

# Changes coming to Washington Apple Health

With a shift to whole-person care, Apple Health (Medicaid) managed care plans will cover behavioral health treatment services (mental health and substance use disorder treatment), along with physical health services. Most clients will stay enrolled in their current health plan, unless that plan will not be an option in 2019 or 2020. In that case, HCA will auto-enroll clients to one of the offered plans.

The following map and table identifies which integrated managed care plans will be available within each region, including the statewide Foster Care program.

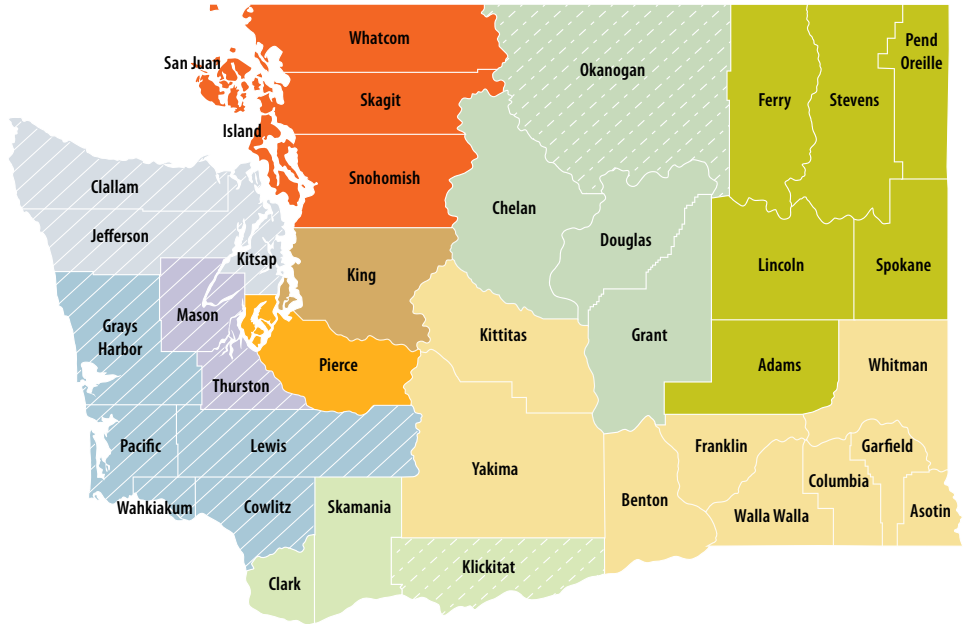

<b>January 2019</b>	<b>July 2019</b>
<ul style="list-style-type: none"> <li>Greater Columbia</li> <li>King</li> <li>Pierce</li> <li>Spokane</li> <li>Statewide Foster Care*</li> </ul>	<ul style="list-style-type: none"> <li>North Sound</li> </ul>
	<b>January 2020</b>
