OVERVIEW

Press Ganey (PG), a National Committee for Quality Assurance (NCQA) certified Healthcare Effectiveness Data and Information Set (HEDIS^{®)} Survey Vendor, was selected by Comagine Health to report its Measurement Year (MY) 2024 Consumer Assessment of Healthcare Providers and Systems (CAHPS)[®] 5.1H Medicaid Child Survey.

SURVEY OBJECTIVE The overall objective of the CAHPS® study is to capture accurate and complete information about consumer-reported experiences with health care. Specifically, the survey aims to measure how well plans are meeting their members' expectations and goals; to determine which areas of service have the greatest effect on members' overall satisfaction; and to identify areas of opportunity for improvement, which can aid plans in increasing the quality of provided care.

2025 NCQA CHANGES NCQA made no substantial changes to the survey or program for 2025.

ACRONYMS

- BOB Book of Business
- All plans surveyed by Press Ganey, whether they submit to NCQA or not.
- CAHPS Consumer Assessment of Healthcare Providers and Systems
- Nationally run survey program aimed to measure consumer and patient experience with health care services.
- HEDIS Healthcare Effectiveness Data and Information Set
 - A widely used set of performance metrics in the managed care industry.
- HPR Health Plan Rating
 - 5 Star Ranking System of HEDIS and CAHPS measure ratings, plus Accreditation bonus points rounded to the nearest half point.
- MCO Managed Care Organizations
 - Apple Health's MCOs are: Coordinated Care of Washington (CCW), Community Health Plan of Washington (CHPW), Molina Healthcare of Washington (MHW), UnitedHealthcare Community Plan (UHC), and Wellpoint Washington, Inc. (WLP).
- MY Measurement Year
 - The 2024 calendar year is referred to as the measurement year 2024. While the survey was fielded in 2025, the assessment is of services provided in 2024.
- NCQA National Committee for Quality Assurance
 - Government Agency aimed to improve the quality of healthcare, oversees Commercial and Medicaid CAHPS surveys.
- PG Press Ganey
- Certified CAHPS Vendor, purchased SPH Analytics in 2021.
- QC Avg. NCQA Quality Compass
- National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance.
- SRS Summary Rate Score
 - Percentage of respondents answering Yes, Always or Usually, 9,10 or 8,9,10 for the corresponding scaled questions

EXECUTIVE SUMMARY

The Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey aims to measure how well managed care plan's are meeting their members' expectations and goals; determine which areas of service have the greatest effect on members' overall satisfaction; and identify areas of opportunity for improvement. Results of the survey provide consumers, purchasers, health plans, and state Medicaid programs with information about a broad range of key consumer issues. Data in this report was collected by Washington State managed care organization's (MCO's) from members who participate in Apple Health.

Scores for the State of Washington tend to fall below National Averages, consistent with the other states in their Health and Human Services Region (HHS) Region 10 – Seattle (Alaska, Oregon, Idaho and Washington).

The following 2025 Washington composite or rating scores for the Medicaid Child General population fall significantly below the 2024 Quality Compass Average (QC Avg.):

- **Rating of Health Plan**. Overall, 84.6% of Apple Health members rated their health plan highly, with a rating of 8, 9 or 10 out of 10, compared to the national average SRS of 86.3%.
 - ↑ MHW exceeded the national average with 87.0% of members rating the health plan highly.
 - Uther WA MCO's were below the national average: CCW (85.1%), CHPW (84.2%), UHC (81.8%), WLP (84.1%).
- → Rating of Health Care. Overall, 84.6% of Apple Health members rated their health care highly, with a rating of 8, 9 or 10 out of 10, which is below the national average SRS of 86.9%.
 - ↓ WA MCO's were below the national average: CCW (85.1%), CHPW (85.1%), MHW (82.4%), UHC (83.3%), WLP (85.0%).
- ↓ **Getting Needed Care.** Overall, 77.8% of Apple Health members reported being able to Always or Usually get care quickly which is below the national average SRS of 83.3%.
 - ↑ Highest rated MCO's: MHW and WLP members provided the highest ratings with 80.5% (MHW) and 82.6% (WLP).
 - Lowest rated MCO's: CCW, CHPW, and UHC members provided the lowest ratings with 69.8% (CCW), 75.1% (CHPW), and 71.2% (UHC).
- ↓ **Getting Care Quickly.** Overall, 81.6% of Apple Health members reported being able to Always or Usually get care quickly which is below the national average SRS of 86.3%.
 - ↑ Highest rated MCO's: MHW and WLP members provided the highest ratings with 85.1% (MHW) and 85.0% (WLP).
 - ↓ Lowest rated MCO'S: CCW, CHPW, and UHC members provided the lowest ratings with 78.1% (CCW), 76.6% (CHPW), and 75.5% (UHC).
- ↑ Care Coordination. Overall, 84.4% of Apple Health members reported feeling their personal doctor seemed well informed regarding care they received from other providers which is below the national average SRS of 83.5%
 - ↑ 3 of 5 plans, excluding CCW and MHW, exceed the national average, with CHPW being rated the highest at 93.3%.

EXECUTIVE SUMMARY

GENERAL POPULATION

While scores for the general child population in the State of Washington tend to fall below National Averages, performance varies by plan. The chart* below highlights plan performance and if performance has varied significantly from the previous year. More detailed findings are available in the Overall Ratings and Composites sections.

PRESS GANEY RECOMMENDATIONS

- Access remains at the top of the list for Key Drivers of Health Plan Satisfaction. Utilizing technology can help with access issues in rural areas:
 - Use text and email reminders to reduce no-shows and open slots for other patients.
 - Offer centralized scheduling hotlines for members who struggle with office navigation.
 - Deploy mobile apps for real-time provider availability and appointment booking.
 - Require timely access standards in contracts for high-demand specialties.
- Customer Service Measures increased importance in Key Drivers for 2025. Ensure Customer Service Representatives have the tools available to provide quick and accurate answers.
- Identifying and targeting high-risk members with a Case Manager can also be impactful.

Methodology slides highlight how surveys were delivered to members and the response rates.

IDENTIFYING THE CHILDREN WITH CHRONIC CONDITIONS (CCC) POPULATION

Response Rates for the CCC Population cannot be calculated given the methodology to identify members in the CCC Population. The supplemental sample contains members with a prescreen status code indicating the child is more likely to have chronic conditions based on claims records.

The CCC Population is identified by member responses to a set of screener questions in the survey tool. The respondent must answer "Yes" to all questions within at least one of the following health consequence sets and can be from either sample:

- 1. Does your child currently need or use medicine prescribed by a doctor (other than vitamins)? Is this because of any medical, behavioral, or other health condition? Is this a condition that has lasted or is expected to last for at least 12 months?
- 2. Does your child need or use more medical care, more mental health services, or more educational services than is usual for most children of the same age?

Is this because of any medical, behavioral, or other health condition?

Is this a condition that has lasted or is expected to last for at least 12 months?

3. Is your child limited or prevented in any way in his or her ability to do the things most children of the same age can do?

Is this because of any medical, behavioral, or other health condition?
Is this a condition that has lasted or is expected to last for at least 12 months?

- 4. Does your child need or get special therapy such as physical, occupational, or speech therapy? Is this because of any medical, behavioral, or other health condition?

 Is this a condition that has lasted or is expected to last for at least 12 months?
- 5. Does your child have any kind of emotional, developmental, or behavioral problem for which he or she needs or gets treatment or counseling?

Has this problem lasted or is it expected to last for at least 12 months?

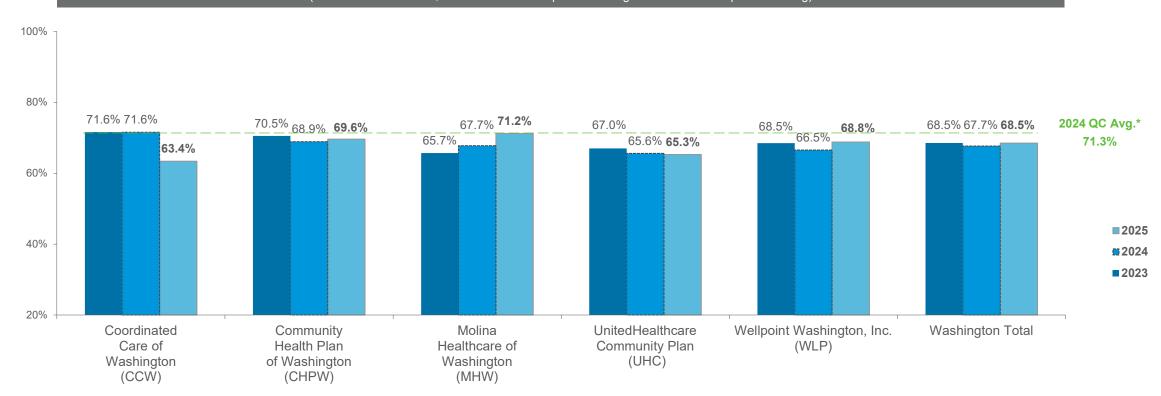

OVERALL RATINGS

A detailed look at questions using a 0-10 scale by each Health Plan and Total, along with comparison to last year's Quality Compass National Average.

HEALTH PLAN – PERCENT 9 OR 10

2025 Rating of Health Plan

% 9 or 10

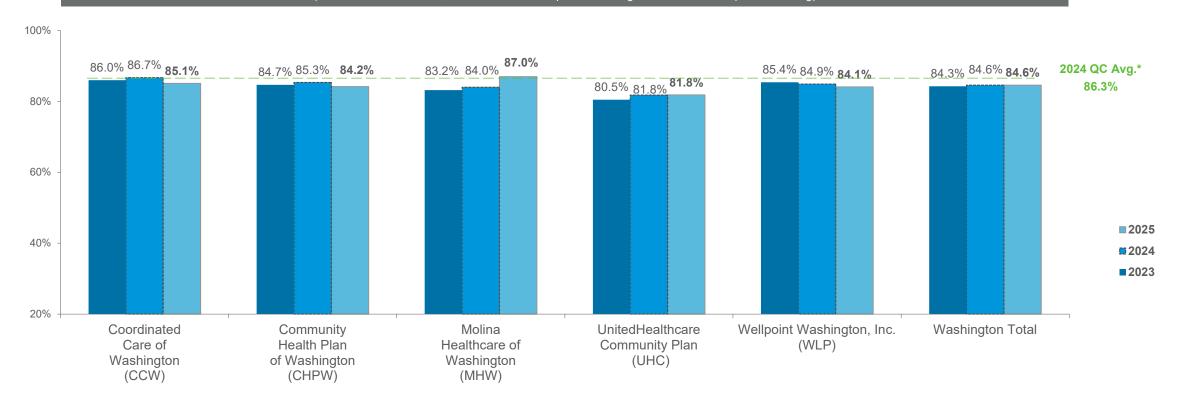

^{49.} Using any number from 0 to 10, where 0 is the worst health plan possible and 10 is the best health plan possible, what number would you use to rate your child's health plan?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

HEALTH PLAN - PERCENT 8, 9 OR 10

2025 Rating of Health Plan

% 8, 9 or 10

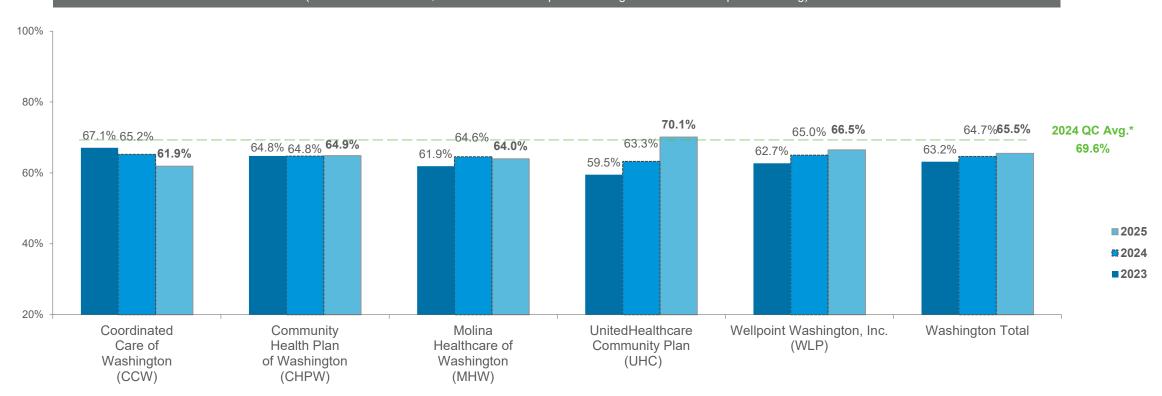

^{49.} Using any number from 0 to 10, where 0 is the worst health plan possible and 10 is the best health plan possible, what number would you use to rate your child's health plan?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

HEALTH CARE – PERCENT 9 OR 10

2025 Rating of Health Care

% 9 or 10

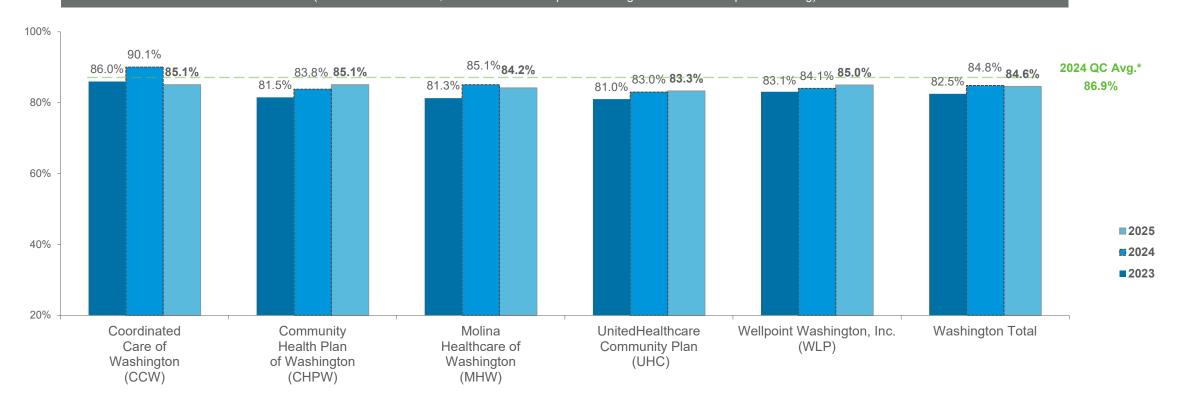

^{9.} Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your child's health care in the last 6 months?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

HEALTH CARE - PERCENT 8, 9 OR 10

2025 Rating of Health Care

% 8, 9 or 10

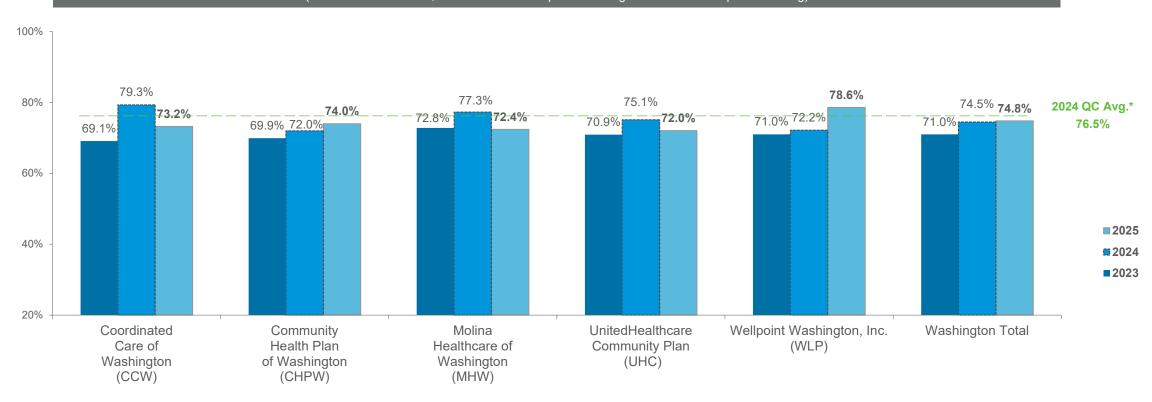

^{9.} Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your child's health care in the last 6 months?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

Personal Doctor – Percent 9 or 10

2025 Rating of Personal Doctor

% 9 or 10

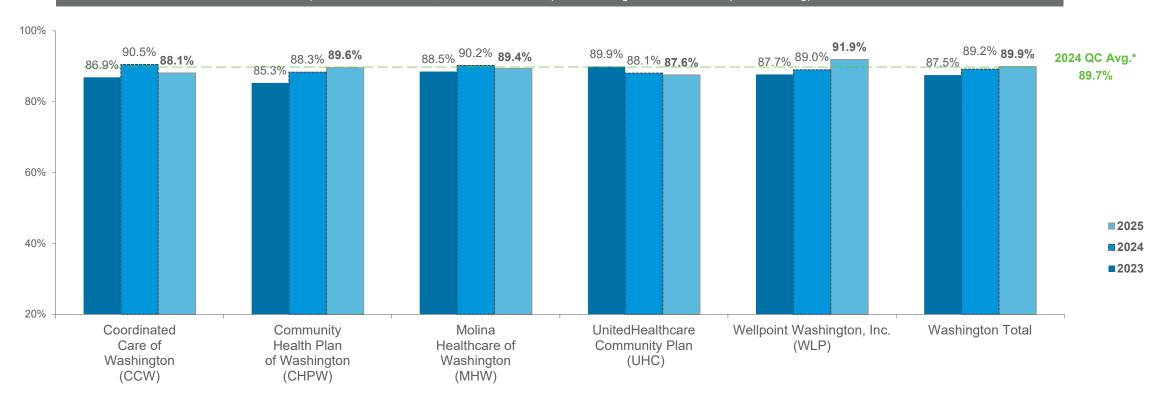

^{36.} Using any number from 0 to 10, where 0 is the worst personal doctor possible and 10 is the best personal doctor possible, what number would you use to rate your child's personal doctor?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

Personal Doctor – Percent 8, 9 or 10

2025 Rating of Personal Doctor

% 8, 9 or 10

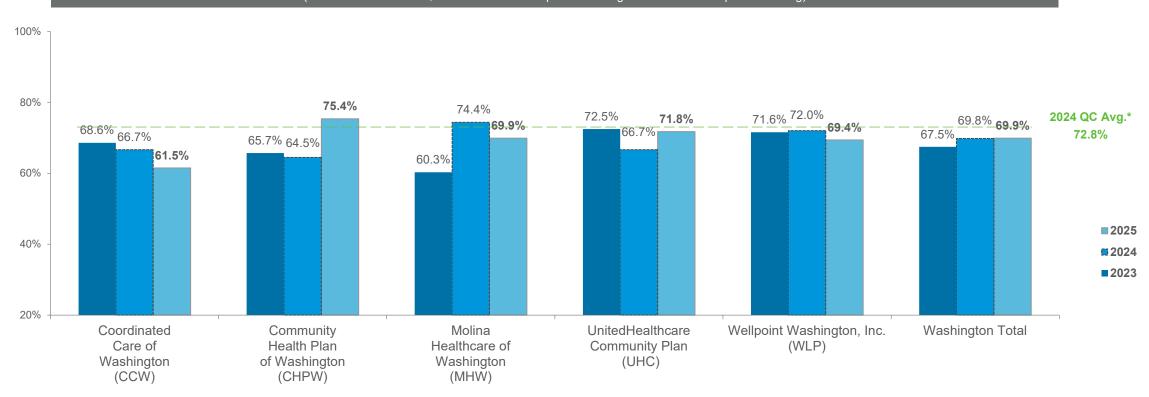

^{36.} Using any number from 0 to 10, where 0 is the worst personal doctor possible and 10 is the best personal doctor possible, what number would you use to rate your child's personal doctor?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

SPECIALIST – PERCENT 9 OR 10

2025 Rating of Specialist

% 9 or 10

^{43.} Using any number from 0 to 10, where 0 is the worst specialist possible and 10 is the best specialist possible, what number would you use to rate that specialist?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

SPECIALIST - PERCENT 8, 9 OR 10

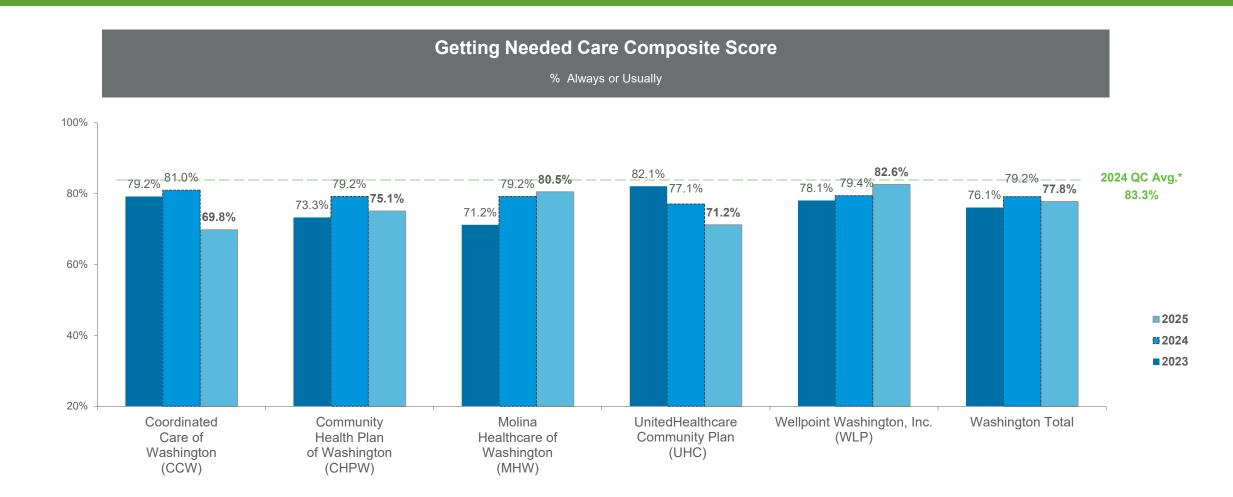

^{43.} Using any number from 0 to 10, where 0 is the worst specialist possible and 10 is the best specialist possible, what number would you use to rate that specialist?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

COMPOSITE SCORES

A detailed look at the Composite Scores using a 4-point frequency scale by each Health Plan and Total, along with comparison to last year's Quality Compass National Average. Multiple questions are evaluated together to create the overall Composite Scores.

GETTING NEEDED CARE

^{10.} In the last 6 months, how often was it easy to get the care, tests, or treatment your child needed?

^{41.} In the last 6 months, how often did you get appointments for your child with a specialist as soon as he or she needed?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

GETTING CARE QUICKLY

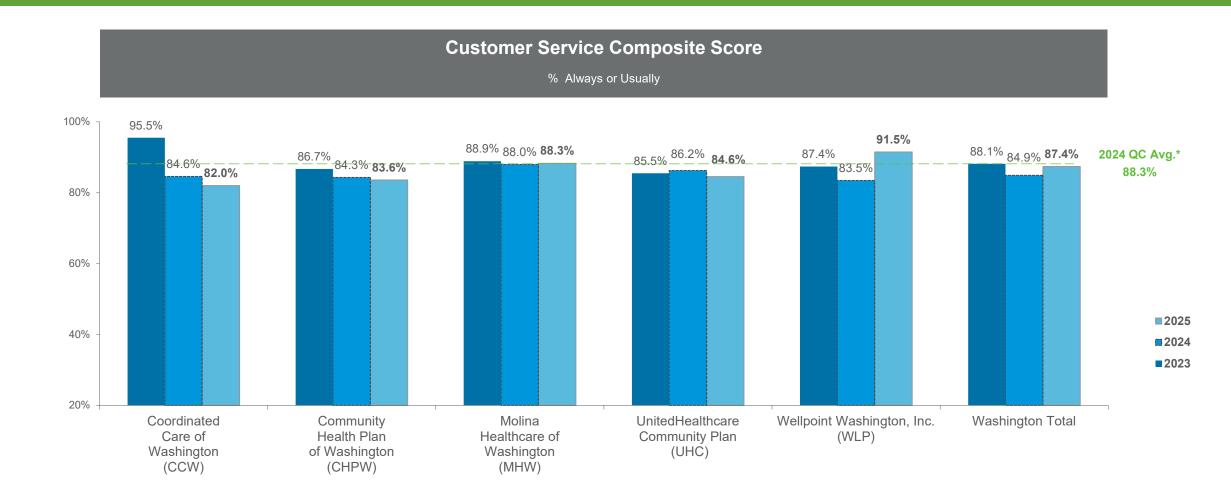

^{4.} In the last 6 months, when your child needed care right away, how often did your child get care as soon as he or she needed?

^{6.} In the last 6 months, how often did you get an appointment for a check-up or routine care for your child as soon as your child needed?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

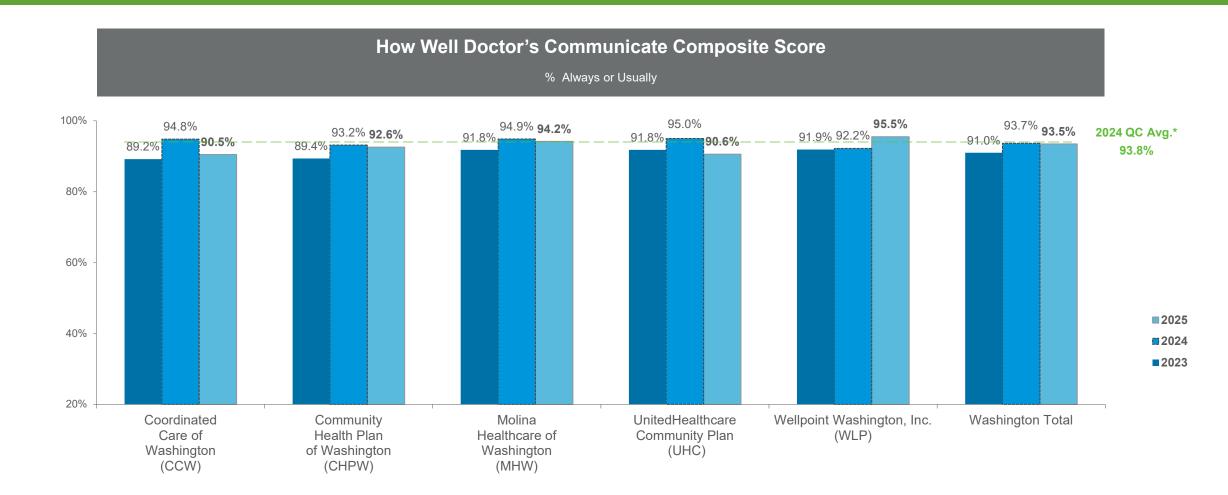

CUSTOMER SERVICE

^{45.} In the last 6 months, how often did customer service at your child's health plan give you the information or help you needed?
46. In the last 6 months, how often did customer service staff at your child's health plan treat you with courtesy and respect?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

How Well Doctors Communicate

^{27.} In the last 6 months, how often did your child's personal doctor explain things about your child's health in a way that was easy to understand? 29. In the last 6 months, how often did your child's personal doctor show respect for what you had to say?

^{28.} In the last 6 months, how often did your child's personal doctor listen carefully to you?32. In the last 6 months, how often did your child's personal doctor spend enough time with your child?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

CARE COORDINATION

^{35.} In the last 6 months, how often did your child's personal doctor seem informed and up-to-date about the care your child got from these doctors or other health providers?

^{*} QC Avg.: "National Average of all plans submitting to NCQA published in the fall of that reporting year. Used to gauge individual plan performance during the following year."

ESTIMATED PERFORMANCE TO STAR CUT POINTS

A look at plan performance to NCQA Star Cut Points and a Dashboard Summary of all measures of Plan Performance.

OVERVIEW OF TERMS

Summary Rates (SRS) are defined by NCQA in its HEDIS MY 2024 CAHPS® 5.1H guidelines and generally represent the most favorable response percentages.

Percentile Rankings Your plan's approximate percentile rankings in relation to the Quality Compass[®] All Plans benchmark were calculated by Press Ganey using information derived from the NCQA 1-100 Benchmark.

PG Benchmark Information The source for data contained within the PG Book of Business is all submitting plans that contracted with PG for MY 2024. Submission occurred on May 23rd, 2025.

NCQA Benchmark Information The source for data contained in this publication is Quality Compass® All Plans 2024. It is used with the permission of NCQA. Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass® is a registered trademark of NCQA.

Small Denominator Threshold NCQA will assign a measure result of NA to overall ratings or composites with a denominator (i.e., the average number of responses across all questions used to calculate the composite) less than 100.

Significance Testing All significance testing is performed at the 95% confidence level using a t-test for mean scores and z-test for percentages. The following notation is used to highlight significant differences.

Performance Priorities highlight the relative importance of a SRS based on its correlation to Health Plan Rating and Plan Performance

- Wait: These items are less important and performance is below average. Address them after more critical issues have been resolved.
- Retain: These items have a small impact but performance is above average. Maintain current performance levels.
- Power: These items have a large impact and performance is above average. Promote and leverage these strengths.
- Opportunity: These items have a large impact but performance is below average. Focus resources on improving the underlying processes.

POWER CHARTS

An analysis of the relative importance of elements that are key drivers of the rating of the health plan by using Key Driver Statistical Models analyze relative importance based on correlation to Health Plan Rating and Plan Performance.

POWER CHART

POWeR™ CHART CLASSIFICATION MATRIX

The SatisActionTM key driver statistical model is a powerful, proprietary statistical methodology used to identify the key drivers of the rating of the health plan and provide actionable direction for satisfaction improvement programs. This methodology is the result of a number of years of development and testing using health care satisfaction data.

The model provides the following:

- Identification of the elements that are important in driving of the rating of the health plan.
- Measurement of the relative importance of each of these elements.
- Measurement of how well members think the plan performed on those important elements.
- Presentation of the importance/performance results in a matrix that provides clear direction for member satisfaction improvement efforts by the plan.

<u> </u>	RETAIN	POWER
Your plan performance Higher	Items in this quadrant have a relatively small impact on the rating of the health plan but performance is above average. Simply maintain performance on these items.	These items have a relatively large impact on the rating of the health plan and performance is above average. Promote and leverage strengths in this quadrant.
Lower Your plan p	These items are somewhat less important than those that fall on the right side of the chart and, relatively speaking, performance is below average. Dealing with these items can wait until more important items have been dealt with.	Items in this quadrant have a relatively large impact on the rating of the health plan but performance is below average. Focus resources on improving processes that underlie these items.
	WAIT	OPPORTUNITY
