Opioids are now one of the leading causes of injury-related deaths in Washington State.¹

75 percent of opioid misuse starts with people using medication that wasn’t prescribed for them—usually taken from a friend or family member.²

Simple steps, like locking up medications, can stop them from being misused.

STOP OPIOID ABUSE
Your choices matter

✓ Prescription pain medication is highly addictive. Talk with your doctor about other ways to manage pain.
✓ Lock up your medications.
✓ Safely dispose of unused medications at a take-back program near you. Find one at TakeBackYourMeds.org.

Opioids are now one of the leading causes of injury-related deaths in Washington State. More people die from overdose than from car crashes.¹

Opioids negatively affect the reward center in the brain. Over time, a user needs more and more. This makes them highly addictive.²

You can make a difference. Help a friend. Share the facts.

You can make a difference.

STOP OPIOID ABUSE
Your choices matter

- If you are prescribed an opioid, talk with your doctor about other options.
- Never share an opioid prescription with someone else.
- Treatment works. If you think you need help, call Washington Recovery Help Line at 1 (866) 789-1511.
- Dispose of unused medications safely at a take-back program near you. Find one at TakeBackYourMeds.org.
