

# HB 1477 Subcommittee Member Lists

July 2024

The HB1477 Steering Committee is forming the following seven Subcommittees to inform the development of recommendations for an integrated behavioral health crisis response and suicide prevention system in Washington.

- |   |   |
|---|---|
| 1. <a href="#">Confidential Information Compliance and Coordination</a> | 5. <a href="#">Tribal 988</a>                         |
| 2. <a href="#">Credentialing and Training</a>                           | 6. <a href="#">Lived Experience</a>                   |
| 3. <a href="#">Technology</a>   | 7. <a href="#">Rural and Agricultural Communities</a> |
| 4. <a href="#">Cross-System Crisis Response Collaboration</a>           |   |

Please see the attached Subcommittee Member Lists for members participating on each subcommittee. We note that members for the Lived Experience Subcommittee are not listed given this subcommittee will be open to all individuals and families with lived experience and will not be limited in size.<sup>1</sup> In addition, the Tribal 988 Subcommittee will be facilitated through and comprised of members of the [Tribal Centric Behavioral Health Advisory Board](#).

Subcommittee members may change over time based on topics under review and aligned with member expertise. For example, subcommittees may require certain members for the initial focus on 988 implementation and additional or new members when turning toward recommendations for the crisis system redesign. Additional subcommittees or workgroups may also be formed to address specific focus areas or topics of interest.

Members for each subcommittee have been selected to provide diverse community perspectives and professional expertise on topics under consideration by each subcommittee. To allow meaningful engagement and discussion of topics under consideration, subcommittee size is limited to 10-20 members with the exception of the Lived Experience Subcommittee, which is open to all, and the Cross-System Crisis Response Subcommittee requiring broader engagement of members. Subcommittee members include three broad categories of members:

- 1. Broad Stakeholder members:** Broad stakeholder members were selected based on evaluation of the Statements of Interest submitted by interested candidates,<sup>2</sup> member criteria outlined by the HB 1477 and the Steering Committee, and consideration of balanced representation across stakeholder categories in each subcommittee. Member selection criteria included:
  - Members must provide professional expertise and/or community perspectives;
  - Each subcommittee must have at least one member representing urban stakeholders, rural stakeholders, and youth stakeholders; and
  - The Steering Committee has directed that each subcommittee include members with lived experience.
  - Prioritize applicants to enhance diversity in race, ethnicity, gender, disability, geographic representation, and representation from communities that have been disenfranchised in the past, as well as “new” voices (i.e., individuals who have not been actively involved with legislative and agency-level groups in the past).
- 2. Agency/Implementation SMEs:** HCA, DOH, BH-ASOs, and National Suicide Prevention Line (NSPL) Call Centers identified lead representatives to participate on each subcommittee. These members will support coordination of updates and information regarding agency implementation efforts relevant to the subcommittee.
- 3. CRIS Members on Subcommittees:** CRIS members are invited to select subcommittees they would like to participate in. CRIS members will play a role to support communication and representation of subcommittee work with the larger CRIS Committee.

---

<sup>1</sup> Individuals and families with ***lived experience*** means any person or family member who have first-hand experience with a mental health challenge, substance use challenge, and/or life event impacting one’s life functioning.

<sup>2</sup> Broad public outreach was engaged to invite interested candidates to submit an online Statement of Interest to serve on an HB 1477 Subcommittee. Statements of interest were accepted between October 21 – November 3, 2021. 327 Statements of Interest were received in total (Credentialing & Training – 40 statements; Technology = 24 statements; Cross-System Response = 135 statements; Confidential Information Compliance & Coordination = 9 statements; Rural & Agricultural = 37 statements; Lived Experience = 82 statements).
