

# Has health care coverage changed your life? Share your story.

Have you recently obtained health care coverage for the first time? Are you seeing a medical or dental provider instead of going to the emergency room? Can you fill prescriptions you couldn't afford before?

The Health Care Authority (HCA) and the Health Benefit Exchange (HBE) would like to hear your story. (HBE operates [www.wahealthplanfinder.org](http://www.wahealthplanfinder.org).)

We're looking for individuals in Washington State whose lives have changed for the better because they have Washington Apple Health coverage under expanded eligibility for families, children, pregnant women, and adults (especially younger adults).

With your permission, we'll use your testimonial on the Healthplanfinder or Health Care Authority website or in HCA's printed materials, or your story

and your photo could appear on the Health Benefit Exchange corporate site under "Share Your Story."

If you are interested, please provide your contact information and story at <http://wahbexchange.org/get-involved/share-your-story/> and we'll be in touch.

Thank you.
