STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State WASHINGTON

POLICY AND METHODS USED IN ESTABLISHING PAYMENT RATES FOR EACH OF THE OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1905 (A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN (cont.)

IX. Other Noninstitutional Services

A. Home Health

1. Home Health Agencies are reimbursed per-visit for services provided by acute nursing staff, physical therapy, occupational therapy, speech, hearing and language disorders therapy staff, and home health aides.

Reimbursement rates are determined using a historical base for the per-visit rates by profession, using the Medicare Metropolitan Statistical Area fees. Rate changes made through the Vendor Rate Increase (VRI) may be made only through the legislative process. Selected rates may also be adjusted through a special appropriation directed by the Washington State Legislature. The agency may set rates outside of the legislative process if the agency determines such actions are necessary to maintain access to critical services. The Washington State Legislature approved a $10.00 per hour rate increase for skilled nursing services provided in a home setting, effective for services provided on and after July 1, 2016.

The agency pays the lesser of the usual and customary charge or a fee based on an agency fee schedule for these services.

Except as otherwise noted in the plan, fee schedule rates are the same for both governmental and private providers of these services and supplies. The fee schedule is effective for services provided on and after October 1, 2020. See 4.19-B, I, General, #G for the agency’s website where the fee schedules are published.

2. Other Supplies and Services used in the home and other setting

The agency’s reimbursement rates include:
   a) Any adjustments or modifications to the equipment that are either required within three months of the delivery date, or are covered under the manufacturer’s warranty
   b) Pick-up, delivery, or associated costs such as mileage, travel time, or gas
   c) Telephone calls
   d) Shipping, handling, and postage
   e) Fitting and setting up
   f) Maintenance of rented equipment
   g) Instructions to the client or client’s caregiver about the safe and proper use of the equipment and supplies

The equipment, supplies, and services for parenteral nutrition, home infusion therapy, oxygen, and respiratory care are reimbursed using the CMS DMEPOS Fee Schedule less a specified percentage. In April 2012, this specific percentage reduction was established at 3.5 percent as a result of a negotiated agreement with providers. For those items and services that are not listed on CMS DMEPOS Fee Schedule, the agency uses flat fee (based upon market value, other state’s fees, budget impacts, etc.) or by-report methodology (based on a percentage of billed charges).

Except as otherwise noted in the plan, fee schedule rates are the same for both governmental and private providers of these services and supplies. See 4.19-B, I, General, #G for the agency’s website where the fee schedules are published.
