A Billing Instruction

About this guide

This guide supersedes all previous *Mental Health Services for Children, Psychiatric and Psychological Services Medicaid Provider Guide* published by the agency.

What has changed?

Reason for Change	Effective Date	Subject	Change
PN 13-70	October 1, 2013	Billing for evaluations used to determine if ABA services are indicated.	Add information to clarify how Agency-designated Autism Centers of Excellence are to bill for evaluations performed to determine if applied behavioral analysis (ABA) services are clinically indicated.
		Coverage table for psychological testing CPT code 96101 with EPA.	Add the words EPA number 870001315 Restricted to agency designated autism Center of Excellence (COE) when used in combination with CPT code 96101 and the UC modifier.
		Table for services that require expedited prior authorization (EPA).	Add EPA number 870001315 restricted to agency-designated autism Centers of Excellence (COE) when used in combination with CPT code 96101 and the UC modifier. EPA code 870001315 in the table for services that require expedited prior authorization (EPA).

Client Eligibility

Who is eligible?

See the agency's [ProviderOne Billing and Resource Guide](#) for instructions on how to verify a client's eligibility.

Note: Refer to the [Scope of Categories of Healthcare Services Table](#) web page for an up-to-date listing of benefit packages.

Are clients enrolled in an agency managed care plan eligible?

[Refer to WAC [182-538-060](#) and [182-538-095](#)]

YES! When verifying eligibility for mental health services using ProviderOne, if the client is enrolled in an agency managed care plan, managed care enrollment will be displayed on the client benefit inquiry screen. All services must be requested directly through the client's Primary Care Provider (PCP). Clients can contact their managed care plan by calling the telephone number provided to them.

All mental health services covered under a managed care plan must be obtained by the client through designated facilities or providers. The managed care plan is responsible for all of the following:

- Payment of covered services.
- Payment of services referred by a provider participating with the plan to an outside provider.

Mental Health Services for Children

In accordance with legislation intended to improve access to mental health services for children who do not meet the Regional Support Network (RSN), [Access to Care Standards \(ACS\)](#), the agency expanded mental health services for eligible clients 18 years of age and younger.

What is covered?

The agency covers all of the following:

- Mental health services for children (clients 18 years of age and younger).
- Psychiatric services by psychiatrists and psychiatric ARNPs for all clients.
- Psychological testing by psychologists for all clients.
- [Applied behavior analysis services](#) (refer to [WSR 13-11-012](#)).

How are mental health services for children administered?

Children's mental health services are available through the following:

- Regional Support Networks (RSNs) which are under contract with the Department of Social and Health Services' Division of Behavioral Health and Recovery for individuals whose condition meets the RSN Access to Care Standards.
- Managed Care Organizations (MCOs) which are under contract with the agency's Division of Health Care Services' Healthy Options program for individuals whose condition does not meet the RSN Access to Care Standards and who are enrolled in and receiving care from an MCO.
- Professionals with individual Core Provider Agreements who will accept payment on a fee-for-service (FFS) basis for individuals not enrolled with an MCO and whose condition does not meet the RSN access to care standards.

Who may provide mental health services for children?

The following list of mental health professionals, as defined in [RCW 71.34.020](#) and licensed by the Department of Health (DOH), may provide and bill the agency fee-for-service for mental health services to children:

- **Psychiatrist:** Licensed Psychiatrist.
- **Psychologist:** Licensed Psychologist.
- **Psychiatric Nurse:** Advanced Registered Nurse Practitioner.
- **Social Worker:** Licensed Independent Clinical Social Worker or Advanced Social Worker.
- **Marriage and Family Therapist:** Licensed Marriage and Family Therapist.
- **Mental Health Professionals:** Licensed Mental Health Counselor.

Mental Health (Counseling) Services Coverage Table

Licensed Mental Health Providers, Psychiatrists, Psychiatric ARNPs, and Psychologists who are approved to provide mental health services for children may bill one psychiatric or psychological service, per day, per client, for up to a maximum of 20 hours per calendar year, which includes the evaluation, for clients 18 years and younger using the following CPT codes:

CPT® Code	Short Description	ICD-9 CM Diagnosis Code	Limitations	Hours
+90785*	Psytx complex interactive	Must be billed with diagnosis codes 290.0-319.		1.0
90791**	Psych diagnostic evaluation		One psychiatric diagnostic interview exam allowed per client, per provider, per calendar year.	1.0
90832	Psytx pt&/family 30 minutes			0.5
90834	Psytx pt&/family 45 minutes			1.0
90837	Psytx pt&/family 60 minutes			1.0
90847	Family psytx w/patient			1.0
90853	Group psychotherapy			1.0

* Use add-on codes with an appropriate CPT code (see current CPT book for guidance).

**The agency pays for only one psychiatric diagnostic interview exam (CPT code 90791 or 90792) per client, per provider, per calendar year. This exam is included in the 20-hour per calendar year maximum unless a significant change in the client’s circumstances requires an additional exam and the provider obtains prior authorization. A psychological evaluation (CPT code 96101) cannot be billed on the same day.

Note: When a psychiatrist or a psychiatric ARNP sees a client for psychiatric care and only drug monitoring is necessary, the practitioner can bill only for drug monitoring, using HCPCS code M0064, or bill only an evaluation and management (E&M) visit for that date of service.

Alternatively, when a psychiatrist or a psychiatric ARNP provides psychotherapy **and** drug monitoring, the practitioner may bill an E&M visit and a qualifying psychotherapy service on that date of service.

In accordance with the National Correct Coding Initiative (NCCI), drug monitoring (M0064) with an E&M or psychotherapy service cannot be billed on the same day of service, by the same provider. For additional information see [NCCI](#).

Note: This benefit is for children who do not meet the RSN's ACS. If it is medically necessary, therapists need to transition care of the child to the RSN, as appropriate to the child's condition.

What is required for providers to bill for mental health services?

To be eligible to provide and bill the agency fee-for-service for mental health services, mental health professionals must meet all of the following requirements:

- Be licensed by Department of Health.
- Be in good standing without restriction.
- Have a minimum of two years' experience in the diagnosis and treatment of children, youth, and their families. The experience may be a combination of pre and post licensure and may include supervised internships completed as part of a master's degree curriculum. The equivalent of one year of full-time experience must be under the supervision of a mental health professional trained in child and family mental health.

Note: A licensed psychiatrist may provide services and bill the agency without meeting this minimum experience requirement.

How do I enroll to provide mental health services to children?

To enroll you must do all of the following:

- Obtain a national provider identifier (NPI) from the federal government.
- Complete a core provider agreement.
- Write and sign a letter attesting to a minimum of two years' experience in providing mental health services to children, youth, and their families as described in "[What is required for providers to bill for mental health services?](#)" (the letter does not need to be notarized). If you are already an enrolled provider, you must send in this additional information to bill for these services.
- **Send all of the above to Provider Enrollment. For more information, contact Provider Enrollment (see the [Resources Available](#)).**

Note: For psychologists, if enrolling to provide mental health counseling to children, the agency requires a letter of attestation demonstrating two years' of experience working with children. If providing only psychological testing, a letter is not required.

What does the agency cover?

The agency covers medically necessary outpatient psychotherapy, including outpatient therapy services and family therapy visits through Healthy Options Managed Care **or** fee-for-service for:

- Clients 18 years of age and younger.
- Up to a maximum of 20 hours per client, per calendar year.

Refer to the coverage table in this provider guide for a list of CPT codes the agency covers.

How many hours will the agency pay for?

The agency will pay providers for one psychiatric or psychological procedure per day, up to a maximum of 20 hours, which includes the evaluation, per eligible client, per calendar year for the mental health services listed within this guide. The maximum of 20 hours apply whether one provider or multiple providers deliver services. Half-hour procedure codes count as 30 minutes each toward the program limits. All other procedure codes (including 45 minute or per diem codes) count as 60 minutes each toward the program limits.

Note: It is the provider's responsibility **not** to charge for services beyond the client's maximum benefit.

Note: For more information, including verification of the number of hours already paid by the agency for a client, providers can do either of the following:

- Review the Client Benefit Limitations section of the [ProviderOne Billing and Resource Guide](#) for step-by-step instructions for using the ProviderOne system to look up the hours paid.
- Send an email request to the agency from the agency's [Contact Us!](#) web page with the "Selected Topic" of "Service Limits." The agency prioritizes these requests and responds to the provider within two hours on the day the request is submitted.

What do I do if the client has exhausted the maximum benefit?

You can request a limitation extension. See the [Prior Authorization](#).

- **Fee-for-Service**
See [What happens if a fee-for-service client has exhausted the maximum benefit?](#)
- **Healthy options managed care**
 - ✓ For additional Healthy Options Managed Care outpatient mental health services needed for clients who have exhausted their 20-hour-per-calendar-year benefit limit, the provider must request and obtain a limitation extension from the client's

Mental Health Services for Children, Psychiatric and Psychological Services

- managed care organization (MCO), following the MCO-identified requirements and process.
- ✓ The MCO ensure the provision of medically necessary health care services to individuals who are Medicaid- or CHIP- eligible, enrolled in the Healthy Options program, and assigned to the MCO.
 - ✓ Health care services covered through the MCOs include a mental health benefit. These mental health services are available only to individuals who do not meet the RSN Access to Care Standards.

Visit the [Healthy Options](#) web page to obtain more information.

What services do the regional support networks (RSN) cover?

RSN crisis services

Crisis mental health services are provided upon request, 24-hours a day, 7 days a week and are available to anyone who needs them regardless of ability to pay. All RSNs publish a toll free crisis number in local phone books.

To find telephone numbers for crisis intervention services, see the [Regional Support Network \(RSN\) Services Information](#) web page.

RSN community psychiatric inpatient services

RSNs authorize and pay for all medically necessary community psychiatric inpatient services ([WAC 182-550-2600](#)). To refer a client for community psychiatric inpatient services, contact your local RSN.

To find the appropriate RSN and contact information, see the [Regional Support Network \(RSN\) Services Map](#) web page.

RSN access to care standards (ACS)

In addition to providing crisis intervention services and community inpatient services, RSNs also manage the public mental health services that are delivered to individuals who are Medicaid- or CHIP-eligible and who meet the ACS as determined by:

- Division of Behavioral Health and Recovery (DBHR).
- Licensed and RSN contracted community mental health agencies.

Note: If you are treating or evaluating a child or youth who appears to meet the ACS, contact the local RSN to make a referral for an intake evaluation.

To meet the ACS for children and youth, the following five conditions **must** be true:

1. The child or youth is determined to have a mental illness that is listed as a covered diagnosis found in the ACS under “Covered Childhood Disorders”.
2. The impaired level of functioning and corresponding need(s) identified must be as a result of mental illness.
3. The intervention is considered reasonably necessary to improve, stabilize or prevent deterioration of functioning resulting from the presence of a mental illness.
4. The child or youth is expected to benefit from the intervention.
5. The unmet need(s) of the child or youth cannot be appropriately met by any other formal or informal system or support.

Fee Schedule

You may view the agency’s Mental Health Services for Children or the Psychology Fee Schedule at [Mental Health Services for Children](#), or [Psychology](#).

Psychiatric Services by Psychiatrists and Psychiatric ARNPs

[Refer to WAC [182-531-1400](#)]

Agency-enrolled providers contracted with, or employed by, Community Mental Health Agencies must not bill fee-for-service (FFS) **and** report a Regional Support Network (RSN) encounter on the same service date when providing services to clients eligible for RSN services that meet Access to Care Standards (ACS). Reportable services for Community Mental Health agency clients meeting ACS are authorized and purchased separately under the RSN Pre-paid Inpatient Health Plan.

What are the general guidelines?

- The agency pays a maximum of one psychiatric service procedure code per client, per day.
- Psychiatrists must bill using one procedure code for the total time spent on direct patient care during each visit. Billable procedures are listed below:
 - ✓ Psychotherapy (CPT codes 90832-90837 and +90838).
 - ✓ Family psychotherapy (CPT code 90847).
 - ✓ Group psychotherapy (CPT codes 90853).
 - ✓ Electroconvulsive therapy (CPT codes 90870).
 - ✓ Drug monitoring (HCPCS code M0064 – Not allowed in POS 21).

Claims for inpatient rounds must be charged using one of the above procedure codes.

- The agency pays psychiatrists for the CPT codes when billed with ICD-9CM Diagnosis Codes 290.0-319.
- **For each date of service billed, the diagnosis on the detail line must indicate the specific reason for the visit.**
- Psychiatric sleep therapy is not covered.

Note: Half hour procedure codes count as 30 minutes each toward the program limits. All other procedure codes (including 45 minute or per diem codes) count as 60 minutes each toward the program limits.

Covered services for psychiatrists using ICD-9-CM diagnosis codes 290.0-319

Note: If billing for psychotherapy or other psychiatric services, refer to the current CPT book for appropriate coding.

Inpatient hospital

Covered Procedure	CPT Codes
Initial Hospital Care	99221-99223
Subsequent Hospital Care	99231-99233

Psychiatric Diagnostic Interview	90791, 90792

Noncovered services for psychiatrists using ICD-9-CM diagnosis codes 290.0-319

The agency does not cover Stand-by services (99360) for psychiatrists using ICD-9-CM diagnosis codes 290.0-319:

What are the limitations for inpatient psychiatric services?

- Admissions for acute, community psychiatric inpatient care require prior authorization (PA) from the designated Division of Behavioral Health and Recovery (DBHR) designees which are referred to as the Regional Support Networks (RSNs). The hospital obtains the PA from the DBHR designee. See the list of RSNs at [DBHR's RSN](#) website.
- The agency does not cover physician services for clients admitted for voluntary psychiatric admissions on the psychiatric indigent inpatient program who are covered under the "MIP-EMER No out-of-state care" benefit package.
- Psychiatric diagnostic interview examinations (CPT codes 90791 and 90792) are limited to one in a calendar year per provider. PA is required if a second examination is needed because of a change in a client's condition or if the client has a change in legal status (i.e., voluntary to involuntary or involuntary to voluntary).
- HCPCS code M0064 is not allowed in POS 21.

What are the limitations for outpatient psychiatric services?

Outpatient psychiatric services are not allowed for clients on fee-for-service Medical Care Services program, except for drug monitoring (HCPCS code M0064).

What services may be provided by psychiatrists?

For clients 18 years of age and younger

Psychiatrists may bill one psychiatric service per day, up to a maximum of 20 hours, which include the evaluation, per client, per calendar year for clients 18 years and younger using the following CPT codes:

CPT Code	Short Description	ICD-9 CM Diagnosis Code	Limitations
+90785*	Psytx complex interactive	Must be billed with these diagnosis codes: 290.0-319.	
90791*	Psych diagnostic evaluation		One psychiatric diagnostic interview exam allowed per client, per provider, per calendar year.
90792**	Psych diag eval w/med srvcs		One psychiatric diagnostic interview exam allowed per client, per provider, per calendar year.
90832	Psytx pt&/family 30 minutes		
+90833*	Psytx pt&/fam w/e&m 30 min		
90834	Psytx pt&/family 45 minutes		
+90836*	Psytx pt&/fam w/e&m 45 min		
90837	Psytx pt&/family 60 minutes		
+90838*	Psytx pt&/fam w/e&m 60 min		
90845	Psychoanalysis		
90847	Family psytx w/patient		
90853	Group psychotherapy		
90865	Narcosynthesis		
90870	Electroconvulsive therapy		

*Use add-on codes with an appropriate CPT code (see the current CPT book for guidance).

**The agency pays for only one psychiatric diagnostic interview exam (90791 or 90792) per client, per provider, per calendar year. This exam is included in the 20-hour-per-calendar-year maximum

Mental Health Services for Children, Psychiatric and Psychological Services

unless a significant change in the client's circumstances requires an additional exam and the provider obtains prior authorization for the additional exam.

Note: When a psychiatrist or a psychiatric ARNP sees a client for psychiatric care and only drug monitoring is necessary, the practitioner can bill only for drug monitoring, using HCPCS code M0064, **or** bill only an evaluation and management (E&M) visit for that date of service.

Alternatively, when a psychiatrist or a psychiatric ARNP provides psychotherapy **and** drug monitoring, the practitioner may bill an E&M visit **and** a qualifying psychotherapy service on that date of service.

In accordance about the National Correct Coding Initiative (NCCI), drug monitoring (M0064) with an E&M or psychotherapy service cannot be billed on the same day of service, by the same provider. For additional information, see [NCCI](#).

Psychiatrists can bill other procedures listed under [Other Psychiatric Services](#); some of which are not subject to the 20-hour visit limitation.

Note: Drug monitoring is not subject to the 20-hour limitation. To bill for drug monitoring, the provider must follow the [drug monitoring policy](#) outlined in this provider guide.

For clients 19 years of age and older

The agency limits outpatient psychotherapy and electroconvulsive therapy in any combination for clients 19 years of age and older to one hour per day, per client, up to a total of 12 hours per calendar year. This includes family or group psychotherapy. The following codes are included in the allowed 12 hours:

CPT Code	Brief Description
+90785*	Psytx complex interactive
90832	Psytx pt&/family 30 minutes
+90833*	Psytx pt&/fam w/e&m 30 min
90834	Psytx pt&/family 45 minutes
+90836*	Psytx pt&/fam w/e&m 45 min
90837	Psytx pt&/family 60 minutes
+90838*	Psytx pt&/fam w/e&m 60 min
90845	Psychoanalysis
90847	Family psytx w/patient
90853	Group psychotherapy

* Use add-on codes with an appropriate CPT code (see the current CPT book for guidance).

Note: Drug monitoring is not subject to the 12-hour limitation. To bill for drug monitoring, the provider must follow the [drug monitoring policy](#) outlined in this provider guide.

What services provided by psychiatric advanced registered nurse practitioners (ARNPs)?

For clients 18 years of age and younger

Psychiatric ARNPs may bill one psychiatric service per day, up to 20 hours (including the diagnostic interview exam), per client, per calendar year, using the following CPT codes:

PSYCHIATRIC ARNP CODE TABLE 1

CPT Code	Short Description	ICD-9 CM Diagnosis Code	Limitations	Hours
+90785*	Psytx complex interactive	Must be billed with these diagnosis codes: 290.0-319.		1.0
90791**	Psych diagnostic evaluation		One psychiatric diagnostic interview exam allowed per client, per provider, per calendar year.	1.0
90792**	Psych diag eval w/med srvc		One psychiatric diagnostic interview exam allowed per client, per provider, per calendar year.	1.0
90832	Psytx pt&/family 30 minutes			0.5
+90833*	Psytx pt&/fam w/e&m 30 min			0.5
90834	Psytx pt&/family 45 minutes			1.0
+90836*	Psytx pt&/fam w/e&m 45 min			1.0
90837	Psytx pt&/family 60 minutes			1.0
+90838*	Psytx pt&/fam w/e&m 60 min			1.0
90853	Group psychotherapy			

Mental Health Services for Children, Psychiatric and Psychological Services

* Use add-on codes with an appropriate CPT code (see the current CPT book for guidance).

****The agency pays for only one psychiatric diagnostic interview exam (90791 or 90792) per client, per provider, per calendar year. This exam is included in the 20-hour limitation unless a significant change in the client's circumstances requires an additional exam and the provider obtains prior authorization.**

Note: When a psychiatrist or a psychiatric ARNP sees a client for psychiatric care and only drug monitoring is necessary, the practitioner can bill only for drug monitoring, using HCPCS code M0064, **or** bill only an evaluation and management (E&M) visit for that date of service.

Alternatively, when a psychiatrist or a psychiatric ARNP provides psychotherapy **and** drug monitoring, the practitioner may bill an E&M visit **and** a qualifying psychotherapy service on that date of service.

In accordance about the National Correct Coding Initiative (NCCI), drug monitoring (M0064) with an E&M or psychotherapy service cannot be billed on the same day of service, by the same provider. For additional information see [NCCI](#).

Note: Drug monitoring is not subject to the 20-hour limitation. To bill for drug monitoring, the provider must follow the [drug monitoring policy](#) outlined in this guide.

When a psychiatric ARNP is performing both psychotherapy services and Evaluation & Management (E&M) services during the same visit, use the appropriate psychiatric CPT code that includes the E&M service (e.g., CPT code +90833).

What is the Partnership Access Line (PAL)?

PAL is a telephone-based child mental health consultation system for Washington State. PAL employs child psychiatrists, child psychologists, and social workers affiliated with Seattle Children's Hospital to deliver its consultation services.

The PAL team is available to any primary care provider throughout Washington State. Washington's primary care providers are encouraged to call the PAL toll free number 866-599-7257 as often as needed. PAL provides rapid consultation responses during business hours (Monday-Friday, 8:00 a.m. to 5:00 p.m.) for any type of children's mental health issue that arises with any child. See also [Primary Care Principles for Child Mental Health](#), by Robert Hilt, MD, Program Director, Partnership Access Line, Seattle Children's Hospital.

For clients of any age

Psychiatric ARNPs **who have not applied to provide expanded mental health services or who do not meet the requirements in [Mental Health Services for Children](#)** may bill for one psychiatric diagnostic interview examination once per calendar year, per client, in addition to only those services in the following table:

PSYCHIATRIC ARNP CODE TABLE 2				
Code	Covered Procedure	ICD-9 CM Diagnosis Code	Limitations	
+90785*	Psytx complex interactive	Must be billed with these diagnosis codes: 290.0-319.		
90791, 90792	Psychiatric Diagnostic Interview			
99201-99215	Office visits			
99221-99223	Initial Hospital Care			
99231-99233	Subsequent Hospital Care			
99234-99239	Observation Hospital			
M0064	Drug Monitoring			Not covered in POS 21.
99367, 99441-99443	Case Management Services <ul style="list-style-type: none"> • Team Conferences • Telephone Calls 			

*** Use add-on codes with an appropriate CPT code (see the current CPT book for guidance).**

The agency does not pay psychiatric ARNPs for psychotherapy for adults 19 years of age and older. The agency pays one psychiatric diagnostic interview examination 90791 or 90792 once a calendar year. Office visits 99201 – 99215 cannot be billed for psychotherapy.

Drug monitoring (HCPCS code M0064)

Drug monitoring refers to a brief office visit for the sole purpose of monitoring or changing drug prescriptions. Drug monitoring, using HCPCS code M0064, is used in the treatment of mental psychoneurotic and personality disorders. It represents a skilled aspect of care for a client who has been determined to have a mental illness. The focus of a drug monitoring visit is the use of medication for relief of the client's signs and symptoms of mental illness. When the client continues to experience signs and symptoms of mental illness that require discussion beyond minimal psychotherapy, the focus of the service is broader and is considered psychotherapy rather than drug monitoring.

Drug Monitoring (HCPCS code M0064):

- May be billed when prescribing the medication(s) and when reviewing the effects of the prescribed medication(s).
- Is intended for use for clients who are being managed primarily by psychotropic medications.
- Must be provided during a face-to-face visit with the client, unless it is part of a qualified telehealth visit.
- HCPCS code M0064 is not allowed in POS 21.

Documentation requirements

The medical record must be clear, concise, and complete. A check-off list by itself is not accepted as complete documentation. The treating provider must document in the medical record that drug monitoring was reasonable and medically necessary. The claim and the medical record must list the diagnosis that most accurately describes the condition that necessitated drug monitoring.

Documentation of medical necessity for drug monitoring must address **all of the following** information in the client's medical record in legible format:

- Date and time.
- Diagnosis – update at least annually.
- Interim medication history.
- Current symptoms and problems, including any physical symptoms.
- Problems, reactions, and side effects, if any, to medications and/or ECT.
- Current mental status exam.
- Any medication modifications.
- The reasons for medication adjustments/changes or continuation.
- Desired therapeutic drug levels, if applicable.

- Current laboratory values, if applicable.
- Anticipated physical and behavioral outcome(s).

Involuntary treatment act (ITA)

For persons 13 years of age and older that are detained under the provisions of the Involuntary Treatment Act (ITA) as defined by chapters [71.05](#) and [71.34](#) RCW, Division of Behavioral Health and Recovery (DBHR) designees authorize payment for services provided to clients receiving medical assistance. When the client is in the process of applying for medical assistance, authorization for payment by the DBHR designee is subject to eligibility determination.

The agency pays for services provided to clients detained under ITA law when the client either refuses to apply for, or does not qualify for any medical assistance program. Services provided to these clients are paid for through the use of state funds allocated to DBHR.

Unlike the psychiatric indigent inpatient program, under ITA, the agency *does* cover the ancillary charges for physicians, transportation (including ambulance), or other costs associated with an involuntary hospital inpatient psychiatric hospitalization.

For all clients involuntarily detained under Chapter 71.34 and 71.05 RCW, physicians and/or psychiatric Advanced Registered Nursing Practitioners (ARNPs) may bill the agency for psychiatric services under the Involuntary Treatment Act according to the following guidelines:

- Each involuntarily committed person must be examined and evaluated by a licensed physician and/or psychiatric ARNP within 24 hours of admission or payment will be denied. This evaluation may be used for both treatment purposes and court testimony. Bill admissions through the emergency room using either CPT code 90791 or 90792.
- A day's rounds, along with any one of the following, constitute direct client care:
 - ✓ Narcosynthesis
 - ✓ Brief (up to one hour) individual psychotherapy
 - ✓ Multiple/family group therapy
 - ✓ Group therapy
 - ✓ Electroconvulsive therapy
- A court may request another physician or psychiatric ARNP evaluation.

Mental Health Services for Children, Psychiatric and Psychological Services

- The agency pays for physician and/or psychiatric advanced registered nursing practitioner evaluations and consultations to the court regarding the need for continued involuntary psychiatric hospitalization of a client. Documentation of the time required for actual testimony must be maintained in the client's medical record. Only one court testimony is paid per hearing. Bill using the medical testimony code (CPT code 99075) for time spent doing court testimony.
- Psychologist services are covered **only** for provision of a psychological evaluation of detained clients.
- **Out-of-state hospitals** must obtain authorization from the appropriate DBHR designee for all Medicaid clients. Neither the agency nor the DBHR pays for inpatient services for non-Medicaid clients if provided outside of the State of Washington. An exception is for clients who are qualified for the fee-for-service Medical Care Services Program. For these clients, the agency and the DBHR pay for inpatient psychiatric services provided in bordering cities and critical access border hospitals. All claims for admissions to **out-of-state hospitals** are paid as **voluntary** legal status as the ITA applies only within the borders of Washington State.
- Additional costs for court testimony are paid from county ITA administrative funds.

Psychological Testing by Psychologists and Neuropsychologists

What is covered?

The agency pays licensed psychologists for all of the following:

- Psychological evaluations.
- Developmental testing.
- Neuropsychological testing.
- [Mental Health Services for Children](#).

The agency will *not* reimburse for either of the following:

- Psychotherapy provided by a psychologist unless the psychologist is approved to provide mental health services for children.
- Continuing care provided by psychologist or by staff employed by the psychologist for clients 19 years of age and older or for psychologists who are not approved to provide mental health services for children.

Psychological evaluation

[Refer to WAC [388-865-0610](#)]

- A psychological evaluation must include a complete diagnostic history, examination, and assessment. The testing of cognitive processes, visual motor responses, and abstract abilities is accomplished by the combination of several types of testing procedures.
- To receive reimbursement for the evaluation, the psychologist must keep a report in the client's file that contains all of the components of a psychological evaluation including test results and interpretation of results.
- Use CPT code 96101 when billing for psychological evaluations.
- Up to two (2) units of CPT code 96101 are allowed **without prior authorization** (PA)

per client, per lifetime.

- If additional testing is necessary, psychologists must request additional units of CPT code 96101 through the PA process.

Attention: Agency-designated Autism Centers of Excellence

To bill for any psychological or neuropsychological testing and developmental screening required as part of evaluations performed to diagnose autism and to determine if applied behavior analysis (ABA) services are clinically indicated under the agency's protocol with PA, add the UC modifier and EPA number 870001315 to the CPT codes at the line level on the professional claim.

Psychological evaluations for clients admitted on an involuntary admission

The agency covers without PA, psychological evaluations (96101) for clients admitted to a psychiatric hospital as an involuntary admission in accordance with the Involuntary Treatment Act (ITA), Chapters 71.05 and 71.34.

When billing for ITA, do both of the following:

- Type SCI=I in field 19 on the CMS-1500 claim form or enter SCI=I in the claim note field of the 837P professional E-claim.
- Provide documentation that the client was admitted to an inpatient facility.

The agency pays for up to 2 units of 96101 in a 90-day period.

Developmental testing

The agency reimburses for developmental testing (CPT codes 96110 and 96111) only when both of the following are true:

- The provider is a psychologist or neuropsychologist.
- The provider has obtained written/fax prior authorization from the agency.

Coverage table for psychological testing

CPT Code	Modifier	Short Description	EPA/PA	Policy/Comments
<p>Note: Due to its licensing agreement with the American Medical Association (AMA), the agency publishes only the official, short CPT code descriptions. To view the entire descriptions, refer to the current CPT book.</p>				
96101		Psycho testing by psych/phys	PA	Limit 2 units per lifetime for clients 21 years of age and older.
96101	UC	Psycho testing by psych/phys	EPA #: 870001315	EPA number 870001315 Restricted to agency designated autism Center of Excellence (COE) when used in combination with CPT code 96101 and the UC modifier. Limit 7 units per lifetime for clients 20 years of age and younger with additional requirements (see EPA).
96102		Psycho testing by technician		Not covered
96103		Psycho testing admin by comp		Not covered
96105		Assessment of aphasia		Not covered
96110		Developmental test, lim	PA	
96111		Developmental test, extend	PA	
96116		Neurobehavioral status exam	PA	
96118		Neuropsych tst by psych/phys	EPA #: 870001207	
96119		Neuropsych testing by tech	EPA #: 870001207	
96120		Neuropsych tst admin w/comp		Not covered

Neuropsychological testing

The agency reimburses for neuropsychological testing (CPT codes 96118 and 96119) only when the provider meets the first two requirements OR the client meets the third requirement:

- The provider is currently licensed in Washington State to practice psychology and/or clinical neuropsychology.

Mental Health Services for Children, Psychiatric and Psychological Services

- The provider has obtained written/faxed prior authorization from the agency.
- The client meets the expedited prior authorization (EPA). (See [Expedited prior authorization](#)).

A prior authorization (PA) request for neuropsychological testing of **children** requires a detailed review of the individualized education plan (IEP) outlining all of the following:

- The specific clinical issues in the IEP that have not been sufficiently addressed.
- The aspects of the child's rehabilitation that are not improving.
- Specific additional benefits that psychological testing will provide the client, describing what the IEP is already addressing, and how the proposed testing will improve the treatment plan.
- Other psychological testing that has been done.
- Relevant consultations from psychiatrists, neurologists, developmental pediatricians, etc.

A PA request for neuropsychological testing of **adults and children, who are not in school**, requires all of the following information:

- The client's current diagnoses.
- If available, a copy of the reports produced by the testing for the agency to review.
- Psychological testing that has been done in the past:
 - ✓ Documentation of the provider's review of reports produced by the testing.
 - ✓ Documentation of the provider's review of the results of the previous testing(s).
- An explanation detailing the essential medical knowledge that is expected to be gained from psychological testing.
- Specific details that the results of psychological testing will make in the day-to-day care of this client.

Note: The agency no longer requires providers who bill for neuropsychological testing to be board-certified; however, upon request, providers must be able to furnish credentials that demonstrate their expertise.

Mental Health Services for Children, Psychiatric and Psychological Services

Mental Health Services for Children, Psychiatric and Psychological Services

Neuropsychological Testing	
Note: If the client does not meet the expedited prior authorization (EPA) criteria listed in this guide and this table, the agency requires prior authorization (PA) for the testing. In addition, the agency requires providers to request PA for testing that exceed 15 hours per calendar year.	
Services(s)	Neuropsychological testing of adults, 16 years of age and older, in an outpatient or inpatient setting.
Providers	<p>The agency pays only “qualified” providers for administering neuropsychological testing to eligible agency clients. To be “qualified,” providers must be both of the following:</p> <ul style="list-style-type: none"> • Currently licensed in Washington State to practice psychology and/or clinical neuropsychology. • One of the following: <ul style="list-style-type: none"> ✓ Board certified in clinical neuropsychology by the American Board of Clinical Neuropsychology. ✓ Have adequate education, training, and experience as defined by having completed all of the following: <ul style="list-style-type: none"> ➤ A doctoral degree in psychology from an accredited university training program. ➤ An internship, or its equivalent, in a clinically relevant area of professional psychology. ➤ The equivalent of two full-time years of experience and specialized training, at least one of which is at the post-doctoral level, in the study and practice of clinical neuropsychology and related neurosciences. These two years must include supervision by a clinical neuropsychologist.
Billing Codes	96118 and 96119 may be billed with EPA # 870001207 if all the criteria in this section are met.

Neuropsychological Testing	
Billing and Payment Limits	<p>The next section describes four groups of criteria that apply to billing in different circumstances.</p> <p>To assist with rehabilitation efforts and manage outcomes in inpatient physical medicine and rehabilitation (PM&R) patients, criteria in Group 1 must be met.</p> <p>For outpatient or non-PM&R inpatient settings, criteria in any one of groups one through four must be met.</p> <p>Group 1</p> <p>All of the following must be met:</p> <ul style="list-style-type: none"> • The patient to be evaluated has, or is suspected to have, an acquired injury to the brain as a result of traumatic brain injury, stroke, multiple sclerosis, aneurysm, anoxia, hypoxia, dementia, neoplasm, or chemotherapy. • The patient is 16 years of age or older. • The patient was functioning normally (was able to attend school, work competitively, or live independently) prior to the brain disorder. • The patient has potential to return to important areas of role functioning (e.g., work, school, or independent living). • Testing will be used only in conjunction with functionally based rehabilitation, not “cognitive” rehabilitation. <p>Group 2</p> <p>The client is suspected to have a diagnosis of dementia or multiple sclerosis based on one of the following:</p> <ul style="list-style-type: none"> • Client or family complaints • A head CT (computed tomography scan) • A mental status examination or other medical examination <p>This suspected diagnosis is not confirmed or able to be differentiated from the following:</p> <ul style="list-style-type: none"> • Normal aging • Mild concussion • Depression

Neuropsychological Testing	
	<ul style="list-style-type: none">• Focal neurological impairments <p>A firm diagnosis would change the medical treatment plan, clinical management, or aid important client or family decisions.</p> <p>Group 3</p> <p>The client is undergoing brain surgery for epilepsy, a tumor, or Parkinson’s disease, and neuropsychological testing may help with either of the following:</p> <ul style="list-style-type: none">• Guide the surgeon in the goal of sparing healthy brain tissue and sites that are critical to some major function such as language.• Identify poor candidates for neurological surgery due to dementia (e.g., in cases where deep brain stimulation implants are being considered to manage intractable tumors). <p>Group 4</p> <div style="border: 1px solid black; background-color: #add8e6; padding: 5px;"><p>The client is being considered for surgery (e.g., a lung transplant), and neuropsychological testing may help identify if the client is a poor candidate for general surgery (e.g., in cases where cognitive impairment from chronic hypoxia or other risk factors make it unlikely that the person can accurately follow a rigorous post-transplant protocol to prevent organ rejection).</p></div>

Prior Authorization

What is prior authorization?

Prior authorization (PA) is the agency or the agency's designee's approval for certain medical services, equipment, or supplies, before the services are provided to clients, as a precondition for provider reimbursement. **Expedited prior authorization (EPA) and limitation extensions (LEs) are forms of prior authorization.**

Does expedited prior authorization (EPA) apply to out-of-state care?

Expedited prior authorization does not apply to out-of-state care. Out-of-state care is not covered. Out-of-state hospital admissions are **not** covered unless they are emergency admissions.

What is the EPA process?

The agency or the agency's designee's EPA process is designed to eliminate the need for written/fax authorization. The intent is to establish authorization criteria and identify these criteria with specific codes, enabling the provider to create an "EPA" number when appropriate.

How is an EPA number created?

The first six digits of the EPA number must be **870000**. The last 3 digits must be the code number of the criteria set that indicates what procedure you are billing for and what information qualifies for use of the EPA criteria. Enter the EPA number on the billing form in the authorization number field when billing a paper claim form or when billing electronically. With HIPAA 5010 implementation, multiple authorization (prior/expedited) numbers can be billed on a claim. When billing **multiple** EPA numbers, you must list the 9-digit EPA numbers in **field 19** of the paper claim form **exactly** as follows (**not all required fields are represented in the example**):

19. Line 1: 870000725/ Line 2: 870000726

Mental Health Services for Children, Psychiatric and Psychological Services

If you are billing only one EPA number on a paper CMS-1500 claim form, list the 9-digit EPA number in field 23 of the claim form. If billing an electronic claim or DDE, add the EPA number at claim level.

If you are billing multiple authorization (prior/expedited) numbers on an electronic batch claim (837P) or DDE professional claim, HIPAA 5010 only allows one authorization (prior/expedited) at the claim level. For correct process of the claim, enter the authorization (prior/expedited) for the service to the appropriate service **line** of the claim.

Note: When the client's situation does not meet published criteria, written/fax prior authorization is necessary.

What are the EPA guidelines?

Diagnoses

Only information obtained from the hospital or outpatient chart may be used to meet conditions for EPA. Claims submitted without the appropriate diagnosis, procedure code, or service as indicated by the last three digits of the EPA number will be denied.

What documentation is required when using EPA?

The billing provider must document how EPA criteria were met in the client's file, and make this information available to the agency or the agency's designee upon request.

Which services require EPA?

Services requiring EPA are noted in this guide as follows:

EPA Code	Service Name	CPT/HCPCS/ Modifier Code	Criteria
870001207	Neuropsychological Testing	CPT: 96118 and 96119	Refer to Neurological Testing
870001315	Psychological Testing	CPT: 96101 UC	EPA number 870001315 restricted to agency-designated autism Centers of Excellence (COE) when used in combination with CPT code 96101 and the UC modifier. Up to 7 hours for clients 20 years of age and younger for whom psychological testing is required to determine a definitive diagnosis for autism spectrum disorder and service is provided at an agency-designated Center of Excellence. Providers must bill with a UC modifier.

What is a limitation extension?

A limitation extension (LE) is the agency or the agency’s designee’s authorization for the provider to furnish more units of service than are allowed in Washington Administrative Code (WAC) and the agency’s Medicaid provider guide. The provider must provide justification that the additional units of service are medically necessary.

Limitation extensions do not override the client's eligibility or program limitations. Not all categories of eligibility can receive all services. **For Example:** Kidney dialysis is not covered under the Family Planning Only Program.

How do I obtain a LE?

Obtain an LE by using the Written/Fax Authorization process on the following pages.

What happens if a fee-for-service client has exhausted the maximum benefit?

If a fee-for-service client needs additional visits after they have used their 20-hour-per-calendar-year benefit, the provider must determine if the client meets the regional support network (RSN) Access to Care Standards (ACS) by doing one of the following:

- Referring the client to the RSN
- Reviewing the ACS and evaluating the client against those standards

If the client meets the ACS, the provider must transition the client to an RSN-contracted community mental health provider for continued treatment. If needed, the provider may request up to three transition visits.

If the RSN determines the client does not meet the ACS, the provider may use the limitation extension process to request additional visits from the agency.

Limitation extensions must be requested according to the requirements found in WAC [182-501-0169](#) including:

- Justification of medical necessity
- Description of services provided, and outcomes obtained in treatment to date
- Expected outcome of extended services
- A copy of the RSN assessment or documentation of provider review indicating the client would not likely meet the ACS

Note: For the agency to authorize payment for an LE, a completed Fax/Written Basic Information form, HCA [13-756](#) must be submitted to the agency.

What is written/fax authorization?

Written or fax authorization is the paper authorization process providers must use when requesting an LE.

How do I obtain written/fax authorization?

Send or fax your request to the agency's Authorization Services Office (see [Resources Available](#)).

Note: See the agency's [ProviderOne Billing and Resource Guide](#) for more information on requesting authorization.

Billing and Claim Forms

What are the general billing requirements?

Providers must follow the agency's [ProviderOne Billing and Resource Guide](#). These billing requirements include:

- What time limits exist for submitting and resubmitting claims and adjustments.
- When providers may bill a client.
- How to bill for services provided to primary care case management (PCCM) clients.
- How to bill for clients eligible for both Medicare and Medicaid.
- How to handle third-party liability claims.
- What standards to use for record keeping.

How is the CMS-1500 claim form completed?

Note: Refer to the agency [ProviderOne Billing and Resource Guide](#) for general instructions on completing the CMS-1500 claim form.
