About

In 2019, the Washington State Legislature passed a law ([Chapter 43.71C Revised Code of Washington](#)) which created the Drug Price Transparency (DPT) program at Health Care Authority (HCA). The law requires issuers of health insurance, pharmacy benefit managers (PBMs), manufacturers, and pharmacy service administrative organizations (PSAOs), to submit data on drug costs and pricing to HCA. HCA will use the data to create annual reports that demonstrate the overall impact that drug costs, rebates, and other discounts have on health care premiums.

You may visit HCA website for more information about the Drug Price Transparency program.

https://www.hca.wa.gov/about-hca/clinical-collaboration-and-initiatives/prescription-drug-cost-transparency

HCA developed this submission guide with input from stakeholders, which allowed stakeholders to review and comment on the draft data submission guide, prior to publishing the final guide. HCA has final approval authority over the data submission guides and all subsequent changes.

How to Register

In order to submit data to HCA, you must first complete the registration process and receive credentials for the Secure File Transfer (SFT) service offering hosted by Washington Technology Solutions (WATECH).

To register, you must complete and submit the registration form to HCA. You can access the form at the link below. Once you've completed the required information in the form, click the "Submit" button to generate an email.

Registering thirty days in advance of a reporting due date for this program is strongly encouraged, in order to ensure ample time to be added to the system. Once your registration is processed, you will receive a user ID and password from HCA to access the SFT service to submit data to HCA.

https://www.hca.wa.gov/assets/billers-and-providers/13-0051-drug-price-transparency-submitter-registration.pdf

Please email DrugTransparency@hca.wa.gov for any questions or concerns about the form and the registration process.

How to Submit

To submit files for the Drug Price Transparency program, you will need to use the Secure File Transfer (SFT) service offering by Washington Technology Solutions (WATECH). The SFT credentials will be provided to you by HCA. This will allow you access to a personalized folder for your organization, where you can upload your submissions.

For more details on the process of connecting to SFT, and the tools that can be used to do so, please see "

Appendix A – ST Web Client User Guideline" and "

Appendix B – SFT Client Options (Partial List)".

There are checks in place to protect the SFT service which may result in the rejection of your submission, without notice. These limits include (but are not limited to) attempting to upload a file greater than 30GB and uploading or downloading more than 50,000 files in a 24-hour period. It is unlikely that you will ever trigger these protections, as the size and frequency of the submissions required for this program will seldom approach these limits. However, accidentally exceeding them could result in termination of your SFT credentials. If you suspect that your SFT credentials are no longer working, please contact the DPT program staff.

Submission Specifications

Data Validation

Data validation is a two-step process and at any time submissions may be rejected. If rejected, reports need to be resubmitted within 10 days.

Step 1   Technical validation - If your submission passes, you will receive a confirmation email at the registered email address for your organization. If your submission is rejected, you will receive an email with an error log attached describing why your file was rejected. If you do not receive an email notification of either success or failure within 72 hours of submitting your report, please contact DPT program staff at drugtransparency@hca.wa.gov to confirm that your submission was received and processed.

Step 2   Program validation – An analyst will validate information submitted in ensure it meets program requirements. You will receive an approval email or a rejection email. This email will be sent to the email provided when you registered. If your report is rejected, you will need to resubmit within 10-days.

Each submitted file undergoes technical and program validation to ensure that the data meets the requirements of RCW 43.71C and is compatible with HCAs reporting software. The technical validation process is automated and applied shortly after submission to ensure that the data meets all of the technical rules described in the Table Specifications. These primarily cover verification of data types (number vs. string) and formats (2021-01-01 vs. 01/01/2021). The program validation process is performed by program staff after technical validation and includes additional checks of the files to complete the data validation process.

If you need help understanding your error log, the **Data Submission FAQ** clarifies the meaning of the error and provides guidance on corrections, or you may submit your questions to HCADPTTechSupport@hca.wa.gov for assistance.

Resubmissions

Failed Technical or Program Validations

In the event that your submission is rejected, you have 10 days after you receive the initial rejection notice to make necessary corrections and resubmit. You may request an extension of the due date subject to HCA approval. If you fail to comply with reporting requirements after receiving a rejection notice, the authority may assess a fine as allowed under WAC 182-51-1300.

To ensure that you receive credit for a resubmission, you should use the same YYYYMMDD value in the file name as you did in your first submission.

> For example, if you submitted the file 'manufacturer_covered_drugs_2021_M12345_20210301.csv', and received a rejection, after making corrections you should resubmit the file 'manufacturer_covered_drugs_2021_M12345_20210301.csv' with the same name as it was originally submitted under, even if the date of resubmission is a different date.

Corrective Submissions

In the event that you find an error in your approved submission, you will need to fill out the Resubmission form which can be found on our website prior to resubmitting your report. You will need to let HCA know which report you will be resubmitting and the specific reasons why you request to resubmit. HCA will review your request and approve or deny your request within 5 business days. In the event your resubmission is rejected during validation, you would be subject to the 10 day limit for correcting rejected resubmissions.

File Specifications

All files submitted must be text files with comma-separated values (CSV). The text should be encoded using the UTF-8 standard. Line endings in UNIX ("\n") or Windows ("\r\n") format are both acceptable. The header row must be included in every file. For detailed technical guidance, see the Library of Congress CSV Definition.

Appropriately formatted files can also be generated via Microsoft Excel by saving a spreadsheet in CSV format. This will remove many of the features included in Excel, such as formatting, formulas, and "sheets", so you may want to save a copy in Excel format for your own reference in the future. We recommend using Microsoft Excel 2016 or earlier for the submission guide templates. Using Microsoft Excel 2019 or Microsoft 365 can cause formatting issues when saving as a CSV file and result in errors.

File names should follow the naming scheme specified for the specific data that you are submitting. See Table Specifications section for more information.

Data Specifications

Nullable: All fields are required, unless otherwise indicated in the table specification. A field that is not required, will be indicated with the word "Nullable" in the specification. In those cases, you must leave that field blank. Do NOT provide the value as "NULL", or otherwise provide a special indicator of a null value. In all other cases, providing a blank value will result in a rejection by the automated validation.

Date Formats: Unless otherwise specified, all dates should be reported in ISO-8601 format with hyphens between years, months, and days: "YYYY-MM-DD". For example, December 1, 2022, would be recorded as "2022-12-01".

Important note about Excel version: We recommend using Microsoft Excel 2016 or earlier for the submission guide templates. Using Microsoft Excel 2019 can cause formatting issues when saving as a CSV file and result in the file being rejected.

Table Specifications

New Covered Drugs and Qualifying Price Increases

This report contains all of the fields necessary to comply with the notification of a price increase and covered drug as described in RCW 43.71C.050 and 43.71C.070. Files submitted for manufacturer covered drugs should be named using the following schema, where ID is the manufacturer ID assigned to you by HCA during the registration process (Washington DPT Number), YYYY is the current calendar year, and YYYYMMDD is a placeholder for the submission date. In the case of a resubmission after file rejection, please use the same value for YYYYMMDD as the file that was rejected. Do not replace "manufacturer" with your organizations name, this will result in your submission being rejected.

File naming schema: manufacturer_covered_drugs_{YYYY}_{ID}_{YYYYMMDD}.csv
Example: manufacturer_covered_drugs_2022_M12345_20210301.csv **(Please use the submission due date, not the date the report was prepared)**

For a price increase that occurred prior to the current calendar year the YYYY should be populated with the year the price increase took effect.

For example:

manufacturer_covered_drugs_2019__M12345_20210301.csv or

manufacturer_covered_drugs_2020__M12345_20210301.csv or

manufacturer_covered_drugs_2021__M12345_20210301.csv

Please see the Submission Schedule for details regarding the timelines for submitting reports for covered drugs.

New Drug Application

This report contains all of the data fields necessary to comply with reporting a New Drug Application to HCA, per RCW 43.71C.060.

Files submitted for manufacturer new drugs should be named using the following schema, where: ID is the manufacturer ID assigned to you by HCA during the registration process (Washington DPT Number), YYYY is the current reporting period, and YYYYMMDD is a placeholder for the submission date. In the case of a resubmission after file rejection, please use the same value for YYYYMMDD as the file that was rejected. Do not replace "manufacturer" with your organizations name, this will result in your submission being rejected.

> **File naming schema:** manufacturer_new_drugs_{YYYY}_{ID}_{YYYYMMDD}.csv
> Example: manufacturer_new_drugs_2022__M12345_20210301.csv **(Please use the submission due date, not the date the report was prepared)**

For a new drug application that occurred prior to the current calendar year the YYYY should be populated with the year the price increase took effect.

For example:

manufacturer_new_drugs_2019__M12345_20210301.csv or

manufacturer_new_drugs_2020__M12345_20210301.csv or
