning (also known as fertility awareness method) – Methods to identify the fertile days of the menstrual cycle and avoid unintended pregnancies, such as observing, recording, and interpreting the natural signs and symptoms associated with the menstrual cycle.

Over-the-counter (OTC) – Drugs, devices, and products that do not require a prescription to be sold or dispensed (see WAC [182-530-1050](#)).

Public Health Service Act (PHS) – The federal act governing the 340B program administered through the Office of Pharmacy Affairs. Per Washington Administrative Code (WAC), any drugs or items purchased through this program must be billed at the actual acquisition cost (see WAC [182-530-7900](#)).

Reproductive health - The prevention and treatment of illness, disease, and disability related to the function of reproductive systems during all stages of life, and includes:

- Related, appropriate, and medically necessary care
- Education of clients in medically safe and effective methods of family planning
- Pregnancy and reproductive health care

Reproductive health care services - Any medical services or treatments, including pharmaceutical and preventive care services or treatments, directly involved in the reproductive system and its processes, functions, and organs involved in reproduction, in all stages of life. Reproductive health care services do not include infertility treatment.

Reproductive system - Includes, but is not limited to: Genitals, gonads, the uterus, ovaries, fallopian tubes, and breasts.

Sexually Transmitted Infection (STI) –A disease or infection acquired as a result of sexual contact.

U.S. Citizenship and Immigration Services (USCIS) – Refer to [USCIS](#) for a definition.

General

Most Apple Health clients are enrolled in an HCA-contracted managed care organization (MCO). This means that Apple Health pays a monthly premium to an MCO for providing preventative, primary, specialty, and other health services to Apple Health clients. Clients in managed care must see only providers who are in their MCO's provider network, unless prior authorized or to treat urgent or emergent care. See HCA's [Apple Health managed care page](#) for further details.

It is important to always check a client's eligibility prior to providing any services because it affects who will pay for the services.

How do I verify a client's eligibility?

Check the client's services card or follow the two-step process below to verify that a client has Apple Health coverage for the date of service and that the client's benefit package covers the applicable service. This helps prevent delivering a service HCA will not pay for.

Verifying eligibility is a two-step process:

- Step 1. Verify the patient's eligibility for Apple Health.** For detailed instructions on verifying a patient's eligibility for Apple Health, see the *Client Eligibility, Benefit Packages, and Coverage Limits* section in HCA's [ProviderOne Billing and Resource Guide](#).
- If the patient is eligible for Apple Health, proceed to **Step 2**. If the patient is **not** eligible, see the note box below.
- Step 2. Verify service coverage under the Apple Health client's benefit package.** To determine if the requested service is a covered benefit under the Apple Health client's benefit package, see HCA's [Program Benefit Packages and Scope of Services](#) webpage.

Note: Patients who are not Apple Health clients may submit an application for health care coverage in one of the following ways:

1. By visiting the [Washington Healthplanfinder's website](#).
2. By calling the Customer Support Center toll-free at: 855-WAFINDER (855-923-4633) or 855-627-9604 (TTY)
3. By mailing the application to:
Washington Healthplanfinder
PO Box 946
Olympia, WA 98507

CPT® codes and descriptions only are copyright 2019 American Medical Association.

In-person application assistance is also available. To get information about in-person application assistance available in their area, people may visit the [Washington Healthplanfinder's website](#) or call the Customer Support Center.

Are clients enrolled in an HCA-contracted managed care organization (MCO) eligible?

Yes. Most Apple Health (Medicaid) clients are enrolled in one of HCA's contracted managed care organizations (MCOs). For these clients, managed care enrollment is displayed on the client benefit inquiry screen in ProviderOne.

All medical services covered under an HCA-contracted MCO must be obtained through the MCO's contracted network. The MCO is responsible for:

- Payment of covered services
- Payment of services referred by a provider participating with the plan to an outside provider

Note: A client's enrollment can change monthly. Providers who are not contracted with the MCO must receive approval from **both** the MCO and the client's primary care provider (PCP) prior to serving a managed care client.

Send claims to the client's MCO for payment. Call the client's MCO to discuss payment prior to providing the service. Providers may bill clients only in very limited situations as described in [WAC 182-502-0160](#).

Managed care enrollment

Most Apple Health (Medicaid) clients are enrolled in HCA-contracted MCO the same month they are determined eligible for managed care as a new or renewing client. Some clients may still start their first month of eligibility in the FFS program because their qualification for MC enrollment is not established until the month following their Medicaid eligibility determination. Providers must check eligibility to determine enrollment for the month of service.

New clients are those initially applying for benefits or those with changes in their existing eligibility program that consequently make them eligible for Apple Health managed care.

Checking eligibility

- Providers must check eligibility and know when a client is enrolled and with which MCO. For help with enrolling, clients can refer to the Washington Healthplanfinder's [Get Help Enrolling](#) page.
- MCOs have retroactive authorization and notification policies in place. The provider must know the MCO's requirements and be compliant with the MCO's policies.

Clients have a variety of options to change their plan:

CPT® codes and descriptions only are copyright 2019 American Medical Association.

- **Available to clients with a Washington Healthplanfinder account:**

Go to [Washington HealthPlanFinder website](#).

- **Available to all Apple Health clients:**

- Visit the [ProviderOne Client Portal website](#):
- Request a change online at [ProviderOne Contact Us](#) (this will generate an email to Apple Health Customer Service). Select the topic "Enroll/Change Health Plans."
- Call Apple Health Customer Service at 1-800-562-3022. The automated system is available 24/7.

For online information, direct clients to HCA's [Apple Health Managed Care](#) webpage.

Clients who are not enrolled in an HCA-contracted managed care plan for physical health services

Some Medicaid clients do not meet the qualifications for managed care enrollment. These clients are eligible for services under the FFS Medicaid program. In this situation, each Integrated Managed Care (IMC) plan will have Behavioral Health Services Only (BHSO) plans available for Apple Health clients who are not in managed care. The BHSO covers only behavioral health treatment for those clients. Clients who are not enrolled in an HCA-contracted managed care plan are automatically enrolled in a BHSO with the exception of American Indian/Alaska Native clients. Some examples of populations that may be exempt from enrolling into a managed care plan are Medicare dual-eligible, American Indian/Alaska Native, Adoption support and Foster Care alumni.

Integrated managed care

Clients qualified for managed care enrollment and living in integrated managed care (IMC) regions will receive all physical health services, mental health services, and substance use disorder treatment through their HCA-contracted managed care organization (MCO).

American Indian/Alaska Native (AI/AN) clients have two options for Apple Health coverage:

- Apple Health Managed Care; or
- Apple Health coverage without a managed care plan (also referred to as fee-for-service [FFS])

If a client does not choose an MCO, they will be automatically enrolled into Apple Health FFS for all their health care services, including comprehensive behavioral health services. See the Health Care Authority's (HCA) [American Indian/Alaska Native webpage](#).

For more information about the services available under the FFS program, see HCA's [Mental Health Services Billing Guide](#) and the [Substance Use Disorder Billing Guide](#).

For full details on integrated managed care, see HCA's [Apple Health managed care webpage](#) and scroll down to "Changes to Apple Health managed care."

Integrated Apple Health Foster Care (AHFC)

Children and young adults in the Foster Care, Adoption Support and Alumni programs who are enrolled in Coordinated Care of Washington's (CCW) Apple Health Foster Care program receive both medical and behavioral health services from CCW.

Clients under this program are:

- Under the age of 21 who are in foster care (out of home placement)
- Under the age of 21 who are receiving adoption support
- Age 18-21 years old in extended foster care
- Age 18 to 26 years old who aged out of foster care on or after their 18th birthday (alumni)

These clients are identified in ProviderOne as "**Coordinated Care Healthy Options Foster Care.**"

The Apple Health Customer Services staff can answer general questions about this program. For specific questions about Adoption Support, Foster Care or Alumni clients, contact HCA's Foster Care Medical Team at 1-800-562-3022, Ext. 15480.

Fee-for-service Apple Health Foster Care

Children and young adults in the fee-for-service Apple Health Foster Care, Adoption Support and Alumni programs receive behavioral health services through the regional Behavioral Health Services Organization (BHSO). For details, see HCA's [Mental Health Services Billing Guide](#), under *How do providers identify the correct payer?*

Provider Requirements

Confidentiality, consent, and release of information

When providing family planning services, providers must do all of the following:

- Follow federal [Health Insurance Portability and Accountability Act \(HIPAA\)](#) requirements in safeguarding the confidentiality of clients' records. These safeguards must do the following:
 - Allow for timely sharing of information with appropriate professionals and agencies on the client's behalf
 - Ensure that confidentiality of disseminated information is protected
(See [Chapter 70.02 RCW](#) for more details.)
- Ensure that all necessary forms are accurately and fully completed:
 - Informed consent as defined in WAC [182-531-0050](#) and as required by WAC [182-531-1550](#), as necessary
 - The federal Consent for Sterilization form [HHS-687](#) must be attached to a sterilization claim. See the [Sterilization Supplemental Billing Guide](#) for requirements and instructions. See also [Where can I download HCA forms?](#)
 - Authorization from clients for release of information
- Ensure the proper release of client information:
 - To transfer information to another provider when a client changes providers or when the provider is unable to provide services (in a timely manner)
 - To transfer information to a primary care provider when a client is in need of non-family planning related services
 - To conform to all applicable state and federal laws

Nationally recognized clinical guidelines

Providers must follow nationally recognized clinical guidelines. Cervical cancer screening guidelines are produced by the American Society for Colposcopy and Cervical Pathology (ASCCP), the American College of Obstetrics and Gynecology (ACOG), the American Cancer Society (ACS), and the U.S. Preventive Services Task Force (USPSTF). Breast cancer screening guidelines are produced by the American College of Obstetrics and Gynecology (ACOG), the American Cancer Society

CPT® codes and descriptions only are copyright 2019 American Medical Association.

(ACS), and the U.S. Preventive Services Task Force (USPSTF). Family planning guidelines are produced by the Centers for Disease Control and Prevention (CDC) and the [U.S. Office of Population Affairs](#).

How do I bill claims electronically?

All claims must be submitted electronically to HCA, except under limited circumstances. For more information about this policy change, see [Paperless Billing at HCA](#). For providers approved to bill paper claims, see HCA's [Paper Claim Billing Resource](#).

Instructions on how to bill Direct Data Entry (DDE) claims can be found on HCA's [Billers, providers, and partners](#) webpage.

For information about billing Health Insurance Portability and Accountability Act (HIPAA) Electronic Data Interchange (EDI) claims, see the ProviderOne 5010 companion guides on the [HIPAA Electronic Data Interchange \(EDI\)](#) webpage.

How do providers bill for managed care services?

Family planning providers under contract with an HCA-contracted managed care organization (MCO) must directly bill the MCO for family planning or sexually transmitted infection (STI) services received by clients enrolled in the MCO.

Family planning providers not under contract with an HCA-contracted MCO must bill using fee-for-service when providing services to managed care clients who self-refer outside their plans.

Family planning providers or HCA-contracted local health department STI clinics who are contracted with an HCA-contracted managed care organization (MCO) must follow their contract regarding laboratory services for MCO clients.

Family planning providers or HCA-contracted local health department STI clinics not under contract with an HCA-contracted MCO must pay a laboratory directly for services provided to clients who self-refer outside of their MCO. Providers then must bill HCA for payment for laboratory services.

- Laboratories must be certified through the Clinical Laboratory Improvements Act (CLIA).
- Documentation of current CLIA certification must be kept on file.

Send claims to the client's MCO for payment. Call the client's MCO to discuss payment before providing the service. Providers may bill clients only in very limited situations as described in WAC 182-502-0160.

How do providers who participate in the 340B drug pricing program bill for drugs and dispensing fees?

The provider NPI used for 340B drugs must be listed on the federal Office of Pharmacy Affairs Medicaid Exclusion File.

Bill HCA the actual acquisition cost (AAC) for all drugs purchased under the 340B Drug Pricing Program.

To receive the 340B dispensing fee, the provider must be listed on the Medicaid Exclusion file as a 318 entity type (STD clinic). HCA pays the 340B dispensing fee only for HCA-designated hormonal contraceptives that are purchased through the 340B program of the Public Health Service Act. (See Chapter [182-530 WAC](#).)

Reproductive Health Services

What are reproductive health services?

HCA defines reproductive health services as those services that:

- Assist clients in avoiding illness, disease, and disability related to reproductive health.
- Provide related, appropriate, and medically necessary care when needed.
- Assist clients in making informed decisions about using medically safe and effective methods of family planning.

Who is eligible for reproductive health services?

HCA covers medically necessary reproductive health services, as described in this guide, for clients covered by one of the Washington Apple Health programs as listed in the table in WAC [182-501-0060](#).

Managed care clients

For clients enrolled in one of the HCA-contracted managed care organizations (MCOs), managed care enrollment will be displayed on the client benefit inquiry screen in ProviderOne.

Clients enrolled in an HCA-contracted MCO must obtain services through their MCO, unless otherwise noted.

Note: A client's enrollment can change monthly. Providers who are not contracted with the MCO must receive approval from both the MCO and the client's primary care provider (PCP) prior to serving a managed care client.

Self-referral for managed care clients

A client enrolled in an HCA-contracted MCO may self-refer outside their MCO for reproductive health care services including, but not limited to:

- Family planning
- Abortion
- Sexually transmitted infection (STI) services

A client may seek services from any HCA-approved provider. A client who is age 21 or older may not self-refer outside their MCO for sterilization.

Limited coverage

Family Planning Only programs

Family Planning Only – Pregnancy Related and Family Planning Only clients are eligible to receive limited reproductive health services which includes only family planning and specified family planning-related services. See the program guidelines in this guide.

Alien Emergency Medical

Under WAC 182-507-0115, HCA covers reproductive health services under Alien Emergency Medical programs only when the services are directly related to an emergency medical condition.

Where can Washington Apple Health clients receive reproductive health services?

Reproductive health services can be provided by any licensed, HCA-contracted provider whose scope of practice includes reproductive health or the ancillary services associated with a reproductive health procedure or treatment (e.g., pathology, anesthesia, facility, etc.). See Chapter [182-502](#) WAC for requirements of HCA-contracted providers.

What are the requirements for providers?

To be paid by HCA for reproductive health services provided to eligible clients, providers, including licensed midwives, must:

- Meet the requirements in Chapters [182-501](#), [182-502](#), and [182-532](#) WAC.
- Provide only those services that are within the scope of their licenses.
- Bill HCA according to this guide and other applicable HCA billing guides.
- Educate clients on Food and Drug Administration (FDA)-approved contraceptive methods and over-the-counter (OTC) contraceptive drugs, devices, and products, as well as related medical services.
- Provide medical services related to FDA-approved contraceptive methods and OTC contraceptive drugs, devices, and products upon request.
- Supply or prescribe FDA-approved contraceptive methods and OTC contraceptive drugs, devices, and products upon request.

What reproductive health services are covered?

In addition to the services listed in WAC 182-531-0100, HCA covers all of the following reproductive health services:

- For a client capable of reproducing, a **comprehensive preventive family planning visit** every 365 days, based on nationally recognized clinical guidelines, including all of the following:
 - Sexually transmitted infection (STI) and cancer screenings
 - Comprehensive and client-centered counseling, education, risk reduction, and initiation or management of contraceptive methods

Note: Clients who are sterilized or otherwise not at risk for pregnancy do not qualify for a comprehensive family planning prevention visit. They do qualify for all other services.

- Contraception, including all of the following:
 - Food and Drug Administration (FDA)-approved contraceptive methods (see the Prescription Drug Program Billing Guide)
 - Education and supplies for FDA-approved contraceptives, natural family planning, and abstinence (see the Contraceptives Coverage Table)
 - Sterilization procedures, as described in WAC 182-531-1550 and the Sterilization Supplemental Provider Guide
- Cervical, breast, and prostate cancer screenings, according to nationally recognized clinical guidelines (see the Physician-Related Services/Healthcare Professional Services Billing Guide)
- STI screening, testing, and treatment, according to nationally recognized clinical guidelines
- Human papillomavirus (HPV) immunization, administered according to the recommended schedule published by the Centers for Disease Control and Prevention (CDC)
- Diagnostic services, follow-up visits, imaging, and laboratory services related to the services listed in this section
- Pregnancy-related services including:
 - Maternity-related services, as described under “Maternity Care and Services” in the **Physician-Related Services/Healthcare Professional Services Billing Guide**
 - Abortion (see **Physician-Related Services/Healthcare Professional Services Billing Guide**)

What reproductive health services are not covered?

Noncovered reproductive health services are described in HCA's [Physician-Related Services/Healthcare Professional Services Billing Guide](#) and WACs [182-501-0070](#) and [182-531-0150](#).

Note: HCA reviews requests for noncovered services under WAC [182-501-0160](#).

What fee does HCA pay?

- HCA pays:
 - Providers for covered reproductive health services using HCA's Family Planning Fee Schedule.
 - For family planning pharmacy services, family planning laboratory services, and sterilization services using HCA's published fee schedules.
 - A dispensing fee only for contraceptive drugs purchased through the 340B program of the Public Health Service Act.
- HCA requires providers to seek timely reimbursement from a third party when a client has available third-party resources, as described under WAC [182-501-0200](#). See [Billing for third-party liability](#) and "good cause" for exceptions.

Family Planning Only Programs

What is the purpose of the Family Planning Only programs?

The purpose of the Family Planning Only programs is to provide family planning services to:

- Improve access to family planning and family planning-related services.
- Reduce unintended pregnancies.
- Promote healthy intervals between pregnancies and births.

Who is eligible?

To be eligible for one of the Family Planning Only programs listed in this section, a client must meet the qualifications for that program.

Family Planning Only – Pregnancy Related program

To be eligible for Family Planning Only – Pregnancy Related services, a client must be determined eligible for Washington Apple Health for pregnant clients during the pregnancy, or determined eligible for a retroactive period covering the end of a pregnancy.

A client is automatically eligible for the Family Planning Only – Pregnancy Related program when the client's pregnancy ends.

Note: A client may apply for the [Family Planning Only program](#) up to 60 days before the expiration of the Family Planning Only – Pregnancy Related program. Clients will continue to use the same Services Card they received when they applied for pregnancy-related medical services.

Family Planning Only program

To be eligible for the Family Planning Only program, a client must meet all of the following:

- Provide a valid Social Security number (SSN), unless ineligible to receive one, or meet good cause criteria listed in WAC [182-503-0515](#)
- Be a Washington state resident, as described in WAC [182-503-0520](#)
- Have an income at or below 260% of the federal poverty level, as described in WAC [182-505-0100](#)
- Need family planning services

CPT® codes and descriptions only are copyright 2019 American Medical Association.

- Have been denied Apple Health coverage within the last 30 days, unless the applicant meets any of the following:
 - Is age 18 or younger and seeking services in confidence
 - Is a domestic violence victim who is seeking services in confidence
 - Has an income of 150% to 260% of the federal poverty level, as described in WAC [182-505-0100](#).

A client is not eligible for Family Planning Only medical if the client is any of the following:

- Pregnant
- Sterilized
- Covered under another Apple Health program that includes family planning services
- Covered by concurrent creditable coverage, as defined in [RCW 48.66.020](#), unless the client meets any of the following:
 - Is age 18 and younger and seeking services in confidence
 - Is a domestic violence victim who is seeking services in confidence
 - Has an income of 150% to 260% of the federal poverty level, as described in WAC [182-505-0100](#).

A client may reapply for coverage under the Family Planning Only program up to 60 days before the expiration of the 12-month coverage period. HCA does not limit the number of times a client may reapply for coverage.

Note: Always check ProviderOne to make sure that a client's one-year eligibility for the Family Planning Only program is still valid, or that the client is not on another HCA program that covers family planning services. **The client must be referred to the Washington Healthplanfinder's website or call 1-855-923-4633 first to determine if the client qualifies for medical services under another program.**

What services are covered under the Family Planning Only programs?

HCA covers all of the following services:

- One comprehensive preventive family planning visit every 365 days, based on nationally recognized clinical guidelines. This visit must have a primary focus and diagnosis of family planning and include the following:
 - Counseling
 - Education
 - Risk reduction
 - Initiation or management of contraceptive methods
- Assessment and management of family planning or contraceptive problems, when medically necessary
- Contraception, including all of the following:
 - FDA-approved contraceptive methods, as described under WAC [182-530-2000](#), including, but not limited to, the following items:
 - Oral hormonal contraceptives (pills)
 - Transdermal hormonal contraceptives (patch)
 - Intra-vaginal contraceptive (ring)
 - Injectable hormonal contraceptives
 - Implantable hormonal contraceptives
 - Intrauterine devices (IUDs)
 - Diaphragm, cervical cap, and cervical sponge
 - Male and female condoms
 - Spermicides (foam, gel, suppositories, and cream)
 - Emergency contraception
 - Education and supplies for FDA-approved contraceptives, natural family planning, and abstinence
 - Sterilization procedures, as described under WAC [182-531-1550](#).

For more details on contraceptives HCA covers, see [What contraceptives does HCA cover?](#) and the [Contraceptives Coverage Table](#).

- The following services, when appropriate, during a visit focused on family planning:
 - Pregnancy testing
 - Cervical cancer screening, according to nationally recognized clinical guidelines
 - Gonorrhea and chlamydia screening and treatment for clients age 13-25, according to nationally recognized clinical guidelines

CPT® codes and descriptions only are copyright 2019 American Medical Association.

- Syphilis screening and treatment for clients who have an increased risk for syphilis, according to nationally recognized guidelines
- Sexually transmitted infection (STI) screening, testing, and treatment, when medically indicated by symptoms or report of exposure, and medically necessary for the client's safe and effective use of their chosen contraceptive method.

Note: Pregnancy-related services, including abortions, are not covered under the Family Planning Only programs. Refer clients who become pregnant while on one of the Family Planning Only programs the [Washington Healthplanfinder's website](#) to enroll for coverage. People may also wish to contact [Within Reach](#) for further assistance.

Complications from contraceptive methods

HCA covers inpatient, outpatient, and professional costs when they result from a complication arising from covered Family Planning Only programs services.

Example of a minor contraceptive complication

A client is unable to find the intrauterine device (IUD) string, it is not visualized on the speculum exam, and an ultrasound is needed to determine its location.

Example of a serious contraceptive complication

An IUD has migrated out of the uterus and needs to be removed by laparoscopy.

For HCA to consider payment when complications occur, providers of Family Planning Only programs-related inpatient, outpatient, or professional services must submit to HCA a claim with a complete report of the circumstances and conditions that caused the need for the additional services (see WAC [182-501-0160](#) and WAC [182-532-540](#)).

A complete report includes all of the following:

- Letter of explanation (a short description of the clinical situation and medical necessity for the visit, procedure, testing, or surgery)
- Inpatient discharge summary or outpatient chart notes
- Operative report (if applicable)

Note: For information on how to submit a claim with attachments, see the [ProviderOne Resource and Billing Guide](#). For complications due to a birth control method, write "birth control complication" in the *Claim Note* section of the electronic claim. Claims are subject to post-payment review.

What drugs and supplies are covered under the Family Planning Only programs?

See the guidelines regarding contraceptive [prescribing](#) and [dispensing](#) in [What contraceptives does HCA cover?](#)

See the [Contraceptives coverage table](#) section in this guide for contraceptive products and procedures covered under the Family Planning Only programs.

See the [Coverage table](#) in this guide for additional procedures, drugs, and tests covered under the Family Planning Only programs.

See the [Sterilization Supplemental Billing Guide](#) for drugs related to sterilization procedures.

The following categories of drugs are covered:

- Prescription contraceptives
- Antibiotics for the treatment of chlamydia and gonorrhea
- Adjunctive to a sterilization procedure

Over-the-counter, nonprescribed contraceptive drugs and supplies (for example: emergency contraception, condoms, spermicidal foam, cream, and gel) may be obtained through a pharmacy or a family planning clinic using a Services Card.

HCA does not pay for noncontraceptive take-home drugs dispensed at a family planning clinic.

Coverage table

Procedures and visits are covered only if they are medically necessary for the person's safe and effective use of a chosen contraceptive method. See the appropriate family planning fee schedule for fees related to covered procedures and visits.

Note: For sterilization procedure codes, see the [Sterilization Supplemental Billing Guide](#). For instructions on billing for office, professionally administered drugs, imaging, and laboratory codes listed below, see the [Physician-Related Services/Health Care Professional Services Billing Guide](#). Due to its licensing agreement with the American Medical Association, HCA publishes only the official, short CPT® code descriptions. To view the full descriptions, refer to a current CPT book.

Office visits for family planning surveillance and follow-up visits

HCPCS/CPT Code	Short Description	Comments
99201	Office/outpatient visit, new	
99202	Office/outpatient visit, new	
99203	Office/outpatient visit, new	
99204	Office/outpatient visit, new	
99211	Office/outpatient visit, est	
99212	Office/outpatient visit, est	
99213	Office/outpatient visit, est	
99214	Office/outpatient visit, est	
G0101	CA screen; pelvic/breast exam	As indicated by nationally recognized clinical guidelines. Covered only when occurs at a family planning visit.

Comprehensive prevention family planning visit

CPT Code	Modifier	Short Description	Comments
99384	FP	New (female) patient. Adolescent (age 12 through 17)	Once every 365 days.
99385	FP	New (female) patient. 18-39 years	Once every 365 days.
99386	FP	New (female) patient. 40-64 years	Once every 365 days.

CPT® codes and descriptions only are copyright 2019 American Medical Association.

CPT Code	Modifier	Short Description	Comments
99394	FP	Adolescent (age 12 through 17)	Established (female) patient. Once every 365 days.
99395	FP	Established (female) patient. 18-39 years	Once every 365 days.
99396	FP	Established (female) patient. 40-64 years	Once every 365 days.
99401	FP	New or established male patient. Preventive medicine counseling, individ	Use for male contraceptive counseling. Once every 365 days.

Contraceptives

See the [Contraceptives Coverage Table](#).

Radiology services

Radiology services are covered only when medically necessary due to a family planning complication. See [Complications from contraceptive methods](#) for how to bill when a family planning complication occurs. See the [Physician-Related Professional Services Fee Schedule](#) for payment rates for procedures related to a complication.

Laboratory services

Laboratory services are covered when they are directly related to the client's safe and effective use of a chosen contraceptive method. This includes pregnancy testing, gonorrhea and chlamydia screening and testing. Cervical cancer screening may also be covered. Specimens must be collected at a family planning visit to be covered by the Family Planning Only programs.

Laboratory testing in conjunction with a sterilization procedure or family planning complication are covered. See the [Physician-Related Professional Services Fee Schedule](#) for payment rates for laboratory services related to a sterilization or family planning complication.

STD/STI treatment

The Family Planning Only programs cover limited treatment for sexually transmitted diseases and sexually transmitted infections (STD/STI). Treatments for gonorrhea and chlamydia only are covered. Providers must follow CDC guidelines for treatment of STD/STIs. Single dose drugs that are recommended to be directly observed are covered when administered in an office or clinic. All other covered drugs, must be prescribed by and then obtained from and billed by a pharmacy.

HCPCs/CPT Codes	Short Description	Comments
96372	Ther/proph/diag inj, sc/im (Specify substance or durg)	May not be billed with an office visit.
J0456	Azithromycin inj, 500 mg	
J0558	Peng benzathine/procaine inj	
J0561	Penicillin g benzathine inj	
J0696	Ceftriaxone sodium inj, 250 mg	
J1580	Gentamicin 80 mg IM	Per CDC guidelines for allergy

By prescription only	Cefixime 400 capsules mg PO	Per CDC guidelines for allergy
By prescription only	Gemifloxacin 320 mg PO	Per CDC guidelines for allergy. PA required.

What does HCA pay for?

- HCA limits payment under the Family Planning programs to services that:
 - Have a primary focus and diagnosis of family planning as determined by a qualified, licensed medical practitioner.
 - Are medically necessary for the client to safely and effectively use, or continue to use, the client's chosen contraceptive method.

What fee does HCA pay?

- HCA pays:
 - Providers for covered family planning services using HCA's [Family Planning Fee Schedule](#).
 - For family planning pharmacy services, family planning laboratory services, and sterilization services using HCA's published fee schedules.
 - A dispensing fee only for contraceptive drugs purchased through the 340B program of the Public Health Service Act.
- Family planning services provided to family planning clients by federally qualified health centers (FQHCs), rural health centers (RHCs), and Indian health care providers (IHCP) do not qualify for encounter or enhanced rates.
- HCA requires providers to do the following:
 - Meet the timely billing requirements of WAC [182-502-0150](#)
 - Seek timely reimbursement from a third party when a client has available third-party resources, as described under WAC [182-501-0200](#). See [Billing for third-party liability and "good cause"](#) for exceptions.

What does HCA not pay for?

HCA does not pay for inpatient services under the Family Planning Only programs, except for [complications](#) arising from covered family planning services.

Note: Billing adjustments related to the Family Planning Only program must be completed no later than two years after the date of service in which Family Planning Only services occurred.

Billing for third-party liability and "good cause"

HCA requires a provider under WAC [182-501-0200](#) to seek timely reimbursement from a third party when a client has available third-party resources, except when "good cause" exists.

“Good cause” means that use of the third-party coverage would violate a client’s confidentiality because the third party:

- Routinely sends written, verbal, or electronic communications, as defined in RCW 48.43.505, to the third-party subscriber and that subscriber is someone other than the applicant.
- Requires the applicant to use a primary care provider who is likely to report the applicant’s request for family planning services to the subscriber.

Clients eligible for Family Planning Only programs may request an exemption from the requirement to bill third-party insurance due to “good cause” if they are either of the following:

- 18 years of age or younger and seeking services in confidence
- Domestic violence victims and seeking services in confidence

Note: Clients must make the self-declaration on the Family Planning Only program client application to qualify for this exception.

If either of these conditions applies, the applicant is considered for Family Planning Only program without regard to the available third-party family planning coverage.

At the time of application, providers must make a determination about “good cause” on a case-by-case basis.

Note: To preserve confidentiality, when billing for family planning services for either exception above, do not indicate on the claim that the client has other insurance.

What are the requirements for Family Planning Only programs providers?

To be paid by HCA for services provided to clients eligible for Family Planning Only programs, providers must:

- Meet the requirements in Chapters [182-501](#), [182-502](#), and [182-532](#) WAC.
- Provide only those services that are within the scope of their licenses.
- Bill HCA according to this guide and other applicable HCA billing guides.
- Educate clients on Food and Drug Administration (FDA)-approved contraceptive methods and over-the-counter (OTC) contraceptive drugs, devices, and products, as well as related medical services.
- Provide medical services related to FDA-approved contraceptive methods and OTC contraceptive drugs, devices, and products upon request.

CPT® codes and descriptions only are copyright 2019 American Medical Association.

- Supply or prescribe FDA-approved contraceptive methods and OTC contraceptive drugs, devices, and products upon request.
- Refer the client to available and affordable nonfamily planning primary care services, as needed.

Documentation requirements

In addition to the requirements in WAC [182-502-0020](#), providers must document the following in the client's medical record:

- Primary focus and diagnosis of the visit is family planning-related
- Contraceptive methods discussed
- Plan for use of a contraceptive method, or the reason and plan for no contraceptive method
- Education, counseling, and risk reduction with sufficient detail that allows for follow-up
- Referrals to, or from, other providers
- Copy of the completed Consent Form for Sterilization, if applicable. (See WAC [182-531-1550](#))

Provider requirements specific to the Family Planning Only program

When serving clients covered under the Family Planning Only program, providers must do all of the following:

- Participate in the research and evaluation component of the Family Planning Only program if requested by HCA. Some services related to research and evaluation may be contracted and billed separately.
- Provide Family Planning Only program client files, billing, and medical records when requested by HCA staff
- Forward the client's Services Card and any related information to the client's preferred address within 5 working days of receipt if requested by the client
- Ensure they have a way of reaching the client in a confidential manner if the client requests confidentiality regarding the use of family planning services
- Inform the client of his or her right to seek services from any Family Planning Only program provider within the state.

Note: It is important for the client to have easy and immediate access to the Family Planning Only program provider or pharmacy of her or his choice. A client may enroll in the Family Planning Only program at one Family Planning Only program provider's office and receive services at a different Family Planning Only program provider's office. Family Planning Only program providers must help all potentially eligible clients enroll in the program, regardless of where they choose to receive services.

What contraceptives does HCA cover?

Hormonal contraceptive prescribing

HCA generally requires prescriptions for oral, transdermal, and intra-vaginal hormonal contraceptives to be dispensed as a one-time prescription for a 12-month supply. When specifying the dispensing quantity for these contraceptives, prescribers should write for a 12-month supply according to the chart below, unless there is an acceptable reason not to do so.

For prescriptions written with a dispensing quantity less than a 12-month supply, providers will receive requests from pharmacies to change the dispensing quantity. Providers may write the prescription for a lesser amount if any of the following are true:

- The client does not want a 12-month supply all at once.
- There is a clinical reason, documented in the chart, for the client to receive a smaller supply.

This requirement applies to clients in both fee-for-service and managed care clients.

Contraceptive type	Quantity required for 12 months to be dispensed	Cycles/Packs
Oral contraceptives, e.g. pills	364 tablets	13
Continuous oral contraceptives	504 tablets when dispensed as 28-day packs	18
Continuous oral contraceptives	378 tablets when dispensed as 21-day packs	13
Transdermal contraceptives, e.g. patch	39 transdermal patches	13
Transdermal contraceptives, e.g. patch	52 transdermal patches	18
Monthly intra-vaginal contraceptives, e.g. Nuvaring	13 intra-vaginal rings	13
Monthly intra-vaginal contraceptives, e.g. Nuvaring	18 intra-vaginal rings	18

Note: Contraceptives are covered under Reproductive Health Services and Family Planning Only Programs.

Hormonal contraceptives filled at the pharmacy

HCA generally requires pharmacies to dispense oral, transdermal, and intra-vaginal hormonal contraceptives as a one-time prescription of a 12-month supply. For prescriptions written with a dispensing quantity less than a 12-month supply, HCA encourages pharmacies to contact the prescriber to request a change in the dispensing quantity. Pharmacies may dispense a lesser amount if any of the following are true:

- The client does not want a 12-month supply all at once.
- There is a clinical reason, documented on the prescription, for the client to receive a smaller supply.
- The pharmacy does not have enough supply to fill for 12 months.

CPT® codes and descriptions only are copyright 2019 American Medical Association.

This requirement applies to both fee-for-service and managed care.

See the [Prescription Drug Program Billing Guide](#) for more details.

Hormonal contraceptives dispensed from a family planning clinic 12-month supply

HCA generally requires family planning clinics to dispense oral, transdermal, and intra-vaginal hormonal contraceptives as a one-time prescription of a 12-month supply. Clinics may dispense or write the prescription for a lesser amount if any of the following are true:

- The client does not want a 12-month supply all at once.
- There is a clinical reason, documented in the chart, for the client to receive a smaller supply.
- The clinic does not have enough supply to fill for 12 months.

340B dispensing fee

A 340B dispensing fee may be billed only for designated hormonal contraceptives which must be purchased and dispensed by a family planning clinic participating with Medicaid in the 318 drug program under the Public Health Service (PHS) Act. The clinic is listed on the Medicaid Exclusion File as a 318 entity (STD clinic). The 340B drugs must be billed at actual acquisition cost. See WAC [182-530-7900](#).

The 340B dispensing fee may be billed on a unit-by-unit basis only with HCPCS codes S4993, J7303, and J7304. The number of billed units for S9430 must always equal the number of units dispensed by the provider for codes S4993, J7303, and/or J7304 and be billed on the same day of service and on the same claim.

These requirements apply to clients in both fee-for-service and managed care.

Note: HCA does not reimburse for any drug provided free of charge (for example, samples obtained through special manufacturer agreements). A dispensing fee in these cases is not reimbursable.

HCA requires providers to list the 11-digit National Drug Code (NDC) number in the appropriate field of the claim when billing for all drugs administered in or dispensed from their office or clinic.

Immediate postpartum Long-Acting Reversible Contraceptive (LARC) insertion

HCA reimburses professional services for immediate postpartum IUD or contraceptive implant insertion procedures if billed separately from the professional global obstetric procedure.

HCA does not reimburse facility services for the immediate postpartum IUD or contraceptive implant insertion procedure. These inpatient services may not be unbundled on the hospital's facility claim.

HCA reimburses for the IUD or contraceptive implant device in one of the following ways:

- Through the facility's pharmacy point of sale system
- As a separate professional claim submitted by the facility when the facility supplies the device
- As part of the professional claim when the device is supplied by the provider performing the insertion

Note: When billing for an IUD or contraceptive implant device, the provider must use the appropriate HCPCS code and NDC.

Contraceptives coverage table

Prescription contraceptives

Pills, Ring, and Patch

HCPCS Code	Short Description	Comments
S4993	Contraceptive pills for birth control	1 unit = each 21 or 28-day pack. (Seasonale should be billed as 3 units.) Participating 340B provider: may bill with S9430.
J7303	Contraceptive ring, each (Nuvaring)	Participating 340B provider may bill with S9430. *Use FP modifier for contraceptive ring, each (Annovera)
J7304	Contraceptive patch, each (Ortho-Evra)	Participating 340B provider may bill with S9430.

HCPCS Code	Short Description	Comments
S9430	Pharmacy compounding and dispensing services	<p>A dispensing fee for participating 340B providers.</p> <p>May bill only with S4993 (birth control pills, and emergency contraception pills), J7303 (contraceptive rings), J7304 (contraceptive patches).</p> <p>Units of dispensing fee must match units of contraceptive.</p>

Emergency Contraception

HCPCS Code	Short Description	Comments
S4993	<p>Unclassified drug</p> <p>Used for:</p> <p>Ulipristal acetate 30 mg</p>	<p>Ulipristal is prescription for all ages.</p> <p>Each 1 unit equals one course of treatment. Participating 340B provider may bill with S9430.</p>

Injectable

HCPCS Code	Short Description	Comments
J1050	Injection Medroxyprogesterone acetate 1 mg (Depo-Provera)	<p>No 340B dispensing fee allowed.</p> <p>May be billed with injection administration code 96372 only when not in conjunction with an office visit.</p>

Intrauterine Device (IUD)

HCPCS Code	Short Description	Comments
J7297	Levonorgestrel-releasing IUD (Liletta), 52 mg	No 340B dispensing fee allowed.
J7298	Levonorgestrel-releasing IUD (Mirena), 52 mg	No 340B dispensing fee allowed.
J7300	Intrauterine copper device (Paragard)	No 340B dispensing fee allowed
J7301	Levonorgestrel-releasing IUD (Skyla), 13.5 mg	No 340B dispensing fee allowed

CPT® codes and descriptions only are copyright 2019 American Medical Association.

HCPCS Code	Short Description	Comments
J7296	Levonorgestrel 19.5 mg -releasing IUD (Kyleena)	No 340B dispensing fee allowed
58300	Insertion of intrauterine device (IUD)	Enhanced fee applies. See Physician-Related Services Fee Schedule for current rate.
58301	Removal of intrauterine device (IUD)	

Implant

HCPCS Code	Short Description	Comments
J7307	Etonogestrel (contraceptive) implant system (Nexplanon)	No 340B dispensing fee allowed.
11981	For the insertion of the device	Enhanced fee applies. See Physician-Related Services Fee Schedule for current rate. Must be billed with FP modifier.
11982	For removal of the device.	Must be billed with FP modifier.
11983	For removal of the device with reinsertion on the same day	Enhanced fee applies. See Physician-Related Services Fee Schedule for current rate. Must be billed with FP modifier.
11976	Removal of contraceptive capsule	Norplant only

Cervical Cap/Diaphragm

HCPCS Code	Short Description	Comments
A4261	Cervical cap for contraceptive use	No 340B dispensing fee allowed
A4266	Diaphragm	No 340B dispensing fee allowed
57170	Fitting of diaphragm/cap	

CPT® codes and descriptions only are copyright 2019 American Medical Association.

Note: For sterilization procedure codes, see the [Sterilization Supplemental Billing Guide](#). For instructions on billing for office, professionally administered drugs, imaging, and laboratory codes, see the [Physician-Related Services/Health Care Professional Services Billing Guide](#). For additional information on billing for drugs, see the [Prescription Drug Program Billing Guide](#).

Nonprescription over-the-counter (OTC) contraceptives

Nonprescription OTC contraceptives may be obtained with a Services Card through a pharmacy or HCA-designated family planning clinic.

HCPCS/CPT® Code	Short Description	Comments
A4267	Male Condom, each	No 340B dispensing fee allowed.
A4268	Female Condom, each	No 340B dispensing fee allowed.
A4269	Spermicide (for example, foam, sponge), each	Includes gel, cream, foam, vaginal film, and contraceptive sponge. No 340B dispensing fee allowed.

Emergency contraception

HCPCS/CPT® Code	Short Description	Comments
S4993	Unclassified drug Used for: Levonorgestrel 1.5 mg	Levonorgestrel is over the counter for clients of all ages per FDA. Each 1 unit equals one course of treatment. Participating 340B provider may bill with S9430.

Nondrug contraceptive supplies (natural family planning)

HCPCS/CPT Code	Modifier	Short Description	Comments
T5999	FP	Unlisted supply	Use for cycle beads only. Each 1 unit equals one set of cycle beads.
99071	FP	Unlisted supply	Use for natural family planning booklet only. Each 1 unit equals one booklet.
A4931	FP	Reusable, oral thermometer	Use for basal thermometer only. Each 1 unit equals one thermometer.

Note: For fees for family planning and nonfamily planning reproductive health services, refer to the [Physician-Related Services/Health Care Professional Services fee schedules](#). See also the [Professional Administered Drug Fee Schedule](#).

Appendix A

Clinic visit scenarios for Family Planning Only programs

The purpose of the Family Planning Only programs is to prevent unintended pregnancy.

Documentation in the client's chart must reflect that the majority of the time was spent with the client with the focus of family planning.

Example A

Amanda has chosen to use an intrauterine device (IUD). It is the standard of practice to screen for chlamydia/gonorrhea prior to IUD insertion. This sexually transmitted infection (STI) screening (and treatment if necessary) **would** be covered under the Family Planning Only program as it is not medically safe to insert an IUD into a potentially infected uterus.

Example B

Beatriz has been a client at your clinic for several years. She has been an inconsistent condom and oral contraceptive user and at high risk for unintended pregnancy. She decides to try the *Nuvaring* and has been using it safely and successfully for 6 months. She comes into the clinic with complaints of spotting and bleeding especially after intercourse, which she believes is caused by the hormones in the ring. She wants to quit the ring and go back to condoms. She mentions something about her new boyfriend and how he won't be too happy about having to use condoms.

You are concerned that the bleeding may be caused by chlamydia/gonorrhea and not her hormonal contraceptive *and* that she will again be at risk for pregnancy with a method that she didn't use well previously. You test her for chlamydia/gonorrhea, treat her presumptively, explain the importance of her partner getting treated and tested as well, discuss the importance of condoms for STI prevention, and continue her with the *Nuvaring*.

Her office visit, lab tests, and treatment would be covered because your thorough charting makes the link to the safe and effective use of her contraceptive method.

Example C

Callie comes into the clinic stating that she heard that her recent past partner "had something" and she wanted to be checked just to be sure. She is in a new relationship, using oral contraceptives and also using condoms for STI prevention. She is having no problems with her contraceptive method. She just wants to be screened for STIs. This visit would not be covered under the Family Planning Only programs.

Example D

Deirdre was taken off hormonal contraceptives when she was diagnosed with severe mononucleosis. She was jaundiced and her liver was enlarged during the acute phase of her illness. She is not happy using condoms, has had unprotected sex a couple of times, and wants to resume her oral contraceptive use. You order CPT® codes and descriptions only are copyright 2019 American Medical Association.

laboratory work to determine that her liver function has returned to normal before restarting her on pills. This visit and laboratory tests would be covered under the Family Planning Only programs. Again, your thorough charting of this client's history and current presenting issues is your justification for requesting payment from HCA for these services.

Example E

Evelyn has come into the clinic seeking her annual exam and contraception. She now has coverage with an HCA-contracted managed care organization (MCO). Your clinic is a contracted provider with this MCO. Your biller, Sherm, asks, "Who pays for these services? Medicaid? The MCO?" Because your clinic is a contracted provider with the client's MCO, Sherm must bill the MCO.

Appendix B

Frequently asked questions

If a client changes from Family Planning Only program coverage to full scope Medicaid coverage, are they covered under the Family Planning Only program?

No. The client now is eligible for Reproductive Health Services. (See [Reproductive Health Services](#).)

Are prostate cancer screenings, digital rectal examinations, and prostate-specific antigen tests (PSA) covered under reproductive health services and the Family Planning Only programs?

Prostate cancer screenings are covered under Reproductive Health Services with the following procedure codes and diagnoses:

- Males are covered for HCPCS procedure code G0103 for prostate-specific antigen test (PSA) with diagnosis code Z12.5 (encounter for screening for malignant neoplasm of the prostate).
- A digital rectal exam (HCPCS procedure code G0102) is bundled into the reimbursement for the office visit.

These prostate cancer screenings *are not* covered under the Family Planning Only programs.

Are mammograms covered under reproductive health services and the Family Planning Only programs?

Mammograms are covered for clients under Reproductive Health Services for women age 40 and older (one screening mammogram is covered annually). Diagnostic mammograms are covered for men when medically necessary. Mammograms *are not* covered under the Family Planning Only programs.

Are abortions covered under reproductive health services and the Family Planning Only programs?

Abortions are covered for clients under Reproductive Health Services. Bill HCA for these services with a medical taxonomy.

Abortions *are not* covered under the Family Planning Only programs.

Note: If a Family Planning Only programs client becomes pregnant, refer the client to the [Washington Healthplanfinder's website](#) or call 1-855-923-4633 to determine if the client qualifies for medical services under another program.
