Big Picture State Budget Background

• The most recently enacted state operating budget for the current ‘19–’21 biennium (ends June 2021):
  • Approximately $101.87B (~$50B is GF-S)*
  • Total approximate HCA expenditures $30B (~$6B is GF-S)
    • Includes non appropriated PEBB & SEBB money received via funding rates

• Total PEBB & SEBB Program claims & third-party admin costs:

</tr>
</thead>
<tbody>
<tr>
<td>PEBB Program</td>
<td>~$5.19B</td>
</tr>
<tr>
<td>SEBB Program</td>
<td>~$2.79B</td>
</tr>
</tbody>
</table>

• Combined PEBB & SEBB Program admin: ~$65.7M (0.82%)

*This is an estimate based on subtracting the Governor’s partial vetoes from the conference committee budget summary (http://leap.leg.wa.gov/leap/Budget/Detail/2020/hoSummary_0310.pdf)
COVID-19 Economic Impacts

• Combating the COVID-19 pandemic has taken a significant toll on the state’s economy

• On June 17, an official update on the state’s revenue forecast projected ~$9 billion less being collected over the next three fiscal years (July 2020 through June 2023)
Select Statewide Actions

• Freeze on hiring, personal services, and equipment purchases instituted May 18, 2020

• Voluntary Separation and Retirement Incentive Program guidelines revised to allow all state agency participation

• Furloughs being implemented (once per week from 6/28-7/25; once per month August through November)

• General wage increase of 3% planned for July 1 cancelled for agency directors, EMS, WMS, and exempt staff making more than $53,000 a year
Spring 2020 Budget Option Directions

• In mid-May, OFM identified $462M in General-Fund State (GF-S) expenditures as savings target for HCA in FY21*

• This represents a 15% GF-S reduction target for HCA

• The PEBB and SEBB Programs are not directly funded by GF-S appropriations, therefore a specific reduction target was not provided for these programs

• However, all parts of government were asked to identify savings options to contribute to a combined target of $1.9B for FY21

• On June 16, state agencies were directed to submit ’21-’23 budget proposals with 15% GF-S reductions to maintenance level funds

* See Appendix: May 13, 2020 OFM letter “Immediate actions to capture operating budget savings”
HCA’s Budget Options Submission

• In early June, HCA and other agencies submitted budget reduction options to OFM for the next several fiscal years

• HCA’s submission included options for all parts of the agency’s business, including the SEBB and PEBB Programs

• OFM began publishing agency submissions on its website* on June 8, 2020

* https://ofm.wa.gov/budget/state-budgets/state-agency-fiscal-year-2021-savings-options
HCA’s Budget Options Submission (cont.)

• The submitted savings options are not a formal proposal and do not necessarily reflect either the agency’s or Governor Inslee’s priorities.

• HCA’s ultimate goal is to preserve health care services for Washington residents to the extent possible, while the state addresses a significant revenue shortfall due to the COVID-19 pandemic.

• OFM and HCA will continue working together to refine proposed budget reductions for the Governor and the Legislature to consider for both FY21 and the ’21-’23 biennial budgets.
HCA’s Budget Options Submission (cont.)

• Several options require changes to state law

• Several options have potential collective bargaining agreement impacts

• Some options could be approved just by Board action

• Few options exist for the SEBB and PEBB Programs to make significant contributions to FY21
  • Most aspects of the program align with the calendar year, which is the midpoint of the state fiscal year
  • Even changes for January 2021 require decisions by the middle of 2020 to allow for implementation
SEBB & PEBB Program Submission Topics

• Benefits
  
  • Change or eliminate the wellness program
  
  • Change or eliminate the $250 employer contribution to a medical Flexible Spending Arrangement (FSA) for represented employees (PEBB only)
  
  • Introduce UMP Select additional medical plan offering (PEBB only)
  
  • Restructure Long-Term Disability (LTD) Benefit
  
  • Delay implementation of next Centers of Excellence (COE) bundle
  
  • Reduce Health Savings Account (HSA) employer contribution (PEBB only)
SEBB & PEBB Program Submission Topics (cont.)

• Eligibility
  • Increase the benefits maintenance eligibility rule from 8 hrs/month (PEBB only)

• State Funding
  • Change the Employer/Employee contribution split or formula
  • Introduce retiree MA-PD plans that access CMS funds to lower retiree premiums and explicit subsidy contributions
  • Change the Medicare explicit subsidy level and K-12 remittance
SEBB & PEBB Program Submission Topics (cont.)

• Administrative
  • Account for administrative fee reductions related to COVID-19 that are returned by carriers
  • Simplify the new PEBB-SEBB dual enrollment prohibition criteria
  • FTE reduction
  • Actuarial budget variance (SEBB only)
SEBB Program FY21 Timeline

• Fiscal Year ‘21 is July 1, 2020 - June 30, 2021

• To implement any program changes for the 2021 plan year, which could impact the second half of state FY21, would require action essentially now

• Many options require legislative action or impact the collective bargaining agreement

• There are a few options within the Board’s authority that could still be implemented in time to impact state FY21

TO: Agency Directors

FROM: David Schumacher  
Director

SUBJECT: IMMEDIATE ACTIONS TO CAPTURE OPERATING BUDGET SAVINGS

It has been more than six weeks since Washington began taking sweeping actions to combat the worst global pandemic in more than a century. The good news is these actions appear to be working to “flatten the curve” of COVID-19 cases and we are saving lives.

Unfortunately, these necessary efforts to combat the deadly coronavirus are taking a significant toll on our economy. We recently got our first glimpse of how state revenue collections will be impacted. As expected, the news was grim.

In an unofficial update to the state’s revenue forecast, the state’s chief economist projected that revenue collections over the next three fiscal years will be about $7 billion lower than was forecast less than three months ago. The unofficial revenue update on April 30 is based on incomplete data, and we won’t have official projections until the next state revenue forecast in June.

It is clear, however, that we must start taking steps now to confront this fiscal crisis. Even using all of the reserves, if the unofficial forecast holds true, we estimate the state would still face a $4.1 billion shortfall over the next three years.

Therefore, I am directing agencies to identify operating budget savings options from their fiscal year 2021 appropriations. OFM’s immediate combined savings options target is $1.9 billion. (See the attachment for specific agency targets.) All agencies are not listed because they have little opportunity for Near General Fund savings. However, all agencies should identify savings they can make on their own or which require legislation and must be included in a second supplemental budget.

In addition, all agencies should be planning to propose reductions as part of their 2021–23 budget submittals. Any reductions taken in a second supplemental budget may help alleviate the scale of the budget problem next biennium.

Today the governor issued a directive requiring agencies to place a freeze on new hires, personal services contracts and equipment purchases, effective May 18, 2020. Some agency savings will be realized by complying with the freeze.

In looking for additional savings, agencies should:

- Identify under-expenditures, premium adjustments and efficiencies
- Focus mainly on Near General Fund accounts, but consider all accounts for savings
- Use other funds in lieu of General Fund-State whenever possible
• Reduce, delay or eliminate programs
• Identify programs or services that do not meet your core mission
• Look for opportunities to immediately realize savings through program changes that you anticipate proposing in your 2021–23 budget requests

During this exercise, please also consider the following:
• Central services charge programs (would the action drive up central service costs?)
• Offsets to savings (does the reduction to one program move the problem and cost to another program?)
• Overlapping programs (does the reduction cross programs and/or agencies?)
• Timing of savings (how long would implementation of reductions actually take?)
• Are legislative changes required to implement any of the savings options?

Please work with your OFM budget analyst so they are prepared with options by June 1. Use this savings template to identify your savings options and send it to ofm.budget@ofm.wa.gov and your budget analyst. Any savings that can be realized now will require agencies to submit allotment amendments that reflect the reductions.

Although this budget savings options exercise applies to cabinet agencies, I urge the presidents of higher education institutions, boards and commissions, and our separately elected officials to undertake a similar budget savings exercise within their agencies and jurisdictions.

Thank you for your efforts on this challenging task.

Clarification Needed

At the May 7, 2020 SEB Board Meeting, during public comment, a question was raised about when a full- or part-time teacher moves to a substitute position in the next school year, why their prior teacher work is not included in a two-year look-back eligibility determination?
Discussion and Recommendation

- SEBB 2018-36, the resolution establishing the two-year look back eligibility applies to a school employee returning to the “same type of position”
- The type of work performed by two different positions may be the same or similar, but the positions are not the same if the work pattern is not the same (e.g., consistent schedule compared to an intermittent schedule)
- Working a consistent schedule in a prior school year is not predictive of the amount of work in a future intermittent position
- Based on this, we recommend clarifying the policy to reinforce how it’s currently being administered by SEBB Organizations:
  - School employees working a consistent schedule and school employees working an intermittent schedule are not working in the same type of position for the purpose of determining eligibility using the two-year look back method
Proposed Resolution SEBB 2020-09
Amending Resolution SEBB 2018-36
Eligibility presumed based on hours worked the previous two school years

SEBB 2018-36 is amended to add the following to the end of the second bullet: To count as the same type of position, both the type of work and the work pattern (consistent schedule compared to an intermittent schedule) must be similar between positions or combinations of positions from one year to the next. SEBB 2018-36 now reads:

A school employee is presumed eligible if they:
– worked at least 630 hours in each of the previous two school years; and
– are returning to the same type of position (teacher, paraeducator, food service worker, custodian, etc.) or combination of positions with the same SEBB Organization. To count as the same type of position, both the type of work and the work pattern (consistent schedule compared to an intermittent schedule) must be similar between positions or combinations of positions from one year to the next.

A SEBB Organization rebuts this presumption by notifying the school employee, in writing, of the specific reasons why the employee is not anticipated to work at least 630 hours in the current school year and how to appeal the eligibility determination.
Eligibility presumed based on hours worked the previous two school years

**Example:** Classified Employee (part-time bus driver)

A part-time bus driver earned eligibility in April during each of the prior two school years and is returning to a part-time bus driver position for the third year.

- Is she eligible for the employer contribution toward SEBB benefits when she returns to work in the same bus driver position for the third school year?  
  Yes, unless the SEBB Organization informs the bus driver, in writing, of the specific reasons why she is not anticipated to work at least 630 hours in the current school year.
Eligibility presumed based on hours worked the previous two school years

Example #2

**Example:** Classified Employee (part-time food service worker)

A part-time food service worker earned eligibility in April during each of the prior two school years and is returning to a part-time food service worker type position for the third year.

- Is he eligible for the employer contribution toward SEBB benefits when he returns to work in the same food service position for the third school year?  
  Yes, unless the SEBB Organization informs the food service worker, in writing, of the specific reasons why he is not anticipated to work at least 630 hours in the current school year.
Eligibility presumed based on hours worked the previous two school years

Example #1

Updated

Example: A bus driver (working an intermittent schedule)

A substitute bus driver working an intermittent schedule earned eligibility in April during each of the prior two school years and is returning to a substitute bus driver position for the third year working an intermittent schedule.

- Is she eligible for the employer contribution toward SEBB benefits when she returns to work in the same bus driver position for the third school year? Yes, unless the SEBB Organization informs the bus driver, in writing, of the specific reasons why she is not anticipated to work at least 630 hours in the current school year.
Eligibility presumed based on hours worked the previous two school years

Example #3

**Example:** Paraeducator moving from working an intermittent schedule to working a consistent schedule

A substitute paraeducator working an intermittent schedule earned eligibility in April during each of the prior two school years. He is returning to work for the same SEBB Organization in the upcoming year, but instead of working as a substitute, he has accepted a position to work a consistent schedule of four hours each school day as a paraeducator.

- Is he returning to work in the same type of position? **No, he went from an intermittent schedule to consistent schedule.**
- Is he eligible for the employer contribution toward SEBB benefits? **Yes, he is eligible because he is anticipated to work at least 630 hours in the school year, so the SEBB Organization would not use the two year look back eligibility rule to determine his eligibility.**
Eligibility presumed based on hours worked the previous two school years

Example #4

**Example:** Teacher moving from working a consistent schedule to working an intermittent schedule

A teacher worked a consistent schedule the previous ten school years and was eligible for benefits. The teacher will be working as a substitute teacher with an intermittent schedule during the upcoming school year at the same SEBB Organization and is not anticipated to work 630 hours.

- Is the teacher returning to work in the same type of position? **No, the teacher went from a consistent schedule to an intermittent schedule.**
- Is he eligible for the employer contribution toward SEBB benefits when he returns to work an intermittent schedule for the next school year? **No, because the teacher is not anticipated to work 630 hours.**
Eligibility presumed based on hours worked the previous two school years

Example #5

Example: Food service worker moving to new SEBB Organization

A substitute food service worker who worked an intermittent schedule earned eligibility in April during each of the prior two school years and is moving to a substitute food service worker type position with an intermittent schedule for the third year at a new SEBB Organization and is not anticipated to work 630 hours.

• Is the food service worker returning to work in the same type of position? Yes.

• Is she eligible for the employer contribution toward SEBB benefits when she returns to work in a food service position at a different SEBB Organization for the third school year? No, because the employee moved to a new SEBB Organization and is not anticipated to work 630 hours.
Eligibility presumed based on hours worked the previous two school years  
Example #6

**Example:** Teacher retiring and then returning to work

A teacher who worked a consistent schedule for the last twenty years with benefits, is going to retire on June 30, 2021, and she will return to the same SEBB Organization as a substitute teacher who works an intermittent schedule starting on the first day of school in September 2021, and is not anticipated to work 630 hours.

- Is the teacher returning to work in the same type of position? **No, she went from a consistent schedule to an intermittent schedule.**
- Is she eligible for the employer contribution toward SEBB benefits when she returns to work in the substitute teacher position with an intermittent schedule for the next school year? **No, not using the two-year look back rules and she is not anticipated to work 630 hours.**

• School employees, eligible as of February 29, 2020 will maintain their eligibility for SEBB Program benefits until the state of emergency ends, as long they remain a school employee as described in RCW 41.05.011 (6)(b).
COVID-19 and SEBB Program Eligibility

Public comment raised concerns that COVID-19 impacts on the 2019-2020 school year could negatively impact future application of the two-year look back method.

• Some school employees didn’t work 630 hours during the 2019-2020 school year, but might have if the school year had not been impacted by COVID-19.
• But for some school employees, especially those who work intermittent schedules, there is no guarantee they would have actually reached 630 hours of work.
• There are multiple scenarios that could have prevented eligibility from being reached between February 29 and the end of the 2019-2020 school year:
  – Some SEBB Organizations developed written policies limiting the number of hours for employees working intermittent work schedules.
  – A school employee may have intended to work additional hours, but decided themselves to withdraw or not request additional hours.
Possible Courses of Action (COA)

Options in response to the concerns that have been raised:

COA 1 – Use the current rules with no changes. For the 2019-2020 school year, count only the hours actually worked. Make no adjustments for the impact of the state of emergency on future applications of the two-year look back rule.

COA 2 – Count the 2019-2020 school year as a 630+ hours year (regardless of the actual number of hours worked), only for the purpose of the two-year look back rule, as long as the school employee was eligible for the employer contribution on February 29, 2020. If they were not eligible for the employer contribution on February 29, 2020, then use the current rules.

COA 3 – Count the 2019-2020 school year as a 630+ hours year (regardless of the actual number of hours worked), only for purposes of the two-year look back rule, as long as the school employee was scheduled with the SEBB Organization to work 630 hours.
Recommendation

COA 1 – Use the current rules with no changes. For the 2019-2020 school year, count only the hours actually worked. Make no adjustments for the impact of the state of emergency on future applications of the two-year look back rule.

Some reasons for this recommendation:
1. The two-year look back rule is already complex.
2. Maintaining consistent application among SEBB Organizations is important.
3. Developing policy exceptions based on emergent situations may have unintended consequences.
