UMP Prescription Benefit Emergency Medication Fill List

What is an “emergency fill”?

Emergency fill applies when the plan requires preauthorization for a drug and you need a limited amount immediately during the processing of the preauthorization request because a delay could result in emergency care, hospital admission or might seriously jeopardize your health or others in contact with you.

How does it work?

You must bring your prescription to a network pharmacy, and should state that you need an emergency fill while we process your preauthorization request.

Since preauthorization requests are usually resolved within three to five business days, emergency fills are for **up to** a 7-day supply. If your preauthorization request is denied, you will have to pay the full cost of the drug if you want to get it beyond the amount provided in the emergency fill.

The following applies to the drugs on this list:

- For UMP Achieve 1 and Achieve 2 members, you pay the coinsurance under the drug’s tier once you meet your prescription drug deductible.
- For UMP Plus members, you pay the coinsurance under the drug’s tier (no deductible).
- For UMP High Deductible members, you pay 15% of the drug’s allowed amount once you meet your deductible; you pay the full allowed amount for drugs until the deductible is met. Tiers do not apply.

TIP: You can find the following information by searching the *UMP Preferred Drug List* (PDL) at regence.com/ump/sebb/benefits/prescriptions, or by calling 1-888-361-1611 (TRS: 711):

- Tier of a drug (not applicable to UMP High Deductible)
 - Quantity limits for a drug
-

Note that the following limits still apply to these drugs:

- **Refill too soon:** This means that if you have a filled prescription for a drug (or its therapeutic equivalent), you cannot get an emergency fill until you have used 84% or more of the filled prescription.
- **Quantity limits:** You cannot get more than the stated quantity limit under an emergency fill. If you have a current filled prescription for a drug (or its therapeutic equivalent) and was filled to the quantity limit, you cannot get an emergency fill until you have used 84% or more of the filled prescription.

**This list does not include all drugs available as an emergency fill.*
