---

1 A blanket code is a service code the DSHS worker authorizes that is connected to one or more CPT® or HCPCS procedure codes. Social service providers may bill the agency using any procedure code connected to the blanket code, up to the maximum amount authorized. Both the blanket code and the maximum amount appear on the authorization letter DSHS sends to the social service provider.
2 Shared services are medical services shared between Washington Apple Health and the Department of Social and Health Services.
3 DDE stands for direct data entry.
Note: To prevent billing denials, check the client’s eligibility for other coverage before scheduling services and at the time of the service. See the agency’s ProviderOne Billing and Resource Guide for instructions on how to verify a client’s eligibility and how to request a limitation extension or exception to rule. Providers must exhaust other coverage before submitting a request for payment to the agency under a social services authorization.

National correct coding initiative

The agency continues to follow the National Correct Coding Initiative (NCCI) policy. The Centers for Medicare and Medicaid Services (CMS) created this policy to promote national correct coding methods. NCCI assists the agency to control improper coding that may lead to inappropriate payment. The agency bases coding policies on the following:

- The American Medical Association’s (AMA) CPT® manual
- National and local policies and edits
- Coding guidelines developed by national professional societies
- The analysis and review of standard medical and surgical practices
- Review of current coding practices

Procedure code selection must be consistent with the current CPT guidelines, introduction, and instructions on how to use the CPT coding book. Providers must comply with the coding guidelines that are within each section (e.g., E/M services, radiology, etc.) of the current CPT book.

The agency may perform a post-pay review on any claim to ensure compliance with NCCI. NCCI rules are enforced by the ProviderOne payment system. Visit the NCCI on the web.
