

Apple Health PDL Drug Class Motions

Antibiotics

- ▶ Aminoglycosides – Inhaled
- ▶ Monobactams – Inhaled

Antibiotics

Motion: I move that all products in the drug classes listed on slide 2 are considered safe and efficacious for their medically accepted indications and are eligible for preferred status and grandfathering at the discretion of HCA. Products in this class may require prior authorization to determine medical necessity. All non-preferred products require a trial of at least two preferred products with the same indication before a non-preferred drug will be authorized unless contraindicated, not clinically appropriate, or only one product is preferred.

- ▶ **Motion: Buccola**
- ▶ **2nd: Beste**

Respiratory Agents

- ▶ Cystic Fibrosis Agents
- ▶ Cystic Fibrosis Agents - CFTR Potentiators

Respiratory Agents

Motion: I move that all products in the drug classes listed on slide 4 are considered safe and efficacious for their medically accepted indications and are eligible for preferred status and grandfathering at the discretion of HCA. Products in this class may require prior authorization to determine medical necessity. All non-preferred products require a trial of at least two preferred products with the same indication before a non-preferred drug will be authorized unless contraindicated, not clinically appropriate, or only one product is preferred.

- ▶ **Motion: Davydow**
- ▶ **2nd: Flynn**
