

# Extended Dependent Certification

## Guidelines for Extended Dependent Approval

An extended dependent is a child who is not your child through birth, adoption, marriage, or a state-registered domestic partnership. Some examples of extended dependents include, but are not limited to, a grandchild, niece, or nephew for whom you, your spouse, or state-registered domestic partner are the legal guardian or have legal custody (WAC 182-12-260[h]). The following guidelines determine if the child you want to enroll qualifies as an extended dependent:

1. The child's official residence must be with the guardian or custodian;
2. You must provide a valid court order showing that you have legal custody, guardianship, or temporary guardianship; and
3. The child cannot be a foster child for whom support payments are being made through the Department of Social and Health Services (DSHS) foster care program.

The child is not eligible for coverage as an extended dependent if the above requirements are not met. If these guidelines are met, the child may be eligible; however, the Health Care Authority (HCA) will determine eligibility using the information you submit on this form and the legal documents you submit with this form.

The table below shows you how to certify or recertify an extended dependent. The *Extended Dependent Certification* form begins on the next page.
