### Want to talk? We're here to help.

A Kaiser Permanente enrollment specialist can answer your questions – like where to get care or what options are included. Call **1-800-514-0985** (TTY **711**), Monday through Friday, 7 a.m. to 6 p.m. Pacific time.

# Care centered around you

Care at Kaiser Permanente isn't one-size-fits-all. Our physician-led teams work together to help provide care tailored to your needs. Your care team is all part of the same network, helping make it easier to share information, see your health history, and deliver high-quality, personalized care – when and where you need it.

## Your healthy place should reflect who you are

We believe your story, background, and values are as important as your health history. To help deliver care that's sensitive to your culture, ethnicity, and lifestyle, we:

- Hire doctors and staff who speak more than one language
- Offer phone interpretation services in more than 150 languages
- Improved health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer\*

## Get coordinated care with the help of your electronic health record

**Share your health history** and any concerns with your personal doctor.

**Your doctor helps coordinate your care**, so you spend less time worrying about where to go or who to call next.

**Future care teams** have a full picture of your health history – without you having to repeat your story.

**With your health records in hand**, your care team knows your needs in the moment and reminds you to schedule checkups and tests. Plus, you can view your records 24/7.

\*Kaiser Permanente improved blood pressure control in our Black/African American members with hypertension, raised colorectal cancer screening rates in our Hispanic/Latino members, and improved blood sugar control in our members with diabetes. Self-reported race and ethnicity data are captured in Kaiser Permanente HealthConnect®, and HEDIS® measures are updated quarterly in the interregional CORE Datamart.
