

EXECUTIVE SUMMARY

Washington State's Foundational Community Supports Programs SUPPORTED EMPLOYMENT & SUPPORTIVE HOUSING

July 8, 2020

The number of newly Enrolled participants entering the Foundational Community Supports program has decreased in recent months. This is likely due to COVID-19 related challenges. The Health Care Authority has strongly encouraged shifting from in-person services to virtual telehealth services by providers, including assessments, which was allowed under the waiver prior to the pandemic.

Enrollment in the Foundational Community Supports Program has continued to grow over time and is now nearly evenly split between those enrolled to receive Supported Employment services and those enrolled to receive Supportive Housing services.

- As of April 2020, 7,566 persons were enrolled in the Foundational Community Supports (FCS) program. 38% (2,890) were enrolled to receive Supported Employment (SE) services only, 46% (3,468) were enrolled to receive Supportive Housing (SH) services only, and 16% (1,208) were jointly enrolled to receive Supported Employment and Supportive Housing services.
- Over the most recent six-month period, total enrollment has increased an average of 4% per-month.
- During the first-year of the program, about one-third of enrollees were enrolled to receive Supportive Housing services. This was in part due to the lag in available Supportive Housing providers. Over the course of CY 2019, Supportive Housing enrollment has caught up, and now 61% of all enrollees are enrolled to receive Supportive Housing or Supported Employment and Supportive Housing services.

FCS enrollees are authorized to receive services for a six-month period. If more time or services are needed, FCS providers may submit an Exception to Rule (ETR) for additional time or services. We observe at least one extension for nearly half of all enrollees.

- As of April 2020, Supported Employment enrollees have an average of 8.2 months of enrollment with 56% having been granted at least one six-month extension. Supportive Housing enrollees have an average of 7.8 months of enrollment with 51% having been granted at least one six-month extension.

FCS Enrollees have a higher use of mental health and substance use disorder services than the general Medicaid population.

- Based on most recently available data (February 2020), 95%/95% of Medicaid-Only Supported Employment/Supportive Housing enrollees had a need for mental health (MH) services within the last 24-months, and 59%/78% had need for substance use disorder (SUD) services. 57%/74% had co-occurring MH/SUD needs.
- While the FCS program does not provide MH or SUD services, it is worth noting the 86%/80% of Medicaid-Only Supported Employment/Supportive Housing enrollees needing MH services received a MH service within the last 12-months compared to 49% of all Medicaid adults (18-64) in CY 2018, and 58%/57% of enrollees needing SUD services received a SUD services compared to 35% of all Medicaid adults (18-64) in CY 2018.

Washington State's Foundational Community Supports Program

SUPPORTIVE HOUSING

July 8, 2020

This report provides a month-by-month look at Medicaid clients enrolled in the Foundational Community Supports (FCS) Supportive Housing program, which began (along with the FCS Supported Employment program) in January 2018.

Note: This report describes the enrolled population for a given month and is not intended to be used for evaluation purposes.

ELIGIBILITY NOTES

Eligibility for Supportive Housing. Medicaid clients age 18 years or older who: 1) have a mental health or substance use treatment need, 2) are receiving long-term services, or 3) have a complex physical health need and/or physical impairment AND meet one of the following criteria at the time of referral:

- Chronically homeless, as defined by the U.S. Housing and Urban Development.
- Had more than one contact with, or a stay longer than 90 days in, a correctional facility, inpatient treatment setting, hospital, skilled nursing facility, or other institutional setting in the past 12 months.
- Have a history of frequent or lengthy adult residential care facility stays.
- Had three or more different in-home caregiver providers in the last 12 months.
- Have a PRISM Risk Score of 1.5 or above.

- **HUD Chronic Homelessness Criteria.** Criteria can be met in two ways. For the **Lengthy criteria** an enrollee is determined to be experiencing 12 continuous months of homelessness within the past year. For the **Frequent criteria** an enrollee is determined to have experienced 4 episodes of homelessness over the past 3 years, which equal 12+ total months spent homeless. The Lengthy and Frequent criteria are not mutually exclusive. Note that the results are a proxy for the HUD criteria based on ACES data, and not Homeless Management Information System (HMIS).
