AMENDMENT No. 1

1. Draft Contract

The Draft Contract listed as Attachment 2 to Appendix 6 of the RFP is embedded as Exhibit 1 to this amendment.

2. Bidder Question

Q: The RFP requires the Bidder to “develop a separate technical Proposal” or provide a “stand-alone” narrative for certain exhibits. Please provide additional guidance on how the Bidder is to submit these exhibits. Should the Bidder submit each of these exhibits in a separate binder inside a separate, sealed envelope? Are these the only exhibits that require this?

A: Bidders do not have to provide separate binders for each exhibit of its Response. However, the Response should clearly separate the Bidder’s response to each and every exhibit. In addition, each response to an exhibit must be full and complete without the need to refer to other sections of the Response. For example, an evaluator shouldn’t have to review material provided in response to Exhibit 2.6 should not be referred back to material provided in response to Exhibit 1.1. In other words, the response to each and every exhibit stands alone from responses to other exhibits.

All other terms and conditions of the RFP remain in full force and effect. Capitalized terms not defined in this amendment have the meaning provided in the RFP.
