 EXECUTIVE ORDER 18-03 – WORKER’S RIGHTS 38

1. INTRODUCTION

1.1. PURPOSE AND BACKGROUND

The Washington State Health Care Authority (HCA), Division of Behavioral Health and Recovery (DBHR) is seeking a qualified, Community-Based Consumer-Ran Organization (CBCRO) or a Community Based Organization to develop and maintain a Statewide Youth Leadership Network (Youth Network) for Washington State. The intent of this network is to enhance the state’s capacity and youth-driven infrastructure, in an effort to be responsive to the needs and youth (ages 13-25) experiencing Serious Emotional Disturbances (SED) and their families. The Youth Network will also be responsive to the needs of the behavioral health system, including workforce development. It will reduce and remove barriers to youth voice and engagement by providing the resources and support for youth and youth leaders to participate in stakeholder groups and committees, leadership development opportunities, policy development, and in state and local service planning.

Washington State Children’s Behavioral Health Principles are a set of standards, grounded in the System of Care (SOC) values and principles, which guide how the children’s behavioral health system delivers services to youth and families. These principles include:

- **Family and Youth Voice and Choice**: Family and youth voice, choice and preferences are intentionally elicited and prioritized during all phases of the process, including planning, delivery, transition, and evaluation of services. Services and interventions are family-focused and youth-centered from the first contact with or about the family or youth.
- **Team based**: Services and supports are planned and delivered through a multi-agency, collaborative teaming approach. Team members are chosen by the family and the youth and are connected to them through natural, community, and formal support and service relationships. The team works together to develop and implement a plan to address unmet needs and work toward the youth’s and family’s vision.
- **Natural Supports**: The team actively seeks out and encourages the full participation of team members drawn from the youth’s and family members’ networks of interpersonal and community relationships (e.g. friends, neighbors, community and faith-based organizations). The care plan reflects activities and interventions that draw on sources of natural support to promote recovery and resiliency.
- **Collaboration**: The system responds effectively to the behavioral health needs of involved youth in multiple systems and their caregivers, including youth in the child welfare, juvenile justice, developmental disabilities, substance abuse, primary care, and education systems.
- **Home and Community-based**: Youth are first and foremost safely maintained in, or returned to, their own homes. Services and supports strategies take place in the most

inclusive, most responsive, most accessible, most normative, and least restrictive setting possible.

- **Culturally Relevant**: Services are culturally relevant and provided with respect for the values, preferences, beliefs, culture, and identity of the participant/youth and family and their community.
- **Individualized**: Services, strategies, and supports are individualized and tailored to the unique strengths and needs of each youth and family. They are altered when necessary to meet changing needs and goals or in response to poor outcomes.
- **Strengths Based**: Services and supports are planned and delivered in a manner that identifies, builds on, and enhances the capabilities, knowledge, skills, and assets of the youth and family, their community, and other team members.
- **Outcome-based**: Based on the youth and family's needs and vision, the team develops goals and strategies, ties them to observable indicators of success, monitors progress in terms of these indicators, and revises the plan accordingly. Services and supports are persistent and flexible so as to overcome setbacks and achieve their intended goals and outcomes. Safety, stability, and permanency are priorities.
- **Unconditional**: A youth and family team's commitment to achieving its goals persists regardless of the youth's behavior, placement setting, family's circumstances, or availability of services in the community. The team continues to work with the family toward their goals until the family indicates that a formal process is no longer required.

It is expected that the work completed under this proposal will be youth driven, meaning that the contractor is dedicated to authentic youth involvement, listens to youth and makes changes accordingly, creates a safe place for youth to be heard throughout the community, and compensates youth leaders and youth for their work. It is also expected that the work will be community based and not only culturally and linguistically competent, but completed through a lens of awareness around racial disparities in the behavioral health system and other youth serving systems.

The purpose of the work completed, as a result of this proposal, will be to create a youth driven environment in which youth and youth leaders from across the state have a platform to bring their voice forward and become part of workgroups, committees, etc. to bring youth voice forward to affect policies. This will include partnering with DBHR in assisting and supporting systems and communities in bringing forward youth voice and leadership in Washington State through various methods

The Youth Network will demonstrate a commitment to developing a SOC community that works toward being family-driven and youth guided in all areas from practice to policy. According to the Cooperative Agreements for Comprehensive Community Mental Health Services for Children and Their Families Program Request for Applications (RFA), "Youth Guided means that young people have the right to be empowered, educated, and given a

decision making role in the care of their own lives as well as the policies and procedures governing care for all youth in the community, state and nation.”

HCA intends to award one contract to a Community-Based Consumer-Ran Organization (CBCRO) or a Community Based Organization licensed to do business in Washington State who have demonstrated experience engaging youth and/or families and can also demonstrate their commitment to a youth driven approach to meeting the requirements of the contract awarded as a result of this RFA and can demonstrate SOC Values in their current work and in their bid for the work outlined in this Request for Application. The selected applicant will be expected to complete deliverables from a youth driven approach to maintain a quality and culturally competent Youth Network. Any contract awarded as a result of this procurement is contingent upon grant Notice of Award at the time of contracting.

1.2. BACKGROUND

In 2012, the Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Mental Health Services, awarded a four-year Cooperative Agreement to Washington State, the SOC Grant, to improve the behavioral health outcomes of children and youth with serious emotional disturbances and their families.

Washington State’s specific goals for this SOC Grant were to:

- Infuse SOC values statewide in all child-serving systems.
- Expand and sustain leadership roles for families, youth, and system partners.
- Establish an appropriate array of services and resources statewide, including home and community based services.
- Develop and strengthen a workforce that will operationalize SOC values.
- Build a data management system for decision making and tracking outcomes.
- Develop sustainable financing and align funding to ensure services are seamless for children, youth, and families.

The Youth Network will be part of the sustainability of this SOC grant awarded in 2012 and also be vital to the current SOC grant awarded in September 2018.

In 2014, to be responsive to the needs of youth experiencing Serious Emotional Disturbances (SED) or Serious Mental Illness (SMI) and their families, the Division of Behavioral Health and Recovery (DBHR) developed and rolled out Wraparound with Intensive Services (WISe).

WISe is a set of intensive behavioral health services, in the last stages of implementation phase. The model provides intensive behavioral health services using a wraparound approach with a requirement that youth and/or family partners be a part of the WISe team. Services are provided in both home and community settings and are accessible to all

children and youth experiencing SED up to age 21 who receive or qualify for Medicaid. Through the implementation of this approach, DBHR also created a WISE Quality Plan and the Children's Behavioral Health Governance Structure (the Governance Structure) that requires youth and family leadership and participation throughout and at all stages of implementation.

A Youth Network will be paramount in enhancing and contributing to the delivery of WISE, the WISE Quality Plan, and the Governance Structure through its support of youth engagement, youth voice and youth leadership.

DBHR intends to grant up to \$232,000 to develop and maintain the Youth Network. HCA/DBHR reserves the right to negotiate with applicants for project scope and funding amounts. Any Contract awarded as a result of this procurement is contingent upon Grant Notice of Award at time of contracting.

The estimated award period for this grant is from November 16, 2019 to June 30, 2020. Funding will be distributed on an annual schedule. Funding for the second fiscal year is contingent on satisfactory completion of all contract requirements and project success.

Selected Applicant is required to submit an updated Action Plan and Budget to DBHR at the end of the contract year in order to receive funding for the next contract year.

If the contractor is found to not have completed all requirements identified in the RFA and subsequent contract, the contractor may not be awarded funds for the next contract year. Funding for the next contract year is contingent on continued federal funding.

HCA reserves the right to negotiate with Applicants for project scope and funding amounts.
