DATA SOURCE: Administrative data (BHSS).

NOTES: WISe services include all WISe mental health outpatient service encounters recorded in BHSS data system, including DBHR-paid managed care mental health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using the current Behavioral Health Organization (BHO) and FIMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. The service location summary excludes encounters from Greater Columbia prior to 4/1/2016, as the data is unavailable for that time period. Both the service location and treatment modality summary exclude data from Southwest after 3/31/2016, as it is unavailable in the BHSS data system. Because a small number of clients participating in the Address Confidentiality Program are included in statewide totals but not in regional breakdowns, numbers do not sum to statewide totals.

DATA SOURCE: Administrative data (BHSS).

NOTES: WISe services include all WISe mental health outpatient service encounters recorded in BHSS data system, including DBHR-paid managed care mental health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using the current Behavioral Health Organization (BHO) and FIMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. The service location summary excludes encounters from Greater Columbia prior to 4/1/2016, as the data is unavailable for that time period. Both the service location and treatment modality summary exclude data from Southwest after 3/31/2016, as it is unavailable in the BHSS data system. Because a small number of clients participating in the Address Confidentiality Program are included in statewide totals but not in regional breakdowns, numbers do not sum to statewide totals.
