FORM HCFA-179 (07-92)
K. TRIBAL INPATIENT HOSPITAL SERVICES

Inpatient hospital services provided by or through facilities of the Indian Health Service (IHS) that include, at the option of the tribe, facilities operated by a tribe or tribal organization and funded by Title I or V of the Indian Self Determination and Education Assistance Act (also known as Tribal 638 facilities), are paid for each Medicaid beneficiary inpatient stay at the applicable per diem rate published in the Federal Register or Federal Register Notices by IHS. Inpatient hospital services exclude professional services a patient receives in the inpatient setting, which are paid in accordance with the applicable practitioner payment methodologies described in Attachment 4.19-B.
XXII. TRIBAL OUTPATIENT SERVICES

A. TRIBAL CLINIC

Outpatient clinic services provided by or through facilities of the Indian Health Service (IHS) which includes, at the option of the tribe, facilities operated by a tribe or tribal organization and funded by Title I or V of the Indian Self Determination and Education Assistance Act (also known as Tribal 638 facilities), are paid at the applicable all-inclusive rate published in the Federal Register or Federal Register Notices by IHS.

The applicable published outpatient per visit rate (also known as the outpatient all-inclusive rate) is paid for up to five (5) outpatient visits per Medicaid beneficiary per calendar day for professional services.

An outpatient visit is "A face-to-face or telemedicine contact between any health care professional authorized to provide services under the State Plan and a Medicaid beneficiary for the provision of Title XIX defined services, as documented in the patient's record."

Included in the outpatient per visit rate are laboratory and x-ray services provided on-site and medical supplies incidental to the services provided to the patient. Pharmaceuticals/drugs are outside the all-inclusive rate and are reimbursed under the fee-for-service system at the applicable fee-for-service rate.

B. TRIBAL FQHC - ALTERNATIVE PAYMENT METHODOLOGY

Tribal facilities operating in accordance with section 1905(I)(2)(B) of the Social Security Act and the Indian Self-Determination and Education Assistance Act (Public Law 93-638) and that enroll in Washington Medicaid as a Tribal Federally Qualified Health Center (Tribal FQHC) have agreed through tribal consultation to be paid using an alternative payment methodology (APM) that is the published outpatient all-inclusive rate. The agency allows reimbursement for the same outpatient services and the same number of encounters per day that Tribal 638 facilities provide under this State Plan.

The agency establishes a Prospective Payment System (PPS) methodology for the Tribal FQHCs so that the agency can determine on an annual basis that the published, all-inclusive rate is higher than the PPS rate. The PPS rate is established by reference to the PPS rate that is currently paid to non-tribal FQHCs. Tribal FQHCs are not required to report their costs for the purposes of establishing a PPS rate.
