

Healthier Washington Medicaid Transformation Approved Project Plan scores and earned incentives by Accountable Communities of Health (ACHs)

The Healthier Washington Medicaid Transformation builds incentives for providers who are committed to changing how we deliver care. Each region, through its ACH, will pursue projects that transform the Medicaid delivery system, so that care focuses on the whole person and resources are used more effectively.

- The table below summarizes incentives earned by each ACH in Demonstration Year (DY) 1. A number of factors impact the total amount of incentives earned by each ACH, including Project Plan score, project selection, behavioral health integration progress, and ACH participation in Intergovernmental Transfer (IGT) investment and activities.
- All ACH project incentives assume full funding through Designated State Health Programs (DSHP) and IGT. All payments are estimates and subject to change. Behavioral health integration (BHI) incentives for DY1 include Phase 1 payments for ACHs and the Phase 2 payment for SWACH, which is an early adopter.
- Project Plan scores are the result of an independent assessment conducted by Myers and Stauffer, LC, the state-contracted Independent Assessor (IA) for the transformation. The IA's Project Plan assessment findings report and approved Project Plans can be found on the [Healthier Washington Transformation website](#) under Initiative 1.
- A detailed breakdown of Project Plan scores, and earned incentives by project and funding type for each ACH is attached.

DEMONSTRATION YEAR 1										
ACH	Client Count ¹	Client Count	ACH Project Plan Score	ACH Project Plan Bonus	ACH Project Incentives (funded by DSHP)	ACH Project Incentives (funded by IGT)	BHI Incentives (Actual and Potential)	Enhanced Integration Valuation Incentives	Bonus Pool	Total
