<td>1</td>
<td>In section 1.4 Minimum Qualifications, is it mandatory to have experience in Health Care Industry for five (5) years.</td>
<td>Yes, it is mandatory to have five (5) years of experience in the health care industry for both the Bidders organization, and the proposed staff.</td>
</tr>
<tr>
<td>2</td>
<td>In section 1.4 Minimum Qualifications, is it mandatory to have experience with governmental, county, State for five (5) years.</td>
<td>Yes, it is mandatory to have five (5) years of experience on one (1) or more project(s) with governmental partners (municipal, county, state, federal, etc.) for both Bidders organization and proposed staff.</td>
</tr>
<tr>
<td>3</td>
<td>Section 1.4, Minimum Requirements, requests the Bidder organization have five years of experience. Our company was founded in 2017; however, our CEO, senior leadership team and proposed PMs have well over 15 years of experience with large complex projects, in the healthcare industry, and with government partners. Would our company be eligible to submit?</td>
<td>No, the Bidder’s organization is required to meet the minimum qualification of five (5) years’ experience in the health care industry, with one or more relevant project(s). Reference to subsection 1.4.2 in the RFP.</td>
</tr>
<tr>
<td>4</td>
<td>Please confirm if all staff proposed must meet all three of the minimum qualifications listed in 1.4.4, 1.4.5, and 1.4.6, including Project Coordinators.</td>
<td>Yes, all proposed staff must meet the minimum qualifications for years of experience, as specified in subsections 1.4.4, 1.4.5, and 1.4.6.</td>
</tr>

</table>
| 5 | The RFP states that the following "Minimum qualifications for proposed staff:
• Five (5) years’ experience successfully managing large complex projects involving multiple business/program partners, cross agency/enterprise wide.
• Five (5) years’ experience in the health care industry, with one or more relevant project(s).
• Five (5) years’ experience on one or more project(s) with government partners (Municipal, county, state, federal, etc.)"
Are all proposed staff required to have 5 years of experience in the health care industry? Or are the proposed staff required to at least 5 years of experience in one the three areas listed above? For example, if a proposed staff member had 25 years of experience managing large complex projects for government partners, along with 2 years of experience in the health care industry, would this candidate meet the minimum qualifications per the requirement above? | The candidate in the scenario would not meet the minimum qualification for a proposed staff. The proposed staff must meet the minimum years of experience in all the areas as stated in subsection 1.4.4, 1.4.5, and 1.4.6 of the RFP. |
| 6 | On page 6, Overall PM skills and experience outlined in Project Manager Book of Knowledge (PMBOK); "HCA requires all project managers (PMs) staff working on projects at HCA to be PMP certified..." and page 40, Staff Matrix, Mandatory Certification: Does HCA require proposed Executive Consultants be PMP certified? | Preferred but not required. |
| 7 | Does HCA require proposed Business Analysts or the Project Coordinator be PMP certified? | No, HCA does not require proposed Business Analysts or the Project Coordinators to be PMP certified. BA certificates like the BABOK or others are preferred. |
| 8 | Do any of the types of certifications/Degrees listed below meet the qualification of the PMP certification, or is it mandatory to be PMP certified through the Project Management Institute?
• Stanford Certified Project Manager
• Master of Project Management, George Washington University
• Project Management Certificate, University of Washington | No, none of the listed certifications/degrees meet the qualification of the PMP certification. |

| 10| Some of our most qualified project management candidates do not hold a PMP certification.  
- May years of experience be substituted for a PMP certification?  
- May we propose staff that do not currently have a PMP certification but are anticipated to receive the certification by the anticipated start of the project (June 1, 2020)?  
- Would HCA consider a "grace period" to allow PMs to sit for the exam after the start of the project, assuming they have the necessary PMP prerequisites? | No, all PMs must be PMP certified.                                    |
| 11| "Prior experience using the PPM tool called Clarizen, or like PPM tools used."  
Will HCA provide licenses for PM using Clarizen? | Yes, HCA will provide licenses for PMs using Clarizen.                 |
| 12| Will training and/or support be available for the HCA’s preferred PPM tool(s)? | Yes, the training will be available, on the vendor’s time.             |
| 13| Is "Prosci, Inc. Change Management certified practitioner" a requirement for company or the proposed staff? | It’s required for change management work. But if you are not intending to offer change management services then it is not required. |
| 14| What is the max number of key staff we can propose for each job function? | No, there is no set max.                                              |
| 15| Per the RFP:  
- "Exhibit F: Staff Matrix" requires Bidders to identify key and non-key staff.  
- "The Bidder must commit that staff identified in its proposal will actually perform the assigned work. Any staff substitution must have the prior approval of HCA."  
Is there a minimum and maximum number of staff (key and non-key staff) that HCA requires be identified?  
Considering that the contract length spans multiple years, for how long must Bidders commit that the staff identified will perform the work?  
Will HCA provide additional insight regarding the requirement that Bidders must commit staff identified in proposal submissions? Would HCA consider substituting minimum requirements for each role and allow submission of representative resumes that meet those requirements? | There is no minimum or maximum number of staff allowed to be bid. HCA is interested in vendors bidding where they intend to serve best, not requiring vendors to bid all the tiers or all the areas of expertise.  
HCA is asking vendors to bid qualified staff that will lead projects, especially as the Contract begins. HCA wishes to establish business knowledge and relationship continuity, hence, key staff to be bid.  
As new Work Orders arrive, there may be a need for additional staff, or new expertise that will allow vendors to propose new staff.  
All new staff will be interviewed and approved per each new Work Order. |

(2) Does instruction #4 &quot;Specify time frames and overall years of experience in each applicable category&quot; apply to the matrix or only to the submitted resumes?</td>
<td>Yes, every row in the grid should be answered with a Y or a N. Instruction #4 of Exhibit F applies to the resumes, the years of experience and outcomes should be clearly called out and reflected in the resumes.</td>
</tr>
<tr>
<td>18</td>
<td>This section states &quot;The Bidder must commit that staff identified in its proposal will actually perform the assigned work. Any staff substitution must have the prior approval of HCA.&quot; Is the availability of each staff member presented at the time a work order is issued?</td>
<td>The proposed staff identified in the proposals are those that would be the best fit for the scope of work. The proposed staff availability will be part of the discussions as Work Orders are developed.</td>
</tr>
<tr>
<td>19</td>
<td>Can the State expand on the Work Order process to clarify whether each work order will be competed and if the approved vendors will be allowed to propose other resources who might better fit the specific work order needs?</td>
<td>Please refer to the Work Order Process as specified in section 1.3 of the RFP. No, Work Orders will not be competed as these are as needed services, the vendors will not become part of a larger bidding pool. YES vendors will be allowed to propose other resources, with HCA interview and approval.</td>
</tr>
<tr>
<td>20</td>
<td>Would HCA accept a response that includes ADDITIONAL technical roles and capabilities beyond what is requested in the RFP? Or would you advise to restrict ourselves to only what is requested in the RFP and nothing else?</td>
<td>No, HCA would advise to stay within the scope of the RFP, and for the Bidders to address the roles identified within the RFP.</td>
</tr>
<tr>
<td>21</td>
<td>Can the HCA please clarify if, when a work order is issued, the HCA may select resources from more than one vendor within the pool of selected vendors to perform services under the work order, or will the work order be awarded to a single vendor?</td>
<td>A project may have more than one Work Order. Each WO is associated with one vendor. Each WO determines needed resources, based on the scope of work. HCA will award the WO as needed to meet HCA needs.</td>
</tr>
<tr>
<td>22</td>
<td>Does the HCA anticipate that work orders will be staff augmentation in nature (e.g., a request for a single Project Manager or a single Business Analyst), team-based (e.g., a request for a Project Manager, Business Analyst, and Project Coordinator), or a combination of both?</td>
<td>The WO's may be staff as a combination of all those possibilities. This will be determined by the business need.</td>
</tr>
<tr>
<td>23</td>
<td>Does HCA have a preference for a firm with a large pool of people over independent experts?</td>
<td>HCA does not have a preference. It is up to the vendors to determine their staff that best meet the needs of the scope of work as outlined within the RFP.</td>

<td>Yes, HCA does not require the bidder to propose staff for all 6 skill areas.</td>
</tr>
<tr>
<td>25</td>
<td>On page 24, 3.2.6: Does HCA require both project-based and FTE/Hourly based services for every labor category? Will you accept bids that are only for project-based work?</td>

</tr>
<tr>
<td>26</td>
<td>The RFP states “Identify an hourly rate(s) to be charged per each role as identified in Exhibit D: Contractor Roles and Responsibilities, to perform the services as described in the RFP. The hourly rate(s) should be inclusive of all costs of performing the work. Bidders are required to collect and pay Washington state sales and use taxes, as applicable.” Is there a standard template you would like for vendors to use or do we use our own format?</td>
<td>No, HCA does not have a standard template that bidders are to use. Bidders are to use their own format. HCA expects one hourly rate provided per role to include all imbedded Costs.</td>
</tr>
<tr>
<td>27</td>

</tr>
<tr>
<td>31</td>
<td>Will a workstation fee be charged for each of the roles?</td>
<td>Under certain contractual agreements, HCA permits independent contractors to use HCA work space and/or resources to carry out the duties set forth in a contract with HCA as approved in accordance with HCA Administrative Procedure 8-03-01, Requesting Approval for and Managing Contractors in the Workplace. Each work order will determine resource needs and if the vendor will need to compensate for work station space.</td>

<td>Are the roles listed in the RFP expected to work on-site at the HCA office in Olympia? Or is there an option for them to work remotely from home?</td>
<td>The majority of work is on site at the Olympia HCA office. However depending on the Work Order need there may be some remote work available. Circumstances like the coronavirus, remote work will be determined by the work order sponsor.</td>
<td></td>
</tr>
<tr>
<td>What are the HCA’s expected arrangements for remote work in case of restrictions due to communicable disease outbreaks?</td>
<td>HCA determines the need for remote access based on the SOW for each work order. HCA does provide a limited VPN service for vendor use. If needed, HCA will provide remote access to required agency resources.</td>
<td></td>
</tr>
<tr>
<td>Will the successful vendor(s) be expected to use their own equipment? If so, will they be required to install HCA anti-virus and online security software?</td>
<td>HCA expects contractors to use their own equipment unless otherwise stated in the contract. HCA will provide the Vendor VPN service that allows limited access to HCA environment. HCA does not provide the anti-virus or security software for non-HCA owned devices, but they are required to have these services installed on their devices for contract compliance.</td>

</tr>
<tr>
<td>67</td>
<td>Provide the current vendor(s) providing the service to the HCA and how are the current services being procured?</td>
