- With respect to individuals for whom the state must complete a determination of income either based on MAGI or for MAGI- 
  excepted groups utilizing AFDC-related or SSI-related methodologies, the state:
  - Recognizes same-sex couples as spouses, if they are legally married under the laws of the state, territory, or 
    foreign jurisdiction in which the marriage was celebrated.
  - Does not recognize same-sex couples as spouses, even if they were legally married in a state, territory, or 
    foreign jurisdiction that recognizes same-sex marriages.

With respect to individuals whose eligibility for Medicaid is based on eligibility for another benefit program, and for whom the 
state does not complete a determination of income for Medicaid eligibility, the state will not make any determination concerning 
marital status. Medicaid eligibility will continue to be based on the determination of eligibility for the applicable benefits.

The option elected above, with respect to income determinations, also governs the state's definition for post-eligibility issues, 
including spousal impoverishment, asset transfers and estate recovery rules, to the degree permitted by state law.

☐ Yes ☐ No

TN No: 13-0033 Approval Date: 3/28/14 Effective Date: January 1, 2014
Medicaid Eligibility

Provide a description of the definition:

An individual may be temporarily absent from the State if the person intends to return when the purpose of the absence has been accomplished, unless another State has determined the individual is a resident there for purposes of Medicaid.

For a child, there must be a clear expectation the absence is temporary and the child is expected to be reunited with the family. Examples of circumstances in which eligibility for coverage continues include but are not limited to when the child attends school or training away from home, as long as the child returns to the family home during a year's period, at least for summer vacation; and the absence is necessary because: 1) isolation of the child's home makes it necessary for the child to be away to attend school; 2) the child is enrolled in an Indian boarding school administered through the Bureau of Indian Affairs; or 3) specialized education or training is not available in the child's home community and is recommended by local school authorities.

Verification that an individual returns home from school for vacations or breaks, or at certain points during the temporary absence (e.g., to care for an out-of-state dependent child or parent), is not required.

# Medicaid Eligibility

## Presumptive Eligibility by Hospitals

42 CFR 435.1110

One or more qualified hospitals are determining presumptive eligibility under 42 CFR 435.1110, and the state is providing Medicaid coverage for individuals determined presumptively eligible under this provision.

☐ Yes  ☐ No

- The state attests that presumptive eligibility by hospitals is administered in accordance with the following provisions:
  - A qualified hospital is a hospital that:
    - Participates as a provider under the Medicaid state plan or a Medicaid 1115 Demonstration, notifies the Medicaid agency of its election to make presumptive eligibility determinations and agrees to make presumptive eligibility determinations consistent with state policies and procedures.
    - Has not been disqualified by the Medicaid agency for failure to make presumptive eligibility determinations in accordance with applicable state policies and procedures or for failure to meet any standards that may have been established by the Medicaid agency.
    - Assists individuals in completing and submitting the full application and understanding any documentation requirements.
  - ☐ Yes  ☐ No

- The eligibility groups or populations for which hospitals determine eligibility presumptively are:
  - ☐ Pregnant Women
  - ☐ Infants and Children under Age 19
  - ☐ Parents and Other Caretaker Relatives
  - ☐ Adult Group, if covered by the state
  - ☐ Individuals above 133% FPL under Age 65, if covered by the state
  - ☐ Individuals Eligible for Family Planning Services, if covered by the state
  - ☐ Former Foster Care Children
  - ☐ Certain Individuals Needing Treatment for Breast or Cervical Cancer, if covered by the state
  - ☐ Other Family/Adult groups:
    - ☐ Eligibility groups for individuals age 65 and over
    - ☐ Eligibility groups for individuals who are blind
    - ☐ Eligibility groups for individuals with disabilities
    - ☐ Other Medicaid state plan eligibility groups
  - ☐ Demonstration populations covered under section 1115

The state establishes standards for qualified hospitals making presumptive eligibility determinations.
### Medicaid Eligibility

Select one or both:

- The state has standards that relate to the proportion of individuals determined presumptively eligible who submit a regular application, as described at 42 CFR 435.907, before the end of the presumptive eligibility period.

<thead>
<tr>

<tbody>
<tr>
<td>The State will implement standards to assess:</td>
</tr>
<tr>
<td>1) The number of PE applications submitted</td>
</tr>
<tr>
<td>2) The proportion of those individuals approved for PE that complete and submit an application for full ongoing coverage</td>
</tr>
<tr>
<td>3) The proportion of those individuals approved for PE and that complete and submit an application for full ongoing coverage who are determined eligible for full ongoing benefits</td>
</tr>
<tr>
<td>4) The accuracy of Hospitals’ determination that applicants do not have coverage</td>
</tr>
<tr>
<td>5) The accuracy of Hospitals’ determination that applicants do not have a prior period of PE in the preceding twenty-four month period</td>
</tr>
</tbody>
</table>

Given that criteria from current PE states are either inconsistent or otherwise not proven, the State will collect and require Hospitals to collect baseline data for up to 12 months in order to determine effective criteria.

Initial standards, therefore, will be attached to data collection and reporting and will require 100% compliance from any Hospital that wishes to continue as a qualified PE determination entity.

- Yes  ☒ No

- The presumptive eligibility determination is based on the following factors:
  - The individual’s categorical or non-financial eligibility for the group for which the individual’s presumptive eligibility is being determined (e.g., based on age, pregnancy status, status as a parent/caretaker relative, disability, or other requirements specified in the Medicaid state plan or a Medicaid 1115 demonstration for that group)
  - Household income must not exceed the applicable income standard for the group for which the individual’s presumptive eligibility is being determined, if an income standard is applicable for this group.
  - State residency
  - Citizenship, status as a national, or satisfactory immigration status
