STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: WASHINGTON

POLICY AND METHODS USED IN ESTABLISHING PAYMENT RATES FOR EACH OF THE OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1905 (A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN (cont.)

VI. Dental Services and Dentures

A. The Medicaid agency pays directly to the specific provider the lesser of the usual and customary charge or a fee based on an agency fee schedule for dentures and dental services that are provided within their specific scope of practice by dentists, dental hygienists, and denturists throughout the state. There are no geographical or other variations in the fee schedule.

B. The usual and customary charge is defined as that fee usually charged for a given service by an individual dentist, dental hygienist, or denturist to private patients (e.g., that provider's usual fee) and which fee is within the range of usual fees charged by dentists, dental hygienists, or denturists of similar training and experience.

C. Except as otherwise noted in the plan, fee schedule rates are the same for both governmental and private providers of dentures, dental services and dental hygiene.

See 4.19-B I, General, #G for the agency's website where the fee schedules are published.

The agency's fee schedule rate was set as of January 1, 2019 and is effective for services provided on or after that date.

D. Under the Oral Health Connections pilot program, eligible dental providers are paid an enhanced rate to provide up to three additional periodontal treatments (for a total of four) per calendar year to adult Medicaid clients who have diabetes or who are pregnant. The Oral Health Connections pilot program is effective for dates of service on or after January 1, 2019.

A. Outpatient hospital services (cont)

iii. Uses the wage index information established and published by the Centers for Medicare and Medicaid Services (CMS) at the time the OPPS rates are set for the upcoming year. Wage index information reflects labor costs in the cost-based statistical area (CBSA) where a hospital is located.

iv. Calculates the hospital-specific graduate medical education (GME) by dividing the direct GME cost reported on worksheet B, part 1, of the CMS cost report by the adjusted total costs from the CMS cost report.

v. Uses the EAPG software to determine the following discounts:

- Multiple Surgery/Significant Procedure – 50%
- Bilateral Pricing – 150%
- Repeat Ancillary Procedures – 50%
- Terminated Procedures – 50%

vi. Establishes a policy adjustor of 1.35 for services to clients age 17 and under, and establishes a policy adjustor of 1.10 for chemotherapy and combined chemotherapy/pharmacotherapy groups. These policy adjustors are not exclusive.

The statewide standardized conversion factor and all hospital-specific adjustments are effective January 1, 2019. See 4.19-B, I, General, #G for the agency's website where the fee schedule and conversion factors are published.

c. Effective for dates of admission on or after July 1, 2013, supplemental payments will be paid for outpatient Medicaid services not to exceed the upper payment limit as determined by the available federal financial participation for fee-for-service claims. The supplemental payment is based on the distribution amount mandated by the legislature to the following hospital categories as defined in RCW 74.60.010:

- Prospective Payment hospitals other than psychiatric or rehabilitation hospitals
- Psychiatric hospitals
- Rehabilitation hospitals
- Border hospitals.

For hospitals designated as prospective payment system (PPS) hospitals, $60,000,000 per state fiscal year. For hospitals designated as out-of-state border area hospitals, $500,000 per state fiscal year.

The payment is calculated by applying the Medicaid fee-for-service rates in effect on July 1, 2009, to each hospital's Medicaid and CHIP outpatient fee-for-service claims and Medicaid and CHIP managed care encounter data for the base year as defined in RCW 74.60.010. This sum is divided by the aggregate total of all hospitals within each category to determine the individual hospital pro rata share percentage. The individual hospital payment is the pro rata percentage multiplied by the amount mandated to be distributed by the Legislature within each hospital category.

The payment will be made quarterly, by dividing the total annual disbursement amount by four (4) to calculate the quarterly amount.

2. Fee Schedule

For non-CAH hospitals and covered services not paid using the OPPS or the “hospital outpatient rate”, the agency pays the lesser of the usual and customary charge or a fee based on an agency fee schedule for covered procedures.

Services paid using the agency’s fee schedule include, but are not limited to, physical therapy, occupational therapy, speech/language therapy, corneal transplants, and other hospital services as identified and published by the agency.

Except as otherwise noted in the plan, fee schedule rates are the same for both governmental and private providers of outpatient hospital services. The agency’s outpatient fee schedule is effective for services provided on and after January 1, 2019. The fee schedule is updated quarterly in a budget neutral manner. See 4.19-B, I, General, #G for the agency’s website where the fee schedules are published.

3. Hospital Outpatient Rate

The “hospital outpatient rate” is a hospital-specific rate having as its base the hospital’s inpatient ratio of costs-to-charges (RCC) adjusted by an outpatient adjustment factor that factors annual cost and charge level changes into the rate. The “hospital outpatient rate” is used to reimburse under OPPS as explained earlier in this subsection, or for non-CAH hospitals exempt from the agency’s OPPS, for all other covered outpatient services (those not mentioned in the previous paragraphs as covered by fee schedule) on the hospital’s outpatient claim.

Except as otherwise noted in the plan, fee schedule rates are the same for both governmental and private providers of outpatient hospital services. The agency’s outpatient fee schedule is effective for services provided on and after January 1, 2019. See 4.19-B, I, General, #G for the agency’s website where the fee schedules are published.

B. Service Rates

The fee schedule was last updated January 1, 2019, to be effective for dates of service on and after January 1, 2019.

Effective Jan. 1, 2008, the standard hourly rate for individual-provided personal care is based on comparable service units and is determined by the State legislature, based on negotiations between the Governor's Office and the union representing the workers. The rate for personal care services provided by individual providers consists of wages, industrial insurance, paid time off, mileage reimbursement, comprehensive medical, training, seniority pay, training based differentials, and other such benefits needed to ensure a stable, high performing workforce. The agreed-upon negotiated rates schedule is used for all bargaining members.

The rate for personal care services provided by agencies is based on an hourly unit. The agency rate determination corresponds to the rate for individual providers with an additional amount for employer functions performed by the agency.

The rate for personal care provided in assisted living facilities is based on a per day unit. Each participant is assigned to a classification group based on the State's assessment of their personal care needs. The daily rate varies depending on the individual's classification group. The rates are based on components for provider staff, operations, and capital costs. The rate paid to residential providers does not include room and board.

The rate for personal care provided in an adult family home is based on a per day unit and is determined by the State legislature, based on negotiations between the Governor's Office and the union representing Adult Family Homes.
