

Washington Apple Health (Medicaid)

Planned Home Births & Births in Birth Centers Billing Guide

July 1, 2025

Disclaimer

Every effort has been made to ensure this guide's accuracy. If an actual or apparent conflict arises between this document and a governing statute or Health Care Authority (HCA) rule, the governing statute or HCA rule applies.

Billing guides are updated on a regular basis. Due to the nature of content change on the internet, we do not fix broken links in past guides. If you find a broken link, please check the most recent version of the guide. If the broken link is in the most recent guide, please notify us at askmedicaid@hca.wa.gov.

About this guide¹

This publication takes effect **July 1, 2025**, and supersedes earlier billing guides to this program.

HCA is committed to providing equal access to our services. If you need an accommodation or require documents in another format, please call 1-800-562-3022. People who have hearing or speech disabilities, please call 711 for relay services.

Washington Apple Health means the public health insurance programs for eligible Washington residents. Washington Apple Health is the name used in Washington State for Medicaid, the children's health insurance program (CHIP), and state-only funded health care programs. Washington Apple Health is administered by HCA.

Refer also to HCA's [ProviderOne Billing and Resource Guide](#) for valuable information to help you conduct business with the Health Care Authority.

How can I get HCA Apple Health provider documents?

To access provider alerts, go to HCA's [provider alerts webpage](#).

To access provider documents, go to HCA's [provider billing guides and fee schedules webpage](#).

Confidentiality toolkit for providers

The [Washington State Confidentiality Toolkit for Providers](#) is a resource for providers required to comply with health care privacy laws.

Where can I download HCA forms?

To download an HCA form, see HCA's [Forms & Publications webpage](#). Type only the form number into the Search box (Example: 13-835).

¹ This publication is a billing instruction.

What has changed?

The table below briefly outlines how this publication differs from the previous one. This table is organized by subject matter. Each item in the *Subject* column is a hyperlink that, when clicked, will take you to the specific change summarized in that row of the table.

Subject	Change	Reason for Change
Which birth centers are HCA approved birth centers?	Added Federal Way Birth Center	To add a newly enrolled provider
Managed care enrollment	Revised section to include a second exception in the first paragraph regarding clients eligible to receive Reentry Initiative services	To clarify managed care enrollment policy for clients eligible to receive Reentry Initiative services
Reentry Initiative	Added new section	Effective for dates of service on and after July 1, 2025 , HCA covers a limited set of services for incarcerated individuals through fee-for-service (FFS) or their HCA-contracted managed care organization (MCO) for up to 90 days before their release from carceral facilities within Washington State.

CPT® codes and descriptions only are copyright 2024 American Medical Association.

Subject	Change	Reason for Change
<p>Labor management for clients who transfer to a hospital for delivery</p>	<p>Added the following billing detail:</p> <ul style="list-style-type: none"> For prolonged labor services at a birth center, use HCPCS code G2212 with modifier TH. For prolonged labor services at the client's home, use CPT® code 99417 with modifier TH. <p>Added CPT® code 99417 to the coverage table</p>	<p>Previous billing instructions advised providers to use HCPCS code G2212 for prolonged labor services at a birth center and at the client's home. Providers must now use CPT® code 99417 for prolonged labor services at the client's home because coding rules no longer allow G2212 use with CPT® code 99350.</p>
<p>Can a provider who is a licensed midwife and a birth doula bill for clinical services and birth doula services?</p>	<p>Added this new section</p>	<p>To provide billing instructions for providers who are both licensed midwives and birth doulas</p>

Definitions

This section defines terms and abbreviations, including acronyms, used in this billing guide. Refer to [chapter 182-500 WAC](#) for a complete list of definitions for Washington Apple Health.

Birth Center – A specialized facility licensed as a childbirth center by the Department of Health (DOH) ([WAC 246-329-010](#))

Birth Center Provider – Any of the following people who have a Core Provider Agreement with HCA to deliver babies in a birth center:

- A midwife currently licensed in the State of Washington under [chapter 18.50 RCW](#)
- Nurse Midwife currently licensed in the State of Washington under [chapter 18.79 RCW](#)
- Physician licensed in the state of Washington under chapters [18.57](#) or [18.71 RCW](#)

Bundled services – Services integral to the major procedure that are included in the fee for the major procedure. For the Planned Home Birth and Births in Birth Centers program, certain services which are customarily bundled must be billed separately (unbundled) when the services are provided by different providers.

Chart – A compilation of medical records on an individual patient.

Consultation – The process whereby the provider, who maintains primary management responsibility for the client's care, seeks the advice or opinion of a physician (MD/DO) on clinical issues that are patient-specific. These discussions may occur in person, by electronic communication, or by telephone.

A consulting relationship may result in:

- Telephone, written, or electronic mail recommendations by the consulting physician.
- Co-management of the patient by the birth center provider and the consulting physician.
- Referral of the patient to the consulting physician for examination and/or treatment.
- Transfer of patient's care from the birth center or home birth provider to the consulting physician.

Facility fee – The portion of HCA's payment for the hospital or birth center charges. This does not include HCA's payment for the professional fee.

Global fee – The fee HCA pays for total obstetrical care. Total obstetrical care includes all bundled prenatal care, delivery services, and postpartum care.

High-risk pregnancy – Any pregnancy that poses a significant risk of a poor birth outcome.

Home birth kit – A kit that contains disposable supplies that are used in a planned home birth.

Home Birth Provider –

- A midwife currently licensed in the state of Washington under [chapter 18.50 RCW](#)
- A nurse-midwife currently licensed in the state of Washington under [chapter 18.79 RCW](#)
- A physician licensed in the state of Washington under chapters [18.57](#) or [18.71 RCW](#) who has qualified to become a home birth provider who will deliver babies in a home setting, and has signed a core provider agreement with the Health Care Authority.

Midwife – An individual possessing a valid, current license to practice midwifery in the state of Washington as provided in [chapter 18.50 RCW](#), or an individual recognized by the Washington Nursing Care Quality Assurance Commission as a certified nurse midwife as provided in [chapter 18.79 RCW](#) and [chapter 246-834 WAC](#).

Planned home birth – A natural birth that takes place in a home setting and is assisted by a qualified licensed midwife, certified nurse midwife, or a practitioner licensed to provide maternity care. ([WAC 246-834-140](#))

Professional Fee – The portion of HCA’s payment for services that rely on the provider’s professional skill, or training, or the part of the reimbursement that recognizes the provider’s cognitive skill.

Record – Dated reports supporting claims for medical services provided in an office, nursing facility, hospital, outpatient, emergency room, or other place of service.

Program Overview and Provider Requirements

What does the Planned Home Births and Births in Birth Centers program provide?

The Planned Home Births and Births in a Birth Center program provides a safe alternative delivery setting to pregnant HCA clients who are at low risk for adverse birth outcomes. These services promote access to care by allowing low-risk clients to give birth in an out-of-hospital setting.

When does the Health Care Authority (HCA) cover planned home births and births in a birth center?

HCA covers planned home births and births in a birth center for its clients when the client and the maternity care provider choose to have a home birth or to give birth in an HCA-approved birth center and the client:

- Is eligible for categorically needy (CN) or medically needy (MN) scope of care (see [Client Eligibility](#)).
- Has an HCA-approved home birth provider who has accepted responsibility for the planned home birth or a provider who has accepted responsibility for a birth in an HCA-approved birth center.
- Is expected to deliver the child vaginally and without complication (i.e., with a low risk of adverse birth outcome).
- Passes HCA's risk screening criteria. (For risk screening criteria, see [Prenatal Management and Risk Screening Guidelines](#)).

What are the requirements to be an HCA-approved birth center facility?

An HCA-approved birth center facility must:

- Be licensed as a childbirth center by the Department of Health (DOH) as defined in [chapter 246-329 WAC](#).
- Be specifically approved by HCA to provide birth center services (see [Resources Available](#) for a list of approved centers).
- Have a valid core provider agreement (CPA) with HCA.
- Maintain all standards of care required by DOH for licensure as defined in [chapter 246-329 WAC](#).

What are the requirements to be an HCA-approved planned home birth provider or birth center provider?

HCA-approved planned home birth providers and birth center providers must:

- Have a core provider agreement (CPA) with HCA.
- Follow WAC [182-533-0400](#) and WAC [182-533-0600](#).
- Have a signed HCA midwife attestation form.
- Be licensed in the state of Washington as a:
 - Midwife under [chapter 18.50 RCW](#)
 - Nurse midwife under [chapter 18.79 RCW](#)
 - Physician under chapters [18.57](#) or [18.71 RCW](#)
- Have evidence of current cardiopulmonary resuscitation (CPR) training for:
 - Adult CPR
 - Neonatal resuscitation
- Obtain from the client a signed informed consent form, including the criteria listed in [Authorization](#), in advance of the birth.
- Make appropriate referral of the newborn for pediatric care and medically necessary follow-up care. ([WAC 182-533-0600\(4\)\(d\)](#) and [WAC 246-834-255](#))
- Inform parents of the benefits of a newborn screening test for heritable or metabolic disorders and offer to send the newborn's blood sample to DOH for testing (the parent may refuse this service). DOH will bill HCA for payments of HCPCS code S3620. ([WAC 246-650-020](#) and [RCW 70.83.020](#))
- Inform parents of and provide newborn screening for congenital heart defects. ([RCW 70.83.090](#))
- Inform parents of the benefits and risks of vitamin K injections and required prophylactic eye ointment for newborns. ([WAC 246-100-202](#)).

What newborn practices must birth centers follow to promote breastfeeding/chestfeeding?

Birth centers must implement policies and procedures to promote the following practices, which positively impact the initiation of breastfeeding/chestfeeding:

- Skin-to-skin placement of the newborn on the birthing parent's chest immediately following birth
- Rooming-in practices in which the newborn and the birthing parent share the same room for the duration of their post-delivery stay at the birth center

HCA provides for exceptions to these requirements when skin-to-skin placement or rooming-in are contraindicated for the health and well-being of either birthing parent or newborn.

What equipment, supplies, and medications are recommended or required for a planned home birth?

Planned home birth providers must provide medically necessary equipment, supplies, and medications for each client.

What additional documentation must be kept in the client's record?

Prenatal care records

Keep the following prenatal care records in the client's record:

- Initial general (Gen) history, physical examination, and prenatal lab tests
- Gynecological (Gyn) history, including obstetrical history, physical examination, and standard lab tests. Ultrasound, if indicated
- Subsequent Gen/Gyn history, physical and lab tests
- Client's weight, blood pressure, fetal heart tones, fundal height, and fetal position at appropriate gestational age
- Consultation, referrals, and reason for transferring care, if necessary
- Health education and counseling
- Consultation or actual evaluation by the consulting physician for any high-risk condition
- Risk screening evaluation
- Name, strength, and dosage of medications and immunizations administered

Intrapartum/postpartum care records

Keep the following intrapartum/postpartum care records in the client's record:

- Labor, delivery, and postpartum periods
- Pregnant client, fetal, and newborn well-being, including monitoring of vital signs, procedures, and lab tests
- Any consultation referrals and reason for transferring care, if necessary
- Initial pediatric care for newborn, including the name of the pediatric care provider, if known
- Postpartum follow-up, including family planning
- Name, strength, and dosage of medications and immunizations administered

Informed consent materials

Keep a copy of the informed consent in the client's record, including all the following:

- Scope of pregnancy and infant care
- Description of services provided, including newborn screening, prophylaxis eye treatment, and screening for genetic heart defects

Note: Parents may refuse. Documentation must include a signed waiver for each service that is declined.

- Limitations of technology and equipment in the home birth setting
- Authority to treat
- Plan for physician consultation or referral

CPT® codes and descriptions only are copyright 2024 American Medical Association.

- Emergency plan
- Informed assumption of risks
- Client responsibilities and requirements

Related programs

First Steps program services

The First Steps program helps pregnant clients get the health and social services they may need and covers a variety of services for pregnant individuals and their infants. First Steps is available as soon as an individual knows they are pregnant and is covered by Apple Health (Medicaid). First Steps services are supplemental services that include Maternity Support Services (MSS), Childbirth Education, and Infant Case Management (ICM). Eligible pregnant clients may receive Maternity Support Services (MSS) during pregnancy and through the post pregnancy period (the last day of the month from the 60th day after the pregnancy ends).

Maternity Support Services (MSS)/Infant Case Management (ICM)

Maternity Support Services (MSS) are preventive health and education services for clients to have healthy pregnancies and healthy babies. Services include an assessment, education, intervention, and counseling. A team of community health nurses, dietitians, behavioral health specialists and, in some agencies, community health workers, provide the services. The intent is to provide MSS as soon as possible to promote positive birth and parenting outcomes.

Pregnant clients with First Steps coverage can receive MSS during pregnancy and 60 days postpartum. MSS can begin during the prenatal, delivery, or postpartum period.

Sometimes there are situations that may place infants at a higher risk of having problems. Infant Case Management (ICM) can help an infant's family learn to use the resources in the community so that the baby and family can thrive. ICM may start at any time after MSS ends and continues through the month of the infant's first birthday.

For further information on the MSS/ICM program, visit the [First Steps webpage](#) and see HCA's [MSS/ICM billing guide](#).

Childbirth education

Childbirth education classes are available to all Medicaid-eligible clients. Instruction takes place in a group setting and may be completed over several sessions. Childbirth education is intended to help the client and the client's support person to understand the changes the client is experiencing, what to anticipate prior to and during labor and delivery, and to help develop positive parenting skills. For further information on Childbirth Education, visit [the First Steps webpage](#).

Also, see HCA's [Childbirth education billing guide](#).

For more information about First Steps services or to receive a list of contracted providers, contact the First Steps Program Manager at HCAFirstSteps@hca.wa.gov or visit the [First Steps webpage](#).

Client Eligibility

Most Apple Health clients are enrolled in an HCA-contracted managed care organization (MCO). This means that Apple Health pays a monthly premium to an MCO for providing preventative, primary, specialty, and other health services to Apple Health clients. Clients in managed care must see only providers who are in their MCO's provider network, unless prior authorized or to treat urgent or emergent care. See HCA's [Apple Health managed care webpage](#) for further details.

Note: It is important to always check a client's eligibility prior to providing any services because it affects who will pay for the services.

All services must be requested directly through the client's Primary Care Provider (PCP), except in reproductive health care services. For certain services, such as maternity and gynecological care, clients may go directly to a specialist in reproductive health without a referral from the client's PCP. However, the provider must be within the client's MCO's provider network.

How do I verify a client's eligibility?

Check the client's Services Card or follow the two-step process below to verify that a client has Apple Health coverage for the date of service and that the client's benefit package covers the applicable service. This helps prevent delivering a service HCA will not pay for.

Verifying eligibility is a two-step process:

- Step 1. Verify the patient's eligibility for Apple Health.** For detailed instructions on verifying a patient's eligibility for Apple Health, see the *Client Eligibility, Benefit Packages, and Coverage Limits* section in HCA's [ProviderOne Billing and Resource Guide](#).

If the patient is eligible for Apple Health, proceed to **Step 2**. If the patient is **not** eligible, see the note box below.
- Step 2. Verify service coverage under the Apple Health client's benefit package.** To determine if the requested service is a covered benefit under the Apple Health client's benefit package, see HCA's [Program Benefit Packages and Scope of Services](#) webpage.

Note: Patients who are not Apple Health clients may apply for health care coverage in one of the following ways:

- **Online:** Go to [Washington Healthplanfinder](#) - select the "Apply Now" button. For patients age 65 and older or on Medicare, go to [Washington Connections](#) select the "Apply Now" button.
- **Mobile app:** Download the [WAPlanfinder app](#) – select "sign in" or "create an account".
- **Phone:** Call the Washington Healthplanfinder Customer Support Center at 1-855-923-4633 or 855-627-9604 (TTY).
- **Paper:** By completing an *Application for Health Care Coverage (HCA 18-001P)* form. To download an HCA form, see HCA's Free or Low Cost Health Care, [Forms & Publications](#) webpage. Type only the form number into the Search box (Example: **18-001P**). For patients age 65 and older or on Medicare, complete the *Washington Apple Health Application for Aged, Blind, Disabled/Long-Term Services and Support (HCA 18-005)* form.
- **In-person:** Local resources who, at no additional cost, can help you apply for health coverage. See the [Health Benefit Exchange Navigator](#).

Are clients enrolled in an HCA-contracted managed care organization (MCO) eligible?

Yes. Most Apple Health clients are enrolled in one of HCA's contracted managed care organizations (MCO). For these clients, managed care enrollment is displayed on the client benefit inquiry screen in ProviderOne.

All medical services covered under an HCA-contracted MCO must be obtained through the MCO's contracted network. The MCO is responsible for:

- Payment of covered services
- Payment of services referred by a provider participating with the plan to an outside provider

Note: A client's enrollment can change monthly. Providers who are not contracted with the MCO must receive approval from **both** the MCO and the client's primary care provider (PCP) prior to serving a managed care client.

Send claims to the client's MCO for payment. Call the client's MCO to discuss payment prior to providing the service. Providers may bill clients only in very limited situations as described in [WAC 182-502-0160](#).

CPT® codes and descriptions only are copyright 2024 American Medical Association.

Managed care enrollment

Most Apple Health clients are enrolled in an HCA-contracted MCO the same month they are determined eligible for managed care as a new or renewing client. Some clients may start their first month of eligibility in the fee-for-service (FFS) program because their qualification for MC enrollment is not established until the month following their Apple Health eligibility determination.

Exceptions:

- Apple Health Expansion clients are enrolled in managed care and will not start their first month of eligibility in the FFS program. For more information, visit [Apple Health Expansion](#). Providers must check eligibility to determine enrollment for the month of service.
- Clients who are eligible to receive Reentry Initiative services and who are eligible for enrollment in an HCA-contracted managed care organization (MCO) will not start their first month of eligibility in the FFS program. Providers must check eligibility to determine enrollment for the month of service.

New clients are those initially applying for benefits or those with changes in their existing eligibility program that consequently make them eligible for Apple Health managed care. Renewing clients are those who have been enrolled with an MCO but have had a break in enrollment and have subsequently renewed their eligibility.

Checking eligibility

Providers must check eligibility and know when a client is enrolled and with which MCO. For help with enrolling, clients can refer to HCA's [Apply for or renew coverage webpage](#).

Clients' options to change plans

Clients have a variety of options to change their plan:

- **Available to clients with a Washington Healthplanfinder account:**
 - Go to [Washington Healthplanfinder website](#).
- **Available to all Apple Health clients:**
 - Visit the [ProviderOne Client Portal website](#):
 - Request a change online at [ProviderOne Contact Us](#) (this will generate an email to Apple Health Customer Service). Select the topic "Enroll/Change Health Plans."
 - Call Apple Health Customer Service at 1-800-562-3022. The automated system is available 24/7.

For online information, direct clients to HCA's [Apple Health Managed Care webpage](#).

Clients who are not enrolled in an HCA-contracted managed care plan for physical health services

Some Apple Health clients do not meet the qualifications for managed care enrollment. These clients are eligible for physical health services under the fee-for-service (FFS) program.

In this situation, each managed care organization (MCO) will have a Behavioral Health Services Only (BHSO) benefit available for Apple Health clients who are not in integrated managed care. The BHSO covers only behavioral health treatment for those clients. Eligible clients who are not enrolled in an integrated HCA-contracted managed care plan are automatically enrolled in a BHSO except for American Indian/Alaska Native clients. If the client receives Medicaid-covered services before being automatically enrolled in a BHSO, the fee-for-service program will reimburse providers for the covered services. Examples of populations that may be exempt from enrolling into a managed care plan are Medicare dual-eligible, American Indian/Alaska Native, Adoption Support and Foster Care Alumni.

Integrated managed care

Clients qualified for enrollment in an integrated managed care plan receive all physical health services, mental health services, and substance use disorder treatment through their HCA-contracted managed care organization (MCO).

Integrated Apple Health Foster Care (AHFC)

Children and young adults in the Foster Care, Adoption Support and Alumni programs who are enrolled in Coordinated Care's (CCW) Apple Health Core Connections Foster Care program receive both medical and behavioral health services from CCW.

Clients under this program are:

- Under the age of 18 who are in foster care (out of home placement) or in the Unaccompanied Refugee Minors (URM) program
- Under the age of 21 who are receiving adoption support
- Age 18-21 years old in extended foster care
- Age 18 to 26 years old who aged out of foster care on or after their 18th birthday (alumni)

These clients are identified in ProviderOne as "**Coordinated Care Healthy Options Foster Care.**"

The Apple Health Customer Services team can answer general questions about this program. For specific questions about Adoption Support, Foster Care or Alumni clients, contact HCA's Foster Care and Adoption Support Team at 1-800-562-3022, Ext. 15480.

Apple Health Expansion

Apple Health Expansion covers individuals age 19 and older who do not meet the citizenship or immigration requirements to receive benefits under federally funded programs and who receive all physical health services, mental health services, and substance use disorder treatment through their HCA-contracted health plan. For more information, visit [Apple Health Expansion](#).

Reentry Initiative

The Reentry Demonstration Initiative (Reentry Initiative) is a new Apple Health (Medicaid) initiative under the Medicaid Transformation Project (MTP). Under this initiative, incarcerated people who are Apple Health-eligible may receive a limited set of health care services through fee-for-service (FFS) or their HCA-contracted managed care organization (MCO) for up to 90 days before their release from carceral facilities within Washington State. These services will ensure a person's healthy and successful reentry into their community. For more information, visit [Reentry from a carceral setting](#).

Fee-for-service Apple Health Foster Care

Children and young adults in the fee-for-service Apple Health Foster Care, Adoption Support and Alumni programs receive behavioral health services through the regional Behavioral Health Services Organization (BHSO). For details, see HCA's [Mental Health Services Billing Guide](#), under *How do providers identify the correct payer?*

American Indian/Alaska Native (AI/AN) Clients

American Indian/Alaska Native (AI/AN) clients have two options for Apple Health coverage:

- Apple Health Managed Care
- Apple Health coverage without a managed care plan (also referred to as fee-for-service [FFS])

If an AI/AN client does not choose a managed care plan, they will be automatically enrolled into Apple Health FFS for all their health care services, including comprehensive behavioral health services. See the Health Care Authority's [American Indian/Alaska Native webpage](#).

Prenatal Management and Risk Screening Guidelines

What are the risk screening criteria?

Providers must screen their clients for high-risk factors. The provider must consult with consulting physicians when appropriate. Follow HCA's [Risk screening criteria](#) and [Prenatal indications for consultation and referral](#) on the following pages.

To be reimbursed for CPT® codes 99212 through 99215 with HCPCS modifier TH (Increased Monitoring Prenatal Management), the client's record must contain the appropriate ICD diagnosis code.

Risk screening criteria

The following conditions are high-risk factors. HCA does not cover planned home births or births in a birth center for pregnant clients identified with any of the following conditions:

- Previous cesarean section
- Current substance use disorder
- Significant hematological disorders/coagulopathies
- History of deep venous thrombosis or pulmonary embolism
- Cardiovascular disease-causing functional impairment
- Chronic hypertension
- Significant endocrine disorders including pre-existing diabetes (type I or type II)
- Hepatic disorders including uncontrolled intrahepatic cholestasis of pregnancy and/or abnormal liver function tests
- Isoimmunization, including evidence of Rh sensitization/platelet sensitization
- Neurologic disorders or active seizure disorders
- Pulmonary disease
- Renal disease
- Collagen-vascular diseases
- Current severe psychiatric illness
- Cancer affecting the reproductive system
- Multiple gestation
- Breech presentation in labor with delivery not imminent
- Other significant deviations from normal as assessed by the provider

Oral health for pregnant clients

At the first prenatal visit, providers should assess the pregnant client's oral health. As part of routine counseling, providers should encourage the pregnant client to schedule a dental examination if:

- It has been more than six months since the client's last dental examination; or
- The client has any oral health problems.

Managing dental caries (tooth decay) is critical, as a birthing parent's healthy mouth may reduce or delay the child's risk of developing future dental caries. Many expectant parents need reassurance that dental care, including radiographs, anesthetics, and treatments, are safe throughout pregnancy. See [Oral Health Care During Pregnancy and Through the Lifespan](#), American College of Obstetricians and Gynecologists.

For assistance in finding an Apple Health (Medicaid) dental provider, visit [DentistLink](#).

Tobacco/nicotine cessation for pregnant clients

For information about tobacco/nicotine cessation, see Behavior change intervention tobacco/nicotine cessation in the [Physician-related services/health care professional services billing guide](#).

Social determinants of health risk screening

HCA considers a social determinants of health risk screening (HCPCS code G0136) medically necessary when billed with specific qualifying visits. See HCA's [Physician-Related Services/Health Care Professional Services Billing Guide](#) for the complete policy and a list of qualified visits.

Prenatal management/consultation & referral

The definitions below apply to the following tables labeled [Prenatal indications for consultation and referral](#).

Consultation - The process whereby the provider, who maintains primary management responsibility for the client's care, seeks the advice or opinion of a physician on clinical issues that are patient-specific. These discussions may occur in person, by electronic communication, or by telephone. A consulting relationship may result in:

- Telephonic, written, or electronic mail recommendations by the MD/DO.
- Co-management of the patient by both the midwife and the MD/DO.
- Referral of the patient to the MD/DO for examination and/or treatment.
- Transfer of care of the patient from the midwife to the MD/DO.

Referral - The process by which the provider directs the client to a physician (MD/DO) for management (examination or treatment) of a particular problem or aspect of the client's care.

Transfer of care – The process by which the provider directs the client to a physician for complete management of the client’s care.

The client must meet HCA’s risk screening criteria to be covered for a planned home birth or a birth in a birth center.

Note: Providers are expected to screen out high-risk pregnancy by following HCA’s risk screening guidelines. The conditions in the following section may require either a consultation or referral. Providers should use professional judgment in assessing and determining appropriate consultation or referral in case of an adverse situation. If a physician is the provider, they should consult with another physician as needed. Referrals to ARNPs are appropriate for treatment of simple infections.

Prenatal indications for consultation and referral

(Refers to the pregnant client’s care prior to the onset of labor)

Conditions requiring consultation

HCA requires physician (MD/DO) consultation and the client **may** require referral to a physician when the following conditions arise during the current pregnancy:

- Breech at 37 weeks
- Polyhydramnios/Oligohydramnios
- Significant vaginal bleeding
- Persistent nausea and vomiting causing a weight loss of > 15 lbs.
- Post-dates pregnancy (> 42 completed weeks)
- Fetal demise after twelve completed weeks gestation
- Significant size/dates discrepancies
- Abnormal fetal NST (nonstress test)
- Abnormal ultrasound findings
- Acute pyelonephritis
- Infections, whose treatment is beyond the scope of the provider
- Evidence of large uterine fibroid that may obstruct delivery or significant structural uterine abnormality
- No prenatal care prior to the third trimester
- Other significant deviations from normal, as assessed by the provider

Conditions requiring referral

HCA requires physician (MD/DO) consultation and referral when the following conditions arise during current pregnancy:

- Evidence of pregnancy induced hypertension (BP > 140/90 for more than six hours with client at rest)
- Hydatidiform mole (molar pregnancy)
- Gestational diabetes not controlled by diet

CPT® codes and descriptions only are copyright 2024 American Medical Association.

- Severe anemia unresponsive to treatment (Hgb < 10, Hct <28)
- Known fetal anomalies or conditions affected by site of birth
- Noncompliance with the plan of care (e.g., frequent missed prenatal visits)
- Documented placental abnormalities, significant abruption past the 1st trimester, or any evidence of previa in the third trimester
- Rupture of membranes before the completion of 37 weeks gestation
- Positive HIV antibody test
- Documented IUGR (intrauterine growth retardation)
- Primary genital herpes past the 1st trimester
- Development of any of the high-risk conditions that are listed in [Risk screening criteria](#)

Intrapartum

(Refers to the pregnant client's care any time after the onset of labor, up to and including the delivery of the placenta)

Conditions requiring consultation

HCA requires physician consultation and the client MAY require referral to a physician and/or hospital when the following conditions arise intrapartum:

- Prolonged rupture of membranes (>24 hours and not in active labor)
- Other significant deviations from normal as assessed by the provider

Conditions requiring referral

HCA requires physician consultation and referral to a physician or hospital when emergency conditions in the following list arise intrapartum. In some intrapartum situations, due to urgency, it may not be prudent to pause medical treatment long enough to seek physician consultation or initiate transport.

- Labor before the completion of 37 weeks gestation, with known dates
- Abnormal presentation or lie at time of delivery, including breech
- Birthing parent desire for pain medication, consultation, or referral
- *Persistent non-reassuring fetal heart rate
- Active genital herpes at the onset of labor
- Thick meconium-stained fluid with delivery not imminent
- *Prolapse of the umbilical cord
- Sustained fever in birthing parent
- *Birthing parent seizure
- Abnormal bleeding (*hemorrhage requires emergent transfer)
- Hypertension with or without additional signs or symptoms of pre-eclampsia
- Prolonged failure to progress in active labor
- *Sustained birthing parent vital sign instability and/or shock

***These conditions require emergency transport.**

Postpartum

(Refers to the pregnant client's care in the first 24 hours following the delivery of the placenta)

Conditions requiring consultation

HCA requires physician consultation and the client MAY require referral to a physician when the following birthing parent conditions arise postpartum:

- Development of any of the applicable conditions listed under [Prenatal](#) or [Intrapartum](#)
- Significant birthing parent confusion or disorientation
- Other significant deviations from normal as assessed by the provider

Conditions requiring referral

HCA requires physician consultation and referral when the following conditions arise postpartum:

- *Anaphylaxis or shock
- Undelivered adhered or retained placenta with or without bleeding
- *Significant hemorrhage not responsive to treatment
- *Birthing parent seizure
- Lacerations, if repair is beyond provider's level of expertise (3rd or 4th degree)
- *Sustained birthing parent vital sign instability and/or shock
- Development of birthing parent fever, signs/symptoms of infection or sepsis
- *Acute respiratory distress
- *Uterine prolapse or inversion

***These conditions require emergency transport.**

Newborn

(Refers to the infant's care during the first 24 hours following birth)

Conditions requiring consultation

HCA requires a pediatric physician be consulted. The client MAY require a referral to an appropriate pediatric physician when the following conditions arise in a neonate:

- Apgar score \leq 6 at five minutes of age
- Birth weight < 2500 grams
- Other significant deviations from normal as assessed by the provider

Conditions requiring referral

HCA requires that a pediatric physician be consulted and a referral made when the following conditions arise in a neonate:

- Birth weight < 2000 grams
- *Persistent respiratory distress
- *Persistent cardiac abnormalities or irregularities
- *Persistent central cyanosis or pallor
- *Prolonged temperature instability when intervention has failed

CPT® codes and descriptions only are copyright 2024 American Medical Association.

- *Prolonged glycemic instability (per neonatal resuscitation guidelines (NRP))
- *Neonatal seizure
- Clinical evidence of prematurity (gestational age < 36 weeks)
- Loss of > 10% of birth weight /failure to thrive
- Birth injury requiring medical attention
- Major apparent congenital anomalies
- Jaundice prior to 24 hours

***These conditions require emergency transport.**

Screening of Mental Health Conditions During Pregnancy and Postpartum

HCA covers screening for depression and anxiety during pregnancy and the postpartum period. Providers must screen pregnant and postpartum clients for depression and anxiety using a standardized, validated screening tool. Screening results are not equivalent to a diagnosis. Screening for perinatal depression and anxiety must occur at the initial prenatal/OB visit, at least once during the 2nd or 3rd trimester, and once in the postpartum period, per [American College of Obstetricians and Gynecologists recommendation](#).

When billing HCA for perinatal depression and anxiety screening, use **CPT® code 96127 or 96160**. If the provider conducts a depression screening and anxiety screening on the same date of service using two different screening tools, the provider may bill separately for each screening using the appropriate CPT® code. Submit the claim for the screening with the date the screening occurred. Perinatal mental health screening may be billed in addition to bundled or unbundled obstetric codes. If more frequent screening is needed, providers may submit a limitation extension request to HCA.

To be paid for **CPT® codes 96160 and 96127**, providers must indicate the screening outcome by including one of the modifiers listed below. Providers must document in the client's record the name of the screening tool, the score, and what referrals were made.

Modifier	Description
U1	No need identified (negative screen). Indicates screening score within a normal range.
U2	Need identified (positive screen). Indicates risk, concern, impairment, or identification of a developmental and/or behavioral disorder.

Note: Providers may use the [Perinatal Psychiatry Consultation Line \(PPCL\)](#) for recommendations and referrals related to perinatal mental and behavioral health. Providers may refer the client to [Perinatal Support Washington Warmline](#) for telephone support, professional referrals, and information about other resources.

CPT® codes and descriptions only are copyright 2024 American Medical Association.

Authorization

What is expedited prior authorization (EPA)?

Expedited prior authorization (EPA) is designed to eliminate the need for written authorization. HCA establishes authorization criteria and identifies the criteria with specific codes, enabling providers to use an EPA number when appropriate.

What are the EPA criteria for drugs listed as “not billable by a licensed midwife?”

HCA allows licensed midwives to use EPA when administering drugs listed as “not billable by a licensed midwife” in the fee schedule. When billing for drugs listed as “not billable by a licensed midwife,” use EPA# 870000690. The licensed midwife must meet all the following EPA criteria:

- Obtained physician or standing orders for the administration of the drug listed as “not billable by a licensed midwife”
- Placed the physician or standing orders in the client’s file
- Upon request, provides a copy of the physician or standing orders to HCA

This EPA number is **only** for the procedure codes listed in the fee schedule as “not billable by a licensed midwife.”

Natural deliveries

For all natural deliveries for a client equal to or over 39 weeks gestation, bill using EPA #870001378. For a natural delivery before 39 weeks, use EPA #870001375.

CPT® Code	Short Description	EPA Number
59400, 59409, 59410	Elective delivery or natural delivery at or over 39 weeks gestation	870001378
59400, 59409, 59410	Natural delivery before 39 weeks	870001375

Can more than one EPA number be submitted on the same claim?

Yes. EPA numbers for drugs billed by a licensed midwife and the EPA number for a natural delivery may be billed on the same claim.

Coverage and Billing

What are the general billing requirements?

Providers must follow HCA's [ProviderOne Billing and Resource Guide](#). These billing requirements include:

- What time limits exist for submitting and resubmitting claims and adjustments
- How to bill for services provided to primary care case management (PCCM) clients
- How to bill for clients eligible for both Medicare and Medicaid
- How to handle third-party liability claims
- What standards to use for record keeping

When may I bill a client for services?

HCA pays claims for services submitted only by providers with an approved Core Provider Agreement (CPA). The CPA's terms stipulate that providers must accept the Apple Health paid amount as sole and complete payment for covered services.

A provider must follow specific rules regarding billing a client for services. Refer to [WAC 182-502-0160](#), Billing a client. An Apple Health provider must not bill a client or accept payment from a client for any services until the provider has completed all requirements of WAC 182-502-0160. This WAC requires the client and the provider to complete and sign an Agreement to Pay for Health Care Services form (HCA 13-879) before the service is furnished. See [Where can I download HCA forms?](#)

For training materials on this topic, see HCA's [Webinars](#) webpage under *Billing a Medicaid client*.

Example A:

Client has their first prenatal visit on June 10, 2024. The provider checks eligibility status and verifies the client does not have Apple Health coverage. The client pays the provider for services at the time of the first appointment. On August 1, 2024, the client reports they now have Medicaid coverage. The provider checks eligibility status and verifies the client has Apple Health coverage with a retroactive effective date of June 1, 2024. The provider must issue a full refund to the client and instead bill Apple Health for the services.

Example B:

The provider sees a client for prenatal care, delivery, and postpartum care. The provider bills Apple Health for global OB care and is paid an amount less than the provider's usual private pay rate. The provider may not bill the client for the difference between the provider's usual private pay rate and the Apple Health payment.

Example C:

Pregnant client has Apple Health coverage and desires home birth. Client lives one hour away from the provider's base location and does not have a car. The client requests home visits and offers to pay out-of-pocket for the provider's gas.

CPT® codes and descriptions only are copyright 2024 American Medical Association.

Apple Health covers non-emergency medical transportation so the client can attend appointments at the provider's base location. The provider may not request or accept funds from the client to cover the provider's transportation costs.

How do I bill claims electronically?

Instructions on how to bill Direct Data Entry (DDE) claims can be found on HCA's [Billers, providers, and partners](#) webpage.

For information about billing Health Insurance Portability and Accountability Act (HIPAA) Electronic Data Interchange (EDI) claims, see the ProviderOne 5010 companion guides on the [HIPAA electronic data interchange \(EDI\)](#) webpage.

The following claim instructions relate specifically to planned home births and births in birth centers:

Name	Entry
Claim Note	When billing for baby using the parent's ProviderOne Client ID, answer "Yes" to the question, "Is the claim for a Baby on Birthing Parent's Client ID?" and enter <i>SCI=B</i>
Prior Authorization Number	To be reimbursed for drugs listed in fee schedule as <i>Not billable by a Licensed Midwife</i> , enter the EPA number 870000690. (See Coverage Table)
Place of Service	Enter the appropriate two-digit code as follows: Use code 11 for "Office" Use code 12 for "Home" Use code 25 "Birth Center"
Service Facility (under the Other Claim Info tab)	Enter the name of the birth center.

What fees do I bill to HCA?

Bill your usual and customary fee. For HCA's current maximum allowable fees, see HCA's [Planned Home Births and Births in Birth Centers Fee Schedule](#).

What does global (total) obstetrical (OB) care include?

Coverage

Global obstetrical (OB) care (CPT® code 59400) includes **all** the following:

- Routine prenatal care in any trimester
- Delivery
- Postpartum care

Coverage table

CPT® Code	Modifier	Short Description	Comments
59400		Obstetrical care	Antepartum, delivery, and postpartum care

Billing

Note the following when billing for global OB care:

- If you provide all the client's prenatal care, perform the delivery, and provide the postpartum care, you must bill using the global OB procedure code.
- Bill the global obstetric procedure code if you performed all the services and no other provider is billing for prenatal care, the delivery, or postpartum care.
- Do not bill separately for prenatal care visits aligned with the schedule in [What does routine prenatal care include?](#) Routine visits are included in the global OB package and must not be billed separately. See [Additional monitoring for high-risk conditions](#) for guidance on when additional visits may be billed in addition to the global OB package.
- If you provide all or part of the prenatal care and/or postpartum care but you do not perform the delivery, you must bill HCA for only those services provided using the appropriate prenatal and/or postpartum codes. In addition, if the client obtains other medical coverage or is transferred to an HCA-contracted managed care organization (MCO) during pregnancy, you must bill for only those services provided while the client is enrolled with HCA fee-for-service.
- If the OB record is initiated at the visit, the visit is considered part of the global OB package and must not be billed separately. Use HCPCS code 0500F along with the appropriate diagnosis code on the first prenatal visit. HCA is tracking the date a client begins receiving obstetrical care. Note this date by entering HCPCS code 0500F with the appropriate ICD diagnosis codes Z33.1, Z34.00, Z34.80, or Z34.90 on the claim. Use a billed amount of \$0.01 (one cent) when submitting the HCPCS code 0500F claim; the claim will pay at zero. HCA collects this code for quality measurement, tracking, and care coordination.

CPT® codes and descriptions only are copyright 2024 American Medical Association.

Audio-only visits as part of global OB care

Global OB care (CPT® code 59400)

When billing for global OB care (CPT® code 59400), note the following:

- HCA pays for a total of three audio-only visits as follows:
 - Up to two antepartum visits to be provided via audio-only telemedicine
 - One early postpartum visit to be provided via audio-only telemedicine. An early postpartum visit is a postpartum visit up to two weeks after delivery.

Audio-only visits are considered part of global OB care when CPT® code 59400 is used. Audio-only visits must not be billed as separate codes in addition to global OB care.

You may not provide the comprehensive postpartum visit typically scheduled at around six weeks after delivery via audio-only telemedicine.

When you have used two or three audio-only telemedicine visits during global OB care, bill the global OB code with modifier 93.

When you have used only one audio-only telemedicine visit during global OB care, no additional modifier is required.

Audio-only visits when global OB care is unbundled

(Refer to [Unbundling OB care](#))

Antepartum care only (CPT® codes 59425 and 59426)

When billing for antepartum care only, HCA pays for up to two antepartum visits via audio-only telemedicine.

- When you use two audio-only telemedicine visits during the antepartum period, bill either CPT® code 59425 or 59426 with modifier 93.
- When you use only one audio-only telemedicine visit during the antepartum period, no additional modifier is required.

Postpartum care only (CPT® code 59430)

When billing for postpartum care only:

- HCA pays for one early postpartum visit via audio-only telemedicine. An early postpartum visit is a postpartum visit up to two weeks after delivery.
- HCA does not allow the postpartum visit typically scheduled at around six weeks after delivery to be provided via audio-only telemedicine.
- When you use an audio-only telemedicine visit during the early postpartum period, no additional modifier is required.

Delivery only (CPT® code 59409) or delivery with postpartum care (CPT® code 59410)

These services require in-person care. HCA does not pay for these services to be provided via audio-only or audio/visual telemedicine.

What does routine prenatal care include?

Coverage

According to CPT® guidelines, HCA considers routine prenatal care for a normal, uncomplicated pregnancy to consist of all the following:

- Visits
 - Monthly visits up to 28 weeks gestation
 - Biweekly visits to 36 weeks gestation
 - Weekly visits until delivery (approximately 14 prenatal visits)
- Care:
 - Initial and subsequent history
 - Physical examination
 - Recording of weight and blood pressure
 - Recording of fetal heart tones
 - Routine chemical urinalysis
 - Birthing parent counseling, such as risk factor assessment and referrals

Billing

You may bill medically necessary prenatal laboratory tests in addition to prenatal care, **except for dipstick tests** (CPT® codes 81000, 81002, 81003, and 81007). Refer to the prenatal care [coverage table](#) for more information.

You may bill limited ultrasounds in addition to prenatal care. Refer to [Limited obstetrical ultrasounds](#) for more information.

What does postpartum care include?

For billing purposes, postpartum care includes routine office visits for the 6-week period after the delivery. Services provided after the 6-week postpartum visit are eligible for separate reimbursement.

Note: After Pregnancy Coverage (APC) is a 12-month Medicaid extension for clients who have been recently pregnant. Visit HCA's APC [webpage](#) for more information on APC coverage.

What if an eligible client receives services from more than one provider?

When an eligible client receives services from more than one provider, HCA reimburses each provider for the services furnished.

Example: For a client being seen by both a midwife and a physician, HCA's reimbursement for the co-management of the client would be as follows:

- The physician would be paid for the consult office visits.
- The midwife would be paid for the prenatal visits.

Unbundling OB care

In the following situations, you may not be able to bill HCA for global OB care. In these cases, it may be necessary to unbundle the OB services and bill the prenatal, delivery, and postpartum care separately, as HCA may have paid another provider for some of the client's OB care, or another insurance carrier may have paid for some of the client's OB care.

When a client transfers to your practice late in the pregnancy

Do not bill the global OB package. Bill the prenatal care, delivery, and postpartum care separately if the client has had prenatal care elsewhere. The provider who had been providing the prenatal care prior to the transfer bills for the services performed. Therefore, if you bill the global OB package, you would be billing for some prenatal care that another provider has claimed.

If the client did not receive any prenatal care prior to coming to your office, bill the global OB package. In this case, you may perform all the components of the global OB package in a short time. HCA does not require you to perform a specific number of prenatal visits to bill for the global OB package.

If the client moves to another provider (not associated with your practice), moves out of your area prior to delivery, or loses the pregnancy

Bill only those services you provide to the client.

If the client changes insurance during pregnancy

When a client changes from one HCA-contracted MCO to another, bill those services that were provided while the client was enrolled with the original MCO to the original carrier, and those services that were provided under the new coverage to the new MCO. You must unbundle the services and bill the prenatal, delivery, and postpartum care separately.

Often, a client will be eligible for fee-for-service at the beginning of pregnancy, and then be enrolled in an HCA-contracted MCO for the remainder of pregnancy. HCA is responsible for reimbursing only those services provided to the client

while the client is on fee-for-service. The MCO reimburses for services provided after the client is enrolled with the MCO.

Coding for prenatal care only

Billing

Do not bill HCA for obstetrical services until all care (prenatal, delivery, and postpartum) is completed. **Do not bill prenatal care only codes in addition to any other procedure codes that include prenatal care (i.e., global OB codes).**

CPT® codes 59425, 59426, or E&M CPT® codes 99212-99215 with normal pregnancy diagnoses may not be billed in combination during the entire pregnancy.

If it is necessary to unbundle the global package and bill separately for prenatal care, bill **one** of the following:

- If the client had a total of one to three prenatal visits, bill the appropriate level of E&M service (CPT® codes 99212-99215) with modifier TH for each visit with the date of service the visit occurred and the appropriate diagnosis.
- If the client had a total of four to six prenatal visits, bill using CPT® code 59425 with a one (1) in the *units* box. Bill HCA using the date of the last prenatal visit in the *to* and *from* fields.
- If the client had a total of seven or more visits, bill using CPT® code 59426 with a one (1) in the *units* box. Bill HCA using the date of the last prenatal visit in the *to* and *from* fields of the form.

Coverage table

Using the following CPT® codes, bill only the total number of times you saw the client for all prenatal care during pregnancy. You may not bill these in combination with each other during the entire pregnancy period.

CPT® Code	Modifier	Short Description	Comments
99212	TH	Office o/p est sf 10-19 min	Prenatal care, 1-3 visits only. Must use modifier TH when billing. Limited to 3 units total of CPT® codes 99212-99215 with modifier TH per pregnancy, per provider.
99213	TH	Office o/p est low 20-29 min	Prenatal care, 1-3 visits only. Must use modifier TH when billing. Limited to 3 units total of CPT® codes 99212-99215 with modifier TH per pregnancy, per provider.
99214	TH	Office o/p est mod 30-39 min	Prenatal care, 1-3 visits only. Must use modifier TH when billing. Limited to 3 units total of CPT® codes 99212-99215 with modifier TH per pregnancy, per provider.
99215	TH	Office o/p est hi 40-54 min	Prenatal care, 1-3 visits only. Must use modifier TH when billing. Limited to 3 units total of CPT® codes 99212-99215 with modifier TH per pregnancy, per provider.
59425		Prenatal care, 4-6 visits	Limited to one unit per client, per provider, per pregnancy.
59426		Prenatal care, 7 or more visits	Limited to one unit per client, per pregnancy.

Coding for delivery only or delivery with postpartum care

Billing

If it is necessary to unbundle the OB package and bill for the delivery only, bill HCA using CPT® code 59409 (vaginal delivery only).

If a provider does not furnish prenatal care, but performs the delivery and provides postpartum care, bill HCA using CPT® code 59410 (vaginal delivery, including postpartum care).

Do not bill for obstetrical services until all care (prenatal, delivery, and postpartum) is completed. Do not bill CPT® code 59409 or 59410 in addition to any other procedure codes that include delivery (e.g., global OB codes).

Coverage table

CPT® Code	Modifier	Short Description	Comments
59409		Obstetrical care	Delivery only
59410		Obstetrical care	Delivery and postpartum only

Coding for postpartum care only

If it is necessary to unbundle the global OB package and bill for postpartum care only, you must bill HCA using CPT® code 59430 (postpartum care only).

If you provide all the prenatal and postpartum care, but do not perform the delivery, bill HCA for the prenatal care using the appropriate coding for prenatal care (see [Coding for prenatal care only](#)), along with CPT® code 59430 (postpartum care only).

Do not bill HCA for obstetrical services until all care (prenatal, delivery, and postpartum) is completed. Do not bill CPT® code 59430 (postpartum care only) in addition to any procedure codes that include postpartum care (e.g., global OB codes).

Coverage table

CPT® Code	Modifier	Short Description	Comments
59430		Care after delivery	Postpartum only

Additional monitoring for high-risk conditions

Billing

When providing additional monitoring for high-risk conditions more than the CPT® guidelines for normal prenatal visits, bill using E&M CPT® codes 99212-99215 with modifier TH. The office visits may be billed in addition to the global fee only after exceeding the CPT® guidelines for normal prenatal care. Providers must bill with a primary diagnosis that identifies that the high-risk conditions are pregnancy related.

A condition that is classifiable as high-risk alone does not entitle the provider to additional payment. Per CPT® guidelines, it must be medically necessary to see the client **more often** than what is considered routine prenatal care to qualify for additional payments. **The additional payments are intended to cover additional costs incurred by the provider because of more frequent visits.**

Licensed midwives are limited to billing for certain medical conditions (see [Prenatal management/consultation & referral](#)) that require additional monitoring under this program.

Coverage table

CPT® Code	Modifier	Short Description	Comments
99212	TH	Office o/p est sf 10-19 min	See the Prenatal management/consultation & referral
99213	TH	Office o/p est low 20-29 min	See the Prenatal management/consultation & referral
99214	TH	Office o/p est mod 30-39 min	See the Prenatal management/consultation & referral
99215	TH	Office o/p est hi 40-54 min	See the Prenatal management/consultation & referral

For example:

Client A is scheduled to see the client's provider for prenatal visits on January 4, February 5, March 3, and April 7.

The client attends the January and February visits as scheduled. However, during the scheduled February visit, the provider discovers the client's blood pressure is slightly high and wants the client to come in on February 12 to be checked again. At the February 12 visit, the provider discovers the client's blood pressure is still slightly high and asks to see the client again on February 18. The February 12 and February 18 visits are outside of the client's regularly scheduled prenatal visits,

CPT® codes and descriptions only are copyright 2024 American Medical Association.

and outside of the CPT guidelines for routine prenatal care since the client is being seen more often than once per month.

The February 12 and February 18 visits may be billed separately from the global prenatal visits using the appropriate E&M codes with modifier TH, and the diagnosis must represent the medical necessity for billing additional visits. **A normal pregnancy diagnosis will be denied outside of the global prenatal care. It is not necessary to wait until all services included in the routine prenatal care are performed to bill the extra visits if the extra visits are outside of the regularly scheduled visits.**

Labor management for clients who transfer to a hospital for delivery

Billing

If you performed the entire prenatal care for the client, attended the client during labor, delivered the baby, and performed the postpartum care, do not bill HCA for labor management. These services are included in the global OB package.

However, if you performed all the client's prenatal care and attended the client during labor but transferred the client to another provider (outside of your group practice) for delivery, you must unbundle the global OB package and bill separately for prenatal care and the time spent managing the client's labor. The client must be in active labor when the referral to the delivering provider is made.

Bill these labor management codes only when the client labors at the birth center or at home and is then transferred to a hospital during labor and another provider delivers the baby. The diagnoses on the claim must be related to complications during labor and delivery. The delivering hospital provider may not bill for labor management.

To bill for labor management in this situation, bill HCA for the time spent attending the client's labor using one of the appropriate CPT® E&M codes 99212-99215 (for labor attended at a birth center) or CPT® codes 99347-99350 (for labor attended at the client's home). In addition, HCA reimburses providers for up to 90 minutes of labor management using prolonged services. Prolonged services must be billed on the same claim as E&M codes along with modifier TH and the appropriate diagnosis code (all must be on each detail line of the claim).

- For prolonged labor services at a birth center, use HCPCS code G2212 with modifier TH.
- For prolonged labor services at the client's home, use CPT® code 99417 with modifier TH.

Coverage table

Procedure code	Modifier	Short Description	Comments
CPT® 99212	TH	Office o/p est sf 10-19 min	Use when client labors at the birth center then transfers to hospital for delivery. Diagnoses on claim must be related to complications of labor and delivery.

CPT® +99417	TH	Prolng op e/m each 15 min	Use when client labors at home then transfers to hospital for delivery. Limited to six 15-minute units.

Are medications billed separately?

Certain medications can be billed separately and are listed on HCA's [Planned Home Births and Births in Birthing Centers Fee Schedule](#) and the [Coverage Table for Other Codes](#). Some of the medications listed on HCA's [Planned Home Births and Births in Birthing Centers Fee Schedule](#) are not billable by licensed midwives. By law, a licensed midwife may obtain and administer only certain medications. Drugs listed as **not billable by a licensed midwife** must be obtained at a pharmacy with a physician's order. (See [What are the EPA criteria for drugs listed as "not billable by a licensed midwife?"](#)).

Limited obstetrical ultrasounds

Coverage

HCA considers limited ultrasounds of a client's pregnant uterus to be medically necessary when performed by an HCA-approved planned home birth provider for the following purposes only:

- Confirmation of viability
- First trimester dating
- Third trimester presentation
- Placental location
- Amniotic fluid assessment

HCA does not pay for ultrasounds when provided solely for the determination of gender.

For more information about routine obstetrical ultrasounds, refer to HCA's [Pregnancy-related services billing guide](#).

Coverage table

CPT® Code	Short Description
76815	Ob us limited fetus(s)
76817	Transvaginal us obstetric

Long-Acting Reversible Contraception (LARC)

For information regarding family planning services including long-acting reversible contraceptives (LARC), see the [Family planning billing guide](#).

How are newborn assessments billed?

Newborn assessment at home birth

To bill for a newborn assessment completed at the time of the home birth, providers must bill using CPT® code 99461. Reimbursement is limited to one per newborn. Do not bill CPT® code 99461 if the baby is born in a hospital. Bill on a separate claim. On the claim, answer “Yes” to the question, “Is the claim for a Baby on Birthing Parent’s Client ID?” And enter SCI=B in the Claim Note section of the claim.

Newborn assessment in birth center

To bill for a newborn assessment completed at the time of a birth center birth for a baby that is admitted and discharged on the same day, use CPT® code 99460. Reimbursement is limited to one per newborn. For a baby that is born in a birth center, when a newborn assessment is completed and the baby is transferred to a hospital for care, bill with CPT® code 99463.

Coverage table

CPT® Code	Short Description	Comments
99460	Init nb em per day hosp	Newborn assessment for a baby born in a birth center that is admitted and discharged on the same day. Limited to one per newborn. Do not bill HCA if baby is born in a hospital.
99461	Init nb em per day non-fac	Newborn assessment for a home birth. Limited to 1 per newborn.
99463	Same day nb discharge	Newborn assessment for a baby born in a birth center who is transferred to a hospital for care.

How do I bill for neonates/newborns?

For services provided to a newborn who has not yet received a Services Card, bill HCA using the parent’s ProviderOne Client ID in the appropriate fields on the claim. For more information on how to bill for neonates, including infants who will be placed in foster care, see [Inpatient Hospital Services Billing Guide](#).

When billing electronically for twins using the birthing parent’s ProviderOne number, enter each twin’s identifying information in the *Billing Note* section of the claim. Use the following claim indicators to identify the infant being serviced:

CPT® codes and descriptions only are copyright 2024 American Medical Association.

SCI=BA for twin A, SCI=BB for twin B, and SCI=BC for a third infant, in the case of triplets. HCA will deny the claim if there is no identifying information for the twin.

Note: Bill services for birthing parents on separate claims.

Does HCA pay for newborn screening tests?

Yes. The midwife or physician collects the blood for the newborn screening and sends it to the Washington State Department of Health (DOH). The midwife or physician may bill for the blood collection using the appropriate CPT® code. DOH bills HCA for the newborn screening tests using HCPCS code S3620. HCA reimburses only DOH for this service.

The newborn screening panel includes tests for treatable disorders as determined by DOH. For the most current list of tests included in the screening panel, visit the [What Disorders are Screened for in Washington State?](#) webpage.

Newborn screening panels are covered in accordance with the Department of Health's recommendations. For most infants, newborn screening requires two tests on two different dates of service. For some infants, a third newborn screen is recommended. Please refer to the [DOH Newborn Screening Program Health Care Provider Manual](#) for guidance on the timing and frequency of newborn screening tests.

How is the administration of immunizations billed?

HCA covers vaccines administered by licensed midwives in accordance with their scope of practice (see [WAC 246-834-250](#)).

For newborns and pregnant/postpartum clients through age 18, vaccines are available at no cost from the Department of Health through the [Childhood Vaccine Program](#) and the federal [Vaccines for Children](#) program. For clients in this age group, HCA pays only the vaccine administration/administrative fee and not for the vaccines themselves (billed with vaccine code + SL modifier). The cost of vaccines purchased by a licensed midwife for administration to a client age 18 and younger is not eligible for reimbursement. For additional information, refer to HCA's [Early Periodic Screening, Diagnosis, and Treatment \(EPSDT\) Well-Child Program Billing Guide](#).

For pregnant/postpartum clients age 19 and older, HCA covers the cost of the vaccine and the appropriate administration code. For a list of covered vaccine products, refer to the [Professional Administered Drug Fee Schedule](#).

Licensed midwives may bill for stand-alone vaccine counseling when the client receives counseling about a vaccine but does not actually receive the vaccine dose at the same time. For additional information, refer to HCA's [Physician-Related Services/Healthcare Professional Services Billing Guide](#).

Can a provider who is a licensed midwife and a birth doula bill for clinical services and birth doula services?

A provider who is a licensed midwife and an HCA-approved birth doula (“doula/midwife”) may bill for birth doula services in certain circumstances. Refer to the [Birth Doula Services Billing Guide](#) for details and examples.

When billing for clinical services, the doula/midwife must refer and adhere to this Planned Home Births and Births in Birth Centers Billing Guide. When billing for birth doula services, the doula/midwife must refer and adhere to the [Birth Doula Services Billing Guide](#). Midwifery services must not be billed as birth doula services. Midwifery services and birth doula services may not be provided simultaneously by a single provider throughout the pregnancy unless guidelines in the [Birth Doula Services Billing Guide](#) are met.

How are home-birth supplies billed?

Billing

Bill for [Home-birth supplies](#) using HCPCS code S8415. Payment is limited to one per client, per pregnancy.

The provider must not request or expect the client to purchase or obtain a home birth kit or additional supplies, such as disposable gloves. The provider must obtain the necessary home birth supplies and then bill HCA for S8415. Refer to [When may I bill a client for services?](#)

S8415 must not be billed when the client delivers in a birth center.

Coverage table

HCPCS Code	Description	Limits
S8415	Supplies for home delivery	Limited to one per client, per pregnancy. Home births only.

Birth center facility fee

Reimbursement

HCA reimburses for a facility fee only when services are performed in a birth center that:

- Is licensed by the Department of Health
- Has a current Core Provider Agreement with HCA.

The facility fee covers birth center use for labor and delivery, including room charges, equipment, and supplies. The provider must not request or expect the client to purchase or obtain additional supplies, such as disposable gloves. Refer to [When may I bill a client for services?](#)

CPT® codes and descriptions only are copyright 2024 American Medical Association.

The facility fee does not include medications, professional services, newborn hearing screens, lab charges, ultrasounds, x-rays, blood draws, or injections.

The facility fee is reimbursable only once per client per pregnancy. This is true even when the client is in the birth center for more than one day.

Coverage table

CPT® / HCPCS Code	Modifier	Short Description	Comments
59409	59 and SU	Obstetrical care	Limited to one unit per client, per pregnancy. Facility fee includes all room charges, equipment, supplies, anesthesia administration, and pain medication.
S4005		Interim labor facility globa	Limited to one per client, per pregnancy. May only be billed when client labors in the birth center and then transfers to a hospital for delivery.

Coverage Table for Other Codes

Due to its licensing agreement with the American Medical Association, HCA publishes only the official, short CPT® code descriptions. To view the entire description, see your current CPT book.
