Quality care with you at the center

Our physician-led care teams work together to help keep you healthy by delivering high-quality, personalized care.

Great care from great doctors

Doctors at Kaiser Permanente come from some of the top medical schools, and many of them have practiced at leading hospitals across the country. No matter which personal doctor you choose, you'll be in highly skilled, experienced hands – and your health is their chief concern.

Choosing a doctor – your partner in health

We make it easy to find the doctor who's right for you – and you're free to change doctors at any time, for any reason. Your personal doctor is your biggest health advocate, and you'll work closely together to make decisions about your health.

Better care with a connected team

Your Kaiser Permanente doctor, nurses, and other specialists all work together to help keep you healthy. They're connected to each other, and to you, through your electronic health record. They know when you're due for a screening, what medications you're taking, and what tests you've had recently. This way, you get care tailored to your individual needs.

Personalized care for all patients

Care at Kaiser Permanente isn't one-size-fits-all. We believe your story, background, and values are as important as your health history. To deliver care that's sensitive to all cultures, ethnicities, and lifestyles, we:

- Strive to hire doctors and staff who speak more than one language
- Offer telephone interpretation services in more than 150 languages
- Train our care teams on how to connect with and care for people of all backgrounds

Washington Permanente Medical Group has been one of the top-ranked medical groups in Washington state for more than a decade.²

Great care, great results

From preventive screenings that help keep you healthy to high-quality care if you get sick, we've got you covered.

Preventive care to help keep you healthy

Preventive care is key to how we practice medicine at Kaiser Permanente. It can help you avoid some health issues and catch others before they become serious.

Your electronic health record plays a vital role – your preventive care services are tracked in the system, which triggers automatic reminders when you're due for your next screening. We'll let you know when to come in so you're free to focus on living your life.

Specialty care when you need it

Preventive care can help keep you healthy, but we're also here for you if you get sick or need specialty care. We have one of the largest multispecialty medical groups in the country, so we can connect you with the right specialist faster.

From high-quality maternity care to treatment for cancer, heart problems, and more, you get great doctors, the latest technology, and evidence-based care – all combined to help you recover quickly.

Support for ongoing conditions

If you're struggling with a condition like diabetes or asthma, you might be automatically enrolled in a disease management program for personal coaching and support. Or you can ask to be enrolled. With a well-rounded approach backed by proven best practices, we'll help you get the care you need to continue living life to the fullest.

A leader in clinical quality

In 2019, our Core HMO plan led the state in more than 11 critical care measures, including breast and cervical cancer screenings, controlling high blood pressure, and timely prenatal care. Some of these rates were among the highest in the country.³

Kaiser Permanente Washington's commercial HMO was rated the top-performing health plan in the state in the 2018 Washington Health Alliance eValue8™ survey. We led other health plans in the state with "helping members get and stay healthy," "helping members manage chronic conditions," and "helping members manage acute conditions."⁴
