

HIT Operational Plan Update

September 24, 2019

Agenda

- Support Act Update
- MPI
- Behavioral Health Data Systems
- VBP Provider Survey Update
- Section 1003 Funding
- AIHC EHR Vendor Meeting
- Communication/Outreach Update

Support Act Update

Support Act Update

- HCA received approval from CMS for 100% federal funds:
 - To implement a “Qualified PDMP” system with enhanced functionality that will provide a robust treatment decision making tool for healthcare providers.
 - for interoperable health IT to support efforts to combat the opioid crisis through integrating the PDMP and CDR using:
 - electronic consent management,
 - the availability of additional clinical data sources, and
 - reporting for clinical and case management.
- Funds must be spent by 9/30/2020

Qualified PDMP

- Design, development and implementation of an enhanced PDMP solution that will:
 - streamline provider's registration and login for those having to access the PDMP
 - more quickly process submitted data files (e.g., filled prescription data) to ensure providers have as up-to-date information as possible
 - support the ability to analyze and visualize public health data to inform policy decisions to address the opioid epidemic

Qualified PDMP (cont'd)

- Design, development and implementation of an enhanced PDMP solution that will:
 - allow staff to more effectively track and monitor dispenser data reporting to ensure data are accurate and complete
 - ensure program staff can easily track important data on registrations, utilization, and other key dashboard metrics
 - ensure the health information exchange connection is maintained for integrated access via electronic health record systems
- Technical assistance consulting services to assist providers with integrating PDMP data into the workflow of their electronic health record systems

Consent Management Update

- Securing contractor for project oversight (we are here!)
 - Review of existing materials regarding consent management
 - Requirements gathering
 - Procurement processes (build/buy/partner)
 - Monitoring of development/implementation
- System Development
 - Design system
 - Development iterations
 - Limited pilot of solution

Clinical Data Sources and Reporting for Clinical and Case Management

- Drafting scope of work (we are here!)
- Scope must address:
 - PMP access
 - HIE and/or the CDR
 - SUD
- Scope could focus on:
 - Dually licensed MH/SUD providers
 - E-Care plans
 - Interoperable Intake, Assessment, and Screening tools

Master Person Index

Master Person Index

- HCA, in coordination with the HHS Coalition agencies, are putting forward a legislative funding request to begin a phased implementation of a Master Person Index.
- This effort will focus on building an initial proof of concept that can be scaled with additional functionality to address additional use cases moving forward
- The State is also developing a funding request to CMS to request 90/10 funding to support this work.

Behavioral Health Data Systems

Behavioral Health Data Systems

- Behavioral Health Supplemental Transaction Data Guide was finalized and distributed to MCOs and BH-ASOs the end of August:
 - <https://www.hca.wa.gov/assets/billers-and-providers/behavioral-health-data-system-data-guide-v3.0.pdf>
- Letter distributed to MCOs and BH-ASOs (dated 9/16) clarifying HCA expectations about supplemental transaction reporting.
- Work is progressing on modifying the HCA Behavioral Health Data System (BHDS); plan to open the BHDS test environment for MCOs and BH-ASOs by December 2019.
- HCA continues communication with MCO/BHO/ASO and is responding to questions regarding the data guide.

VBP Provider Survey

VBP Provider Survey

- 173 respondents (but not all respondents completed the survey fully)
 - Top three barriers:
 - Lack of interoperable data systems
 - Misaligned incentives and/or contract requirements
 - Lack of access to comprehensive data on patient populations
 - Top three enablers:
 - Aligned quality measurements and definitions
 - Trusted partnerships and collaboration with payers
 - Development of medical home culture with engaged providers
 - Technical support:
 - 15/62 respondents have received HIT/HIE planning, implementation, and/or reporting technical support
 - 48/75 respondents desire HIT/HIE planning, implementation, and/or reporting technical support moving forward

Section 1003 Funding

Section 1003 Funding

- HCA received an 18 month \$3.8 million cooperative agreement from CMS to develop an “Integrated SUD and Behavioral Health Roadmap 2020-2022”
- Funding supports Phase I activities that include:
 - An initial assessment of the current state of Washington State’s MH and SUD treatment and recovery support service needs
 - A survey of providers who provide SUD treatment and recovery support services, including all forms of MAT. Survey will gather information on HIT/HIE and telehealth
 - Stakeholder and partner group discussions to gather input on the initial assessment and state infrastructure needed to address the SUD treatment and recovery support services
 - Medical Effectiveness Review of non-pharmacologic SUD Treatment and Recovery Interventions
 - Development of SUD Treatment and Recovery Alternative Payment Model
 - Development of Roadmap to drive statewide improvements in BH, SUD, and primary care treatment and recovery support services
- Phase II funding will support a 36 month project during which the Roadmap would be executed

Closed Loop Referral Emerging HIT Standards

- We're scheduling a conversation with ONC to discuss emerging standards for closed loop referral
- Date TBD: Likely the week of 10/7
- Please let us know if you're interested in participating

American Indian Health Commission

- The AIHC hosted a meeting for Indian health care providers (IHCPs) to discuss and learn about needed EHR functionality and what is supported by certain EHR solutions.
- HCA staff listened as invited guests
- Participating vendors:
 - Greenway
 - NextGen
 - EPIC (participated for half day)
- Next steps: IHCPs are interested in a “deep dive” vendor demonstration on BH functionality

Communication/Outreach Update

Events/Outreach: July to Present

- Met with WSMA new Directory of Policy
- Participated in HCA's CQCT open house
- Presented CDR to HCA's VBP consultants
- Networked at the Region 10 Opioid Summit in Vancouver
- Presented in the Healthier Washington Quarterly webinar, presentation archived online
- Met with OneHealthPort and MCO stakeholders
- Presented to DSHS ALTSA staff
- Networked at State of Reform, Spokane

Upcoming Events/Outreach

- Additional MCO meetings with OneHealthPort planned
- Medicaid Transformation Public Forum, Vancouver and streamed via Facebook Live
- Medicaid Learning Symposium, Sea-Tac

Monthly HIT Operational Plan Meetings

- 4th Tues. of every month-Next meeting October 22
- Same webinar, phone number, meeting room. Available at:

<https://register.gotowebinar.com/register/4052018503263997185>

Questions?

More Information:

We anticipate that monthly reports will be posted on HCA Transformation website.
