

Washington Apple Health (Medicaid)

School-Based Health Care Services (SBHS) Billing Guide

October 1, 2016

Every effort has been made to ensure this guide's accuracy. If an actual or apparent conflict between this document and an agency rule arises, the agency rules apply.

About this guide*

This publication takes effect October 1, 2016, and supersedes earlier billing guides to this program.

HCA is committed to providing equal access to our services. If you need an accommodation or require documents in another format, please call 1-800-562-3022. People who have hearing or speech disabilities, please call 711 for relay services.

Washington Apple Health means the public health insurance programs for eligible Washington residents. Washington Apple Health is the name used in Washington State for Medicaid, the children's health insurance program (CHIP), and state-only funded health care programs. Washington Apple Health is administered by the Washington State Health Care Authority.

What has changed?

Subject	Change	Reason for Change
All	Fixed broken links, clarified language, etc.	Housekeeping
Billing and Claim Forms	Effective October 1, 2016, all claims must be filed electronically. See blue box notification.	Policy change to improve efficiency in processing claims

* This guide is a billing instruction.

How can I get agency provider documents?

To access provider alerts, go to the agency's [provider alerts](#) web page.

To access provider documents, go to the agency's [provider billing guides and fee schedules](#) web page.

Definitions

This section defines terms and abbreviations, including acronyms, used in this billing guide. Refer to [Chapter 182-500 WAC](#) for a complete list of definitions for Washington Apple Health.

Assessment – Medically necessary tests given to a child by a licensed professional to evaluate whether a child is determined to be a child with a disability, and is in need of special education and related services. Assessments are a part of the evaluation and reevaluation process, and must accompany the individualized education program (IEP) or individualized family service plan (IFSP).

Child with a disability – A child evaluated and determined to need special education and related services because of a disability in one or more of the following eligibility categories:

- Autism
 - Deaf – blindness
 - Developmental delay for children ages three through nine, with an adverse educational impact, the results of which require special education and related direct services
 - Hearing loss (including deafness)
 - Intellectual disability
 - Multiple disabilities
 - Orthopedic impairment
 - Other health impairment
 - Serious emotional disturbance (emotional behavioral disturbance)
 - Specific learning disability
 - Speech or language impairment
 - Traumatic brain injury
 - Visual impairment (including blindness)
- [\(WAC 392-172A-01035\)](#)

Current procedural terminology (CPT) – A systematic listing of descriptive terms and identifying codes for reporting medical services, procedures, and interventions performed by physicians and other practitioners who provide physician-related services. CPT is copyrighted and published annually by the American Medical Association.

“Early intervention services” - Services designed to meet the developmental needs of an infant or toddler with a disability and the needs of the family to assist appropriately in the infant’s or toddler’s development, as identified in the infant or toddler’s individualized family service plan (IFSP), in any one or more of the following areas, including:

- Physical development;
- Cognitive development;
- Communication development;
- Social or emotional development; or
- Adaptive development.

"Electronic signature" - A signature in electronic form attached to or associated with an electronic record including, but not limited to, a digital signature.

Evaluation – Procedures used in accordance with WAC 392-172A-03005 through 392-172A-03080 to determine whether a child has a disability, and the nature and extent of the special education and related services that the child needs. [\(WAC 392-172A-01070\)](#)

Evaluation Report – See [WAC 392-172A-03035](#).

Fee-for-Service – See [WAC 182-500-0035](#).

Habilitation – Services that address cognitive, social, fine motor, gross motor, or other skills that contribute to mobility, communication, and performance of activities of daily living skills (ADLs) to enhance the quality of life.

Handwritten signature – A scripted name or legal mark of an individual on a document to signify knowledge, approval, acceptance, or responsibility of the document.

Health care common procedure coding system (HCPCS) – Standardized coding system that is used primarily to identify products, supplies, and services not included in the CPT codes.

Health care-related services – Developmental, corrective, and other supportive services required to assist an eligible child to benefit from special education. For the purpose of the School-Based Health Care Services program, related services include audiology, counseling, nursing, occupational therapy, physical therapy, psychological assessments, and speech-language therapy.

Individuals with Disabilities Education Act (IDEA) – A United States federal law that governs how states and public agencies provide early intervention, special education, and related services to children with disabilities. It addresses the educational needs of children with disabilities from birth through age 20.

Individualized Education Program (IEP) – A written educational program for a child, who is age three through twenty and eligible for special education. An IEP is developed, reviewed, and revised in accordance with [WAC 392-172A-03090](#) through [392-172A-03135](#). ([WAC 392-172A-01100](#))

Individualized family service plan (IFSP) - A plan for providing early intervention services to a child, birth through age two, with a disability or developmental delay and the child's family. The IFSP is based on the evaluation and assessment described in 34 CFR 303.321 and includes the content specified in 34 CFR 303.344. The IFSP is developed under the IFSP procedures in 34 CFR 303.342, 303.343, and 303.345.

Medically necessary – See [WAC 182-500-0070](#).

National Provider Identifier (NPI) – See [WAC 182-500-0075](#).

Qualified health care provider – See [WAC 182-537-0350](#).

Recipient Aid Category (RAC) – Categories assigned to a Medicaid recipient that are used to assign benefits.

Reevaluation – Procedures used to determine whether a child continues to be in need of special education and related services. See [WAC 392-172A-03015](#).

Rehabilitation – Services provided to address a child's physical, sensory, and mental capabilities lost due to an injury, illness, or disease. Services are prescribed in the IEP or IFSP and are designed to assist a child in compensating for deficits that cannot be reversed medically.

School-Based Health Care Services Program (SBHS) – School-based health care services for infants and toddlers receiving early intervention services and children who require special education services which are diagnostic, evaluative, habilitative, and rehabilitative in nature; are based on the child’s medical needs; and are included in the child’s IEP or IFSP. The agency pays school districts for school-based health care services delivered to Medicaid-eligible children who require special education services under Section 1903 (c) of the Social Security Act, and Individuals with Disabilities Education Act (IDEA) Part B (3 through 20 years of age) and Part C (birth through 2 years of age)

School-Based Health Care Services Program Specialist or SBHS Specialist- An individual identified by the agency who is responsible for managing the SBHS program.

Signature log - A typed list that verifies a licensed provider's identity by associating each provider's signature with their name, handwritten initials, credentials, license and national provider identification (NPI) numbers.

Special education – See [WAC 392-172A-01175](#).

Supervision - Supervision that is provided by a licensed health care provider either directly or indirectly in order to assist the supervisee in the administration of health care-related services outlined in the IEP or IFSP.

Telemedicine – See [WAC 182-531-1730](#).

Program Overview

What is the purpose of this billing guide?

The purpose of this billing guide is to provide program policy and guidance to contracted school districts in order to successfully implement and maintain the School-Based Health Care Services (SBHS) program to receive Medicaid reimbursement. The billing guide does not supersede federal Centers for Medicare and Medicaid (CMS) policy.

What is the purpose of the SBHS program?

[WAC 182-537-0100](#)

The Health Care Authority (the agency) pays school districts for school-based health care services (SBHS) provided to children who require special education services consistent with Sections [1905\(a\)](#) and [1903 \(c\)](#) of the Social Security Act. The services must do all of the following:

- Identify, treat, and manage the education-related disabilities (mental, emotional, and physical) of a child who requires special education services
- Be prescribed or recommended by a physician or other licensed health care provider operating within the provider's scope of practice under state law
- Be medically necessary
- Be diagnostic, evaluative, habilitative, or rehabilitative in nature
- Be included in the child's current Individualized Education Program (IEP) or Individualized Family Service Plan (IFSP)
- Be provided in a school setting

Who pays for SBHS?

School districts may not charge parents for the costs of SBHS included in a child's IEP or IFSP. The school receives federal, state, and local funding to cover the costs of these services so the child may receive a Free and Appropriate Public Education (FAPE) as required by law.

Parents should understand that allowing the school to charge for their child's in-school services does not in any way minimize Medicaid services the child receives outside of school. Parents are encouraged to confirm that private insurance is not affected (lifetime caps, etc.). Parents are not required to enroll in Medicaid or insurance programs in order for their child to receive a FAPE under Part B of the Individuals with Disabilities Education Act (IDEA). See [34 C.F.R. 300.154](#).

Client Eligibility

Children who require special education services must be receiving Title XIX Medicaid under a categorically needy program (CNP) or medical needy program (MNP) to be eligible for school-based health care services.

How can I verify a child's eligibility?

Providers must verify that a patient has Washington Apple Health coverage for the date of service, and that the client's benefit package covers the applicable service. This helps prevent delivering a service the agency will not pay for. Verifying eligibility is a two-step process:

Step 1. Verify the patient's eligibility for Washington Apple Health. For detailed instructions on verifying a patient's eligibility for Washington Apple Health, see the *Client Eligibility, Benefit Packages, and Coverage Limits* section in the agency's current [ProviderOne Billing and Resource Guide](#).

If the patient is eligible for Washington Apple Health, proceed to **Step 2**. If the patient is **not** eligible, see the note box below.

Step 2. Verify service coverage under the Washington Apple Health client's benefit package. To determine if the requested service is a covered benefit under the Washington Apple Health client's benefit package, see the agency's [Program benefit packages and scope of services](#) web page.

Note: Patients who are not Washington Apple Health clients may submit an application for health care coverage in one of the following ways:

1. By visiting the Washington Healthplanfinder's website at: www.wahealthplanfinder.org
2. By calling the Customer Support Center toll-free at: 855-WAFINDER (855-923-4633) or 855-627-9604 (TTY)
3. By mailing the application to:
Washington Healthplanfinder
PO Box 946
Olympia, WA 98507

In-person application assistance is also available. To get information about in-person application assistance available in their area, people may visit www.wahealthplanfinder.org or call the Customer Support Center.

Are clients enrolled in an agency-contracted managed care organization eligible?

Yes. SBHS for eligible clients enrolled in an agency-contracted managed care organization (MCO) are covered under Washington Apple Health fee-for-service. Bill the agency directly for all SBHS provided to eligible agency-contracted MCO clients.

Which recipient aid category (RAC) codes are not eligible for reimbursement?

The agency reimburses school districts for medically necessary SBHS provided to children receiving Title XIX Medicaid. Districts are responsible for conducting monthly eligibility checks since student eligibility can change from one month to the next. The following RAC codes are not eligible for reimbursement through the SBHS Program:

1032	1179	1189	1211-1213
1033	1184	1193-1195	
1138-1142	1185	1206	
1176	1187	1207	

Provider Qualifications

Who may provide school-based health care services (SBHS)?

[WAC 182-537-0350](#)

The agency pays school districts to provide certain healthcare-related services (see [Coverage](#)). These services must be delivered by a qualified health care provider who meets federal and state licensing and certification requirements and who is enrolled with the agency under [Chapter 182-502 WAC](#) and holds a current professional license.

School districts must ensure that health care providers meet professional licensing and certification requirements. Each provider must have their own individual national provider identifier (NPI) and be enrolled as a servicing provider under the school district’s NPI in the agency’s ProviderOne system.

Services	Provider Qualifications
Audiology	Audiologists must meet requirements of Chapter 246-828 WAC and Chapter 18.35 RCW
Counseling	<p>The following counseling professionals must meet requirements of Chapter 246-809 WAC and Chapter 18.225 RCW:</p> <ul style="list-style-type: none"> Licensed independent clinical social workers (LiCSW) Licensed advanced social workers (LiACSW) Licensed mental health counselors (LMHC) Licensed mental health counselor associates (LMHCA) under the direction and supervision of a qualified LiCSW, LiACSW, or LMHC.
Nursing Services	<p>The following nursing professionals must meet requirements of Chapter 246-840 WAC and Chapter 18.79 RCW:</p> <ul style="list-style-type: none"> Licensed registered nurses (RN) Licensed practical nurses (LPN) under the direction and supervision of a qualified RN Exception: Non-credentialed school employees who are delegated certain limited health care tasks by an RN and are supervised according to professional practice standards in RCW 18.79.260

School-Based Health Care Services (SBHS)

Occupational Therapy	The following occupational therapy professionals must meet requirements of Chapter 246-847 WAC and Chapter 18.59 RCW : Licensed occupational therapists (OT) Licensed occupational therapist assistant (OTA) under the direction and supervision of a qualified OT
Physical Therapy	The following physical therapy professionals must meet requirements of Chapter 246-915 WAC and Chapter 18.74 RCW : Licensed physical therapists (PT) Licensed physical therapist assistants (PTA) under the direction and supervision of a licensed PT
Psychology	Psychologists must meet requirements of Chapter 246-924 WAC and Chapter 18.83 RCW
Speech Therapy	The following speech language pathology professionals must meet requirements of Chapter 246-828 WAC and Chapter 18.35 RCW : Licensed speech-language pathologists (SLP) Speech-language pathology assistants (SLPA) under the direction and supervision of a licensed SLP

Licensing exemptions

The licensing exemptions found in the following regulations do not apply to federal Medicaid reimbursement:

- Counseling as found in RCW 18.225.030
- Psychology as found in RCW 18.83.200
- Social work as found in RCW 18.320.010
- Speech therapy as found in RCW 18.35.195

People providing services under these exemptions are not eligible for Medicaid reimbursement.

How do school districts enroll providers?

School districts must enroll licensed health care providers as servicing providers under the school district's NPI number before submitting claims to the agency. Failure to enroll licensed health care providers will result in denied claims.

- Each provider must obtain an NPI number from National Plan and Provider Enumeration System ([NPPES](#)).
- The school district's designated user of ProviderOne enrolls each provider in ProviderOne.
- The designated user of Provider One assigns a taxonomy code to each provider that indicates the provider's specialty. (See [Provider Taxonomy Codes](#))
- ProviderOne generates an application ID so that the school district may track the status of a provider's application.
- For assistance in enrolling providers, school districts can contact Provider Enrollment or Provider Relations. (See [Resources Available](#))

Provider supervision requirements

For services provided under the supervision of a physical therapist, occupational therapist, speech-language pathologist, nurse, counselor, or social worker, the following requirements apply:

- The nature, frequency, and length of the supervision must be provided in accordance with professional practice standards, and be sufficient to ensure a child receives quality services.
- The supervising provider must see the child face-to-face when services begin and at least once more during the school year.
- Supervisors are responsible for approving and cosigning all treatment notes written by the supervisee before submitting claims for payment.
- Documentation of supervisory activities must be recorded and available to the agency or its designee upon request.

Provider taxonomy codes

School districts must ensure that all providers have the correct taxonomy code listed in ProviderOne. Providers can have multiple taxonomy codes listed based on their specialty.

School districts must follow the coverage section of this billing guide and submit claims identifying the servicing provider using a provider taxonomy code for the following:

Service provider types	Servicing provider taxonomy codes
Audiologist	231H00000X
Licensed practical nurse	164W00000X
Mental health counselor	101YS0200X
Occupational therapist	225X00000X
Occupational therapist assistant	224Z00000X
Physical therapist	225100000X
Physical therapist assistant	225200000X
Psychologist	103TS0200X
Registered nurse	163WS0200X
Social worker	1041S0200X
Speech therapist	235Z00000X
Speech therapist assistant	2355S0801X

Note: Claims must include an identifying servicing provider taxonomy code and a billing provider taxonomy code (251300000X). The agency will deny claims with incorrect taxonomy codes.

Coverage

What is covered?

[WAC 182-537-0400](#)

The agency covers:

- Evaluations when the child is determined to have a disability and needs special education and health care-related services. The agency reimburses providers for evaluations resulting in an individualized education program (IEP) or individualized family service plan (IFSP).
- Reevaluations to determine whether a child continues to need special education and health care-related services.
- Health care-related services included in the child's IEP or IFSP, limited to:
 - ✓ Audiology services
 - ✓ Counseling services
 - ✓ Nursing services
 - ✓ Occupational therapy services
 - ✓ Physical therapy services
 - ✓ Psychological assessments
 - ✓ Speech-language therapy services

All covered services under this section may be provided through telemedicine as described in [WAC 182-531-1730](#).

Audiology services

Audiology services include:

- Assessing hearing loss
- Determining the range, nature, and degree of hearing loss; and including the referral for medical and other professional attention for restoration or rehabilitation due to hearing disorders
- Providing rehabilitative activities, such as speech restoration or rehabilitation, auditory training, hearing evaluation and speech conversation, and determining the need for individual amplification

Listed below are the descriptions of covered audiology services with the corresponding CPT® codes.

Note: If no time is listed in the short description or comments column, the procedure code is untimed See [Using Timed and Untimed Procedure Codes](#).

School-Based Health Care Services (SBHS)

Use codes T1002 and T1003 when billing for the following services. Covered nursing services include but are not limited to:

- Blood glucose testing and analysis
- Bowel/diarrhea/urination care (including colostomy care)
- Catheterization care
- Chest wall manipulation/postural drainage
- Dressing/wound care
- Feeding by hand (oral deficits only)
- Intravenous care/feedings
- Medication administration: oral, enteral, parenteral inhaled, rectal, subcutaneous, and intramuscular. Also includes eye drops and ear drops.
- Nebulizer treatment
- Pump feeding
- Seizure management
- Stoma care
- Testing oxygen saturation levels and adjusting oxygen levels
- Tracheostomy care
- Tube feedings
- Vital signs monitoring

Psychological assessments

Psychological assessments include psychological and developmental testing and therapy.

Listed below is the description of the covered psychological service with the corresponding billing code.

What is telemedicine?

WAC [182-531-1730](#)

Telemedicine is when a qualified health care provider uses HIPAA-compliant, interactive, real-time audio and video telecommunications (including web-based applications) to deliver covered services that are within the provider’s scope of practice to a client at a site other than the site where the provider is located.

When does the agency cover telemedicine?

The agency covers telemedicine when it is used to substitute for an in-person face-to-face, hands-on encounter for only those services specifically listed in this billing guide. The provider furnishing services via telemedicine must be enrolled as a servicing provider under the school district’s billing national provider identifier (NPI).

Originating site (location of client)

An originating site is the physical location of the client at the time the service is provided by a licensed professional through telemedicine. For the SBHS program, the approved originating site is the school.

Distant site (location of consultant)

A distant site is the physical location of the qualified health care provider providing the service to a client through telemedicine

Billing for services provided via telemedicine

When the originating site is a school and the provider at the distant site is enrolled as a provider with the school district, the school district submits a claim on behalf of both the originating and distant site.

The school district bills for the telemedicine facility fee using HCPCS code Q3014 as well as the CPT code for the service provided. Schools must use the appropriate CPT code **with modifier GT** when submitting claims to the agency for payment. The payment amount for the service provided is equal to the current fee schedule amount.

Note: To receive payment for the facility fee, HCPCS code Q3014 must be billed on the same claim as the corresponding CPT code. Treatment notes must clearly reflect when services were provided via telemedicine.

What is not covered?

[WAC 182-537-0500](#)

It is the responsibility of the school district to contact the SBHS Program Specialist for questions regarding covered and noncovered services. Noncovered services include, but are not limited to the following:

- Applied behavioral analysis (ABA) therapy
- Attending meetings
- Charting
- Equipment preparation
- Evaluations that do not result in an IEP or IFSP
- Instructional assistant contact
- Observation
- Parent consultation
- Parent contact
- Planning
- Preparing and sending correspondence to parents or other professionals
- Professional consultation
- Report writing
- Review of records
- School district staff accompanying a child who requires special education services to and from school on the bus
- Teacher contact
- Test interpretation
- Travel and transporting

Payment

What are the requirements for payment?

[WAC 182-537-0600](#)

To receive payment from the agency for providing school-based health care services (SBHS) to eligible children, a school district must:

Have a current, signed core provider agreement (CPA) with the agency.

Have a current, signed, and executed interagency agreement with the agency.

- Meet and comply with the applicable requirements in [Chapter 182-502 WAC](#).
- Enroll providers as a servicing provider under the district's billing NPI and ensure providers have their own National Provider Identifier (NPI).
- Comply with the agency's current [ProviderOne Billing and Resource Guide](#).
- Bill according to the SBHS Billing Guide, the [SBHS Fee Schedule](#), and the intergovernmental transfer (IGT) process. After school districts receive their invoice from the agency, they have 120 days to provide the agency with their local match.
- Meet the applicable requirements in [Chapter 182-537 WAC](#).
- Provide only health care-related services identified in a current individualized education program (IEP) or individualized family service plan (IFSP).
- Use only qualified health care professionals, as described in this billing guide, who are acting within the scope of their license or certification according to [Provider Qualifications](#).
- Meet the documentation requirements in this billing guide (see [Documentation](#)).

Documentation

What documentation requirements are there for school districts?

[WAC 182-537-0700](#) and [182-502-0020](#)

Providers must document all school-based health care services (SBHS) as specified in this billing guide. Sufficient documentation to justify billed claims must be maintained for at least 6 years from the date of service.

Maintaining records in an electronic format is acceptable. Each school district is responsible for determining what standards are consistent with state and federal electronic record requirements.

Records for each student must include:

- Professional assessment reports completed by a licensed professional.
- Evaluation and reevaluation reports. A comprehensive individualized education program (IEP) or individualized family service plan (IFSP).
- Attendance records for each student receiving services.
- Treatment notes. Treatment notes must include the:
 - ✓ Child's name
 - ✓ Child's date of birth
 - ✓ Child's ProviderOne client ID
 - ✓ Date of service, and for each date of service:
 - Time-in
 - Time-out
 - A corresponding procedure code(s) and number of billed units for each service provided
 - A description of each service provided
 - The child's progress related to each service
 - Whether the treatment described in the note was individual or group therapy

School-Based Health Care Services (SBHS)

- All required documentation and treatment notes for each date of service require the licensed provider's printed name, handwritten or electronic signature, and title.
- Assistants, as defined in the Provider Qualifications section of this billing guide, who provide health care-related services, must have their supervisor cosign all documentation in accordance with the supervisory requirements for the provider type.
- As described in [WAC 182-502-0020](#), all records must be easily and readily available to the agency upon request.

Note: If a school district contracts with a billing agent, the agency does not require the servicing provider to sign for each date of service on the service log. One signature per page is acceptable only if the service log is used as backup documentation to the treatment notes.

Signature requirements

The provider's signature on all records and treatment notes verifies the services have been accurately and fully documented, reviewed, and authenticated. It confirms the provider has certified the medical necessity and reasonableness for the service(s) provided.

For a signature to be valid, the following criteria must be met:

- Signatures are handwritten, electronic, or stamped (stamped signatures are permitted only in the case of an author with a physical disability who can provide proof of an inability to sign due to a disability).
- Signatures must be legible.

Signature log

School districts must maintain a signature log to support signature identity, which must include the provider's:

- Printed name.
- Handwritten signature.
- Initials.
- Credentials.
- License number.
- NPI number.

Note: If a provider has various signatures, all versions of the provider's signature must be included on the signature log.

School districts are responsible for the accuracy of the signature log. This log does not need to be provided to the agency, but must be kept on file at the school and made available for all monitoring activities.

A sample signature log is available on the [SBHS website](#).

Electronic Signatures

The school district and the person whose name is represented by the electronic signature are responsible for the authenticity of the signature. Each school district should recognize the potential for misuse or abuse when using electronic signatures and should determine, at its own risk, what standards are consistent with state and federal electronic requirements. School districts should develop policies and procedures to ensure complete, accurate, and authentic records. These policies and procedures should include:

- Security provisions to prevent the use of an electronic signature by anyone other than the licensed provider to which the electronic signature belongs.
- Procedures that follow recognized standards and laws that protect against modification.
- Protection of the privacy and integrity of the documentation.
- A list of which documents will be maintained and signed electronically.

What documents are due to the SBHS program specialist annually?

School districts must submit the [Annual Provider and Contact Update Form \(HCA 12-325\)](#) to the [SBHS program specialist](#) by October 31st of each year, and throughout the year as changes occur.

Note: School districts are not required to submit copies of licensure, NPI verification, and transcripts with the annual update form. However, these documents must be current and on file with the school district and available for review upon request.

Program Integrity

What program integrity activities does the agency conduct?

[WAC 182-537-0800](#)

To ensure compliance with program rules, the agency conducts program integrity activities under Chapter 182-502A WAC.

- School districts must participate in all program integrity activities.
- School districts are responsible for the accuracy, compliance, and completeness of all claims submitted for Medicaid reimbursement.
- The agency conducts reviews and recovers overpayments if a school district is found not in compliance with agency requirements according to RCWs [74.09.200](#), [74.09.220](#), and [74.09.290](#).

Billing and Claim Forms

Effective for claims billed on and after October 1, 2016

All claims must be submitted electronically to the agency, except under limited circumstances.

For more information about this policy change, see [Paperless Billing at HCA](#).

This billing guide still contains information about billing paper claims.

This information will be updated effective January 1, 2017.

How does third-party liability affect claims submitted to the agency?

[WAC 182-501-0200](#)

Providers must bill the child's primary insurance before seeking reimbursement from the agency for school-based health care services (SBHS). This means that knowing a child's eligibility status prior to billing is very important.

If the agency receives a bill for services provided to a child with primary insurance, the claim will be denied. Federal law makes Medicaid the payer of last resort.

The district may rebill a denied claim only after doing both the following:

- Receiving a denial letter or Explanation of Benefits (EOB) from the child's primary insurance carrier.
- Forwarding the written denial with the claim to the agency's [Coordination of Benefits](#) section.

School districts may choose not to bill the agency for services provided to special education children who have third-party insurance. However, the school district must:

- Bill third-party carriers before billing the agency.
- Have on file at the school district written consent from the child's parent or guardian to bill their insurance carrier.

When the agency is being billed, follow the instructions found in the agency's [ProviderOne Billing and Resource Guide](#).

What is the intergovernmental transfer process (IGT)?

Schools are reimbursed for SBHS through an intergovernmental transfer process (IGT). IGT is the transfer of public funds between governmental entities. Public funds must be made up of state and local tax-based dollars. The SBHS program is funded by a 50/50 federal and nonfederal split. School districts must provide 60% (local match) of the nonfederal split. Once the local match is received from the school district, the agency releases claims for payment. The reimbursement includes the return local match along with the state matching funds (40%) and the federal funds. Schools must submit their local match within 120 days of receiving their A-19 invoice via email from the agency.

What is the National Correct Coding Initiative?

The agency follows the National Correct Coding Initiative (NCCI) policy. The Centers for Medicare & Medicaid Services (CMS) created this policy to promote national correct coding methods. NCCI assists the agency to control improper coding that may lead to inappropriate payment.

The purpose of the NCCI Procedure-to-Procedure (PTP) edits is to prevent improper payment when incorrect code combinations are reported. The purpose of the NCCI Medically Unlikely Edits (MUE) program is to prevent improper payments when services are reported with incorrect units of service.

NCCI rules are enforced by the ProviderOne payment system. More information on NCCI can be found on the [CMS website](#).

Procedure codes

The agency uses the following types of procedure codes within this billing guide:

- Current Procedure Terminology (CPT)
- Level II Healthcare Common Procedure Coding System (HCPCS)

Services performed must match the description and guidelines from the most current CPT or HCPCS manual for all covered SBHS.

Using untimed and timed procedure codes

School districts and providers are responsible for billing the appropriate procedure codes and units for the service(s) provided.

Untimed Codes

If a code’s short description does not include time, the code is billed as one unit regardless of how long the service takes, unless otherwise noted in the “comments” column of the [covered services tables](#). Providers should consult a current CPT or HCPCS manual, or the [CMS website](#) for additional guidance if needed.

The agency denies claims submitted for more than the maximum allowable units per day.

Timed Codes

For any code reimbursed based on time, each measure of time as defined by the code description equals one unit. A minimum eight minutes of service must be provided to bill for one unit. Partial units must be rounded up or down to the nearest quarter hour.

To calculate billing units for timed codes, count the total number of billable minutes for the calendar day for the eligible student and divide by 15 to convert to billable units of service. If the total billable minutes are not divisible by 15, the minutes are converted to one unit of service if they are greater than seven and converted to 0 units of service if they are seven or fewer minutes.

For example, $68 \text{ total billable minutes} / 15 = 4 \text{ units} + 8 \text{ minutes}$. Since the 8 minutes are more than 7 minutes, those 8 minutes are converted to one unit. Therefore, 68 total billable minutes = 5 units of service.

Examples:

Minutes	Units
0 min-7 mins	0 units
8 mins-22 mins	1 unit
23 mins-37 mins	2 units
38 mins-52 mins	3 units
53 mins-67 mins	4 units
68 mins-82 mins	5 units

How do I review my remittance advice (RA) and why is this important?

The remittance advice (RA) provides needed information for school districts to check the status of claims. It is important for school districts to review their RAs weekly to determine if claims were paid, determine if any claims were denied and review the explanation for the denial. School districts should contact the agency’s SBHS Program Specialist, Provider Relations Unit, or their billing agent with questions about denied claims (See [Resources Available](#)). Instructions on how to review the RA are available in the [ProviderOne Billing and Resource Guide](#).

How do I complete the CMS-1500 claim form?

Instructions on how to bill professional claims and crossover claims electronically can be found on the agency’s Billers and Providers web page, under Webinars. See [Medical provider workshop](#). Also, see Appendix I of the agency’s [ProviderOne Billing and Resource Guide](#) for general instructions on completing the CMS-1500 claim form.

The following CMS-1500 claim form instructions relate to school-based health care services providers.

Field No.	Name	Action
24b	Place of Service	Enter 03 School
24e	Diagnosis Code	Enter R69 (Illness, unspecified)
24f	Charges	If billing for more than one unit, enter the total charge of the units being billed.

Note: Using a place of service code other than 03 will result in denied claims.

Fee Schedule

The [SBHS Fee Schedule](#) provides information about procedure codes and the maximum allowable payment rate per unit. The agency updates the fee schedule as the national codes are updated. School districts are expected to check the agency’s website for the current program fee schedule.
