BX.2	Contract standard for overpayments	Allow plans to retain overpayments
	Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.	
вх.3	Location of contract provision stating overpayment standard	Sections 5 &12 (5.5, 12.1, 12.4 & 12.10) for overpayments made by the plans to their network providers
	Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).	
BX.4	Description of overpayment contract standard	Plans are allowed to keep overpayments recovered from their network providers. The
	Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.	plans must report the identification and recovery of overpayments to the state and must recover identified overpayments within 60 days. The state may assess liquidated damages if the plans fail to identify and recover overpayments as required.
BX.5	State overpayment reporting monitoring	The state requires the plans to report all program integrity activities on a monthly

deliverable that includes audit detail, encounter

Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting? The regulations at 438.604(a) (7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment topics (whether annually or promptly). This indicator is asking the state how it monitors that reporting.

detail, identified and recovered overpayment amounts. The state reviews and validates overpayment recoveries against submitted encounter data and meets with the plans quarterly to discuss their program integrity performance and clarify any discrepancies between reported program integrity activities and submitted encounter data. In addition, the plans are required to submit an annual report of program integrity activities that rolls up and reports identified and recovered overpayments and cost avoidance amounts for the prior calendar year.

## BX.6 Changes in beneficiary circumstances

Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).

The state issues the 834 Benefit and Enrollment Maintenance report to each MCO every day to ensure eligibility files are up-to-date. In addition, the files are audited each month to ensure enrollment files are accurate. The state also requires the plans to report demographic changes through MC-Track using the Newborn Payment Assistance Request Form (NB PARF) for newborn retro-enrollment and the Payment Assistance Request Form (PARF) for all other payment and enrollment inquiries to include but not limited to Service Base Enhancements (DCR, WISe, etc.), regular premium payments and other demographic changes that may impact eligibility (DOD, out-of-state address, etc.).

## BX.7a Changes in provider circumstances: Monitoring plans

Does the state monitor whether plans report provider "for cause" terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.

Yes

## BX.7b Changes in provider circumstances: Metrics

Does the state use a metric or indicator to assess plan reporting performance? Select one.

No

#### BX.8a Federal database checks: Excluded person or entities

During the state's federal database checks, did the state find any person or entity excluded? Select one.

No

Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases.

## BX.9a Website posting of 5 percent or more ownership control

Yes

Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).

## BX.9b Website posting of 5 percent or more ownership control: Link

What is the link to the website? Refer to 42 CFR 602(g)(3).

https://www.hca.wa.gov/about-hca/other-administrative-activities/audits-and-reporting

#### BX.10 Periodic audits

If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, provide the link(s) to the audit results. Refer to 42 CFR 438.602(e). If no audits were conducted, please enter 'No such audits were conducted during the reporting year' as your response. 'N/A' is not an acceptable response.

Encounter and Financial audits are still in process. Results will be posted upon completion, as required to: https://www.hca.wa.gov/about-hca/otheradministrative-activities/audits-and-reporting

## C1III.5 Incentives for encounter data quality

Describe the types of incentives that may be awarded to managed care plans for encounter data quality. Reply with "N/A" if the plan does not use incentives to award encounter data quality.

## C1III.6 Barriers to collecting/validating encounter data

Describe any barriers to collecting and/or validating managed care plan encounter data that the state has experienced during the reporting year. If there were no barriers, please enter 'The state did not experience any barriers to collecting or validating encounter data during the reporting year' as your response. 'N/A' is not an acceptable response.

Barriers we experienced though not limited to were data quality issues, timeliness, data format compatibility, technical challenges, and contractor reluctance/resistance.

If the state and MCPs did not encounter any challenges, please enter 'No challenges were encountered' as your response. 'N/A' is not an acceptable response.	rural areas where certain types of providers are not prevalent resulting in exceptions.
C1V.2	State response to gaps in network adequacy	Legislature authorized major rate increases to help with workforce retention and recruitmen
	How does the state work with MCPs to address gaps in network adequacy?	If provider shortages are caused by lack of providers or workforce shortages that are unlikely to be resolved the need for an exception for that county is explored. To date this has happened in a limited capacity and has affected only specialty providers. Most often, the state will research gaps in network adequacy and work with the MCP to resolve via additional contracting in the area, data error resolution resulting in erroneous gaps, and/or corrective action plans with monetary penalties when issues require escalation.

#### **Access Measures**

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

## C1IX.4 State evaluation of BSS entity performance

What are steps taken by the state to evaluate the quality, effectiveness, and efficiency of the BSS entities' performance?

The Exchange partners with Navigators and Brokers to perform outreach and enrollment activities. The Exchange supports quality, effectiveness, and efficiency through metrics such as monthly enrollment reports and KPIs. Navigators: • Lead Organizations send monthly enrollment and outreach reports to the Exchange. • Quality, effectiveness, and efficiency is measured by the key performance indicators (KPIs): o Complete outreach plan and report delivered monthly o Monthly outreach activities reach attendance limit o Favorable support and responsiveness ratings from Navigators they support during the yearly Navigator Survey o Navigator background checks are completed timely every two years o Navigators pass certification guizzes within the first three attempts o Partner Organization subcontracts (MOUs) are executed and submitted to the Exchange timely o Minimum standards of Qualified Health Plan reenrollment of customers partnered with a Navigator Brokers: • Brokers must sign a Washington Health Benefit Exchange Producer Participation Agreement confirming: o They will comply with all Exchange policies and procedures including but not limited to those relate to enrollment solicitation, submission of applications, and sales requirements. o They will comply with all applicable federal and state laws and regulations, including those governing data protection, confidentiality, and conflicts of interest, and to abide by all rules, regulations, policies, and procedures established by the Exchange, including, but not limited to, required training, annual update training, and Exchange privacy and security standards. • Brokers must present a Scope of Appointment form to prospective customers prior to all sales presentations. o The Exchange requires Brokers to document the scope of the marketing appointment to ensure consumers understand what will be discussed between the

Broker and the consumer (or their authorized representative). o Forms are to be maintained by the producer and made available upon the request of the Exchange. Brokers and Navigators: • Assisters are required to certify with the Exchange to access Washington Healthplanfinder. • Assisters complete initial onboarding training and security and privacy training annually. • Navigators also must complete a job shadow requirement. • Brokers are required to complete a re-certification training plan and Navigators are required to complete quarterly training to retain their Washington Healthplanfinder access. • Training provided helps keep assisters informed of systems, process, regulations, and updates to the Washington Healthplanfinder application. • Assisters complete a User Access Agreement when onboarding and during their yearly security refresh training.

showed include: inappropriate denials, strain on healthcare providers, unwarranted appeals, necessity for additional administrative hearings.

### D3.VIII.4 Reason for intervention

Non-compliance with specified obligations outlined in the Integrated Managed Care (IMC) contracts from 2017 to 2023, as determined by the Health Care Authority (HCA). Specifically, AMG's failure to adhere to Utilization Management (UM) and Authorization of Services requirements has resulted in tangible harm experienced by enrollees and the State's Medicaid program.
