

Provider Notice 14-62

Dear Provider,

Effective for claims with dates of service on or after July 1, 2014, Washington Apple Health (Medicaid), administered by the Health Care Authority (agency), is publishing a revised [Neurodevelopmental Centers for Clients 20 Years of Age and Younger Provider Guide](#).

Updates to provider guide:

- Added language specifying that neurodevelopmental centers must use the servicing provider's national provider identifier (NPI) on *all* claims to be paid. If the servicing provider's NPI is not listed on the claim form, the claim may be denied.
- Added information to the general billing requirements, including table of appropriate modifiers to use when billing an agency
- Removed a list of qualifying diagnoses and added a link to the agency's *Habilitative Services Provider Guide*
- Added details to the eligibility section for Primary Care Case Management (PCCM)

For details, see the *What has changed?* table in the Neurodevelopmental Centers Provider Guide.
