Introduction

The Division of Behavioral Health and Recovery (DBHR) Mental Health Service Encounter Reporting Instructions (SERI) provide Regional Support Networks (RSN) and their contracted Community Mental Health Agencies (CMHA) with information for reporting service encounters and program information for individuals served through the Washington state public mental health system. These instructions describe requirements and timelines for reporting service encounters, program information and assignment of standardized nomenclature to accurately describe data routinely used in management of the public mental health system.

These instructions, in conjunction with the DBHR Computer Information System (CIS) Data Dictionary for RSNs, describes service encounter and program reporting, coding guidelines, and the data elements required to be submitted by the RSNs to DBHR.

This manual is divided into sections describing service eligibility, when to report services, what encounters to report, general reporting instructions, guidelines for record documentation, service and program descriptions. Service description pages include the definition of the service, staff qualifications, provider types, guidelines, and Current Procedural Terminology/Healthcare Common Procedure Coding System (CPT™/HCPCS) code for the service description. Program pages include a brief description of the program, guidelines for inclusions, exclusions, and any additional services available for specific programs.

For guidance on providing elements of employment supports under the Washington State Rehabilitation Option of Medicaid 1915(b) Waiver for people with serious mental illness, please refer to the “Guide to Support an Individual’s Employment Goals” <http://www.dshs.wa.gov/dbhr/mhbestpracticeguides.shtml>

CPT five digit codes, descriptions, and other data only are copyright American Medical Association (AMA). All rights reserved. No fee schedules, basis units, relative units, or related listings are included in CPT. AMA does not directly or indirectly practice medicine or dispense medical services. AMA assumes no liability for data contained or not contained therein. CPT is a trademark of the American Medical Association.

HCPCS is maintained and distributed by Center for Medicare and Medicaid Services (CMS). As stated in 42 CFR Sec. 414.40 (a) CMS establishes uniform national definitions of services, codes to represent services, and payment modifiers to the codes.

Mandated Code Updates

CPT and HCPCS are updated at least annually. These changes will be reflected in subsequent revisions to this document.

Who is Eligible to Receive Public Mental Health Services?

All individuals who are within the State of Washington are eligible to receive Crisis Mental Health, Stabilization Services, and Involuntary Treatment Services regardless of income.

Medicaid: Individuals who are enrolled in Medicaid are eligible for medically necessary state plan mental health services as defined in PIHP contract.

Non-Medicaid (State-Only): Individuals who are not eligible to receive services under a Medicaid entitlement program may be eligible for medically necessary mental health services as defined in the State Mental Health Contract.

Introduction

What Encounters to Report

Includes

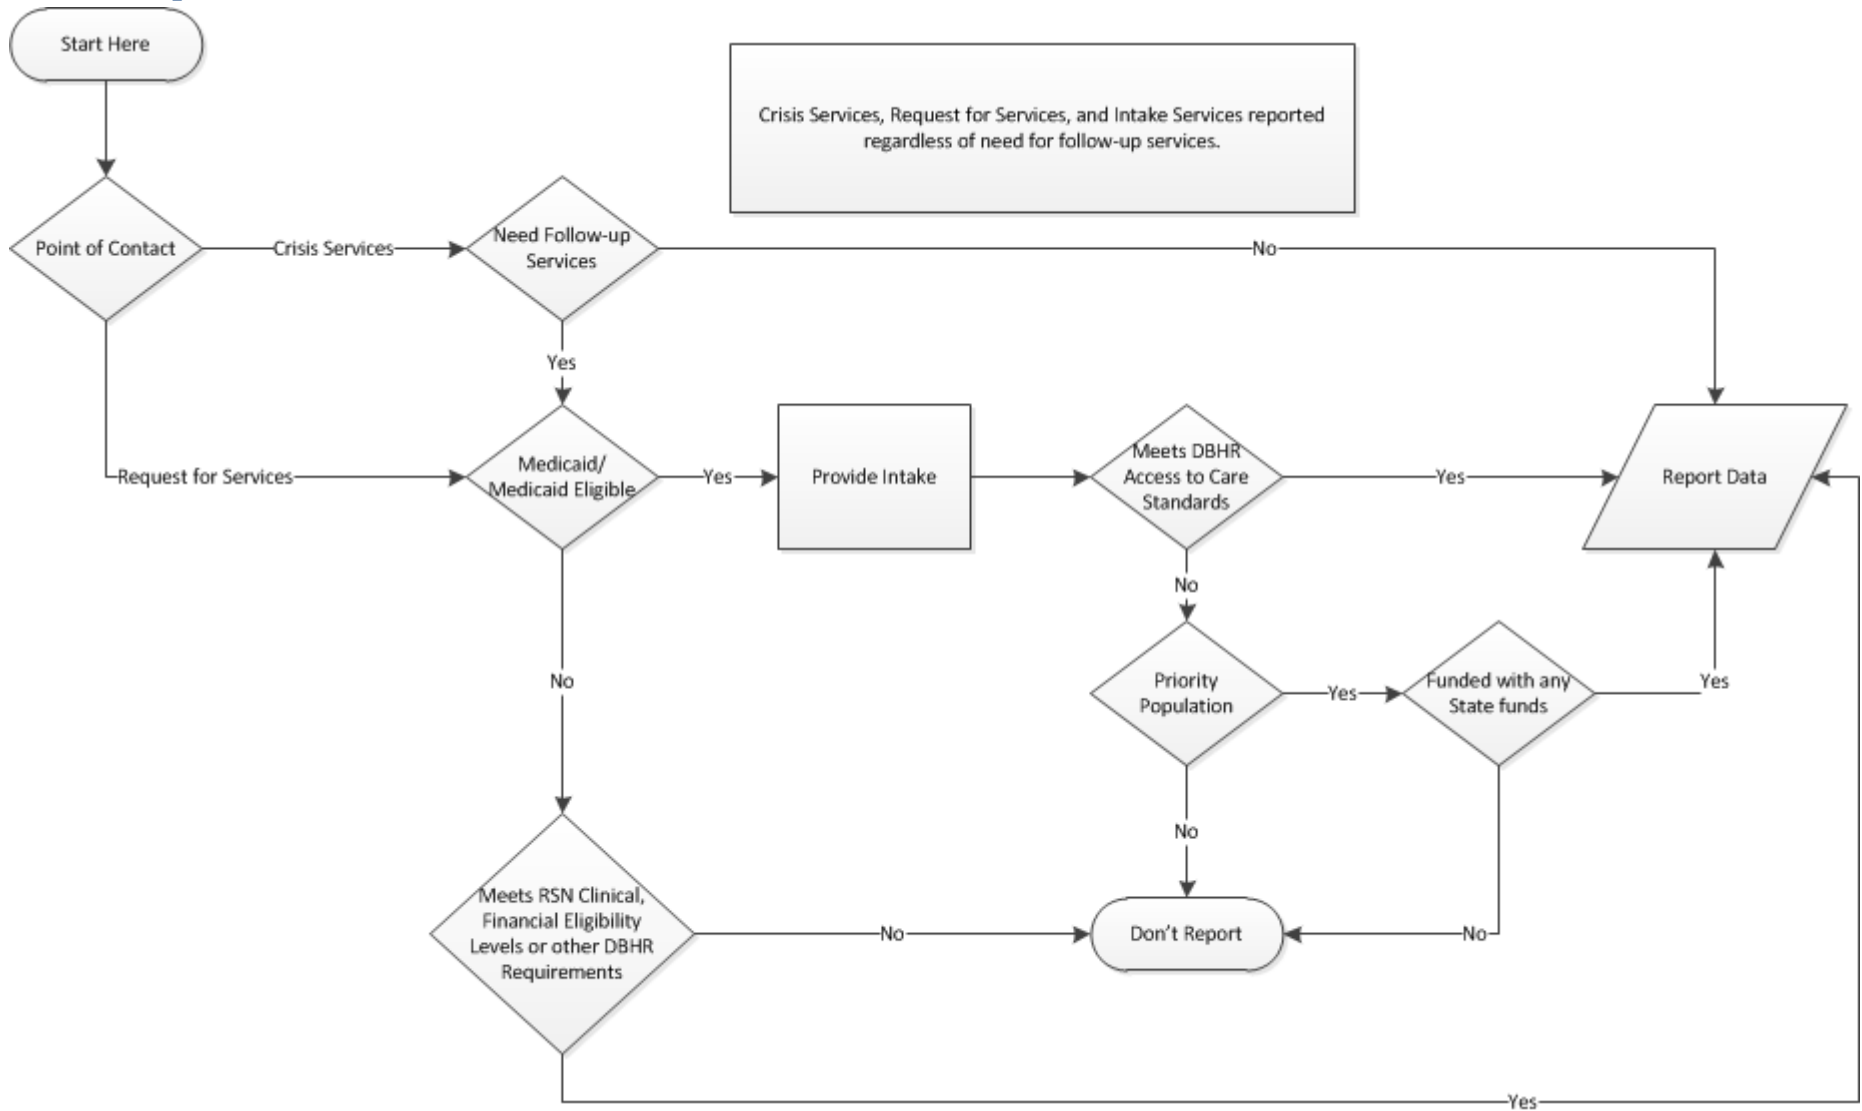

- State plan services provided to Medicaid eligible individuals.
- Non-covered/non-state plan services to Medicaid eligible individuals (i.e., IMD facilities, State-Only or Federal Block Grant).
- All services to non-Medicaid individuals who are funded in whole or part by the RSN.

Excludes

- Any service entirely funded by other DSHS Administrations, Divisions or Sections.
- Services that are reimbursed in total by any other funding source.

Introduction

When to Report Encounters to DBHR

Introduction

General Encounter Reporting Instructions

1. DBHR accepts service encounters reported using the service and program descriptions in these instructions. The CPT/HCPCS codes utilized may not necessarily be the same codes required by other payors. DBHR applies coding principles and guidelines for the assignment of codes to the extent possible and acknowledges there may be circumstances where a code used by mental health has been re-codified from the code submitted to another payor.
2. Use of standardized coding nomenclature, i.e., CPT/HCPCS is required for reporting encounters to DBHR.
3. Encounters are reported based on services provided to the individual client and not based on clinical staff hours. See exceptions noted in number 4d below.

For all encounter reporting, the intention of these instructions is to align coding practice with national coding standards and to provide comparability of RSN encounter data with other medical encounters and claims for clients whose care is paid for by the state. There may be situations where the length of time spent with a client is not sufficient to meet the fidelity of the service description. Those encounters may still be clinically relevant and provide effective treatment to the client. However, there may be other codes that can be used to report the service.

For example, a clinician may start to meet with a client for a half-hour appointment to provide individual psychotherapy. This may be coded as a 90832 (Psychotherapy, 30 min with patient and/or family member). If the client gets up and leaves after 10 minutes, coding 90832 for that service would not meet the fidelity of the code. That is, it would not only be difficult to contend that insight-oriented, behavior modifying or supportive psychotherapy had been provided during such a short time and CPT guidelines specifically require a minimum of 16 minutes for the use of this code. However, a service was provided to the client and it could be coded and reported using, for example, H0046, “Mental Health Services Not Otherwise Specified,” which can be reported in minutes. See Individual Treatment services modality for H0046 usage limitations.

CPT/HCPCS code definitions generally specify various methods to code units of service. DBHR is applying CMS’ guidelines for reporting units of services for certain HCPCS codes. (See <http://www.cms.gov/Transmittals/Downloads/R1951CP.pdf>, Section 20.2C). This guideline describes a “half-way” methodology for determining how to convert the number of minutes spent providing a service into units. The following rules should be used to determine how to report the units of service for encounters;

- a. For CPT/HCPCS codes with a fixed amount of time as a unit of service (e.g. per 15 minutes, per 20 minutes, per hour), report the first unit of service when any service is provided within 5 minutes of the defined unit of service unless otherwise specified in the current CPT or HCPCS Manual. See examples:
 - b. Supported employment (H2023, per 15 minutes) was provided for 10 minutes. Since at least 10 minutes of treatment were provided, and that is within 5 minutes of the defined unit of service, to the encounter can be reported via the H2023 code.
 - c. In some cases the actual time spent providing the service may be more than the fixed unit of time defined by the code. For example, when the actual service was 23 minutes and the appropriate code has a fixed amount of 15 minutes. In these cases follow the “half-way” methodology. Since the service was provided for at least 15 minutes + 8 minutes (half-way to 15 minutes), report 2 units, since 15 minutes = 1 reportable unit and 8 minutes is at least half of 15 minutes.
4. Exceptions
 - a. This does not apply to per-diem services; services provided for less than a day must be coded with non-per-diem codes.

Introduction

- b. Given the need to report crisis services to funders as well as the need to have accurate encounters for all clients, some of whom may only get a crisis service, report 1 unit of service for crisis services coded H2011 when any service is provided for any amount of time from 1 to 22 minutes. For each unit thereafter, use half-way unit rounding methodology thereafter.
- c. For all other codes that do not specify a unit of service, report actual minutes provided. See examples:
 - i. If H0033 (Oral medication admin, direct observation) is provided for 5 minutes, report 5 minutes.
 - ii. If H0046 (Mental health services, not otherwise specified) is provided for 9 minutes, report 9 minutes.
- d. Report multiple encounters occurring on the same day for the same consumer when the encounters occur at different times. With the exceptions noted below, do not roll up multiple encounters. Each service encounter must have a progress note that meets all CMS requirements.

Exception: If the same service is provided discontinuously to a particular consumer on a particular day by the same provider and was provided for less than the minimum time defined by the procedure/service code, the provider can roll-up the minutes to a single service and report that number of units. Documentation in the client record must record these separate events and meet documentation requirements noted below. See examples:

- i. 90832 (Psychotherapy 30 minutes) was only provided for 10 minutes in the morning but again for the same client by the same clinician for 15 minutes in the afternoon of the same day, code 1 unit for that day which equates to 25 minutes of service. The service must be reasonably considered as a single therapeutic intervention and supported by documentation.
 - ii. A clinician meets with their client in the morning for 8 minutes (which is not reportable) and then has another meeting in the afternoon for 11 minutes, they may report 1 unit of H2015, Comprehensive Community Support Services, per 15 minutes.
- 5. Reporting multiple encounters occurring on the same day for the same consumer at the same time in the following conditions only;
 - a. Interpreter services on behalf of a client during an encounter. These can be delivered concurrent with other services.
 - b. Child and Family Team Meetings are reported by all attendees. See Other Services Section for specific reporting instructions.
- 6. Add-on codes (+90785, +90833, +90836, +90838) must be provided and reported at the same time (though not necessarily on the same claim) as the primary service. Concurrent/auxiliary services provided with a per diem service. Some per diem codes allow additional concurrent / auxiliary encounters to be reported in the same day a per diem encounter is reported. See specific service descriptions for additional information regarding reporting of concurrent or auxiliary encounters with per diem encounters. When an encounter is provided on the same day at the same time for the same consumer when provided by two different staff and one encounter does not require the client to be present. One example is when the primary mental health provider is providing Family Treatment without the client present and at the same time the client is participating in a group provided by another mental health clinician.
- 7. Report only one encounter for an individual when more than one staff (i.e., co-therapy) is involved in the delivery of the service. The primary MHP should document the service in the clinical record and report the encounter.
- 8. Staff qualifications correlate with the Provider Types listed at the end of this document and are included with each service description. When there is an exception to provider type, the specific information is included under the note section of the service description page.
- 9. Documentation in clinical records must meet, at a minimum, the general encounter reporting requirements listed below. At a minimum, the following information is required for reporting a service to a consumer and documenting that encounter in a progress note;
 - a. Be of sufficient duration to accomplish the therapeutic intent;
 - b. The record must be legible to someone other than the writer;

Introduction

- c. Each printed page (front and back if two-sided) of the record must contain the consumer's name and agency record number;
 - d. Clinical entries must include the:
 - i. Author identification, which may be a handwritten signature or unique electronic identifier;
 - ii. Date of the service;
 - iii. Location of the service;
 - iv. Provider credentials (which must be appropriate to the service; e.g., medication management can only be done by a prescriber);
 - v. Length of time; and
 - vi. Narrative description of the service provided as evidenced by sufficient documentation that can be translated to a service description title or code number (this may be standard CPT/HCPCS or local nomenclature with a RSN approved crosswalk) and describes therapeutic content.
 - e. The service addresses an issue on the care plan or issue addressed is added to care plan
 - f. The service is specific to the consumer; e.g. group therapy progress note is specific to the consumer.
10. Time associated with activities used to meet criteria for the E/M service is not included in the time used for reporting the psychotherapy service (i.e., time spent on history, examination and medical decision making when used for the E/M service is not psychotherapy time). Time shall be the controlling factor used for the selection of the level of E/M service only when counseling or coordination of care dominates the encounter more than 50% except when done in conjunction with a psychotherapy visit when discussing with the patient or family any of the following:
- a. Prognosis
 - b. Test Results
 - c. Compliance/Adherence
 - d. Education
 - e. Risk Reduction
 - f. Instructions

Reporting the "EPSDT Referral" Indicator

The ANSI X12N National Implementation Guide for encounter reporting and the State of Washington Department of Social & Health Services' 837 Encounter Data Companion Guide for professional and institutional encounters requires providers to report on each service/encounter, whether that service was related to an "EPSDT referral," via the "EPSDT Indicator" field in the 837 transaction.

DBHR has worked with MPA, Division of Healthcare Services to develop a common definition for when that indicator should be flagged "Yes" and when it should be flagged as "No." RSNs should send in the "Yes" indicator only on assessment and intake (the first session of an intake) encounters, and **ONLY IF** that assessment or intake was the result of an EPSDT referral. All future encounters reported for that client should be coded "No" unless a future assessment or intake is performed as the result of another referral.

Introduction

Interactive Complexity Reporting Guidelines

Definition

Interactive complexity refers to specific communication factors that complicate the delivery of a primary psychiatric procedure. This component is reported using CPT add-on code 90785. Add-on codes may be reported in conjunction with specified “primary” procedure codes. **Add-on codes may never be reported alone.**

Replaces

All previous 2012 CPT codes referencing “interactive” therapy (90810-90815, 90823-90829) became invalid on January 1, 2013.

Typical Patients

Those who have third parties, such as parents, guardians, other family members, interpreters, language translators, agencies, court officers, or schools involved in their psychiatric care.

These factors are typically present with patients who:

- Have other individuals legally responsible for their care, such as minors or adults with guardians, or
- Request others to be involved in their care during the visit, such as adults accompanied by one or more participating family members or interpreter or language translator, or
- Require the involvement of other their parties, such as child welfare agencies, parole or probation officers, or schools.

Report 90785 When

At least one of the following is present:

1. The need to manage maladaptive communication (related to e.g., high anxiety, high reactivity, repeated questions, or disagreement) among participants that complicates delivery of care.
2. Caregiver emotions or behavior that interferes with the caregiver’s understanding and ability to assist in the implementation of the treatment plan.
3. Evidence or disclosure of a sentinel event and mandated report to third party (e.g., abuse or neglect with report to state agency) with initiation of discussion of the sentinel event and/or report with patient and other visit participants.
4. Use of play equipment, other physical devices, interpreter, or translator to communicate with the patient to overcome barriers to therapeutic or diagnostic interaction between the physician or other qualified health care professional (QHCP) and a patient who:
 - a. Is not fluent in the same language as the physician or other QHCP, or
 - b. Has not developed, or has lost, either the expressive language communication skills to explain his/her symptoms and response to treatment, or the receptive communication skills to understand the physician or other QHCP if he/she were to use typical language for communication.

Use in Conjunction With

The following psychiatric “primary” procedure codes:

- Psychiatric diagnostic evaluation, 90791, 90792.
- Psychotherapy, 90832, 90834, 90837.
- Psychotherapy add-on codes, 90833, 90836, 90838 WHEN reported with E/M.
- Group psychotherapy, 90853

Introduction

May Not Report With

- Evaluation and Management (E/M) alone, i.e., E/M service not reported in conjunction with a psychotherapy add-on service as interactive complexity is not a factor for E/M service code selection except as it directly affects key components as defined in the E/M services guidelines (i.e. history, examination, and medical decision making).
- Family psychotherapy (90846, 90847, 90849).

Time Reporting Rule

When provided in conjunction with the primary psychotherapy services (90832-90838), the amount of time spent by a physician or other QHCP providing interactive complexity services should be reflected in the timed service code for psychotherapy service and not in the interactive service code. Report as 1 unit only.

Services

Brief Intervention Treatment, 12

Crisis Services, 13

Day Support, 15

Family Treatment, 16

Freestanding Evaluation and Treatment Services, 18

Group Treatment Services, 19

High Intensity Treatment, 21

Individual Treatment Services, 23

Mental Health Services Provided in a Residential Setting, 49

Peer Support, 51

Psychological Assessment, 53

Rehabilitation Case Management, 57

Special Population Evaluation, 59

Stabilization Services, 60

Therapeutic Psychoeducation, 62

Modality:

Brief Intervention Treatment Services

Modality Definition

Solution-focused and outcomes-oriented cognitive and behavioral interventions intended to ameliorate symptoms, resolve situational disturbances which are not amenable to resolution in a crisis service model of care and which do not require long term-treatment, to return the individual to previous higher levels of general functioning. Individuals must be able to select and identify a focus for care that is consistent with time-limited, solution-focused or cognitive-behavioral models of treatment. Functional problems and/or needs identified in the Individual Service Plan must include a specific timeframe for completion of each identified goal. This service does not include ongoing care, maintenance/ monitoring of the enrollee's current level of functioning and assistance with self/care or life skills training. Individuals may move from Brief Intervention Treatment to longer term Individual Services at any time during the course of care.

Inclusions

The following medically necessary state plan services that are provided as solution-focused and outcomes-oriented cognitive and behavioral interventions.

- Individual Treatment Services – Report with UA modifier
- Group Treatment – Report with UA modifier
- Family Treatment – Report with UA modifier

Reporting Note: Refer to codes in the above listed modalities for reporting purposes.

Exclusions

None

Notes

The following definitions are provided for clarification of the Access to Care, Level I-Brief Intervention and the state plan service modality, Brief Intervention Treatment:

- Access to Care Standards (ACS) Level I-Brief Intervention refers to a subset of modalities being offered from the State plan and a shorter duration for the authorization.
- State plan modality Brief Intervention Treatment is one clinical intervention that can be used when there is a Level I authorization and has specific expected outcomes.
- **This modality is designated by the use of modifier “UA” – WA State Medicaid Plan.**
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type “ARNP/PA”.
- This modality may not be provided prior to an intake.

Modality:

Crisis Services

Modality Definition

Evaluation and treatment of mental health crisis to all individuals experiencing a crisis. A mental health crisis is defined as a turning point in the course of anything decisive or critical, a time, a stage, or an event or a time of great danger or trouble, whose outcome decides whether possible bad consequences will follow. Crisis services shall be available on a 24-hour basis. Crisis services are intended to stabilize the person in crisis, prevent further deterioration and provide immediate treatment and intervention in a location best suited to meet the needs of the individual and in the least restrictive environment available. Crisis services may be provided prior to completion of an intake evaluation.

Inclusions

- Services may be provided prior to intake evaluation.
- Services do not have to be provided face to face.
- Crisis Hotline services (H0030)

Notes

- The modifier (UC) is added to the service code when services provided involve multiple staff for safety purposes.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This modality may be provided prior to an intake.

Exclusions

- Community debriefing that occurs after a community disaster or crisis

Modality:

Crisis Services

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
H0030	Behavioral health hotline service	MJ	HA UD	01-RN/LPN 02-ARNP/PA 03-Psychiatrist/M 04-MA/Ph.D. 05-Below Masters Degree 09-Bachelors Level w/Exception Waiver 10-Master Level w/Exception Waiver 12-Other (Clinical Staff)	
H2011	Crisis intervention service, per 15 minutes	UN (1 or more)	HA UC UD	01-RN/LPN 02-ARNP/PA 03-Psychiatrist/MD 04-MA/Ph.D. 05-Below Masters Degree 09-Bachelors Level w/Exception Waiver 10-Master Level w/Exception Waiver 12-Other (Clinical Staff)	First unit for this service may be reported for 1-22 minutes. Units thereafter follow standard rounding rules.

Modality:

Day Support

Modality Definition

An intensive rehabilitative program which provides a range of integrated and varied life skills training (e.g., health, hygiene, nutritional issues, money management, maintaining living arrangement, symptom management) for Medicaid enrollees to promote improved functioning or a restoration to a previous higher level of functioning. The program is designed to assist the individual in the acquisition of skills, retention of current functioning or improvement in the current level of functioning, appropriate socialization and adaptive coping skills. Eligible individuals must demonstrate restricted functioning as evidenced by an inability to provide for their instrumental activities of daily living (See notes). This modality may be provided as an adjunctive treatment or as a primary intervention. The staff to consumer ratio is no more than 1:20 and is provided by or under the supervision of a mental health professional in a location easily accessible to the client (e.g., community mental health agencies, clubhouses, community centers). This service is available 5 hours per day, 5 days per week.

Inclusions

- Service available at least 5 hours per day, 5 days per week.
- Service available in easily accessible locations (e.g., community mental health agencies, clubhouses, community centers).

Exclusions

- Programs with less service availability.

Notes

- Instrumental activities of daily living are defined by CMS as activities related to independent living. This includes, but not limited to preparing meals, managing money, shopping for groceries or personal items, performing light or heavy housework and using a telephone.
- All services provided during a Day Support “day” by that program staff can be recorded by a single staff. The “day” can be documented in a single note but should not include any service (description or duration) provided during the day that is by non-Day program staff, which should be recorded and encountered separately.
- This modality may not be provided prior to an intake.

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
H2012	Behavioral health day treatment, per hour	UN (1 or more)		04-MA/Ph.D. 05-Below Masters Degree 06-DOH Credentialed Certified Peer Counselor 09-Bachelors Level w/Exception Waiver 10-Master Level w/Exception Waiver 12-Other (Clinical Staff)	

Modality:

Family Treatment

Modality Definition

Psychological counseling provided for the direct benefit of an individual. Service is provided with family members and/or other relevant persons in attendance as active participants. Treatment shall be appropriate to the culture of the client and his/her family and should reinforce the family structure, improve communication and awareness, enforce and reintegrate the family structure within the community, and reduce the family crisis/upheaval. The treatment will provide family-centered interventions to identify and address family dynamics and build competencies to strengthen family functioning in relationship to the consumer. Family treatment may take place without the consumer present in the room but service must be for the benefit of attaining the goals identified for the individual in his/her individual service plan.

Inclusions

- Provided with family members and/or other relevant persons in attendance as active participants.
- May be provided without the consumer present in the room.

Exclusions

- Marriage Counseling

Notes

- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This modality may not be provided prior to an intake.

Modality:

Family Treatment

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
90846	Family psychotherapy without patient present	MJ	HA UD UA if Brief Intervention	01-RN/LPN 02-ARNP/PA 03-Psychiatrist/MD 04-MA/Ph.D. 05-Below Masters Degree 09-Bachelors Level w/Exception Waiver 10-Master Level w/Exception Waiver 12-Other (Clinical Staff)	Interactive complexity (90785) is not billable for this service.
90847	Family psychotherapy (conjoint psychotherapy) with patient present	MJ	HA UD UA if Brief Intervention	01-RN/LPN 02-ARNP/PA 03-Psychiatrist/MD 04-MA/Ph.D. 05-Below Masters Degree 09-Bachelors Level w/Exception Waiver 10-Master Level w/Exception Waiver 12-Other (Clinical Staff)	Interactive complexity (90785) is not billable for this service.

Modality:

Freestanding Evaluation and Treatment Services

Modality Definition

Services provided in freestanding inpatient residential (non-hospital/non-IMD for Medicaid and non-hospital for Non-Medicaid) facilities licensed by the Department of Health and certified by the DBHR to provide medically necessary evaluation and treatment to the individual who would otherwise meet hospital admission criteria. These are not-for-profit organizations. At a minimum, services include evaluation, stabilization and treatment provided by or under the direction of licensed psychiatrists, nurses and other mental health professionals, and discharge planning involving the individual, family, significant others so as to ensure continuity of mental health care. Nursing care includes but is not limited to; performing routine blood draws, monitoring vital signs, providing injections, administering medications, observing behaviors and presentation of symptoms of mental illness. Treatment modalities may include individual and family therapy, milieu therapy, psycho-educational groups and pharmacology. The individual is discharged as soon as a less-restrictive plan for treatment can be safely implemented.

Inclusions

- Services may be provided prior to intake when admission criteria are met.
- 24 hours per day/ 7 days per week availability.
- Nursing care.
- Treatment modalities such as individual and family therapy, milieu therapy, psycho educational groups and pharmacology.
- The following concurrent/auxiliary services may be reported after admission when the staff providing the service is not assigned to the facility:
 - Rehabilitation Case Management
 - Peer Support

Exclusions:

- Evaluation and treatment services provided within a hospital.

Notes

- Report N/A for Provider Type when service encounter is a per diem code.
- Freestanding E&T services in a facility meeting the definition of an IMD are funded by Non-Medicaid resources. This includes E&T services provided to individuals with Medicaid as the pay source.
- E&T services will continue to be reported through the 837I HIPAA transaction as an episode of care. DBHR will recode for service utilization reports.
- DBHR will report E&T services delivered in an IMD as non-Medicaid services.
- This modality may be provided prior to an intake.

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
N/A	Psychiatric health facility service, per diem. <u>NOTE: RSNs are not to use the Principal Procedure code on institutional encounters.</u>	DA (1 or more)	None	Provider type is not submitted on an 837I	

Modality:

Group Treatment Services

Modality Definition

Services provided to individuals designed to assist in the attainment of goals described in the Individual Service Plan. Goals of Group Treatment may include developing self-care and/or life skills, enhancing interpersonal skills, mitigating the symptoms of mental illness, and lessening the results of traumatic experiences, learning from the perspective and experiences of others and counseling/ psychotherapy to establish and /or maintain stability in living, work or educational environment. Individuals eligible for Group Treatment must demonstrate an ability to benefit from experiences shared by others, demonstrate the ability to participate in a group dynamic process in a manner that is respectful of others' right to confidential treatment and must be able to integrate feedback from other group members. This service is provided by or under the supervision of a mental health professional to two or more individuals at the same time. Staff to consumer ratio is no more than 1:12. Maximum group size is 24.

Inclusions

- Service provided to a minimum of two enrollees and a maximum of twenty-four enrollees at the same time.

Notes

- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This modality may not be provided prior to an intake.

Exclusions

- Services conducted over speakerphone

Modality:

Group Treatment Services

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
90849	Multiple-family group psychotherapy	MJ	HA UD UA if Brief Intervention	01-RN/LPN 02-ARNP/PA 03-Psychiatrist/MD 04-MA/Ph.D. 05-Below Masters Degree 09-Bachelors Level w/Exception Waiver 10-Master Level w/Exception Waiver 12-Other (Clinical Staff)	Interactive complexity (90785) is not billable for this service.
90853	Group psychotherapy (other than of a multiple-family group)	MJ	HA UD UA if Brief Intervention	01-RN/LPN 02-ARNP/PA 03-Psychiatrist/MD 04-MA/Ph.D. 05-Below Masters Degree 09-Bachelors Level w/Exception Waiver 10-Master Level w/Exception Waiver 12-Other (Clinical Staff)	May be billed with interactive complexity (90785)

Modality:

High Intensity Treatment

Modality Definition

Intensive levels of service otherwise furnished under this State plan amendment that is provided to individuals who require a multi-disciplinary treatment team in the community that is available upon demand based on the individuals' needs. Twenty-four hours per day, seven days per week, access is required if necessary. Goals for High Intensity Treatment include the reinforcement of safety, the promotion of stability and independence of the individual in the community, and the restoration to a higher level of functioning. These services are designed to rehabilitate individuals who are experiencing severe symptoms in the community and thereby avoid more restrictive levels of care such as psychiatric inpatient hospitalization or residential placement.

The team consists of the individual, Mental Health Care Providers, under the supervision of a mental health professional, and other relevant persons as determined by the individual (e.g., family, guardian, friends, neighbor). Other community agency members may include probation/parole officers, teacher, minister, physician, chemical dependency counselor, etc. Team members work together to provide intensive coordinated and integrated treatment as described in the individual service plan. The team's intensity varies among individuals and for each individual across time. The assessment of symptoms and functioning will be continuously addressed by the team based on the needs of the individual allowing for the prompt assessment for needed modifications to the individual service plan or crisis plan. Team members provide immediate feedback to the individual and to other team members. The staff to consumer ratio for this service is no more than 1:15.

Inclusions

- Access to a multidisciplinary team is available 24 hours per day/7 days per week.
- Concurrent or auxiliary services may be provided by staff who are not part of the team to include:
 - Medication management
 - Day support
 - Psychological assessment
 - Special population evaluation
 - Therapeutic psychoeducation
 - Crisis

Notes

- Report N/A for Provider Type when service encounter is a per diem code.
- DBHR acknowledges that due to the nature of this program, quantity and duration of services may vary widely depending on client needs.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- The per diem codes should not be used for anyone in the Wraparound with Intensive Services (WISe) program.
- This modality may not be provided prior to an intake.

Exclusions

- None

Modality:

Individual Treatment Services

Modality Definition

A set of treatment services designed to help a Medicaid-enrolled individual attain goals as prescribed in his/her individual service plan. These services shall be congruent with the age, strengths, and cultural framework of the individual and shall be conducted with the individual, his or her family, or others at the individual's behest who play a direct role in assisting the individual to establish and/or maintain stability in his/her daily life. These services may include developing the individual's self-care/life skills; monitoring the individual's functioning; counseling and psychotherapy. Services shall be offered at the location preferred by the Medicaid-enrolled individual. This service is provided by or under the supervision of a mental health professional.

Inclusions

- Report writing (e.g., extraordinary report writing, as defined by court reports, reports to DSHS).
- Educational support services (i.e., school coaching, school readiness, support counseling)
- Services are offered at the location preferred by the enrollee.
- Specialist consultation between the specialist and the clinician.
- Advocacy during court proceeding (does not include testimony during ITA hearing).
- Testimony during court proceeding (does not include testimony during ITA hearing)
- Representative payee services that involve money management training directly with the person.
- For information regarding documentation and reporting services related to supporting an individual's employment goals, please refer to the link provided in the Introduction section of this document.

Exclusions

- Calling in refills to pharmacies and filling out medication packs without the client present.
- Time spent completing normally required documentation
- Representative payee services that do not directly include the enrollee (e.g., paying bills on behalf of the enrollee)
- Testimony during an ITA hearing
- Non-therapeutic phone calls or messages, listening to voice mails, e-mails

Modality:

Individual Treatment Services

Notes

- Documentation for Evaluation and Management service encounters (99xxx series) must meet CPT requirements.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type “ARNP/PA”.
- To report both E/M and psychotherapy, the two services must be significant and separately identifiable.
- The type and level of E/M service is selected first based upon the key components of history, examination, and medical decision making.
- This modality may not be provided prior to an intake.

Modality:

Modality:

Intake Evaluation

Modality Definition

An evaluation that is culturally and age relevant initiated prior to the provision of any other mental health services, except crisis services, services, stabilization services and free-standing evaluation and treatment. The intake evaluation must be initiated within ten (10) working days of the request for services, establish the medical necessity for treatment and be completed within thirty (30) working days. Routine services may begin before the completion of the intake once medical necessity is established. This service is provided by a mental health professional.

"Mental health professional" Defined in RCW; 71.05 and 71.34. Waiver criteria in RCW; 71.24.260. Exception to minimum requirements in WAC; 388-865-0265

Inclusions

- Minimum service benefit for persons with Medicaid.

Exclusions

- Intake evaluations done by a non-Mental Health Professional.

Notes

- An intake must be initiated prior to provision of mental health services except for:
 - Crisis (including investigations and hearings);
 - Stabilization Services;
 - Free Standing E & T Services
 - Rehabilitation Case Management
 - Request for Services
 - Engagement & Outreach
 - Testimony for Involuntary Treatment Services
- When two clinicians (i.e., psychiatrist and MHP) conduct separate intakes, both encounters are reported

- Intake evaluations requiring more than one session to complete by a single clinician are coded with the applicable intake code and the modifier “53” to indicate the service was not completed. The final session to complete the intake is coded with applicable intake code without a modifier.
- A new intake evaluation is not required if an intake was completed in the 12 months prior to the current request and medical necessity was established. The previously completed intake may be used to authorize care (06-07 Contract).
 - An update or addendum to the intake that addresses all pertinent areas is completed, and modifier “52” added to appropriate CPT/HCPCS code to report the encounter.
- Documentation for Evaluation and Management service encounters (99XXX series) must meet CPT requirements.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type “ARNP/PA”.
- A new modifier (U9-Rehab Case Management-Intake Service) has been added to use when providing a Rehabilitation Case Management service (H0023) to indicate the service provided meets the requirements and definition of an intake service. This addition was made to facilitate the transition of a client to an outpatient setting and to allow for better tracking/monitoring of the intake service.
- This modality may not be provided prior to an intake.

Modality:

Medication Management

Modality Definition

The prescribing and/or administering and reviewing of medications and their side effects. This service shall be rendered face-to-face by a person licensed to perform such services. This service may be provided in consultation with collateral, primary therapists, and/or case managers, but includes only minimal psychotherapy.

Inclusions

- Service rendered face-to-face by a person licensed to perform such services.
- Consultation with collaterals, primary therapists, and/or case managers.
- Minimal psychotherapy services may be provided.

Notes

- Documentation for Evaluation and Management service encounters (99XXX series) must meet CPT requirements.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This modality may not be provided prior to an intake.

Exclusions

- None

Modality:

Medication Monitoring

Modality Definition

Face-to-face one-on-one cueing, observing, and encouraging an individual to take medications as prescribed. Also includes reporting back to persons licensed to perform medication management services for the direct benefit of the individual. This activity may take place at any location and for as long as it is clinically necessary. This service is designed to facilitate medication compliance and positive outcomes. Individuals with low medication compliance history or persons newly on medication are most likely to receive this service.

Inclusions

- Face-to-face, one on one cueing and observing client's taking prescribed medications.
- Reporting back to persons licensed to perform medication management services.
- Service provided at any location for as long as deemed clinically necessary.

Notes

- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This modality may not be provided prior to an intake.

Exclusions

- When medical staff puts together a medication pack for a person and leaves it at the front desk with no face-to-face contact.
- Calling in prescriptions

Modality:

Mental Health Services Provided in a Residential Setting

Modality Definition

A specialized form of rehabilitation service (non-hospital/non IMD) that offers a sub-acute psychiatric management environment. Individuals receiving this service present with severe impairment in psychosocial functioning or have apparent mental illness symptoms with an unclear etiology due to their mental illness. Treatment for these individuals cannot be safely provided in a less restrictive environment and they do not meet hospital admission criteria. Individuals in this service require a different level of service than High Intensity Treatment. The Mental Health Care Provider is sited at the residential location (e.g., boarding homes, supported housing, cluster housing, SRO apartments) for extended hours to provide direct mental health care to a Medicaid enrollee. Therapeutic interventions both in individual and group format may include medication management and monitoring, stabilization, and cognitive and behavioral interventions designed with the intent to stabilize the individual and return him/her to more independent and less restrictive treatment. The treatment is not for the purpose of providing custodial care or respite for the family, nor is it for the sole purpose of increasing social activity or used as a substitute for other community-based resources. This service is billable on a daily rate. In order to bill the daily rate for associated costs for these services, a minimum of 8 hours of service must be provided. This service does not include the costs for room and board, custodial care, and medical services, and differs for other services in the terms of location and duration.

Inclusions

- Mental Health Care Provider (MHCP) is located on-site a minimum of 8 hours per day, 7 days a week.
- Services can be provided in an apartment complex or cluster housing, boarding home or adult family home.
- Concurrent or auxiliary services may be provided when the staff providing the service is not assigned to the residential facility.

Exclusions

- Room and board
- Holding a bed for a person
- Temporary shelter services less than 2 weeks (see Stabilization Services instead)
- Custodial care
- Medical services (i.e., physical health care or skilled nursing)

Notes

- Report N/A for Provider Type when service encounter is a per diem code.
- Mental health services in a residential facility meeting the definition of an IMD are funded by Non-Medicaid resources. This includes mental health services provided to individuals with Medicaid as the pay source.
- DBHR will report mental health services provided in a residential setting delivered in an IMD as non-Medicaid services.
- This modality may not be provided prior to an intake.

Modality:

Mental Health Services Provided in a Residential Setting

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
H0018	Behavioral health; short-term residential (nonhospital residential treatment program), without room and board, per diem	UN (1)	UD	08-N/A	
H0019	Behavioral health; long-term residential (nonmedical, nonacute care in a residential treatment program where stay is typically longer than 30 days), without room and board, per diem	UN (1)	UD	08-N/A	

Modality:

Peer Support

Modality Definition

Services provided by peer counselors to individuals under the consultation, facilitation or supervision of a mental health professional who understands rehabilitation and recovery. This service provides scheduled activities that promote socialization, recovery, self-advocacy, development of natural supports, and maintenance of community living skills. Consumers actively participate in decision-making and the operation of the programmatic supports.

Self-help support groups, telephone support lines, drop-in centers, and sharing the peer counselor's own life experiences related to mental illness will build alliances that enhance the individual's ability to function in the community. These services may occur at locations where consumers are known to gather (e.g., churches, parks, community centers, etc.). Drop-in centers are required to maintain a log documenting identification of the consumer including Medicaid eligibility.

Services provided by peer counselors to the consumer are noted in the consumers' Individualized Service Plan which delineates specific goals that are flexible tailored to the consumer and attempt to utilize community and natural supports. Monthly progress notes document consumer progress relative to goals identified in the Individualized Service Plan, and indicates where treatment goals have not yet been achieved.

Peer counselors are responsible for the implementation of peer support services. Peer counselors may serve on High Intensity Treatment Teams.

Peer support is available to each enrollee for no more than four hours per day. The ratio for this service is no more than 1:20

Inclusions

- Service availability is up to 4 hours per day.
- Scheduled activities that promote socialization, recovery, self-advocacy, development of natural supports, and maintenance of community living skills. Active participation by enrollees in decision-making and the operation of programmatic supports.
- Self-help support groups, telephone support lines, drop-in centers, and sharing the peer counselor's own life experiences related to mental illness.
- For information regarding documentation and reporting services related to supporting an individual's employment goals, please

refer to the link provided in the Introduction section of this document.

Exclusions

- None

Notes

- This modality may not be provided prior to an intake.

Modality:

Psychological Assessment

Modality Definition

All psychometric services provided for evaluating, diagnostic, or therapeutic purposes by or under the supervision of a licensed psychologist. Psychological assessments shall: be culturally relevant; provide information relevant to an individual's continuation in appropriate treatment; and assist in treatment planning within a licensed mental health agency.

Inclusions

- None

Exclusions

- Psychological assessments not completed by, or under the supervision of a licensed psychologist.

Notes

Modality:

Rehabilitation Case Management

Modality Definition

A range of activities by the outpatient community mental health agency's liaison conducted in or with a facility for the direct benefit of an individual in the public mental health system. To be eligible, the individual must be in need of case management in order to ensure timely and appropriate treatment and care coordination. Activities include assessment for discharge or admission to community mental health care, integrated mental health treatment planning, resource identification and linkage to mental health rehabilitative services, and collaborative development of individualized services that promote continuity of mental health care. These specialized mental health coordination activities are intended to promote discharge, to maximize the benefits of the placement, and to minimize the risk of unplanned readmission and to increase the community tenure for the individual.

Inclusions

- Liaison work between community mental health agency and a facility that provides 24-hour care.
- Clinical staff going to the facility and functioning as liaison in evaluating individuals for admission outpatient services and monitoring progress towards discharge
- Available prior to provision of an intake evaluation
- Assessment for admission to community mental health care (may be counted as an intake when the service meets the intake definition). Modifier U9 (Rehabilitation Case Management Intake) has been added to designate when this service has been provided to allow for better tracking of an intake service provided in this setting.

Notes

- RCM is the only service to be encountered when a client is in Jail/Prison, Juvenile Detention Facility, CLIP Facility, Evaluation & Treatment Facility, Medical or Psychiatric Inpatient Facility for the purposes of discharge planning and coordination of care. Services provided in a Skilled Nursing Facility are not covered in this modality but can be reported in other modalities as appropriate.
- Rehabilitation Case Management provided in an IMD is funded as a Non-Medicaid service. This includes mental health services provided to individuals with Medicaid as the pay source.
- DBHR will report rehabilitation case management services delivered in an IMD as non-Medicaid services.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- Link to RCM matrix: <http://www.dshs.wa.gov/pdf/dbhr/mh/sericptRCMfundingsourcematrix.pdf>
- This modality may be provided prior to an intake.

Exclusions

Modality:

Special Population Evaluation

Modality Definition

Evaluation by a child, geriatric, disabled, or ethnic minority specialist that considers age and cultural variables specific to the individual being evaluated and other culturally and age competent evaluation methods. This evaluation shall provide information relevant to a consumer's continuation in appropriate treatment and assist in treatment planning. This evaluation occurs after intake. Consultation from a non-staff specialist (employed by another CMHA or contracted by the CMHA) may also be obtained, if needed, subsequent to this evaluation and shall be considered an integral, billable component of this service.

Inclusions:

- Performed after the initiation of an intake evaluation.
- Special population evaluation must be provided face-to-face.

Notes

- Modifier "HE" – Mental Health Program is required for reporting this modality.
- This modality may not be provided prior to an intake.

Exclusions

- MH specialist conducting an intake evaluation.
- Consultation call where the specialist never directly evaluates the person.
- Consultation between the specialist and the clinician (See Individual Treatment Services modality)

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria

Modality:

Stabilization Services

Modality Definition

Services provided to Medicaid-enrolled individuals who are experiencing a mental health crisis. These services are to be provided in the person's own home, or another home-like setting, or a setting which provides safety for the individual and the mental health professional. Stabilization services shall include short-term (less than two weeks per episode) face-to-face assistance with life skills training, and understanding of medication effects. This service includes: a) follow up to crisis services; and b) other individuals determined by a mental health professional to need additional stabilization services. Stabilization services may be provided prior to an intake evaluation for mental health services.

Inclusions

- 24 hours per day/ 7 days per week availability.
 - Services may be provided prior to intake evaluation.
 - Service provided in the person's own home or another home-like setting, or a setting that provides for safety of the person and the mental health professional.
 - Service is short term (less than 14 days per episode) and involves face-to-face assistance with life skills training and understanding of medication effects.
 - Service provided as follow up to crisis services; and to other persons determined by mental health professional in need of additional stabilization services
- The following additional services may also be reported the same days as stabilization when provided by a staff not assigned to provide stabilization services.
 - Intake Evaluation
 - Involuntary Treatment Investigation
 - Services after Intake:
 - Family Treatment
 - Medication Management
 - Peer Support
 - Psychological Assessment
 - Therapeutic Psychoeducation
 - In addition, in order to provide continuity of care in support of established client/therapist relationships and best practices; Individual Treatment Services may also be provided when provided by the client's primary clinician.

Exclusions

- None

Notes

- This modality may be provided prior to an intake.

Modality:

Stabilization Services

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria

Services reported may be discontinuous, but must be reported on the date of service where they occur. This service may last from 55 minutes to 24:00 hours per date of service and must be provided by staff specifically assigned to this program.

Modality:

Therapeutic Psychoeducation

Modality Definition

Informational and experiential services designed to aid Medicaid-enrolled individuals, their family members (e.g., spouse, parents, siblings) and other individuals identified by the individual as a primary natural support, in the management of psychiatric conditions, increased knowledge of mental illnesses and understanding the importance of their individual plans of care. These services are exclusively for the benefit of the Medicaid-enrolled individual and are included in the Individual Service Plan.

The primary goal is to restore lost functioning and promote reintegration and recovery through knowledge of one's disease, the symptoms, precautions related to decompensation, understanding of the "triggers" of crisis, crisis planning, community resources, successful interrelations, medication action and interaction, etc. Training and shared information may include brain chemistry and functioning; latest research on mental illness causes and treatments; diagnostics; medication education and management; symptom management; behavior management; stress management; crisis management; improving daily living skills; independent living skills; problem-solving skills, etc.

Services are provided at locations convenient to the consumer. Classroom style teaching, family treatment, and individual treatment are not billable components of this service

Inclusions

- Information, education and training to assist enrollees, family members and others identified by the enrollee in the management of psychiatric conditions, increased knowledge of mental illness and understanding importance of the enrollee's individual service plan.
- Services provided at locations easily accessible and convenient to the enrollee.
- Services may be provided in groups or individually.
- For information regarding documentation and reporting services related to supporting an individual's employment goals, please refer to the link provided in the Introduction section of this document.

Exclusions

- Classroom style teaching.
- General family or community education not specific to the enrollee.
- Family treatment.
- Individual treatment.

Notes

- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This modality may not be provided prior to an intake.

Child and Family Team Meeting

Other Services Description

Purpose: Child & Family Team (CFT) Meetings are for the development, evaluation or modification of a cross system care plan In accordance with WA Children’s Mental Health System Principles, care planning is family driven, youth guided and focused on strengths and needs. The CFT facilitates cross system coordination to support outcomes in the restoration of a higher level of functioning for the youth and family. The cross-system care plan is maintained in the official mental health provider client record and each participating member receives a copy. The cross-system care plan includes 1. A statement of treatment and service goals, 2. Clinical interventions, 3. Supports designed to achieve those goals and 4. An evaluation of progress.

Population Served: This service is designed for children and youth who have complex emotional, behavioral and social issues who typically require care coordination across two or more systems.

Membership on the CFT is determined by the family and youth in collaboration with service providers and includes natural supports that the family / youth designate as well as representatives of involved providers and systems.

Facilitation: The CFT is facilitated by a member identified by the team that is able to maintain a consistent presence, guide the team process, coordinate planning efforts, and be responsible for sign-in sheets and meeting minutes that document efforts, agreements and progress.

Frequency: The team meets with sufficient regularity to assess progress and maintain clear and coordinated communication in order to carry out the Plan.

Inclusions

- See description. All meetings where the family and other members of an established CFT are participating as part of the care plan.

Exclusions

- Meetings without the youth or family present (i.e. one or the other or both must be present).
- Meetings for a primarily clinical purpose such as Individual or family treatment services that do not involve other CFT members.

Notes

- Information on this page is intended as an overview. Refer to the PIHP contract, WA State Children’s Mental Health System Principles and WA State Children’s Mental Health Child and Family Team Practice Expectations.
- This service is designated by the use of modifier “HT” – Multidisciplinary Team. This service should only be reported by one of the mental health clinicians in attendance at the team meeting by using the HT modifier. All other mental health attendees submit without the HT modifier.
- If services are reported per diem High Intensity, those members do not code Child & Family Team Meetings separately.
- This modality may not be provided prior to an intake.

Other Services:

Engagement and Outreach

Other Services Description

Engagement is a strategic set of activities that are implemented to develop an alliance with an individual for the purpose of bringing them into or keeping them in ongoing treatment. The activities occur primarily in the field rather the worker’s office, or at another service agency such as food bank or public shelter, or via telephone if a potential client calls the workers office seeking assistance or by referral.

Inclusions

- None

Exclusions

- None

Notes

- This service is designated by the use of modifier HW – Funded by state mental health agency.
- Engagement and outreach is a state funded service.
- These services may be provided prior to Intake.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type “ARNP/PA”
- This Service Type may be provided prior to an intake.

Other Services:

Involuntary Treatment Investigation

Other Services Description

An evaluation/assessment by a designated mental health professional (DMHP) for the purpose of determining the likelihood of serious harm to self, others or gravely disabled due to a mental disorder. The DMHP accepts, screens, and documents all referrals for an ITA investigation. The DMHP informs the person being investigated for involuntary detention of his/her legal rights as soon as it is determined that an ITA investigation is necessary (December 2011 Protocols for Designated Mental Health Professionals - <http://www.dshs.wa.gov/pdf/dbhr/mh/dmhprotocolsreport2011.pdf>)

Inclusions

- Involuntary Treatment Investigation service is available to all individuals, regardless of eligibility for any program or insurance coverage.
- Services may be provided prior to intake.

Exclusions

- Activities performed by a DMHP that are determined not to be an investigation, include but are not limited to, crisis services and community support. These activities are reported under the appropriate service type.

Notes

- This service is designated by the addition of the “HW- Funded by state mental health agency” modifier.
- This Service Type may be provided prior to an intake.

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria

Units thereafter follow standard half-way rounding rules. Services must be provided by a Designated Mental Health Professional (DMHP) only. Report highest level actual provider type.

Other Services:

Mental Health Clubhouse

Other Services Description

A service provided with State only or local funding. These services may be in the form of support groups, related meetings, consumer training, peer support, etc. Consumers may drop in on a daily basis and participate, as they are able. Mental Health Clubhouses are not an alternative for day support services. Clubhouses must use International Center for Clubhouse Development (ICCD) standards as guidelines. Services include the following:

- Opportunities to work within the clubhouse, such work contributes to the operation and enhancement of the clubhouse community;
- Opportunities to participate in administration, public relations, advocacy and evaluation of clubhouse effectiveness;
- Assistance with employment opportunities: housing, transportation, education and benefits planning.
- Operate at least ten hours a week after 5:30pm Monday through Friday, or anytime on Saturday or Sunday, and
- Opportunities for socialization activities

Inclusions

- Operate at least ten hours a week that occurs either after 5:30 p.m. Monday through Friday or during any hours on Saturday or Sunday.
- Concurrent or auxiliary services may be provided when the staff providing the service is not assigned to the mental health clubhouse

Exclusions

- None

Notes

- Report N/A for Provider Type when service encounter is a per diem code.
- This modality may not be provided prior to an intake.

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
H2031	Mental health clubhouse services, per diem	UN (1)	UD	08-N/A	

Other Services:

Request for Services

Other Services Description

A request for mental health services occurs when services are sought or applied for through a telephone call, walk-in, or written request from the individual or those defined as family or upon the receipt of a written EPSDT referral. This service is provided to all individuals seeking non-crisis mental health services.

Inclusions

- These services are provided prior to intake.

Exclusions

- None

Notes

- Use provider type “N/A” when the individual providing service is a nonclinical staff.
- Documentation of the request must be made in the consumer’s medical record but a formal progress note is not needed if administrative staff took the initial request.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type “ARNP/PA”.
- Service may be provided prior to intake.
- This Service Type may be provided prior to an intake.

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria

Other Services:

Respite Care Services

Other Services Description

A service provided with State only or local funding to sustain the primary caregivers of children with serious or emotional disorders or adults with mental illness. This is accomplished by providing observation, direct support and monitoring to meet the physical, emotional, social and mental health needs of an individual consumer by someone other than the primary caregivers. Respite care should be provided in a manner that provides necessary relief to caregivers. Respite may be provided on a planned or an emergent basis and may be provided in a variety of settings such as in the consumer or caregiver's home, in an organization's facilities, in the respite worker's home etc. The care should be flexible to ensure that the individual's daily routine is maintained. Respite is provided by, or under the supervision of, a mental health professional.

Inclusions

- Observation, direct support, and monitoring to meet needs of an enrollee by someone other than the primary caregivers.
- Service may be provided on a planned or an emergent basis.
- Service provided in a variety of settings such as the person's or caregiver's home, an organization's facilities, or in a respite worker's home.
- Service provided in a manner necessary to provide relief for the person or caregivers
- Concurrent or auxiliary services may be provided by staff who are not assigned to provide respite care.

Notes

- Respite care up to 8 hours is reported as T1005. Respite care of 8 hours or longer is reported as a per diem.
- Report N/A for Provider Type when service encounter is a per diem code.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This modality may not be provided prior to an intake.

Exclusions

- Respite care covered under any other federal program (e.g., Aging and Adult Services, Children's Administration)

Other Services:

Other Services:

Supported Employment

Other Services Description

A service provided with State only or local funding. Services will include:

- An assessment of work history, skills, training, education, and personal career goals.
- Information about how employment will affect income and benefits the consumer is receiving because of their disability.
- Preparation skills such as resume development and interview skills.
- Involvement with consumers served in creating and revising individualized job and career development plans that include;
 - Consumer strengths
 - Consumer abilities
 - Consumer preferences
 - Consumer's desired outcomes
- Assistance in locating employment opportunities that is consistent with the consumer's strengths abilities, preferences, and desired outcomes.
- Integrated supported employment, including outreach/job coaching and support in a normalized or integrated work site, if required.

Services are provided by or under the supervision of a mental health professional.

Inclusions

- Assessment of work history, skills, training, education, and personal career goals.
- Information about how employment will affect income and benefits the consumer is receiving because of their disability.
- Preparation skills such as resume development and interview skills.
- Involvement with consumers served in creating and revising individualized job and career development plans that include;
 - Consumer strengths
 - Consumer abilities
 - Consumer preferences
 - Consumer's desired outcomes

- Assistance in locating employment opportunities that is consistent with the consumer's strengths abilities, preferences, and desired outcomes.
- Integrated supported employment, including outreach/job coaching and support in a normalized or integrated work site, if required

Exclusions

- None

Notes

- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".

Other Services:

Telehealth

Other Services Description

A method of delivering a covered service using interactive real-time audio and video telecommunications to an individual at a site other than the site where the provider is located. The service provided must be within the healthcare provider's scope of practice. The individual must be present and participate in the telehealth visit.

Using telehealth when it is medically necessary enables the health care provider and the individual to interact in real-time communication as if they were having a face-to-face session. Telehealth allows individuals, particularly those in medically underserved areas of the state, improved access to essential health care services that may not otherwise be available without traveling long distances.

Provision of Telehealth services must meet all HIPPA regulations regarding PHI

- Office or other outpatient visits (CPT 99201-99205 and 99211-99215) by MD, ARNP, or PA only.
- Psychiatric intake and assessment (CPT code 90791, 90792) See Notes below.
- Individual psychotherapy (CPT codes 90832-90838) See Notes below.

Inclusions

- None

Exclusions

- Email, telephone and facsimile transmissions;
- Home health monitoring;
- Installation or maintenance of any telecommunication devices or systems;
- "Store and forward" telecommunication based services. (Store and forward is the asynchronous transmission of medical information to be reviewed at a later time by the physician or practitioner at the distance site).

Notes

- PLEASE SEE OTHER SECTIONS. THIS SERVICE IS DESIGNATED BY THE USE OF THE "GT" MODIFIER ONLY WITH THE PROCEDURE CODES LISTED ABOVE. STAFF QUALIFICATIONS INCLUDE PROVIDER TYPES 02-ARNP/PA, 03-Psychiatrist/MD for any 99XXX (E/M) service and for 90792, 90833, 90836 and 90838.
- In addition, Clinical Nurse Specialists, Clinical psychologists and clinical social workers may provide telehealth services reporting under CPT codes 90791, 90832, 90834 and 90836 only.
- Encounters provided by Telehealth will be accepted for dates of service 1/1/2009 and later.
- This modality may not be provided prior to an intake.

Other Services:

Testimony for Involuntary Treatment Services

Other Services Description

Court testimony provided about an individual who has been investigated and detained by a Designated Mental Health Professional.

Inclusions

- LRA revocation.
- Service by staff employed by the Mental Health system
- May be provided prior to intake evaluation.

Exclusions

- Staff accompanying an individual to court proceedings that are not related to ITA activity (i.e., providing advocacy) is reported under individual treatment services.
- Emergency room physician / staff not employed by the Community Mental Health Agency/RSN).

Notes

- Report testimony as service encounter with code 99075-H9 .
- Report actual minutes of testimony and not wait time.
- The hearing will continue to be reported as a non-encounter data transaction. Transition to a standard encounter transaction is planned as part of the preparation for Provider One.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA".
- This Service Type may be provided prior to an intake.

Other Services:

Wraparound Facilitation

Other Services Description

Wraparound activities are provided to children, youth, and/or their family a Wraparound process that provides individualized services. The following activities are included in the Wraparound Process:

- Outreach and engagement
- Formation of the child (youth) and family team
- Cross system coordination
- Development and implementation of individualized plans focusing on the strengths and needs of the child and family
- Coordination with medical home
- Coordination with other active treatment components
- Meetings with natural supports (i.e., friends, extended family, neighbors, co-workers, faith communities members schools)

Inclusions

- None

Exclusions

- Child and Family Team Meetings

Notes

- All services provided by Wraparound Pilot Team members are reported with the applicable CPT/HCPCS code and the modifier “HA”. Services that are not pilot are reported without the “HA” modifier.
- Information on this page is intended as overview.
- Refer to the contract and Wraparound Program model for complete program requirements.
- This modality may not be provided prior to an intake.

Special Program Reporting

Special programs are specified community mental health services targeted by designated funding or legal settlement delivered to an identified population of individuals.

General Information and Reporting Instructions for Programs

1. The program description pages provide a brief narrative of the program as well as specific admission criteria and any additional services allowed under the program. The reader is referred to the contract and/or program standards for additional specific information and requirements related to the program.
2. Individuals are identified for participation in programs based on program specific criteria defined in contract.
3. At the time of an individual's entry to a program, the program identification code (2- characters) is reported to DBHR CIS.
4. A referral source may be required by some programs. See specific program descriptions for additional information.
5. Additional services may be available in some programs for enrolled participants. Program descriptions provide detail information for types of services, available codes and modifiers.
6. Criteria for discharge or exit from a program are as defined by the contract. At time of discharge or exit from a program, a program end date is reported for each program participant.

Programs:

Children's Evidence Based Practice – Thurston/Mason RSN

Program Description

Thurston/Mason RSN: This pilot program uses Multisystemic therapy (MST). MST is an intensive family and community based treatment that addresses the multiple determinants of anti-social behavior in juvenile offenders and mental health clients with serious behavioral issues accompanying their mental health diagnosis. The multisystem approach views individuals as being nested within a complex network of interconnected systems that encompass individual, family, and extra-familial (peer, school, neighborhood) factors. Invention may be necessary in any one or a combination of these systems. Intervention strategies, therefore are integrated into a social ecological context and include strategic family therapy, structural family therapy, behavioral parent training, and cognitive behavior therapies. MST is provided using home-based model of services delivery. The usual duration of MST treatment is approximately four months.

Inclusions

- The Contractor must have a specific contract with the DBHR to report services for this program.
- Entry criteria for this program are specified in contract.
- For individuals in this program, the MST code (H2033) is specifically associated with MST services as defined by MST, Inc.

Exclusions

- None

Notes

- Information on this page is to provide an overview for reporting. Refer to the contract for complete program requirements.

Programs:

Evidence Based Practice – Children’s Mental Health

Program Description

This is a new reporting expectation in response to the passage of E2SHB 2536. It is in addition to previous pilot programs in this area.

Activities to be reported using this process are related to services delivered to children that meet the fidelity requirements and definitions documented in specific program manuals and program curriculum. The programs associated with this effort are listed below. Definitions and reference material on these programs can be accessed through the Washington State Institute for Public Policy (WSIPP) website at <http://www.wsipp.wa.gov/>. These programs are evidence and research based practices (E/RBP) that are delivered to the appropriate consumer population under strict guidelines defining the service delivery process. Only services that are delivered with adherence to the researched program model should be reported using this procedure.

The procedure to be used in reporting these services is to include within the 837 Health Encounter submission to the Provider One system the specific code, from the list on the next pages, that describes the E/RBP associated with the service being reported. This code is to be reported in the 2400 loop of the standard 837 transaction format in the field set aside for the Procedure Description. In the 837P transaction this is field SV101 – 7.

If it is necessary to separate these codes from other data in this field or to submit more than a single E/RBP code for an encounter, the code should be separated from other data or codes using a pipe (|) character to delineate the start and end of the specific code.

Inclusions

- The clinical record must support the services as reported

Notes

- Information on this page is to provide an overview for reporting Refer to the specific program manual and/or curriculum for complete program requirements.

Exclusions

- None

Programs:

Jail Services/Community Transition

Program Description

The Jail Services Program provides mental health services for mentally ill offenders while confined in a county or city jail. These services are intended to facilitate access to programs that offer mental health services upon the release from confinement. This includes efforts to expedite applications for new or re-instated Medicaid benefits. Services provided as part of this program are intended to facilitate safe transition into community services. Post release transition services are available for up to 90 days following release from any episode of confinement.

For Jail Services, community transition is the time spent with the individual completing an application for determining Medicaid eligibility while an individual is confined in a correctional facility (i.e., jail).

Inclusions

- This service is program specific and is only available for persons in the Jail Services Program (see separate program description page)
- Criteria for entry into this program are specified in the contract.

Notes

- Community transition is a state funded service. Please refer to your contract regarding specific requirements or services to be reported.
- Information on this page is to provide an overview for reporting. Refer to the contract for complete program requirements.
- Clarification to Provider Type: Physician assistant service encounters are reported under provider type "ARNP/PA"

Exclusions

- None

Programs:

Multi-dimensional Therapeutic Foster Care

Program Description

Multi-dimensional Treatment Foster Care (MTFC) offers community based mental health and voluntary treatment foster care services within an evidence-based practice model. The program provides support and treatment for children with a mental health diagnosis and behavioral disturbances and their families to divert children from more expensive long-term inpatient programs. In addition, the program includes supports, education and intervention with families during the MTFC program to fortify family relationships, help to sustain positive changes and avoid future out of home placements.

Inclusions

- The Contractor must have a specific contract with DBHR to report this program.

Notes

- Information on this page is to provide an overview for reporting. Refer to the contract for complete program requirements.

Exclusions

- None

Programs:

Offender Re-entry Community Safety Program (ORCSP)

Program Description

The Offender Re-entry Community Safety Program (ORCSP) previously known as the Community Integration Assistance Program (CIAP) and Dangerously Mentally Ill Offender (DMIO) Program is designed to improve the process of identification and provision of additional mental health treatment for mentally ill offenders being released from the Department of Corrections (DOC) who pose a threat to public safety.

The CIAP funding supplements other resources and provides additional mental health treatment.

Inclusions

- The RSN or provider must have a ORCSP contract with the DBHR to report services for this program.
- Entry criteria for the program are assignment of an individual to the contractor by DBHR ORCSP Program Administrator.
- Referral source for this program is “Corrections”. Participants are initially identified by Department of Corrections and then screened for acceptance by the Statewide Multi-system Review Committee.
- Additional services allowed for participants in this program include:
 - Case Management (T1016-HW) – Coordination of mental health services, assistance with unfunded medical expenses, obtaining chemical dependency treatment, housing, employment services, education or vocational training, independent living skills, parenting education, anger management services; and other such services as deemed necessary (RCW 71.24470).
 - Sex offender treatment (H2028) – Services to reduce reoffending behavior by teaching skills to identified sexual offenders as an effort to prevent relapse.

Exclusions

- None

Notes

- Information on this page is intended as an overview. Refer to the contract for complete program requirements.

Programs:

WA-PACT

Program Description

The Washington Program for Assertive Community Treatment (WA-PACT) is a client-centered recovery-oriented mental health service delivery model that supports facilitating community living, psychosocial rehabilitation, and recovery for individuals who have the most severe and persistent mental illnesses, have severe symptoms and impairments, and have not benefited from traditional outpatient programs.

WA-PACT services are delivered by a group of multi-disciplinary mental health staff who work as a team and provide the majority of treatment, rehabilitation, and support services individuals need to achieve their goals. The team is directed by a team leader and psychiatric prescriber and a sufficient number of staff from the core mental health disciplines to cover 24 hours per day, seven days a week and provide intensive services based on the individual's need and mutually agreed upon plan. WA-PACT teams are mobile and deliver services in community locations.

Inclusions

- The RSN must have a WA-PACT contract with DBHR to report services for this program.
- Criteria for entry to this program are specified in the DBHR PACT standards.
- Services provided by staff who are not members of a WA-PACT team are reported with the applicable CPT/HCPCS code and the modifier "UD".

Exclusions

- The following services are excluded from the WA-PACT program:
 - Day Support
 - High Intensity Treatment

Notes

- Information on this page is intended as an overview. Refer to the contract and Washington State PACT standards for complete program requirements.
- Services for the WA-PACT program are state funded.
- Exceptions to Provider Types:
 - Peer Specialists who are not certified may serve on a PACT team. Provider type "Certified Peer Counselor" should be used to report all Peer Counselor Services.
 - The PACT Team staffing requires RN. Provider type RN/LPN should be used to report all RN services.
 - Provider type "CD Specialist" may be reported for this program.

Programs:

WA-PACT

Code	CPT/HCPCS Definition	Unit (UN) / Minutes (MJ)	Modifier(s)	Provider Type	Service Criteria
			UD		WA State DBHR defined modifier “UD” to identify delivery of service by WA-PACT team members to individuals enrolled in the WA-PACT program. This modifier may be used in combination with any CPT/HCPCS code available for use with the WA-PACT program.
