Medicaid Eligibility Marriage Policy

1902(e)(14)(G)
1902(n)(17)

With respect to individuals for whom the state must complete a determination of income either based on MAGI or for MAGI-exceptioned groups utilizing AFDC-related or SSI-related methodologies, the state:

- Recognizes same-sex couples as spouses, if they are legally married under the laws of the state, territory, or foreign jurisdiction in which the marriage was celebrated.
- Does not recognize same-sex couples as spouses, even if they were legally married in a state, territory, or foreign jurisdiction that recognizes same-sex marriages.

With respect to individuals whose eligibility for Medicaid is based on eligibility for another benefit program, and for whom the state does not complete a determination of income for Medicaid eligibility, the state will not make any determination concerning marital status. TN No: 13-0033 Approval Date: 3/28/14  Effective Date: January 1, 2014
Medicaid Eligibility

Provide a description of the definition:

An individual may be temporarily absent from the State if the person intends to return when the purpose of the absence has been accomplished, unless another State has determined the individual is a resident there for purposes of Medicaid.

For a child, there must be a clear expectation the absence is temporary and the child is expected to be reunited with the family. Examples of circumstances in which eligibility for coverage continues include but are not limited to when the child attends school or training away from home, as long as the child returns to the family home during a year's period. At least, for summer vacation; and the absence is necessary because: 1) isolation of the child's home makes it necessary for the child to be away to attend school; 2) the child is enrolled in an Indian boarding school administered through the Bureau of Indian Affairs; or 3) specialized education or training is not available in the child's home community and is recommended by local school authorities.

Verification that an individual returns home from school for vacations or breaks, or at certain points during the temporary absence (e.g., to care for an out-of-state dependent child or parent), is not required.

☑ Assists individuals in completing and submitting the full application and understanding any documentation requirements.

☐ Yes  ☐ No

☐ The eligibility groups or populations for which hospitals determine eligibility presumptively are:

SELECT ONE OR BOTH:

☐ The state has standards that relate to the proportion of individuals determined presumptively eligible who submit a regular application, as described at 42 CFR 435.907, before the end of the presumptive eligibility period.

☐ The state has standards that relate to the proportion of individuals who are determined eligible for Medicaid based on the submission of an application before the end of the presumptive eligibility period.

Description of standards:

The State will implement standards to assess:
1) The number of PE applications submitted
2) The proportion of those individuals approved for PE that complete and submit an application for full ongoing coverage

4) The accuracy of Hospitals’ determination that applicants do not have coverage
5) The accuracy of Hospitals’ determination that applicants do not have a prior period of PE in the preceding twenty-four month period

Given that criteria from current PE states are either inconsistent or otherwise not proven, the State will collect and require Hospitals to collect baseline data for up to 12 months in order to determine effective criteria.

Initial standards, therefore, will be attached to data collection and reporting and will require 100% compliance from any Hospital that wishes to continue as a qualified PE determination entity.
