Neonate Revenue Code Definitions

The department has defined six levels of care for newborns and correlates each level to the nursery accommodation revenue codes. The billed accommodation revenue code must meet the associated level of care criteria and be supported by documentation in the medical record.

REV COD	-	and be supported by documentation in the medical record. LEVEL OF CARE
0170	General Classification Nursery	Normal Newborn Care Normal healthy newborns with low complexity needs are physiologically stable and are rooming with mom. InterQual Newborn Level I criteria; American Academy of Pediatrics Level I guidelines

Examples of care at this level are: Routine bilirubin and blood glucose monitoring; Initiation of phototherapy < 2 days, drug withdrawal management new or continued from higher level and NAS score 1-8; Isolette/warmer for thermoregulation of neonates > 35 weeks gestation; Diagnostic work-up/surveillance on otherwise stable neonate; and Services rendered to growing premature infant without supplemental oxygen or IV needs.
