

Harm Reduction Resources Map

- ◆ **Opioid Treatment Programs (OTPs) - 27**
- ◆ **Opioid Treatment Programs serving Veterans Affairs members only - 2**
- ◆ **Opioid Treatment Programs owned/operated by Tribes - 10**
- ◆ **Opioid Treatment Programs for incarcerated people only - 1**

OTPs are a behavioral health treatment agency which is licensed by the state and federal government. The program offers both counseling services and medical services to all clients who attend. It is the only type of outpatient treatment setting, where an individual can receive all three types of medication for the treatment of an Opioid Use Disorder. A client who attends the program receives their medication and doses to take home directly from the OTP site, instead of a pharmacy.

● **Health Engagement Hubs (HEHs) - 5**

HEHs are designed to serve as an all-in-one location for low-barrier medical, harm reduction, behavioral health, and social services for people who use drugs (PWUD). These Hubs focus especially on aspects of health that disproportionately impact PWUD such as wound care, reproductive health, overdose education and naloxone distribution, access to medications for opioid use disorder, and testing and treating infectious diseases.

▲ **Syringe service programs (SSPs) - 52**

SSPs are community-based public health programs that provide critical services in nonjudgmental environments to people who use drugs. Services include the distribution of sterile injection supplies and other harm reduction tools, Safe syringe disposal, and referrals and access to healthcare, treatment, and support.
