

## Keep your Foster Care Alumni coverage active

Stay connected, stay covered!

Staying up-to-date and responding to timely notices will help you avoid losing your Apple (Medicaid) for Foster Care Alumni coverage.

### How do I keep my coverage active?

If your mail is returned or your contact information isn't up to date, your Apple Health for Foster Care Alumni coverage could close.

To avoid interruptions, choose email as your preferred way to receive notices and keep your contact details current in Washington Healthplanfinder:

1. Scan the QR code to the right or log in to your Washington Healthplanfinder account at [wahealthplanfinder.org](https://wahealthplanfinder.org).
2. Go to your communication preferences and select **email**.
3. Make sure your mailing address, phone number, and **email** are all up to date.

Choosing **email** helps you receive important updates on time, especially if you've moved or don't regularly check your mail. It's the easiest way to stay connected and stay covered.

### How do I update my contact information?

You have several options to update your information:

 **Online:** Visit Washington Healthplanfinder - log in and select "Report a change in income or household".

 **Phone:** Call the Foster Care Adoption Support team at 1-800-562-3022 (ext. 15480)

 **Email:** [fcas@hca.wa.gov](mailto:fcas@hca.wa.gov)

Scan the QR code and update your information today!
